Approval of amendments to Power Purchase Agreement between Kalaeloa Partners, L.P. and HECO

On October 12, 2004, Kalaeloa Partners L.P. (Kalaeloa) and HECO executed two amendments to their power purchase agreement (PPA), subject to approval by the Hawaii Public Utilities Commission (PUC) and certain other conditions, which may result in 29 additional megawatts (MW) of firm capacity being made available to HECO. These amendments were filed as HECO Exhibits 10.3 and 10.4 to HECO's Form 10-Q for the quarterly period ended September 30, 2004. The additional firm capacity provided by the amendments is an important part of management's plan to meet increasing load growth and decreasing reserve margins until additional generation can be added.

On May 13, 2005, the PUC issued a decision and order approving the amendments and determining that HECO may include the additional costs resulting from the amendments in its revenue requirements for rate making purposes. Subject to the satisfaction of certain conditions, the amendments will become effective, and additional firm capacity of up to 29 MW will be made available, when the costs of the additional capacity and purchased power are recoverable from ratepayers in HECO's current rate case proceeding, which is expected to occur on the effective date of an interim decision that management currently anticipates may be issued in the fourth quarter of 2005.

When the first of these amendments becomes effective, Kalaeloa has agreed to make available to HECO the information HECO needs to (1) determine if HECO must consolidate Kalaeloa under the provisions of Financial Accounting Standards Board Interpretation No. 46R (FIN 46R), Consolidation of Variable Interest Entities, (2) consolidate Kalaeloa, if necessary under FIN 46R, and (3) comply with Section 404 of the Sarbanes-Oxley Act of 2002. The consolidation of Kalaeloa, if required, could have a material effect on HECO's consolidated financial statements, including the recognition of a significant amount of assets and liabilities, and, if Kalaeloa were operating at a loss and had insufficient equity, the potential recognition of such losses.
