NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(UNAUDITED)

1. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles (U.S. GAAP) for interim financial information. Accordingly they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of financial position and results of operations have been included. Operating results for the nine months period ended September 30, 2005 are not necessarily indicative of the results that may be expected for the year ended December 31, 2005. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company s annual report on form 10-K for the year ended December 31, 2004.

Solely for the convenience of the reader, the accompanying consolidated financial statements as of September 30, 2005 and for the nine months then ended have been translated into United States dollars (USD) at the rate of EUR 0.83 per USD 1.00 the interbank exchange rate on September 30, 2005. The translations should not be construed as a representation that the amounts shown could have been, or could be, converted into US dollars at that or any other rate.

2. Stock-Based Compensation

On December 16, 2004, the Financial Accounting Standards Board issued SFAS No. 123 (revised 2004), (SFAS 123(R)), which is a revision of SFAS 123. SFAS 123(R) supersedes APB 25, and amends SFAS No. 95, Statement of Cash Flows . Generally, the approach in SFAS 123(R) is similar to the approach described in SFAS 123. However, SFAS 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. SFAS 123(R) will be effective for the Company on January 1, 2006 and the Company expects to adopt SFAS 123(R) using the modified-prospective method as proscribed in SFAS 123(R). The adoption of SFAS 123(R) s fair value method will have an impact on the Company s results of operations, although it will have no impact on its overall financial position. While the Company cannot estimate the level of share-based payments to be issued in the future, based on the stock options that are currently outstanding, the Company expects that the adoption of SFAS 123(R) will not result in any significant charges to operations in 2006.

As permitted by Statement of Financial Accounting Standards No. 123 (SFAS No. 123), Accounting for Stock-Based Compensation, the Company currently follows Accounting Principles Board Opinion No. 25 (APB 25), Accounting for Stock Issued to Employees, and related Interpretations for measurement and recognition of stock-based transactions with employees and adopted the disclosure-only provisions of SFAS No. 123. Under APB 25, generally no compensation expense is recognized since at the date of grant, the exercise price of stock options is set: a) at, or above, current price at closing of market or, b) at the price at closing of market on a pre-determined future date.

Had compensation cost for the Company s stock based compensation issued to employees been determined based upon the fair value at the grant date consistent with the methodology prescribed under

PRIVATE MEDIA GROUP, INC.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(UNAUDITED)

SFAS 123, the Company s pro forma net income (loss) for 2004 and 2005 would have been as per the following table:

	Three-months ended September 30, (unaudited)		Nine-months ended September 30, (unaudited)

	EUR (in thousands)	EUR	EUR (in thousands)	EUR
Net income (loss), as reported	700	(73)	2,643	(44)
Deduct: Total stock based employee compensation expense determined under fair value based method for all awards net of related tax effects	(13)	(27)	(47)	(245)
Pro forma net income (loss)	687	(100)	2,596	(289)
Earnings (loss) per share:				
Basic as reported	0.01	0.00	0.05	0.00
Basic pro forma	0.01	0.00	0.05	0.00
Diluted as reported	0.01	0.00	0.05	0.00
Diluted pro forma	0.01	0.00	0.05	0.00

3. Transaction

Sale of building

On February 4, 2005, we entered into an agreement with Local i Serveis Sant Cugat, S.L. to sell our real estate property located in Barcelona, Spain. The consideration under the agreement was 6.9 million euro, of which 3.4 million had been received as of September 2005. The balance of the consideration due amounting to 3.5 million euro is included in receivable from sale of building and will be received no later than November of 2005. The amount due is secured by the title to the property which will revert back to us in case of non-payment. Part of the proceeds from the sale will be used to repay the outstanding balance on the loan related to the building. The outstanding loan balance of EUR 1.3 million is included in current portion of long-term borrowings.

4. Related party receivable and payable

In January 2005, the Company presented a claim to the previous owner of our real estate property located in Barcelona, Spain. Under the claim the Company was awarded EUR 2.2 million. The increase in related party receivable of EUR 1.5 million, together with the reduction of EUR 0.7 million in related party payable, reflects this claim. The full value of the claim has been applied as a reduction to the value of the property.

PRIVATE MEDIA GROUP, INC.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(UNAUDITED)

5. Inventories

Inventories consist of the following:

	December 31, 2004	September 30, 2005
	EUR	EUR
	(in thousands)	
Magazines for sale and resale	3,955	3,695
Video cassettes	733	397
DVDs	5,049	6,091
Other	241	544
	9,978	10,727

6. Earnings per share

The following table sets forth the computation of basic and diluted earnings per share:

	Three-months ended September 30,		Nine-months ended September 30,	
	2004	2005	2004	2005
Numerator: (EUR in thousands)				
Net income (loss)	700	(73)	2,643	(44)
Denominator:				
Denominator for basic earnings per share Weighted average shares	50,130,762	52,152,232	50,102,274	51,587,713
Effect of dilutive securities:				
Convertible Note Weighted average outstanding	971,562	n/a	978,387	n/a
Common stock warrants and options	1,181,199	n/a	1,175,442	n/a
Denominator for diluted earnings per share weighted average shares and assumed conversions	52,283,523	n/a	52,256,104	n/a
Earnings (loss) per share in EUR				
Basic	0.01	0.00	0.05	0.00
Diluted	0.01	0.00	0.05	0.00

For the three months and the nine months ended September 30, 2005 diluted impact of potentially dilutive securities is anti-dilutive therefore diluted and basic loss per share is EUR 0.00. The equivalent of 1,105,197 and 1,573,654 common shares derived from dilutive securities such as options, warrants and convertible notes are excluded from the diluted earnings per share for the three months and nine months ended September 30, 2005, respectively, as they are anti-dilutive.

PRIVATE MEDIA GROUP, INC.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(UNAUDITED)

7. Contingent Liability

In December 1999 the Company received final notification from the Swedish Tax Authority assessing its subsidiary in Cyprus for the tax years 1995-1998 for a total amount of SEK 42,000,000 (approx. EUR 4.5 million) plus fines amounting to SEK 16,800,000 (approx. EUR 1.8 million) plus interest. The Swedish Tax Authority has taken the position that the subsidiary carried on business in Sweden from a permanent establishment during the period in question and should therefore be taxed on the income attributable to the permanent establishment. The case is under litigation and the Company believes the circumstances supporting the Tax Authority s claim are without merit. However, the Administrative Court of Appeal has decided that a permanent establishment is at hand. The Court has only made a principle statement and the question how to calculate any eventual profit that can be allocated to the permanent establishment is not decided by the Court at this stage. The Company has appealed against the decision. The final outcome of this litigation will not be known for several years. Due to the early stages of this matter and the uncertainty regarding the ultimate decision, no amounts have been provided in the Company s financial statements for this dispute.

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

You should read this section together with the consolidated financial statements and the notes and the other financial data in this Report. The matters that we discuss in this section, with the exception of historical information, are forward-looking statements within the meaning of the Private Securities Reform Act of 1995. Such forward-looking statements are subject to risks, uncertainties and other factors which could cause our actual results to differ materially from those expressed or implied by such forward-looking statements. Potential risks and uncertainties relate to factors such as (1) the timing of the introduction of new products and services and the extent of their acceptance in the market; (2) our expectations of growth in demand for our products and services; (3) our ability to successfully implement expansion and acquisition plans; (4) the impact of expansion on our revenue, cost basis and margins; (5) our ability to respond to changing technology and market conditions; (6) the effects of regulatory developments and legal proceedings with respect to our business; (7) the impact of exchange rate fluctuations; and (8) our ability to obtain additional financing.

The following discussion should be read in conjunction with the consolidated financial statements and related notes included elsewhere in this Report.

References in this report to we, us, the Company and Private refer to Private Media Group, Inc., a Nevada corporation, including its consolidated subsidiaries.

Overview

We are an international provider of adult media content. We acquire still photography and motion pictures from independent directors and process these images into products suitable for popular media formats such as print publications, DVDs, video cassettes and digital media content for Broadcasting, Broadband and Internet distribution. In addition to media content, we also market and distribute branded leisure and novelty products oriented to the adult entertainment lifestyle and generate additional sales through the licensing of our *Private* trademark to third parties.

We operate in a highly competitive, service-oriented market and are subject to changes in business, economic and competitive conditions. Nearly all of our products compete with other products and services that utilize adult leisure time and disposable income.

We generate revenues primarily through:

- sales of movies on DVD;
- sales of adult feature magazines;
- Internet subscriptions and licensing;
- broadcasting content through cable, satellite, broadband and hotel television programming; and

content, brand name and trademark licensing.

Over time, we expect net sales from magazines and videocassettes to continue to decline as a percentage of net sales in relation to total net sales from DVDs, the Internet and broadcasting. We expect net sales from DVDs, the Internet and broadcasting to grow during the coming years.

We released 104 titles on DVD during 2004, 111 titles during 2003 and 120 titles during 2002, including both new and archival material. We plan to release approximately 120 proprietary titles on DVDs in 2005. In addition, in 2004 we signed an exclusive three year Agreement with US-based Pure Play Media, Inc. for content distribution in Europe. Under the agreement, we will distribute approximately six to eight newly produced movie titles per month in Europe, our main market for DVDs. The content controlled by Pure Play Media features top US producers and directors such as Michael Ninn, Seymore Butts, and Cousin Stevie. The arrangement is based on a split of gross profit and does not require any up-front or future investment in content by Private. We started releasing titles on DVD under the agreement during the second quarter of 2005.

In 2004 we restructured our US operations and our US subsidiary outsourced its distribution of physical products, inclusive of Internet shop fulfillment. The restructuring started September 30, 2004 and was completed during the first quarter of 2005. We expect the impact of the restructuring to increase operating profit in 2005 compared to 2004, however, the restructuring will reduce sales from the US compared to 2004 since we are reporting sales net of agent s commission as from January 1, 2005.

We recognize net sales on delivery (for further information, see Critical Accounting Estimates).

Even though we recognize net sales upon delivery, we generally provide extended payment terms to our distributors of between 90 and 180 days. Although our extended payment terms increase our exposure to accounts receivable write-offs, we believe our risk is minimized by our generally long-term relationships with our distributors. In addition, we view our extended payment terms as an investment in our distribution channels which are important to the growth of our business.

Our primary expenses include:

- acquisition of content for our library of photographs and videos;
- printing, processing and duplication costs; and
- selling, general and administrative expenses.

Our magazines and DVD and videocassette covers are printed by independent third-party printers in Spain. We introduced DVDs as a motion picture medium in 1999. The production of each DVD master disc, prior to duplication, costs approximately $10,000. DVDs have a relatively low cost of duplication, inclusive of box and packaging, of approximately $2.00 per unit. Our DVDs are duplicated on an all region format, playable on both NTSC and PAL with multiple languages and sub-titles.

Over the years, our cost of sales has been fluctuating relative to net sales due to our use of new mediums for our products, such as the Internet, DVD and broadcasting. Internet and broadcasting sales has historically not carried any cost of sales and variations in these areas affect the overall cost of sales percentage in relation to sales. These new media provide us with additional sales of our existing content

We also incur significant intangible expenses in connection with the amortization of our library of photographs and movies and capitalized development costs, which include the Internet. We amortize these tangible and intangible assets on a straight-line basis for periods of between three and five years.

Critical Accounting Estimates

General

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amount of assets and liabilities revenues and expenses. On an ongoing basis, we evaluate our estimates, including those related to impairment of the library of photographs and videos and other long lived assets, allowances for bad debt, income taxes and contingencies and litigation. Accounts receivable and sales related to certain products are, in accordance with industry practice, subject to distributors right of return to unsold items. We base our estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Management periodically reviews such estimates. Actual results may differ from these estimates as a result of unexpected changes in trends.

We believe the following critical accounting policies are significantly affected by judgments and estimates used in the preparation of our consolidated financial statements.

Recognition of Revenue

Revenues from the sale of magazines, videocassettes, DVD s and other related products where distributors are not granted rights-of-return are recognized upon transfer of title, which generally occurs upon delivery.

The Company sells magazines to wholesalers on firm sale basis and via national newsstand distributors with the right to return. Our magazines are multi-lingual and the principal magazine market is in Europe.

Revenues from the sale of magazines under agreements that grant distributors rights-of-return are recognized upon transfer of title, which generally occurs on delivery, net of an allowance for returned magazines. Distributors with the right to return are primarily national newsstand distributors. Most of our magazines are bi-monthly (six issues per year) and remain on sale at a newsstand for a period of two months. Normally, all unsolds are reported to us within a period of four to six months from delivery. There are normally two to four national newsstand distributors for all newspapers and periodicals in each country. A majority of our national newsstand distributors are members of Distripress, the international organization for publishers and distributors, and carry out the distribution of the largest national and international newspapers and periodicals, including: Financial Times, Herald Tribune, Time, Newsweek, Vogue, etc.

The Company uses specific return percentages per title and distributor based on estimates and historical data. The percentages vary from 50-80%. Higher percentages generally reflect newer markets and/or products. Percentages are reviewed on an on-going basis.

The magazines have an approximate retail price of EUR 11.50 (USD 13.85) per copy and are printed on glossy high-quality paper at a cost of EUR 1.25 (USD 1.50). They are often shrink-wrapped in order to comply with local regulation or guidance for the sale of adult publications. In view of the high retail price, the margin and the physical quality of the magazines and the fact that the content has a very

long shelf-life since it is not particularly linked to time, trends, fashion or current events, the Company has always collected the returns from newsstands in order to make them available for sale again.

The Company has scheduled re-distribution of the returned magazines, via national newsstand distributors, as Megapacks or Superpacks (three different copies per pack) where the retail price is EUR 14.95 (USD 18.00). As the national newsstand distributors have the right to return, the packs come back to us and are then broken up in individual copies in order to be sent out in DVD packs, see below, or sold on firm sale basis to wholesalers as back numbers at a lower price than new issues.

The Company recently started scheduled re-distribution of returned magazines, via national newsstand distributors, together with DVDs as Magazine/DVD packs as a way of increasing DVD distribution. Since the national newsstand distributors have the right to return, the DVD packs are returned and the magazines are broken out in order to be sold on firm sale basis to wholesalers as back numbers at a lower price than new issues. The Company has historically sold all copies printed at an average price higher than, or equal, to cost.

Revenues from the sale of videocassette and DVD products under consignment agreements with distributors are recognized based upon reported sales by the Company s distributors. Revenues from the sale of subscriptions to the Company s internet website are deferred and recognized ratably over the subscription period. Revenues from licensing of broadcasting rights to the Company s video and film library are recognized upon delivery when the following conditions have been met (i) license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale (ii) the arrangement fee is fixed or determinable and (iii) collection of the arrangement fee is reasonably assured. Revenues from satellite & cable broadcasting are recognized based on sales reported each month by its cable and satellite affiliates. The affiliates do not report actual monthly sales for each of their systems until approximately 60 90 days after the month of service ends. This practice requires management to make monthly revenue estimates based on historical experience for each affiliated system. Revenue is subsequently adjusted to reflect the actual amount earned upon receipt. Adjustments made to adjust revenue from estimated to actual have historically been immaterial.

Accounts receivable

We are required to estimate the collectibility of our trade receivables and notes receivable. A considerable amount of judgment is required in assessing the ultimate realization of these receivables including the current credit-worthiness of each customer. Significant changes in required reserves have been recorded in the past and may occur in the future due to the current market environment.

Management reviews the allowance for doubtful accounts on at least a quarterly basis and adjusts the balance based on their estimate of the collectibility of specific accounts as well as a reserve for a portion of other accounts which have been outstanding for more than 180 days. This estimate is based on historical losses and information about specific customers. After collection attempts have failed, the Company writes off the specific account.

Goodwill and Other Intangible Assets

On January 1, 2002 the Company adopted Financial Accounting Standards Board Statement (SFAS) No. 142, Goodwill and Other Intangible Assets . Under SFAS 142, goodwill and indefinite lived intangible assets will no longer be amortized but will be reviewed annually for impairment (or more frequently if indicators of impairment arise).

During 2002, the Company performed an initial impairment test of goodwill and indefinite lived intangible assets as of January 1, 2002. This generally required us to assess these assets for recoverability when events or circumstances indicate a potential impairment by estimating the undiscounted cash flows to be generated from the use of these assets. There was no effect of on the earnings and financial position of the Company as a result of the impairment testing.

Impairment of Long-Lived Assets

The Company periodically evaluates the carrying value of long-lived assets including its library of photographs and videos for potential impairment. Upon indication of impairment, the company will record a loss on its long-lived assets if the undiscounted cash flows that are estimated to be generated by those assets are less than the related carrying value of the assets. An impairment loss is then measured as the amount by which the carrying value of the asset exceeds the estimated discounted future cash flows. Management s estimated future revenues are based upon assumptions about future demand and market conditions and additional write downs may be required if actual conditions are less favorable than those assumed.

Inventories

Inventories are valued at the lower of cost or market, with cost principally determined on an average basis. Inventories principally consist of DVD s, videocassettes and magazines held for sale or resale. The inventory is written down to the estimated market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional write-downs may be required.

Results of Operations

Three months ended September 30, 2005 compared to the three months ended September 30, 2004

Net sales. For the three months ended September 30, 2005, we had net sales of EUR 6.3 million compared to net sales of EUR 10.6 million for the three months ended September 30, 2004, a decrease of EUR 4.3 million or 40%.

DVD sales decreased EUR 2.6 million, or 46%, to EUR 3.1 million. The decrease in DVD sales compared to 2004 was primarily attributable to a non-recurring sale of inventory of EUR 1.3 million in 2004 to our new US distributor and our outsourcing in the US where we now report sales net of agent s commission (see discussion under *Overview* above). The negative impact of reporting US sales net of agent s commission was EUR 0.6 million. Video sales decreased EUR 1.1 million or 100% to EUR 0.0 million. The decrease in video sales was the result of a general industry decrease in video sales due to the migration from video to DVD. Magazine sales decreased EUR 0.4 million, or 22% to EUR 0.9 million as a result of lower quantities sold during the three month period. Internet sales decreased EUR 0.4 million, or 26%, to EUR 1.1 million as a result of lower conversion rates as result of new securer but less user friendly payment processes for credit cards, e.g. Verified by VISA. We believe conversion rates will revert to prior levels as consumers get used to the new payment processes. Broadcasting sales increased EUR 0.1 million, or 9%, to EUR 1.3 million as a result of increased mobile content and VOD sales in the period (see discussion under *Outlook* below).

Going forward, we expect DVD, Internet and Broadcasting sales to increase (see discussion under *Outlook* below).

Cost of Sales. Our cost of sales was EUR 3.1 million for the three months ended September 30, 2005 compared to EUR 5.5 million for the three months ended September 30, 2004, a decrease of EUR 2.4 million, or 43%.

Included in cost of sales is printing, processing and duplication, amortization of library and broadcasting costs. Printing, processing and duplication cost was EUR 1.2 million for the three months ended September 30, 2005 compared to EUR 3.2 million for the three months ended September 30, 2004. Printing, processing and duplication cost as a percentage of sales was 19% for the three months ended September 30, 2005 compared to 30% for the three months ended September 30, 2004, which represents a decrease of 11%. The decrease was the result of sales mix. Amortization of library was EUR 1.7 million for the three months ended September 30, 2005 compared to EUR 2.0 million for the three months ended September 30, 2004, a decrease of EUR 0.3 million. Amortization of library does not vary with sales since it reflects the amortization of our investments in content which has been available for sale for a period of three to five years. The decrease was the result of lower amounts invested in content released during the period subject to amortization in 2005 compared to 2004. Broadcasting cost was EUR 0.2 million for the three months ended September 30, 2005 compared to EUR 0.3 million for the three months ended September 30, 2004. Broadcasting cost represents programming and transmission cost.

Gross Profit. In the three months ended September 30, 2005, we realized a gross profit of EUR 3.2 million, or 50% of net sales compared to EUR 5.1 million, or 48% of net sales for the three months ended September 30, 2004. The increase in gross profit as a percentage of sales was primarily the result of higher high margin sales, e.g., Internet and Broadcasting, in relation to cost of sales.

Selling, general and administrative expenses. Our selling, general and administrative expenses were EUR 3.4 million for the three months ended September 30, 2005 compared to EUR 4.4 million for the three months ended September 30, 2004, a decrease of EUR 1.0 million, or 23%. We attribute the decrease primarily to reductions in bad debt expense and depreciation, and the outsourcing of distribution in the United States. We expect selling, general and administrative expenses to continue to decrease in 2005 compared 2004.

Operating profit/loss. We reported an operating loss of EUR 0.2 million for the three months ended September 30, 2005 compared to an operating profit of EUR 0.8 million for the three months ended September 30, 2004. The decrease is the result of lower gross profit offset by decreased selling, general and administrative expenses.

Interest expense. We reported interest expense of EUR 0.2 million for the three months ended September 30, 2005, compared to EUR 0.2 million for the three months ended September 30, 2004.

Income tax benefit. We reported income tax benefit of EUR 0.2 million for the three months ended September 30, 2005, compared to EUR 0.1 million for the three months ended September 30, 2004. The increase in income tax benefit is a result of higher losses being recorded in jurisdictions with higher corporate tax rates.

Net income/loss. We reported a net loss of EUR 0.1 million for the three months ended September 30, 2005, compared to net income of EUR 0.7 million for the three months ended September 30, 2004. We attribute the change in net income in 2005 of EUR 0.8 million to lower operating profit.

Nine months ended September 30, 2005 compared to the nine months ended September 30, 2004

Net sales. For the nine months ended September 30, 2005, we had net sales of EUR 20.8 million compared to net sales of EUR 29.8 million for the nine months ended September 30, 2004, a decrease of EUR 9.0 million or 30%.

DVD sales decreased EUR 4.6 million, or 29%, to EUR 11.4 million. The decrease in DVD sales compared to 2004 was primarily attributable to a non-recurring sale of inventory of EUR 1.3 million in 2004 to our new US distributor and to one month s loss of sales of new releases equal to approximately EUR 1.0 million. The loss of sales was the result of our DVD duplicator suffering a logistics and delivery breakdown in February 2005. In addition DVD sales were affected by the outsourcing in the US where we now report sales net of agent s commission (see discussion under *Overview* above). The negative impact of reporting US sales net of agent s commission was EUR 1.8 million. Video sales decreased EUR 2.0 million, or 89%, to EUR 0.3 million. The decrease in video sales was the result of a general industry decrease in video sales due to the migration from video to DVD. Magazine sales decreased EUR 0.9 million, or 22% to EUR 3.1 million as a result of lower quantities sold during the nine month period. Internet sales decreased EUR 0.9 million, or 24%, to EUR 3.1 million as a result the closing down of our third party payment processor for US transactions. Subsequently, we temporarily transferred our US transactions to our payment processor for European transactions, however, this did not fully replace the number of transactions. As of July 2005 we have a new payment processor for US transactions online. In addition to the reorganization of our US payments, we have also been experiencing lower conversion rates as result of new securer but less user friendly payment processes for credit cards, e.g. Verified by VISA. We believe conversion rates will revert to prior levels as consumers get used to the new payment processes. Broadcasting sales decreased EUR 0.6 million, or 16%, to EUR 3.0 million as a result of lower content licensing sales offset by an increase in mobile content and VOD sales in the period.

Going forward, we expect DVD, Internet and Broadcasting sales to increase (see discussion under *Outlook* below).

Cost of Sales. Our cost of sales was EUR 11.8 million for the nine months ended September 30, 2005 compared to EUR 13.8 million for the nine months ended September 30, 2004, a decrease of EUR 2.0 million, or 14%.

Included in cost of sales is printing, processing and duplication, amortization of library and broadcasting costs. Printing, processing and duplication cost was EUR 6.3 million for the nine months ended September 30, 2005 compared to EUR 7.8 million for the nine months ended September 30, 2004. Printing, processing and duplication cost as a percentage of sales was 30% for the nine months ended September 30, 2005, compared to 26% for the nine months ended September 30, 2004, which represents an increase of 4%. The increase was primarily the result of sales mix. Amortization of library was EUR 5.0 million for the nine months ended September 30, 2005 compared to EUR 5.3 million for the nine months ended September 30, 2004, a decrease of EUR 0.3 million. Amortization of library does not vary with sales since it reflects the amortization of our investments in content which has been available for sale for a period of three to five years. The decrease was the result of lower amounts invested in content released during the

period subject to amortization in 2005 compared to 2004. Broadcasting cost was EUR 0.4 million for the nine months ended September 30, 2005 compared to EUR 0.8 million for the nine months ended September 30, 2004. Broadcasting cost represents programming and transmission cost.

Gross Profit. In the nine months ended September 30, 2005, we realized a gross profit of EUR 9.0 million, or 43% of net sales compared to EUR 16.0 million, or 54% of net sales for the nine months ended September 30, 2004. The decrease in gross profit as a percentage of sales was primarily the result of lower high margin sales e.g., Internet and Broadcasting, and the effect of amortization of library which does not vary with sales.

Selling, general and administrative expenses. Our selling, general and administrative expenses were EUR 10.4 million for the nine months ended September 30, 2005 compared to EUR 13.3 million for the nine months ended September 30, 2004, a decrease of EUR 2.9 million, or 22%. We attribute the decrease primarily to reductions in bad debt expense and depreciation, and the outsourcing of distribution in the United States, offset by non-recurring expenses of EUR 0.5 million related to a weekly publication which was launched and discontinued during the period. We expect selling, general and administrative expenses to continue to decrease in 2005.

Gain on sale of building. We reported gain on sale of building of EUR 1.3 million for the nine months ended September 30, 2005.

Operating profit. We reported an operating loss of EUR 0.2 million for the nine months ended September 30, 2005 compared to an operating profit of EUR 2.7 million for the nine months ended September 30, 2004. The decrease is the result of lower gross profit offset by decreased selling, general and administrative expenses and gain on sale of building.

Interest expense. We reported interest expense of EUR 0.5 million for the nine months ended September 30, 2005, compared to EUR 0.6 million for the nine months ended September 30, 2004. The decrease is the result of less debt outstanding during the period.

Income tax benefit. We reported income tax benefit of EUR 0.5 million for the nine months ended September 30, 2005, compared to EUR 0.4 million for the nine months ended September 30, 2004.

Net income. We reported net income of EUR 0.0 million for the nine months ended September 30, 2005, compared to EUR 2.6 million for the nine months ended September 30, 2004. We attribute this change in net income in 2005 of EUR 2.6 million, to decreased operating profit.

Liquidity and Capital Resources

We reported a working capital surplus of EUR 23.0 million at September 30, 2005, an increase of EUR 4.8 million compared to the year ended December 31, 2004. The increase is principally attributable to the sale of our real estate property in Barcelona.

Operating Activities

Net cash provided by operating activities was EUR 2.8 million for the nine months ended September 30, 2005, and was primarily the result of net income, as adjusted for non-cash transactions,

offset by uses of cash related to changes in operating assets and liabilities. The net income of EUR 0.0 million was adjusted to reconcile net income to net cash flows from operating activities, representing depreciation of EUR 0.8 million, bad debt provision of EUR 0.1 million, amortization of other intangible assets of EUR 0.1 million and amortization of photographs and videos of EUR 5.0 million making a total of EUR 6.1 million which was offset by gain on sale of building of EUR 1.3 million, providing a net balance of EUR 4.8 million. The total of EUR 4.8 million was then reduced by changes in trade accounts receivable, related party receivable, inventories, prepaid expenses and other current assets and income taxes payable totaling EUR 2.4 million offset by EUR 0.4 million from accounts payable trade and accrued other liabilities. Net cash provided by operating activities was EUR 6.5 million for the nine months ended September 30, 2004. The decrease in cash provided by operating activities for the nine months ended September 30, 2005 compared to the same period last year is primarily the result of net income, as adjusted for non-cash transactions.

Investing Activities

Net cash used in investing activities for the nine months ended September 30, 2005 was EUR 2.3 million. The investing activities were principally investment in library of photographs and videos of EUR 6.1 million, which was carried out in order to maintain the 2005/2006 release schedules for both magazines and DVD offset by EUR 3.4 million from part-payment on sale of building and EUR 0.6 million from note receivable. Despite the increase in investment in library of photographs and videos of EUR 2.8 million, or 82%, net cash used in investing activities decreased EUR 0.9 million over the same period last year. The decrease is principally due to the absence of capital expenditures related to the construction of a building carried out in 2004.

Financing Activities

Net cash used in financing activities for the nine-month period ended September 30, 2005 was EUR 1.8 million, represented primarily by EUR 2.1 million in repayments on long-term borrowings offset by EUR 0.3 million in cash provided by short- and long-term borrowings. We attribute the change of EUR 0.7 million in net cash used in financing activities over the comparable nine-month 2004 period to repayments on borrowings offset by the absence of additions to borrowings. The main movements during the nine-month period ended September 30, 2005 are described as follows:

The $3.0 million loan from Beate Uhse AG was reduced by EUR 0.7 million, inclusive of exchange rate changes. As of September 30, 2005 the loan was repaid. The $4.0 million Note held by Consipio Holding b.v. increased by EUR 0.2 million inclusive of exchange rate changes. As of September 30, 2005 the remaining balance on the Note was EUR 2.4 million.

The Company has a loan from an institutional lender obtained for the purpose of financing the construction of an office building. During the period EUR 1.0 million was repaid on the loan and as of September 30, 2005 the remaining balance was EUR 1.3 million.

In May 2003, Euro 1.65 million of the related party note payable to Luthares was re-financed by an institutional lender at the same interest rate as on the note payable, EURIBOR + 1%. The loan is repayable in equal monthly installments over a four year period starting June 29, 2004. During the nine months ended September 30, 2005, the Company repaid Euro 0.3 million and subsequently the remaining balance was Euro 1.1 million.

Non-Cash Transaction

In January 2005, the Company presented a claim to the previous owner of our real estate property located in Barcelona, Spain. Under the claim the Company was awarded EUR 2.2 million. The increase in related party receivable of EUR 1.5 million, together with the reduction of EUR 0.7 million in related party payable, reflects this claim.

Contractual obligations

During the nine-month period ended September 30, 2005, we have not experienced any material changes in our contractual obligations compared to what was reported in our Form 10-K for the year ended December 31, 2004.

Outlook

We expect growth going forward, particularly in DVD, Internet and broadcasting sales. Below follows a discussion highlighting some of the important factors which we expect to contribute to the growth:

DVDs

During the nine-month period ending September 30, 2005 we increased our investment in our library of photographs and videos by 82% compared to the same period in 2004 and subsequently we will release more new proprietary movie titles going forward[1]. In the fourth quarter of 2005 the increase in new proprietary releases will be 188% compared to the same period last year and during the nine-month period ending June 30, 2006 we plan to release 92% more new proprietary movie titles compared to the same period ending June 30, 2005.

We expect the increase of new movie releases in 2005 and 2006 to result in increased DVD sales. We do also expect margins on DVD sales to improve since additional new releases available for sale increases the average sales price per unit.

In addition to the increase of proprietary movie titles available for sale, we are also consolidating the distribution in Europe of third party DVD content from Tera Patrick s Teravision as from January 2006. This third party content distribution requires no investment from us and positively complements our proprietary content. We expect this to increase DVD sales and contribute to gross profit.

Magazines

We expect to maintain sales at the current three-month period level going forward.

---

[1] The window from investment in a movie title to release is typically six to eight months.

Internet

During the second quarter of 2005, we contracted with a third-party in order to increase profitable traffic to our sites. The program was started in May and includes developing our sites from a Search Engine Optimization (SEO) perspective and creating an affiliate program, Private Cash, for webmasters around the world. During the third quarter the number of unique visits to our main sites increased by 50% compared to the same quarter last year and for the month of October 2005 this trend continues. Historically, we have not carried out any of the above activities and going forward we expect the SEO and affiliate program to increase Internet sales from both memberships and our online shop.

Broadcasting

During the second quarter of 2005, we made an agreement with Playboy TV Latin America for the operation and distribution of Private branded TV channels in Latin America. With this new agreement we are significantly increasing our broadcasting presence in this region and in the fourth quarter of 2005 we expect to start seeing an impact on our revenues from the region.

In the third quarter we made an agreement with a member of the Portland Television Group of companies for the launch of a new Private channel in the UK. This fresh new channel will be launched in January 2006 and replace the Private Blue channel, which was established in the UK in 2000. The new channel will primarily be available as a pay-per-view channel via the BSkyB Digital Satellite platform. The BskyB platform currently carries more than 7.4 million subscribers. We expect this new channel to start having an impact on profits during the first half of 2006.

During the third quarter we have also seen evidence of an emerging new source of significant future profits in the True Video on Demand (TVOD[2]) market in Europe. Revenues from our first distributor on this type of platform have increased steadily during the nine-month period ending September 30, 2005 and the growth in our revenues has been in line with the subscriber growth on this new VOD platform. During the third quarter of this year, revenues from this platform increased 200% compared to the preceding quarter. We have reason to believe that our revenue will continue to grow in line with the forecasted subscriber growth on this new VOD platform and subsequently we expect a contribution to operating profit of not less than EUR 0.5 million for 2006 from this new distributor. Furthermore, we expect to contract additional TVOD platforms in Europe in 2006, however, we are currently unable to determine the future potential contribution to operating profit from these platforms.

Included in broadcasting sales are our sales of mobile content. During the second quarter of 2005, we created a dedicated mobile content department headed up by Tim Clausen. This new development has launched us into a new era, gaining carriage with both national and international mobile carriers, and we are currently in the process of expanding our business in this market via several new operators. This will enable us to leverage our unique range of content, our trademarks and our huge existing customer base to take our mobile presence in Europe to a truly market dominant position. During the third quarter revenues from this distribution channel increased 80% compared to the same quarter last year. The increase is related to

---

[2] True Video On Demand - (TVOD) - TVOD is the ideal VOD service where individual users get immediate responses when interacting with the VOD system. With TVOD, the user can not only order the program online, but be able to do any VCR or DVD-like commands on the VOD system with the same quick response time as it is when working a VCR or DVD.

revenues from intensified business activities with mobile phone operators in Europe. During the fourth quarter we expect increased revenues from more than 20 additional network operators. As of January 2006 we expect to have covered the entire West European operator market. We expect the creation of our dedicated mobile content department to have a significant impact on broadcasting revenues and operating profit in 2006.

We are currently unable to determine what our potential revenue will be from the marketing of our content to the mobile industry. However, we believe that adult content, as it has done with other new technologies, will help to drive the sale of content on mobile devices[3].

Liquidity

We expect that our available cash resources and cash generated from operations and the sale of real estate will be sufficient to meet our presently anticipated working capital and capital expenditure requirements for at least the next 12 months. However, we may need to raise additional funds to support more rapid expansion or respond to unanticipated requirements.

If additional funds are raised through the issuance of equity securities, our shareholders percentage ownership will be reduced, they may experience additional dilution, or these newly issued equity securities may have rights, preferences, or privileges senior to those of our current shareholders. Additional financing may not be available when needed on terms favorable to us, or at all. If adequate funds are not available or are not available on acceptable terms, we may be unable to develop or enhance our products and services, take advantage of future opportunities or respond to competitive pressures or unanticipated requirements, which could harm our business.

---

[3] Juniper Research estimates in its white paper *Adult to Mobile: Personal Services Second Edition (February 2005)* that the global mobile adult content market will more than triple over the next five years, to nearly US$2.1 billion by 2009.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We do not use derivative financial instruments for trading purposes and were never a party to any derivative, swap or option contracts. We do not hedge our interest rate or foreign currency exchange rate exposures.

As our cash and cash equivalents and short-term investments consist principally of money market securities and investments in short-term debt or equity securities and our borrowings are primarily at fixed rates of interest our market risk related to fluctuations in interest rates is limited. Accordingly, a one percentage change in market interest rates would not have a material impact on our results of operations.

We transact our business in various currencies, principally the Euro and the U.S dollar and certain other European Union currencies. We generally attempt to limit exposure to currency rate fluctuations by matching transaction currencies (revenues/expenses) to the functional currency of its operating subsidiaries. Our exposure to market risk for fluctuations in foreign currency exchange rates relates primarily to fluctuations in the Euro versus the U.S dollar. We translate our consolidated subsidiaries whose functional currency is not the euro into the euro for reporting purposes. Income statement amounts are translated into euros using the average exchange rate for the fiscal year. The balance sheet is translated at the year-end exchange rate. Due to the significance of the results reported in dollars the impact of the euro/dollar exchange rate on our major categories of revenue and expense can be material.

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the specified time periods. As of the end of the period covered by this report, the Company s Chief Executive Officer and Chief Financial Officer evaluated, with the participation of the Company s management, the effectiveness of the Company s disclosure controls and procedures. Based on the evaluation, which disclosed no significant deficiencies or material weaknesses, the Company s Chief Executive Officer and Chief Financial Officer concluded that the Company s disclosure controls and procedures are effective. There were no changes in the Company s internal control over financial reporting that occurred during the Company s most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company s internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In the fall of 2003 we sold convertible notes to four accredited institutional investors in the aggregate principal amount of $2.25 million. Interest on the convertible notes accrues at the rate of 7%, and is payable quarterly in cash or common stock, at the election of the Company, based upon a weighted average market price during the 15 trading days preceding payment. The notes are convertible at the option of the holder at a fixed conversion price of $2.00.

In September 2005 we issued an aggregate of 13,347 shares of common stock in payment of $34,405 of accrued interest under the notes. The issuance of the common stock is deemed to be exempt from the registration requirement of the Securities Act of 1933, as amended, in reliance on Section 4(2) of the Securities Act and Regulation D promulgated thereunder, as it was sold to institutional investors believed to be accredited investors and was made without general solicitation or advertising.

Item 6. Exhibits and Reports on Form 8-K

a. Exhibits:

- 31.1 Certifications pursuant to Rule 13a-14 under the Securities Exchange Act of 1934.
- 31.2 Certifications pursuant to Rule 13a-14 under the Securities Exchange Act of 1934.
- 32.1 Certification of CEO and CFO Pursuant to 18 U.S.C. § 1350, as Adopted Pursuant to § 906 of the Sarbanes-Oxley Act of 2002.

b. Reports on Form 8-K:

None.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned thereunto duly authorized.
