**Item 1.01. Entry into a Material Definitive Agreement.**

On December 16, 2005, the Compensation Committee of the Board of Directors (the **Committee**) of BIOLASE Technology Inc. (the **Company**) approved the acceleration of vesting of certain unvested stock options granted under the Company's 2002 Stock Incentive Plan that are held by certain key employees and officers of the Company, including executive officers. As a result of such acceleration, options granted to 25 persons with respect to 1,045,847 unvested shares of the Company's common stock, including options with respect to 684,178 unvested shares that are held by the Company's executive officers, are subject to this acceleration and have become fully vested. These options represent approximately 25% of the total shares of Company common stock subject to outstanding options (or 31% of the total shares of Company common stock subject to outstanding options held by the Company's executive officers) and, prior to such acceleration, 73% of the total shares of Company common stock subject to outstanding unvested options (or 95% of the total shares of Company common stock subject to outstanding unvested options held by the Company's executive officers). The Committee also imposed restrictions on shares of Company common stock that could be acquired by such persons upon exercise of any such accelerated options that will prevent the sale of such shares (other than to satisfy applicable withholding taxes) before such time as vesting would otherwise have taken place.

The acceleration eliminates future compensation expense that the Company would otherwise recognize in its consolidated statement of operations with respect to the options at issue now that the Statement of Financial Accounting Standards No. 123-R Share Based Payment, issued by the Financial Accounting Standards Board, has become effective for fiscal years beginning after June 15, 2005. The future expense eliminated by the acceleration, based on a Black-Scholes calculation, is estimated to be approximately \$1.6 million in 2006, \$1.2 million in 2007, and \$0.4 million in 2008 on a pre-tax basis. The acceleration will result in a compensation expense in the fourth quarter of 2005 of approximately \$150,000.

A copy of the form of Resale Restriction Agreement to be entered into between the Company and the affected optionees is attached hereto as Exhibit 10.1.
