(a) Basis of Presentation and Description of Business Tempur-Pedic International Inc., a Delaware corporation, together with its subsidiaries is a U.S.-based, multinational company. As used herein, the term Tempur-Pedic International refers to Tempur-Pedic International Inc. only, and the term Company refers to Tempur-Pedic International Inc. and its subsidiaries.

The Company manufactures, markets, and sells viscoelastic products including pillows, mattresses, and other related products. The Company manufactures essentially all its pressure-relieving TEMPUR® products at two manufacturing facilities, with one located in Denmark and one in the U.S. The Company has sales distribution subsidiaries operating in the U.S., Europe, and Asia Pacific and has third party distribution arrangements in certain other countries where it does not have subsidiaries. The Company sells its products in over 70 countries. The Company sells its products through four sales channels: Retail, Direct, Healthcare, and Third party, and extends credit based on the creditworthiness of its customers.

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and do not include all of the information and disclosures required by generally accepted accounting principles in the United States (U.S. GAAP) for complete financial statements. Accordingly, these unaudited Condensed Consolidated Financial Statements should be read in conjunction with the consolidated financial statements of the Company and related footnotes for the year ended December 31, 2005, included in the Company s Annual Report on Form 10-K. The balance sheet as of December 31, 2005 has been derived from the audited consolidated financial statements as of that date but does not include all of the information and footnotes required by U.S. GAAP for complete financial statements.

The results of operations for the interim periods are not necessarily indicative of results of operations for a full year. It is the opinion of management that all necessary adjustments for a fair presentation of the results of operations for the interim periods have been made and are of a recurring nature unless otherwise disclosed herein.

- (b) Reclassifications Certain prior period amounts have been reclassified to conform to the 2006 presentation.
- (c) Basis of Consolidation The accompanying financial statements include the accounts of Tempur-Pedic International and its subsidiaries. All subsidiaries are wholly owned. All material intercompany balances and transactions have been eliminated.

(d) *Use of Estimates* The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(e) Foreign Currency Translation Assets and liabilities of non-U.S. subsidiaries, whose functional currency is the local currency, are translated at period-end exchange rates. Income and expense items are translated at the weighted average rates of exchange prevailing during the period. The adjustment resulting from translating the financial statements of foreign subsidiaries is included in Accumulated other comprehensive income, a component of Stockholders Equity. Foreign currency transaction gains and losses are reported in results of operations.

- (f) Financial Instruments and Hedging Derivative financial instruments are used within the normal course of business principally to manage foreign currency exchange rate risk. These instruments are generally short term in nature and are subject to fluctuations in foreign exchange rates and credit risk. Credit risk is managed through the selection of sound financial institutions as counterparties. The changes in fair market value of foreign exchange derivatives are recognized currently through income. The changes in fair market value of derivative financial instruments used to manage interest rates are recognized through Accumulated other comprehensive income.
- (g) Cash and Cash Equivalents Cash and cash equivalents consist of all investments with initial maturities of three months or less.
- (h) Inventories Inventories are stated at the lower of cost or market, determined by the first-in, first-out method, and consist of the following:

	Sep	tember 30, 2006	Dec	2005
Finished goods	\$	43,888	\$	61,071
Work-in-process		6,854		7,427

	\$	63,754	\$	81,064
		·		

- (i) Long Lived Assets In accordance with Statement of Financial Accounting Standards (SFAS) 144, Accounting for the Impairment or Disposal of Long-lived Assets, long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets is assessed by a comparison of the carrying amount of the asset to the estimated future net cash flows expected to be generated by the asset. If estimated future undiscounted net cash flows are less than the carrying amount of the asset or group of assets, the asset is considered impaired and an expense is recorded in an amount required to reduce the carrying amount of the asset to its then fair value.
- (j) Goodwill and Other Intangible Assets The Company follows SFAS 142, Goodwill and Other Intangible Assets. SFAS 142 requires that intangible assets with estimable useful lives be amortized over their respective estimated useful lives to their estimated residual values and reviewed for impairment in accordance with SFAS 144. The Company performs an annual impairment test on all existing goodwill in the fourth quarter of each year. If facts and circumstances lead the Company s management to believe that one of the Company s other amortized intangible assets may be impaired, the Company will evaluate the extent to which the related cost is recoverable by comparing the future undiscounted cash flows estimated to be associated with that asset to the asset s carrying amount and write-down that carrying amount to fair value to the extent necessary.

- (r) *Treasury Stock* As discussed in Note 5 below, in October 2005 Tempur-Pedic International s Board of Directors authorized a share repurchase program (Share Repurchase Program). Shares repurchased under Tempur-Pedic International s Share Repurchase Program are held in treasury for general corporate purposes, including issuances under various employee stock option plans. Treasury shares are accounted for under the cost method and reported as a reduction of Stockholders equity. As of June 30, 2006 Tempur-Pedic International had completed its existing share repurchase authorization.
- (s) Stock Based Compensation The Company adopted SFAS 123R, Share-Based Payment (SFAS 123R) on January 1, 2006 using the modified prospective method for the transition. SFAS 123R requires compensation expense relating to share-based payments be recognized in the financial statements. The cost is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the estimable life of the equity award. The effect of the adoption of SFAS 123R on the Company s results of operations and earnings per share was not material and is included in the Condensed Consolidated Statements of Income for the period ended September 30, 2006. Also, in accordance with SFAS 123R, Deferred stock compensation amounts in the Stockholders Equity section of the Condensed Consolidated Balance Sheet are included in Additional paid in capital as of September 30, 2006.

Additionally, SFAS 123R requires that the benefit of tax deductions in excess of recognized compensation expense be reported as a financing cash flow activity in the consolidated statements of cash flows. The Company had excess tax benefits related to the exercise of stock-options of \$6,189 as of September 30, 2006. Financial results including cash flows from operating activities for 2005 have not been restated for the adoption of SFAS 123R.

In December 2005, Tempur-Pedic International accelerated the vesting of certain unvested incentive stock options which had exercise prices greater than the fair market value of the stock on the date of acceleration. Options to purchase approximately 467 shares of common stock, or approximately 18% of Tempur-Pedic International soutstanding unvested options, were subject to the acceleration. Options subject to the acceleration had exercise prices ranging from \$13.94 to \$24.40 per share and a weighted average remaining life of 9 years. The weighted average exercise price of the options subject to the acceleration was \$18.51. The purpose of the acceleration was to enable the Company to avoid recognizing compensation expense associated with these options in future periods in its financial statements, upon adoption of SFAS 123R. The acceleration resulted in an increase of \$2,842 in the proforma employee stock option stock-based compensation expense for the fourth quarter and year ended December 31, 2005. See Note 6 for further discussion of the Company s adoption of SFAS 123R.

(b) Secured Credit Financing On October 18, 2005, Tempur-Pedic International entered into a credit agreement (the 2005 Senior Credit Facility) with Tempur-Pedic, Inc., Tempur Production USA, Inc., Dan-Foam ApS, certain other subsidiaries of Tempur-Pedic International, and Bank of America, N.A., Fifth Third Bank, Nordea Bank Danmark, A/S and Suntrust Bank. The Company used proceeds from the 2005 Senior Credit Facility to pay off amounts outstanding under its prior senior credit facility and an unsecured revolving credit facility, among other things. The prior senior credit facility was terminated upon repayment. On February 8, 2006, the Company entered into an amendment to its 2005 Senior Credit Facility, which increased availability and adjusted one of the financial covenants.

The 2005 Senior Credit Facility, as amended, consists of domestic and foreign credit facilities that provide for the incurrence of indebtedness up to an aggregate principal amount of \$390,000. The domestic credit facility is a five-year, \$260,000 revolving credit facility (Domestic Revolver). Availability under the Domestic Revolver is reduced by \$3,000 each quarter, beginning with the second quarter of 2006. The foreign credit facilities consist of a \$20,000 revolving credit facility (Foreign Revolver) and \$110,000 term loan (Foreign Term Loan). The various credit facilities bear interest at a rate equal to the 2005 Senior Credit Facility s applicable margin, as determined in accordance with a performance pricing grid set forth in the 2005 Senior Credit Facility, plus one of the following indexes: (i) LIBOR and (ii) for U.S. dollar-denominated loans only, a base rate (defined as the higher of (a) the Bank of America prime rate and (b) the Federal Funds rate plus .50%). The Company also pays an annual facility fee on the total amount of the 2005 Senior Credit Facility. The facility fee is calculated based on the consolidated leverage ratio and ranges from .175% to .35%.

The 2005 Senior Credit Facility is guaranteed by Tempur-Pedic International, Tempur World, LLC and Tempur World Holdings, LLC, as well as certain other subsidiaries of Tempur-Pedic International, and is secured by certain fixed and intangible assets of Dan Foam ApS and substantially all the Company s U.S. assets. The maturity date of the 2005 Senior Credit Facility is October 18, 2010. The 2005 Senior Credit Facility contains certain financial covenants and requirements affecting the Company, among the most significant of which are a fixed charge coverage ratio requirement and a consolidated leverage ratio requirement. The Company was in compliance with all covenants as of September 30, 2006.

At September 30, 2006, the Company had a total of \$274,000 of long-term revolving credit facilities under the 2005 Senior Credit Facility, which was comprised of the \$254,000 Domestic Revolver and the \$20,000 Foreign Revolver (collectively, the Revolvers). The Revolvers provide for the issuance of letters of credit which, when issued, constitute usage and reduce availability under the Revolvers. The aggregate amount of letters of credit outstanding under the Revolvers was \$52,952 at September 30, 2006. After giving effect to letters of credit and \$180,000 in borrowings under the Domestic Revolver, total availability under the Revolvers was \$41,048 at September 30, 2006. There were no borrowings under the Foreign Revolver as of September 30, 2006.

(c) Industrial Revenue Bonds On October 27, 2005, Tempur Production USA, Inc. (Tempur Production), a subsidiary of Tempur-Pedic International, completed an industrial revenue bond financing for the construction and equipping of Tempur Production s new manufacturing facility (the Project) located in Bernalillo County, New Mexico (Bernalillo County). Under the terms of the financing, Bernalillo County will issue up to \$75,000 of Series 2005A Taxable Variable Rate Industrial Revenue Bonds (the Series A Bonds). The Series A Bonds are marketed to third parties by a remarketing agent and secured by a letter of credit issued under the Company s Domestic Revolver and purchased by qualified investors. The Series A Bonds have a final maturity date of September 1, 2030. The interest rate on the Series A Bonds is a weekly rate set by the remarketing agent, in its sole discretion, though the interest rate may not exceed the lesser of (i) the highest rate allowed under New Mexico

law or (ii) 12% per annum. On October 27, 2005, Tempur Production made an initial draw of \$53,925 on the Series A Bonds. The Company used proceeds from the Bonds to pay down the prior domestic revolving credit facility, among other things.

Bernalillo County will also issue up to \$25,000 of Series 2005B Taxable Fixed Rate Industrial Revenue Bonds (the Series B Bonds, and collectively with the Series A Bonds, the Bonds). The Series B Bonds will be sold to Tempur World LLC, will not be secured by the letter of credit described above, and will be held by Tempur World, LLC, representing the Company s equity in the Project. The Series B Bonds have a final maturity date of September 1, 2035. The interest rate on the Series B Bonds is fixed at 7.75%. On October 27, 2005, Tempur Production made an initial draw of \$17,975 under the Series B Bonds, which was transferred to and used by Tempur World LLC to purchase Series B Bonds.

On October 27, 2005, Tempur Production transferred its interest in the Project to Bernalillo County, and Bernalillo County leased the Project back to Tempur Production on a long-term basis with the right to purchase the Project for one dollar when the Bonds are retired. Pursuant to the lease agreement, Tempur Production will pay rent to Bernalillo County in an amount sufficient to pay debt service on the Bonds and certain fees and expenses. The Bonds are not general obligations of Bernalillo County, but are special, limited obligations payable solely from bond proceeds, rent paid by Tempur Production under the lease agreement, and other revenues. The substance of the transaction is that Bernalillo County issued the Bonds on behalf of Tempur Production. Therefore, the Company recorded the obligation as long-term debt of \$53,925 in its consolidated balance sheet on the date of the transaction.
