PROXY STATEMENT

FOR 2007 ANNUAL MEETING OF SHAREHOLDERS

General Information

This proxy statement is furnished to the shareholders of McGrath RentCorp, a California corporation (the Company), in connection with the solicitation by the Board of Directors of the Company of proxies in the accompanying form for use in voting at the Annual Meeting of shareholders of the Company (the Annual Meeting) to be held on Wednesday, June 6, 2007, at 2:00 p.m., local time, at the Company's principal executive offices located at 5700 Las Positas Road, Livermore, California 94551, and any adjournment or postponement thereof. The shares represented by the proxies received, properly marked, dated, executed and not revoked will be voted at the Annual Meeting.

Solicitation, Record Date and Voting Procedures

The solicitation of proxies will be conducted by mail and the Company will bear all related costs. These costs will include the expense of preparing and mailing proxy materials for the Annual Meeting and reimbursements paid to brokerage firms and others for their expenses incurred in forwarding solicitation material regarding the Annual Meeting to beneficial owners of the Company's common stock. The Company may conduct further solicitation personally, telephonically or by facsimile through our officers, directors and regular employees, none of whom will receive additional compensation for assisting with the solicitation.

The close of business on April 16, 2007 has been fixed as the record date (the Record Date) for determining the holders of shares of common stock of the Company entitled to notice of and to vote at the Annual Meeting. As of the close of business on the Record Date, the Company had 25,185,930 shares of common stock outstanding and entitled to vote at the Annual Meeting. The presence at the Annual Meeting of a majority of these shares of common stock of the Company, either in person or by proxy, will constitute a quorum for the transaction of business at the Annual Meeting. An automated system administered by the Company's transfer agent will tabulate votes cast by proxy and Randle F. Rose, the Company's Secretary, will act as inspector of elections to tabulate votes cast in person at the Annual Meeting.

Each outstanding share of common stock on the Record Date is entitled to one vote on each matter. However, every shareholder voting for the election of directors may cumulate such shareholder's votes and give one candidate a number of votes equal to the number of directors to be elected (seven) multiplied by the number of shares held, or may distribute such shareholder's votes on the same principle among as many candidates as the shareholder may select. However, no shareholder shall be entitled to cumulate votes for any candidate unless the candidate's name has been placed in nomination prior to the voting and the shareholder, or any other shareholder, has given notice at the Annual Meeting prior to the voting of the intention to cumulate the shareholder's votes. The proxy holders are given discretionary authority, under the terms of the proxy, to cumulate votes represented by shares for which they are named in the proxy. In electing directors, the seven candidates receiving the highest number of affirmative votes shall be elected.

Under the General Corporation Law of the State of California, an abstaining vote and a broker non-vote are counted as present and are, therefore, included for purposes of determining whether a quorum of shares is present at the Annual Meeting. Abstentions are not included in determining the number of shares voted on the

proposals submitted to shareholders. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular matter because the nominee does not have the discretionary voting power with respect to that matter and has not received instructions from the beneficial owner. Broker non-votes, and shares as to which proxy authority has been withheld with respect to any matter, are not deemed to be entitled to vote for purposes of determining whether shareholders approval of that matter has been obtained.

With respect to Proposal 1 of this proxy statement, a plurality of the votes cast is required for the election of directors. This means that the director nominee with the most votes for a particular slot is elected for that slot. You may vote for or withheld with respect to the election of directors. Only votes for or withheld are counted in determining whether a plurality has been cast in favor of a director. Abstentions and broker non-votes will have no effect on such proposal. Our Corporate Governance Guidelines, amended by the Board of Directors on February 2, 2007, set forth our procedures if a director-nominee is elected, but receives a majority of withheld votes. In an uncontested election, any nominee for director who receives a greater number of votes withheld from his or her election than votes for such election is required to tender his or her resignation following certification of the shareholder vote. The Corporate Governance Committee is required to make recommendations to the Board of Directors with respect to any such letter of resignation. The Board of Directors is required to take action with respect to this recommendation and to disclose their decision-making process. With respect to Proposal 2 of this proxy statement, the affirmative vote of a majority of the shares of common stock represented and voted at the Annual Meeting is required for approval of the 2007 Stock Incentive Plan. Abstentions and broker non-votes will have no effect on such proposal. With respect to Proposal 3 of this proxy statement, the affirmative vote of a majority of the shares of common stock represented and voted at the Annual Meeting is required for ratification of the independent auditors. Abstentions and broker non-votes will have no effect on such proposal.

The Proxy

The persons named as proxyholders, Robert P. McGrath, the Company's Chairman of the Board of Directors, and Randle F. Rose, the Company's Secretary, were selected by the Company's Board of Directors.

All shares represented by each properly executed, unrevoked proxy received in time for the Annual Meeting will be voted in the manner specified therein. If no specification is made on the proxy as to any one or more of the proposals, the common stock of the Company represented by the proxy will be voted as to the proposal for which no specification is given as follows:

FOR the election of the director nominees named in this proxy statement; FOR the approval of the 2007 Stock Incentive Plan; and FOR the ratification of the selection of Grant Thornton LLP, as the Company's independent auditors for the 2007 fiscal year and, with respect to any other matters that may come before the Annual Meeting, at the discretion of the proxyholders. The Company does not presently know of any other such business to be conducted at the Annual Meeting.

Revocability of Proxy

If the shares of common stock are held in your name, you may revoke your proxy given pursuant to this solicitation at any time before the proxy card is voted by: (i) delivering to the Company (to the attention of Randle F. Rose, the Company's Secretary), at the address of our principal executive offices, a written notice of revocation or a duly executed proxy bearing a later date, or (ii) attending the Annual Meeting and voting in person. If your shares are held in street name, you should follow the directions provided by your broker regarding how to revoke your proxy. Your attendance at the Annual Meeting after having executed and delivered a valid proxy card will not in and of itself constitute a revocation of your proxy. You will be required to give oral notice of your intention to vote in person to the inspector of elections at the Annual Meeting.

Deadline for Receipt of Shareholder Proposals

Requirements for Shareholder Proposals to Be Brought before an Annual Meeting. To be considered for presentation to the annual meeting of the Company's shareholders to be held in 2008, a shareholder proposal must be received by Randle F. Rose, Secretary, McGrath RentCorp, 5700 Las Positas Road, Livermore, California 94551, no later than January 5, 2008.

Requirements for Shareholder Proposals to Be Considered for Inclusion in the Company's Proxy Materials. Shareholder proposals submitted pursuant to Rule 14a-8 under the Exchange Act and intended to be presented at the annual meeting of the Company's shareholders to be held in 2008 must be received by the Company no later than January 5, 2008 in order to be considered for inclusion in the Company's proxy materials for that meeting.

Discretionary Authority. The proxies to be solicited by our Board of Directors for the 2008 annual meeting will confer discretionary authority on the proxyholders to vote on any shareholder proposal presented at such annual meeting if we fail to receive notice of such proposal by March 20, 2008.

PROPOSAL NO. 1**ELECTION OF DIRECTORS**

Director Independence

Our Board of Directors has determined that four non-employee directors on the Board of Directors, consisting of Messrs. Dawson, Hood, Stradford and Zech, are independent as defined in the listing standards of the NASDAQ Stock Market and regulations of the Securities & Exchange Commission (SEC regulations) and any other laws applicable to the Company. Mr. and Ms. McGrath, while no longer employees of the Company, are not considered independent because Mr. McGrath is the former Chief Executive Officer and Founder of the Company and Mrs. McGrath is the wife of Mr. McGrath. Mr. Kakures, as an executive officer of the Company, is not considered independent. In making these determinations, our Board of Directors considered transactions and relationships between each director and his or her immediate family and the Company and our subsidiaries, including those reported in the section below captioned Certain Relationships and Related Transactions. The purpose of this review was to determine whether any such relationships or transactions were material and, therefore, inconsistent with a determination that the director is independent. As a result of this review, our Board of Directors affirmatively determined, based on its understanding of such transactions and relationships, that four of our non-employee directors are independent of the Company and, therefore, a majority of the members of our Board of Directors is independent, under the standards set forth by the listing standards NASDAQ Stock Market.

Meetings and Committees of the Board of Directors

During 2006, the Board of Directors met nine times. No director attended fewer than 75% of the aggregate of either (i) the total number of meetings of the Board of Directors held during the period for which he or she was a director, or (ii) the total number of committee meetings of the Board of Directors held in 2006 on which he or she served. All seven directors attended the 2006 Annual Meeting. All directors are expected to attend our Annual Meeting of Shareholders. The standing committees of the Board of Directors currently include the Compensation Committee, the Audit Committee and the Corporate Governance and Nominating Committee.

Our Board of Directors has determined that all current members of the Compensation Committee are independent as defined in the listing standards of the NASDAQ Stock Market and SEC regulations and any other laws applicable to the Company.

Compensation Committee

The Compensation Committee held four meetings in 2006. The Compensation Committee currently consists of Messrs. Dawson, Hood and Stradford; Mr. Dawson served as its chairman. Our Board of Directors has determined that all current members of the Compensation Committee are independent as defined in the listing standards of the NASDAQ Stock Market and SEC regulations and any other laws applicable to the Company. In addition, our Board of Directors has determined that all current members of the Compensation Committee shall

qualify as non-employee directors within the meaning of Securities & Exchange Commission (SEC) Rule 16b-3 as promulgated under the Securities Exchange Act of 1934, as amended, and as outside directors within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended.

The Board of Directors adopted and approved a charter for the Compensation Committee, which was most recently amended and restated on February 2, 2007. A copy of this charter is posted on our website at www.mgrc.com. The functions of the Compensation Committee, which are discussed in detail in its charter, are to are to (a) evaluate officer and director compensation policies, goals, plans and programs; (b) determine the cash and non-cash compensation of the executive officers of the Company; (c) review and administer the Company's equity-based and other incentive compensation plans for employees; (d) evaluate the performance of the Company's chief executive officer; and (e) produce any reports required by the applicable rules and regulations of the SEC.

Compensation decisions for the executive officers of the Company are made by the Compensation Committee. The Compensation Committee directs the Chief Executive Officer to develop the incentive compensation guidelines for the other executive officers and to determine the incentive compensation bonuses for each of the other executive officers. Compensation decisions for directors are made by the Board of Directors after recommendations by the Compensation Committee.

Audit Committee

The Audit Committee held six meetings in 2006. The Audit Committee currently consists of Messrs. Dawson, Hood and Zech; Mr. Hood serves as its chairman. After considering transactions and relationships between each member of the Audit Committee or his immediate family and the Company and our subsidiaries and reviewing the qualifications of the members of the Audit Committee, our Board of Directors has determined that all current members of the Audit Committee are independent, as defined in the listing standards of the NASDAQ Stock Market and SEC regulations and any other laws applicable to the Company. The Board of Directors has also determined that all current members of the Audit Committee are financially literate and have the requisite financial sophistication as required by the listing standards of the NASDAQ Stock Market. Furthermore, our Board of Directors has determined that Messrs. Dawson, Hood and Zech each qualify as an Audit Committee financial expert, as defined by the applicable rules of the Securities Exchange Act of 1934, as amended (the Exchange Act), pursuant to the fact that, among other things, Mr. Hood is the former Executive Vice President and Chief Financial Officer of Excite, Inc., Mr. Dawson is the Vice President and Chief Financial Officer of Cerus Corporation and Mr. Zech is the former Chief Executive Officer of GATX Corporation, and in those respective capacities each had acquired the relevant experience and expertise and has the attributes set forth in the applicable rules as being required for an Audit Committee financial expert.

The Board of Directors adopted and approved a charter for the Audit Committee, which was most recently amended and restated on February 2, 2007. A copy of this charter is posted on our website at www.mgrc.com. The functions of the Audit Committee, which are discussed in detail in its charter, are to (a) oversee the engagement, replacement, compensation, qualification, independence and performance of the independent auditors; (b) oversee the conduct of the Company's accounting and financial reporting processes and the integrity of the Company's audited financial statements and other financial reports; (c) oversee the performance of the Company's internal accounting and financial controls function; and (d) oversee the Company's compliance with its policies and other legal requirements as such compliance relates to the integrity of the Company's financial reporting. The Audit Committee has also established procedures for (a) the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls or auditing matters, and (b) the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing materials.

Corporate Governance and Nominating Committee

The Corporate Governance and Nominating Committee held three meetings in 2006. The Corporate Governance and Nominating Committee consists of Messrs. Stradford, Hood and Zech; Mr. Zech serves as its chairman. Our Board of Directors has determined that all current members of the Corporate Governance and Nominating Committee are independent, as defined in the listing standards of the NASDAQ Stock Market and SEC regulations and any other laws applicable to the Company.

The Board of Directors adopted and approved a charter for the Corporate Governance and Nominating Committee, which was most recently amended and restated on February 2, 2007. A copy of this charter is posted on our website at www.mgrc.com. The functions of the Corporate Governance and Nominating Committee, which are discussed in detail in its charter, are to assist the Board in all matters relating to (a) the establishment, implementation and monitoring of policies and processes regarding the recruitment and nomination of candidates to the Board and committees of the Board; (b) the review and making of recommendations to the Board regarding the composition and structure of the Board and committees of the Board; (c) the development, evaluation and monitoring of the Company's corporate governance processes and principles; (d) the development, implementation and monitoring compliance of the Company's Code of Business Conduct and Ethics and making recommendations to the Board of revisions to this Code of Business Conduct and Ethics from time to time as appropriate; and (e) the administration of the Board's annual self-evaluation process and the sharing of the results thereof with the Board for discussion and deliberation.

The Corporate Governance and Nominating Committee will consider for nomination all bona fide candidates proposed by management or shareholders and will nominate directors that it believes will serve the best interests of the Company and its shareholders. Candidates must have the education, business or organizational experience and skills that will enable them to excel in carrying out their responsibilities on the Board of Directors. Candidates must possess and have demonstrated in professional endeavor the highest personal and professional ethics, integrity and values, and be committed to representing the long-term best interests of Shareholders. Further, candidates must have an inquisitive and objective perspective, practical wisdom and mature judgment, and be willing and able to challenge management in a constructive manner. Candidates will also be judged on their ability to work in a collegial manner with a sense of common purpose, energy, industry knowledge, business sense and trust with other board members and management, as one group acting in unison to solve difficult problems as they may arise. The candidate's specific knowledge of the Company, its markets, and its strategy will also be considered. The Board of Directors' recommendations for inclusion in the slate of directors at an annual or special meeting of shareholders, or for appointment by the Board of Directors to fill a vacancy, are based on its determination, after reviewing recommendations from the Corporate Governance and Nominating Committee, as to the suitability of each individual.

Director Nomination Process

Continuing Directors

The Corporate Governance and Nominating Committee will apply its director candidate selection criteria described above, including a director's past contributions to the Board, prior to recommending a director for re-election to another term. Directors should not expect to be re-nominated annually as a matter of course. Once the Corporate Governance and Nominating Committee evaluations are completed, and considering all other potential director candidates, it recommends the best slate of candidates for approval by the full Board of Directors.

New Directors

Generally, once a need to add a new member to the Board of Directors is identified, the Corporate Governance and Nominating Committee will initiate a search by working with staff support, seeking input from

members of the Board of Directors and senior management and hiring a consultant or search firm, if necessary. After a slate of possible candidates is identified, members of the Corporate Governance and Nominating Committee, other members of the Board of Directors and senior management have the opportunity to interview the prospective candidate(s). The remaining members of the Board of Directors who do not interview the prospective candidate(s) are kept informed. The Corporate Governance and Nominating Committee ultimately determines and recommends the best candidate(s) after completing its selection process for approval by the full Board of Directors.

A description of the procedure to be followed by security holders in submitting director recommendations is set forth in *Shareholder Proposals* below. The director candidate selection criteria will be equally applied to both continuing directors and shareholder submitted director candidates.

Director Compensation

The Compensation Committee reviews director compensation every two years; the last review was performed in 2005. In December 2006, the Compensation Committee engaged Compensia, an independent compensation consulting firm, to conduct a review of its 2007 total compensation program for its non-employee directors. Compensia provided a report with relevant market data and alternatives to consider when making compensation decisions for the non-employee directors. The report compared each element of total compensation against a peer group of publicly-traded companies against which we compete in recruiting qualified managers and directors, and for shareholder investment. These companies consist of a combination of primarily technology companies of comparable size based in the San Francisco Bay Area, and national rental, leasing and equipment finance companies. The Compensation Committee generally sets the total compensation for non-employee directors at the median (the 50th percentile) of compensation paid to similarly situated peer group non-employee directors. The 2007 compensation described below was approved by the Board of Directors based on Compensia's report and recommendations of the Compensation Committee.

For the year ended December 31, 2006, each director who was not also an officer or employee of the Company, other than the Chairman of the Board of Directors, was compensated for his or her services as a director with a retainer of \$25,000 per year. The Chairman of the Board of Directors received a retainer of \$60,000 per year. In addition to the annual retainers, the Chairs of the Audit Committee, Compensation Committee, and Corporate Governance and Nominating Committee received an additional annual retainer of \$10,000, \$6,000 and \$4,500, respectively. Each other member of the Audit Committee, Compensation Committee, and Corporate Governance and Nominating Committee who is not an employee of the Company received an annual retainer of \$6,000, \$3,000 and \$1,500, respectively. Messrs. Dawson, Hood, McGrath, Stradford and Zech received \$37,000, \$39,500, \$60,000, \$29,500, and \$35,500, respectively, and Ms. McGrath received \$25,000, for their services as a director of the Company during 2006. All directors, including those who are officers or employees of the Company, were reimbursed for expenses incurred in connection with attending Board of Directors or Committee meetings.

For fiscal year 2007, each director who is not also an officer or employee of the Company, other than the Chairman of the Board of Directors, will receive a retainer of \$34,000 per year. The Chairman of the Board of Directors will receive a retainer of \$60,000 per year. In addition to the annual retainers, the Chairs of the Audit Committee, Compensation Committee, and Corporate Governance and Nominating Committee will receive an additional annual retainer of \$18,000, \$9,000 and \$5,000, respectively. Each other member of the Audit Committee, Compensation Committee, and Corporate Governance and Nominating Committee who is not an employee of the Company will receive an annual retainer of \$8,000, \$4,000 and \$2,000, respectively.

In addition to cash compensation, each of the non-employee directors of the Company have historically received an annual stock option grant near the end of each year at its last regularly scheduled board meeting. Because the Board was considering a new stock option granting methodology, the Board did not grant annual options to non-employee directors in 2006 and agreed to apply the new policy once adopted. On February 2, 2007, the Board adopted a stock option granting methodology whereby there will be one annual stock option grant date which will be the date when the blackout window opens after the year-end earnings are released. All

designated directors, officers and employees will receive an option grant on this date with an exercise price equal to the NASDAQ close price on that day. Consistent with the new option granting policy, on February 26, 2007, each non-employee director received a non-qualified stock option grant under the Company's 1998 Stock Option Plan. Each of Messrs. Dawson, Hood, Stradford and Zech and Ms. McGrath received non-qualified stock options for the purchase of 12,000 shares of the Company's common stock at an exercise price of \$31.14 per share. Mr. McGrath received non-qualified stock options under the Company's 1998 Stock Option Plan for the purchase of 24,000 shares of the Company's common stock at an exercise price of \$31.14 per share. These share amounts were based on Compensia's report and the Compensation Committee's recommendation of an approximate Black Scholes value for an annual option grant. The grants were not adjusted to account for the delay in the annual end-of-year granting pattern in 2006.

The table below summarizes the compensation paid by the Company to its directors for the fiscal year ended December 31, 2006, and estimates the compensation expected to be paid by the Company to its directors for the fiscal year ended December 31, 2007 including the annual stock options granted in February 2007.

- (1) On February 26, 2007, each non-employee director received non-qualified stock options; all such amounts listed represent the Black Scholes value of each grant. Such stock option grants were approved by the Board of Directors after the NASDAQ market closed on February 26, 2007. The exercise price was based on the NASDAQ close price of \$31.14. Such option grants are all seven year options that vest 100% at the end of one year.
- (2) In 2004, in recognition for founding the Company, the Board resolved to provide paid health insurance to Mr. and Mrs. McGrath for the remainder of their lives. The 2006 annual cost was \$4,436 each for Mr. and Mrs. McGrath. In addition, the Company has annually paid for season tickets to the San Francisco Ballet (2006 cost was \$13,824) which Mr. and Mrs. McGrath often attend with various Company directors, employees and associates.
- (3) There were no stock options granted in 2006 for directors due to a change in our stock option granting methodology which is discussed in further detail on page 14 under the heading "Director Compensation".
- (4) Mr. Kakures' compensation is described in the Executive Compensation section of this proxy statement.

Director Stock Ownership

The Board believes that, in order to align the interests of directors and shareholders, directors should have a significant financial stake in the Company. Each director has a target ownership level of 5,000 shares of common stock to be achieved by each director within five years of joining the Board or as soon thereafter as practicable. In evaluating whether the common stock value ownership guideline has been met, all common shares owned and 50% of the value (market price less strike price) of all vested unexercised stock options will be considered. As of December 31, 2006, all directors were in compliance with the stock ownership requirement.

EXECUTIVE COMPENSATION AND OTHER INFORMATION

Compensation Discussion and Analysis

Compensation Philosophy and Objectives

The Company's executive compensation program is designed to align our executive officers' interests with those of our shareholders. Its purpose is to attract and retain exceptional talent, reward past performance, and establish and reward measurable objectives for future performance. We believe the most effective compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals of the Company. Our primary objective is to align the executive's interests with the interests of the shareholders by rewarding achievements of established goals that contribute to increased long-term shareholder value. In structuring our executive compensation program, we set the compensation of our executive officers to be competitive relative to the compensation paid to similarly situated executives for our peer group companies. In addition, part of our executive officer's compensation is directly tied to identifiable objective goals by which performance can be measured.

Executive Compensation Program Design

The Compensation Committee (for purposes of this analysis, the Committee) of the Board has the responsibility for establishing, implementing and continually monitoring the compensation of its executive officers. The Committee designed the executive compensation program to ensure that the total compensation paid to the executive officers is fair, reasonable, competitive, and is aligned with the goals and objectives of the Company. For the fiscal year ended December 31, 2006, the principal components of compensation for named executive officers were:

1. Annual base salary;
2. Non-equity performance-based incentive compensation; and
3. Long-term equity incentive compensation

The Committee determined these three elements, with a significant percentage of total compensation allocated to at-risk performance-based incentives, best aligns the interests of our executive officers with our shareholders. The non-equity performance-based incentive compensation rewards achievement of short to medium term incentive goals and the long-term equity incentive compensation rewards achievement of long term growth in shareholder value and sustained financial health of the Company. There is no pre-established policy or target for the allocation between either cash and non-cash or short-term and long-term incentive compensation. Rather, the Committee reviews relevant market compensation data from its compensation consultant and other sources, and uses its judgment to determine the appropriate level and mix of incentive compensation on an annual basis.

Compensation Consultant and Peer Group Selection

To ensure that our executive compensation is competitive, in 2005, the Committee engaged Compensia, an independent compensation consulting firm, to conduct a review of its 2006 total compensation program for its executive officers. Compensia provided a report with relevant market data and alternatives to consider when making compensation decisions for the executive officers. The report compared each element of total compensation against a peer group of publicly-traded companies (collectively, the Compensation Peer Group). The Compensation Peer Group is periodically reviewed and updated by the Committee. We believe that the Compensation Peer Group consists of companies against which we compete in recruiting qualified managers and directors, and for shareholder investment. These companies consist of a combination of primarily technology companies of comparable size based in the San Francisco Bay Area, business services companies, and national rental, leasing and equipment finance companies.

The companies comprising the Compensation Peer Group are:

Aaron Rents Inc.	Aircastle LTD	Ask Jeeves, Inc.
Charles River Associates, Inc.	CNET Networks, Inc.	Cronos Group
Digital Insight Corp.	Dionex Corp.	Dynamics Research Corp.
Electro Rent Corp	ePlus, Inc.	Exponent, Inc.
Financial Federal Corp	First Advantage Corp.	GATX Corp
ICT Group, Inc.	Internet Security Systems, Inc.	Interpool, Inc.
iPass, Inc.	LECG Corp.	Marlin Business Services Corp
Micrel, Inc.	Microfinancial, Inc.	Mobile Mini Inc.
Modtech Holdings Inc.	PMC Sierra, Inc.	Rewards Network, Inc.
Sapient Corp.	TAL International Group, Inc.	WebEx Communications, Inc.
Williams Scotsman International, Inc.	Willis Lease Finance Corp	

Since the Company is headquartered in the San Francisco Bay Area, the Bay Area companies were averaged with the business services companies and the national industry comparables to better approximate the competitive recruiting and retention environment influencing compensation levels for each named executive officer. The Committee generally sets the total compensation for executive officers at or slightly above the median (the 50th percentile) of compensation paid to similarly situated executives of the companies in the Compensation Peer Group. If a named executive officer was located in an area outside of the San Francisco Bay Area, a geographic adjustment was made. Variations to this objective may occur as dictated by the experience level of the individual, market factors, and other considerations the Committee may deem appropriate.

Process of Setting and Approving Executive Compensation; Role of Chief Executive Officer

The Committee approves annual compensation levels and equity awards to all executive officers. The process is described below:

- a. Annually, the Committee reviews an independent compensation consultant's report to evaluate for each executive officer (1) a target total compensation amount, (2) the appropriate allocation of base salary, non-equity performance based compensation and long-term equity incentive compensation, and (3) if there should be any change to the forms of compensation to better align our executive officers' interests with those of our shareholders.
- b. For the chief executive officer, the allocation of base salary, non-equity performance based compensation and long term equity incentive compensation and the applicable performance target levels are determined by the Committee, in consultation with the Chairman of the Board and separately with all of the independent directors. The chief executive officer has no role in setting his compensation.
- d. For the other executive officers, the chief executive officer will determine the allocation between base salaries, non-equity performance based compensation and long term equity incentive compensation and determine the performance target levels for the other executive officers. The resulting recommendations are presented to the Committee for the Committee's consideration and approval.
- e. Shortly after the end of the year, the chief executive officer reviews the performance of each executive officer (other than the chief executive officer whose performance is reviewed and earned compensation approved by the Committee, after consultation with the Chairman, and then separately with all independent directors). The conclusions reached and recommendations based on these reviews are presented by the chief executive officer to the Committee for consideration. The Committee then approves all earned compensation for the executive officers. The Committee can exercise its discretion in modifying any recommended adjustments or awards.

2006 Executive Compensation Elements

Annual Base Salary

The Company provides executive officers and other employees with a base salary to compensate them for services rendered in the fiscal year. Base salary ranges for named executive officers are determined for each executive based on his or her position and responsibility by using market data. Base salary ranges are designed so that salary opportunities for a given position will approximate the median (the 50th percentile) of the range of market salary of each comparable position in our peer group.

During its review of base salaries for executives, the Committee primarily considers:

market data provided by our outside consultants;

internal review of the executive's compensation, both individually and relative to other officers; and,

individual performance of the executive

Salary levels are typically considered as part of the Company's performance review process on an annual basis as well as upon promotion or other change in job responsibility. Merit increases to salaries of executive officers are based on the chief executive officer and Committee's assessment of the individual's performance in their annual performance review.

Non-Equity Performance-Based Incentive Compensation

In fiscal year 2006, each executive officer had non-equity performance-based incentive awards as described below:

Non-Equity Performance-Based Incentive Plan Components:

The Non-Equity Performance-Based Incentive Plan (the Bonus Plan) is comprised of two components. The first component compensates the executive for his or her efforts leading to the Company's success at meeting its annual profitability goals. The second component measures the executive officer's success at accomplishing his or her personal annual priorities. These two components are used to assure an emphasis on annual profitability and to define each executive officer's specific role with measurable goals to achieve annual and long term increases in shareholder value.

Component 1 Profitability:

Each executive officer will receive a cash bonus based upon the Company's success at meeting certain annual profitability goals. The profitability goal of the Company for this purpose for all of its executive officers is the Company's pre-tax income, except that the profitability goal for any Vice President & Division Manager will be measured 80% on their respective divisional gross margin less direct SG&A profitability and 20% on the Company's pre-tax income. The Company believes these are the most appropriate metrics to support the long-term financial health of the Company. We use a collaborative process between our chief executive officer, chief financial officer and various other executive officers to determine the annual profitability goal for each of the executive officers of the Company recommended to the Committee. The Committee then reviews each executive officer's compensation history and performance before determining final grant levels for such profitability goals.

The annual profitability goal will be established based upon a realistic stretch philosophy. The Company's management will determine the potential annual financial performance of the Company based upon its outlook for the opportunity levels in the markets in which it operates, strategic and tactical initiatives, other key factors and special circumstances applying a realistic stretch view to what potentially can be accomplished. It is expected that although it will take a significant amount of effort on the part of each individual, 100% of the target annual profitability level will be achieved for the year. It is assumed any amount in excess of the target annual profitability goal will be difficult to achieve unless extraordinary efforts are made.

Each executive officer has a designated percentage of W-2 base salary for the calendar year that can be earned for achieving 100% of their respective annual profitability goal. For levels achieved between 80% and 99% of the profitability goal, a rapidly reducing scale will be utilized to determine bonus percentage amounts of W-2 base salary. No amount is paid for levels below 80% of the profitability goal. For each 1% increase achieved above 100% of the profitability goal, an additional 2% of W-2 base salary will be awarded, up to a maximum of an additional 16%.

Component 2 Personal Annual Priorities:

The second component for the Bonus Plan measures each executive officer's success at accomplishing his or her personal annual priorities. These personal annual priorities are measured on a quarterly basis and paid annually, using a collaborative process between the chief executive officer or senior vice president, operations and each executive officer. Final determination of the personal annual priorities for each executive officer will rest with the chief executive officer (other than the chief executive officer priorities which are determined by the Committee, after consultation with the Chairman, and then separately with all independent directors). The personal annual priorities for each named executive officer generally are comprised of a maximum of four items deemed to be the most critical priorities that require action to be taken for the current evaluation period. Each priority will be weighted according to 1) the critical nature of the priority relative to other priorities for all executive officers, and 2) the amount of time and effort involved in accomplishing the priority relative to other priorities.

Listed below under the Bonus Plan Percentages section is a schedule identifying each officer and the percentage amounts of W-2 base salary for the calendar year 2006 that can be earned under this component for achieving a 100% rating for all priorities. In the event of truly outstanding achievement under an individual personal annual priority, an officer may receive up to a maximum score of 125%. Although infrequent, it is possible for an officer to achieve 125% in each of their personal annual priorities. Each personal annual priority goal represents a challenge and complete success is not always solely in the control of the officer. There are factors that may affect the outcome, including changes in market conditions and unanticipated variables. In fact, no executive officer has achieved 100% on all of their personal annual priority goals in any of the past three years. Typically, each personal annual priority is measured and the overall weighted average of achievement for all personal annual priorities is multiplied by the total percentage available to each officer. Annually, the Committee uses its discretion to allocate specific percentages of profitability and personal annual priorities for each officer.

Bonus Plan Percentages:

Percentages of calendar year 2006 W-2 base salary amounts for both the profitability goal and the personal annual priorities components per officer position are listed below:

Name	Profitability (at 100% of Goal)	Personal Annual Priorities (at 100% of Achievement)
Dennis Kakures	55%	15%
Keith Pratt	45%	15%
Joe Hanna	40%	15%
Randy Rose	10%	40%
Richard Brown	25%	25%

2007 Changes to Components for Non-Equity Performance-Based Incentive Plan

For fiscal year 2007, based upon input from the Board, the Committee modified our Bonus Plan to recognize that some executive officers should have a greater percentage of their bonus tied to personal annual

priorities and that many of these priorities should be multi-year and based more on the Company's strategic growth. The 2007 allocation between profitability goals and personal annual priorities for our named executive officers' non-equity performance-based incentives are as follows:

Name	Profitability (at 100% of Goal)	Personal Annual Priorities (at 100% of Achievement)
Dennis Kakures	40%	30%
Keith Pratt	35%	25%
Joe Hanna	30%	25%
Randy Rose	10%	40%
Richard Brown	25%	25%

In addition, the 2007 Bonus Plan was changed so for each 1% increase achieved above 100% of the profitability goal, an additional 2% of W-2 base salary will be awarded, up to a maximum of each executive officer's profitability percentage.

Long-Term Incentive Compensation

We believe that the use of stock options is the best performance-based equity vehicle because of our focus on long-term sustained growth in earnings per share, accomplished through net income growth, efficient use of capital and optimizing strategic growth opportunities. Our intent is that the executive officers be rewarded when our shareholders realize long-term growth in the price appreciation of our stock. Unless our financial performance over a long-term period drives an increase in our stock price, the options granted provide little or no value to our executive officers.

Our practice has been to grant annual stock options to executive officers with a five-year vesting period (20% per year). When granting stock options, we first establish a dollar value of the total equity compensation to be awarded for each executive officer position based on Compensation's report. On the date of the grant, we divide that total stock option fair value dollar amount by the per share fair value, calculated using the Black Scholes Option pricing model, and generally round up to the nearest 1,000 shares to determine the number of options to award. Although we use what we consider to be a reasoned approach in determining the number of options to award our executive officers using a formula that is based on a widely accepted option-pricing model, the ultimate value of the options issued only becomes clear when they are exercised. The stock options may not realize any value, or they may be worth much more than the fair value initially estimated. As a result, we do not consider realizable gains from prior stock option grants or existing levels of share ownership when setting new grant amounts.

Although the Company has the 2000 Long-Term Stock Bonus Plan, we have historically granted stock options with the belief that stock options better align the executive officer's interest with shareholders' long-term interests. However, the new proposed 2007 Stock Option Plan allows for a variety of equity grants and the Company may determine other methods that will more closely align our executive officer's interest with our shareholders' interests in the future.

Stock Option Granting Policies

On February 2, 2007, the Board adopted a stock option granting methodology for all designated directors, officers and key employees whereby there will be one annual stock option grant date. This date will be the date when the blackout window opens after the year-end earnings are released. All designated directors, officers and employees will receive an option grant on this date with an exercise price equal to the NASDAQ close price on that day. The Board will convene a meeting on this date after the NASDAQ market closes to determine the number of shares to be granted. If the Board grants to the CEO an additional "bucket" of options to be granted at his discretion to new hires and promotion candidates, the grant date and exercise price will be based on the last

trading day of each month of the employment event. This bucket will not be available to executive officers, as all grants to executive officers must be made by the Committee.

Executive Officer Stock Ownership Guidelines

The Board believes that, in order to better align the interests of management and shareholders, officers should have a significant financial (equity) stake in the Company. Each executive officer has a target level of Company stock value to achieve within seven (7) years of the later of their date of hire or January 1, 2007. The target level of McGrath RentCorp common stock value to be achieved will be a multiple of each officer's base salary. The multiples of officer base salary will be four (4) times for the chief executive officer and two (2) times for all other executive officer positions. In evaluating whether the common stock value ownership guideline has been met, all common shares owned, ESOP shares and 50% of the value (market price less strike price) of all vested unexercised stock options will be considered. The Board will evaluate whether exceptions should be made for any officer on whom this requirement would impose a financial hardship.

Risk-Hedging Policies

Pursuant to the Company's Insider Trading Policy, executives of the Company are prohibited from engaging in certain transactions with respect to the Company's Common Stock, such as puts, calls and other exchange traded derivatives without prior consent of the Company's compliance officer. These transactions reduce or cancel the risk of an investment in the Common Stock, particularly in the short-term. Therefore, they may create the appearance that the executives are trading on inside information. Additionally, certain forms of hedging or monetization transactions allow a shareholder to lock in much of the value of his or her stock holdings, often in exchange for all or part of the potential for upside appreciation in the stock. These transactions allow the holder to continue to own the covered securities, but without full risks and rewards of ownership. Therefore, executives are also prohibited from hedging transactions without prior consent of the Company's compliance officer. No executive has been approved for any transaction described in this paragraph.

Perquisites and Other Personal Benefits

Executive officers are entitled to and eligible only for the same fringe benefits for which all of our employees are eligible. We do not have programs in place to provide personal perquisites for any employee. Our healthcare and other insurance programs, including the program's participation costs, are the same for all eligible employees, except that any executive officer employed with the Company for at least 20 years may remain on the Company's health insurance policy provided such officer pays 100% of the premiums after retiring from the Company. Our annual discretionary contribution to the Company's Employee Stock Ownership Plan, expressed as a percentage of eligible wages are also the same for all eligible employees, including each named executive officer, subject to all applicable IRS contribution limits and formulas for plans of these types.

Tax and Accounting Implications

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits the corporate deduction for compensation paid to executive officers to \$1 million unless such compensation qualifies as performance-based compensation. Among other things, Section 162(m) requires approval of the performance-based compensation by our shareholders. Our current 1998 Stock Option Plan is not compliant with Section 162(m). In this Proxy Statement, we are proposing a 2007 Stock Option Plan that will be 162(m) compliant.

Accounting for Stock-Based Compensation

We accrue our named executive officers' salaries and incentive awards as an expense when earned by the officer. For our stock options, Statement of Financial Accounting Standards (SFAS) No. 123R, *Share-Based*

Payment, requires us to recognize compensation expense within our income statement for all share-based payment arrangements, which includes employee stock option plans. The expense is based on the grant-date fair value of the options granted, and is recognized ratably over the requisite service period. We adopted SFAS No. 123R under the modified prospective method. Under the modified prospective method, SFAS No. 123R applies to new awards and to awards modified, repurchased, or cancelled after January 1, 2006, as well as to the unvested portion of awards outstanding as of January 1, 2006. Our stock options are accounted for as equity awards.

Compensation Committee Report

The Compensation Committee of the Company has reviewed the Compensation Discussion and Analysis Required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

Employee Stock Ownership Plan

The Company's Employee Stock Ownership Plan is intended to qualify as an employee stock ownership plan as defined in Section 4975(e)(7) of the Internal Revenue Code, and as a stock bonus plan under Section 401(a) of the Internal Revenue Code. The Company created a trust under the ESOP to hold plan assets, with Union Bank of California, N.A. acting as trustee. The Company may amend or terminate the ESOP at any time. In September 2003, the Company amended the ESOP to name North Star Trust Company as Trustees in place of Delight Saxton and Thomas J. Sauer. All assets acquired by the trust are administered by a Plan Committee composed of long-term Company employees Deborah Barbe, Tony Moton, Brian Jensen, and Garni Thomas for the exclusive benefit of employees who are participants in the ESOP and their designated beneficiaries.

Employees who are 21 years or older are entitled to participate in the ESOP when they have completed one year of service to the Company by June 30 of any year. As of December 31, 2006, 382 employees of the Company were participants in the ESOP. Allocations to each eligible participant's trust account are made each year from Company contributions, trust income or loss and re-allocations of forfeited ESOP benefits if the participant remains employed throughout the year and has worked a minimum number of hours or his or her employment has terminated due to death or retirement (as that term is defined in the ESOP) during that year.

Allocations are made based upon each participant's compensation from the Company and time employed by the Company. As provided by the Plan, a participant's interest in the ESOP becomes 20% vested after three years of service and will continue to vest at 20% per year thereafter until it is fully vested after the seventh year or upon death or total disability. The vesting schedule will be accelerated and the Company's contributions and ESOP allocations will be modified if the ESOP becomes a top heavy plan under federal tax laws.

In general, Company contributions are immediately tax deductible by the Company, but participants do not recognize income for tax purposes until distributions are made to them. The Company's Board of Directors determines the amount of Company contributions to the ESOP in cash, Company stock or other property each year with consideration for federal tax laws. The Company made a \$1,300,000 cash contribution to the ESOP for the 2006 plan year, and the Company had made cash contributions totaling \$3,425,000 for the four years prior to that. Employees may not make contributions to the ESOP. Contributions in cash are used to purchase Company stock. However, other investments may be made and loans may be incurred by the ESOP for the purchase of Company stock.

The Plan Committee has determined that cash dividends paid by the Company on shares of the Company's Common Stock held by the ESOP shall be paid out to the participants. The Plan Committee has the right to revoke this decision at any time.

1998 Stock Option Plan

The Company has a 1998 Stock Option Plan (as amended, the 1998 Plan) that authorizes the issuance of an aggregate of 4,000,000 shares of the Company's Common Stock under options to officers, key employees, directors and other persons who provide valuable services to the Company or its subsidiaries. Options granted under the 1998 Plan may be either incentive stock options as defined in Section 422 of the Internal Revenue Code of 1986, as amended, or options which are not incentive stock options (non-qualified options). As of April 16, 2007, options for an aggregate of 3,622,500 shares have been granted to 144 key employees at exercise prices ranging between \$7.81 and \$31.67 per share; and of such options granted, options have been exercised for the purchase of 1,257,931 shares, options for 473,300 shares have been terminated, and options for 1,891,269 shares remain outstanding. In addition to these
