**THE PNC FINANCIAL SERVICES GROUP, INC.**

***Yardville National Bancorp Acquisition***

We completed our acquisition of Yardville National Bancorp ( Yardville ) on October 26, 2007 and our financial results include Yardville from that date. PNC issued approximately 3.4 million shares of PNC common stock and paid approximately \$156 million in cash as consideration for the acquisition, and accounted for the transaction under the purchase method.

***Mercantile Acquisition***

We completed our acquisition of Mercantile Bankshares Corporation ( Mercantile ) on March 2, 2007 and our financial results include Mercantile from that date. PNC issued approximately 53 million shares of PNC common stock and paid approximately \$2.1 billion in cash as consideration for the acquisition, and accounted for the transaction under the purchase method. PNC converted the Mercantile banks' data onto PNC's financial and operational systems during September 2007.

***BlackRock/MLIM Transaction***

As further described in our Annual Report on Form 10-K for the year ended December 31, 2006, on September 29, 2006, Merrill Lynch contributed its investment management business ( MLIM ) to BlackRock, Inc. ( BlackRock ), formerly a majority-owned subsidiary of PNC, in exchange for 65 million shares of newly issued BlackRock common and preferred stock.

Our Consolidated Income Statement for the year ended December 31, 2006 reflects our former majority ownership interest in BlackRock for the first nine months of that year and our investment in BlackRock accounted for under the equity method for the fourth quarter of that year. Our Consolidated Income Statement for all other periods presented and our Consolidated Balance Sheet as of all dates included in this Financial Supplement reflect the September 29, 2006 deconsolidation of BlackRock's balance sheet amounts and recognize our approximate 34% ownership interest in BlackRock for those periods and as of those dates as an investment accounted for under the equity method.

We have also provided, for information purposes only, adjusted results in this Financial Supplement to reflect BlackRock as if it had also been accounted for under the equity method for the full year 2006.

- (a) The effective tax rates are presented on a GAAP basis. The lower effective tax rate for the fourth quarter of 2007 was primarily due to lower pretax income in relation to tax credits and earnings that are not subject to tax. The higher effective tax rate for full year 2006 was primarily due to the third quarter 2006 gain on the BlackRock/MLIM transaction and a related \$57 million cumulative adjustment to deferred taxes recorded in that quarter. The lower effective tax rate in the fourth quarter of 2006 was primarily due to a reduction in tax reserves for interest.

- (a) This schedule is provided for informational purposes only and reflects historical condensed consolidated financial information of PNC: (1) with amounts adjusted for the impact of certain specified items; (2) as if we had recorded our investment in BlackRock on the equity method for all periods presented; and (3) adjusted in each case, as appropriate, for the tax impact. See the Appendix to this Financial Supplement for reconciliations of these amounts to the corresponding GAAP amounts for each of the periods presented. We have provided these adjusted amounts and reconciliations so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for these periods, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact of the deconsolidation on various components of our income statement. Adjusted information supplements our results as reported in accordance with GAAP and should not be viewed in isolation from, or as a substitute for, our GAAP results.

- (a) Our business information is presented based on our management accounting practices and our management structure. We refine our methodologies from time to time as our management accounting practices are enhanced and our businesses and management structure change.
- (b) We consider BlackRock to be a separate reportable business segment but have combined its results with Other for this presentation. Our Annual Report on Form 10-K for the year ended December 31, 2007 will provide additional business segment disclosures for BlackRock. Generally, PNC's business segment earnings from BlackRock can be estimated by multiplying our approximately 33.5% ownership interest by BlackRock's reported GAAP earnings, less the additional income taxes recorded by PNC on those earnings. The effective tax rate on those earnings is typically different than PNC's consolidated effective tax rate due to the tax treatment of dividends received, if any, from BlackRock. PNC's effective tax rate on its earnings from BlackRock for the fourth quarter of 2007 and full year 2007 was approximately 25%.
- (c) Business revenue is presented on a taxable-equivalent basis. The interest income earned on certain earning assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than a taxable investment. To provide more meaningful comparisons of yields and margins for all earning assets, we also provide revenue on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on other taxable investments. This adjustment is not permitted under GAAP on the Consolidated Income Statement. The following is a reconciliation of total consolidated revenue on a book (GAAP) basis to total consolidated revenue on a taxable-equivalent basis (in millions):

- (a) Calculated as noninterest expense divided by the sum of net interest income and noninterest income on the Consolidated Income Statement.
- (b) Calculated as PNC's efficiency ratio adjusted: (1) for the impact of certain specified items; (2) as if we had recorded our investment in BlackRock on the equity method for all periods presented; and (3) in each case, as appropriate, adjusted for the tax impact. We have provided these adjusted amounts and reconciliations so that shareholders, investor analysts, regulators and others will be better able to evaluate the impact of these items on our as reported efficiency ratio for these periods, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation. Amounts used for these adjusted ratios are reconciled to amounts used in the PNC efficiency ratio as reported (GAAP basis) below.

### ***Glossary of Terms***

**Accounting/administration net fund assets** Net domestic and foreign fund investment assets for which we provide accounting and administration services. We do not include these assets on our Consolidated Balance Sheet.

**Adjusted average total assets** Primarily comprised of total average quarterly (or annual) assets plus (less) unrealized losses (gains) on available-for-sale debt securities, less goodwill and certain other intangible assets (net of eligible deferred taxes).

**Annualized** Adjusted to reflect a full year of activity.

**Assets under management** Assets over which we have sole or shared investment authority for our customers/clients. We do not include these assets on our Consolidated Balance Sheet.

**Basis point** One hundredth of a percentage point.

**Charge-off** Process of removing a loan or portion of a loan from our balance sheet because it is considered uncollectible. We also record a charge-off when a loan is transferred to held for sale by reducing the carrying amount by the allowance for loan losses associated with such loan or if the market value is less than its carrying amount.

**Common shareholders equity to total assets** Common shareholders equity divided by total assets. Common shareholders equity equals total shareholders equity less the liquidation value of preferred stock.

**Credit spread** The difference in yield between debt issues of similar maturity. The excess of yield attributable to credit spread is often used as a measure of relative creditworthiness, with a reduction in the credit spread reflecting an improvement in the borrower's perceived creditworthiness.

**Custody assets** Investment assets held on behalf of clients under safekeeping arrangements. We do not include these assets on our Consolidated Balance Sheet. Investment assets held in custody at other institutions on our behalf are included in the appropriate asset categories on the Consolidated Balance Sheet as if physically held by us.

**Derivatives** Financial contracts whose value is derived from publicly traded securities, interest rates, currency exchange rates or market indices. Derivatives cover a wide assortment of financial contracts, including forward contracts, futures, options and swaps.

**Duration of equity** An estimate of the rate sensitivity of our economic value of equity. A negative duration of equity is associated with asset sensitivity (*i.e.*, positioned for rising interest rates), while a positive value implies liability sensitivity (*i.e.*, positioned for declining interest rates). For example, if the duration of equity is +1.5 years, the economic value of equity declines by 1.5% for each 100 basis point increase in interest rates.

**Earning assets** Assets that generate income, which include: federal funds sold; resale agreements; other short-term investments, including trading securities; loans held for sale; loans, net of unearned income; securities; and certain other assets.

**Economic capital** Represents the amount of resources that a business segment should hold to guard against potentially large losses that could cause insolvency. It is based on a measurement of economic risk, as opposed to risk as defined by regulatory bodies. The economic capital measurement process involves converting a risk distribution to the capital that is required to support the risk, consistent with our target credit rating. As such, economic risk serves as a common currency of risk that allows us to compare different risks on a similar basis.

**Effective duration** A measurement, expressed in years, that, when multiplied by a change in interest rates, would approximate the percentage change in value of on- and off-balance sheet positions.

*Glossary of Terms (continued)*

Efficiency Noninterest expense divided by the sum of net interest income (GAAP basis) and noninterest income.

Funds transfer pricing A management accounting methodology designed to recognize the net interest income effects of sources and uses of funds provided by the assets and liabilities of a business segment. We assign these balances LIBOR-based funding rates at origination that represent the interest cost for us to raise/invest funds with similar maturity and repricing structures.

Futures and forward contracts Contracts in which the buyer agrees to purchase and the seller agrees to deliver a specific financial instrument at a predetermined price or yield. May be settled either in cash or by delivery of the underlying financial instrument.

GAAP Accounting principles generally accepted in the United States of America.

Leverage ratio Tier 1 risk-based capital divided by adjusted average total assets.

Net interest income from loans and deposits A management accounting assessment, using funds transfer pricing methodology, of the net interest contribution from loans and deposits.

Net interest margin Annualized taxable-equivalent net interest income divided by average earning assets.

Nondiscretionary assets under administration Assets we hold for our customers/clients in a non-discretionary, custodial capacity. We do not include these assets on our Consolidated Balance Sheet.

Noninterest income to total revenue Noninterest income divided by the sum of net interest income (GAAP basis) and noninterest income.

Nonperforming assets Nonperforming assets include nonaccrual loans, troubled debt restructured loans, foreclosed assets and other assets. We do not accrue interest income on assets classified as nonperforming.

Nonperforming loans Nonperforming loans include loans to commercial, commercial real estate, equipment lease financing, consumer, and residential mortgage customers as well as troubled debt restructured loans. Nonperforming loans do not include loans held for sale or foreclosed and other assets. We do not accrue interest income on loans classified as nonperforming.

Notional amount A number of currency units, shares, or other units specified in a derivatives contract.

Operating leverage The period to period percentage change in total revenue (GAAP basis) less the percentage change in noninterest expense. A positive percentage indicates that revenue growth exceeded expense growth (*i.e.*, positive operating leverage) while a negative percentage implies expense growth exceeded revenue growth (*i.e.*, negative operating leverage).

Recovery Cash proceeds received on a loan that we had previously charged off. We credit the amount received to the allowance for loan and lease losses.

Return on average capital Annualized net income divided by average capital.

Return on average assets Annualized net income divided by average assets.

Return on average common equity Annualized net income divided by average common shareholders' equity.

Risk-weighted assets Primarily computed by the assignment of specific risk-weights (as defined by The Board of Governors of the Federal Reserve System) to assets and off-balance sheet instruments.

Securitization The process of legally transforming financial assets into securities.

*Glossary of Terms (continued)*

Tangible common equity ratio Period-end common shareholders' equity less goodwill and other intangible assets (net of eligible deferred taxes), and excluding loan servicing rights, divided by period-end assets less goodwill and other intangible assets (net of eligible deferred taxes), and excluding loan servicing rights.

Taxable-equivalent interest The interest income earned on certain assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than taxable investments. To provide more meaningful comparisons of yields and margins for all interest-earning assets, we also provide revenue on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on other taxable investments. This adjustment is not permitted under GAAP on the Consolidated Income Statement.

Tier 1 risk-based capital Tier 1 risk-based capital equals: total shareholders' equity, plus trust preferred capital securities, plus certain minority interests that are held by others; less goodwill and certain other intangible assets (net of eligible deferred taxes), less equity investments in nonfinancial companies and less net unrealized holding losses on available-for-sale equity securities. Net unrealized holding gains on available-for-sale equity securities, net unrealized holding gains (losses) on available-for-sale debt securities and net unrealized holding gains (losses) on cash flow hedge derivatives are excluded from total shareholders' equity for Tier 1 risk-based capital purposes.

Tier 1 risk-based capital ratio Tier 1 risk-based capital divided by period-end risk-weighted assets.

Total fund assets serviced Total domestic and offshore fund investment assets for which we provide related processing services. We do not include these assets on our Consolidated Balance Sheet.

Total return swap A non-traditional swap where one party agrees to pay the other the total return of a defined underlying asset (*e.g.*, a loan), usually in return for receiving a stream of LIBOR-based cash flows. The total returns of the asset, including interest and any default shortfall, are passed through to the counterparty. The counterparty is therefore assuming the credit and economic risk of the underlying asset.

Total risk-based capital Tier 1 risk-based capital plus qualifying subordinated debt and trust preferred securities, other minority interest not qualified as Tier 1, and the allowance for loan and lease losses, subject to certain limitations.

Total risk-based capital ratio Total risk-based capital divided by period-end risk-weighted assets.

Transaction deposits The sum of money market and interest-bearing demand deposits and demand and other noninterest-bearing deposits.

Yield curve A graph showing the relationship between the yields on financial instruments or market indices of the same credit quality with different maturities. For example, a normal or positive yield curve exists when long-term bonds have higher yields than short-term bonds. A flat yield curve exists when yields are the same for short-term and long-term bonds. A steep yield curve exists when yields on long-term bonds are significantly higher than on short-term bonds. An inverted or negative yield curve exists when short-term bonds have higher yields than long-term bonds.

***Business Segment Products and Services***

***Retail Banking*** provides deposit, lending, brokerage, trust, investment management, and cash management services to approximately 2.9 million consumer and small business customers within our primary geographic markets. Our customers are serviced through over 1,100 offices in our branch network, the call center located in Pittsburgh, and the Internet [www.pncbank.com](http://www.pncbank.com). The branch network is located primarily in Pennsylvania, New Jersey, Washington, D.C., Maryland, Virginia, Ohio, Kentucky and Delaware. Brokerage services are provided through PNC Investments, LLC, and J.J.B. Hilliard, W.L. Lyons, Inc. (Hilliard Lyons). On November 15, 2007, PNC entered into a definitive agreement to sell Hilliard Lyons to Houchens Industries, Inc. The transaction is expected to result in an after-tax gain of approximately \$50 million and be completed in the first half of 2008 subject to regulatory and certain other required approvals.

Retail Banking also serves as investment manager and trustee for employee benefit plans and charitable and endowment assets and provides nondiscretionary defined contribution plan services. These services are provided to individuals and corporations primarily within our primary geographic markets.

***Corporate & Institutional Banking*** provides lending, treasury management, and capital markets-related products and services to mid-sized corporations, government entities, and selectively to large corporations. Lending products include secured and unsecured loans, letters of credit and equipment leases. Treasury management services include cash and investment management, receivables management, disbursement services, funds transfer services, information reporting, and global trade services. Capital markets-related products and services include foreign exchange, derivatives, loan syndications, mergers and acquisitions advisory and related services to middle-market companies, securities underwriting, and securities sales and trading. Corporate & Institutional Banking also provides commercial loan servicing, real estate advisory and technology solutions for the commercial real estate finance industry. Corporate & Institutional Banking provides products and services generally within our primary geographic markets, with certain products and services provided nationally.

***BlackRock*** is one of the world's largest publicly traded investment management firms. The firm manages assets on behalf of institutions and individuals worldwide through a variety of equity, fixed income, cash management and alternative investment products. In addition, BlackRock provides BlackRock Solutions® investment system, risk management, and financial advisory services to a growing number of institutional investors. The firm has a major presence in key global markets, including the United States, Europe, Asia, Australia and the Middle East. At December 31, 2007, PNC's ownership interest in BlackRock was approximately 33.5%.

***PFPC*** is a leading full service provider of processing, technology and business solutions for the global investment industry. Securities services include custody, securities lending, and accounting and administration for funds registered under the 1940 Act and alternative investments. Investor services include transfer agency, managed accounts, subaccounting, and distribution.

On December 7, 2007, PFPC acquired Lawrenceville, New Jersey-based Albridge Solutions Inc., a provider of portfolio accounting and enterprise wealth management services. Also on December 7, 2007, PFPC acquired Coates Analytics, LP, a provider of Web-based analytics tools that help asset managers identify wholesaler territories and financial advisor targets, promote products in the marketplace and strengthen competitive intelligence.

PFPC serviced \$2.5 trillion in total assets and 72 million shareholder accounts as of December 31, 2007 both domestically and internationally through its Ireland and Luxembourg operations.

(a) These adjusted condensed consolidated income statement reconciliations are provided for informational purposes only and reflect historical condensed consolidated financial information of PNC (1) with amounts adjusted for the impact of certain specified items and (2) as if we had recorded our investment in BlackRock on the equity method for all periods presented, in each case, as appropriate, adjusted for the tax impact. These reconciliations are from the reported GAAP amounts shown on page 2 of the Financial Supplement to the corresponding adjusted amounts shown on page 3 of the Financial Supplement. We have provided these adjusted amounts and reconciliations so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for these periods, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact of the deconsolidation on various components of our income statement. We believe that information as adjusted for the impact of the specified items may be useful due to the extent to which these items are not indicative of our ongoing operations as the result of our management activities. Integration costs can vary significantly from period to period depending on whether or not we have any such transaction pending or in process and depending on the nature of the transaction. Our BlackRock LTIP shares obligation results from an agreement entered into in 2002 and predominantly reflects the market price of BlackRock stock at specified times. We have provided information adjusted for the impact of the third quarter 2006 gain on the BlackRock/MLIM transaction due to the magnitude of that transaction, and have provided information adjusted for the impact of the third quarter 2006 securities portfolio rebalancing and mortgage loan portfolio repositioning losses due to the nature of those transactions.

Our payment services business issues and acquires credit and debit card transactions through Visa U.S.A. Inc. card association or its affiliates ( Visa ). In October 2007, Visa completed a restructuring and issued shares of Visa Inc. common stock to its financial institution members in contemplation of its initial public offering ( IPO ) currently anticipated in the first quarter of 2008 (the Visa Reorganization ). As part of the Visa Reorganization, we received our proportionate share of a class of Visa Inc. common stock allocated to the U.S. members. Visa expects that a portion of these shares will be redeemed for cash out of the proceeds of the IPO. The U.S. members are obligated to indemnify Visa for judgments and settlements related to specified litigation. Visa will set aside a portion of the proceeds from the IPO in an escrow account for the benefit of the U.S. member financial institutions to fund the expenses of the litigation as well as the members' proportionate share of any judgments or settlements that may arise out of the litigation. In accordance with GAAP, we recorded a liability and operating expense totaling

## Edgar Filing: STERLING FINANCIAL CORP /PA/ - Form 425

\$82 million before taxes in the fourth quarter of 2007 representing our estimate of the fair value of our indemnification obligation for potential losses arising from this litigation. Our estimate is based on publicly available information and other information made available to all of the affected Visa members and does not reflect any direct knowledge of the relative strengths and weaknesses of the litigation still pending or the status of any on-going settlement discussions. We believe that the IPO will be completed and cash will be available through the escrow to satisfy litigation settlements. In addition, based on estimates provided by Visa regarding its planned IPO, we believe that our ownership interest in Visa has a value significantly in excess of our indemnification liability. Our Visa shares will not generally be transferable until they can be converted into shares of the publicly traded class of stock, which cannot happen until the later of three years after the IPO or settlement of all of the specified litigation.

Adjusted information supplements our results as reported in accordance with GAAP and should not be viewed in isolation from, or as a substitute for, our GAAP results. Our 2006 Form 10-K includes additional information regarding our accounting for the BlackRock/MLIM transaction and the BlackRock LTIP shares obligation. Our 2007 Form 10-Qs provide additional information regarding integration costs. The absence of other adjustments is not intended to imply that there could not have been other similar types of adjustments, but any such adjustments would not have been similar in magnitude to the amount of the adjustments shown.

- (b) Includes the impact of the following items on a pretax basis: \$151 million of acquisition integration costs, \$127 million net loss related to our BlackRock LTIP shares obligation, and \$82 million of Visa indemnification costs.

Earnings Conference Call  
January 17, 2008

This presentation contains forward-looking statements regarding our outlook or expectations relating to PNC's future business condition, financial performance and asset quality. Forward-looking statements are necessarily subject to numerous assumptions and uncertainties, which change over time.

The forward-looking statements in this presentation are qualified by the factors affecting forward-looking statements identified

Future events or circumstances may change our outlook or expectations and may also affect the nature of the assumptions, risks, and uncertainties to which our forward-looking statements are subject. The forward-looking statements in this presentation speak only as of the date of this presentation.

In this presentation, we will sometimes refer to adjusted results to help illustrate the impact of the deconsolidation of BlackRock third quarter 2006 and the impact of certain types of items. Adjusted results reflect, as applicable, the following types of adjustments:

and  
(6)  
adjusting,  
as  
appropriate,  
for  
the

impact  
of  
these  
adjustments. We have provided these adjusted amounts and reconciliations so that investors, analysts, regulators and others will  
evaluate the impact of these items on our results for the periods presented, in addition to providing a basis of comparability for  
BlackRock

given  
the

impact  
of  
deconsolidation  
on

that

information  
as

for  
the  
the  
impact  
of  
the  
specified  
items  
may  
be  
useful  
due  
to  
the  
extent  
to  
which  
these  
items  
are  
not  
indicative  
of our ongoing operations as the result of our management activities on those operations. While we have not provided other ac  
periods  
discussed,  
this  
is  
not  
intended  
to  
imply  
that  
there  
could  
not  
have  
been  
other  
similar  
types  
of  
adjustments,  
but  
any  
such  
adjustments  
would

not have been similar in magnitude to the amount of the adjustments shown. In certain discussions, we may also provide rever

taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest in taxable investments. We believe this adjustment may be useful when comparing yields and margins for all earning assets.

This presentation may also include a discussion of other non-GAAP financial measures, which, to the extent not so qualified in the Appendix, is qualified by GAAP reconciliation information available on our corporate website at [www.pnc.com](http://www.pnc.com) under "About Us" > "Cautionary Statement Regarding Forward-Looking Information and Adjusted Information".

and  
uncertainties,  
actual  
results  
or  
future  
events  
could  
differ,  
possibly  
materially,  
from

those that we anticipated in our forward-looking statements, and future results could differ materially from our historical performance. Our forward-looking statements are subject to the following principal risks and uncertainties. We provide greater detail regarding these factors in our Form 10-K for the year ended December 31, 2006, including in the Risk Factors and Risk Management sections of our third quarter 2007 Form 10-Q and other SEC reports. Our forward-looking statements may also be subject to other risks and uncertainties, including those that we may discuss elsewhere in this presentation or in our filings with the SEC, accessible on the SEC's website and on or through our corporate website at [www.pnc.com/secfilings](http://www.pnc.com/secfilings).

Our businesses and financial results are affected by business and economic conditions, both generally and specifically in the markets in which we operate. In particular, our businesses and financial results may be impacted by:

Changes  
in  
interest  
rates  
and  
valuations  
in  
the  
debt,  
equity  
and  
other  
financial  
markets.

Disruptions in the liquidity and other functioning of financial markets, including such disruptions in the markets for real estate and other assets commonly securing financial products.

Actions by the Federal Reserve and other government agencies, including those that impact money supply and market interest rates.

Changes in our customers', suppliers'  
and other counterparties'  
performance in general and their creditworthiness in particular.

Changes in customer preferences and behavior, whether as a result of changing business and economic conditions or other factors.

A continuation of recent turbulence in significant portions of the global financial markets could impact our performance, both directly through our revenues and the value of our assets and liabilities and indirectly by affecting the economy generally.

Our operating results are affected by our liability to provide shares of BlackRock common stock to help fund certain BlackRock LTIP programs, as our LTIP liability is adjusted quarterly (marked-to-market) based on changes in BlackRock's stock price, the number of remaining committed shares, and we recognize gain or loss on such shares at such times as shares are transferred under the LTIP programs.

Competition can have an impact on customer acquisition, growth and retention, as well as on our credit spreads and product pricing, which can affect market share, deposits and revenues.

Our ability to implement our business initiatives and strategies could affect our financial performance over the next several years.

Legal and regulatory developments could have an impact on our ability to operate our businesses or our financial condition or our competitive position or reputation. Reputational impacts, in turn, could affect matters such as business generation and retention to attract and retain management,

liquidity,  
and  
funding.

These  
legal  
and  
regulatory  
developments  
could  
include:

(a)  
the  
unfavorable  
resolution

of legal proceedings or regulatory and other governmental inquiries; (b) increased litigation risk from recent regulatory and other

developments;  
(c)  
the  
results

of  
the  
regulatory  
examination  
process,  
our  
failure

to  
satisfy  
the  
requirements  
of  
agreements  
with  
governmental  
agencies, and regulators

future use of supervisory and enforcement tools; (d) legislative and regulatory reforms, including changes to laws and  
regulations

involving  
tax,  
pension,  
education  
lending,

and  
the  
protection  
of  
confidential  
customer  
information;  
and

(e)  
changes  
in  
accounting  
policies and principles.

Our business and operating results are affected by our ability to identify and effectively manage risks inherent in our business appropriate, through the effective use of third-party insurance, derivatives, and capital management techniques.

Our ability to anticipate and respond to technological changes can have an impact on our ability to respond to customer needs competitive demands.

The adequacy of our intellectual property protection, and the extent of any costs associated with obtaining rights in intellectual property by others, can impact our business and operating results.

Our business and operating results can also be affected by widespread natural disasters, terrorist activities or international hostilities. These events may result in a general loss of confidence of the public, which may have a negative impact on the global economy and capital markets, and other financial markets generally. This may result in a loss of confidence in us, our customers, suppliers or other counterparties specifically.

Also, risks and uncertainties that could affect the results anticipated in forward-looking statements or from historical performance of our equity interest in BlackRock, Inc. are discussed in more detail in BlackRock's filings with the SEC, including in the Risk Factors included in BlackRock's reports. BlackRock's SEC filings are accessible on the SEC's website and on or through BlackRock's website.

We

risks  
in  
addition  
to  
those  
presented  
by  
the  
nature  
of  
the

In  
particular, acquisitions may be substantially more expensive to complete (including as a result of costs incurred in connection with  
of  
the

and  
the  
anticipated

(including  
anticipated

and  
strategic  
gains)  
may  
be

Regulatory and/or legal the pre-acquisition operations of an acquired business may cause reputational harm to PNC following the acquisition and integration of the business into ours and may result in additional future costs arising as a result of those issues.

Any annualized, proforma, estimated, third party or consensus numbers in this presentation are used for illustrative or comparative purposes and may not reflect actual results. Any consensus earnings estimates are calculated based on the earnings projections made by that company. The analysts

the  
net  
mark-to-market  
adjustment  
on  
our  
remaining BlackRock LTIP shares obligation, as applicable.

In  
accordance  
with  
GAAP,  
we  
recorded  
a  
liability  
and  
operating  
expense  
totaling  
\$82  
million  
before  
taxes  
in  
the  
fourth  
quarter  
of  
2007  
representing  
our  
estimate  
of  
the  
fair  
value  
of

our  
indemnification  
obligation  
for  
potential  
losses  
arising  
from  
this  
litigation.  
Our  
estimate  
is  
based  
on  
publicly  
available  
information  
and  
other  
information  
made  
available  
to  
all  
of  
the  
affected  
Visa  
members  
and  
does  
not  
reflect  
any  
direct  
knowledge  
of  
the  
relative  
strengths  
and  
weaknesses  
of  
the  
litigation  
still  
pending  
or  
the

status  
of  
any  
on-going  
settlement  
discussions.

We  
believe  
that  
the  
IPO  
will  
be  
completed  
and  
cash  
will  
be  
available  
through  
the  
escrow  
to  
satisfy  
litigation  
settlements.

In  
addition,  
based  
on  
estimates  
provided  
by  
Visa  
regarding  
its  
planned  
IPO,  
we  
believe  
that  
our  
ownership  
interest  
in  
Visa  
has  
a  
value  
significantly

in  
excess  
of  
our  
indemnification  
liability.

Our  
Visa  
shares  
will  
not  
generally  
be  
transferable  
until  
they  
can  
be  
converted  
into  
shares  
of  
the  
publicly  
traded  
class  
of  
stock,  
which  
cannot  
happen  
until  
the  
later  
of  
three  
years  
after  
the  
IPO  
or  
settlement  
of all of the specified litigation.
