Approximate date of commencement of proposed sale to public: As soon as practicable after the effectiveness of the registration statement.

If this form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act of 1933, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. "

If this form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration number of the earlier effective registration statement for the same offering. "

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form POS AM

If this form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration number of the earlier effective registration statement for the same offering. "

If delivery of the prospectus is expected to be made pursuant to Rule 434, please check the following box. "

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act (Check One):

Large accelerated filer "

Accelerated filer "

Non-accelerated filer

Smaller Reporting Company "

(Do not check if smaller reporting company)

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until this Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

This Post-Effective Amendment No. 7 consists of the following:

1. The Registrant's final form of Prospectus dated April 24, 2007, previously filed pursuant to Rule 424(b)(3) on April 24, 2007 and refiled herewith.
2. Supplement No. 7 dated April 18, 2008 to the Registrant's Prospectus dated April 24, 2007, included herewith. Supplement No. 7 supersedes and replaces all prior supplements to this Prospectus.
3. Part II, included herewith.
4. Signature Page, included herewith.

WELLS REAL ESTATE INVESTMENT TRUST II, INC.

475,000,000 Shares of Common Stock

Wells Real Estate Investment Trust II, Inc. buys, owns and operates commercial real estate consisting primarily of high-quality, income-generating office and industrial properties leased to creditworthy companies and governmental entities. As of December 31, 2006, we owned interests in 47 office properties, one industrial building and one hotel, comprising approximately 14.5 million square feet of commercial space located in 17 states and the District of Columbia. We were incorporated in the State of Maryland in July 2003 and, beginning with our first year of operations ended December 31, 2003, we have elected to be taxed as a REIT.

We are offering up to 300,000,000 shares of common stock in our primary offering for \$10 per share, with volume discounts available to investors who purchase more than 50,000 shares at any one time. Discounts are also available for other categories of purchasers and may be available from participating broker-dealers to the extent they may waive a portion of their selling commissions. We are also offering up to 175,000,000 shares pursuant to our dividend reinvestment plan at a purchase price equal to the higher of \$9.55 per share or 95% of the estimated value of a share of our common stock.

See **Risk Factors** beginning on page 22 to read about risks you should consider before buying shares of our common stock. These risks include the following:

No public market currently exists for our shares of common stock, and we have no current plans to list our shares on an exchange or on NASDAQ. If you are able to sell your shares, you would likely have to sell them at a substantial discount from their public offering price.

We will pay substantial fees and expenses to our advisor, its affiliates and participating broker-dealers, which payments increase the risk that you will not earn a profit on your investment.

While we are investing the proceeds of this offering, continuing high demand for the type of properties we desire to acquire may cause our dividend and the long-term returns of our investors to be lower than they otherwise would.

We are dependent upon our advisor and its affiliates to conduct our operations and this offering; thus, adverse changes in their financial health or our relationship with them could cause our operations to suffer.

If we raise substantial offering proceeds in a short period of time, we may not be able to invest all of the net offering proceeds promptly, which may cause our dividend and the long-term returns of our investors to be lower than they otherwise would.

Our advisor and its affiliates will face conflicts of interest, including significant conflicts created by our advisor's compensation arrangements with us and other Wells-sponsored programs.

We were incorporated in July 2003 and have a limited operating history, which makes our future performance and the performance of your investment difficult to predict.

Our failure to qualify as a REIT for federal income tax purposes would reduce the amount of income we have available for distribution and limit our ability to make distributions to our stockholders.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form POS AM

Neither the SEC, the Attorney General of the State of New York nor any other state securities regulator has approved or disapproved of our common stock, determined if this prospectus is truthful or complete or passed on or endorsed the merits of this offering. Any representation to the contrary is a criminal offense.

This investment involves a high degree of risk. You should purchase these securities only if you can afford a complete loss of your investment. The use of projections or forecasts in this offering is prohibited. No one is permitted to make any oral or written predictions about the cash benefits or tax consequences you will receive from your investment.

	Price			
	to Public	Selling Commissions	Dealer Manager Fee	Net Proceeds (Before Expenses)
Primary Offering				
Per Share	\$ 10.00	\$ 0.70*	\$ 0.25*	\$ 9.05
Total Maximum	\$ 3,000,000,000	\$ 210,000,000	\$ 75,000,000	\$ 2,715,000,000
Dividend Reinvestment Plan				
Per Share	\$ 9.55	\$	\$	\$ 9.55
Total Maximum	\$ 1,671,250,000	\$	\$	\$ 1,671,250,000

* The selling commissions and all or a portion of the dealer manager fee will not be charged with regard to shares sold to or for the account of certain categories of purchasers. The reduction in these fees will be accompanied by a corresponding reduction in the per share purchase price.

The dealer manager of this offering, Wells Investment Securities, Inc., who is our affiliate, is not required to sell any specific number or dollar amount of shares but will use its best efforts to sell the shares offered. The minimum permitted purchase is generally \$1,000. Our 300,000,000 share primary offering is scheduled to terminate by December 1, 2008. We may continue to offer the 175,000,000 dividend reinvestment plan shares beyond this date until we have sold all of these shares through the reinvestment of dividends. In some states, we may not be able to continue the offering without renewing the registration statement or filing a new registration statement. We may terminate this offering at any time.

April 24, 2007

SUITABILITY STANDARDS

The shares we are offering are suitable only as a long-term investment. Because there is no public market for the shares, you will have difficulty selling your shares. In consideration of these factors, we require initial stockholders and subsequent purchasers to have either:

a net worth of at least \$150,000; or

gross annual income of at least \$45,000 and a net worth of at least \$45,000.

In addition, we will not sell shares to investors in the states named below unless they meet special suitability standards.

Arizona, California, Iowa, Kansas, Massachusetts, Michigan, Missouri, New Jersey and Tennessee - Investors must have either (1) a net worth of at least \$225,000 or (2) gross annual income of at least \$60,000 and a net worth of at least \$60,000.

Maine - Investors must have either (1) a net worth of at least \$200,000 or (2) gross annual income of at least \$50,000 and a net worth of at least \$50,000.

Ohio - Investors must have either (1) a net worth of at least \$250,000 or (2) gross annual income of at least \$70,000 and a net worth of at least \$70,000. In addition, investors must have a net worth of at least 10 times their aggregate investment in us and our affiliates.

Iowa, Kansas, Missouri and Pennsylvania - In addition to the suitability requirements described above, investors must have a net worth of at least 10 times their investment in us.

For purposes of determining suitability of an investor, net worth in all cases should be calculated excluding the value of an investor's home, furnishings and automobiles. In the case of sales to fiduciary accounts, these suitability standards must be met by the fiduciary account, by the person who directly or indirectly supplied the funds for the purchase of the shares if such person is the fiduciary or by the beneficiary of the account.

Those selling shares on our behalf must make every reasonable effort to determine that the purchase of shares in this offering is a suitable and appropriate investment for each stockholder based on information provided by the stockholder regarding the stockholder's financial situation and investment objectives. See Plan of Distribution Suitability Standards for a detailed discussion of the determinations regarding suitability that we require of all those selling shares on our behalf.

<u>When will I get my detailed tax information?</u>	21
<u>Who can help answer my questions?</u>	21
<u>Risk Factors</u>	22
<u>Risks Related to an Investment in Us</u>	22
<u>There is no public trading market for your shares; therefore, it will be difficult for you to sell your shares.</u>	22
<u>If we are unable to find suitable investments, we may not be able to achieve our investment objectives or pay dividends.</u>	22

Table of Contents

Index to Financial Statements

<u>If we raise substantial offering proceeds in a short period of time, we may not be able to invest all of the net offering proceeds promptly, which may cause our dividends and your investment returns to be lower than they otherwise would.</u>	23
<u>We have not yet identified the properties that we will purchase with the proceeds of this offering, which makes your investment more speculative.</u>	23
<u>If we are unable to raise substantial funds, we will be limited in the number and type of investments we may make, and the value of your investment in us will fluctuate with the performance of a smaller portion of our portfolio.</u>	23
<u>We were incorporated in 2003 and have a limited operating history, which makes our future performance and the performance of your investment difficult to predict.</u>	24
<u>We may be unable to pay or maintain cash distributions or increase distributions over time, and, until we have invested the proceeds of this offering and our properties are generating sufficient cash flow, we may have difficulty funding our distributions solely from cash flow from operations, which could reduce the funds we have available for investment and your overall return.</u>	24
<u>Our loss of or inability to obtain key personnel could delay or hinder implementation of our investment strategies, which could limit our ability to make distributions and decrease the value of your investment.</u>	24
<u>Our operating performance could suffer if Wells Capital or its affiliates incur significant losses, including those losses that may result from litigation or from being the general partner of other entities.</u>	25
<u>Our rights and the rights of our stockholders to recover claims against our independent directors are limited, which could reduce your and our recovery against them if they negligently cause us to incur losses.</u>	25
<u>Risks Related to Conflicts of Interest</u>	26
<u>Wells Capital and possibly Wells Management will face conflicts of interest relating to the purchase and leasing of properties, and such conflicts may not be resolved in our favor, i.e., our advisor may offer us less attractive investment opportunities or we may lease to less attractive tenants, lowering your overall return.</u>	26
<u>Wells Capital will face conflicts of interest relating to joint ventures that we may form with affiliates of Wells Capital, which conflicts could result in a disproportionate benefit to the other venture partners at our expense.</u>	26
<u>Wells Capital, its affiliates and our officers will face competing demands on their time, and this may cause our operations and your investment to suffer.</u>	26
<u>Our officers and some of our directors face conflicts of interest related to the positions they hold with Wells Capital and its affiliates, which could hinder our ability to successfully implement our business strategy and to generate returns to you.</u>	27
<u>Wells Capital and its affiliates, including our officers and some of our directors, will face conflicts of interest caused by compensation arrangements with us and other Wells-sponsored programs, which could result in actions that are not in the long-term best interest of our stockholders.</u>	27
<u>Our board's loyalties to Institutional REIT and possibly to future Wells-sponsored programs could influence its judgment, resulting in actions that are not in our stockholders' best interest or that result in a disproportionate benefit to another Wells-sponsored program at our expense.</u>	28
<u>Risks Related to This Offering and Our Corporate Structure</u>	29

Table of Contents

Index to Financial Statements

<u>Our charter limits the number of shares a person may own, which may discourage a takeover that could otherwise result in a premium price to our stockholders.</u>	29
<u>Our charter permits our board of directors to issue stock with terms that may subordinate the rights of our common stockholders or discourage a third party from acquiring us in a manner that could result in a premium price to our stockholders.</u>	29
<u>Your investment return may be reduced if we are required to register as an investment company under the Investment Company Act; if we become an unregistered investment company, we could not continue our business.</u>	29
<u>You will have limited control over changes in our policies and operations, which increases the uncertainty and risks you face as a stockholder.</u>	30
<u>You may not be able to sell your shares under the share redemption program and, if you are able to sell your shares under the program, you may not be able to recover the amount of your investment in our shares.</u>	30
<u>The offering price was not established on an independent basis; the actual value of your investment may be substantially less than what you pay.</u>	31
<u>Because the dealer manager is one of our affiliates, you will not have the benefit of an independent review of us or the prospectus customarily undertaken in underwritten offerings; the absence of an independent due diligence review increases the risks and uncertainty you face as a stockholder.</u>	31
<u>Your interest in us will be diluted if we issue additional shares, which could reduce the overall value of your investment.</u>	31
<u>Payment of compensation to Wells Capital and its affiliates will reduce cash available for investment and distribution and increases the risk that you will not be able to recover the amount of your investment in our shares.</u>	32
<u>Adverse economic and geopolitical conditions could cause our operations to suffer and reduce the overall value of your investment.</u>	33
<u>If we are unable to obtain funding for future capital needs, cash distributions to our stockholders and the value of our investments could decline.</u>	33
<u>You may be more likely to sustain a loss on your investment because our promoters do not have as strong an economic incentive to avoid losses as do promoters who have made significant equity investments in their company.</u>	33
<u>General Risks Related to Investments in Real Estate</u>	34
<u>Economic and regulatory changes that impact the real estate market generally may cause our operating results to suffer and decrease the value of our real estate properties.</u>	34
<u>Properties that have significant vacancies could be difficult to sell, which could diminish the return on your investment.</u>	34
<u>We depend on tenants for our revenue, and lease defaults or terminations could reduce our net income and limit our ability to make distributions to our stockholders.</u>	34
<u>Our inability to sell a property when we want could limit our ability to pay cash distributions to you.</u>	34
<u>Uninsured losses relating to real property or excessively expensive premiums for insurance coverage could reduce our net income and the return on your investment.</u>	35
<u>Our operating results may suffer because of potential development and construction delays and resultant increased costs and risks.</u>	35
<u>Competition with third parties in acquiring properties and other investments may reduce our profitability and the return on your investment.</u>	35

Table of Contents

Index to Financial Statements

<u>Actions of our joint venture partners could reduce the returns on our joint venture investments and decrease your overall return.</u>	36
<u>Costs of complying with governmental laws and regulations may reduce our net income and the cash available for distributions to our stockholders.</u>	36
<u>Discovery of previously undetected environmentally hazardous conditions may decrease our revenues and the return on your investment.</u>	36
<u>If we sell properties and provide financing to purchasers, defaults by the purchasers would decrease our cash flows and limit our ability to make distributions to you.</u>	37
<u>Risks Associated with Debt Financing</u>	37
<u>We have incurred and are likely to continue to incur mortgage and other indebtedness, which may increase our business risks.</u>	37
<u>High mortgage rates may make it difficult for us to finance or refinance properties, which could reduce the number of properties we can acquire, our net income and the amount of cash distributions we can make.</u>	38
<u>Lenders may require us to enter into restrictive covenants relating to our operations, which could limit our ability to make distributions to our stockholders.</u>	38
<u>Increases in interest rates could increase the amount of our debt payments and limit our ability to pay dividends to our stockholders.</u>	38
<u>We have broad authority to incur debt, and high debt levels could hinder our ability to make distributions and could decrease the value of your investment.</u>	38
<u>Section 1031 Exchange Program Risks</u>	39
<u>We may have increased exposure to liabilities from litigation as a result of our participation in the Section 1031 Exchange Program, which increases the risks you face as a stockholder.</u>	39
<u>We are subject to risks associated with co-tenancy arrangements that are not otherwise present in a real estate investment; these risks could reduce the value of our co-tenancy investments and your overall return.</u>	39
<u>Our participation in the Section 1031 Exchange Program may limit our ability to borrow funds in the future; this could reduce the number of investments we can make and limit our ability to make distributions to you.</u>	40
<u>Federal Income Tax Risks</u>	40
<u>Failure to qualify as a REIT would reduce our net income and cash available for distributions.</u>	40
<u>Recharacterization of sale-leaseback transactions may cause us to lose our REIT status, which would reduce the return on your investment.</u>	41
<u>You may have current tax liability on distributions you elect to reinvest in our common stock.</u>	41
<u>Even if we qualify as a REIT for federal income tax purposes, we may be subject to other tax liabilities that reduce our cash flow and our ability to make distributions to you.</u>	41
<u>To maintain our REIT status, we may be forced to borrow funds during unfavorable market conditions to make distributions to our stockholders, which could increase our operating costs and decrease the value of your investment.</u>	42
<u>To maintain our REIT status, we may be forced to forego otherwise attractive opportunities, which could delay or hinder our ability to meet our investment objectives and lower the return on your investment.</u>	42

PROSPECTUS SUMMARY

This prospectus summary highlights material information contained elsewhere in this prospectus. Because it is a summary, it may not contain all of the information that is important to you. To understand this offering fully, you should read the entire prospectus carefully, including the Risk Factors section, before making a decision to invest in our common stock.

What is a REIT?

In general, a REIT is a company that:

combines the capital of many investors to acquire or provide financing for real estate properties;

allows individual investors to invest in a large-scale diversified real estate portfolio through the purchase of interests, typically shares, in the REIT;

is required to pay dividends to investors of at least 90% of its annual REIT taxable income (computed without regard to the dividends-paid deduction and excluding net capital gain); and

avoids the double taxation treatment of income that would normally result from investments in a corporation because a REIT does not generally pay federal corporate income taxes on its net income, provided certain income tax requirements are satisfied.

However, REITs are subject to numerous organizational and operational requirements. If we fail to qualify for taxation as a REIT in any year, our income will be taxed at regular corporate rates, and we would generally be disqualified from treatment as a REIT for the four taxable years following the year of losing our REIT status. Even if we qualify as a REIT for federal income tax purposes, we may still be subject to state and local taxes on our income and property and to federal income and excise taxes on our undistributed income.

What is Wells Real Estate Investment Trust II, Inc.?

Wells Real Estate Investment Trust II, Inc. buys, owns and operates commercial real estate consisting primarily of high-quality, income-generating office and industrial properties leased to creditworthy companies and governmental entities. We may also invest in entities that make similar investments. As of December 31, 2006, we owned interests in 47 office properties, one industrial building and one hotel, comprising approximately 14.5 million square feet of commercial space located in 17 states and the District of Columbia.

We were incorporated in the State of Maryland on July 3, 2003 and, beginning with our first year of operations ended December 31, 2003, we have elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended. We intend to operate in such a manner so that we may continue to qualify for taxation as a REIT.

We have no paid employees and are externally advised by Wells Capital, Inc. and certain of our properties are managed by Wells Management Company, Inc.

Our fax number is (770) 243-8198, and the e-mail address of our investor relations department is client.services@wellsref.com.

One of our affiliates also maintains an Internet site at www.wellsref.com at which there is additional information about us and our affiliates. The contents of that site are not incorporated by reference in, or otherwise a part of, this prospectus.

What is your relationship to Wells Real Estate Investment Trust, Inc. and what impact will its recently closed internalization transaction have on you?

Wells Real Estate Investment Trust, Inc., which we refer to as Wells REIT I, is a separate REIT from us that was also sponsored by Wells Real Estate Funds, Inc. Wells Real Estate Funds is our sponsor and the sole stockholder of Wells Capital (our advisor), Wells Investment Securities (our dealer manager) and Wells Management Company (Wells Management, one of our property managers). Prior to April 16, 2007, we and Wells REIT I shared a common advisor, Wells Capital, and a common property manager, Wells Management. We also shared with Wells REIT I all of the same executive officers and many of the same directors, except that we had separate presidents from February 2, 2007, which is the date that Wells REIT I entered into the merger agreement relating to the internalization transaction described below.

On April 16, 2007, Wells REIT I acquired entities affiliated with Wells Real Estate Funds. Wells REIT I entered into the merger in order to internalize advisory, asset-management, property-management and other services previously provided to Wells REIT I by Wells Real Estate Funds and its affiliates. As a result of the internalization transaction, 81 employees of Wells Real Estate Funds and its affiliates became employees of Wells REIT I. A majority of those employees did not previously provide significant services to us. Following the internalization transaction, Wells Real Estate Funds and its affiliates have 351 employees. Wells Real Estate Funds and its affiliates are seeking successors to some of the personnel who had provided services to us and became employees of Wells REIT I in the internalization transaction.

Some of the personnel acquired by Wells REIT I in the internalization had primary responsibility for the management of six of our properties. To ensure continuity of property management services, we entered into a property-management agreement with a subsidiary of Wells REIT I to provide property management services to us for the six properties. Wells Management and unaffiliated third parties, however, will continue to provide leasing services for the six properties. The terms of our agreement with Wells REIT I for property management services are substantially similar to the terms under which we engage Wells Management for property-management services.

In connection with the Wells REIT I internalization transaction, two of our three officers resigned from their officer positions with Wells REIT I, four of our board members resigned from their director positions with Wells REIT I and two Wells REIT I directors resigned from our board. As a result, we and Wells REIT I share no common officers and only one common director. Leo F. Wells, III, remains the chairman of our board of directors and of the board of directors of Wells REIT I. However, Mr. Wells and Wells REIT I have agreed that Mr. Wells will resign as a director of Wells REIT I if Wells REIT I should list its common stock on a national securities exchange unless a majority of designated independent directors of Wells REIT I determine that it is in the best interest of Wells REIT I that he remain a director.

What are your investment objectives?

Our primary investment objectives are:

to provide current income for you through the payment of cash dividends; and

to preserve and return your capital contributions.

We also seek capital gain from our investments. See the **Investment Objectives and Criteria** section of this prospectus for a more complete description of our investment policies and charter-imposed investment restrictions.

Are there any risks involved in an investment in your shares?

An investment in our shares involves significant risk. You should read the **Risk Factors** section of this prospectus beginning on page 22. That section contains a detailed discussion of material risks that you should consider before you invest in the common stock we are selling with this prospectus. Some of the more significant risks relating to an investment in our shares include the following:

No public market currently exists for our shares of common stock and we have no current plans to list our shares on a national securities exchange. If you are able to sell your shares, you would likely have to sell them at a substantial discount from their public offering price.

We were incorporated in July 2003 and have a limited operating history, which makes our future performance and the performance of your investment difficult to predict.

While we are investing the proceeds of this offering, continuing high demand for the type of properties we desire to acquire may cause our dividend and the long-term returns of our investors to be lower than they otherwise would.

If we raise substantial offering proceeds in a short period of time, we may not be able to invest all of the net offering proceeds promptly, which may cause our dividend and the long-term returns of our investors to be lower than they otherwise would.

We are dependent upon our advisor and our dealer manager to conduct our operations and this offering; thus, adverse changes in the financial health of our advisor or dealer manager or our relationship with them could cause our operations to suffer.

We will pay substantial fees and expenses to our advisor, its affiliates and participating broker-dealers, which payments increase the risk that you will not earn a profit on your investment.

Our advisor and its affiliates will face conflicts of interest, including significant conflicts created by our advisor's compensation arrangements with us and other Wells-sponsored programs and conflicts in allocating time among us and these other programs.

Edgar Filing: WELLS REAL ESTATE INVESTMENT TRUST II INC - Form POS AM

Our failure to qualify as a REIT for federal income tax purposes would reduce the amount of income we have available for distribution and limit our ability to make distributions to our stockholders.

Index to Financial Statements

Who is your advisor?

Wells Capital is our advisor. Wells Capital was incorporated in the State of Georgia in 1984. As of March 23, 2007, Wells Capital had sponsored or advised public real estate programs that had raised approximately \$8.7 billion from approximately 247,000 investors.

What will the advisor do?

Wells Capital, as our advisor, will manage our daily affairs and make recommendations on all property acquisitions to our board of directors. Leo F. Wells, III, Douglas P. Williams and Randall D. Fretz, acting through our advisor, Wells Capital, will make most of the decisions regarding our investments. We expect that a committee of our board of directors consisting of all of our independent directors will exercise its right to approve or reject all proposed property acquisitions. Wells Capital will also provide asset management, marketing, investor relations and other administrative services on our behalf.

How will Wells Capital select potential properties for acquisition?

Wells Capital will generally seek to acquire high-quality office and industrial buildings located in or near densely populated metropolitan markets leased to creditworthy companies and governmental entities. As of March 23, 2007, our current tenants include AT&T, Coca-Cola Enterprises, IBM, T. Rowe Price, Novartis, Northrop Grumman, General Electric, Key Bank and Verizon Communications.

To find properties that best meet our selection criteria for investment, Wells Capital's property acquisition team will study regional demographics and market conditions and interview local brokers to gain the practical knowledge that studies sometimes lack. An experienced commercial construction engineer will inspect the structural soundness and the operating systems of each building, and an environmental firm will investigate all environmental issues to ensure each property meets our quality specifications.

What conflicts of interest will your advisor face?

Wells Capital, as our advisor, will experience conflicts of interest in connection with the management of our business affairs, including the following:

Wells Capital must determine which investment opportunities to recommend to us or another Wells-sponsored program or joint venture;

Wells Capital may structure the terms of joint ventures between us and other Wells-sponsored programs;

Wells Capital must determine which property and leasing managers to retain and may retain Wells Management Company, Inc., an affiliate, to manage and lease some or all of our properties;

Wells Capital and its affiliates will have to allocate their time between us and other real estate programs and activities in which they are involved;

Table of Contents

Index to Financial Statements

Wells Capital and its affiliates will receive fees in connection with transactions involving the purchase, management and sale of our properties, regardless of the quality of the property acquired or the services provided to us; and

Wells Capital, Wells Investment Securities and its affiliates will also receive fees in connection with our public offerings of equity securities.

All of our officers and two of our directors will also face these conflicts because of their affiliation with Wells Capital. In addition, all of our executive officers and many of our directors serve in similar capacities for Wells Timberland REIT, Inc. (Wells Timberland) or Institutional REIT, Inc. (Institutional REIT). See the Conflicts of Interest section of this prospectus for a detailed discussion of the various conflicts of interest relating to your investment, as well as the procedures that we have established to mitigate a number of these potential conflicts.

What is the ownership structure of the Wells entities that perform services for you?

The following chart shows the ownership structure of the various Wells entities that perform or are likely to perform important services for us.

What are the fees that you will pay to the advisor and its affiliates in connection with this offering?

Wells Capital and its affiliates will receive compensation and reimbursement for services relating to this offering and the investment and management of our assets. The most significant items of compensation are included in the table below. The selling commissions and dealer manager fee may vary for different categories of purchasers. See Plan of Distribution. This table assumes the shares are sold through distribution channels associated with the highest possible selling commissions and dealer manager fees and assumes a \$9.55 price for each share sold through our dividend reinvestment plan.

Table of Contents**Index to Financial Statements**

<i>Type of Compensation</i>	<i>Determination of Amount</i>	<i>Estimated Amount for Maximum Offering (475,000,000 shares)</i>
<i>Offering Stage</i>		
Selling Commissions	7.0% of gross offering proceeds in the primary offering; no selling commissions are payable on shares sold under the dividend reinvestment plan; all selling commissions will be reallocated to participating broker-dealers	\$210,000,000
Dealer Manager Fee	Up to 2.5% of gross offering proceeds in the primary offering; no dealer manager fee is payable on shares sold under the dividend reinvestment plan; Wells Investment Securities will reallocate a portion of its dealer manager fee to participating broker-dealers	\$75,000,000
Other Organization and Offering Expenses	Up to 2.0% of gross offering proceeds; however, if we raise the maximum offering amount, we expect that these other organization and offering expenses will not exceed 0.98% of our gross offering proceeds, or \$45,911,090.	\$ 45,911,090
<i>Acquisition and Development Stage</i>		
Acquisition Fees	2.0% of gross offering proceeds	\$ 93,425,000
<i>Operational Stage</i>		
Asset Management Fees	Monthly fee equal to one-twelfth of 0.75% of the sum of the cost of all occupied properties we own plus the cost of investments in joint ventures, provided that the amount paid in any calendar quarter may not exceed 1.0% of the net asset value of those investments at quarter end after deducting debt used to acquire or refinance properties	The actual amounts are dependent upon the total equity and debt capital we raise and the results of our operations; therefore, we cannot determine these amounts at this time.

Table of Contents**Index to Financial Statements**

<i>Type of Compensation</i>	<i>Determination of Amount</i>	<i>Estimated Amount for Maximum Offering (475,000,000 shares)</i>
Property Management Fee	For property management services for a property, we pay Wells Management a market-based property management fee based on the gross monthly income of the property. For leasing agent services for a property, we pay Wells Management: (i) a one-time fee in an amount not to exceed one-month's rent for the initial rent-up of a newly-constructed building; and (ii) a market-based commission based on the net rent payable. For construction management services for a property, we pay Wells Management that portion of lease concessions for tenant-directed improvements that are specified in the lease or lease renewal, subject to a limit of 5.0% of such lease concessions and a management fee.	Actual amounts are dependent upon the results of our operations; we cannot determine these amounts at this time.
Operating Expenses	Reimbursement of our advisor's cost of providing services to us other than personnel costs relating to services for which our advisor earns acquisition fees or real estate commissions	Actual amounts are dependent upon the results of our operations; we cannot determine these amounts at this time.
<i>Liquidation/Listing Stage</i>		
Real Estate Commissions	Up to 1.0% of contract price of property sold for substantial assistance in connection with sale	Actual amounts are dependent upon the results of our operations; we cannot determine these amounts at this time.
Subordinated Participation in Net Sale Proceeds (payable only if we are not listed on an exchange)	10.0% of remaining net sale proceeds after return of capital plus payment to investors of an 8.0% cumulative, non-compounded return on the capital contributed by investors	Actual amounts are dependent upon the results of our operations; we cannot determine these amounts at this time.
Subordinated Incentive Listing Fee (payable only if we are listed on an exchange)	10.0% of the amount by which our adjusted market value plus distributions exceeds the aggregate capital contributed by investors plus an amount equal to an 8.0% cumulative, non-compounded return to investors	Actual amounts are dependent upon the results of our operations; we cannot determine these amounts at this time.
See Management Compensation and Plan of Distribution for a more detailed description of the fees and expenses payable to our advisor, our dealer manager and their affiliates.		

Table of Contents**Index to Financial Statements*****How many real estate properties do you currently own?***

As of December 31, 2006, we owned interests in 47 office properties, one industrial building and one hotel, comprising approximately 14.5 million square feet of commercial space located in 17 states and the District of Columbia. Information with respect to those properties as of December 31, 2006 is set forth below.

⁽¹⁾ This property is managed by an affiliate.

⁽²⁾ Wells REIT II/Lincoln Highland Landmark III, LLC, a joint venture between us and Lincoln Highland Landmark III, LLC, an unrelated party, purchased this property on December 28, 2004. Under the terms of the operating agreement and based upon our capital contribution, we own approximately 95% of this joint venture.

⁽³⁾ Nashoba View Ownership, LLC, a joint venture between us and Tech Force, LLC, an unrelated party, purchased this property on August 18, 2005. Under the terms of the operating agreement and based upon our capital contribution, we own approximately 99% of this joint venture.

⁽⁴⁾ 2420 Lakemont Avenue, LLC, a joint venture between us and Barry Orlando Partners, LP, an unrelated party, purchased this property on August 26, 2005. Under the terms of the operating agreement and based upon our capital contribution, we own approximately 97% of this joint venture.

⁽⁵⁾ This property is owned by Key Center Properties LLC, a joint venture between us and Key Center Properties Limited Partnership, an unrelated party. We have a 50% ownership interest in Key Center Properties LLC; however, we are entitled to all the benefits of ownership of the Key Center Complex, including the right to receive all net cash flow derived from the operation of the Key Center Complex, excluding a de minimis amount of revenue derived from the operation of the hotel.

⁽⁶⁾ The land was purchased in December 2005; however, construction of the building was completed in April 2006.

For more information regarding our prior acquisitions, see the discussion under Description of Real Estate Investments. We expect to use substantially all of the net proceeds from this offering to acquire and operate commercial real estate primarily consisting of high-quality, income-generating office and industrial properties leased to creditworthy companies and governmental entities. We may also invest in entities that make similar investments, including joint ventures. We have not yet identified the properties we will purchase with the proceeds of this offering.

What steps do you take to make sure you purchase environmentally compliant properties?

We obtain a Phase I environmental assessment of each property we purchase. In addition, we will attempt to obtain a representation from the seller that, to its knowledge, the property is not contaminated with hazardous materials.

Table of Contents

Index to Financial Statements

What will be the terms of your leases?

We seek to secure leases with creditworthy tenants before or at the time we acquire a property. Generally, we are responsible for the replacement of specific structural components of a property such as the roof of the building or the parking lot. However, the majority of our leases include reimbursement provisions that require the tenant to pay, as additional rent, all or a portion of real estate taxes; sales and use taxes; special assessments; utilities, insurance and building repairs; and other building operation and management costs. Such reimbursement provisions mitigate the risks related to rising costs. We expect that our leases generally will have terms of five or more years, some of which may have renewal options.

How will Wells REIT II own its real estate properties?

We expect to own substantially all of our real estate properties through Wells Operating Partnership II, L.P. (Wells OP II), our operating partnership. Wells OP II was formed in July 2003 to acquire, own and operate properties on our behalf. We are the sole general partner of Wells OP II and, as of March 23, 2007, owned approximately 99.9% of the equity interests in Wells OP II. Wells Capital has purchased \$200,000 of limited partner units in Wells OP II and is the sole limited partner of Wells OP II. As a result of this structure we are considered an UPREIT.

What is an UPREIT ?

UPREIT stands for Umbrella Partnership Real Estate Investment Trust. The UPREIT structure is used because a sale of property directly to the REIT is generally a taxable transaction to the selling property owner. In an UPREIT structure, a seller of a property who desires to defer taxable gain on the sale of his property may transfer the property to the UPREIT in exchange for limited partnership units in the UPREIT and defer taxation of gain until the seller later sells or exchanges his UPREIT units. Using an UPREIT structure may give us an advantage in acquiring desired properties from persons who may not otherwise sell their properties because of unfavorable tax results. At present, we have no plans to acquire any specific properties in exchange for units of Wells OP II.

If I buy shares, will I receive dividends and how often?

To maintain our qualification as a REIT, we are required to make aggregate annual distributions to our stockholders of at least 90% of our REIT taxable income (which is computed without regard to the dividends-paid deduction and excludes net capital gain and which does not necessarily equal net income as calculated in accordance with accounting principles generally accepted in the United States (GAAP)). Our board of directors may authorize distributions in excess of those required for us to maintain REIT status depending on our financial condition and such other factors as our board of directors deems relevant. We have not established a minimum distribution level.

How will you calculate the payment of dividends to stockholders?

We expect to calculate our quarterly dividends based upon daily record dates so that investors may be entitled to dividends immediately upon purchasing our shares.

Table of Contents

Index to Financial Statements

May I reinvest my dividends in shares of Wells REIT II?

Yes. We have adopted an amended and restated dividend reinvestment plan. You may participate in our dividend reinvestment plan by checking the appropriate box on your Subscription Agreement or by filling out an enrollment form that we will provide to you at your request. The purchase price for shares purchased under this plan will be the higher of \$9.55 or 95% of the estimated value of a share of our common stock, as estimated by our advisor or another firm we choose for that purpose. We intend to use our advisor's estimate until at least three fiscal years after completion of our offering stage. We will view our offering stage as complete upon the termination of our first public equity offering that is followed by a one-year period during which we do not engage in another public equity offering. Our advisor has indicated that during this initial period it intends to use the most recent price paid to acquire a share in our offering (ignoring purchase price discounts for certain categories of purchasers) as its estimated per share value of our shares. This estimated value may bear little relationship and will likely exceed what you might receive for your shares if you tried to sell them or if we liquidated the portfolio. No selling commissions or dealer manager fees are payable on shares sold under our dividend reinvestment plan.

We may amend or terminate our dividend reinvestment plan at our discretion at any time provided that any amendment that adversely affects the rights or obligations of participants (as determined by the board) will only take effect upon 10 days' written notice to participants. For more information regarding the dividend reinvestment plan, see Description of Shares Dividend Reinvestment Plan.

Will the dividends I receive be taxable as ordinary income?

Yes and No. Generally, dividends that you receive, including dividends that are reinvested pursuant to our dividend reinvestment plan, will be taxed as ordinary income to the extent they are from current or accumulated earnings and profits. Participants in our dividend reinvestment plan will also be treated for tax purposes as having received an additional distribution to the extent they purchase shares under our dividend reinvestment plan at a discount to fair market value. As a result, participants in our dividend reinvestment plan may have tax liability with respect to their share of our taxable income, but they will not receive cash dividends to pay such liability.

We expect that some portion of your dividends will not be subject to tax in the year in which they are received because depreciation expense reduces the amount of taxable income but does not reduce cash available for distribution. The portion of your distribution that is not subject to tax immediately is considered a return of capital for tax purposes and will reduce the tax basis of your investment. Dividends that constitute a return of capital, in effect, defer a portion of your tax until your investment is sold or we are liquidated, at which time you will be taxed at capital gains rates. However, because each investor's tax considerations are different, we suggest that you consult with your tax advisor. You should also review the section of the prospectus entitled Federal Income Tax Considerations.

How much money have you raised in your offerings?

On December 1, 2003, we commenced our initial public offering of up to 785 million shares of common stock, which consisted of a 600 million-share primary offering and a 185 million-share offering under our dividend reinvestment plan. We stopped offering shares for sale in the primary offering on November 26, 2005. We raised gross offering proceeds of approximately \$2.0 billion from the sale of approximately 197.1 million shares in our initial public offering.

Table of Contents

Index to Financial Statements

On November 10, 2005, we commenced a second public offering, our follow-on offering, of up to 300.6 million shares of common stock. Of these shares, we are offering 300 million shares in a primary offering and 0.6 million shares under our dividend reinvestment plan. On April 14, 2006, we filed a post-effective amendment that combined the prospectus used to conduct our follow-on offering with the prospectus used to sell the remaining dividend reinvestment plan shares registered in our initial public offering. As of March 23, 2007, we had received gross offering proceeds of approximately \$1.1 billion from the sale of approximately 111.5 million shares in our follow-on offering.

As of March 23, 2007, we had received aggregate gross offering proceeds of approximately \$3.1 billion from the sale of approximately 308.6 million shares in our public offerings. After incurring approximately \$61.5 million in acquisition fees, approximately \$286.5 million in selling commissions and dealer manager fees, approximately \$44.3 million in other organization and offering expenses, and funding common stock redemptions of approximately \$62.2 million pursuant to the share redemption program, as of March 23, 2007, we had raised aggregate net offering proceeds available for investment in properties of approximately \$2.6 billion, substantially all of which had been invested in real estate properties.

Wells Capital and its affiliates have sponsored 15 publicly offered real estate limited partnerships and Wells REIT I on an unspecified property, or blind pool, basis. As of March 23, 2007, they had raised in excess of \$5.7 billion from approximately 148,000 investors in these 16 public real estate programs. Wells Capital and its affiliates are also sponsoring public offerings for Institutional REIT and Wells Timberland neither of which have commenced selling as of March 23, 2007.

What will you do with the money raised in this offering?

We intend to use substantially all of the net proceeds from this offering to acquire and operate commercial real estate consisting primarily of high-quality, income-generating office and industrial properties leased to creditworthy companies and governmental entities. Depending primarily on the number of shares we sell in the primary offering of up to 300,000,000 shares of common stock, we estimate that no more than 87.16% of our primary offering proceeds, or \$8.71 per share, will be used for investments, while the remainder will be used to pay offering expenses, including selling commissions and the dealer manager fee, and to pay a fee to our advisor for its services in connection with the selection, acquisition, development and construction of our real estate investments. Assuming a \$9.55 purchase price for shares sold under our dividend reinvestment plan and depending on the number of shares sold in the 175,000,000 dividend reinvestment plan offering, we estimate no more than 97.66% of the gross offering proceeds from our dividend reinvestment plan, or \$9.32 per share, will be used for investments and the repurchase of shares under our share redemption program, while the remainder will be used to pay offering expenses.

Until we invest the proceeds of this offering in real estate, we may invest in short-term, highly liquid or other authorized investments. Such short-term investments will not earn as high a return as we expect to earn on our real estate investments, and we may not be able to invest the proceeds in real estate promptly.

Table of Contents

Index to Financial Statements

What kind of offering is this?

We are offering up to 475,000,000 shares of common stock on a best efforts basis. We are offering up to 300,000,000 shares of our common stock in our primary offering at \$10 per share, with discounts available for certain categories of purchasers as described under Plan of Distribution below. We are also offering 175,000,000 shares of common stock under our dividend reinvestment plan at the higher of \$9.55 or 95% of the estimated value of a share of our common stock, as estimated by our advisor or another firm we choose for that purpose.

How does a best efforts offering work?

When shares are offered on a best efforts basis, the broker-dealers participating in the offering are only required to use their best efforts to sell the shares and have no firm commitment or obligation to purchase any of the shares. Therefore, we may not sell all or any of the shares that we are offering.

How long will this offering last?

Our 300,000,000 share primary offering is scheduled to terminate by December 1, 2008. Under rules recently promulgated by the SEC, in some circumstances we could continue the primary offering until as late as June 1, 2009. If we continue the primary offering beyond December 1, 2008, we will provide that information in a prospectus supplement. We may continue to offer the 175,000,000 dividend reinvestment plan shares beyond these dates until we have sold all of these shares through the reinvestment of dividends. In some states, we may not be able to continue the offering for these periods without renewing the registration statement or filing a new registration statement. We may terminate this offering at any time.

Who can buy shares?

You can buy shares pursuant to this prospectus provided that you have either (1) a net worth of at least \$45,000 and an annual gross income of at least \$45,000, or (2) a net worth of at least \$150,000. For this purpose, net worth does not include your home, home furnishings or personal automobiles. These minimum levels may be higher in certain states, so you should carefully read the more detailed description under Suitability Standards immediately following the cover page of this prospectus.

Are there any special restrictions on the ownership or transfer of shares?

Yes. Our charter contains restrictions on the ownership of our shares that prevent any one person from owning more than 9.8% of our outstanding shares unless exempted by our board of directors. These restrictions are designed to enable us to comply with the ownership restrictions imposed on REITs by the Internal Revenue Code. See Description of Shares Restriction on Ownership of Shares. Our charter also limits your ability to sell your shares to prospective purchasers unless (i) they meet suitability standards regarding income or net worth, which are described above at Suitability Standards immediately following the cover page of this prospectus, and (ii) the transfer complies with minimum purchase requirements, which are described below at Plan of Distribution Minimum Purchase Requirements.

Table of Contents

Index to Financial Statements

Are there any special considerations that apply to employee benefit plans subject to ERISA or other retirement plans that are investing in shares?

Yes. The section of this prospectus entitled "ERISA Considerations" describes the effect the purchase of shares will have on individual retirement accounts and retirement plans subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and/or the Internal Revenue Code. ERISA is a federal law that regulates the operation of certain tax-advantaged retirement plans. Any retirement plan trustee or individual considering purchasing shares for a retirement plan or an individual retirement account should read this section of the prospectus very carefully.

Is there any minimum investment required?

Yes. For your initial purchase of our shares you must generally invest at least \$1,000. Except in the states of Ohio, Maine, Minnesota, Nebraska and Washington, if you have purchased units or shares from an affiliated Wells public real estate program you can make purchases for less than the minimum investment. Once you have satisfied the applicable minimum purchase requirement, any additional purchases of our shares must be in amounts of at least \$25, except for additional purchases pursuant to our dividend reinvestment plan. These minimum investment levels are higher in certain states, so you should carefully read the more detailed description under "Plan of Distribution - Minimum Purchase Requirements."

How do I subscribe for shares?

If you choose to purchase shares in this offering, you will need to fill out a Subscription Agreement, like the one contained in this prospectus as Appendix A, for a specific number of shares and pay for the shares at the time you subscribe.

If I buy shares in this offering, how may I later sell them?

At the time you purchase the shares, they will not be listed for trading on any securities exchange or over-the-counter market. In fact, we expect that there will not be any public market for the shares when you purchase them, and we cannot be sure that one will ever develop. In addition, our charter imposes restrictions on the ownership of our common stock, which will apply to potential purchasers of your stock. As a result, you may find it difficult to find a buyer for your shares and realize a return on your investment. See "Description of Shares - Restriction on Ownership of Shares."

You may be able to sell your shares to us pursuant to our share redemption program, though there are numerous restrictions on your ability to sell your shares to us under the program. Initially, we will repurchase shares under the share redemption program at 91% of the price at which we sold the share. For example, we will pay \$9.10 to redeem a share issued at \$10.00. This initial redemption price will remain fixed until three years after we complete our offering stage. For purposes of the share redemption program, we define the completion of our offering stage in the same manner as described in this prospectus under "Description of Shares - Dividend Reinvestment Plan - Stock Purchases." Thereafter, we will redeem shares at a price equal to 95% of the estimated per share value of the shares, as estimated by our advisor or another firm we choose for that purpose.

Table of Contents

Index to Financial Statements

Our board of directors recently approved changes to the limits on our ability to redeem shares under the share redemption program. The primary effect of these changes should be to increase the number of shares we can redeem upon the request of the heirs of our stockholders. The limits on our ability to redeem shares under the program are as set forth below:

Except with respect to redemptions sought within two years of a stockholder's death or qualifying disability, we will not redeem shares until one year after the issuance of the shares to be redeemed.

Except with respect to redemptions sought within two years of a stockholder's death or qualifying disability, we will not redeem shares on any redemption date to the extent that such redemptions would cause the amount paid for redemptions since the beginning of the then-current calendar year to exceed 50% of the net proceeds from the sale of shares under our dividend reinvestment plan during such period.

We will limit all redemptions, other than those sought within two years of a stockholder's death, so that the aggregate of such redemptions during any calendar year do not exceed:

100% of the net proceeds from our dividend reinvestment plan during the calendar year or

5% of the weighted-average number of shares outstanding in the prior calendar year.

Although there is no limit under the share redemption program on the number of shares we may redeem upon the death of stockholders, we are under no obligation to redeem such shares to the extent such redemptions would cause total redemptions to exceed the limits set forth immediately above.

Our board of directors may amend, suspend or terminate our share redemption program upon 30 days' notice. For more information about the share redemption program, see "Description of Shares" Share Redemption Program.

When will the company seek to list its shares of common stock?

We will seek to list our shares of common stock if and when our independent directors believe listing would be in the best interest of our stockholders. If we do not list our shares of common stock on a national securities exchange by October 2015, our charter requires that we either:

seek stockholder approval of an extension or amendment of this listing deadline; or

seek stockholder approval of the liquidation of the corporation.

If we sought and did not obtain stockholder approval of an extension or amendment to the listing deadline, we would then be required to seek stockholder approval of our liquidation. If we sought and failed to obtain stockholder approval of our liquidation, our charter would not require us to list or liquidate and we could continue to operate as before. If we sought and obtained stockholder approval of our liquidation, we would begin an orderly sale of our properties and distribute our net proceeds to you.

Table of Contents**Index to Financial Statements*****What is the role of the board of directors?***

We have a ten-member board of directors. Currently, two seats are vacant and six seats are filled by directors independent of Wells Capital. All of our officers and two of our directors are affiliated with Wells Capital. Our charter, which requires that a majority of our directors be independent of Wells Capital, creates a committee of our board consisting solely of all of our independent directors. This committee, which we call the conflicts committee, is responsible for reviewing the performance of Wells Capital and must approve other matters set forth in our charter. See [Conflicts of Interest](#) [Certain Conflict Resolution Procedures](#). Our directors are elected annually by the stockholders.

What is the experience of your officers and directors?

Our management team has extensive experience investing in and managing commercial real estate. Below is a short description of the background of each of our officers and directors. See the [Management](#) [Executive Officers and Directors](#) section of this prospectus for a more detailed description of the experience of each of our officers and directors.

Name	Title	Experience
Leo F. Wells, III	President and Director	Founder of Wells Real Estate Funds and has been involved in real estate sales, management and brokerage services for over 30 years
Douglas P. Williams	Executive Vice President, Secretary, Treasurer and Director	Former accounting executive at OneSource, Inc., a supplier of janitorial and landscape services
Randall D. Fretz	Senior Vice President	Former President of US & Canada operations for Larson-Juhl, a world leader in custom art and picture-framing home decor
Charles R. Brown	Director*	Chairman and former President of CRB Realty Associates, a private real estate consulting firm, and former President of Technology Park/Atlanta, Inc., where he was instrumental in developing Technology Park/Atlanta, a 600-acre office park
Richard W. Carpenter	Director*	Former President and current Chairman of the Board Pp of Southmark Properties, an Atlanta-based REIT investing in commercial properties

Name	Title	Experience
Bud Carter	Director*	Former broadcast news director and anchorman and a current Senior Vice President for Vistage International, an organization established to aid corporate presidents and CEOs
E. Nelson Mills	Director*	Current chief operations officer and chief financial officer of Williams Realty Advisors, LLC, advisor to a series of real estate investment funds. Involved in commercial real estate operations since 1998 and prior to that, a tax partner with KPMG
Jack M. Pinkerton	Director*	Former President and then Chairman of the Executive Committee of the Pinkerton and Laws Company, which was one of the 200 largest construction companies in the United States at the time of his retirement in 1988
Neil H. Strickland	Director*	Founder and currently the Senior Operation Executive of Strickland General Agency, Inc., a property and casualty general insurance agency concentrating on commercial customers

* Denotes director is not affiliated with our advisor, Wells Capital.

Will I be notified of how the company and my investment are performing?

Yes, we will provide you with periodic updates on the performance of the company and your investment in us, including:

Four quarterly dividend reports;

An annual report; and

An annual IRS Form 1099-DIV, if required.

We will provide this information to you via U.S. mail or other courier. However, with your permission, we may furnish this information to you by electronic delivery, including, with respect to our annual report, by notice of the posting of our annual report on our affiliated Web site, which is www.wellsref.com. We will also include on this Web site access to our quarterly reports on

Table of Contents

Index to Financial Statements

Form 10-Q, our current reports on Form 8-K, our proxy statement and other filings we make with the SEC, which filings will provide you with periodic updates on the Company's performance and the performance of your investment.

When will I get my detailed tax information?

Your Form 1099-DIV tax information, if required, will be mailed by January 31 of each year.

Who can help answer my questions?

If you have more questions about the offering, or if you would like additional copies of this prospectus, you should contact your registered representative or contact our dealer manager:

RISK FACTORS

An investment in our common stock involves various risks and uncertainties. You should carefully consider the following risk factors in conjunction with the other information contained in this prospectus before purchasing our common stock. The risks discussed in this prospectus can adversely affect our business, operating results, prospects and financial condition. This could cause the value of our common stock to decline and could cause you to lose all or part of your investment. The risks and uncertainties described below are not the only ones we face but do represent those risks and uncertainties that we believe are material to our business, operating results, prospects and financial condition. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also harm our business.

Risks Related to an Investment in Us

There is no public trading market for your shares; therefore, it will be difficult for you to sell your shares.

There is no current public market for our shares and we currently have no plans to list our shares on a national securities exchange. You may not sell your shares unless the buyer meets the applicable suitability and minimum purchase standards. Our charter also prohibits the ownership of more than 9.8% of our stock, unless exempted by our board of directors, which may inhibit large investors from desiring to purchase your shares. Moreover, our share redemption program includes numerous restrictions that limit your ability to sell your shares to us, and our board of directors may amend, suspend or terminate our share redemption program upon 30 days' notice. We describe these restrictions in detail under Description of Shares Share Redemption Program. Therefore, it will be difficult for you to sell your shares promptly or at all. If you are able to sell your shares, you would likely have to sell them at a substantial discount to their public offering price. It is also likely that your shares would not be accepted as the primary collateral for a loan. You should purchase our shares only as a long-term investment because of the illiquid nature of the shares.

If we are unable to find suitable investments, we may not be able to achieve our investment objectives or pay dividends.

While we are investing the proceeds of this offering, the continuing high demand for the type of properties we desire to acquire may cause our dividend and the long-term returns of our investors to be lower than they otherwise would. We believe the current market for high-quality office properties is extremely competitive. We will be competing for these real estate investments with other REITs, real estate limited partnerships, pension funds and their advisors, bank and insurance company investment accounts, individuals and other entities. Many of our competitors have greater financial resources, and a greater ability to borrow funds to acquire properties, than we do. The greater the number of entities and resources competing for high-quality office properties the higher the acquisition prices of these properties will be, which could reduce our profitability and our ability to pay dividends to you. We cannot be sure that Wells Capital will be successful in obtaining suitable investments on financially attractive terms or that, if Wells Capital makes investments on our behalf, our objectives will be achieved. The more money we raise in this offering, the greater will be our challenge to invest all of the net offering proceeds on attractive terms. Therefore, the large size of this offering increases the risk that we may pay too much for real estate acquisitions. If we, through Wells Capital, are unable to find suitable investments promptly, we will hold the proceeds from this offering in an interest-bearing account or invest the proceeds in short-term, investment-grade investments and may, ultimately, liquidate. In the event we are unable to timely locate suitable investments, we may be unable or limited in our ability to make distributions.

Table of Contents

Index to Financial Statements

If we raise substantial offering proceeds in a short period of time, we may not be able to invest all of the net offering proceeds promptly, which may cause our dividends and your investment returns to be lower than they otherwise would.

We could suffer from delays in locating suitable investments. The more money we raise in this offering, the more difficult it will be to invest the net offering proceeds promptly. Therefore, the large size of this offering increases the risk of delays in investing our net offering proceeds. Our reliance on our advisor to locate suitable investments for us at times when the management of our advisor is simultaneously seeking to locate suitable investments for other affiliated programs could also delay the investment of the proceeds of this offering. Delays we encounter in the selection, acquisition and development of income-producing properties would likely limit our ability to pay dividends to our stockholders and reduce our stockholders' overall returns. In particular, when we acquire properties prior to the start of construction or during the early stages of construction, it will typically take several months to complete construction and rent available space. Therefore, you could suffer delays in the distribution of cash dividends attributable to those particular properties. You should expect to wait several months after the closing of a property acquisition before we are in a position to pay cash dividends attributable to such property.

We have not yet identified the properties that we will purchase with the proceeds of this offering, which makes your investment more speculative.

We have not yet identified the investments that we will make with the proceeds of this offering. Our ability to identify well-performing properties and achieve our investment objectives depends upon the performance of Wells Capital, our advisor, in the acquisition of our investments and the determination of any financing arrangements. The large size of this offering increases the challenges that Wells Capital will face in investing our net offering proceeds promptly in attractive properties, and the continuing high demand for the type of properties we desire to purchase increases the risk that we may pay too much for the properties that we do purchase. Because of the illiquid nature of our shares, even if we disclose information about our potential investments before we make them, it will be difficult for you to sell your shares promptly or at all.

If we are unable to raise substantial funds, we will be limited in the number and type of investments we may make, and the value of your investment in us will fluctuate with the performance of a smaller portion of our portfolio.

This offering is being made on a "best efforts" basis, whereby the brokers participating in the offering are only required to use their best efforts to sell our shares and have no firm commitment or obligation to purchase any of the shares. This offering is not conditioned on the sale of any minimum number of shares. If we are unable to raise substantial funds in this offering, we will make fewer investments resulting in less diversification in terms of the number of investments owned, the geographic regions in which our investments are located and the types of investments that we make. In that case, the likelihood that any single property's performance would adversely affect our profitability will increase. Additionally, we are not limited in the number or size of our investments or the percentage of net proceeds we may dedicate to a single investment. Your investment in our shares will be subject to greater risk to the extent that we have a less diversified portfolio of investments. In addition, our inability to raise substantial funds would increase our fixed operating expenses as a percentage of gross income, reducing our net income and limiting our ability to pay distributions to our stockholders.

Table of Contents

Index to Financial Statements

We were incorporated in 2003 and have a limited operating history, which makes our future performance and the performance of your investment difficult to predict.

We were incorporated in 2003. Because of our limited operating history, our prior performance may be a particularly unreliable indicator of our future performance. You should not rely upon the past performance of other Wells-sponsored real estate programs. Such past performance may not predict our future results. Our limited operating history significantly increases the risk and uncertainty you face in making an investment in our shares.

We may be unable to pay or maintain cash distributions or increase distributions over time, and, until we have invested the proceeds of this offering and our properties are generating sufficient cash flow, we may have difficulty funding our distributions solely from cash flow from operations, which could reduce the funds we have available for investment and your overall return.

There are many factors that can affect the availability and timing of distributions to stockholders. In the future we expect to fund distributions principally from cash flow from operations; however, while we are in our offering stage and until our properties are generating sufficient cash flow, we may fund our distributions from borrowings or even the net proceeds from this offering. If we fund distributions from financings or the net proceeds from this offering, we will have less funds available for the acquisition of properties, and your overall return may be reduced. Further, to the extent distributions exceed cash flow from operations, a stockholder's basis in our stock will be reduced and, to the extent distributions exceed a stockholder's basis, the stockholder may recognize capital gain. We can give you no assurance that we will be able to pay or maintain cash distributions or increase distributions over time.

Our loss of or inability to obtain key personnel could delay or hinder implementation of our investment strategies, which could limit our ability to make distributions and decrease the value of your investment.

Our success depends to a significant degree upon the contributions of Leo F. Wells, III, Douglas P. Williams and Randall D. Fretz, each of whom would be difficult to replace. We do not have employment agreements with Messrs. Wells, Williams or Fretz, nor do Wells Capital or its affiliates, and we cannot guarantee that such persons will remain affiliated with us, Wells Capital or its affiliates. If any of these key personnel were to cease their affiliation with us, Wells Capital or its affiliates, we may be unable to find suitable replacement personnel, and our operating results could suffer as a result. We do not intend to maintain key person life insurance on any person. We believe that our future success depends, in large part, upon our advisors and our property managers' ability to hire and retain highly skilled managerial, operational and marketing personnel. Competition for such personnel is intense, and our advisor and any property managers we retain may be unsuccessful in attracting and retaining such skilled personnel. Further, we have established and intend to establish strategic relationships with firms that have special expertise in certain services or as to real properties in certain geographic regions. Maintaining such relationships will be important for us to effectively compete with other investors for properties in such regions. We may be unsuccessful in attracting and retaining such relationships. If we lose or are unable to obtain the services of highly skilled personnel or do not establish or maintain appropriate strategic relationships, our ability to implement our investment strategies could be delayed or hindered.

On April 16, 2007, Wells REIT I acquired entities affiliated with Wells Real Estate Funds, which is the sole stockholder of Wells Capital, Wells Investment Securities and Wells Management. Wells REIT I entered into the merger in order to internalize advisory, asset-management, property-management and other services previously provided to Wells REIT I by Wells Real Estate Funds and its affiliates. As a result of the internalization transaction, 81 employees of Wells Real Estate Funds and its affiliates became employees of Wells REIT I. Some of those employees provided significant services to us, including Robert E. Bowers, the

Table of Contents

Index to Financial Statements

chief financial officer of Wells Real Estate Funds. In addition, upon entering into the merger agreement relating to the internalization transaction on February 2, 2007, Donald A. Miller resigned from his executive officer positions with Wells Real Estate Funds and its affiliates in order to become the chief executive officer and a director of Wells REIT I. Prior to taking this position, Mr. Miller directed all aspects of the acquisitions, dispositions, property-management, construction and leasing groups for Wells Real Estate Funds and its affiliates.

Following the internalization transaction, Wells Real Estate Funds and its affiliates have 351 employees. Wells Real Estate Funds and its affiliates are seeking successors to some of the personnel who had provided services to us and became employees of Wells REIT I in the internalization transaction. If Wells Real Estate Funds and our advisor are unable to find suitable replacement personnel either from its existing personnel or elsewhere with talents equal to those of the personnel it lost as a result of the Wells REIT I internalization transaction, our operations may suffer.

Our operating performance could suffer if Wells Capital or its affiliates incur significant losses, including those losses that may result from litigation or from being the general partner of other entities.

We are dependent on Wells Capital and its affiliates to select investments and conduct our operations. Thus, adverse changes to our relationship with or the financial health of Wells Capital and its affiliates, including changes arising from litigation, could hinder their ability to successfully manage our operations and our portfolio of investments. On March 12, 2007, a stockholder of Wells REIT I filed a purported class action and derivative complaint, *Washtenaw County Employees Retirement System v. Wells Real Estate Investment Trust, Inc., et al* in the United States District Court for the District of Maryland against, among others, Wells REIT I, our advisor, certain affiliates of Wells Real Estate Funds, Mr. Wells and certain of our officers and directors who formerly served as officers and directors of Wells REIT I prior to the closing of the internalization transaction on April 16, 2007. The complaint alleges violations of the federal proxy rules and breaches of fiduciary duty arising from the Wells REIT I internalization transaction and the related proxy statement filed with the SEC on February 26, 2007, as amended. The complaint seeks, among other things, unspecified monetary damages. On April 9, 2007, the District Court denied the plaintiff's motion for an order enjoining the internalization transaction. Our advisor and officers and directors who are named in the complaint intend to vigorously defend this action. Any financial loss incurred by Wells Capital or its affiliates could hinder their ability to successfully manage our operations and our portfolio of investments.

In addition, as a general partner to many Wells-sponsored programs, Wells Capital may have contingent liability for the obligations of such partnerships. Enforcement of such obligations against Wells Capital could result in a substantial reduction of its net worth. If such liabilities affected the level of services that Wells Capital could provide, our operations and financial performance could suffer.

Our rights and the rights of our stockholders to recover claims against our independent directors are limited, which could reduce your and our recovery against them if they negligently cause us to incur losses.

Maryland law provides that a director has no liability in that capacity if he performs his duties in good faith, in a manner he reasonably believes to be in our best interests and with the care that an ordinarily prudent person in a like position would use under similar circumstances. Our charter provides that no independent director shall be liable to us or our stockholders for monetary damages and that we will generally indemnify them for losses unless they are grossly negligent or engage in willful misconduct.

Table of Contents

Index to Financial Statements

As a result, you and we may have more limited rights against our independent directors than might otherwise exist under common law, which could reduce your and our recovery from these persons if they act in a negligent manner. In addition, we may be obligated to fund the defense costs incurred by our independent directors (as well as by our other directors, officers, employees and agents) in some cases, which would decrease the cash otherwise available for distributions to you.

Risks Related to Conflicts of Interest

Wells Capital and possibly Wells Management will face conflicts of interest relating to the purchase and leasing of properties, and such conflicts may not be resolved in our favor, i.e., our advisor may offer us less attractive investment opportunities or we may lease to less attractive tenants, lowering your overall return.

We rely on our advisor to identify suitable investment opportunities. Other Wells-sponsored programs also rely on Wells Capital for investment opportunities. Many investment opportunities would be suitable for us as well as other Wells programs. If Wells Capital directs an investment opportunity to a Wells-sponsored program, it is to offer the investment opportunity to the program for which the opportunity, in the discretion of Wells Capital, is most suitable. Likewise, we rely on Wells Management to attract and retain creditworthy tenants for some of our properties. Other Wells-sponsored programs rely on Wells Management for the same tasks. If Wells Management directs creditworthy prospective tenants to another Wells-sponsored program where it could direct such tenants to our properties, our tenant base may have more inherent risk than might otherwise be the case. Our charter disclaims any interest in an investment opportunity known to Wells Capital that Wells Capital has not recommended to us. Wells Capital could direct attractive investment opportunities to other entities or even make such investments for its own account. Wells Management could direct attractive tenants to other entities. Such events could result in our investing in properties that provide less attractive returns or leasing properties to tenants that are more likely to default under their leases, thus reducing the level of dividends we may be able to pay you.

Wells Capital will face conflicts of interest relating to joint ventures that we may form with affiliates of Wells Capital, which conflicts could result in a disproportionate benefit to the other venture partners at our expense.

We may enter into joint venture agreements with other Wells programs for the acquisition, development or improvement of properties. Wells Capital may have conflicts of interest in determining which Wells program should enter into any particular joint venture agreement. The co-venturer may have economic or business interests or goals that are or may become inconsistent with our business interests or goals. In addition, Wells Capital may face a conflict in structuring the terms of the relationship between our interests and the interests of the affiliated co-venturer and in managing the joint venture. Since Wells Capital and its affiliates will control both the affiliated co-venturer and, to a certain extent, us, agreements and transactions between the co-venturers with respect to any such joint venture will not have the benefit of arm's-length negotiation of the type normally conducted between unrelated co-venturers. Co-venturers may thus benefit to our and your detriment.

Wells Capital, its affiliates and our officers will face competing demands on their time, and this may cause our operations and your investment to suffer.

We rely on Wells Capital and its affiliates for the day-to-day operation of our business. Wells Capital and its affiliates, including our officers, have interests in other Wells programs and engage in other business activities. As a result, they will have conflicts of interest in allocating their time among us and other Wells programs and activities in which they are involved. During times of intense activity in other programs and ventures, they may devote less time and fewer resources to our business than are necessary or

Table of Contents

Index to Financial Statements

appropriate to manage our business. If this occurs, the returns on our investments, and the value of your investment, may decline.

Our officers and some of our directors face conflicts of interest related to the positions they hold with Wells Capital and its affiliates, which could hinder our ability to successfully implement our business strategy and to generate returns to you.

Our executive officers and some of our directors are also officers and directors of our advisor, our dealer manager and other affiliated entities. As a result, they owe fiduciary duties to these various entities and their stockholders and limited partners, which fiduciary duties may from time to time conflict with the fiduciary duties that they owe to us and our stockholders. Their loyalties to these other entities could result in actions or inactions that are detrimental to our business, which could hinder the implementation of our business strategy and our investment and leasing opportunities. If we do not successfully implement our business strategy, we may be unable to generate the cash needed to make distributions to you and to maintain or increase the value of our assets.

Wells Capital and its affiliates, including our officers and some of our directors, will face conflicts of interest caused by compensation arrangements with us and other Wells-sponsored programs, which could result in actions that are not in the long-term best interest of our stockholders.

Wells Capital and its affiliates will receive substantial fees from us. These fees could influence our advisor's advice to us, as well as the judgment of the affiliates of Wells Capital who serve as our officers or directors. Among other matters, the compensation arrangements could affect their judgment with respect to:

the continuation, renewal or enforcement of our agreements with Wells Capital and its affiliates, including the advisory agreement, the dealer manager agreement and the property management, leasing and construction management agreement;

public offerings of equity by us, which entitle Wells Investment Securities to dealer manager fees and entitle Wells Capital to increased acquisition and asset management fees;

property sales, which entitle Wells Capital to real estate commissions and possible success-based sale fees;

property acquisitions from other Wells-sponsored programs, which might entitle Wells Capital to real estate commissions and possible success-based sale fees in connection with its services for the seller;

property acquisitions from third parties, which utilize proceeds from our public offerings, thereby increasing the likelihood of continued equity offerings and related fee income for Wells Investment Securities and Wells Capital;

whether and when we seek to become self-managed, which decision could lead to our acquisition of entities affiliated with Wells Capital at a substantial price;

whether and when we seek to list our common stock on a national securities exchange, which listing could entitle Wells Capital to a success-based listing fee but could also hinder its sales efforts for other programs if the price at which our shares trade is lower than the price at which we offered shares to the public; and

Table of Contents

Index to Financial Statements

whether and when we seek to sell the company or its assets, which sale could entitle Wells Capital to a success-based fee but could also hinder its sales efforts for other programs if the sales price for the company or its assets resulted in proceeds less than the amount needed to preserve our stockholders' capital.

The acquisition fees paid to Wells Capital and management and leasing fees paid to its affiliate, Wells Management, will be paid irrespective of the quality of their acquisition or property-management services during the term of the related agreement. Moreover, Wells Capital and Wells Management will have considerable discretion with respect to the terms and timing of acquisition, disposition and leasing transactions. Considerations relating to their compensation from other programs could result in decisions that are not in the best interests of our stockholders, which could hurt our ability to pay you dividends or result in a decline in the value of your investment.

Our board's loyalties to Institutional REIT and possibly to future Wells-sponsored programs could influence its judgment, resulting in actions that are not in our stockholders' best interest or that result in a disproportionate benefit to another Wells-sponsored program at our expense.

Four of our eight directors are also directors of Institutional REIT. The loyalties of our directors serving on the board of Institutional REIT or possibly on the board of future Wells-sponsored programs may influence the judgment of our board when considering issues for us that also may affect other Wells-sponsored programs, such as the following:

The conflicts committee of our board of directors must evaluate the performance of Wells Capital with respect to whether Wells Capital is presenting to us our fair share of investment opportunities. If our advisor is not presenting a sufficient number of investment opportunities to us because it is presenting many opportunities to another Wells-sponsored program or if our advisor is giving preferential treatment to another Wells-sponsored program in this regard, our conflicts committee may not be well suited to enforce our rights under the terms of the advisory agreement or to seek a new advisor.

The conflicts committee must make a similar evaluation with respect to the performance of Wells Management in managing and leasing our properties. If Wells Management is not performing well as our property manager because of its services for other Wells-sponsored programs, the divided loyalties of the members of our conflicts committee could make them less willing to insist on improvement in the performance of Wells Management or to seek another property manager.

The conflicts committee will likely decide whether we purchase a property. This decision could be influenced by the hope that Wells Capital would present the opportunity to other Wells-sponsored programs if we did not pursue it.

We could enter into transactions with other Wells-sponsored programs, such as property sales or acquisitions, joint ventures or financing arrangements. Decisions of the board or the conflicts committee regarding the terms of those transactions may be influenced by the board's or committee's loyalties to such other Wells-sponsored programs.

A decision of the board or the conflicts committee regarding the timing of a debt or equity offering could be influenced by concerns that the offering would compete with an offering of other Wells-sponsored programs.

Table of Contents

A decision of the board or the conflicts committee regarding the timing of property sales could be influenced by concerns that the sales would compete with those of other Wells-sponsored programs.

See Conflicts of Interest Our Advisor's Interest in Other Wells Real Estate Programs General.

Risks Related to This Offering and Our Corporate Structure

Our charter limits the number of shares a person may own, which may discourage a takeover that could otherwise result in a premium price to our stockholders.

Our charter, with certain exceptions, authorizes our directors to take such actions as are necessary and desirable to preserve our qualification as a REIT. Unless exempted by our board of directors, no person may own more than 9.8% of our outstanding common stock. This restriction may have the effect of delaying, deferring or preventing a change in control of us, including an extraordinary transaction (such as a merger, tender offer or sale of all or substantially all of our assets) that might provide a premium price for holders of our common stock.

Our charter permits our board of directors to issue stock with terms that may subordinate the rights of our common stockholders or discourage a third party from acquiring us in a manner that could result in a premium price to our stockholders.

Our board of directors may classify or reclassify any unissued common stock or preferred stock and establish the preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends and other distributions, qualifications and terms or conditions of redemption of any such stock. Thus, our board of directors could authorize the issuance of preferred stock with terms and conditions that could have priority as to distributions and amounts payable upon liquidation over the rights of the holders of our common stock. Such preferred stock could also have the effect of delaying, deferring or preventing a change in control of us, including an extraordinary transaction (such as a merger, tender offer or sale of all or substantially all of our assets) that might provide a premium price to holders of our common stock.

Your investment return may be reduced if we are required to register as an investment company under the Investment Company Act; if we become an unregistered investment company, we could not continue our business.

We do not intend to register as an investment company under the Investment Company Act of 1940, as amended. If we were obligated to register as an investment company, we would have to comply with a variety of substantive requirements under the Investment Company Act that impose, among other things:

limitations on capital structure;

restrictions on specified investments;

prohibitions on transactions with affiliates; and

compliance with reporting, record keeping, voting, proxy disclosure and other rules and regulations that would significantly increase our operating expenses.

Table of Contents

Index to Financial Statements

In order to maintain our exemption from regulation under the Investment Company Act, we must engage primarily in the business of buying real estate. To maintain compliance with the Investment Company Act exemption, we may be unable to sell assets we would otherwise want to sell and may need to sell assets we would otherwise wish to retain. In addition, we may have to acquire additional income-or loss-generating assets that we might not otherwise have acquired or may have to forego opportunities to acquire interests in companies that we would otherwise want to acquire and would be important to our investment strategy. If we were required to register as an investment company but failed to do so, we would be prohibited from engaging in our business, and criminal and civil actions could be brought against us. In addition, our contracts would be unenforceable unless a court required enforcement, and a court could appoint a receiver to take control of us and liquidate our business.

You will have limited control over changes in our policies and operations, which increases the uncertainty and risks you face as a stockholder.

Our board of directors determines our major policies, including our policies regarding financing, growth, debt capitalization, REIT qualification and distributions. Our board of directors may amend or revise these and other policies without a vote of the stockholders. Under Maryland General Corporation Law and our charter, our stockholders have a right to vote only on limited matters. Our board's broad discretion in setting policies and our stockholders' inability to exert control over those policies increases the uncertainty and risks you face as a stockholder.

You may not be able to sell your shares under the share redemption program and, if you are able to sell your shares under the program, you may not be able to recover the amount of your investment in our shares.

Our board of directors has adopted a share redemption program, but there are significant conditions and limitations that limit your ability to sell your shares under the program. In addition, our board of directors may amend, suspend or terminate our share redemption program upon 30 days notice and without stockholder approval.

Except with respect to redemptions sought within two years of a stockholder's death or qualifying disability, you would have to hold your shares for at least one year in order to participate in our share redemption program. The share redemption program limits the number of shares that we may redeem under the program as follows:

(1) we may not redeem shares on any redemption date to the extent that such redemptions would cause the amount paid for redemptions (other than those following an investor's death or qualifying disability) since the beginning of the then-current calendar year to exceed 50% of the net proceeds from the sale of shares under our dividend reinvestment plan during such period; (2) we will limit all redemptions, other than those sought within two years of a stockholder's death, so that the aggregate of such redemptions during any calendar year does not exceed:

100% of the net proceeds from our dividend reinvestment plan during the calendar year or

5% of the weighted-average number of shares outstanding in the prior calendar year.

Although there is no limit under the share redemption program on the number of shares we may redeem upon the death of stockholders, we are under no obligation to redeem such shares to the extent such redemptions would cause total redemptions to exceed the limits set forth immediately above.

Table of Contents

Index to Financial Statements

These limits may prevent us from accommodating all redemption requests made in any year. Initially, we will repurchase shares under the share redemption program at 91% of the price at which we sold the share. For example, we will pay \$9.10 to redeem a share issued at \$10.00. This initial redemption price will remain fixed until three years after we complete our offering stage. For purposes of the share redemption program, we define the completion of our offering stage in the same manner as described in this prospectus under Description of Shares Dividend Reinvestment Plan Stock Purchases. Thereafter, we will redeem shares at a price equal to 95% of the estimated per share value of the shares, as estimated by our advisor or another firm we choose for that purpose. These restrictions would severely limit your ability to sell your shares should you require liquidity and would limit your ability to recover the value you invested.

The terms of our share redemption program are more generous for redemptions sought within two years of a stockholder's death or qualifying disability. See Description of Shares Share Redemption Program for more information about the share redemption program.

The offering price was not established on an independent basis; the actual value of your investment may be substantially less than what you pay.

The offering price of the shares, which is the same offering price as in our initial public offering, bears no relationship to our book or asset values or to any other established criteria for valuing shares. The board of directors considered the following factors in determining the offering price:

the offering price of Wells REIT I;

the range of offering prices of comparable unlisted REITs; and

the recommendation of our dealer manager.

Because the offering price is not based upon any independent valuation, the offering price may not be indicative of the proceeds that you would receive upon liquidation. Further, the offering price may be significantly more than the price at which the shares would trade if they were to be listed on an exchange or actively traded by broker-dealers.

Because the dealer manager is one of our affiliates, you will not have the benefit of an independent review of us or the prospectus customarily undertaken in underwritten offerings; the absence of an independent due diligence review increases the risks and uncertainty you face as a stockholder.

The dealer manager, Wells Investment Securities, is one of our affiliates and will not make an independent review of us or the offering. Accordingly, you do not have the benefit of an independent review of the terms of this offering. Further, the due diligence investigation of us by the dealer manager cannot be considered to be an independent review and, therefore, may not be as meaningful as a review conducted by an unaffiliated broker-dealer.

Your interest in us will be diluted if we issue additional shares, which could reduce the overall value of your investment.

Existing stockholders and potential investors in this offering do not have preemptive rights to any shares we issue in the future. Our charter authorizes us to issue 1,000,000,000 shares of capital stock, of which 900,000,000 shares are designated as common stock and 100,000,000 are designated as preferred stock. Our board of directors may increase the number of authorized shares of capital stock without stockholder approval. After your purchase in this offering, our board may elect to (1) sell additional shares in this

Table of Contents

Index to Financial Statements

or future public offerings; (2) issue equity interests in private offerings; (3) issue shares of our common stock upon the exercise of the options we may grant to our independent directors or to Wells Capital or Wells Management employees; (4) issue shares to our advisor, its successors or assigns, in payment of an outstanding fee obligation or as consideration in a related-party transaction; or (5) issue shares of our common stock to sellers of properties we acquire in connection with an exchange of limited partnership interests of Wells OP II. To the extent we issue additional equity interests after your purchase in this offering, your percentage ownership interest in us will be diluted. Further, depending upon the terms of such transactions, most notably the offering price per share, which may be less than the price paid per share in any offering under this prospectus, and the value of our properties, existing stockholders may also experience a dilution in the book value of their investment in us.

Payment of compensation to Wells Capital and its affiliates will reduce cash available for investment and distribution and increases the risk that you will not be able to recover the amount of your investment in our shares.

Wells Capital and its affiliates will perform services for us in connection with the offer and sale of our shares, the selection and acquisition of our investments, the management and leasing of our properties and the administration of our other investments. We will pay them substantial up-front fees for some of these services, which will result in immediate dilution to the value of your investment and will reduce the amount of cash available for investment in properties or distribution to stockholders. Largely as a result of these substantial fees, we expect that for each share sold in our primary offering of up to 300,000,000 shares of common stock no more than \$8.71 will be available for the purchase of real estate, depending primarily upon the number of shares we sell.

We will also pay significant fees to Wells Capital and its affiliates during our operational stage. Those fees include obligations to reimburse Wells Capital and its affiliates for expenses they incur in connection with their providing services to us, including certain personnel services. There is a risk that those reimbursement obligations could increase following the recently completed Wells REIT I internalization transaction. Our advisor and our property manager previously allocated certain of their personnel and other expenses between Wells REIT I and us. Following the Wells REIT I internalization transaction, there may be expenses of our advisor and our property manager that can no longer be shared between Wells REIT I and us, and those expenses may be higher than our allocable share of those expenses before the internalization transaction.

We may also pay significant fees during our listing/liquidation stage. Although most of the fees payable during our listing/liquidation stage are contingent on our investors first enjoying agreed-upon investment returns, affiliates of Wells Capital could also receive significant payments even without our reaching the investment-return thresholds should we seek to become self-managed. Due to the apparent preference of the public markets for self-managed companies, a decision to list our shares on a national securities exchange might well be preceded by a decision to become self-managed. And given our advisor's familiarity with our assets and operations, we might prefer to become self-managed by acquiring entities affiliated with our advisor. Such an internalization transaction could result in significant payments to affiliates of our advisor irrespective of whether you enjoyed the returns on which we have conditioned other back-end compensation.

These fees and other potential payments increase the risk that the amount available for distribution to common stockholders upon a liquidation of our portfolio would be less than the purchase price of the shares in this offering. Substantial consideration paid to our advisor and its affiliates also increases the risk that you will not be able to resell your shares at a profit, even if our shares are listed on a national securities exchange. See Management Compensation.

Table of Contents

Index to Financial Statements

Adverse economic and geopolitical conditions could cause our operations to suffer and reduce the overall value of your investment.

Among others, the following market and economic challenges may hinder our performance:

poor economic times may result in tenant defaults under leases;

job transfers, layoffs and overbuilding may increase vacancies;

maintaining occupancy levels may require increased concessions or reduced rental rates; and

increased insurance premiums, resulting in part from the increased risk of terrorism, may reduce funds available for distribution or, to the extent we can pass such increases through to tenants, may lead to tenant defaults. Increased insurance premiums also may make it difficult to increase rents to tenants on turnover, which may limit our ability to increase our returns.

The impact on our operations will be greater to the extent that an economic downturn is prolonged or becomes more severe.

If we are unable to obtain funding for future capital needs, cash distributions to our stockholders and the value of our investments could decline.

When tenants do not renew their leases or otherwise vacate their space, we will often need to expend substantial funds for tenant improvements to the vacated space in order to attract replacement tenants. In addition, although we expect that our leases with tenants will require tenants to pay routine property maintenance costs, we will likely be responsible for any major structural repairs, such as repairs to the foundation, exterior walls and rooftops.

We will use substantially all of this offering's gross proceeds to buy real estate and pay various fees and expenses. We do not intend to reserve significant proceeds from this offering for future capital needs. Accordingly, if we need significant capital in the future to improve or maintain our properties or for any other reason, we will have to obtain financing from other sources, such as cash flow from operations, borrowings, property sales or future equity offerings. These sources of funding may not be available on attractive terms or at all. If we cannot procure additional funding for capital improvements, our investments may generate lower cash flows or decline in value, or both, which would limit our ability to make distributions to our stockholders and could reduce the value of your investment.

You may be more likely to sustain a loss on your investment because our promoters do not have as strong an economic incentive to avoid losses as do promoters who have made significant equity investments in their company.

As of March 23, 2007, our promoters, who include Messrs. Wells, Williams, Fretz and Wells Capital, had only invested approximately \$1.4 million in us, primarily by our advisor purchasing 20,000 units of limited partnership interest in our operating partnership for \$10.00 per unit before our initial public offering and by our three officers purchasing shares of common stock for \$9.05 per share in our initial public offering. Therefore, if we are successful in raising enough proceeds to be able to reimburse our promoters for the significant organization and offering expenses of this offering, our promoters have little exposure to loss, especially if our shares are worth more than \$9.05 per share upon the disposition of our properties. Without this exposure, our investors may be at a greater risk of loss because our promoters do not have as much to lose from a decrease in the value of our shares as do those promoters who make more significant equity investments in their companies.

Table of Contents

Index to Financial Statements

General Risks Related to Investments in Real Estate

Economic and regulatory changes that impact the real estate market generally may cause our operating results to suffer and decrease the value of our real estate properties.

Our operating results will be subject to risks generally incident to the ownership of real estate, including:

changes in general or local economic conditions;

changes in supply of or demand for similar or competing properties in an area;

changes in interest rates and availability of permanent mortgage funds, which may render the sale of a property difficult or unattractive;

changes in tax, real estate, environmental and zoning laws; and

periods of high interest rates and tight money supply.

These and other reasons may prevent us from being profitable or from realizing growth or maintaining the value of our real estate properties, which would reduce the value of your investment.

Properties that have significant vacancies could be difficult to sell, which could diminish the return on your investment.

A property may incur vacancies either by the continued default of tenants under their leases or the expiration of tenant leases. If vacancies continue for a long period of time, we may suffer reduced revenues resulting in less cash available to distribute to stockholders. In addition, because properties' market values depend principally upon the value of the properties' leases, the resale value of properties with high or prolonged vacancies could suffer, which could further reduce your return.

We depend on tenants for our revenue, and lease defaults or terminations could reduce our net income and limit our ability to make distributions to our stockholders.

The success of our investments materially depends on the financial stability of our tenants. A default or termination by a significant tenant on its lease payments to us would cause us to lose the revenue associated with such lease and require us to find an alternative source of revenue to meet mortgage payments and prevent a foreclosure if the property is subject to a mortgage. In the event of a tenant default or bankruptcy, we may experience delays in enforcing our rights as landlord and may incur substantial costs in protecting our investment and re-letting our property. If a tenant defaults on or terminates a significant lease, we may be unable to lease the property for the rent previously received or sell the property without incurring a loss. These events could cause us to reduce the amount of distributions to stockholders.

Our inability to sell a property when we want could limit our ability to pay cash distributions to you.

General economic conditions, availability of financing, interest rates and other factors, including supply and demand, all of which are beyond our control, affect the real estate market. We may be unable to sell a property for the price, on the terms or within the time frame we want. That inability could reduce our cash flow and cause our results of operations to suffer, limiting our ability to pay distributions to you.

Table of Contents

Index to Financial Statements

Uninsured losses relating to real property or excessively expensive premiums for insurance coverage could reduce our net income and the return on your investment.

There are types of losses, generally catastrophic in nature, such as losses due to wars, acts of terrorism, earthquakes, floods, hurricanes, pollution or environmental matters that are uninsurable or not economically insurable, or may be insured subject to limitations, such as large deductibles or co-payments. Insurance risks associated with potential terrorist acts could sharply increase the premiums we pay for coverage against property and casualty claims. Additionally, mortgage lenders in some cases have begun to insist that commercial property owners purchase coverage against terrorism as a condition of providing mortgage loans. Such insurance policies may not be available at a reasonable cost, if at all, which could inhibit our ability to finance or refinance our properties. In such instances, we may be required to provide other financial support, either through financial assurances or self-insurance, to cover potential losses. We may not have adequate coverage for such losses. If any of our properties incur a casualty loss that is not fully insured, the value of that asset will be reduced by such uninsured loss. In addition, other than any working capital reserve or other reserves we may establish, or our existing line of credit, we do not have any sources of funding specifically designated for funding repairs of reconstruction of any uninsured damaged property. Also, to the extent we must pay unexpectedly large amounts for insurance, we could suffer reduced earnings that would result in lower distributions to stockholders.

Our operating results may suffer because of potential development and construction delays and resultant increased costs and risks.

We may use proceeds from this offering to acquire and develop properties, including unimproved real properties, upon which we will construct improvements. We will be subject to uncertainties associated with re-zoning for development, environmental concerns of governmental entities and/or community groups, and our builders' ability to build in conformity with plans, specifications, budgeted costs and timetables. If a builder fails to perform, we may resort to legal action to rescind the purchase or the construction contract or to compel performance. A builder's performance may also be affected or delayed by conditions beyond the builder's control. Delays in completing construction could also give tenants the right to terminate preconstruction leases. We may incur additional risks when we make periodic progress payments or other advances to builders before they complete construction. These and other factors can result in increased costs of a project or loss of our investment. In addition, we will be subject to normal lease-up risks relating to newly constructed projects. We also must rely on rental income and expense projections and estimates of the fair market value of property upon completion of construction when agreeing upon a purchase price at the time we acquire the property. If our projections are inaccurate, we may pay too much for a property, and our return on our investment could suffer.

Competition with third parties in acquiring properties and other investments may reduce our profitability and the return on your investment.

We compete with many other entities engaged in real estate investment activities, including individuals, corporations, bank and insurance company investment accounts, other REITs, real estate limited partnerships and other entities engaged in real estate investment activities, many of which have greater resources than we do. Larger REITs may enjoy significant competitive advantages that result from, among other things, a lower cost of capital and enhanced operating efficiencies. In addition, the number of entities and the amount of funds competing for suitable investments may increase. Any such increase would result in increased demand for these assets and therefore increased prices paid for them. If we pay higher prices for properties and other investments, our profitability will be reduced and you may experience a lower return on your investment.

Table of Contents

Index to Financial Statements

Actions of our joint venture partners could reduce the returns on our joint venture investments and decrease your overall return.

We have entered into joint ventures with third parties to acquire, develop or improve properties and will likely acquire additional properties through joint venture arrangements with some of the proceeds of this offering. Such investments may involve risks not otherwise present with other methods of investment in real estate, including, for example:

the possibility that our co-venturer in an investment might become bankrupt;

that such co-venturer may at any time have economic or business interests or goals that are or that become inconsistent with our business interests or goals; or

that such co-venturer may be in a position to take action contrary to our instructions or requests or contrary to our policies or objectives.

Any of the above might subject a property to liabilities in excess of those contemplated and thus reduce your returns.

Costs of complying with governmental laws and regulations may reduce our net income and the cash available for distributions to our stockholders.

All real property and the operations conducted on real property are subject to federal, state and local laws and regulations relating to environmental protection and human health and safety. Some of these laws and regulations may impose joint and several liability on tenants, owners or operators for the costs to investigate or remediate contaminated properties, regardless of fault or whether the acts causing the contamination were legal. In addition, the presence of hazardous substances, or the failure to properly remediate these substances, may hinder our ability to sell, rent or pledge such property as collateral for future borrowings.

Compliance with new laws or regulations or stricter interpretation of existing laws may require us to incur material expenditures. Future laws, ordinances or regulations may impose material environmental liability. Additionally, our tenants' operations, the existing condition of land when we buy it, operations in the vicinity of our properties, such as the presence of underground storage tanks, or activities of unrelated third parties may affect our properties. In addition, there are various local, state and federal fire, health, life-safety and similar regulations with which we may be required to comply, and which may subject us to liability in the form of fines or damages for noncompliance. Any material expenditures, fines or damages we must pay will reduce our ability to make distributions and may reduce the value of your investment.

Discovery of previously undetected environmentally hazardous conditions may decrease our revenues and the return on your investment.

Under various federal, state and local environmental laws, ordinances and regulations, a current or previous real property owner or operator may be liable for the cost to remove or remediate hazardous or toxic substances on, under or in such property. These costs could be substantial. Such laws often impose liability whether or not the owner or operator knew of, or was responsible for, the presence of such hazardous or toxic substances. Environmental laws also may impose restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require substantial expenditures or prevent us from entering into leases with prospective tenants that may be impacted by such laws. Environmental laws provide for sanctions for noncompliance and may be enforced by governmental agencies or, in certain circumstances, by private parties. Certain environmental laws and

Table of Contents

Index to Financial Statements

common law principles could be used to impose liability for release of and exposure to hazardous substances, including asbestos-containing materials. Third parties may seek recovery from real property owners or operators for personal injury or property damage associated with exposure to released hazardous substances. The cost of defending against claims of liability, of complying with environmental regulatory requirements, of remediating any contaminated property, or of paying personal injury claims could reduce the amounts available for distribution to you.

If we sell properties and provide financing to purchasers, defaults by the purchasers would decrease our cash flows and limit our ability to make distributions to you.

In some instances we may sell our properties by providing financing to purchasers. When we provide financing to purchasers, we will bear the risk that the purchaser may default, which could negatively impact our cash dividends to stockholders. Even in the absence of a purchaser default, the distribution of the proceeds of sales to our stockholders, or the reinvestment of proceeds in other assets, will be delayed until the promissory notes or other property we may accept upon a sale are actually paid, sold, refinanced or otherwise disposed of.

Risks Associated with Debt Financing

We have incurred and are likely to continue to incur mortgage and other indebtedness, which may increase our business risks.

As of March 23, 2007, total indebtedness was approximately \$669.7 million, which consisted of fixed-rate mortgages on certain properties of approximately \$585.5 million, a variable rate mortgage on a certain property of approximately \$47.2 million, approximately \$20.0 million outstanding under our \$400.0 million credit facility and \$17.0 million outstanding under our construction line of credit. Based on the value of our borrowing-base properties, we had approximately \$337.5 million in remaining capacity under our \$400.0 million credit facility, of which \$2.0 million was pledged in the form of letters of credit for future tenant improvements and leasing costs. We are likely to incur additional indebtedness even if we raise significant proceeds in this offering. We may incur indebtedness to acquire properties, to fund property improvements and other capital expenditures, to redeem shares under our share redemption program, to pay our dividend and for other purposes.

Significant borrowings by us increase the risks of your investment. If there is a shortfall between the cash flow from properties and the cash flow needed to service our indebtedness, then the amount available for distributions to stockholders may be reduced. In addition, incurring mortgage debt increases the risk of loss since defaults on indebtedness secured by a property may result in lenders initiating foreclosure actions. In that case, we could lose the property securing the loan that is in default, thus reducing the value of your investment. For tax purposes, a foreclosure of any of our properties would be treated as a sale of the property for a purchase price equal to the outstanding balance of the debt secured by the mortgage. If the outstanding balance of the debt secured by the mortgage exceeds our tax basis in the property, we would recognize taxable income on foreclosure, but we would not receive any cash proceeds. We may give full or partial guarantees to lenders of mortgage debt on behalf of the entities that own our properties. When we give a guaranty on behalf of an entity that owns one of our properties, we will be responsible to the lender for satisfaction of the debt if it is not paid by such entity.

If any mortgages or other indebtedness contain cross-collateralization or cross-default provisions, a default on a single loan could affect multiple properties. Our \$400 million credit facility includes a cross-default provision that provides that a payment default under any recourse obligation of \$10 million or more or any non-recourse obligation of \$20 million or more by us, Wells OP II, or any of our subsidiaries constitutes a default under the credit facility. If any of our properties are foreclosed upon due to a default, our ability to pay cash distributions to our stockholders will be limited.

Table of Contents

Index to Financial Statements

High mortgage rates may make it difficult for us to finance or refinance properties, which could reduce the number of properties we can acquire, our net income and the amount of cash distributions we can make.

If mortgage debt is unavailable at reasonable rates, we may not be able to finance the purchase of properties. If we place mortgage debt on properties, we run the risk of being unable to refinance the properties when the loans become due, or of being unable to refinance on favorable terms. If interest rates are higher when we refinance the properties, our income could be reduced. If any of these events occur, our cash flow would be reduced. This, in turn, would reduce cash available for distribution to you and may hinder our ability to raise more capital by issuing more stock or by borrowing more money.

Lenders may require us to enter into restrictive covenants relating to our operations, which could limit our ability to make distributions to our stockholders.

When providing financing, a lender may impose restrictions on us that affect our distribution and operating policies and our ability to incur additional debt. Loan documents we enter into may contain covenants that limit our ability to further mortgage the property, discontinue insurance coverage or replace Wells Capital as our advisor. These or other limitations may limit our flexibility and our ability to achieve our operating plans. For a discussion of the restrictive covenants contained in our \$400.0 million credit facility, see Management's Discussion and Analysis of Financial Conditions and Results of Operations—Liquidity and Capital Resources—Short-Term Liquidity and Capital Resources.

Increases in interest rates could increase the amount of our debt payments and limit our ability to pay dividends to our stockholders.

As of March 23, 2007, we had total outstanding indebtedness of \$669.7 million, which consisted of fixed-rate mortgages on certain properties of approximately \$585.5 million, a variable rate mortgage on a certain property of approximately \$47.2 million, approximately \$20.0 million outstanding under our \$400.0 million credit facility and \$17.0 million outstanding under our construction line of credit. We expect that we will incur additional indebtedness in the future. Increases in interest rates will increase our interest costs, which would reduce our cash flows and our ability to pay dividends. In addition, if we need to repay existing debt during periods of higher interest rates, we might sell one or more of our investments in order to repay the debt, which sale might not permit realization of the maximum return on such investments.

We have broad authority to incur debt, and high debt levels could hinder our ability to make distributions and could decrease the value of your investment.

Our policies do not limit us from incurring additional debt until debt would exceed 50% of the cost of our assets, though we may exceed this limit under some circumstances. High debt levels would cause us to incur higher interest charges, would result in higher debt service payments and could be accompanied by restrictive covenants. These factors could limit the amount of cash we have available to distribute and could result in a decline in the value of your investment.

Section 1031 Exchange Program Risks

We may have increased exposure to liabilities from litigation as a result of our participation in the Section 1031 Exchange Program, which increases the risks you face as a stockholder.

Wells Management Company, Inc., an affiliate of Wells Capital, our advisor, has developed a program to facilitate real estate acquisitions for persons (1031 Participants) who seek to reinvest proceeds from a real estate sale and qualify that reinvestment for like-kind exchange treatment under Section 1031 of the Internal Revenue Code (Section 1031 Exchange Program). The program is described in greater detail under Investment Objectives and Criteria Acquisition and Investment Policies Section 1031 Exchange Program. The Section 1031 Exchange Program involves a private placement of co-tenancy interests in real estate. There are significant tax and securities disclosure risks associated with these private placement offerings of co-tenancy interests to 1031 Participants. For example, in the event that the Internal Revenue Service conducts an audit of the purchasers of co-tenancy interests and successfully challenges the qualification of the transaction as a like-kind exchange, purchasers of co-tenancy interests may file a lawsuit against the entity offering the co-tenancy interests and its sponsors. We provide certain financial guarantees in the event co-tenancy interests in such offerings are not sold and could therefore be named in or otherwise required to defend against lawsuits brought by 1031 Participants. Any amounts we are required to expend for any such litigation claims may reduce the amount of funds available for distribution to you. In addition, disclosure of any such litigation may limit our future ability to raise additional capital through the sale of stock or borrowings.

We are subject to risks associated with co-tenancy arrangements that are not otherwise present in a real estate investment; these risks could reduce the value of our co-tenancy investments and your overall return.

Our participation in the Section 1031 Exchange Program involves an obligation to purchase any co-tenancy interests in a property that remain unsold at the completion of a Section 1031 Exchange Program private placement offering. Accordingly, we could be required to purchase the unsold co-tenancy interests and thus become subject to the risks of ownership of properties in a co-tenancy arrangement with unrelated third parties.

Ownership of co-tenancy interests involves risks not otherwise present with an investment in real estate such as the following:

the risk that a co-tenant may at any time have economic or business interests or goals that are inconsistent with our business interests or goals;

the risk that a co-tenant may be in a position to take action contrary to our instructions or requests or contrary to our policies or objectives; or

the possibility that a co-tenant might become insolvent or bankrupt, which may be an event of default under mortgage loan financing documents, or allow the bankruptcy court to reject the tenants-in-common agreement or management agreement entered into by the co-tenants owning interests in the property.

Any of the above might subject a property to liabilities in excess of those contemplated and thus reduce your returns.

In the event that our interests become adverse to those of the other co-tenants, we may not have the contractual right to purchase the co-tenancy interests from the other co-tenants. Even if we are given the opportunity to purchase such co-tenancy interests in the future, we cannot guarantee that we will have sufficient funds available at the time to purchase co-tenancy interests from the 1031 Participants.

Table of Contents

Index to Financial Statements

We might want to sell our co-tenancy interests in a given property at a time when the other co-tenants in such property do not desire to sell their interests. Therefore, we may not be able to sell our interest in a property at the time we would like to sell. In addition, we anticipate that it will be much more difficult to find a willing buyer for our co-tenancy interests in a property than it would be to find a buyer for a property we owned entirely.

Our participation in the Section 1031 Exchange Program may limit our ability to borrow funds in the future; this could reduce the number of investments we can make and limit our ability to make distributions to you.

Institutional lenders may view our obligations under agreements to acquire unsold co-tenancy interests in properties as a contingent liability against our cash or other assets, which may limit our ability to borrow funds in the future. Lenders providing lines of credit may restrict our ability to draw on our lines of credit by the amount of our potential obligation. Further, our lenders may view such obligations in such a manner as to limit our ability to borrow funds based on regulatory restrictions on lenders that limit the amount of loans they can make to any one borrower. These events could limit our operating flexibility and our ability to make distributions to you.

Federal Income Tax Risks

Failure to qualify as a REIT would reduce our net income and cash available for distributions.

In October 2005, DLA Piper US LLP, our legal counsel, rendered an opinion that we would qualify as a REIT based upon our representations as to the manner in which we were owned, invested in assets and operated, among other things. This opinion represented DLA Piper US LLP's legal judgment based on (i) the law in effect as of October 18, 2005 and (ii) our representations as of that date with respect to factual matters concerning our business operations and our properties. However, our qualification as a REIT depends upon our ability to meet requirements regarding our organization and ownership, distributions of our income, the nature and diversification of our income and assets and other tests imposed by the Internal Revenue Code. DLA Piper US LLP has not reviewed our compliance with the REIT qualification standards since October 18, 2005 and will not review such compliance on an ongoing basis. DLA Piper US LLP's opinion is not binding on the Internal Revenue Service or the courts, and notwithstanding such opinion, we may fail to qualify as a REIT under the Internal Revenue Code. For example, future legislative, judicial or administrative changes to the federal income tax laws could be applied retroactively, which could result in our disqualification as a REIT.

If we fail to qualify as a REIT for any taxable year, we will be subject to federal income tax on our taxable income at corporate rates. In addition, we would generally be disqualified from treatment as a REIT for the four taxable years following the year of losing our REIT status. Losing our REIT status would reduce our net earnings available for investment or distribution to stockholders because of the additional tax liability. In addition, distributions to stockholders would no longer qualify for the dividends-paid deduction, and we would no longer be required to make distributions. If this occurs, we might be required to borrow funds or liquidate some investments in order to pay the applicable tax.

Table of Contents

Index to Financial Statements

Recharacterization of sale-leaseback transactions may cause us to lose our REIT status, which would reduce the return on your investment.

We may purchase properties and lease them back to the sellers of such properties. While we will use our best efforts to structure any such sale-leaseback transaction such that the lease will be characterized as a true lease, thereby allowing us to be treated as the owner of the property for federal income tax purposes, we can give you no assurance that the IRS will not challenge such characterization. In the event that any such sale-leaseback transaction is challenged and recharacterized as a financing transaction or loan for federal income tax purposes, deductions for depreciation and cost recovery relating to such property would be disallowed. If a sale-leaseback transaction was so recharacterized, we might fail to satisfy the REIT qualification asset tests or income tests and, consequently, lose our REIT status. Alternatively, the amount of our REIT taxable income could be recalculated, which might also cause us to fail to meet the distribution requirement for a taxable year.

You may have current tax liability on distributions you elect to reinvest in our common stock.

If you participate in our dividend reinvestment plan, you will be deemed to have received, and for income tax purposes will be taxed on, the amount reinvested in shares of our common stock to the extent the amount reinvested was not a tax-free return of capital. In addition, you will be treated for tax purposes as having received an additional distribution to the extent the shares are purchased at a discount to fair market value. As a result, unless you are a tax-exempt entity, you may have to use funds from other sources to pay your tax liability on the value of the shares of common stock received. See Description of Shares Dividend Reinvestment Plan Tax Consequences of Participation.

Even if we qualify as a REIT for federal income tax purposes, we may be subject to other tax liabilities that reduce our cash flow and our ability to make distributions to you.

Even if we remain qualified as a REIT for federal income tax purposes, we may be subject to some federal, state and local taxes on our income or property. For example:

In order to qualify as a REIT, we must distribute annually at least 90% of our REIT taxable income to our stockholders (which is determined without regard to the dividends-paid deduction or net capital gain). To the extent that we satisfy the distribution requirement but distribute less than 100% of our REIT taxable income, we will be subject to federal corporate income tax on the undistributed income.

We will be subject to a 4% nondeductible excise tax on the amount, if any, by which distributions we pay in any calendar year are less than the sum of 85% of our ordinary income, 95% of our capital gain net income and 100% of our undistributed income from prior years.

If we have net income from the sale of foreclosure property that we hold primarily for sale to customers in the ordinary course of business or other non-qualifying income from foreclosure property, we must pay a tax on that income at the highest corporate income tax rate.

If we sell a property, other than foreclosure property, that we hold primarily for sale to customers in the ordinary course of business, our gain would be subject to the 100% prohibited transaction tax.

Table of Contents

Index to Financial Statements

We may perform additional, non-customary services for tenants of our buildings through our taxable REIT subsidiary, including real estate or non-real estate related services; however, any earnings related to such services are subject to federal and state income taxes.

To maintain our REIT status, we may be forced to borrow funds during unfavorable market conditions to make distributions to our stockholders, which could increase our operating costs and decrease the value of your investment.

To qualify as a REIT, we must distribute to our stockholders each year 90% of our REIT taxable income (which is determined without regard to the dividends-paid deduction or net capital gain). At times, we may not have sufficient funds to satisfy these distribution requirements and may need to borrow funds to maintain our REIT status and avoid the payment of income and excise taxes. These borrowing needs could result from (i) differences in timing between the actual receipt of cash and inclusion of income for federal income tax purposes; (ii) the effect of non-deductible capital expenditures; (iii) the creation of reserves; or (iv) required debt or amortization payments. We may need to borrow funds at times when market conditions are unfavorable. Such borrowings could increase our costs and reduce the value of our common stock.

To maintain our REIT status, we may be forced to forego otherwise attractive opportunities, which could delay or hinder our ability to meet our investment objectives and lower the return on your investment.

To qualify as a REIT, we must satisfy tests on an ongoing basis concerning, among other things, the sources of our income, nature of our assets and the amounts we distribute to our stockholders. We may be required to make distributions to stockholders at times when it would be more advantageous to reinvest cash in our business or when we do not have funds readily available for distribution. Compliance with the REIT requirements may hinder our ability to operate solely on the basis of maximizing profits.

Because of the ownership structure of our hotel property, we face potential adverse effects from changes to the applicable tax laws.

We own one hotel property. However, under the Internal Revenue Code, REITs are not allowed to operate hotels directly or indirectly. Accordingly, we lease our hotel property to our taxable REIT subsidiary, or TRS. As lessor, we are entitled to a percentage of the gross receipts from the operation of the hotel property. Marriott Hotel Services, Inc. manages the hotel under the Marriott® name pursuant to a management contract with the TRS as lessee. While the TRS structure allows the economic benefits of ownership to flow to us, the TRS is subject to tax on its income from the operations of the hotel at the federal and state level. In addition, the TRS is subject to detailed tax regulations that affect how it may be capitalized and operated. If the tax laws applicable to our TRS are changed, we may be forced to modify the structure for owning our hotel property or sell our hotel property, which may adversely affect our cash flows. In addition, the Internal Revenue Service, the United States Treasury Department and Congress frequently review federal income tax legislation, and we cannot predict whether, when or to what extent new federal tax laws, regulations, interpretations or rulings will be adopted. Any of such actions may prospectively or retroactively modify the tax treatment of the TRS and, therefore, may adversely affect our after-tax returns from our hotel property.

Retirement Plan Risks

If you fail to meet the fiduciary and other standards under ERISA or the Internal Revenue Code as a result of an investment in our stock, you could be subject to criminal and civil penalties.

There are special considerations that apply to pension, profit sharing trusts or IRAs investing in shares. If you are investing the assets of a pension, profit sharing, 401(k), Keogh or other qualified retirement plan or the assets of an IRA in our common stock, you should satisfy yourself that:

your investment is consistent with your fiduciary obligations under ERISA and the Internal Revenue Code;

your investment is made in accordance with the documents and instruments governing your plan or IRA, including your plan's investment policy;

your investment satisfies the prudence and diversification requirements of Sections 404(a)(1)(B) and 404(a)(1)(C) of ERISA and other applicable provisions of ERISA and the Internal Revenue Code;

your investment will not impair the liquidity of the plan or IRA;

your investment will not produce unrelated business taxable income for the plan or IRA;

you will be able to value the assets of the plan annually in accordance with ERISA requirements and applicable provisions of the plan or IRA; and

your investment will not constitute a prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code.

Failure to satisfy the fiduciary standards of conduct and other applicable requirements of ERISA and the Internal Revenue Code may result in the imposition of civil and criminal penalties, and can subject the fiduciary to equitable remedies. In addition, if an investment in our shares constitutes a prohibited transaction under ERISA or the Internal Revenue Code, the fiduciary who authorized or directed the investment may be subject to the imposition of excise taxes with respect to the amount invested.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this prospectus other than historical facts may be considered forward-looking statements. Such statements include, in particular, statements about our plans, strategies and prospects and are subject to certain risks and uncertainties, as well as known and unknown risks, which could cause actual results to differ materially from those projected or anticipated. Therefore, such statements are not intended to be a guarantee of our performance in future periods. Such forward-looking statements can generally be identified by our use of forward-looking terminology such as may, will, expect, intend, anticipate, estimate, believe, continue, or other similar words. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this prospectus. We make no representations or warranties (express or implied) about the accuracy of any such forward-looking statements and we do not intend to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Any such forward-looking statements are subject to unknown risks, uncertainties and other factors and are based on a number of assumptions involving judgments with respect to, among other things, future economic, competitive and market conditions, all of which are difficult or impossible to predict accurately. To the extent that our assumptions differ from actual results, our ability to meet such forward-looking statements, including our ability to generate positive cash flow from operations, make distributions to stockholders, and maintain the value of our real estate properties, may be significantly hindered. See **Risk Factors** herein for a discussion of some of those risks and uncertainties, although not all risks and uncertainties that could cause actual results to differ materially from those presented in our forward-looking statements are presented.

Table of Contents**Index to Financial Statements****ESTIMATED USE OF PROCEEDS**

The following tables set forth information about how we intend to use the gross proceeds raised in this offering assuming that we sell a midrange point of 237,500,000 shares of common stock and the maximum of 475,000,000 shares of common stock. Many of the figures set forth below represent management's best estimate since they cannot be precisely calculated at this time. Depending primarily on the number of shares we sell in the primary offering of up to 300,000,000 shares of common stock, we estimate that no more than 87.16% of our primary offering proceeds, or \$8.71 per share, will be used for investments, while the remainder will be used to pay offering expenses, including selling commissions and the dealer manager fee, and to pay a fee to our advisor for its services in connection with the selection, acquisition, development and construction of our real estate investments. Assuming a \$9.55 purchase price for shares sold under our dividend reinvestment plan and depending on the number of shares sold in the 175,000,000 dividend reinvestment plan offering, we estimate no more than 97.66% of the gross offering proceeds from our dividend reinvestment plan, or \$9.32 per share, will be used for investments and the repurchase of shares under our share redemption program, while the remainder will be used to pay offering expenses.

	237,500,000 Shares			
	Primary Offering (150,000,000 shares) (\$10.00/share)		Div. Reinv. Plan (87,500,000 shares) (\$9.55/share)	
	\$	%	\$	%
Gross Offering Proceeds	1,500,000,000	100.00	835,625,000	100.00

Acquisition Fees (2)	30,000,000	2.00	16,712,500	2.00
Initial Working Capital Reserve (3)	0	0.00	0	0.00
Amount Available for Investment (4)(5)	1,300,650,000	86.71	814,817,937	97.51

Table of Contents**Index to Financial Statements**

	475,000,000 Shares			
	Primary Offering (300,000,000 shares) (\$10.00/share)		Div. Reinv. Plan (175,000,000 shares) (\$9.55/share)	
	\$	%	\$	%
Gross Offering Proceeds	3,000,000,000	100.00	1,671,250,000	100.00
Selling Commissions	210,000,000	7.00	0	0.00
Dealer Manager Fee	75,000,000	2.50	0	0.00
Other Organization and Offering Expenses (1)	40,149,000	1.34	5,762,090	0.34
Acquisition Fees (2)	60,000,000	2.00	33,425,000	2.00
Initial Working Capital Reserve (3)	0	0.00	0	0.00
Amount Available for Investment (4)(5)	2,614,851,000	87.16	1,632,062,910	97.66

1. Includes all expenses (other than selling commissions and the dealer manager fee) to be paid by us in connection with the offering, including our legal, accounting, printing, mailing and filing fees, reimbursing the due diligence expenses of broker-dealers, and amounts to reimburse Wells Capital for the salaries of its employees and other costs in connection with preparing supplemental sales materials, holding educational conferences and attending retail seminars conducted by broker-dealers. Wells Capital has agreed to reimburse us to the extent organization and offering expenses incurred by us, other than selling commissions and the dealer manager fee, exceed 2.0% of aggregate gross offering proceeds.
2. We will pay Wells Capital, as our advisor, acquisition fees of 2.0% of gross offering proceeds for its services in connection with the selection, purchase, development and construction of real estate. We will pay Wells Capital the acquisition fee amount upon receipt of the offering proceeds rather than at the time a property is acquired. In addition to this acquisition fee, we may also incur customary third-party acquisition expenses in connection with the acquisition (or attempted acquisition) of a property. See note 4 below.
3. Because we expect that the vast majority of leases for the properties acquired by us will provide for tenant reimbursement of operating expenses, we do not anticipate that a permanent reserve for maintenance and repairs of real estate properties will be established. We expect to meet all of our working capital needs out of cash flow from operations. However, to the extent that we have insufficient funds to meet our needs for working capital, we may establish reserves from gross offering proceeds.

Table of Contents

Index to Financial Statements

4. Amount available for investment will include customary third-party acquisition expenses, such as legal fees and expenses, costs of appraisals, accounting fees and expenses, title insurance premiums and other closing costs and miscellaneous expenses relating to the acquisition of real estate. We estimate that these third-party costs would average 0.5% of the contract purchase prices of property acquisitions.
5. We expect that at least 50% of the proceeds from the sale of shares under our dividend reinvestment plan will be used to repurchase shares of our common stock under the share redemption program. See Description of Shares Share Redemption Program. Rather than using net proceeds to invest directly in real estate, we may use net proceeds to repay indebtedness and increase our borrowing capacity. Then, when we are ready to close on an acquisition, we might use debt proceeds or net offering proceeds, or a combination of both.
Until required in connection with the acquisition and development of properties, substantially all of the net proceeds of the offering and, thereafter, our working capital reserves, may be invested in short-term, highly liquid investments including government obligations, bank certificates of deposit, short-term debt obligations and interest-bearing accounts or other authorized investments as determined by our board of directors.

Index to Financial Statements

MANAGEMENT

Board of Directors

We operate under the direction of our board of directors. The board is responsible for the management and control of our affairs. The board has retained Wells Capital to manage our day-to-day affairs and the acquisition and disposition of our investments, subject to the board's supervision. Because of the numerous conflicts of interest created by the relationships among us, Wells Capital and various Wells affiliates, many of the responsibilities of the board have been delegated to a committee composed of all of our independent directors. See Conflicts of Interest.

We have a ten-member board of directors. Our board may change the size of the board, but not to fewer than three board seats. Our charter provides that a majority of the directors must be independent directors. We currently have six independent directors and two vacant board seats. An independent director is a person who is not one of our officers or employees or an officer or employee of Wells Capital or its affiliates and has not been so for the previous two years. Serving as a director of, or having an ownership interest in, another Wells-sponsored program will not, by itself, preclude independent director status.

Each director will serve until the next annual meeting of stockholders and until his successor has been duly elected and qualified. Although the number of directors may be increased or decreased, a decrease shall not have the effect of shortening the term of any incumbent director. Any director may resign at any time or may be removed with or without cause by the stockholders upon the affirmative vote of at least a majority of all the votes entitled to be cast at a meeting called for the purpose of the proposed removal. The notice of the meeting shall indicate that the purpose, or one of the purposes, of the meeting is to determine if the director shall be removed.

Unless filled by a vote of the stockholders as permitted by the Maryland General Corporation Law, a vacancy created by an increase in the number of directors or the death, resignation, removal, adjudicated incompetence or other incapacity of a director shall be filled by a vote of a majority of the remaining directors. As provided in our charter, nominations of individuals to fill the vacancy of a board seat previously filled by an independent director will be made by the remaining independent directors.

Our directors and officers are not required to devote all of their time to our business and are only required to devote the time to our affairs as their duties may require. In addition to meetings of the various committees of the board, which committees we describe below, we expect to hold seven regular board meetings each year. We do not expect that our directors will be required to devote a substantial portion of their time in discharging their duties. Our board is empowered to fix the compensation of all officers that it selects and may pay compensation to directors for services rendered to us in any other capacity.

Our general investment and borrowing policies are set forth in this prospectus. Our directors may establish further written policies on investments and borrowings and shall monitor our administrative procedures, investment operations and performance to ensure that the policies are fulfilled and are in the best interest of our stockholders. We will follow the policies on investments and borrowings set forth in this prospectus unless they are modified by our directors.

Amended Corporate Governance Guidelines Relating to Election of Directors

We amended our Corporate Governance Guidelines with respect to the election of our directors. A copy of our Corporate Governance Guidelines is available on our affiliated Web site at www.wellsref.com/investors/governance_docs.html.

Our directors are elected by a plurality of the votes cast. Under this voting standard, the director nominees with the most votes are elected to the board seats to be filled. In uncontested elections, the number of nominees equals the number of board seats to be filled; therefore, in uncontested elections, a nominee need only receive a single for vote to be elected. In uncontested elections, abstentions and withhold votes should have no effect on the outcome of the election (although they do count toward the establishment of a quorum).

In order to enhance your ability to influence the composition of the board of directors in an uncontested election, we have amended our Corporate Governance Guidelines to require each candidate nominated by the board of directors to agree to offer to resign should he or she receive fewer for votes than withhold votes in an uncontested election. If a director must offer to resign because of withhold vote totals, the conflicts committee of our board of directors must accept or reject the offer of resignation within 90 days following certification of the stockholder vote. If the conflicts committee accepts the offer, then the resignation will be effective upon acceptance. If the conflicts committee rejects an offer, it must disclose the reasons for doing so.

Any director who tenders his or her resignation pursuant to this provision of our Corporate Governance Guidelines may not participate in any conflicts committee action regarding whether to accept his or her offer of resignation or whether to accept any other director's resignation. However, if the non-participation of resigning directors would leave fewer than three directors participating in the decision, then all conflicts committee members may participate other than the director whose resignation is at issue.

The offer of resignation may also be accepted at a stockholder meeting duly called for the express purpose of accepting such resignation and electing a successor to fill the vacancy created thereby. Unless previously accepted by the conflicts committee, such resignation will be effective immediately prior to the stockholders' election of a successor at such meeting.

Committees of the Board of Directors

Many of the powers of the board of directors may be delegated to one or more committees. Our charter requires that each committee consist of at least a majority of independent directors.

Audit Committee

Our bylaws require that the audit committee of the board of directors consist solely of independent directors. The audit committee selects the independent public accountants to audit our annual financial statements, reviews with the independent public accountants the plans and results of the audit engagement, approves the audit and non-audit services provided by the independent public accountants, reviews the independence of the independent public accountants, considers the range of audit and non-audit fees and reviews the adequacy of our internal accounting controls. Our audit committee consists of E. Nelson Mills (Chairman), Neil H. Strickland and one vacant seat, all of whom are and will be independent directors. Should there be a tie vote of the audit committee before the vacant seat is filled, the full board will vote on the matter.

Table of Contents

Index to Financial Statements

Conflicts Committee

In order to reduce or eliminate certain potential conflicts of interest, our charter creates a conflicts committee of our board of directors composed of all of our independent directors, that is, all of our directors who are not affiliated with our advisor. Serving on the board of, or owning an interest in, another Wells-sponsored program will not, by itself, preclude a director from serving on the conflicts committee. The conflicts committee, which has retained its own legal advisor and is also authorized to retain its own financial advisor, is empowered to act on any matter permitted under Maryland law if the matter at issue is such that the exercise of independent judgment by Wells Capital affiliates could reasonably be compromised. Those conflict-of-interest matters that cannot be delegated to a committee under Maryland law must be acted upon by both the board of directors and the conflicts committee. See *Conflicts of Interest* *Certain Conflict Resolution Procedures*.

Our conflicts committee will also discharge the board's responsibilities relating to compensation of our executives. The conflicts committee will administer the granting of stock options to selected employees of Wells Capital and Wells Management based upon recommendations from Wells Capital and Wells Management, and set the terms and conditions of such options in accordance with the Stock Option Plan, which we describe below. The conflicts committee will also have authority to amend the Stock Option Plan or create other incentive compensation and equity-based plans. The Conflicts Committee is also responsible for administering the terms of the Independent Director Stock Option Plan. The members of our Conflicts Committee are Neil H. Strickland (Chairman), Charles R. Brown, Richard W. Carpenter, Bud Carter, E. Nelson Mills and Jack M. Pinkerton, all of whom are independent directors.

The Conflicts Committee reviews our policies annually and determined that they are in the best interest of our stockholders. Set forth below is a discussion of the basis for these determinations made in March 2007.

Investment Policies. We focus our investment efforts on the acquisition of high-quality, income-generating office and industrial properties leased to creditworthy tenants. Although we may acquire other types of real estate, this focus is preferred because we believe it will best enable us to achieve our goal of preserving investor capital and generating current income. We also believe that there are sufficient acquisition opportunities that meet this investment focus. Our advisor, Wells Capital, has extensive expertise with this type of real estate.

Working Capital Reserves. We do not intend to set aside offering proceeds for working capital purposes. Setting aside funds for this purpose would decrease the amount we can invest in real estate and hence reduce our opportunities to earn current income. We believe that debt proceeds and our cash flow from operations will be sufficient to meet our needs for working capital.

Borrowing Policies. Over the long-term, we have a policy of keeping our debt at no more than 50% of the cost of our assets (before depreciation) and, ideally, at significantly less than this 50% leverage ratio. This conservative leverage goal could reduce the amount of current income we can generate for our stockholders, but it also reduces their risk of loss. We believe that preserving investor capital while generating stable current income is in the best interest of our stockholders. As of December 31, 2006, our leverage ratio was approximately 24%.

Policies Regarding Operating Expenses. We have the responsibility of limiting total operating expenses to no more than the greater of 2% of average invested assets or 25% of net income, as these terms are defined in our charter. For the four consecutive quarters ending December 31, 2006, total operating expenses represented 1.3% of average invested assets and 12.5% of net income.

Table of Contents

Index to Financial Statements

Offering Policies. We are conducting a public offering through this prospectus of up to 300 million shares of common stock at \$10 per share (with discounts available for certain categories of investors). We are also offering shares on this prospectus under our dividend reinvestment plan. We believe these offerings are in the best interest of our stockholders because they increase the likelihood that we will be able to acquire a diverse portfolio of income-producing properties, thereby reducing risk in our portfolio.

Listing Policy. We believe it is in the best interest of our stockholders for our common shares to remain unlisted on a national exchange at this time. First, we are in the fundraising and property-acquisition stage of our life cycle, and remaining unlisted improves our ability to continue to raise new equity and purchase additional properties so that the real estate portfolio can achieve greater size and diversification. Second, we believe it is more cost effective to remain unlisted and utilize Wells Capital as our external advisor at the present time than it would be to internalize all the resources necessary to operate a listed company. Third, our shares are offered as a long-term investment. We believe that the ability to provide our stockholders with liquidity in the near-term is outweighed by the longer-term benefits of completing the current offering, allowing the portfolio to mature and then listing the shares at a price that is anticipated to be higher than the price at which they would likely trade today.

Nominating and Corporate Governance Committee

The primary functions of the nominating and corporate governance committee are: (1) identifying individuals qualified to serve on the board of directors and recommending that the board of directors select a slate of director nominees for election by the stockholders at the annual meeting; (2) developing and recommending to the board of directors a set of corporate governance policies and principles and periodically re-evaluating such policies and guidelines for the purpose of suggesting amendments to them if appropriate; and (3) overseeing an annual evaluation of the board of directors and each of the committees of the board of directors. All of the members of the nominating and corporate governance committee are independent directors.

Asset Management Committee

The primary functions of the asset management committee are to review and advise the board of directors on investment criteria and acquisition policies, the general economic environment in various real estate markets, existing or prospective properties or tenants and portfolio diversification goals. All of the members of the asset management committee are independent directors.

Finance and Planning Committee

The primary function of the finance and planning committee is to review and advise the board of directors on our overall financial performance, which includes issues related to net proceeds raised, fees and expenses, operating earnings, dividends, capital structure and budgetary and reporting processes. All of the members of the finance and planning committee are independent directors.

Stockholder Relations, Communication and Development Committee

The primary function of the stockholder relations, communication and development committee is to advise the board of directors on various stockholder issues including market conditions, issues relating to net proceeds raised from stockholders and communications with stockholders. All of the members of the stockholder relations, communication and development committee are independent directors.

E. Nelson Mills	46	Director*
Jack M. Pinkerton	79	Director*
Neil H. Strickland	71	Director*

* Denotes director is not affiliated with our advisor, Wells Capital.

Leo F. Wells, III is our President and one of our directors. He is also a director of Wells REIT I, and the President and a director of Wells Timberland and Institutional REIT. He is also the sole stockholder, sole director, President and Treasurer of Wells Real Estate Funds; and the sole director, President and Treasurer of Wells Management and Wells Capital, our advisors, Wells Development Corporation and Wells Asset Management, Inc. Mr. Wells is also a trustee of the Wells Family of Real Estate Funds, an open-end management company organized as an Ohio business trust, which includes as one of its series the Wells S&P REIT Index Fund. He is the President, Treasurer and a director of Wells & Associates, Inc., a real estate brokerage and investment company formed in 1976 and incorporated in 1978, for which Mr. Wells serves as the principal broker.

Mr. Wells was a real estate salesman and property manager from 1970 to 1973 for Roy D. Warren & Company, an Atlanta-based real estate company, and he was associated from 1973 to 1976 with Sax Gaskin Real Estate Company, during which time he became a Life Member of the Atlanta Board of Realtors Million Dollar Club. From 1980 to February 1985 he served as Vice President of Hill-Johnson, Inc., a Georgia corporation engaged in the construction business. Mr. Wells holds a Bachelor of Business Administration degree in economics from the University of Georgia. Mr. Wells is a member of the Financial Planning Association (FPA).

On August 26, 2003, Mr. Wells and Wells Investment Securities entered into a Letter of Acceptance, Waiver and Consent (AWC) with the NASD relating to alleged rule violations. The AWC set forth the NASD's findings that Wells Investment Securities and Mr. Wells had violated conduct rules relating to the provision of non-cash compensation of more than \$100 to associated persons of NASD member firms in connection with their attendance at the annual educational and due diligence conferences sponsored by Wells Investment Securities in 2001 and 2002. Without admitting or denying the allegations and findings against them, Wells Investment Securities and Mr. Wells consented in the AWC to various findings by the NASD, which are summarized in the following paragraph:

Table of Contents

Index to Financial Statements

In 2001 and 2002, Wells Investment Securities sponsored conferences attended by registered representatives who sold its real estate investment products. Wells Investment Securities also paid for certain expenses of guests of the registered representatives who attended the conferences. In 2001, Wells Investment Securities paid the costs of travel to the conference and meals for many of the guests, and paid the costs of playing golf for some of the registered representatives and their guests. Wells Investment Securities later invoiced registered representatives for the cost of golf and for travel expenses of guests, but was not fully reimbursed for such. In 2002, Wells Investment Securities paid for meals for the guests. Wells Investment Securities also conditioned most of the 2001 conference invitations on attainment by the registered representatives of a predetermined sales goal for Wells Investment Securities products. This conduct violated the prohibitions against payment and receipt of non-cash compensation in connection with the sales of these products contained in NASD's Conduct Rules 2710, 2810 and 3060. In addition, Wells Investment Securities and Mr. Wells failed to adhere to all of the terms of their written undertaking, made in March 2001, not to engage in the conduct described above, thereby failing to observe high standards of commercial honor and just and equitable principles of trade in violation of NASD Conduct Rule 2110.

Wells Investment Securities consented to a censure, and Mr. Wells consented to suspension from acting in a principal capacity with an NASD member firm for one year. Wells Investment Securities and Mr. Wells also agreed to the imposition of a joint and several fine in the amount of \$150,000. Mr. Wells' one-year suspension from acting in a principal capacity ended on October 6, 2004.

Douglas P. Williams is our Executive Vice President, Secretary and Treasurer and one of our directors. He also served as Executive Vice President, Secretary and Treasurer and a director of Wells REIT I from 1999 until the Wells REIT I internalization transaction and began serving in those capacities for Wells Timberland in 2005 and Institutional REIT in 2006. He is also a Senior Vice President of our advisor and a Vice President, Chief Financial Officer, Treasurer and a director of Wells Investment Securities, our dealer-manager. Mr. Williams is also a Vice President of Wells Real Estate Funds and Wells Asset Management, Inc.

From 1996 to 1999, Mr. Williams served as Vice President and Controller of OneSource, Inc., a leading supplier of janitorial and landscape services, where he was responsible for corporate-wide accounting activities and financial analysis. Mr. Williams was employed by ECC International Inc., a supplier to the paper industry and to the paint, rubber, and plastic industries, from 1982 to 1995. While at ECC, Mr. Williams served in a number of key accounting positions, including: Corporate Accounting Manager, U.S. Operations; Division Controller, Americas Region; and Corporate Controller, America/Pacific Division. Prior to joining ECC and for one year after leaving ECC, Mr. Williams was employed by Lithonia Lighting, a manufacturer of lighting fixtures, as a Cost and General Accounting Manager and Director of Planning and Control. Mr. Williams started his professional career as an auditor for a predecessor firm of KPMG Peat Marwick LLP.

Mr. Williams is a member of the American Institute of Certified Public Accountants and the Georgia Society of Certified Public Accountants and is licensed with the NASD as a financial and operations principal. Mr. Williams received a Bachelor of Arts degree from Dartmouth College and a Master's of Business Administration degree from Amos Tuck School of Graduate Business Administration at Dartmouth College.

Randall D. Fretz has been our Senior Vice President since 2003 and is a Senior Vice President of Wells Capital. He is also the Chief of Staff and a Vice President of Wells Real Estate Funds, a Senior Vice President of Wells Timberland and Institutional REIT and a director of Wells Investment Securities. Mr. Fretz served as a Senior Vice President of Wells REIT I until February 2007. Mr. Fretz is primarily responsible for corporate strategy and planning and advising and coordinating the executive officers of Wells Capital on corporate matters and special projects. Prior to joining Wells Capital in 2002, Mr. Fretz served for seven years as President of U.S. and Canada operations for Larson-Juhl, a world leader in custom art and picture-framing home decor. Mr. Fretz was previously a Division Director at Bausch & Lomb, a manufacturer of optical equipment and products, and also held various senior positions at Tandem International and Lever Brothers. Mr. Fretz holds a bachelor degree in each of Sociology and Physical Education from McMaster University in Hamilton, Ontario. He also earned a Master's of Business Administration degree from the Ivey School of Business in London, Ontario.

Charles R. Brown is one of our independent directors. He has been involved in real estate activities for over 40 years. Mr. Brown is also a director of Institutional REIT. From 1971 to 1976, he served as Director of Marketing and Project Manager for Atlantic Center, one of the South's largest multi-use complexes. Atlantic Center is a two-million square-foot project in the central business district of Atlanta and includes a Hilton Hotel, a bank and office and retail establishments. From 1976 to 1997, Mr. Brown was President of Technology Park/Atlanta, Inc., where he was instrumental in developing Technology Park/Atlanta, a 600-acre office park in Peachtree Corners north of Atlanta, which was selected for the Governor's Award for its contribution to community economic development.

Mr. Brown is Chairman and until recently was President of CRB Realty Associates, a private real estate consulting firm. He has previously been president and vice chairman of Atlantic Station, LLC, where he was involved in the planning and development of Atlantic Station, a redevelopment project of the Atlantic Steel mill in Atlanta, Georgia. He has also represented one of the partnerships developing an office building constituting part of the Atlantic Station project.

Mr. Brown is a past President of the Georgia Tech Foundation, past Chairman of the Gwinnett County Chamber of Commerce and the Georgia Chamber of Commerce and past Vice Chairman of the Georgia Governor's Development Council. He also served on the board of directors of the Georgia Department of Technical and Adult Education. He is a graduate of the Georgia Institute of Technology where he received a B.S. degree in Building Construction from the College of Architecture.

Richard W. Carpenter is one of our independent directors. He is also a trustee of the Wells Family of Real Estate Funds. Until the Wells REIT I internalization transaction, Mr. Carpenter was a director of Wells REIT I. He served as General Vice President of Real Estate Finance of The Citizens and Southern National Bank from 1975 to 1979, during which time his duties included the establishment and supervision of the United Kingdom Pension Fund, U.K.-American Properties, Inc., which was established primarily for investment in commercial real estate within the United States.

Mr. Carpenter is a managing partner of Carpenter Properties, L.P., a real estate limited partnership, and a Director and Chairman of the Audit Committee of MidCountry Financial Corp. He retired as President and Director of Commonwealth Oil Refining Company, Inc. and Realmark Holdings in 2001.

Mr. Carpenter previously served as Vice Chairman of the board of directors of both First Liberty Financial Corp. and Liberty Savings Bank, F.S.B. and Chairman of the Audit Committee of First Liberty Financial Corp. He has been a member of the National Association of Real Estate Investment Trusts and formerly served as President and Chairman of the Board of Southmark Properties, an Atlanta-based REIT, which invested in commercial properties. Mr. Carpenter is a past Chairman of the American Bankers

Table of Contents

Association Housing and Real Estate Finance Division Executive Committee. Mr. Carpenter holds a Bachelor of Science degree from Florida State University, where he was named the outstanding alumnus of the School of Business in 1973.

Bud Carter is one of our independent directors. He is also a trustee of the Wells Family of Real Estate Funds. Until the Wells REIT I internalization transaction, Mr. Carpenter was a director of Wells REIT I. Mr. Carter, for more than 20 years, was an award-winning broadcast news director and anchorman for several radio and television stations in the Midwest. Later, from 1975 to 1980, Mr. Carter served as General Manager of WTAZ-FM, a radio station in Peoria, Illinois and served as Publisher and Editor of The Peoria Press, a weekly business and political journal. From 1981 until 1989, Mr. Carter was an owner and General Manager of Transitions, Inc., a corporate outplacement company in Atlanta, Georgia.

Mr. Carter currently serves as Senior Vice President for Vistage International (formerly known as The Executive Committee), an international organization established to provide a think tank like forum for company Presidents and CEOs to share ideas on ways to improve the management and profitability of their businesses. Vistage International operates in major cities throughout the United States, Australia, Australia, Brazil, France, Germany, Italy, Malaysia, Mexico, the United Kingdom and Japan. Worldwide, the organization has more than 14,000 company president and CEO members. Mr. Carter was recruited in 1987 to be the first Chairman of the organization in Atlanta and still serves as Chairman of the first two groups formed in Atlanta each group comprised of 15 non-competing CEOs and presidents. See Certain Relationships with our Independent Directors.

Mr. Carter serves on the board of directors of Creative Storage Systems, Inc., The Springs Newspapers, and The Rockbridge Commercial Bank; earlier board service includes The DiversiTech Corporation and WaveBase9. He is a graduate of the University of Missouri where he earned degrees in Liberal Arts and then Journalism.

E. Nelson Mills became one of our independent directors in April 2007. He is also an independent director of Institutional REIT and Wells Timberland. Since December 2004, Mr. Mills has served as the chief operations officer and chief financial officer of Williams Realty Advisors, LLC where he is responsible for investment and financial strategy and is in charge of the design, formation and operation of a series of real estate investment funds. From April 2004 to December 2004, Mr. Mills was a financial consultant to Timbervest, LLC, an investment manager specializing in timberland investments. From September 2000 to April 2004, Mr. Mills served as chief financial officer of Lend Lease Real Estate Investments (US), Inc., an investment manager specializing in the acquisition and management of commercial real estate, and from August 1998 to August 2000 served as a senior vice president of Lend Lease with responsibility for tax planning and administration and the supervision of various merger and acquisition activities. Prior to joining Lend Lease, Mr. Mills was a tax partner with KPMG LLP from January 1987 to August 1998. Mr. Mills received a Bachelor of Science degree in Business Administration from the University of Tennessee and a Masters of Business Administration degree from the University of Georgia. Mr. Mills is also a Certified Public Accountant.

Jack M. Pinkerton is one of our independent directors. He served as Chairman of the Executive Committee of The Pinkerton & Laws Company until his retirement in 1988, at which time The Pinkerton and Laws Company was one of the 200 largest construction companies in the United States. Mr. Pinkerton's current activities include Director of Construction for Early Learning Property Management (construction and development of Early Learning Centers). Mr. Pinkerton served as Chairman of the Board of Enterprise National Bank before it was sold to Regions Bank in 1999. Mr. Pinkerton has also served as Chairman of the Board of numerous non-profit organizations. He received his Civil Engineering degree from Vanderbilt University and a Master of Theology Studies degree from Emory University.

Neil H. Strickland is one of our independent directors. He is also a trustee of the Wells Family of Real Estate Funds. Until the Wells REIT I internalization transaction, Mr. Carpenter was a director of Wells REIT I. He was employed by Loyalty Group Insurance (which subsequently merged with America Fore Loyalty Group and is now known as The Continental Group) as an automobile insurance underwriter. From 1957 to 1961, Mr. Strickland served as Assistant Supervisor of the Casualty Large Lines Retrospective Rating Department. From 1961 to 1964, Mr. Strickland served as Branch Manager of Wolverine Insurance Company, a full-service property and casualty service company, where he had full responsibility for underwriting of insurance and office administration in the State of Georgia. In 1964, Mr. Strickland and a non-active partner started Superior Insurance Service, Inc., a property and casualty wholesale general insurance agency. Mr. Strickland served as President and was responsible for the underwriting and all other operations of the agency. In 1967, Mr. Strickland sold his interest in Superior Insurance Service, Inc. and started Strickland General Agency, Inc., a property and casualty general insurance agency concentrating on commercial customers. Mr. Strickland is currently the Senior Operations Executive of Strickland General Agency, Inc. and devotes most of his time to long-term planning, policy development, and senior administration.

Mr. Strickland is a Director of First Covenant Bank located in Woodstock, Georgia. He is a past President of the Norcross Kiwanis Club and served as both Vice President and President of the Georgia Surplus Lines Association. He also served as President and a director of the National Association of Professional Surplus Lines Offices. Mr. Strickland is a past director of First Capital Bank, a community bank, and CNB Holdings, Inc., a publicly traded bank, both located in the State of Georgia. Mr. Strickland attended Georgia State University where he majored in business administration. He received his L.L.B. degree from Atlanta Law School.

Compensation of Our Executive Officers

Our executive officers do not receive compensation from us for services rendered to us. Our executive officers are also officers of Wells Capital, our advisor, and its affiliates and are compensated by these entities, in part, for their services to us. See **Management Compensation and Employees of Affiliated Companies** below for a discussion of the fees paid to and services provided by Wells Capital and its affiliates.

Table of Contents**Index to Financial Statements****Compensation of Our Directors**

We have provided below certain information regarding compensation paid to our directors during fiscal year 2006.

Name	Fees Earned or Paid in Cash (\$)	Option Awards (\$ (1))	Total (\$)
Leo F. Wells, III (2)			
Douglas P. Williams (2)			
Charles R. Brown	50,750		50,750
Richard W. Carpenter	58,000		58,000
Bud Carter	54,750		54,750
Jack M. Pinkerton	49,000		49,000
E. Nelson Mills (3)			
Donald S. Moss (4)	62,750		62,750
Walter W. Sessoms (5)	20,250		20,250
Neil H. Strickland	56,500		56,500
W. Wayne Woody (4)	60,000		60,000

- (1) On July 19, 2006 we granted options to purchase 1,000 shares of our common stock at \$12.00 per share to each of our independent directors (with the exception of Walter W. Sessoms, who passed away on July 2, 2006) pursuant to our Independent Director Stock Option Plan. In accordance with SFAS 123-R, we estimated the fair value of each stock option granted as of the date of the grant using the Black-Scholes-Merton model. Based on the assumptions discussed in Note 6 to our accompanying consolidated financial statements, the fair value of the options granted during the year ended December 31, 2006 was insignificant. As of December 31, 2006, options to purchase a total of 40,000 of our shares of common stock were outstanding (options to purchase 1,500 shares held by the estate of Walter W. Sessoms and options to purchase 5,500 shares held by each of our remaining independent directors). The weighted-average exercise price of all outstanding options is \$12.00 per share.
- (2) Directors who are also our executive officers do not receive compensation for services rendered as a director.
- (3) E. Nelson Mills joined our board of directors on April 18, 2007.
- (4) On April 16, 2007, these two directors resigned from our board in connection with the Wells REIT I internalization transaction.
- (5) Mr. Sessoms served on our board until he passed away on July 2, 2006.

We pay each of our independent directors an annual retainer of \$12,000. In addition, we pay directors for attending board and committee meetings as follows:

- \$2,500 per regular board meeting; we expect seven regular board meetings per year.

Table of Contents

Index to Financial Statements

- \$2,500 per audit committee meeting to review our periodic reports; we expect four such meetings per year.
- \$250 per special board meeting attended (whether held in person or by telephone conference); we expect two such meetings per month.
- \$1,500 for all other committee meetings; we expect five such meetings per committee per year.
- An additional \$500 to a committee chair for each committee meeting attended in person.

However, when a committee meeting follows a board meeting, an additional fee will not always be paid for attending the committee meeting. For example, a conflicts committee meeting will generally be held immediately after every board meeting, but a separate fee will not be paid for attendance at the conflicts committee meeting.

In addition, we have reserved 100,000 shares of common stock for future issuance upon the exercise of stock options granted to the independent directors pursuant to our Independent Director Stock Option Plan. All directors will receive reimbursement of reasonable out-of-pocket expenses incurred in connection with attendance at meetings of the board of directors. If a director is also one of our officers, we will not pay separate compensation for services rendered as a director.

Independent Director Stock Option Plan

We have adopted an Independent Director Stock Option Plan. As of the date of this prospectus, we have issued options to purchase 40,000 shares of common stock to our independent directors pursuant to this plan. We issued options to purchase 2,500 shares to each independent director in connection with our initial public offering. Of these shares, 20% are exercisable immediately on the date of grant. An additional 20% of these shares become exercisable on each annual anniversary following the date of the grant. Additionally, we issue options to purchase 1,000 shares to each independent director on the date of our annual stockholders' meeting. These options are 100% exercisable upon completion of two years of service after the date of the grant. All of the options issued under the plan were anti-dilutive with an exercise price of \$12 per share. We may not grant options at any time when the issuance of the shares underlying the grant, when combined with those issuable upon exercise of outstanding options or warrants granted to our advisor, directors, officers or any of their affiliates, would exceed 10% of our outstanding shares.

The exercise price for the subsequent options will be the greater of (1) \$12.00 per share or (2) the fair market value of the shares on the date they are granted. Fair market value is generally defined to mean (1) the closing sales price on the immediately preceding date on which sales were reported if the shares are listed on a securities exchange or (2) the mean between the bid and offered prices as quoted by Nasdaq for such immediately preceding trading date if the shares are not listed on a securities exchange. However, if the conflicts committee determines that the fair market value of our shares is not properly reflected by such Nasdaq quotations, or if our shares are not quoted by Nasdaq, then the conflicts committee will determine fair market value in good faith.

We have authorized and reserved a total of 100,000 shares for issuance under the plan. If the number of outstanding shares is changed into a different number or kind of shares or securities through a reorganization or merger in which we are the surviving entity, or through a combination, recapitalization or otherwise, we will make an appropriate adjustment in the number and kind of shares that may be issued pursuant to exercise of the options. We will also make a corresponding adjustment to the exercise price of

Table of Contents

Index to Financial Statements

the options granted prior to any change. Any such adjustment, however, will not change the total payment, if any, applicable to the portion of the options not exercised but will change only the exercise price for each share.

Options will lapse on the first to occur of (1) the tenth anniversary of the date we grant them, (2) the removal for cause of the independent director as a member of the board of directors, or (3) three months following the date the independent director ceases to be a director for any reason other than death or disability. Options may be exercised by payment of cash or through the delivery of common stock. Options are generally exercisable in the case of death or disability for a period of one year after death or the disabling event. No option issued may be exercised if such exercise would jeopardize our status as a REIT under the Internal Revenue Code. The independent directors may not sell, pledge, assign or transfer their options other than by will or the laws of descent or distribution.

The term of the plan is 10 years. Upon our earlier dissolution or liquidation, upon our reorganization, merger or consolidation with one or more corporations as a result of which we are not the surviving corporation or upon the sale of all or substantially all of our properties, the plan will terminate, and any outstanding options will terminate and be forfeited. The board of directors may provide in writing in connection with any such transaction for any or all of the following alternatives:

- for the assumption by the successor corporation of the options granted or the replacement of the options with options covering the stock of the successor corporation, or a parent or subsidiary of such corporation, with appropriate adjustments as to the number and kind of shares and exercise prices;
- for the continuance of the plan and the options by such successor corporation under the original terms; or
- for the payment in cash or shares of common stock in lieu of and in complete satisfaction of such options.

Stock Option Plan

We have adopted a Stock Option Plan that is designed to assist Wells Capital and Wells Management obtain or retain the services of employees considered important to our long-range success and the success of Wells Capital and Wells Management by offering such employees an opportunity to participate in our growth through ownership of our common stock.

The conflicts committee of the board of directors conducts the general administration of the plan. The conflicts committee is authorized to grant non-qualified stock options to selected employees of Wells Capital and Wells Management based upon the recommendation of Wells Capital and subject to the absolute discretion of the conflicts committee and applicable limitations of the plan. The exercise price for the options shall be the greater of (1) \$11.00 per share or (2) the fair market value of the shares on the date the option is granted. Fair market value for this plan will be determined in the same manner as the Independent Director Stock Option Plan. A total of 750,000 shares have been authorized and reserved for issuance under our Stock Option Plan. However, we may not grant options at any time when the issuance of the shares underlying the grant, when combined with those issuable upon exercise of outstanding options or warrants granted to our advisor, directors, officers or any of their affiliates, would exceed 10% of our outstanding shares. As of the date of this prospectus, we have not issued any options to purchase shares of common stock under this plan and have no current plans to do so.

Table of Contents

Index to Financial Statements

The conflicts committee shall set the term of the options in its discretion, although no option shall have a term greater than five years. The conflicts committee shall set the period during which the right to exercise an option vests in the holder of the option. No option issued may be exercised, however, if such exercise would jeopardize our status as a REIT under the Internal Revenue Code. In addition, no option may be sold, pledged, assigned or transferred by an option holder in any manner other than by will or the laws of descent or distribution.

In the event that the conflicts committee determines that any dividend or other distribution, recapitalization, stock split, reorganization, merger, liquidation, dissolution, or sale, transfer, exchange or other disposition of all or substantially all of our assets, or other similar corporate transaction or event, affects the shares such that the conflicts committee determines an adjustment to be appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the plan or with respect to an option, then the conflicts committee shall adjust the number and kind of shares or the exercise price with respect to any option. The plan has a 10-year term and has the same provisions as the Independent Director Stock Option Plan with respect to dissolution, liquidation, reorganization, merger or other similar transactions.

Limited Liability and Indemnification of Directors, Officers, Employees and Other Agents

Our charter limits the liability of our directors and officers to us and our stockholders for monetary damages and requires us to indemnify our directors, officers, Wells Capital and its affiliates for losses they may incur by reason of their service in that capacity if all of the following conditions are met:

- the party seeking exculpation or indemnification has determined, in good faith, that the course of conduct that caused the loss or liability was in our best interest;
- the party seeking exculpation or indemnification was acting on our behalf or performing services for us;
- in the case of an independent director, the liability or loss was not the result of gross negligence or willful misconduct by the independent director;
- in the case of a non-independent director, Wells Capital or one of its affiliates, the liability or loss was not the result of negligence or misconduct by the party seeking indemnification or exculpation; and
- the indemnification is recoverable only out of our net assets and not from the stockholders.

The SEC takes the position that indemnification against liabilities arising under the Securities Act of 1933 is against public policy and unenforceable. Furthermore, our charter prohibits the indemnification of our directors, Wells Capital or its affiliates or broker-dealers for liabilities arising from or out of a violation of state or federal securities laws, unless one or more of the following conditions are met:

- there has been a successful adjudication on the merits of each count involving alleged securities law violations;
- such claims have been dismissed with prejudice on the merits by a court of competent jurisdiction; or

Table of Contents

Index to Financial Statements

- a court of competent jurisdiction approves a settlement of the claims against the indemnitee and finds that indemnification of the settlement and the related costs should be made, and the court considering the request for indemnification has been advised of the position of the SEC and of the published position of any state securities regulatory authority in which the securities were offered as to indemnification for violations of securities laws.

Our charter further provides that the advancement of funds to our directors and to Wells Capital and its affiliates for reasonable legal expenses and other costs incurred in advance of the final disposition of a proceeding for which indemnification is being sought is permissible only if all of the following conditions are satisfied:

- the proceeding relates to acts or omissions with respect to the performance of duties or services on our behalf;
