**INFORMATION TO BE INCLUDED IN THE REPORT**

**ITEM 8.01 Other Events.  
Steam Rate Joint Proposal**

Reference is made to Regulatory Matters Rate Agreements Con Edison of New York Steam in Note B to the financial statements of Consolidated Edison, Inc. and Consolidated Edison Company of New York, Inc. (Con Edison of New York) in Item 8 of their combined Annual Report on Form 10-K for the year ended December 31, 2007 for information about Con Edison of New York's November 2007 request to the New York State Public Service Commission (PSC) for a steam rate increase of \$127 million.

On June 16, 2008, Con Edison of New York entered into a Joint Proposal with the PSC staff and other parties with respect to the rates the company can charge its customers for steam service. The Joint Proposal, which is subject to PSC approval, covers the period from October 1, 2008 through September 30, 2010. The Joint Proposal provides for steam rate increases of \$43.7 million effective October 1, 2008 and 2009. The PSC is expected to consider the Joint Proposal in September 2008.

The Joint Proposal reflects the following major items:

an annual return on common equity of 9.3 percent;

any actual earnings above a 10.1 percent return on equity (based on actual average common equity ratio, subject to a 50 percent maximum) are to be shared as follows: half will be deferred for the benefit of customers and the other half is to be retained by the company (with half of the company's share subject to offset to reduce any regulatory assets for under-collections of property taxes);

deferral as a regulatory asset or regulatory liability, as the case may be, of the difference between actual costs for pension and other post-retirement benefits, environmental remediation, property taxes, tax-exempt debt, municipal infrastructure support and certain other costs and amounts for those costs reflected in rates (90 percent of the difference in the case of property taxes and interference costs);

deferral as a regulatory liability of the revenue requirement impact (i.e., return on investment, depreciation and income taxes) of the amount, if any, by which actual steam production plant related capital expenditures are less than amounts reflected in rates;

potential negative earnings adjustment (revenue reductions) of approximately \$950,000 to \$1 million annually if certain business development, customer service and safety performance targets are not met;

amortization of certain regulatory assets and liabilities, the net effect of which will be a non-cash increase in steam revenues of \$20.3 million over the two-year period covered by the Joint Proposal; and

continuation of the rate provisions pursuant to which the company recovers its fuel and purchased steam costs from customers.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, each registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
