PUBLIX SUPER MARKETS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Publix Super Markets, Inc. and subsidiaries (the Company) have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and the rules and regulations of the Securities and Exchange Commission (SEC) for interim financial reporting. Accordingly, the accompanying statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, these statements include all adjustments that are of a normal and recurring nature necessary to present fairly the Company's financial position, results of operations and cash flows. Due to the seasonal nature of the Company's business, the results of operations for the three and six months ended June 27, 2009 are not necessarily indicative of the results for the entire 2009 fiscal year. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 27, 2008.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2) New Accounting Standards

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard (SFAS) 157, Fair Value Measurement, effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. SFAS 157 does not require any new fair value measurements. In February 2008, the FASB issued FASB Staff Position (FSP) FAS 157-2, Effective Dates of FASB Statement No. 157, which deferred the effective date of SFAS 157 for all nonrecurring fair value measurements of nonfinancial assets and liabilities until fiscal years beginning after November 15, 2008. In October 2008, the FASB issued FSP FAS 157-3, Determining the Fair Value of a Financial Asset in a Market That Is Not Active, which clarifies the application of SFAS 157 when the market for a financial asset is inactive. The adoption of SFAS 157 had no effect on the Company's financial condition, results of operations or cash flows.

In April 2009, the FASB issued three FSPs intended to provide additional application guidance and enhance disclosures regarding fair value measurements and impairments of securities, all of which are effective for interim and annual periods ending after June 15, 2009. FSP FAS 157-4, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly, provides guidance for making fair value measurements more consistent with the principles presented in SFAS 157 when the volume and level of activity of an asset or liability have significantly decreased from normal market activity. FSP FAS 107-1 and APB 28-1, Interim Disclosures about Fair Value of Financial Instruments, requires interim reporting of fair value disclosures. FSP FAS 115-2 and FAS 124-2, Recognition and Presentation of Other-Than-Temporary Impairments, provides additional guidance in determining whether a debt security is other-than-temporarily impaired and expands the disclosures of other-than-temporarily impaired debt and equity securities. The adoption of these FSPs had no effect on the Company's financial condition, results of operations or cash flows. Certain 2008 amounts have been reclassified to conform with the 2009 presentation in the condensed consolidated statements of earnings.

PUBLIX SUPER MARKETS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In December 2007, the FASB issued SFAS 141(R), *Business Combinations*, effective for fiscal years beginning after December 15, 2008. SFAS 141(R) changed the accounting treatment for business combinations on a prospective basis. SFAS 141(R) requires that all assets, liabilities, contingent considerations and contingencies of an acquired business be recorded at fair value at the acquisition date. SFAS 141(R) also requires that acquisition costs be expensed as incurred and restructuring costs be expensed in periods after the acquisition date. The Company had no business combinations during the current reporting periods; therefore, the adoption of SFAS 141(R) did not have an effect on the Company's financial condition, results of operations or cash flows.

In December 2007, the FASB issued SFAS 160, *Noncontrolling Interests in Consolidated Financial Statements* an amendment of ARB No. 51, effective for fiscal years beginning after December 15, 2008. SFAS 160 requires the noncontrolling interest in a subsidiary be reported as a separate component of stockholders' equity in the consolidated financial statements. SFAS 160 also requires net income attributable to the noncontrolling interest in a subsidiary be reported separately on the face of the consolidated statements of earnings. Changes in ownership interest are to be accounted for as equity transactions, and when a subsidiary is deconsolidated, any retained noncontrolling equity investment in the former subsidiary is to be measured at fair value with any gain or loss recognized in earnings. The adoption of SFAS 160 did not have a material effect on the Company's financial condition, results of operations or cash flows.

In March 2008, the FASB issued SFAS 161, *Disclosures about Derivative Instruments and Hedging Activities* an amendment of FASB Statement No. 133, effective for fiscal years beginning after November 15, 2008. SFAS 161 requires enhanced disclosures about an entity's derivative and hedging activities under SFAS 133, *Accounting for Derivative Instruments and Hedging Activities*. The Company does not currently have derivatives or enter into hedging activities as defined by SFAS 133; therefore, the adoption of SFAS 161 did not have an effect on the Company's financial condition, results of operations or cash flows.

In May 2009, the FASB issued SFAS 165, *Subsequent Events*, effective for interim and annual periods ending after June 15, 2009. SFAS 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The adoption of SFAS 165 did not have an effect on the Company's financial condition, results of operations or cash flows.

In June 2009, the FASB issued SFAS 167, *Amendments to FASB Interpretation No. 46(R)*, effective for fiscal years beginning after November 15, 2009. SFAS 167 eliminates from FASB Interpretation 46(R), *Consolidation of Variable Interest Entities*, the exceptions to consolidating qualifying special purpose entities, contains new criteria for determining the primary beneficiary, and increases the frequency of required reassessments to determine whether a company is the primary beneficiary of a variable interest entity. The adoption of SFAS 167 is not expected to have a material effect on the Company's financial condition, results of operations or cash flows.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(3) Fair Value of Financial Instruments

The following methods and assumptions were used by the Company in estimating the fair value of its financial instruments:

Cash and cash equivalents: The carrying amount for cash and cash equivalents approximates fair value.

Investment securities: The fair values for debt and equity securities are based on Level 1 and Level 2 market prices as described in Note 4.

The carrying amount of the Company's other financial instruments as of June 27, 2009 and December 27, 2008 approximates their respective fair values. Other investments are accounted for using the equity method. The carrying amount of other investments approximates fair value.

(4) Investments

All of the Company's debt and equity investments are classified as available-for-sale (AFS) and are carried at fair value. The Company evaluates quarterly whether AFS securities are other-than-temporarily impaired (OTTI) based on criteria that include the extent to which cost exceeds market value, the duration of the market decline, the credit rating of the issuer or security, the failure of the issuer to make scheduled principal or interest payments, and the financial health and prospects of the issuer or security.

Declines in the value of AFS securities determined to be OTTI are recognized in earnings and included in other-than-temporary impairment losses. Debt securities with unrealized losses are considered OTTI if the Company intends to sell the security or if the Company will be required to sell the security prior to any anticipated recovery. If the Company determines that a security is OTTI under these circumstances, the impairment recognized in earnings is measured as the difference between the amortized cost and the current fair value. A debt security is also determined to be OTTI if the Company does not expect to recover the amortized cost of the security. However, in this circumstance, if the Company does not intend to sell the security and will not be required to sell the security, the impairment recognized in earnings equals the estimated credit loss as measured by the difference between the present value of expected cash flows and the amortized cost of the security. Expected cash flows are discounted using the security's effective interest rate. An equity security is determined to be OTTI if the Company does not expect to recover the cost of the security. Declines in the value of AFS securities determined to be temporary are reported, net of tax, as other comprehensive earnings (losses) and included as a separate component of stockholders' equity.

Interest and dividend income, amortization of premiums, accretion of discounts and realized gains and losses on AFS securities are included in investment income. Interest income is accrued as earned. Dividend income is recognized as income on the ex-dividend date of the stock. The cost of securities sold is based on the specific identification method.

The Company also holds other investments in joint ventures, partnerships or other equity investments for which evaluation of the existence and quantification of other-than-temporary declines in value may be required. Realized gains and losses on other investments are included in investment income. Declines in the value of other investments determined to be other-than-temporary are included in other-than-temporary impairment losses.
