Subject: Update Following the Annual Meeting

I continue to hear from our customers that we are doing a fantastic job in meeting their needs, including many comments about the role we play as their business partner, not just their supplier. This week we announced a three-year contract extension with Boeing, representing an impressive \$19 million in sales of safety products per year. Last week, we announced a new contract with Hemlock Semiconductor to build an Air Separation Unit in Clarksville, Tennessee – a great win for the Airgas Merchant Gases team and a clear sign that we are strong competitors in the U.S. tonnage and merchant bulk business. Both wins are evidence that the Airgas customer-centric, team-selling approach is a tremendous advantage for us in the marketplace, which is no surprise to me.

As we continue to move forward, I want to provide you with some updates following last week's Annual Meeting of Stockholders.

The Board has named John C. van Roden, Jr. as Chairman. Mr. van Roden has served as an Airgas director since October 2006 and brings over 20 years of experience in strategic and financial management from his senior leadership positions at P.H. Glatfelter, Conectiv and Lukens.

The results of the stockholder vote at our Annual Meeting have now been certified by the independent Inspector of Elections. Accordingly, John P. Clancey, Robert L. Lumpkins and Ted B. Miller, Jr. have joined the Airgas Board.

The Board has unanimously reappointed me to serve as a director.

Although our new directors were originally nominated to stand for election to our Board by Air Products, like all Board members, they have fiduciary duties to all Airgas stockholders. These duties do not allow them to act in Air Products' interests, or in affiliation with Air Products. Our Board looks forward to working with the new directors to protect and enhance value for all Airgas stockholders.

The Inspector of Elections' certified results show that less than 50% of all outstanding shares voted in favor of Air Products' By-Law Amendment proposal to require that a Meeting of Stockholders be held on January 18, 2011. Of the votes cast, a slim majority voted in favor of the proposal, and Air Products contends that only a majority of votes cast were required to pass the proposal. As we've previously communicated, we believe this proposal is invalid under both Delaware law and Airgas' Certificate of Incorporation. We also believe that passage of the proposal required the affirmative vote of 67% (2/3) of the shares entitled to vote, and therefore it has not been approved by stockholders. Airgas has filed suit in the Delaware Chancery Court to invalidate the proposed By-Law Amendment, and court hearings on the matter are scheduled to begin the week of October 4th.

Due to the outcome of the vote, we are no longer committed to calling a Special Meeting of Stockholders in June.

Throughout this process, I have been continually impressed by your steadfast resolve and commitment to serving our customers. Not only does your hard work and dedication to our customers enable Airgas to consistently deliver outstanding financial and operational results, it also positions you to thrive as our business grows. I have never been more proud of our great team of Airgas associates, and I look forward to achieving continued success together.

On a personal level, I would like to thank the many Airgas associates who have sent emails to me expressing their support of our efforts to protect and enhance shareholder value. Your support means a tremendous amount to me and is very much appreciated.

Sincerely,

Peter McCausland

Chief Executive Officer
