Prospectus Supplement

(To Prospectus dated September 30, 2009)

AmerisourceBergen Corporation**\$500,000,000****3.500% Senior Notes due 2021**

We are offering \$500,000,000 aggregate principal amount of 3.500% Senior Notes due 2021 (which we refer to in this prospectus supplement as the "notes"). The notes will bear interest at a rate of 3.500% per year, payable semi-annually in arrears on May 15 and November 15 of each year, beginning on May 15, 2012. The notes will mature on November 15, 2021, unless earlier redeemed or repurchased. The notes will initially be jointly and severally guaranteed on an unsecured basis by certain of our subsidiaries.

The notes will be unsecured and will rank equal in right of payment with all of our other existing and future unsecured and unsubordinated indebtedness and senior to any of our future indebtedness, if any, that expressly provides for its subordination to the notes. The notes will be effectively junior to all of our current and future secured indebtedness and structurally subordinated to all indebtedness and other liabilities, including trade payables, of our subsidiaries that are not guarantors of the notes (we refer to such subsidiaries in this prospectus supplement as the "non-guarantor subsidiaries").

We may redeem the notes in whole or in part at any time at the applicable redemption price set forth in this prospectus supplement, plus accrued and unpaid interest to the redemption date.

If a change of control triggering event (as defined in this prospectus supplement) occurs, we must offer to repurchase the notes at a purchase price equal to 101% of the principal amount of the notes to be purchased, plus accrued and unpaid interest, if any.

Investing in the notes involves risks. See Risk Factors beginning on page S-5 of this prospectus supplement for a discussion of certain risks you should consider prior to deciding whether to purchase the notes.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the securities or determined that this prospectus supplement or the accompanying prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

	Public Offering Price	Underwriting Discount	Proceeds to AmerisourceBergen (Before Expenses)
Per Note	99.858%	0.650%	99.208%
Total	\$ 499,290,000	\$ 3,250,000	\$ 496,040,000

The public offering price set forth above does not include accrued interest, if any. Interest on the notes will accrue from November 14, 2011 and accrued interest must be paid by the purchaser if the notes are delivered after that date.

The notes will not be listed on any securities exchange. Currently, there is no public trading market for the notes.

The underwriters expect to deliver the notes to purchasers in book-entry form only through the facilities of The Depository Trust Company for the accounts of its participants on or about November 14, 2011.

Certain Covenants

The indenture governing the notes contains covenants that, among other things, limit our ability and the ability of our restricted subsidiaries to create liens and enter into sale-leaseback transactions and limit our ability to merge or consolidate with or into another person or to sell, lease or convey all or substantially all of our and our restricted subsidiaries assets, taken as a whole. See Description of Notes Global Securities in this prospectus supplement and Description of Debt Securities Legal Ownership of Debt Securities in the accompanying prospectus.

Trading	The notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on any securities exchange. The underwriters have advised us that they intend to make a market in the notes, but they are not obligated to do so and may discontinue market-making at any time without notice.
Use of Proceeds	We estimate that the net proceeds to us from the sale of the notes will be approximately \$494.5 million (after deducting underwriting discounts and our offering expenses). Table of Contents

RISK FACTORS

Investing in the notes involves risks. Before deciding whether to purchase the notes, you should carefully consider the risks described under Risk Factors in our Annual Report on Form 10-K for the fiscal year ended September 30, 2010, which is incorporated by reference into this prospectus supplement, as well as the risks set forth below. The occurrence of any one or more of these risks could materially and adversely affect our business, condition (financial or otherwise), operating results, prospects and ability to satisfy our payment obligations under the notes. In such case, you could lose all or part of your investment.

The indenture does not restrict the amount of additional indebtedness that we may incur.

The indenture under which the notes will be issued does not place any limitation on the amount of unsecured indebtedness that we may incur. Our incurrence of additional indebtedness may have important consequences for you as a holder of the notes, including making it more difficult for us to satisfy our obligations with respect to the notes, reducing the market price of the notes and causing a risk that the credit rating of the notes will be lowered or withdrawn. If we incur any additional indebtedness that ranks equally with the notes, the holders of that debt will be entitled to share ratably with the holders of the notes in any proceeds distributed in connection with any insolvency, liquidation, reorganization, dissolution or other winding up of our business.

Our credit ratings may not reflect the risks of investing in the notes.

Our credit ratings are an assessment by rating agencies of our ability to pay our debts when due. Consequently, real or anticipated changes in our credit ratings will generally affect the market price of the notes. These credit ratings may not reflect the potential impact of risks relating to structure or marketing of the notes. Agency ratings are not a recommendation to buy, sell or hold any security and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating.

We may be unable to generate the cash flow to service our debt obligations, including the notes.

We cannot assure you that our future cash flow will be sufficient to allow us to meet our payment obligations on our debt, including the notes. Our ability to generate cash flow from operations to make scheduled payments on our debt, including the notes, will depend on our future financial and operating performance, which will be affected by a range of economic, competitive and business factors. We cannot control many of these factors, such as general economic and financial conditions in the pharmaceutical services industry, regulatory developments, downturns in the economy in general or the initiatives of our competitors. Our ability to generate cash flow to meet our payment obligations under our debt, including the notes, may also depend on our successful implementation of our operating and growth strategies. We cannot assure that we will be able to implement our strategies or that the anticipated results of our strategies will be realized. If we do not generate sufficient cash flow to satisfy our obligations under our debt, including the notes, we may have to seek additional capital or undertake alternative financing plans, such as refinancing or restructuring our debt, or selling assets. Any of these actions could result in unanticipated costs, disrupt the implementation of our business or otherwise hinder our performance. Moreover, we may not be able to take any of these actions on commercially reasonable terms, or at all. Our inability to generate sufficient cash flow or to raise additional capital in order to satisfy our obligations under our debt, including the notes, or to refinance them on commercially reasonable terms would have a material adverse effect on our business, condition (financial or otherwise) results of operations and prospects.

The notes and the guarantees will be unsecured and effectively subordinated to our and the applicable guarantor's existing and future secured debt.

Holders of our and each guarantor's secured indebtedness will have claims that are prior to your claims as holders of the notes to the extent of the value of the assets securing the secured indebtedness. The notes and each guarantee will be effectively subordinated to all of our and the applicable guarantor's existing and future secured indebtedness to the extent of the value of the collateral. In the event of any distribution or payment of our or of any of the guarantor's assets in any foreclosure, dissolution, winding-up, liquidation, reorganization or other

Table of Contents

bankruptcy proceeding, holders of secured indebtedness will have prior claim to those of our and the applicable guarantor's assets that constitute their collateral. Holders of the notes will participate ratably with all holders of our and the guarantor's unsecured indebtedness that is deemed to be of the same class as the notes and the applicable guarantee, and potentially with all of our and the applicable guarantor's other general creditors, based upon the respective amounts owed to each holder or creditor, in our and the applicable guarantor's remaining assets. In any of the foregoing events, we cannot assure you that there will be sufficient assets to pay amounts due on the notes. As a result, holders of notes may receive less, ratably, than holders of secured indebtedness. We and our subsidiary guarantors are permitted to borrow significant amounts of secured indebtedness in the future under the terms of the indenture governing the notes.

The notes will be structurally subordinated to all existing and future liabilities of our subsidiaries that do not guarantee the notes.

The notes will be structurally subordinated to all existing and future liabilities, including trade payables, of our subsidiaries that do not guarantee the notes, and the claims of creditors of those subsidiaries, including trade creditors, will have priority as to the assets and cash flows of those subsidiaries. In the event of a bankruptcy, liquidation, dissolution, reorganization or similar proceeding of any of the non-guarantor subsidiaries, holders of their liabilities, including their trade creditors, will generally be entitled to payment on their claims from assets of those subsidiaries before any assets are made available for distribution to us. None of our foreign subsidiaries will guarantee the notes and certain of our domestic subsidiaries will not guarantee the notes. As of September 30, 2011, the notes were structurally subordinated to an aggregate of \$263.8 million of indebtedness and other liabilities, excluding intercompany liabilities but including trade payables, of our non-guarantor subsidiaries. In addition, our subsidiary, AmerisourceBergen Drug Corporation (which will initially be a guarantor of the notes), is a party to a \$700 million receivables securitization facility, pursuant to which accounts receivables are sold on a revolving basis to a special purpose entity that will not guarantee the notes. For the fiscal year ended September 30, 2011, the non-guarantor subsidiaries generated approximately 11.4% of our operating income. As of September 30, 2011, the non-guarantor subsidiaries held approximately 19.9% of our total assets.

If an active public trading market does not develop for the notes, you may be unable to sell your notes or to sell your notes at a price that you deem sufficient.

The notes are a new issue of securities for which there currently is no established trading market. We do not intend to list the notes on a national securities exchange. While the underwriters of the notes have advised us that they intend to make a market in the notes, the underwriters will not be obligated to do so and may stop their market making at any time. No assurance can be given:

as to the development or continuation of any market for the notes;

as to the liquidity of any market that does develop; or

as to your ability to sell your notes or the price at which you may be able to sell your notes.

The absence of an active public trading market could have an adverse effect on the liquidity and value of the notes.

If trading markets do develop, changes in our ratings or the financial markets could adversely affect the market price of the notes.

The market price of the notes will depend on many factors, including, among others, the following:

ratings on our debt securities assigned by rating agencies;

the prevailing interest rates being paid by other companies similar to us;

our business, results of operations, condition (financial or otherwise) and prospects; and

the condition of the financial markets.

S-6

Table of Contents

The condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future, which could have an adverse effect on the market price of the notes. Rating agencies continually review the ratings they have assigned to companies and debt securities. Negative changes in the ratings assigned to us or our debt securities could have an adverse effect on the market price of the notes.

We may not have sufficient funds, or the ability to raise sufficient funds, to satisfy our obligation to offer to repurchase the notes upon a change of control triggering event.

Upon a change of control triggering event, as that term is defined in Description of Notes Offer to Repurchase Upon Change of Control of this prospectus supplement we will be required to make an offer in cash to repurchase all or any part of each holder's notes at a price equal to 101% of the principal thereof, plus accrued interest, if any. The source of funds for any such repurchase would be our available cash or cash generated from operations or other sources, including borrowings, sales of equity or funds provided by a new controlling person or entity. We cannot assure you that sufficient funds will be available at the time of any change of control triggering event to repurchase all tendered notes pursuant to this requirement. Our failure to offer to repurchase notes, or to repurchase notes tendered, following a change of control triggering event will result in a default under the indenture governing the notes, which could lead to a cross-default under our credit facilities and under the terms of our other debt. In addition, prior to repurchasing the notes on a change of control triggering event, we may be required to repay some or all of our outstanding debt under our credit facilities or obtain the consent of the lenders under those facilities. If we do not obtain the required consents or repay our outstanding debt under our credit facilities, we may be prohibited or effectively prohibited from offering to repurchase the notes. See Description of Notes Offer to Repurchase Upon Change of Control in this prospectus supplement.

The guarantees of the notes could be subordinated or voided by a court.

Under the federal bankruptcy law and comparable provisions of state fraudulent transfer laws, a guarantee of the notes could be voided, or claims in respect of a guarantee could be subordinated to all other debts of that guarantor if, among other things, the guarantor, at the time it incurred the debt evidenced by its guarantee:

received less than reasonably equivalent value or fair consideration for the incurrence of such guarantee; and

was insolvent or rendered insolvent by reason of such incurrence; or

was engaged in a business or transaction for which the guarantor's remaining assets constituted unreasonably small capital; or

intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

In such instances, the holders of the notes would cease to have any claim in respect of that guarantee and would be creditors solely of AmerisourceBergen and any remaining guarantors. In addition, any payment by that guarantor pursuant to its guarantee could be voided and required to be returned to the guarantor, or to a fund for the benefit of the creditors of the guarantor.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all of its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

Edgar Filing: AUTOMED TECHNOLOGIES INC - Form 424B5

it could not pay its debts as they become due.

On the basis of historical financial information, recent operating history and other factors, we believe that each guarantor, after giving effect to its guarantee of the notes, will not be insolvent, will not have unreasonably

small capital for the business in which it is engaged and will not have incurred debts beyond its ability to pay such debts as they mature. We cannot assure you, however, as to what standard a court would apply in making these determinations or that a court would agree with our conclusions in this regard.

A court may void the issuance of the notes in circumstances of a fraudulent transfer under federal or state fraudulent transfer laws.

If a court determines the issuance of the notes constituted a fraudulent transfer, the holders of the notes may not receive payment on the notes. Under federal bankruptcy and comparable provisions of state fraudulent transfer laws, if a court were to find that, at the time the notes were issued, AmerisourceBergen:

issued the notes with the intent of hindering, delaying or defrauding current or future creditors; or

received less than fair consideration or reasonably equivalent value for incurring the debt represented by the notes, and either (i) we were insolvent or were rendered insolvent by reason of the issuance of the notes; or (ii) we were engaged, or about to engage, in a business or transaction for which our assets were unreasonably small; or (iii) we intended to incur, or believed, or should have believed, we would incur, debts beyond our ability to pay as such debts mature;

then a court could:

avoid all or a portion of our obligations to the holders of the notes;

subordinate our obligations to the holders of the notes to our obligations with respect to other existing and future debt, the effect of which would be to entitle the other creditors to be paid in full before any payment could be made on the notes; or

take other action harmful to the holders of the notes, including in certain circumstances, invalidating the notes. In any of these events, we could not assure you that the holders of the notes would ever receive payment on the notes.

The measures of insolvency for the purposes of the above will be as described in the risk factor. The guarantees of the notes could be subordinated or voided by a court. We cannot assure you as to what standard a court would apply in order to determine whether we were insolvent as of the date the notes were issued, or that, regardless of the method of valuation, a court would not determine that we were insolvent on that date. Nor can we assure you that a court would not determine, regardless of whether we were insolvent on the date the notes were issued, that the issuance of the notes constituted fraudulent transfers on another ground.

Table of Contents**USE OF PROCEEDS**

We estimate that the net proceeds to us from the sale of the notes will be approximately \$494.5 million (after deducting underwriting discounts and our offering expenses). We intend to use the net proceeds for general corporate purposes. Pending the use of such proceeds, we intend to invest the net proceeds from the sale of the notes in institutional money market funds, U.S. government securities, certificates of deposit or other short-term interest-bearing securities. We cannot predict whether the proceeds will be invested to yield a favorable return.

fixed charges include (a) interest expensed and capitalized, (b) amortized premiums, discounts and capitalized expenses related to indebtedness, and (c) an estimate of the interest within rental expense.

DESCRIPTION OF NOTES

The following description of the particular terms and conditions of the notes supplements, and to the extent inconsistent, replaces the description of the general terms and conditions of the debt securities set forth under "Description of Debt Securities" in the accompanying prospectus. Certain capitalized terms used herein are defined below under the heading "Certain Definitions."

We are issuing the notes as a series of debt securities under an indenture, dated as of November 19, 2009 (such indenture is referred to in this prospectus supplement as the "Base Indenture"), between us and U.S. Bank National Association, as trustee (such trustee is referred to as the "Trustee"), as supplemented by a second supplemental indenture to be dated as of November 14, 2011, between us, each of the Guarantors of the notes and the Trustee (such second supplemental indenture is referred to in this prospectus supplement as the "Supplemental Indenture"). The Base Indenture and the Supplemental Indenture are sometimes referred to collectively in this prospectus supplement as the "indenture."

Our operations are conducted through our subsidiaries. The notes will initially be jointly and severally guaranteed on an unsecured basis by certain of our existing and future Domestic Subsidiaries (other than Blanco, any Receivables Subsidiary and the Designated Non-Guarantors) that have outstanding, or will incur or guarantee other Specified Indebtedness (such guarantees are referred to as the "guarantees"). As of the issue date of the notes, the notes will be guaranteed by each of the subsidiaries that guarantees our 5⁵/₈% Senior Notes due 2012, our 5⁷/₈% Senior Notes due 2015, our 4⁷/₈% Senior Notes due 2019 and our Credit Agreement.

We do not intend to apply for listing or quotation of the notes on any securities exchange or automated quotation system.

Principal, Maturity, and Interest

The notes will initially be issued in an aggregate principal amount of \$500 million. We may, without notice to or the consent of the holders of the notes, re-open this series and issue an unlimited aggregate principal amount of additional notes of this series from time to time. We will issue notes in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

The notes will mature on November 15, 2021, unless redeemed prior to that date, as described under "Optional Redemption." Interest on the notes will accrue at the rate of 3.500% per year. We will pay interest on the notes semi-annually in arrears on May 15 and November 15, beginning on May 15, 2012. We will make each interest payment to the persons who are the registered holders of the notes on the immediately preceding May 1 or November 1, respectively.

Interest on the notes will accrue from the last Interest Payment Date on which interest was paid on the notes or, if no interest has been paid on the notes, from the date of original issue.

Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Ranking

The notes:

will be general unsecured unsubordinated obligations of AmerisourceBergen;

will be equal in right of payment with any future or existing unsecured unsubordinated Indebtedness of AmerisourceBergen;

will be senior in right of payment to future subordinated Indebtedness of AmerisourceBergen, if any, that expressly provides for its subordination to the notes; and

will initially be unconditionally guaranteed by each of the Domestic Subsidiaries of AmerisourceBergen (other than Blanco, any Receivables Subsidiary and the Designated Non-Guarantors) that have outstanding or guarantee Specified Indebtedness. As of the issue

Edgar Filing: AUTOMED TECHNOLOGIES INC - Form 424B5

date of the notes, the notes will be guaranteed by each of the subsidiaries that guarantees our 5⁵/₈% Senior Notes due 2012, our 5⁷/₈% Senior Notes due 2015, our 4⁷/₈% Senior Notes due 2019 and our Credit Agreement.

S-11

Each guarantee:

will be a general unsecured unsubordinated obligation of the applicable guarantor;

will be equal in right of payment to any future unsecured unsubordinated Indebtedness of the applicable guarantor; and

will be senior in right of payment to future subordinated Indebtedness of the applicable guarantor, if any, that expressly provides for its subordination to the applicable guarantee.

However, the notes and the guarantees will be effectively subordinated in right of payment to all future secured debt of AmerisourceBergen and the guarantors and the notes will be effectively subordinated to all obligations of our subsidiaries that do not guarantee the notes. See Risk Factors. The notes and the guarantees will be unsecured and effectively subordinated to our and the guarantors' existing and future secured debt and Risk Factors. The notes will be structurally subordinated to all existing and future liabilities of our subsidiaries that do not guarantee the notes.

As of the issue date of the notes, all of our subsidiaries that guarantee our 5⁵/₈% Senior Notes due 2012, our 5⁷/₈% Senior Notes due 2015, our 4⁷/₈% Senior Notes due 2019 and our Credit Agreement will be Restricted Subsidiaries and will be guarantors. Blanco and the Receivables Subsidiaries established in connection with our accounts receivables securitization facilities and our other Designated Non-Guarantors do not guarantee our 5⁵/₈% Senior Notes due 2012, our 5⁷/₈% Senior Notes due 2015, our 4⁷/₈% Senior Notes due 2019 or our Credit Agreement and will not guarantee the notes. Under the circumstances described below under the subheading Additional Covenants Designation of Restricted and Unrestricted Subsidiaries, we will be permitted to designate certain of our other subsidiaries as Unrestricted Subsidiaries. Our Unrestricted Subsidiaries will not be subject to the restrictive covenants in the indenture and will not guarantee the notes. As of September 30, 2011, our non-guarantor subsidiaries had approximately \$263.8 million of indebtedness and other liabilities (including trade payables), including \$55 million under Blanco's revolving credit facility. In addition, our subsidiary, AmerisourceBergen Drug Corporation (which will initially be a guarantor of the notes), is a party to a \$700 million receivables securitization facility, pursuant to which accounts receivable are sold on a revolving basis to a special purpose entity that will not guarantee the notes. Blanco, our Accounts Receivable Subsidiary and the Designated Non-Guarantors held approximately 11.4% of our assets as of September 30, 2011 and accounted for approximately 19.9% of our operating income for the fiscal year ended September 30, 2011.

Optional Redemption

The notes will be redeemable at our option in whole or in part at any time and from time to time prior to August 15, 2021 (the date that is three months prior to the maturity date of the notes) at a Redemption Price equal to the greater of:

100% of the principal amount of the notes to be redeemed; or

as determined by an Independent Investment Banker, the sum of the present values of the Remaining Scheduled Payments discounted to the Redemption Date on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the Adjusted Treasury Rate.

On and after August 15, 2021 (the date that is three months prior to the maturity date of the notes), the notes will be redeemable at our option in whole or in part at any time and from time to time at a Redemption Price equal to 100% of the principal amount of the notes to be redeemed.

In addition to the Redemption Price, we will pay accrued and unpaid interest on the principal amount of the notes being redeemed to the Redemption Date.

Notice of redemption will be mailed at least 30 days but no more than 60 days before the Redemption Date to each holder of notes to be redeemed, at its registered address. The notice of redemption for the notes will state,

Edgar Filing: AUTOMED TECHNOLOGIES INC - Form 424B5

among other things, the amount of such notes to be redeemed, the Redemption Date, and the place or places that payment will be made upon presentation and surrender of notes to be redeemed. Unless we default in the payment of the Redemption Price, interest will cease to accrue at the redemption date on any notes that have been called for redemption.

Table of Contents

Adjusted Treasury Rate means, with respect to any Redemption Date, the rate per annum equal to the semiannual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such Redemption Date (or, in the case of either defeasance or covenant defeasance to a Redemption Date, for the applicable date of deposit with the Trustee of funds to pay the Redemption Price), plus 25 basis points.

Comparable Treasury Issue means the United States Treasury security selected by an Independent Investment Banker as having a maturity comparable to the remaining term of the notes that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes.

Comparable Treasury Price means, with respect to any Redemption Date, (A) the average of the Reference Treasury Dealer Quotations for such Redemption Date, after excluding the highest and lowest of such Reference Treasury Dealer Quotations or (B) if the Trustee obtains fewer than three such Reference Treasury Dealer Quotations, the average of all such Quotations.

Independent Investment Banker means the Reference Treasury Dealer appointed by the Trustee after consultation with AmerisourceBergen.

Reference Treasury Dealer means each of J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and one other primary U.S. Government securities dealer in New York City (each, a Primary Treasury Dealer) appointed by the Trustee after consultation with AmerisourceBergen and its successors; provided, however, that if J.P. Morgan Securities LLC or Merrill Lynch, Pierce, Fenner & Smith Incorporated shall cease to be a Primary Treasury Dealer, AmerisourceBergen shall substitute therefor another Primary Treasury Dealer.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any Redemption Date, the average as determined by the Trustee, of the bid and asked prices of the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Trustee by such Reference Treasury Dealer at 5:00 p.m. on the third Business Day preceding such Redemption Date (or, in the case of either legal defeasance or covenant defeasance prior to a Redemption Date, for the applicable date of deposit with the Trustee of funds to pay the Redemption Price).

Remaining Scheduled Payments means, with respect to any of the notes to be redeemed, the remaining scheduled payments of the principal thereof and interest thereon that would be due after the related Redemption Date but for such redemption; provided, however, that, if such Redemption Date is not an Interest Payment Date with respect to such notes, the amount of the next succeeding scheduled interest payment thereon will be reduced by the amount of interest accrued thereon to such Redemption Date.

Offer to Repurchase Upon Change of Control

Upon the occurrence of a Change of Control Triggering Event, unless AmerisourceBergen has exercised its right to redeem the notes, the indenture provides that each Holder will have the right to require AmerisourceBergen to purchase all or a portion of such Holder's notes pursuant to the offer described below (the **Change of Control Offer**), at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase, subject to the rights of Holders of notes on the relevant record date to receive interest due on the relevant interest payment date.

Within 30 days following the date upon which the Change of Control Triggering Event occurred, or at AmerisourceBergen's option, prior to any Change of Control but after the public announcement of the pending Change of Control, AmerisourceBergen will be required to send, by first class mail, a notice to each Holder of the notes, with a copy to the Trustee, which notice will govern the terms of the Change of Control Offer. Such notice will state, among other things, the purchase date, which must be no earlier than 30 days nor later than 60 days from the date such notice is mailed, other than as may be required by law (the **Change of Control Payment Date**). The notice, if mailed prior to the date of consummation of the Change of Control, will state that the Change of Control Offer is conditioned on the Change of Control being consummated on or prior to the Change

Table of Contents

of Control Payment Date. Holders of the notes electing to have their notes purchased pursuant to a Change of Control Offer will be required to surrender their notes, with the form entitled "Option of Holder to Elect Purchase" on the reverse completed, to the Paying Agent at the address specified in the notice, or transfer their notes to the Paying Agent by book-entry transfer pursuant to the applicable procedures of the Paying Agent, prior to the close of business on the third Business Day prior to the Change of Control Payment Date.

AmerisourceBergen will not be required to make a Change of Control Offer if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for such an offer made by AmerisourceBergen and such third party purchases all of the notes properly tendered and not withdrawn under its offer.

Change of Control means the occurrence of any of the following:

(a) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the assets of AmerisourceBergen and its Subsidiaries taken as a whole to any person (as that term is used in Section 13(d)(3) of the Exchange Act) other than to AmerisourceBergen or one of its Subsidiaries;

(b) the consummation of any transaction (including without limitation, any merger or consolidation) the result of which is that any person (as that term is used in Section 13(d)(3) of the Exchange Act) becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of the outstanding Voting Stock of AmerisourceBergen, measured by voting power rather than number of shares;

(c) AmerisourceBergen consolidates with, or merges with or into, any Person, or any Person consolidates with, or merges with or into, AmerisourceBergen, in any such event pursuant to a transaction in which any of the outstanding Voting Stock of AmerisourceBergen or such other Person is converted into or exchanged for cash, securities or other property, other than any such transaction where the shares of the Voting Stock of AmerisourceBergen outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the Voting Stock of the surviving Person immediately after giving effect to such transaction;

(d) the first day on which the majority of the members of the Board of Directors of AmerisourceBergen cease to be Continuing Directors; or

(e) the adoption of a plan relating to the liquidation or dissolution of AmerisourceBergen.

Change of Control Triggering Event means the notes cease to be rated Investment Grade by at least two of the three Rating Agencies on any date during the period (the "Trigger Period") commencing 60 days prior to the first public announcement by AmerisourceBergen of any Change of Control (or pending Change of Control) and ending 60 days following consummation of such Change of Control (which Trigger Period will be extended following consummation of a Change of Control for so long as any of the Rating Agencies has publicly announced that it is considering a possible ratings change). Unless at least two of the three Rating Agencies are providing a rating for the notes at the commencement of any Trigger Period, the notes will be deemed to have ceased to be rated Investment Grade by at least two of the three Rating Agencies during that Trigger Period. Notwithstanding the foregoing, no Change of Control Triggering Event will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated.

Fitch means Fitch Inc., a subsidiary of Fimalac, S.A., and its successors.

Investment Grade means a rating of Baa3 or better by Moody's (or its equivalent under any successor rating category of Moody's); a rating of BBB- or better by S&P (or its equivalent under any successor rating category of S&P); and a rating of BBB- or better by Fitch (or its equivalent under any successor rating category of Fitch).

Moody's means Moody's Investors Service, Inc., a subsidiary of Moody's Corporation, and its successors.

Table of Contents

Rating Agency means each of Moody's, S&P and Fitch; provided, that if any of Moody's, S&P and Fitch ceases to provide rating services to issuers or investors, AmerisourceBergen may appoint a replacement for such Rating Agency that is reasonably acceptable to the Trustee under the indenture.

S&P means Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc., and its successors.

Mandatory Redemption; Sinking Fund

Except as set forth above under the heading "Offer to Repurchase Upon Change of Control," no mandatory redemption obligation will be applicable to the notes. The notes will not be subject to, nor have the benefit of, a sinking fund.

Legal Defeasance and Covenant Defeasance; Satisfaction and Discharge

The legal defeasance and covenant defeasance provisions of the indenture and the satisfaction and discharge provisions of the indenture described under "Description of Debt Securities - Satisfaction, Discharge and Covenant Defeasance" in the accompanying prospectus will apply to the notes.

The Guarantees

The notes will be guaranteed by each of AmerisourceBergen's current and future Domestic Subsidiaries (other than Blanco, any Receivables Subsidiary and the Designated Non-Guarantors) that have outstanding, incur or guarantee Specified Indebtedness. As of the issue date of the notes, guarantees will be provided by each of the subsidiaries that guarantees our 5⁵/₈% Senior Notes due 2012, our 5⁷/₈% Senior Notes due 2015, our 4⁷/₈% Senior Notes due 2019 and our Credit Agreement. These guarantees will be joint and several obligations of the Guarantors. The obligations of each Guarantor under its guarantee will be limited as necessary to prevent that guarantee from constituting a fraudulent conveyance under applicable law. See "Risk Factors" - The guarantees of the notes could be subordinated or voided by a court.

A Guarantor may not sell or otherwise dispose of all or substantially all of its assets to, or consolidate with or merge with or into (whether or not such Guarantor is the surviving Person), another Person, whether or not affiliated with such Guarantor, unless:

the Person acquiring the property in any such sale or disposition or the Person formed by or surviving any such consolidation or merger (if other than a Guarantor or AmerisourceBergen) unconditionally assumes all the obligations of such Guarantor under the indenture and its guarantee, pursuant to a joinder to the indenture in form and substance reasonably satisfactory to the Trustee or by operation of law; and

immediately after giving effect to such transaction, no Default or Event of Default exists.

The guarantee of a Guarantor will be released:

in the event of a sale or other disposition of all of the assets of any Guarantor, by way of merger, consolidation or otherwise, or a sale or other disposition of all of the Capital Stock of any Guarantor, in each case to a Person that is not (either before or after giving effect to such transactions) a Subsidiary of AmerisourceBergen if, after giving effect to such transaction, neither the Person acquiring such Capital Stock nor such Guarantor has outstanding or guarantees any Specified Indebtedness;

in the event AmerisourceBergen designates any such Guarantor to be an Unrestricted Subsidiary or Designated Non-Guarantor in accordance with the indenture; or

in the event any Guarantor shall cease (or simultaneously with the release of its guarantee hereunder shall cease) to have outstanding or guarantee any Specified Indebtedness.

Additional Covenants

In addition to the covenants described in the accompanying prospectus, the following additional covenants shall apply to the notes. The provisions described in the accompanying prospectus under the heading Description of Debt Securities Satisfaction, Discharge and Covenant Defeasance relating to covenant defeasance shall apply to these additional covenants.

S-15

Table of Contents

Limitation on Liens

AmerisourceBergen will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, assume or suffer to exist any Lien of any kind securing Indebtedness on any asset now owned or hereafter acquired, except Permitted Liens, unless (a) in the case of AmerisourceBergen, the notes are secured by such Lien equally and ratably with, or prior to, the Indebtedness secured by such Lien or (b) in the case of any Guarantor, such Guarantor's guarantee is secured by such Lien equally and ratably with, or prior to, the Indebtedness secured by such Lien.

Limitation on Sale and Leaseback Transactions

AmerisourceBergen will not, and will not permit any of its Restricted Subsidiaries to, enter into any sale and leaseback transaction; *provided* that AmerisourceBergen or any Guarantor may enter into a sale and leaseback transaction if (i) AmerisourceBergen or such Guarantor, as applicable, could have incurred a Lien to secure such Indebtedness in an amount equal to the Attributable Indebtedness relating to such sale and leaseback transaction pursuant to the provision described above under the subheading *Limitation on Liens* and

(ii) the gross cash proceeds of such sale and leaseback transaction are at least equal to the fair market value (as determined in good faith by AmerisourceBergen's Board of Directors and set forth in an Officers' Certificate delivered to the Trustee) of the property that is the subject of such sale and leaseback transaction.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors of AmerisourceBergen may designate any Restricted Subsidiary to be an Unrestricted Subsidiary if that designation would not cause a Default. The Board of Directors of AmerisourceBergen may redesignate any Unrestricted Subsidiary to be a Restricted Subsidiary if the redesignation would not cause a Default.

Additional Subsidiary Guarantees

Any Domestic Subsidiary of AmerisourceBergen (other than Blanco and any Receivables Subsidiary) which incurs, has outstanding or guarantees any Specified Indebtedness will, simultaneously with such incurrence or guarantee (or, if the Domestic Subsidiary has outstanding or guarantees Specified Indebtedness at the time of its creation or acquisition, at the time of such creation or acquisition), become a Guarantor and execute and deliver to the Trustee a joinder to the indenture pursuant to which such Subsidiary will agree to guarantee AmerisourceBergen's obligations under the notes, except for all Subsidiaries that have properly been designated as Unrestricted Subsidiaries or Designated Non-Guarantors in accordance with the indenture for so long as they continue to constitute Unrestricted Subsidiaries or Designated Non-Guarantors.

Reports

Whether or not required by the SEC, so long as any notes are outstanding, AmerisourceBergen will file a copy of:

all quarterly and annual financial information required to be contained in a filing with the SEC on Forms 10-Q and 10-K; and

all current reports required to be filed with the SEC on Form 8-K; with the SEC for public availability within the time periods specified in the SEC's rules and regulations (unless the SEC will not accept such a filing) and make such information available to securities analysts and prospective investors upon request.

Additional Events of Default

In addition to the Events of Default described in the accompanying prospectus under the heading *Description Of Debt Securities* *Events of Default*, each of the following is an Event of Default with respect to the notes:

default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by AmerisourceBergen or any of its Restricted Subsidiaries (or the payment of which is guaranteed by AmerisourceBergen or any of its Subsidiaries), whether such Indebtedness or guarantee now exists, or is created after the issue date of the notes, if that default:

(1) is caused by the failure to pay principal of, or interest or premium, if any, on such Indebtedness prior to the expiration of the grace period provided in such Indebtedness on the date of such default (a Payment Default), or

(2) results in the actual acceleration of such Indebtedness prior to its express maturity, and, in each case, the principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated, aggregates \$50.0 million or more;

a final judgment or final judgments for the payment of money are entered by a court or courts of competent jurisdiction against AmerisourceBergen or any of its Significant Subsidiaries or any group of Subsidiaries that, taken as a whole, would constitute a Significant Subsidiary and such judgment or judgments remain undischarged for a period (during which execution shall not be effectively stayed pending appeal (or otherwise stayed)) of 60 days, provided that the aggregate of all such undischarged judgments exceeds \$50.0 million (net of any amount covered by insurance); or

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a summary of the material U.S. federal income tax consequences relating to the purchase, ownership and disposition of the notes, but does not purport to be a complete analysis of all the potential tax considerations relating thereto. This summary is based upon the provisions of the Internal Revenue Code of 1986, as amended (which we refer to in this prospectus supplement as the *Code*), U.S. Treasury regulations promulgated thereunder (which we refer to in this prospectus supplement as *Treasury Regulations*), judicial decisions, published positions of the Internal Revenue Service (which we refer to in this prospectus supplement as *IRS*) and other applicable authorities, all as of the date hereof. These authorities may be changed, possibly with retroactive effect, so as to result in U.S. federal income tax consequences different from those set forth below. We have not sought any ruling from the IRS with respect to the statements made and the conclusions reached in the following summary, and there can be no assurance that the IRS will agree with such statements and conclusions or that such statements and conclusions, if challenged by the IRS, will be sustained by a court.

This summary is limited to holders who purchase the notes upon their initial issuance at their initial issue price (which will equal the first price at which a substantial amount of notes is sold to the public for cash) and who hold the notes as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment). This summary does not address the effect of the alternative minimum tax, U.S. federal estate or gift tax laws or the tax considerations arising under the laws of any foreign, state or local jurisdiction. In addition, this discussion does not address tax considerations applicable to an investor's particular circumstances or to investors that may be subject to special tax rules, including, without limitation:

banks, insurance companies, or other financial institutions;

holders subject to the alternative minimum tax;

tax-exempt organizations;

dealers in securities or commodities;

traders in securities that elect to use a mark-to-market method of accounting for their securities holdings;

S corporations, partnerships or other pass-through entities;

expatriates and certain former citizens or long-term residents of the United States;

U.S. holders (as defined below) whose functional currency is not the U.S. Dollar;

persons who hold the notes as a position in a hedging transaction, straddle, conversion transaction or other risk reduction transaction; or

persons deemed to sell the notes under the constructive sale provisions of the Code.

If a partnership or other pass-through entity for U.S. federal income tax purposes is a beneficial owner of a note, the treatment of a partner in the partnership or member in such other entity generally will depend on the status of the partner or member and the activities of the partnership or such other entity. Partnerships or other pass-through entities, and partners in such partnerships or members in such other entities, should consult their tax advisors about the U.S. federal income tax consequences of purchasing, owning and disposing of the notes.

THIS SUMMARY OF CERTAIN MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES IS FOR GENERAL INFORMATION ONLY AND IS NOT TAX ADVICE. YOU ARE URGED TO CONSULT YOUR TAX ADVISOR WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO YOUR PARTICULAR SITUATION IN CONNECTION WITH THE PURCHASE, OWNERSHIP AND DISPOSITION OF THE NOTES AS WELL AS ANY TAX CONSEQUENCES ARISING UNDER THE FEDERAL ESTATE OR GIFT TAX RULES OR UNDER THE LAWS OF ANY STATE, LOCAL, FOREIGN OR OTHER TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY.

Consequences to U.S. holders

The following is a summary of certain material U.S. federal income tax consequences that will apply to you if you are a U.S. holder of the notes. Certain consequences to non-U.S. holders of the notes are

S-28

Table of Contents

described under Consequences to non-U.S. holders below. For purposes of this discussion, U.S. holder means a beneficial owner of a note that is:

an individual citizen or resident of the United States;

a corporation or other entity taxable as a corporation for U.S. federal income tax purposes created or organized in the United States or under the laws of the United States, any state thereof, or the District of Columbia;

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust that (1) is subject to the primary supervision of a U.S. court and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

Payments of interest on the notes

U.S. holders generally will be required to recognize any stated interest as ordinary income at the time it is paid or accrued on the notes in accordance with such U.S. holder's method of accounting for U.S. federal income tax purposes.

Additional payments

As described under the heading Description of Notes Offer to Repurchase Upon Change of Control, we may be required to pay you an amount in excess of stated interest and principal in certain circumstances. We intend to take the position that the notes should not be treated as contingent payment debt instruments because of this additional payment. This position is based in part on assumptions regarding the possibility, as of the date of issuance of the notes, that such additional amount will be paid. Assuming such position is respected, you would likely treat any such payment paid to you in connection with a repurchase or redemption as described below in Consequences to U.S. holders Sale, exchange, redemption or other taxable disposition of the notes. Our position is binding on you, unless you explicitly disclose to the IRS on your tax return for the year during which you acquire the notes that you are taking a different position. However, the IRS may take a contrary position from that described above, which could affect the timing and character of your income on the notes. You should consult your tax advisors regarding the application of the contingent payment debt instrument rules to the notes. The remainder of this discussion assumes that the notes are not treated as contingent payment debt instruments.

Sale, exchange, redemption or other taxable disposition of the notes

Upon the sale, exchange, redemption or other taxable disposition of a note, a U.S. holder generally will recognize capital gain or loss equal to the difference, if any, between (i) the sum of cash plus the fair market value of all other property received on such disposition (except to the extent such cash or property is attributable to accrued but unpaid interest not previously included in income, which generally will be taxable as ordinary income) and (ii) the U.S. holder's tax basis in the note. Your tax basis in a note generally will equal the cost of the note. Such capital gain or loss will be long-term capital gain or loss if, at the time of such disposition, you have held the note for more than one year. Long-term capital gains recognized by certain non-corporate U.S. holders, including individuals, will generally be subject to a reduced tax rate. The deductibility of capital losses is subject to limitations.

Recent legislation relating to Medicare tax on investment income

Beginning in 2013, U.S. Holders that are individuals, estates or trusts that do not fall into a special class of trusts that is exempt from such tax will be subject to a 3.8% tax on the lesser of (1) the U.S. holder's net investment income (in the case of individuals) or undistributed net investment income (in the case of estates and trusts) for the relevant taxable year and (2) the excess of the U.S. holder's modified adjusted gross income (in the case of individuals) or adjusted gross income (in the case of estates and trusts) for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual's circumstances) (the Medicare Tax). For this purpose, net investment income generally includes the interest paid on the notes, as well as gain from the sale of the notes, unless such interest or gain is derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain

Table of Contents

passive or trading activities). U.S. holders that are individuals, estates or trusts should consult their own tax advisors regarding the applicability of the Medicare Tax to their income and gains in respect of their investment in the notes.

Backup withholding and information reporting

We are required to furnish to the record holders of the notes, other than corporations and other exempt holders, and to the IRS, information with respect to interest paid on the notes.

You may be subject to backup withholding with respect to interest paid on the notes or with respect to proceeds received from a disposition of the notes. Certain holders (including, among others, corporations and certain tax-exempt organizations) generally are not subject to backup withholding. You will be subject to backup withholding if you are not otherwise exempt and you (i) fail to furnish your taxpayer identification number (which we refer to in this prospectus supplement as TIN), which, for an individual, is ordinarily his or her social security number; (ii) furnish an incorrect TIN; (iii) are notified by the IRS that you have failed to properly report payments of interest or dividends; or (iv) fail to certify, under penalties of perjury, that you have furnished a correct TIN and that the IRS has not notified you that you are subject to backup withholding. Backup withholding is not an additional tax but, rather, is a method of tax collection. You generally will be entitled to credit any amounts withheld under the backup withholding rules against your U.S. federal income tax liability provided that the required information is furnished to the IRS in a timely manner.

Consequences to non-U.S. holders

The following is a summary of certain material U.S. federal income tax consequences that will apply to you if you are a non-U.S. holder of the notes. For purposes of this discussion, a non-U.S. holder means a beneficial owner of a note that is not a U.S. holder.

Payments of interest on the notes

Generally, subject to the discussion of backup withholding below, if you are a non-U.S. holder, interest income paid on a note that is not effectively connected with a U.S. trade or business will not be subject to a U.S. withholding tax under the portfolio interest exemption, provided that the non-U.S. holder:

does not own, actually or constructively, 10% or more of the total combined voting power of all classes of our stock entitled to vote;

is not a controlled foreign corporation with respect to which we are, directly or indirectly, a related person ;

is not a bank receiving interest pursuant to a loan agreement entered into in the ordinary course of its trade or business; and

provides its name and address, and certifies, under penalties of perjury, that it is not a U.S. person (which certification may be made on an IRS Form W-8BEN (or successor form)), or holds its notes through certain foreign intermediaries and the non-U.S. holder and the foreign intermediaries satisfy the certification requirements of applicable Treasury Regulations.

If you cannot satisfy the requirements described above, you will be subject to the 30% U.S. federal withholding tax with respect to payments of interest on the notes, unless you provide us with a properly executed (1) IRS Form W-8BEN (or successor form) claiming an exemption from or reduction in withholding under the benefit of an applicable U.S. income tax treaty or (2) IRS Form W-8ECI (or successor form) stating that the interest is not subject to withholding tax because it is effectively connected with the conduct of a U.S. trade or business. Except to the extent otherwise provided under an applicable income tax treaty, if you are engaged in a trade or business in the United States and interest on a note is effectively connected with your conduct of that trade or business, you will be subject to U.S. federal income tax on that interest on a net income basis (although you will be exempt from the 30% withholding tax, provided the certification requirements described above are satisfied) in the same manner as if you were a United States person as defined under the Code. In addition, if you are a foreign corporation, you may be subject to a branch profits tax equal to 30% (or lower rate as may be prescribed under an applicable U.S. income tax treaty) of your earnings and profits for the taxable year, subject to adjustments, that are effectively connected with your conduct of a trade or business in the United States.

Table of Contents

Additional payments

As described under the heading **Description of Notes Offer to Repurchase Upon Change of Control**, we may be required to pay an amount in excess of stated interest and principal in certain circumstances. We intend to treat any such amount paid to a non-U.S. holder pursuant to any such repurchase or redemption as an additional amount paid for the notes, subject to the rules described below in **Consequences to non-U.S. holders Sale, exchange, redemption or other taxable disposition of the notes**.

Sale, exchange, redemption or other taxable disposition of the notes

Subject to the discussion below regarding backup withholding, any gain realized by a non-U.S. holder on the sale, exchange, redemption or other disposition of a note (except with respect to accrued and unpaid interest, which would be taxable as described above) generally will not be subject to U.S. federal income tax unless:

the gain is effectively connected with your conduct of a trade or business in the United States; or

you are an individual who is present in the United States for 183 days or more in the taxable year of sale, exchange or other disposition, and certain conditions are met.

If your gain is described in the first bullet point above, you generally will be subject to U.S. federal income tax on the net gain derived from the sale. If you are a corporation, then you may also be required to pay a branch profits tax at a 30% rate (or such lower rate as may be prescribed under an applicable U.S. income tax treaty) on any such effectively connected gain. If you are an individual described in the second bullet point above, you will be subject to a flat 30% U.S. federal income tax on the gain derived from the sale, which may be offset by U.S. source capital losses, even though you are not considered a resident of the United States. You should consult any applicable income tax treaties that may provide for different rules. In addition, you are urged to consult your tax advisors regarding the tax consequences of the acquisition, ownership and disposition of the notes.

Backup withholding and information reporting

If you are a non-U.S. holder, in general, you will not be subject to backup withholding and information reporting with respect to payments that we make to you provided that we do not have actual knowledge or reason to know that you are a U.S. person and you have given us the statement described above under

Consequences to non-U.S. holders Payments of interest on the notes. In addition, you will not be subject to backup withholding or information reporting with respect to the proceeds of the sale of a note within the United States or conducted through certain U.S.-related financial intermediaries, if the payor receives the statement described above and does not have actual knowledge or reason to know that you are a U.S. person, as defined under the Code, or you otherwise establish an exemption. However, we will be required to report annually to the IRS and to you the amount of, and the tax withheld with respect to, any interest paid to you, regardless of whether any tax was actually withheld. Copies of these information returns may also be made available under the provisions of a specific treaty or agreement to the tax authorities of the country in which you reside.

You generally will be entitled to credit any amounts withheld under the backup withholding rules against your U.S. federal income tax liability provided that the required information is furnished to the IRS in a timely manner.

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters have agreed to purchase all of the notes if any of them are purchased.

The underwriters initially propose to offer the notes to the public at the public offering price that appears on the cover page of this prospectus supplement. The underwriters may offer the notes to selected dealers at the public offering price minus a concession of up to 0.400% of the principal amount of the notes. In addition, the underwriters may allow, and those selected dealers may reallow, a concession of up to 0.250 % of the principal amount of the notes to certain other dealers. After the initial offering, the underwriters may change the public offering price and any other selling terms. The underwriters may offer and sell notes through certain of their affiliates. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

The following table shows the underwriting discounts to be paid to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

	Paid by us
Per Note	0.650%

In the underwriting agreement, we have agreed that:

We will not offer or sell any of our debt securities (other than the notes) from the date of this prospectus supplement through and including the date of settlement without the prior consent of the representatives.

In addition to the underwriting discount discussed above, we will pay our expenses related to the offering, which we estimate will be \$1.5 million.

We will indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or contribute to payments that the underwriters may be required to make in respect of those liabilities.

Edgar Filing: AUTOMED TECHNOLOGIES INC - Form 424B5

The notes are a new issue of securities, and there is currently no established trading market for the notes. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system. The underwriters have advised us that they intend to make a market in the notes, but they are not obligated to do so. The underwriters may discontinue any market making in the notes at any time

S-32

Table of Contents

at their sole discretion. Accordingly, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices that you receive when you sell will be favorable.

In connection with the offering of the notes, the underwriters may engage in overallotment, stabilizing transactions and syndicate covering transactions in accordance with Regulation M under the Securities Exchange Act of 1934. Overallotment involves sales in excess of the offering size, which creates a short position for the underwriters. Stabilizing transactions involve bids to purchase the notes in the open market for the purpose of pegging, fixing or maintaining the price of the notes. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the notes to be higher than it would otherwise be in the absence of those transactions. If the underwriters engage in stabilizing or syndicate covering transactions, they may discontinue them at any time.

Certain of the underwriters and their affiliates have in the past provided, and may in the future provide, investment banking, commercial banking, derivative transactions and financial advisory services to us and our affiliates in the ordinary course of business for which they have received and may continue to receive customary fees and commissions. Specifically, affiliates of the underwriters serve various roles in our Multi-Currency Revolving Credit Facility; JPMorgan Chase Bank, N.A., an affiliate of J.P. Morgan Securities LLC, serves as administrative agent and a lender, and Bank of America, N.A., an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, and Wells Fargo Bank, N.A., an affiliate of Wells Fargo Securities, LLC, serve as syndication agents and lenders. J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wells Fargo Securities, LLC serve as lead arrangers and joint bookrunners of our Multi-Currency Revolving Credit Facility. As of November 4, 2011, there were approximately \$36.8 million in borrowings outstanding and \$10.4 million in letters of credit issued under our Multi-Currency Revolving Credit Facility. In addition, affiliates of the underwriters serve various roles in connection with a \$700 million receivables securitization facility to which our subsidiary, AmerisourceBergen Drug Corporation (which initially will be a guarantor of the notes) is a party and pursuant to which accounts receivables are sold on a revolving basis to a special purpose entity that will not guarantee the notes: Bank of America, N.A., an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, serves as administrator and a purchaser under the program and Wells Fargo Bank, N.A., an affiliate of Wells Fargo Securities, LLC, serves as a purchaser under the program. Certain of the other underwriters or their affiliates also serve as lenders or purchasers under these facilities.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

RISK FACTORS

Investing in our securities involves risks. Before investing in our securities, you should carefully consider the specific risks set forth under the caption "Risk Factors" in our filings with the Securities and Exchange Commission (which we refer to as the "SEC") that are incorporated by reference into this prospectus and under the caption "Risk Factors" in any accompanying prospectus supplement or free writing prospectus that we deliver to you. You should also carefully consider all other information contained in or incorporated by reference into this prospectus or in any accompanying prospectus supplement or free writing prospectus that we deliver to you. A discussion of the documents incorporated by reference into this prospectus is set forth below under the heading "Documents Incorporated by Reference."

ABOUT THIS PROSPECTUS

This document is called a prospectus and is part of a registration statement on Form S-3 that we filed with the SEC using a "shelf" registration process. Under this shelf process, we may offer and sell, from time to time in one or more offerings, the securities described in this prospectus. This prospectus provides you with a general description of the securities we may offer and the general manner in which these securities may be offered. Each time we sell securities under this prospectus, we will provide you with a prospectus supplement that will contain specific information about the terms of that offering and the offered securities. That prospectus supplement may also supplement, update or amend information contained in or incorporated by reference into this prospectus.

The registration statement of which this prospectus is a part contains additional information about us and the securities we may offer by this prospectus. Specifically, we have filed and incorporated by reference certain legal documents that control the terms of the securities offered by this prospectus as exhibits to the registration statement. We will file and/or incorporate by reference certain other legal documents that will control the terms of the securities we may offer by this prospectus as exhibits to the registration statement or to reports we file with the SEC that are incorporated by reference into this prospectus.

In addition, we may prepare and deliver one or more "free writing prospectuses" to you in connection with any offering of securities under this prospectus. Any such free writing prospectus may contain additional information about us, our business, the offered securities, the manner in which such securities are being offered, our intended use of the proceeds from the sale of such securities, risks relating to our business or an investment in such securities or other information.

This prospectus and certain of the documents incorporated by reference into this prospectus contain, and any accompanying prospectus supplement or free writing prospectus that we deliver to you may contain, summaries of information contained in documents that we have filed or will file as exhibits to our SEC filings. Such summaries do not purport to be complete and are subject to, and qualified in their entirety by reference to, the actual documents filed with the SEC.

Copies of the registration statement of which this prospectus is a part and of the documents incorporated by reference into this prospectus may be obtained as described below under the heading "Documents Incorporated by Reference" and under the heading "Where You Can Find More Information."

You should not assume that the information contained in this prospectus, the registration statement to which this prospectus is a part, any accompanying prospectus supplement or any free writing prospectus that we deliver to you is accurate as of any date other than the date of such documents or that the information incorporated by reference into this prospectus is accurate as of any date other than the date of the document incorporated by reference. Our business, operating results, financial condition, capital resources and prospects may have changed since that date.

You should rely only on the information contained in or incorporated by reference into this prospectus, the registration statement of which this prospectus is a part, any accompanying prospectus supplement, and any free writing prospectus that we deliver to you. We have not authorized anyone to provide you with different information. If you receive any other information, you should not rely on it.

Except as may be provided in a certificate of designations for a series of preferred stock, the holders of common stock have the exclusive right to vote for the election of directors and for all other purposes as provided by law and do not have cumulative voting rights.

Subject to the preferences that may be applicable to any then outstanding shares of preferred stock, holders of common stock are entitled to receive ratably on a per share basis such dividends and other distributions in cash, stock or property of AmerisourceBergen as may be declared by the board of directors from time to time out of the legally available assets or funds of AmerisourceBergen. As of the date of this prospectus, no shares of preferred stock are outstanding but our board of directors has authorized the issuance of 3,000,000 shares of preferred stock designated as Series A Preferred Stock under our stockholder rights plan, which is described below under the heading "Stockholder Rights Plan."

Unless otherwise set forth in the applicable certificate of designations for such series of preferred stock:

Table of Contents

Upon our voluntary or involuntary liquidation, dissolution or winding up, holders of each series of preferred stock will be entitled to receive the amount fixed for such series plus, in the case of any series on which dividends will have been determined by the board of directors to be cumulative, an amount equal to all dividends accumulated and unpaid to the date of final distribution whether or not earned or declared (subject to any cap set forth in the applicable certificate of designations for such series of preferred stock) before any distribution shall be paid, or set aside for payment, to holders of our common stock;

At the option of our board of directors, we may redeem all or part of the shares of any series of preferred stock on such terms and conditions fixed in the applicable certificate of designations for such series of preferred stock;

Any other specific terms, preferences, limitations or restrictions.

Certain Anti-Takeover Provisions of Our Certificate Incorporation, Bylaws, Stockholder Rights Plan and Delaware Law

The following is a summary of certain provisions of our certificate of incorporation, bylaws, stockholder rights plan and the DGCL that may have the effect of delaying, deterring or preventing hostile takeovers or changes in control or management of AmerisourceBergen. Such provisions could deprive our stockholders of opportunities to realize a premium on their stock. At the same time, these provisions may have the

Edgar Filing: AUTOMED TECHNOLOGIES INC - Form 424B5

effect of inducing any persons seeking to acquire or control us to negotiate terms acceptable to our board of directors. Throughout the summary we have included parenthetical references to sections of our certificate of incorporation and bylaws to help you locate the provisions being discussed.

Undesignated Preferred Stock

Our certificate of incorporation authorizes our board of directors to issue shares of preferred stock and set the voting powers, designations, preferences, and other rights related to that preferred stock without stockholder approval. Any such designation and issuance of shares of preferred stock could delay, defer or prevent any attempt to acquire or control us. (Section 4.03)

Table of Contents

Classified Board of Directors

Our certificate of incorporation provides for our board of directors to be divided into three classes, as nearly equal in size as possible, with one class being elected annually to serve a term of three years, until their successors are duly elected and qualified. As a result, at least two annual meetings of stockholders may be required for our stockholders to change a majority of our board of directors. The classification of our directors will make it more difficult to change the composition of our board of directors and will promote the continuity of existing management. (Section 5.03)

Removal of Directors and Vacancies on the Board of Directors

Our certificate of incorporation and our bylaws provide that a director may not be removed except for cause and with the affirmative vote of 80% of our stockholders. Our certificate of incorporation and our bylaws also provide that, subject to any rights of holders of our preferred stock, any vacancies in our board of directors for any reason will be filled only by a majority of our directors remaining in office, and directors so elected will hold office until the next election for their class of directors. The inability of our stockholders to remove directors without cause and without the affirmative vote of at least 80% of our stockholders entitled to vote for the board of directors or to fill vacancies on the board of directors will make it more difficult to change the composition of our board of directors and will promote the continuity of existing management. (Sections 5.05 and 5.06 of our certification of incorporation and Sections 3.13 and 3.14 of our bylaws)

No Cumulative Voting

Our certificate of incorporation and bylaws do not provide for cumulative voting. Accordingly, the holders of a majority of the shares of common stock entitled to vote in any election of directors may elect all of the directors standing for election.

No Stockholder Action by Written Consent

Our certificate of incorporation and our bylaws provide that our stockholders may not act by written consent which may require our stockholders to wait for a regularly scheduled annual meeting to change the composition of our board of directors. (Section 6.03 of our certificate of incorporation and Section 2.10 of our bylaws)

Ability to Call Special Meeting of Stockholders

Our certificate of incorporation and our bylaws provide that special meetings of stockholders may be called at any time by our board of directors pursuant to a resolution duly adopted by a majority of the members of our board of directors and that the ability of our stockholders to call a special meeting of stockholders is specifically denied. The inability of our stockholders to call a special meeting may require our stockholders to wait for a regularly scheduled annual meeting to change the composition of our board of directors. (Section 6.03 of our certificate of incorporation and Section 2.02 of our bylaws)

Advance Notification of Stockholder Nominations and Proposals

Our certificate of incorporation and our bylaws provide that in order for nominations of directors or other business to be properly brought before an annual meeting by our stockholders, the stockholders must give notice to us not less than 60 days nor more than 90 days prior to the anniversary of our previous annual meeting of stockholders. The notice must contain specific information regarding the nominee for director, or other business to be addressed, as well as information regarding the stockholder who is proposing the nomination. (Section 6.04 of our certificate of incorporation and Section 2.03 of our bylaws)

Super-Majority Approval Required for Certain Amendments to Certificate of Incorporation

Our certificate of incorporation provides that the provisions of our certificate of incorporation concerning undesignated preferred stock, the classified board, the removal of directors, vacancies on the board of directors, stockholder action by written consent, ability to call special meetings of stockholders, advance notice of director

Table of Contents

nominations and stockholder proposals, the election to by the Company to be subject to the restrictions on business combinations under Section 203 of the DGCL and amendments to the certificate of incorporation require the affirmative vote of 80% of the voting power of all the shares of our stock then entitled to vote generally in the election of directors in order to be amended, altered, or repealed, unless such amendment is declared advisable by the affirmative vote of at least 75% of the entire board of directors. (Section 11.02)

Amendments to Bylaws

Our certificate of incorporation and our bylaws provide that our board of directors is expressly authorized to make, alter, amend or repeal the bylaws without the assent or vote of our stockholders. Our certificate of incorporation and our bylaws also provide that our stockholders may, at any annual or special meeting, make, alter, amend or repeal the bylaws by the affirmative vote of the holders of not less than 80% of the stock entitled to vote generally in the election of directors. (Section 11.01 of our certificate of incorporation and Section 9.01 of our bylaws)

Business Combinations under Delaware Law

We are a Delaware corporation. Section 203 of the DGCL prohibits a Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder. The term business combination is broadly defined to include mergers, consolidations, sales and other dispositions of assets having an aggregate market value equal to 10% or more of the consolidated assets of the corporation, and other specified transactions resulting in financial benefits to the interested stockholder. Under Section 203, an interested stockholder generally is defined as a person who, together with affiliates and associates, owns (or within the three prior years did own) 15% or more of the corporation's outstanding voting stock.

This prohibition is effective unless:

the business combination or the transaction that resulted in the interested stockholder becoming an interested stockholder is approved by the corporation's board of directors prior to the time the interested stockholder becomes an interested stockholder;

upon consummation of the transaction that resulted in the interested stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation, other than stock held by directors who are also officers or by specified employee stock plans; or

at or after the time the stockholder becomes an interested stockholder, the business combination is approved by a majority of the board of directors and, at an annual or special meeting, by the affirmative vote of two-thirds of the outstanding voting stock that is not owned by the interested stockholder.

These restrictions generally prohibit or delay the accomplishment of mergers or other takeover or change-in-control attempts that are not approved by a company's board of directors. A corporation can elect to have Section 203 of the DGCL not apply to it by expressly providing so in its certificate of incorporation or bylaws; we have not made such an election. (Section 9.01)

Stockholder Rights Plan

Our stockholder rights plan is designed to protect and maximize the value of our outstanding common stock in the event of an unsolicited attempt to acquire us in a manner or on terms not approved by our board of directors and that prevents our stockholders from realizing the full value of their shares of common stock. Under our stockholder rights plan, one right to purchase our Series A Preferred Stock attached to each outstanding share of our common stock as of the date the stockholder rights plan was adopted. As a result of subsequent stock splits, one quarter of a right to purchase our Series A Preferred Stock is attached to each outstanding share of our common stock. Until they become exercisable, the rights trade together with our common stock. Although the rights are not intended to prevent a takeover of us, they have anti-takeover effects. Once the rights have become exercisable, in most cases the rights will cause substantial dilution to a person that attempts to acquire or merge with us. Accordingly, the existence of our stockholder rights plan may deter potential acquirors from making a

Table of Contents

takeover proposal or a tender offer. Our stockholder rights plan should not interfere with any merger or other business combination approved by our board of directors since we may redeem the rights. Set forth below is a summary of certain material provisions of our stockholder rights plan.

Exercisability of Rights. Under our stockholder rights plan, one quarter of a right attaches to each share of our common stock outstanding and, when exercisable, one right entitles the registered holder to purchase from us one one-hundredth of a share of our Series A Preferred Stock at an initial purchase price of \$275, subject to customary antidilution adjustments.

The rights will not become exercisable until the earlier of:

10 business days following a public announcement that a person has become the beneficial owner of 15% or more of our common stock then outstanding; and

10 business days, or such later date as may be determined by our board of directors, following the commencement of a tender offer or exchange offer that would result in a person becoming the beneficial owner of 15% or more of our common stock then outstanding.

Series A Preferred Stock. In connection with the creation of the rights, our board of directors authorized the issuance of 3,000,000 shares of our preferred stock designated as Series A Preferred Stock.

We have designed the dividend, liquidation, voting and redemption features of our Series A Preferred Stock so that the value of one one-hundredth of a share of our Series A Preferred Stock approximates the value of one share of our common stock. Shares of our Series A Preferred Stock may only be purchased after the rights have become exercisable.

Flip In Feature. In the event a person becomes the beneficial owner of 15% or more of our common stock then outstanding, each holder of one right, except for such acquiring person, will have the right to acquire, upon exercise of the right, instead of one one-hundredth of a share of our Series A Preferred Stock, shares of our Series A Preferred Stock having a value equal to twice the then current purchase price of each one one-hundredth share of our Series A Preferred Stock. For example, if we assume that the initial purchase price of \$275 is in effect on the date that the flip-in feature of the rights is triggered, any holder of a right, except for the person that has become the beneficial owner of 15% or more of our common stock then outstanding, may exercise his or her right by paying to us \$275 in order to receive from us shares of our Series A Preferred Stock having a value equal to \$550.

Flip Over Feature. In the event that following a public announcement a person has become the beneficial owner of 15% or more of our common stock then outstanding:

we merge into another entity,

another entity merges into us, or

we sell more than 50% of our assets or earning power,

then each holder of a right, except for such person that is the beneficial owner of 15% or more of our common stock then outstanding, may have the right to receive, upon exercise of the right, the number of shares of the acquiring company's capital stock with the greatest voting power having a value equal to twice the then current purchase price of each one one-hundredth share of our Series A Preferred Stock.

Exchange Feature. At any time after a person becomes the beneficial owner of 15% or more, but, in certain circumstances, less than 50%, of our common stock then outstanding, our board of directors may, at its option, exchange all or part of the rights, except for those held by such acquiring person, for our common stock at an exchange ratio of one one-hundredth of a share of AmerisourceBergen common stock for each right, subject to adjustment, and cash instead of fractional shares, if any. Use of this exchange feature means that eligible rights holders will not have to pay a purchase price before receiving shares of our Series A Preferred Stock.

Redemption of Rights. At any time prior to the earlier to occur of:

10 business days following a public announcement that a person has become the beneficial owner of 15% or more of our common stock then outstanding, or

our board of directors may redeem all of the rights at a redemption price of \$0.01 per right, subject to adjustment. The right to exercise the rights will terminate upon redemption, and at that time, the holders of the rights will have the right to receive only the redemption price for each right they hold.

Amendment of Rights. At any time prior to the earlier to occur of:

10 business days following a public announcement that a person has become the beneficial owner of 15% or more of our common stock then outstanding; and

10 business days, or such later date as may be determined by our board of directors, following the commencement of a tender offer or exchange offer that would result in a person becoming the beneficial owner of 15% or more of our common stock then outstanding, the terms of our stockholder rights plan may be amended by our board of directors without the approval of the holders of the rights. However, after the earlier to occur of the two time periods above, the stockholder rights plan may not be amended in any manner that would adversely affect the interests of the holders of the rights, excluding the interests of the acquiror.

Termination of Rights. If not previously exercised, the rights will expire on August 27, 2011 unless we earlier redeem or exchange the rights or accelerate or extend the expiration date as provided in the stockholder rights plan.

Limitation of Personal Liability of Directors and Officers

Our certificate of incorporation provides that our directors are entitled to the benefits of all limitations on the liability of directors that are now or hereafter become available under the DGCL. The DGCL authorizes corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties. The DGCL does not permit exculpation for liability:

for any breach of the director's duty of loyalty to us or our stockholders,

for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law,

under section 174 of the Delaware law, which pertains, among other things, to liability for the unlawful payment of dividends, or

for any transaction from which the director derived an improper personal benefit. (Section 7.01)

In addition, our certificate of incorporation provides that we will indemnify any person who is or was a director or officer of ours, or is or was serving at our request as a director, officer or trustee of another corporation, trust or other enterprise, with respect to actions taken or omitted by such person in any capacity in which such person serves us or such other corporation, trust or other enterprise, to the full extent authorized or permitted by law, as now or hereafter in effect, and such right to indemnification will continue as to a person who has ceased to be a director, officer or trustee, as the case may be, and will inure to the benefit of such person's heirs, executors and personal and legal representatives. (Section 7.02)

In addition, our certificate of incorporation provides that a corporation may advance to a director or officer expenses incurred in defending any action upon receipt of an undertaking by the director or officer to repay the amount advanced if it is ultimately determined that he or she is not entitled to indemnification. (Section 7.03)

The limitation of liability, indemnification and advancement of expenses provisions in our certificate of incorporation may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit us and our

stockholders. In addition, your investment may be adversely affected to the extent we pay the costs of settlement and damage awards against directors and officers in accordance with these indemnification provisions.

DESCRIPTION OF DEBT SECURITIES

The debt securities will be issued under an indenture between us and U.S. Bank National Association, as trustee, or any other trustee named in the applicable prospectus supplement. We have filed a form of the indenture with the SEC as an exhibit to the registration statement of which this prospectus forms a part. The following summary of certain general terms and provisions of the indenture is not complete and is qualified in its entirety by reference to the indenture. Throughout the summary we have included parenthetical references to the indenture sections to help you locate the provisions being discussed. The indenture is subject to and governed by the Trust Indenture Act of 1939, as amended.

When we offer to sell a particular series of debt securities, we will describe the specific terms for the securities in a prospectus supplement. The prospectus supplement will also indicate whether the general terms and provisions described in this prospectus apply to a particular series of debt securities. Accordingly, for a description of the terms of a particular series of debt securities, reference must be made to both the prospectus supplement relating thereto and to the following summary.

As used in this section of the prospectus, references to holders mean those who own debt securities registered in their own names on the books that we or the trustee maintain for this purpose, and not those who own beneficial interests in debt securities registered in street name or in debt securities issued in book-entry form through one or more depositories. Owners of beneficial interests in the debt securities should read the section below entitled Legal Ownership of Debt Securities.

General

The indenture provides that we may issue unsecured senior or subordinated debt securities from time to time in one or more series, with different terms. The senior debt securities will constitute unsecured and unsubordinated obligations of ours and will rank pari passu with our other unsecured and unsubordinated obligations. The subordinated debt securities will constitute our unsecured and subordinated obligations and will be junior in right of payment to our senior indebtedness (including senior debt securities), as described below under the heading Subordinated Debt. Because the debt securities (both senior and subordinated) will be our unsecured obligations, our secured debt and other secured obligations will be effectively senior to the debt securities to the extent of the value of the assets securing such debt or other obligations.

We conduct most of our operations through subsidiaries. Consequently, our ability to pay our obligations, including our obligation to pay principal or interest on the debt securities, to pay the debt securities at maturity or upon redemption or to buy the debt securities may depend on our subsidiaries repaying investments and advances we have made to them, and on our subsidiaries' earnings and their distributing those earnings to us. The debt securities will be effectively subordinated to all obligations (including trade payables and preferred stock obligations) of our subsidiaries. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due on the debt securities or to make funds available to us to do so. Our subsidiaries' ability to pay dividends or make other payments or advances to us will depend on their

Table of Contents

operating results and will be subject to applicable laws and contractual restrictions. The indenture does not limit our subsidiaries' ability to enter into other agreements that prohibit or restrict dividends or other payments or advances to us.

The indenture does not limit the amount of debt securities that we may issue. We have the right, from time to time, to issue debt securities of any series previously issued. (Section 3.01)

The prospectus supplement will describe the terms of any debt securities being offered, including:

classification as senior or subordinated debt securities;

ranking of the specific series of debt securities relative to other outstanding indebtedness, including subsidiaries' debt;

if the debt securities are subordinated, the aggregate amount of outstanding indebtedness, as of a recent date, that is senior to the subordinated securities, and any limitation on the issuance of additional senior indebtedness;

the designation, aggregate principal amount and authorized denominations;

the maturity date;

the interest rate, if any, and the method for calculating the interest rate;

the interest payment dates and the record dates for the interest payments;

any mandatory or optional redemption terms or prepayment, conversion, sinking fund or exchangeability or convertibility provisions;

the place where we will pay principal and interest;

if other than denominations of \$1,000 or multiples of \$1,000, the denominations the debt securities will be issued in;

whether the debt securities will be issued in the form of global securities or certificates;

the inapplicability of and additional provisions, if any, relating to the defeasance of the debt securities;

the currency or currencies, if other than the currency of the United States, in which principal and interest will be paid;

any material United States federal income tax consequences;

the dates on which premium, if any, will be paid;

our right, if any, to defer payment of interest and the maximum length of this deferral period;

any listing on a securities exchange;

the initial public offering price; and

other specific terms, including any additional events of default or covenants. (Section 3.01)

Subordinated Debt

Subordinated debt securities will be subordinate and junior in right of payment, to the extent and in the manner set forth in the indenture, to all of our senior indebtedness. The indenture defines senior indebtedness as all obligations or indebtedness of, or guaranteed or assumed by, us for borrowed money whether or not represented by bonds, debentures, notes or other similar instruments, and amendments, renewals, extensions, modifications and refundings of any such indebtedness or obligation, in each case, whether outstanding on the date hereof or the date the subordinated debt securities are issued or created, incurred, or thereafter guaranteed or assumed. Senior indebtedness does not include the subordinated debt securities or any other obligations specifically designated as being subordinate in right of payment to senior indebtedness. (Section 13.01).

In general, the holders of all senior indebtedness are first entitled to receive payment of the full amount unpaid on senior indebtedness before the holders of any of the subordinated debt securities are entitled to receive

Table of Contents

a payment on account of the principal or interest on the indebtedness evidenced by the subordinated debt securities in certain events. (Section 13.01) These events include:

any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization or other similar proceedings which concern us or a substantial part of our property;

a default having occurred for the payment of principal, premium, if any, or interest on or other monetary amounts due and payable on any senior indebtedness or any other default having occurred concerning any senior indebtedness, which permits the holder or holders of any senior indebtedness to accelerate the maturity of any senior indebtedness with notice or lapse of time, or both. Such an event of default must have continued beyond the period of grace, if any, provided for such event of default, and such an event of default shall not have been cured or waived or shall not have ceased to exist; or

the principal of, and accrued interest on, any series of the subordinated debt securities having been declared due and payable upon an event of default pursuant to section 5.02 of the indenture. This declaration must not have been rescinded and annulled as provided in the indenture. (Sections 13.02, 13.03, 13.04, and 13.05)

Because the subordinated debt securities will be our unsecured obligations, our secured debt and other secured obligations will also be effectively senior to the subordinated debt securities to the extent of the value of the assets securing such debt or other obligations.

Events of Default

When we use the term **Event of Default** in the indenture with respect to the debt securities of any series, here are some examples of what we mean:

(1) default in paying interest on the debt securities when it becomes due and the default continues for a period of 30 days or more;

(2) default in paying principal, or premium, if any, on the debt securities when due;

(3) default is made in the payment of any sinking or purchase fund or analogous obligation when the same becomes due, and such default continues for 30 days or more;

(4) default in the performance, or breach, of any covenant in the indenture (other than defaults specified in clause (1), (2) or (3) above) and the default or breach continues for a period of 90 days or more after we receive written notice from the trustee or we and the trustee receive notice from the holders of at least 51% in aggregate principal amount of the outstanding debt securities of the series;

(5) certain events of bankruptcy, insolvency, reorganization, administration or similar proceedings with respect to AmerisourceBergen Corporation has occurred; or

(6) any other Events of Default set forth in the prospectus supplement. (Section 5.01)

If an Event of Default (other than an Event of Default specified in clause (5)) under the indenture occurs with respect to the debt securities of any series and is continuing, then the trustee or the holders of at least 51% in principal amount of the outstanding debt securities of that series may by written notice require us to repay immediately the entire principal amount of the outstanding debt securities of that series (or such lesser amount as may be provided in the terms of the securities), together with all accrued and unpaid interest and premium, if any. (Section 5.02) If an Event of Default under the indenture specified in clause (5) occurs and is continuing, then the entire principal amount of the outstanding debt securities (or such lesser amount as may be provided in the terms of the securities) will automatically become due and payable immediately without any declaration or other act on the part of the trustee or any holder. (Section 5.02)

After a declaration of acceleration, the holders of a majority in principal amount of outstanding debt securities of any series may rescind this accelerated payment requirement if all existing Events of Default, except for nonpayment of the principal and interest on the debt securities of that series that has become due solely as a result of the accelerated payment requirement, have been cured or waived and if the rescission of acceleration

Table of Contents

would not conflict with any judgment or decree. (Section 5.02) The holders of a majority in principal amount of the outstanding debt securities of any series also have the right to waive past defaults, except a default in paying principal or interest on any outstanding debt security, or in respect of a covenant or a provision that cannot be modified or amended without the consent of all holders of the debt securities of that series. (Section 5.13)

Holders of at least 51% in principal amount of the outstanding debt securities of a series may seek to institute a proceeding only after they have notified the trustee of a continuing Event of Default in writing and made a written request, and offered reasonable indemnity, to the trustee to institute a proceeding and the trustee has failed to do so within 60 days after it received this notice. In addition, within this 60-day period the trustee must not have received directions inconsistent with this written request by holders of a majority in principal amount of the outstanding debt securities of that series. (Section 5.07) These limitations do not apply, however, to a suit instituted by a holder of a debt security for the enforcement of the payment of principal, interest or any premium on or after the due dates for such payment. (Section 5.08)

During the existence of an Event of Default, the trustee is required to exercise the rights and powers vested in it under the indenture and use the same degree of care and skill in its exercise as a prudent man would under the circumstances in the conduct of that person's own affairs. (Section 6.01) If an Event of Default has occurred and is continuing, the trustee is not under any obligation to exercise any of its rights or powers at the request or direction of any of the holders unless the holders have offered to the trustee reasonable security or indemnity. (Section 5.07) Subject to certain provisions, the holders of a majority in principal amount of the outstanding debt securities of any series have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust, or power conferred on the trustee. (Section 5.12)

The trustee will, within 90 days after any default occurs, give notice of the default to the holders of the debt securities of that series, unless the default was already cured or waived. Unless there is a default in paying principal, interest or any premium when due, the trustee can withhold giving notice to the holders if it determines in good faith that the withholding of notice is in the interest of the holders. (Section 6.02)

Modification and Waiver

The indenture may be amended or modified without the consent of any holder of debt securities in order to:

evidence a succession of the trustee;

cure ambiguities, defects or inconsistencies;

provide for the assumption of our obligations in the case of a merger or consolidation or transfer of all or substantially all of our assets;

make any change that would provide any additional rights or benefits to the holders of the debt securities of a series;

add guarantors with respect to the debt securities of any series;

secure the debt securities of a series;

establish the form or forms of debt securities of any series;

maintain the qualification of the indenture under the Trust Indenture Act; or

Edgar Filing: AUTOMED TECHNOLOGIES INC - Form 424B5

make any change that does not adversely affect in any material respect the interests of any holder. (Section 9.01)
Other amendments and modifications of the indenture or the debt securities issued may be made with the consent of the holders of not less than a majority of the aggregate principal amount of the outstanding debt securities of each series affected by the amendment or modification. However, no modification or amendment may, without the consent of the holder of each outstanding debt security affected:

reduce the principal amount, or extend the fixed maturity, of the debt securities;

alter or waive the redemption provisions of the debt securities;

Table of Contents

change the currency in which principal, any premium or interest is paid;

reduce the percentage in principal amount outstanding of debt securities of any series which must consent to an amendment, supplement or waiver or consent to take any action;

impair the right to institute suit for the enforcement of any payment on the debt securities;

waive a payment default with respect to the debt securities or any guarantor;

reduce the interest rate or extend the time for payment of interest on the debt securities;

adversely affect the ranking of the debt securities of any series; or

release any guarantor from any of its obligations under its guarantee or the indenture, except in compliance with the terms of the indenture. (Section 9.02)

Consolidation, Merger or Sale of Assets

The indenture provides that we may consolidate or merge with or into, or convey or transfer all or substantially all of our assets to, any entity (including, without limitation, a limited partnership or a limited liability company); *provided* that:

we will be the surviving corporation or, if not, that the successor will be a corporation that is organized and validly existing under the laws of any state of the United States of America or the District of Columbia and will expressly assume by a supplemental indenture our obligations under the indenture and the debt securities;

immediately after giving effect to such transaction, no Event of Default, and no default or other event which, after notice or lapse of time, or both, would become an Event of Default, will have happened and be continuing; and

we will have delivered to the trustee an opinion of counsel, stating that such consolidation, merger, conveyance or transfer complies with the indenture. (Section 8.01)

In the event of any such consolidation, merger, conveyance, transfer or lease, any such successor will succeed to and be substituted for us as obligor on the debt securities with the same effect as if it had been named in the indenture as obligor. (Section 8.02)

No Restrictive Covenants; No Protection in the Event of a Change of Control

Unless otherwise indicated in a prospectus supplement applicable to a particular series of debt securities, the indenture will not contain any restrictive covenants, including covenants restricting either us or our subsidiaries from:

entering into one or more additional indentures providing for the issuance of debt securities;

Edgar Filing: AUTOMED TECHNOLOGIES INC - Form 424B5

from incurring, assuming, or becoming liable with respect to any indebtedness or other obligation, whether secured or unsecured;

from entering into sale and leaseback transactions;

from paying dividends or making other distributions on our respective capital stock; or

from purchasing or redeeming our respective capital stock.

Also, unless otherwise indicated in a prospectus supplement applicable to a particular series of debt securities, the indenture will not contain any financial ratios or specified levels of net worth or liquidity to which either we or our subsidiaries must adhere or contain any provision that would require us to repurchase, redeem, or otherwise modify the terms of any of the debt securities upon a change in control or other event involving us that may adversely affect our creditworthiness or the value of the debt securities.

Table of Contents

Satisfaction, Discharge and Covenant Defeasance

We may terminate our obligations under the indenture, when:

either:

all debt securities of any series issued that have been authenticated and delivered have been delivered to the trustee for cancellation; or

all the debt securities of any series issued that have not been delivered to the trustee for cancellation have become due and payable, will become due and payable within one year, or are to be called for redemption within one year and we have made arrangements satisfactory to the trustee for the giving of notice of redemption by such trustee in our name and at our expense, and in each case, we have irrevocably deposited or caused to be deposited with the trustee sufficient funds to pay and discharge the entire indebtedness on the series of debt securities to pay principal, interest and any premium; and

we have paid or caused to be paid all other sums then due and payable under the indenture; and

we have delivered to the trustee an officers' certificate and an opinion of counsel, each stating that all conditions precedent under the indenture relating to the satisfaction and discharge of the indenture have been complied with. (Section 4.01)

We may elect to have our obligations under the indenture discharged with respect to the outstanding debt securities of any series ("legal defeasance"). Legal defeasance means that we will be deemed to have paid and discharged the entire indebtedness represented by the outstanding debt securities of such series under the indenture, except for:

the rights of holders of the debt securities to receive principal, interest and any premium when due;

our obligations with respect to the debt securities concerning issuing temporary debt securities, registration of transfer of debt securities, mutilated, destroyed, lost or stolen debt securities and the maintenance of an office or agency for payment for security payments held in trust;

the rights, powers, trusts, duties and immunities of the trustee; and

the defeasance provisions of the indenture. (Section 4.01)

In addition, we may elect to have our obligations released with respect to certain covenants in the indenture ("covenant defeasance"). Any omission to comply with these obligations will not constitute a default or an Event of Default with respect to the debt securities of any series. In the event covenant defeasance occurs, certain events, not including non-payment, bankruptcy and insolvency events, described under "Events of Default" above will no longer constitute an Event of Default for that series. (Section 4.03)

In order to exercise either legal defeasance or covenant defeasance with respect to outstanding debt securities of any series:

we must irrevocably have deposited or caused to be deposited with the trustee as trust funds for the purpose of making the following payments, specifically pledged as security for, and dedicated solely to the benefits of the holders of the debt securities of a series:

money in an amount;

U.S. government obligations (or equivalent government obligations in the case of debt securities denominated in other than U.S. dollars or a specified currency) that will provide, not later than one day before the due date of any payment, money in an amount; or

a combination of money and U.S. government obligations (or equivalent government obligations, as applicable), in each case sufficient, in the written opinion (with respect to U.S. or equivalent government obligations or a combination of money and U.S. or equivalent government obligations, as applicable) of a nationally recognized

Table of Contents

firm of independent registered public accountants to pay and discharge, and which shall be applied by the trustee to pay and discharge, all of the principal (including mandatory sinking fund payments), interest and any premium at due date or maturity;

in the case of legal defeasance, we have delivered to the trustee an opinion of counsel stating that, under then applicable federal income tax law, the holders of the debt securities of that series will not recognize income, gain or loss for federal income tax purposes as a result of the deposit, defeasance and discharge to be effected and will be subject to the same federal income tax as would be the case if the deposit, defeasance and discharge did not occur;

in the case of covenant defeasance, we have delivered to the trustee an opinion of counsel to the effect that the holders of the debt securities of that series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the deposit and covenant defeasance to be effected and will be subject to the same federal income tax as would be the case if the deposit and covenant defeasance did not occur;

no Event of Default or default with respect to the outstanding debt securities of that series has occurred and is continuing at the time of such deposit after giving effect to the deposit or, in the case of legal defeasance, no default relating to bankruptcy or insolvency has occurred and is continuing at any time on or before the 91st day after the date of such deposit, it being understood that this condition is not deemed satisfied until after the 91st day;

the legal defeasance or covenant defeasance will not cause the trustee to have a conflicting interest within the meaning of the Trust Indenture Act, assuming all debt securities of a series were in default within the meaning of such Act;

the legal defeasance or covenant defeasance will not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which we are a party;

the legal defeasance or covenant defeasance will not result in the trust arising from such deposit constituting an investment company within the meaning of the Investment Company Act of 1940, as amended, unless the trust is registered under such act or exempt from registration; and

we have delivered to the trustee an officers' certificate and an opinion of counsel stating that all conditions precedent with respect to the defeasance or covenant defeasance have been complied with. (Sections 4.01 and 4.02)

Governing Law

Unless otherwise stated in the prospectus supplement, the debt securities and the indentures will be governed by New York law. (Section 1.12)

No Personal Liability of Directors, Officers, Stockholders or Employees

The indenture provides that there will be no recourse against any of our incorporators, stockholders, directors, officers or employees, past, present or future, for the payment of the principal of, premium, if any, or the interest, if any, on any securities of any series authenticated and delivered from time to time under the indenture, or for any claim based on such securities, or upon any obligation, covenant or agreement of the indenture. The indenture also provides that all such securities are solely corporate obligations, and that no personal liability attaches or will attach to any such incorporator, stockholder, director, officer or employee because of the incurring of the indebtedness authorized under the indenture. Each holder, as a condition of, and as part of the consideration for, the execution of the indenture and the issuance of such debt securities, waives and releases all such personal liability.

Transfer and Exchange

The debt securities may be presented for exchange, and debt securities other than a global security may be presented for registration of transfer, at the principal corporate trust office or agency of the trustee. Holders will not have to pay any service charge for any registration of transfer or exchange of debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with such registration of transfer or exchange of debt securities. (Section 3.05)

Legal Ownership of Debt Securities

Unless the prospectus supplement specifies otherwise, we will issue debt securities initially in the form of a global security. However, we may elect to issue debt securities in fully registered form. We refer to those who have debt securities registered in their own names on the books that we or our agent maintain for this purpose as the holders of those debt securities. These persons are the legal holders of the debt securities. We refer to those who, indirectly through others, own beneficial interests in debt securities that are not registered in their own names as indirect holders of those debt securities. As we discuss below, indirect holders are not legal holders, and investors in debt securities issued in book-entry form or in street name will be indirect holders.

Book-Entry Holders

If we issue debt securities in global i.e., book-entry form, the debt securities will be represented by one or more global securities registered in the name of a financial institution that holds them as depositary on behalf of other financial institutions that participate in the depositary's book-entry system. These participating institutions, in turn, hold beneficial interests in the debt securities on behalf of themselves or their customers.

For registered debt securities, only the person in whose name a debt security is registered is recognized under the indenture as the holder of that debt security. (Section 3.08) Debt securities issued in global form will be issued in the form of a global security registered in the name of the depositary or its nominees. Consequently, for debt securities issued in global form, we will recognize only the depositary as the holder of the debt securities and we will make all payments on the debt securities to the depositary. The depositary passes along the payments it receives to its participants, which in turn pass the payments along to their customers who are the beneficial owners. The depositary and its participants do so under agreements they have made with one another or with their customers; they are not obligated to do so under the terms of the debt securities.

As a result, investors in a book-entry security will not own debt securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depositary's book-entry system or holds an interest through a participant. As long as the debt securities are issued in global form, investors will be indirect holders, and not holders, of the debt securities.

In the future, we may terminate a global security under the circumstances specified below under the heading *What Is a Global Security? Special Situations When a Global Security Will Be Terminated* or issue debt securities initially in non-global form. In these cases, investors may choose to hold their debt securities in their own names or in street name. Debt securities held by an investor in street name would be registered in the name of a bank, broker or other financial institution that the investor chooses, and the investor would hold only a beneficial interest in those debt securities through an account he or she maintains at that institution.

For debt securities held in street name, we will recognize only the intermediary banks, brokers and other financial institutions in whose names the debt securities are registered as the holders of those debt securities and we will make all payments on those debt securities to them. These institutions pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold debt securities in street name will be indirect holders, not holders, of those debt securities.

Legal Holders

Our obligations, as well as the obligations of the trustee and those of any third parties employed by us or the trustee, run only to the legal holders of the debt securities. We do not have obligations to investors who hold

Table of Contents

beneficial interests in global securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect holder of a debt security or has no choice because we are issuing the debt securities only in global form.

For example, once we make a payment or give a notice to the holder, we have no further responsibility for the payment or notice even if that holder is required, under agreements with depositary participants or customers or by law, to pass it along to the indirect holders but does not do so. Similarly, if we want to obtain the approval of the holders for any purpose e.g., to amend the applicable indenture or to relieve us of the consequences of a default or of our obligation to comply with a particular provision of the applicable indenture we would seek approval only from the holders, and not the indirect holders, of the debt securities. Whether and how the holders contact the indirect holders is up to the holders.

When we refer below to you, we mean those who invest in the debt securities being offered by this prospectus, whether they are the holders or only indirect holders of those debt securities. When we refer to your debt securities, we mean the debt securities in which you hold a direct or indirect interest.

Special Considerations for Indirect Holders

If you hold debt securities through a bank, broker or other financial institution, either in book-entry form or in street name, you should check with your own institution to find out:

how it handles securities payments and notices;

whether it imposes fees or charges;

how it would handle a request for the holders' consent, if ever required;

whether and how you can instruct it to send you debt securities registered in your own name so you can be a holder, if that is permitted in the future;

how it would exercise rights under the debt securities if there were a default or other event triggering the need for holders to act to protect their interests; and

if the debt securities are in book-entry form, how the depositary's rules and procedures will affect these matters.

What Is a Global Security?

A global security is a security that represents one or more debt securities and is held by a depositary. Generally, all debt securities represented by the same global securities will have the same terms.

Each debt security issued in book-entry form will be represented by a global security that we deposit with and register in the name of a financial institution that we select or its nominees. The financial institution that we select for this purpose is called the depositary.

A global security may not be transferred to or registered in the name of anyone other than the depositary, its nominee or a successor depositary, unless special termination situations arise. We describe those situations below under the heading *Special Situations When a Global Security Will Be Terminated*. As a result of these arrangements, the depositary, or its nominee, will be the sole registered owner and holder of all debt securities represented by a global security, and investors will be permitted to own only beneficial interests in a global security. Beneficial interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depositary or with another institution that does. Thus, an investor whose security is represented by a global security will not be a holder of the debt security, but only an indirect holder of a beneficial interest in the global security.

Edgar Filing: AUTOMED TECHNOLOGIES INC - Form 424B5

If the prospectus supplement for a particular debt security indicates that the debt security will be issued in global form only, then the debt security will be represented by a global security at all times unless and until the global security is terminated. We describe the situations in which this can occur below under the heading

Table of Contents

Special Situations When a Global Security Will Be Terminated. If termination occurs, we may issue the debt securities through another book-entry clearing system or decide that the debt securities may no longer be held through any book-entry clearing system.

Special Considerations for Global Securities

As an indirect holder, an investor's rights relating to a global security will be governed by the account rules of the investor's financial institution and of the depository, as well as general laws relating to securities transfers. We do not recognize this type of investor as a holder of debt securities and instead deal only with the depository that holds the global security.

If debt securities are issued only in the form of a global security, an investor should be aware of the following:

An investor cannot cause the debt securities to be registered in his or her name, and cannot obtain non-global certificates for his or her interest in the debt securities, except in the special situations we describe below;

An investor will be an indirect holder and must look to his or her own bank or broker for payments on the debt securities and protection of his or her legal rights relating to the debt securities, as we describe under the heading "Legal Ownership of Debt Securities" above;

An investor may not be able to sell interests in the debt securities to some insurance companies and to other institutions that are required by law to own their securities in non-book-entry form;

An investor may not be able to pledge his or her interest in a global security in circumstances where certificates representing the debt securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective;

The depository's policies, which may change from time to time, will govern payments, transfers, exchanges and other matters relating to an investor's interest in a global security. We and the trustee have no responsibility for any aspect of the depository's actions or for its records of ownership interests in a global security. We and the trustee also do not supervise the depository in any way;

The depository may require that those who purchase and sell interests in a global security within its book-entry system use immediately available funds and your broker or bank may require you to do so as well; and

Financial institutions that participate in the depository's book-entry system, and through which an investor holds its interest in a global security, may also have their own policies affecting payments, notices and other matters relating to the debt securities. There may be more than one financial intermediary in the chain of ownership for an investor. We do not monitor and are not responsible for the actions of any of those intermediaries.

Special Situations When a Global Security Will Be Terminated

In a few special situations described below, the global security will terminate and interests in it will be exchanged for physical certificates representing those interests. After that exchange, the choice of whether to hold securities directly or in street name will be up to the investor. Investors must consult their own bank or brokers to find out how to have their interests in securities transferred to their own name, so that they will be direct holders. We have described the rights of holders and street name investors above under the heading "Legal Ownership of Debt Securities."

Table of Contents

The global security will terminate when the following special situations occur:

if the depositary notifies us that it is unwilling, unable or no longer permitted under applicable law to continue as depositary for that global security and we do not appoint another institution to act as depositary within 90 days; or

if we notify the trustee that we wish to terminate that global security.

The prospectus supplement may also list additional situations for terminating a global security that would apply only to the particular series of securities covered by the prospectus supplement. When a global security terminates, the depositary and not we or the trustee is responsible for deciding the names of the institutions that will be the initial direct holders.

DESCRIPTION OF DEPOSITARY SHARES

The following summary of certain provisions of the depositary shares is not complete and is subject to, and qualified in its entirety by reference to, the provisions of the depositary agreement and related depositary receipts that will be filed with the SEC in connection with the offering of such depositary shares. You should refer to the provisions of the applicable depositary agreement and related depositary receipt and applicable prospectus supplement for more specific information about the depositary shares we may offer. If any particular terms of the depositary agreements and related depositary receipts described in the applicable prospectus supplement differ from any of the terms described herein, then the terms described herein will be deemed superseded by that prospectus supplement.

General

We may offer fractional shares of preferred stock, rather than full shares of preferred stock. If we decide to offer fractional shares of our preferred stock, we will issue receipts for depositary shares. Each depositary share will represent a fraction of a share of a particular series of our preferred stock, and the applicable prospectus supplement will indicate that fraction. The shares of preferred stock represented by depositary shares will be deposited under a deposit agreement between us and a depositary that is a bank or trust company that meets certain requirements and is selected by us. The depositary will be specified in the applicable prospectus supplement. Each owner of a depositary share will be entitled to all of the rights and preferences of the preferred stock represented by the depositary share. The depositary shares will be evidenced by depositary receipts issued pursuant to the deposit agreement. Depositary receipts will be distributed to those persons purchasing the fractional shares of our preferred stock in accordance with the terms of the offering.

Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions received by it in respect of the preferred stock to the record holders of depositary shares relating to such preferred shares in proportion to the numbers of depositary shares held on the relevant record date.

In the event of a distribution other than in cash, the depositary will distribute securities or property received by it to the record holders of depositary shares in proportion to the numbers of depositary shares held on the relevant record date, unless the depositary determines that it is not feasible to make such distribution. In that case, the depositary may make the distribution by such method as it deems equitable and practicable. One such possible method is for the depositary to sell the securities or property and then distribute the net proceeds from the sale as provided in the case of a cash distribution.

Redemption of Depositary Shares

Whenever we redeem the preferred stock, the depositary will redeem a number of depositary shares representing the same number of shares of preferred stock so redeemed. If fewer than all of the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by lot, pro rata or by any other equitable method as the depositary may determine.

Voting of Underlying Shares

Upon receipt of notice of any meeting at which the holders of our preferred stock of any series are entitled to vote, the depositary will mail the information contained in the notice of the meeting to the record holders of the depositary shares relating to that series of preferred stock. Each record holder of the depositary shares on the record date will be entitled to instruct the depositary as to the exercise of the voting rights represented by the number of shares of preferred stock underlying the holder's depositary shares. The depositary will endeavor, to the extent it is practical to do so, to vote the number of whole shares of preferred stock underlying such depositary shares in accordance with such instructions. We will agree to take all action that the depositary may deem reasonably necessary in order to enable the depositary to do so. To the extent the depositary does not receive specific instructions from the holders of depositary shares relating to such preferred shares, it will abstain from voting such shares of preferred stock.

Table of Contents

Withdrawal of Shares

Upon surrender of depositary receipts representing any number of whole shares at the depositary's office, unless the related depositary shares previously have been called for redemption, the holder of the depositary shares evidenced by the depositary receipts will be entitled to delivery of the number of whole shares of the related series of preferred stock and all money and other property, if any, underlying such depositary shares. However, once such an exchange is made, the preferred stock cannot thereafter be redeposited in exchange for depositary shares. Holders of depositary shares will be entitled to receive whole shares of the related series of preferred stock on the basis set forth in the applicable prospectus supplement. If the depositary receipts delivered by the holder evidence a number of depositary shares representing more than the number of whole shares of preferred stock of the related series to be withdrawn, the depositary will deliver to the holder at the same time a new depositary receipt evidencing the excess number of depositary shares.

Amendment and Termination of Depositary Agreement

The form of depositary receipt evidencing the depositary shares and any provision of the applicable depositary agreement may at any time be amended by agreement between us and the depositary. We may, with the consent of the depositary, amend the depositary agreement from time to time in any manner that we desire. However, if the amendment would materially and adversely alter the rights of the existing holders of depositary shares, the amendment would need to be approved by the holders of at least a majority of the depositary shares then outstanding.

The depositary agreement may be terminated by us or the depositary if:

all outstanding depositary shares have been redeemed; or

there has been a final distribution in respect of the shares of preferred stock of the applicable series in connection with our liquidation, dissolution or winding up and such distribution has been made to the holders of depositary receipts.

Resignation and Removal of Depositary

The depositary may resign at any time by delivering to us notice of its election to do so. We may remove a depositary at any time. Any resignation or removal will take effect upon the appointment of a successor depositary and its acceptance of appointment.

Charges of Depositary

We will pay all transfer and other taxes and governmental charges arising solely from the existence of any depositary arrangements. We will pay all charges of each depositary in connection with the initial deposit of the preferred shares of any series, the initial issuance of the depositary shares, any redemption of such preferred shares and any withdrawals of such preferred shares by holders of depositary shares. Holders of depositary shares will be required to pay any other transfer taxes.

Notices

Each depositary will forward to the holders of the applicable depositary shares all notices, reports and communications from us which are delivered to such depositary and which we are required to furnish the holders of the preferred stock represented by such depositary shares.

Miscellaneous

The depositary agreement contains provisions that limit our liability and the liability of the depositary to the holders of depositary shares. Both the depositary and we are also entitled to an indemnity from the holders of the depositary shares prior to bringing, or defending against, any legal proceeding. We or any depositary may rely upon written advice of counsel or accountants, or information provided by persons presenting preferred shares for deposit, holders of depositary shares or other persons believed by us to be competent and on documents believed by us or them to be genuine.

Each purchase contract will entitle the holder thereof to purchase or sell, and obligate us to sell or purchase, on specified dates, such securities at a specified purchase price, which may be a formula, all as set forth in the applicable prospectus supplement. We may, however, satisfy our obligations, if any, with respect to any purchase contract by delivering the cash value of such purchase contract or the cash value of the property otherwise deliverable thereunder. The applicable prospectus supplement will also specify the methods by which the holders may purchase or sell such securities, and any acceleration, cancellation or termination provisions or other provisions relating to the settlement of a purchase contract.

The purchase contracts may require us to make periodic payments to the holders thereof, or vice versa, which payments may be deferred to the extent set forth in the applicable prospectus supplement, and those payments may be unsecured or pre-funded on some basis. The purchase contracts may also require the holders thereof to secure their obligations in a specified manner to be described in the applicable prospectus supplement. Alternatively, purchase contracts may require holders to satisfy their obligations thereunder when the purchase contracts are issued. If so, the third party may use securities pledged by us or borrowed from us or others to settle such sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of a derivative transaction to close out any related open borrowings of stock. We otherwise may loan or pledge securities to a financial institution or other third party that in turn may sell the loaned securities or, in an event of default in the case of a pledge, sell the pledged securities, in either case using this prospectus and the applicable prospectus supplement.
