Shareholder Letter

September 30, 2011 (Unaudited)

To our Shareholders:

Performance:

During the twelve months ended September 30, 2011, the Clough Global Allocation Fund's total return, assuming reinvestment of all distributions, was -5.76% based on the net asset value and -10.11% based on the market price of the stock. That compares with 1.14% return for the S&P 500 for the same period. Since the Fund's inception on July 28, 2004, the total growth in net asset value assuming reinvestment of all distributions has been 4.69%, this compares to an average annual total return of 2.53% for the S&P 500 through September 30, 2011. Total distributions since inception has been \$11.71 per share, and based on the current dividend rate of \$0.30 per share, offer a yield of 9.68% on market price as of September 30, 2011, of \$12.40.

During the twelve months ended September 30, 2011, the Clough Global Equity Fund's total return, assuming reinvestment of all distributions, was -6.41% based on the net asset value and -11.12% based on the market price of the stock. That compares with 1.14% return for the S&P 500 for the same period. Since the Fund's inception on April 27, 2005, the total growth in net asset value assuming reinvestment of all distributions has been 3.42%, this compares to an average annual total return of 1.76% for the S&P 500 through September 30, 2011. Total distributions since inception has been \$9.69 per share, and based on the current dividend rate of \$0.29 per share, offer a yield of 9.94% on market price as of September 30, 2011, of \$11.67.

During the twelve months ended September 30, 2011, the Clough Global Opportunities Fund's total return, assuming reinvestment of all distributions, was -6.56% based on the net asset value and -9.89% based on the market price of the stock. That compares with 1.14% return for the S&P 500 for the same period. Since the Fund's inception on April 25, 2006, the total growth in net asset value assuming reinvestment of all distributions has been -0.14%, this compares to an average annual total return of -0.46% for the S&P 500 through September 30, 2011. Total distributions since inception has been \$6.39 per share, and based on the current dividend rate of \$0.27 per share, offer a yield of 10.24% on market price as of September 30, 2011, of \$10.55.

Six Month Review and Outlook:

Over the last six months, the capital markets have been characterized by a general sentiment of equity risk aversion, mixed with bouts of high volatility and a seemingly interminable stretch of low interest rates. With that somewhat precarious backdrop for equities, it may seem defensible for asset managers to allow fundamentals to take a backseat to the high frequency trading and short-term momentum investing that has influenced the markets in recent quarters. In the long-run, we don't think this is an appropriate response and we will remain focused on our intrinsic belief that fundamental research, profit cycle analysis and identifying strong cash flows will be the hallmarks of equity outperformance looking forward.

Much of the recent volatility in the markets has been a function of the headlines out of Europe; both the extent of the financial crisis there and the prospects for a reasonable solution that averts another global recession. The debate about funding requirements and fiscal austerity is taking place in a very public manner, which demonstrates that this is in part an economic crisis and in part a

political crisis for members of the European Union. There are bound to be lending losses and some version of fiscal austerity will need to be adopted across the region. We think the European Central Bank has no choice but to monetize the sovereign debt it is buying, a move which equates to quantitative easing. In addition, the persistent weakness of the US economy will likely force the Federal Reserve into further balance sheet expansion, or QE 3. Identifying the appropriate dosage of lending losses and austerity in Europe is creating a challenge for the capital markets, as investors try to assess and appropriately discount the depth of this crisis and the appropriate prescription, in real-time. While it has proven to be a less rewarding endeavor than simply trading on paranoia and market gyrations, our internal investment analysis continues to be focused on fundamentals, cash flows, and valuations.

Several themes that have contributed favorably to our long-term fund performance are among the same investments that have presented a headwind for more recent performance. The energy complex has been an easy sell order for investors concerned about economic cyclicality and the volatility in commodity markets, so we have suffered losses in securities leveraged to spending on the energy infrastructure and the price of

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

oil. Our work here continues to indicate that valuations are low, there is a large and profitable backlog for service providers and we think the energy cycle will last for years. Crude oil is the one commodity we are willing to invest in thematically, as global production growth is getting more difficult and more expensive to achieve, and because it is essentially a consumable product with little demand cyclicity. Valuations have been made even more attractive based on concerns of a global economic slowdown.

Another area that has been a source of frustration and asset deterioration for our funds is the US financial sector. Today, we view the major US banks as a very attractive one to three year investments. We've maintained a view that the European banks would have a difficult role to play in terms of accepting lending losses in the region, but US financials have far less balance sheet leverage than their European counterparts, and we think the valuations for US banks more than appropriately discount for the risks of a global slowdown. The US economy is indeed deleveraging, yield curves are flattening and regulation is becoming more intimidating for the financial sector, so we have little doubt in our minds that growth opportunities for US financials will be meager. However, with several bank stocks down 30-50% in 2011, and selling at large discounts to tangible book value, we believe they have been more than adequately discounted for these risks. Funding costs are moving negative and as a result net interest margins are actually quite favorable. Bank balance sheets have been substantially repaired, bad loans are down and many more liabilities have already been reserved against. Further, a retrenchment from US markets by European banks offers market share opportunities. A slowing economy does threaten bank and non-bank profits, but only bank stocks have moved to severe discounts to book value. As the markets become more comfortable with regulation that has been introduced and a lower leverage ratio for financials, we think US banks could turn into very good investments in the years ahead.

A third theme which we have discussed in the past is our exposure to emerging markets. As we sift through the economic data available to us from both Asia and Brazil, we feel quite comfortable with our long-term bullish outlook for consumer spending in these regions. Ultimately, we feel that the growth prospects in the emerging markets are not reflected in today's valuations. That said, we've needed to be sensitive to the risk aversion taking place in the equity

Table of Contents

Shareholder Letter

September 30, 2011 (Unaudited)

Clough Global Funds

markets, nowhere more apparent than in the outflows from emerging market stocks. As a result, our emerging market exposure is currently lower than usual, and the holdings we have maintained are comprised mostly of Chinese consumer and Brazilian retail mall companies. As in earlier cycles, Shanghai often leads markets higher and that is not yet happening. China has the savings, the cash, and the external surpluses to sustain demand while the developed economies do not. There are admittedly serious credit imbalances in China largely because its private sector is hugely liquid, and sidacar lenders, trust operations and private lenders have been lending at rates that few projects could support. The banks are only peripherally involved in this part of the lending boom. China's liquidity crunch is policy induced, and well along in time. Property sales and investments are falling and that will likely take some leveraged developers and non-bank lenders down, but China's economy is huge and still growing. Its private sector is unlevered and savings are equally huge. The liquidations that are coming in the real estate sector can be easily absorbed in our view. We think the government can easily recapitalize the banks if needed and tight policy can be reversed.

The corollary of rising wages in China is a growing and vibrant consumer. Our analysis suggests that consumption is rising and increasingly driving the economy. Exports, net of imports are now 3-4% of Gross Domestic Product and shrinking, leaving China a lot less exposed to the global economy than the markets are assuming. Credit issues relating to shadow banks and borrowing by local governments are real but China's government is asset rich and domestic private savings in China are huge. Inflation should peak as commodity prices decline.

An important issue in China is that the financial sector needs reform. It is far too heavily based on state-owned banks which we believe are very inefficient at allocating credit and very poor at supporting private enterprise. Moreover current growth rates of credit are unsustainable and that suggests a shift to less credit intensive consumption as the economic driver going forward. We also think concerns over excessive infrastructure building are wrong. Construction is 14% of Chinese GDP according to the Wall Street Journal. China's capital stock per capita is perhaps 6-7% that of the US according to Dragonomics research, and the transportation infrastructure that is being built out should lead to higher productivity in China's services sector. Productivity and profits are highly correlated and that is why we think profits will boom among consumer related companies in the years ahead.

The list of investments that have aided performance in the most recent semi-annual period is regrettably shorter than the list of investments that have worked against us, but they are worth mentioning. Our long-held view that interest rate levels around the world would remain almost inconceivably low, for an extended period of time has been playing out. As a result, our exposure to US Government bonds has benefitted the portfolio, and has helped reduce exposure from some of the large swings in equity prices we are observing on a seemingly regular basis. The funds have held between 10 and 15 percent of the portfolio in US Treasuries during the year. The majority of the holdings have been in the eight to thirty year part of the yield curve. This positioning has benefited from the anticipation of the Fed's operation twist. In an attempt to keep long rates low in yield, the Fed will be selling the front end of the yield curve and purchasing the middle and long end of the curve until June 2012. The anticipation of the program caused the 30 year treasury to rally 33% and the 10 year to rally 14% for the year.

Another investment strategy which has helped to buffer some of the equity losses has been our short exposure to industrial companies that we think suffer from reduced fixed asset investment in a slowing global economy.

I hope we have articulated what has worked and what has not worked in the portfolio in recent quarters as we aim to preserve your patience in our investment strategy. We are a fundamental investment firm and our emphasis on investing in long term profit trends can be subject to market volatility from time to time. We think from the perspective a year or two out, current equity prices will look like they provided great value. Our decades of experience navigating the capital markets have revealed to us that volatile, sentiment-driven markets often create investment opportunities for patient, fundamental investors. We feel the current period of market turmoil will prove no different, and we have positioned the portfolio with this longer-term perspective in mind.

We appreciate your confidence in us and endeavor to do the best job we can of investing our clients' assets. We sincerely appreciate your interest in our funds. If you have any questions about your investment, please call 1-877-256-8445.

Sincerely,

Charles I. Clough, Jr.

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

Past performance is no guarantee of future results.

The information in this Portfolio Managers Shareholder Commentary represents the opinions of the individual Portfolio Managers and is not intended to be a forecast of future events, a guarantee of future results, or investment advice.

The S&P 500 Index - Standard & Poor's composite index of 500 stocks, a widely recognized, unmanaged index of common stock prices. It is not possible to invest directly in an Index.

Sovereign Debt - Bonds issued by a national government in a foreign currency, in order to finance the issuing country's growth. Sovereign debt is generally a riskier investment when it comes from a developing country, and a safer investment when it comes from a developed country. The stability of the issuing government is an important factor to consider, when assessing the risk of investing in sovereign debt, and sovereign credit ratings help investors weigh this risk.

Quantitative Easing - A government monetary policy occasionally used to increase the money supply by buying government securities or other securities from the market. Quantitative easing increases the money supply by flooding financial institutions with capital, in an effort to promote increased lending and liquidity.

Quantitative Easing Round 3, or QE3 - Refers to a third, still rumored, round of monetary policy which may be implemented by the US Federal Reserve to further stimulate the economy. (Also refer to: quantitative easing)

Book Value - The value at which an asset is carried on a balance sheet. To calculate, take the cost of an asset minus the accumulated depreciation.

Statement of Investments

September 30, 2011 (Unaudited)

- (a) *Pledged security; a portion or all of the security is pledged as collateral for securities sold short or borrowings as of September 30, 2011. (See Note 1 and Note 6)*
- (b) *Loaned security; a portion or all of the security is on loan at September 30, 2011.*
- (c) *Non-income producing security.*
- (d) *Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. As of September 30, 2011, these securities had a total value of \$4,958,593 or 3.32% of net assets.*
- (e) *Fair valued security; valued by management in accordance with procedures approved by the Fund's Board of Trustees. As of September 30, 2011, these securities had a total value of \$57,393 or 0.04% of total net assets.*
- (f) *Securities were purchased pursuant to Regulation S under the Securities Act of 1933, which exempts securities offered and sold outside of the United States from registration. Such securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. These securities have been deemed liquid under guidelines approved by the Fund's Board of Trustees. As of September 30, 2011, the aggregate market value of those securities was \$923,700, representing 0.62% of net assets.*
- (g) *Floating or variable rate security - rate disclosed as of September 30, 2011.*
- (h) *Less than 0.0005%.*

Clough Global Equity Fund

Statement of Investments

September 30, 2011 (Unaudited)

- (a) *Pledged security; a portion or all of the security is pledged as collateral for securities sold short or borrowings as of September 30, 2011. (See Note 1 and Note 6)*
- (b) *Loaned security; a portion or all of the security is on loan at September 30, 2011.*
- (c) *Non-income producing security.*
- (d) *Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. As of September 30, 2011, these securities had a total value of \$7,742,133 or 3.20% of net assets.*
- (e) *Fair valued security; valued by management in accordance with procedures approved by the Fund's Board of Trustees. As of September 30, 2011, these securities had a total value of \$809,176 or 0.33% of total net assets.*
- (f) *Securities were purchased pursuant to Regulation S under the Securities Act of 1933, which exempts securities offered and sold outside of the United States from registration. Such securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. These securities have been deemed liquid under guidelines approved by the Fund's Board of Trustees. As of September 30, 2011, the aggregate market value of those securities was \$1,358,063, representing 0.56% of net assets.*
- (g) *Floating or variable rate security - rate disclosed as of September 30, 2011.*
- (h) *Less than 0.0005%.*

See Notes to the Financial Statements.

Clough Global Opportunities Fund

Statement of Investments

September 30, 2011 (Unaudited)

- (a) *Pledged security; a portion or all of the security is pledged as collateral for securities sold short or borrowings as of September 30, 2011. (See Note 1 and Note 6)*
- (b) *Loaned security; a portion or all of the security is on loan at September 30, 2011.*
- (c) *Non-income producing security.*
- (d) *Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. As of September 30, 2011, these securities had a total value of \$20,570,288 or 3.26% of net assets.*
- (e) *Fair valued security; valued by management in accordance with procedures approved by the Fund's Board of Trustees. As of September 30, 2011, these securities had a total value of \$200,873 or 0.03% of total net assets.*
- (f) *Securities were purchased pursuant to Regulation S under the Securities Act of 1933, which exempts securities offered and sold outside of the United States from registration. Such securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. These securities have been deemed liquid under guidelines approved by the Fund's Board of Trustees. As of September 30, 2011, the aggregate market value of those securities was \$3,909,488, representing 0.62% of net assets.*
- (g) *Floating or variable rate security - rate disclosed as of September 30, 2011.*
- (h) *Less than 0.0005%.*

REMICS - Real Estate Mortgage Investment Conduits

S.A. - Generally designates corporations in various countries, mostly those employing the civil law

S.p.A. - Societa` Per Azioni is an Italian shared company

SPDR - Standard & Poor's Depositary Receipt

For Fund compliance purposes, each Fund's industry classifications refer to any one of the industry sub-classifications used by one or more widely recognized market indexes, and/or as defined by each Fund's management. This definition may not apply for purposes of this report, which may combine industry sub-classifications for reporting ease. Industries are shown as a percent of net assets. These industry classifications are unaudited.

Clough Global Funds

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING AND OPERATING POLICIES

Clough Global Allocation Fund, Clough Global Equity Fund, and Clough Global Opportunities Fund, (each, a Fund and collectively, the Funds) are closed-end management investment companies that were organized under the laws of the state of Delaware by an Amended Agreement and Declaration of Trust dated April 27, 2004 and January 25, 2005, respectively for Clough Global Allocation Fund and Clough Global Equity Fund and an Agreement and Declaration of Trust dated January 12, 2006 for Clough Global Opportunities Fund. Each Fund is a non-diversified series with an investment objective to provide a high level of total return. Each Declaration of Trust provides that the Trustees may authorize separate classes of shares of beneficial interest.

The following is a summary of significant accounting policies followed by the Funds. These policies are in conformity with U.S. generally accepted accounting principles (GAAP). The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements during the reporting period. Management believes the estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Funds ultimately realize upon sale of the securities. The financial statements have been prepared as of the close of the New York Stock Exchange (NYSE or the Exchange) on September 30, 2011.

The net asset value per share of each Fund is determined no less frequently than daily, on each day that the Exchange is open for trading, as of the close of regular trading on the Exchange (normally 4:00 p.m. New York time). Trading may take place in foreign issues held by the Fund at times when a Fund is not open for business. As a result, each Fund's net asset value may change at times when it is not possible to purchase or sell shares of a Fund.

Investment Valuation: Securities held by each Fund for which exchange quotations are readily available are valued at the last sale price, or if no sale price or if traded on the over-the-counter market, at the mean of the bid and asked prices on such day. Most securities listed on a foreign exchange are valued at the last sale price at the close of the exchange on which the security is primarily traded. In certain countries market maker prices are used since they are the most representative of the daily trading activity. Market maker prices are usually the mean between the bid and ask prices. Certain markets are not closed at the time that the Funds prices its portfolio securities. In these situations, snapshot prices are provided by the individual pricing services or other alternate sources at the close of the NYSE as appropriate. Securities not traded on a particular day are valued at the mean between the last reported bid and the asked quotes, or the last sale price when appropriate; otherwise fair value will be determined by the board-appointed fair valuation committee. Debt securities for which the over-the-counter market is the primary market are normally valued on the basis of prices furnished by one or more pricing services or dealers at the mean between the latest available bid and asked prices. As authorized by the Trustees, debt securities (other than short-term obligations) may be valued on the basis of valuations furnished by a pricing service which determines valuations based upon market transactions for normal, institutional-size trading units of securities or a matrix method which considers yield or price of comparable bonds provided by a pricing service. Short-term obligations maturing within 60 days are valued at amortized cost, which approximates value, unless the Trustees determine that under particular circumstances such method does not result in fair value. Over-the-counter options are valued at the mean between bid and asked prices provided by dealers. Financial futures contracts listed on commodity exchanges and exchange-traded options are valued at closing settlement prices.

If the price of a security is unavailable in accordance with the aforementioned pricing procedures, or the price of a security is unreliable, e.g., due to the occurrence of a significant event, the security may be valued at its fair value determined by management pursuant to procedures adopted by the Board of Trustees. For this purpose, fair value is the price that a Fund reasonably expects to receive on a current sale of the security. Due to the number of variables affecting the price of a security, however; it is possible that the fair value of a security may not accurately reflect the price that a Fund could actually receive on a sale of the security. As of September 30, 2011, securities which have been fair valued represented 0.04%, 0.33% and 0.03% of net assets of Clough Global Allocation Fund, Clough Global Equity Fund, and Clough Opportunities Equity Fund, respectively.

A three-tier hierarchy has been established to classify fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable.

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Various inputs are used in determining the value of each Fund's investments as of the reporting period end. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

- Level 1 Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that a Fund has the ability to access at the measurement date;
- Level 2 Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

Table of Contents**Clough Global Funds****Notes to Financial Statements**

September 30, 2011 (Unaudited)

Level 3 Significant unobservable prices or inputs (including the Fund's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

The following is a summary of the inputs used as of September 30, 2011 in valuing each Fund's investments carried at value. The Funds recognize transfers between the levels as of the beginning of the annual period in which the transfer occurred. There were no significant transfers between Levels 1 and 2 during the six months ended September 30, 2011.

Foreign Securities: Each Fund may invest a portion of its assets in foreign securities. In the event that a Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks.

The accounting records of each Fund are maintained in U.S. dollars. Prices of securities denominated in foreign currencies are translated into U.S. dollars at the closing rates of exchange at period end. Amounts related to the purchase and sale of foreign securities and investment income are translated at the rates of exchange prevailing on the respective dates of such transactions.

The effect of changes in foreign currency exchange rates on investments is reported with all other foreign currency realized and unrealized gains and losses in the Funds' Statements of Operations.

A foreign currency contract is a commitment to purchase or sell a foreign currency at a future date, at a negotiated rate. Each Fund may enter into foreign currency contracts to settle specific purchases or sales of securities denominated in a foreign currency and for protection from adverse exchange rate fluctuation. Risks to a Fund include the potential inability of the counterparty to meet the terms of the contract.

The net U.S. dollar value of foreign currency underlying all contractual commitments held by a Fund and the resulting unrealized appreciation or depreciation are determined using prevailing forward foreign currency exchange rates. Unrealized appreciation and depreciation on foreign currency contracts are reported in the Funds' Statements of Assets and Liabilities as a receivable or a payable and in the Funds' Statements of Operations with the change in unrealized appreciation or depreciation on translation of assets and liabilities denominated in foreign currencies. There were no outstanding foreign currency contracts for the Funds as of September 30, 2011.

A Fund may realize a gain or loss upon the closing or settlement of the foreign transaction. Such realized gains and losses are reported with all other foreign currency gains and losses in the Statements of Operations.

Notes to Financial Statements

September 30, 2011 (Unaudited)

Clough Global Funds

Short Sales: Each Fund may sell a security it does not own in anticipation of a decline in the fair value of that security. When a Fund sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which it made the short sale. A gain, limited to the price at which a Fund sold the security short, or a loss, unlimited in size, will be recognized upon the termination of the short sale.

Each Fund's obligation to replace the borrowed security will be secured by collateral deposited with the broker-dealer, usually cash, U.S. government securities or other liquid securities. Each Fund will also be required to designate on its books and records similar collateral with its custodian to the extent, if any, necessary so that the aggregate collateral value is at all times at least equal to the current market value of the security sold short. The cash amount is reported on the Statement of Assets and Liabilities as Deposit with broker for securities sold short. The market value of securities held as collateral for securities sold short as of September 30, 2011, was \$174,545,582, \$279,938,848 and \$733,674,516 for Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund, respectively. Each Fund is obligated to pay interest to the broker for any debit balance of the margin account relating to short sales. The interest incurred on the Funds for the six months ended September 30, 2011 is reported on the Statement of Operations as Interest expense—margin account. Interest amounts payable by the Funds as of September 30, 2011 are reported on the Statement of Assets and Liabilities as Interest payable—margin account.

Each Fund may also sell a security short if it owns at least an equal amount of the security sold short or another security convertible or exchangeable for an equal amount of the security sold short without payment of further compensation (a short sale against-the-box). In a short sale against-the-box, the short seller is exposed to the risk of being forced to deliver stock that it holds to close the position if the borrowed stock is called in by the lender, which would cause gain or loss to be recognized on the delivered stock. The Fund expects normally to close its short sales against-the-box by delivering newly acquired stock.

Derivatives Instruments and Hedging Activities: The following discloses the Funds' use of derivative instruments and hedging activities.

The Funds' investment objectives not only permit the Funds to purchase investment securities, they also allow the Funds to enter into various types of derivative contracts, including, but not limited to, purchased and written options and warrants. In doing so, the Funds will employ strategies in differing combinations to permit them to increase, decrease, or change the level or types of exposure to market factors. Central to those strategies are features inherent to derivatives that make them more attractive for this purpose than equity securities; they require little or no initial cash investment, they can focus exposure on only certain selected risk factors, and they may not require the ultimate receipt or delivery of the underlying security (or securities) to the contract. This may allow the Funds to pursue their objectives more quickly and efficiently than if they were to make direct purchases or sales of securities capable of effecting a similar response to market factors.

Market Risk Factors: In pursuit of their investment objectives, certain Funds may seek to use derivatives to increase or decrease their exposure to the following market risk factors:

Equity Risk: Equity risk relates to the change in value of equity securities as they relate to increases or decreases in the general market.

Risk of Investing in Derivatives: The Funds' use of derivatives can result in losses due to unanticipated changes in the market risk factors and the overall market. In instances where the Funds are using derivatives to decrease or hedge exposures to market risk factors for securities held by the Funds, there are also risks that those derivatives may not perform as expected, resulting in losses for the combined or hedged positions.

Derivatives may have little or no initial cash investment relative to their market value exposure and therefore can produce significant gains or losses in excess of their cost. This use of embedded leverage allows the Funds to increase their market value exposure relative to their net assets and can substantially increase the volatility of the Funds' performance.

Additional associated risks from investing in derivatives also exist and potentially could have significant effects on the valuation of the derivative and the Funds. Typically, the associated risks are not the risks that the Funds are attempting to increase or decrease exposure to, per their investment objectives, but are the additional risks from investing in derivatives.

Examples of these associated risks are liquidity risk, which is the risk that the Funds will not be able to sell the derivative in the open market in a timely manner, and counterparty credit risk, which is the risk that the counterparty will not fulfill its obligation to the Funds. Associated risks

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

can be different for each type of derivative and are discussed by each derivative type in the notes that follow.

Option Writing/Purchasing: Each Fund may purchase or write (sell) put and call options. One of the risks associated with purchasing an option among others, is that a Fund pays a premium whether or not the option is exercised. Additionally, a Fund bears the risk of loss of premium and change in market value should the counterparty not perform under the contract. The cost of securities acquired through the exercise of call options is increased by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid. Each Fund is obligated to pay interest to the broker for any debit balance of the margin account relating to options. The interest incurred on the Funds for the fiscal

Table of Contents

Clough Global Funds

Notes to Financial Statements

September 30, 2011 (Unaudited)

six months ended September 30, 2011 is reported on the Statement of Operations as Interest expense margin account. Interest amounts payable by the Funds as of September 30, 2011 are reported on the Statement of Assets and Liabilities as Interest payable margin account.

When a Fund writes an option, an amount equal to the premium received by a Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by a Fund on the expiration date as realized gains. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is recorded as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether a Fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by a Fund. Each Fund, as writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

Written option activity for the six months ended September 30, 2011 was as follows:

CLOUGH GLOBAL ALLOCATION FUND:

| | Written Call Options | |
|----------------------------------|----------------------|-----------|

Warrants: Each Fund may purchase or otherwise receive warrants or rights. Warrants and rights generally give the holder the right to receive, upon exercise, a security of the issuer at a set price. Funds typically use warrants and rights in a manner similar to their use of purchased options on securities, as described in options above. Risks associated with the use of warrants and rights are generally similar to risks associated with the use of purchased options. However, warrants and rights often do not have standardized terms, and may have longer maturities and may be less liquid than exchange-traded options. In addition, the terms of warrants or rights may limit each Fund's ability to exercise the warrants or rights at such times and in such quantities as each Fund would otherwise wish. Each Fund held no rights or warrants at the end of the period. The following tables disclose the amounts related to each Fund's use of derivative instruments.

Table of Contents**Notes to Financial Statements**

| | | | | | | |
|----------------------------------|--------|----|------------|-----|----|-----------|
| Clough Global Equity Fund | 157 | \$ | 2,059,644 | 52 | \$ | 823,712 |
| Clough Global Opportunities Fund | 17,711 | \$ | 46,172,977 | 140 | \$ | 2,205,337 |

Income Taxes: Each Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required. During the six months ended September 30, 2011, none of the Funds recorded a liability of any uncertain tax positions in the accompanying financial statements.

Each Fund files income tax returns in the U.S. federal jurisdiction and Colorado. The statute of limitations on each Fund's federal and state tax filings remains open for the fiscal years ended March 31, 2011, March 31, 2010, March 31, 2009, and March 31, 2008 as well as for March 31, 2007 for state purposes only.

Under the Regulated Investment Company Modernization Act of 2010 (the Modernization Act), net capital losses recognized in tax years beginning after December 22, 2010 may be carried forward indefinitely, and the character of the losses is retained as short-term and/or long-term. Under the law in effect prior to the Modernization Act, net capital losses were carried forward for eight years and treated as short-term. As a transition rule, the Modernization Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

Distributions to Shareholders: Each Fund intends to make a level dividend distribution each quarter to Common Shareholders after payment of interest on any outstanding borrowings. The level dividend rate may be modified by the Board of Trustees from time to time. Any net capital gains earned by a Fund are distributed at least annually to the extent necessary to avoid federal income and excise taxes. Distributions to shareholders are recorded by each Fund on the ex-dividend date. Each Fund has received approval from the Securities and Exchange Commission (the Commission) for exemption from Section 19(b) of the Investment Company Act of 1940, as amended (the 1940 Act), and Rule 19b-1 thereunder permitting each Fund to make periodic distributions of long-term capital gains, provided that the distribution policy of a fund with respect to its Common Shares calls for periodic (e.g. quarterly/monthly) distributions in an amount equal to a fixed percentage of each Fund's average net asset value over

Table of Contents

Clough Global Funds

Notes to Financial Statements

September 30, 2011 (Unaudited)

a specified period of time or market price per common share at or about the time of distributions or pay-out of a level dollar amount. At this time, none of the Funds have implemented a managed distribution plan as permitted under the exemption.

Securities Transactions and Investment Income: Investment security transactions are accounted for as of trade date basis. Dividend income is recorded on the ex-dividend date. Certain dividend income from foreign securities will be recorded, in the exercise of reasonable diligence, as soon as a Fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date and may be subject to withholding taxes in these jurisdictions. Interest income, which includes amortization of premium and accretion of discount, is recorded on the accrual basis. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the highest cost basis for both financial reporting and income tax purposes.

Counterparty Risk: Each of the Funds run the risk that the issuer or guarantor of a fixed income security, the counterparty to an over-the-counter derivatives contract, a borrower of each Fund's securities or the obligor of an obligation underlying an asset-backed security will be unable or unwilling to make timely principal, interest, or settlement payments or otherwise honor its obligations. In addition, to the extent that each of the Funds use over-the-counter derivatives, and/or has significant exposure to a single counterparty, this risk will be particularly pronounced for each of the Funds.

Other Risk Factors: Investing in the Funds may involve certain risks including, but not limited to, the following:

Unforeseen developments in market conditions may result in the decline of prices of, and the income generated by, the securities held by the Funds. These events may have adverse effects on the Funds such as a decline in the value and liquidity of many securities held by the Funds, and a decrease in net asset value. Such unforeseen developments may limit or preclude the Funds' ability to achieve their investment objective.

Investing in stocks may involve larger price fluctuation and greater potential for loss than other types of investments. This may cause the securities held by the Funds to be subject to larger short-term declines in value.

The Funds may have elements of risk due to concentrated investments in foreign issuers located in a specific country. Such concentrations may subject the Funds to additional risks resulting from future political or economic conditions and/or possible impositions of adverse foreign governmental laws or currency exchange restrictions. Investments in securities of non-U.S. issuers have unique risks not present in securities of U.S. issuers, such as greater price volatility and less liquidity. At September 30, 2011, Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund each had a significant concentration of their investment securities in companies based in the United States 121.47%, 121.40% and 122.04% of net assets, respectively.

Fixed income securities are subject to credit risk, which is the possibility that a security could have its credit rating downgraded or that the issuer of the security could fail to make timely payments or default on payments of interest or principal. Additionally, fixed income securities are subject to interest rate risk, meaning the decline in the price of debt securities that accompanies a rise in interest rates. Bonds with longer maturities are subject to greater price fluctuations than bonds with shorter maturities.

The Funds invest in bonds which are rated below investment grade. These high yield bonds may be more susceptible than higher grade bonds to real or perceived adverse economic or industry conditions. The secondary market, on which high yield bonds are traded, may also be less liquid than the market for higher grade bonds.

Application of Recent Accounting Pronouncement: In May 2011, the FASB issued ASU No. 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in GAAP and the International Financial Reporting Standards (IFRSs). ASU No. 2011-04 amends FASB ASC Topic 820, Fair Value Measurements and Disclosures, to establish common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and IFRSs. ASU No. 2011-04 is effective for fiscal years beginning after December 15, 2011 and for interim periods within those fiscal years. Management is currently evaluating the impact these amendments may have on the Funds financial statements.

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

On December 22, 2010, The Regulated Investment Company Modernization Act of 2010 (the Modernization Act) was signed into law. The Modernization Act is the first major piece of legislation affecting regulated investment companies (RICs) since 1986 and it modernizes several of the federal income and excise tax provisions related to RICs. Some highlights of the enacted provisions are as follows:

New capital losses may now be carried forward indefinitely, and retain the character of the original loss. Under pre-enactment law, capital losses could be carried forward for eight years, and carried forward as short-term capital losses, irrespective of the character of the original loss.

The Modernization Act contains simplification provisions, which are aimed at preventing disqualification of a RIC for inadvertent failures of the asset diversification and/or qualifying income tests. Additionally, the Modernization Act exempts RICs from the preferential dividend rule, and repealed the 60-day designation requirement for certain types of pay-through income and gains.

Table of Contents

Notes to Financial Statements

September 30, 2011 (Unaudited)

Clough Global Funds

Finally, the Modernization Act contains several provisions aimed at preserving the character of distributions made by a fiscal year RIC during the portion of its taxable year ending after October 31 or December 31, reducing the circumstances under which a RIC might be required to file amended Forms 1099 to restate previously reported distributions.

2. TAXES

Classification of Distributions: Net investment income (loss) and net realized gain (loss) may differ for financial statement and tax purposes. The character of distributions made during the year from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes. Also, due to the timing of dividend distributions, the fiscal year in which amounts are distributed may differ from the fiscal year in which the income or realized gain was recorded by the Funds. The amount and characteristics of the tax basis distributions and composition of distributable earnings/(accumulated losses) are finalized at fiscal year end; accordingly, tax basis balances have not been determined as of September 30, 2011.

The tax character of the distributions paid by the Funds during the year ended March 31, 2011, were as follows:

| | Clough Global Allocation Fund | Clough Global Equity Fund | Clough Global Opportunities Fund |
|------------------------|-------------------------------|---------------------------|----------------------------------|
| Ordinary Income | \$ 12,521,527 | \$ 20,695,217 | \$ 55,875,807 |
| Long-Term Capital Gain | | | |
| Return of Capital | | | |
| Total | \$ 12,521,527 | \$ 20,695,217 | \$ 55,875,807 |

Net unrealized appreciation/(depreciation) of investments based on federal tax cost as of September 30, 2011, were as follows:

| | Clough Global Allocation Fund | Clough Global Equity Fund | Clough Global Opportunities Fund |
|--|-------------------------------|---------------------------|----------------------------------|
| Gross unrealized appreciation on investments (excess of value over tax cost) | \$ 9,638,648 | \$ 17,464,311 | \$ 39,057,495 |
| Gross unrealized depreciation on investments (excess of tax cost over value) | (26,531,765) | (43,912,107) | (116,563,168) |
| Net unrealized depreciation | (16,893,117) | (26,447,796) | (77,505,673) |
| Cost of investments for income tax purposes | \$ 255,027,887 | \$ 413,442,839 | \$ 1,089,514,413 |

3. CAPITAL TRANSACTIONS

Common Shares: There are an unlimited number of no par value common shares of beneficial interest authorized for each Fund.

Transactions in common shares were as follows:

4. PORTFOLIO SECURITIES

Purchases and sales of investment securities, other than short-term securities, for the six months ended September 30, 2011, are listed in the table below.

| Fund | Purchases of Securities | Proceeds from Sales of Securities | Purchases of Long-Term | Proceeds from Sales |
|----------------------------------|-------------------------|-----------------------------------|-----------------------------|--|
| | | | U.S. Government Obligations | of Long-Term U.S. Government Obligations |
| Clough Global Allocation Fund | \$ 147,187,791 | \$ 173,807,539 | \$ 41,202,185 | \$ 35,234,372 |
| Clough Global Equity Fund | 244,460,674 | 288,851,950 | 40,505,507 | 35,020,821 |
| Clough Global Opportunities Fund | 623,881,941 | 736,373,539 | 179,115,814 | 162,634,764 |

5. INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENTS

Clough Capital Partners L.P. (Clough) serves as each Fund's investment adviser pursuant to an Investment Advisory Agreement (each an Advisory Agreement and collectively, the Advisory Agreements) with each Fund. As compensation for its services to the Fund, Clough receives an annual investment advisory fee of 0.70%, 0.90% and 1.00% based on Clough Global Allocation Fund's, Clough Global Equity Fund's and Clough Global Opportunities Fund's, respectively, average daily total assets, computed daily and payable monthly. ALPS Fund Services, Inc. (ALPS) serves as each Fund's administrator pursuant to an Administration, Bookkeeping and Pricing Services Agreement with each Fund. As compensation for its services to the Fund, ALPS receives an annual administration fee of 0.285%, 0.32%, and 0.32% based on Clough Global Allocation Fund's, Clough Global Equity Fund's and Clough Global Opportunities Fund's, respectively, average daily total assets, computed daily and payable monthly. ALPS will pay all expenses incurred by each Fund, with the exception of advisory fees, trustees' fees, portfolio transaction expenses, litigation expenses, taxes, expenses of conducting repurchase offers for the purpose of repurchasing fund shares, interest on margin accounts, interest on loans, dividends on short sales, and extraordinary expenses.

Both Clough and ALPS are considered to be affiliates of the Funds as defined in the 1940 Act.

6. COMMITTED FACILITY AGREEMENT AND LENDING AGREEMENT

In January 2009, each Fund entered into a financing package that includes a Committed Facility Agreement (the Agreement) with BNP Paribas Prime Brokerage, Inc. (BNP) that allowed Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund to borrow up to an initial limit of \$60,200,000, \$98,200,000 and \$239,500,000, respectively, (the Initial Limit) and a Lending Agreement, as defined below. During the year ended March 31, 2010, each Fund and BNP amended the Agreement to increase the borrowing limit on several occasions, subject to the applicable asset coverage requirements of Section 18 of the 1940 Act. In April, June and September of 2009 Clough Global Allocation Fund borrowed additional amounts of \$11,000,000, \$11,000,000 and \$7,600,000, respectively. In April, June and September of 2009 Clough Global Equity Fund borrowed additional amounts of \$16,000,000, \$20,200,000 and \$12,600,000 respectively. In April, June and September of 2009 Clough Global Opportunities Fund borrowed additional amounts of \$69,000,000, \$49,100,000 and \$31,300,000. Borrowings under the Agreement are secured by assets of each Fund that are held by a Fund's custodian in a separate account (the pledged collateral) valued at \$174,545,582, \$279,938,848 and \$733,674,516 for Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

Opportunities Fund, respectively. Each Fund may, with 30 days notice, reduce the Maximum Commitment Financing (Initial Limit amount plus the increased borrowing amount in excess of the Initial Limit) to a lesser amount if drawing on the full amount would result in a violation of the applicable asset coverage requirement of Section 18 of the 1940 Act. Interest is charged at the three month LIBOR (London Inter-bank Offered Rate) plus 1.10% on the amount borrowed and 1.00% on the undrawn balance. Each Fund also pays a one time arrangement fee of 0.25% on (i) the Initial Limit and (ii) any increased borrowing amount in the excess of the Initial Limit, paid in monthly installments for the six months immediately following the date on which borrowings were drawn by the Fund. For the six months ended September 30, 2011 the average borrowings outstanding for Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund under the agreement were \$89,800,000, \$147,000,000 and \$388,900,000, respectively, and the average interest rate for the borrowings was 1.38%. As of September 30, 2011, the outstanding borrowings for Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund were \$89,800,000, \$147,000,000 and \$388,900,000, respectively. The interest rate applicable to the borrowings of Clough Global Allocation Fund, Clough Global Equity Fund and Clough Global Opportunities Fund on September 30, 2011 was 1.47%.

The Lending Agreement is a separate side-agreement between each Fund and BNP pursuant to which BNP may borrow a portion of the pledged collateral (the Lent Securities) in an amount not to exceed the outstanding borrowings owed by a Fund to BNP under the Agreement. The Lending Agreement is intended to permit each Fund to significantly reduce the cost of its borrowings under the Agreement. BNP has the ability to reregister the Lent Securities in its own name or in another name other than the Fund to pledge, re-pledge, sell, lend or otherwise transfer or use the collateral with all attendant rights of ownership. (It is each Fund's understanding that BNP will perform due diligence to determine the creditworthiness of any party that borrows Lent Securities from BNP.) Each Fund may designate any security within the pledged collateral as ineligible to be a Lent Security, provided there are eligible securities within the pledged collateral in an amount equal to the outstanding borrowing owed by a Fund. During the period in which

Table of Contents

Notes to Financial Statements

September 30, 2011 (Unaudited)

Clough Global Funds

the Lent Securities are outstanding, BNP must remit payment to each Fund equal to the amount of all dividends, interest or other distributions earned or made by the Lent Securities.

Under the terms of the Lending Agreement, the Lent Securities are marked to market daily, and if the value of the Lent Securities exceeds the value of the then-outstanding borrowings owed by a Fund to BNP under the Agreement (the Current Borrowings), BNP must, on that day, either (1) return Lent Securities to each Fund's custodian in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings; or (2) post cash collateral with each Fund's custodian equal to the difference between the value of the Lent Securities and the value of the Current Borrowings. If BNP fails to perform either of these actions as required, each Fund will recall securities, as discussed below, in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings. Each Fund can recall any of the Lent Securities and BNP shall, to the extent commercially possible, return such security or equivalent security to each Fund's custodian no later than three business days after such request. If a Fund recalls a Lent Security pursuant to the Lending Agreement, and BNP fails to return the Lent Securities or equivalent securities in a timely fashion, BNP shall remain liable for the ultimate delivery to each Fund's custodian of such Lent Securities, or equivalent securities, and for any buy-in costs that the executing broker for the sales transaction may impose with respect to the failure to deliver. Each Fund shall also have the right to apply and set-off an amount equal to one hundred percent (100%) of the then-current fair market value of such Lent Securities against the Current Borrowings.

The Board of Trustees has approved each Agreement and the Lending Agreement. No violations of the Agreement or the Lending Agreement have occurred during the six months ended September 30, 2011.

Each Fund receives income from BNP based on the value of the Lent Securities. This income is recorded as Hypothecated Securities income on the Statements of Operations. The interest incurred on borrowed amounts is recorded as Interest on Loan in the Statements of Operations, a part of Total Expenses.

7. OTHER

The Independent Trustees of each Fund receive from each Fund a quarterly retainer of \$3,500 and an additional \$1,500 for each board meeting attended. The Chairman of the Board of Trustees of each Fund receives a quarterly retainer from each Fund of \$4,200 and an additional \$1,800 for each board meeting attended. The Chairman of the Audit Committee of each Fund receives a quarterly retainer from each Fund of \$3,850 and an additional \$1,650 for each board meeting attended.

8. SUBSEQUENT EVENTS

The Funds have evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no adjustments were required to the financial statements as of September 30, 2011.

Dividend Reinvestment Plan

September 30, 2011 (Unaudited)

Unless the registered owner of Common Shares elects to receive cash by contacting The Bank of New York Mellon (the Plan Administrator or BNY Mellon), all dividends declared on Common Shares will be automatically reinvested by the Plan Administrator for shareholders in each Fund's Dividend Reinvestment Plan (the Plan), in additional Common Shares. Shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by BNY Mellon as dividend disbursing agent. You may elect not to participate in the Plan and to receive all dividends in cash by contacting BNY Mellon, as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may reinvest that cash in additional Common Shares for you. If you wish for all dividends declared on your Common Shares to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each Common Shareholder under the Plan in the same name in which such Common Shareholder's Common Shares are registered. Whenever a Fund declares a dividend or other distribution (together, a Dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from a Fund (Newly Issued Common Shares) or (ii) by purchase of outstanding Common Shares on the open market (Open Market Purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per Common Share is equal to or greater than the net asset value per Common Share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per Common Share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the net asset value per Common Share is greater than the closing market value plus estimated brokerage commissions, the Plan Administrator will invest the Dividend amount in Common Shares acquired on behalf of the participants in Open Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Shares trade on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Shares acquired in Open Market Purchases. If, before the Plan Administrator has completed its Open Market Purchases, the market price per Common Share exceeds the net asset value per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the net asset value of the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at the net asset value per Common Share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per Common Share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of Common Shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by a Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open Market Purchases. The automatic reinvestment of Dividends will not relieve

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. Participants that request a sale of Common Shares through the Plan Administrator are subject to brokerage commissions.

Each Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, each Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, The Bank of New York Mellon, 101 Barclay Street, New York, New York 10286, 11E, Transfer Agent Services, 800 433 8191.

Clough Global Funds**FUND PROXY VOTING POLICIES & PROCEDURES**

Each Fund's policies and procedures used in determining how to vote proxies relating to portfolio securities are available on the Funds' website at <http://www.cloughglobal.com>. Information regarding how each Fund voted proxies relating to portfolio securities held by each Fund for the period ended June 30, 2011, are available without charge, upon request, by contacting the Funds at 1-877-256-8445 and on the Commission's website at <http://www.sec.gov>.

PORTFOLIO HOLDINGS

The Funds file their complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q within 60 days after the end of the period. Copies of the Funds' Form N-Q are available without a charge, upon request, by contacting the Funds at 1-877-256-8445 and on the Commission's website at <http://www.sec.gov>. You may also review and copy Form N-Q at the Commission's Public Reference Room in Washington, D.C. For more information about the operation of the Public Reference Room, please call the Commission at 1-800-SEC-0330.

NOTICE

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that each Fund may purchase at market prices from time to time shares of its common stock in the open market.

SHAREHOLDER MEETING

On July 15, 2011, the Funds held their annual meeting of Shareholders for the purpose of voting on a proposal to re-elect Trustees of the Funds. The results of the proposal for each Fund were as follows:

Proposal: To re-elect the following trustees to the Clough Global Allocation Fund Board.

Clough Global Funds

Investment Advisory Agreement

September 30, 2011 (Unaudited)

On July 13, 2011, the Board of Trustees of each Fund met in person to, among other things, review and consider the renewal of the Advisory Agreements. In its consideration of the Advisory Agreements, the Trustees, including the non-interested Trustees, considered in general the nature, quality and scope of services to be provided by Clough.

Prior to the beginning of their review of the Advisory Agreements, counsel to the Funds, who also serves as independent counsel to the non-interested Trustees, discussed with the Trustees their fiduciary responsibilities in general and also specifically with respect to the renewal of the Advisory Agreements.

Representatives from Clough presented Clough's materials regarding consideration of renewal of the Advisory Agreements. The Board noted that included in the Board materials were responses by Clough to a questionnaire drafted by legal counsel to the Funds to assist the Board in evaluating whether to renew the Advisory Agreements (the 15(c) Materials). The Board noted that the 15(c) Materials were extensive, and included information relating to: each Fund's investment results; portfolio composition; advisory fee and expense comparisons; financial information regarding Clough; descriptions such as compliance monitoring and portfolio trading practices; information about the personnel providing investment management services to the Funds; and the nature of services provided under the Advisory Agreements.

The Board reviewed the organizational structure of Clough and the qualifications of Clough and its principals to act as each Fund's investment adviser. The Board considered the professional experience of the portfolio managers, including the biographies of Eric A. Brock, James E. Canty and Charles I. Clough, Jr., emphasizing that Mr. Brock, Mr. Canty, and Mr. Clough each had substantial experience as an investment professional. The Trustees, all of whom currently serve as Trustees for the Funds, acknowledged their familiarity with the expertise and standing in the investment community of Messrs. Brock, Canty and Clough, and their satisfaction with the expertise of Clough and the services provided by Clough to the Funds. The Trustees concluded that the portfolio management team was well qualified to serve the Funds in those functions.

The Board next reviewed Clough's procedures relating to compliance and oversight with respect to Clough's brokerage allocation and soft dollar policies. The Trustees noted that Clough's order management systems contain pre-trade compliance functions that review each trade against certain of the Funds' investment restrictions and applicable 1940 Act and Internal Revenue Code restrictions, and noted the efforts that Clough's Chief Compliance Officer will undertake to summarize monthly for Clough's management and quarterly for the Trustees any violations that may occur, as well as any other violations detected through the manual monitoring that supplements the order management system's testing. The Board noted the recent addition of certain personnel by Clough. The Board discussed with representatives from Clough the various other investment products managed by Clough other than the Funds. The Board also noted the adequacy of Clough's facilities. The Trustees concluded that Clough appeared to have adequate procedures and personnel in place to ensure compliance by Clough with applicable law and with each Fund's investment objectives and restrictions.

The Board next reviewed the terms of the Advisory Agreements, noting that Clough would receive a fee of 0.70%, 0.90% and 1.00% based on Clough Global Allocation Fund's, Clough Global Equity Fund's and Clough Global Opportunities Fund's, respectively, average daily total assets. The Trustees reviewed the fees charged by Clough to other clients for which it provides comparable services. The Trustees then reviewed Clough's income statement for the year ended December 31, 2010, and its balance sheet as of that date. The Trustees further reviewed a profit and loss analysis as it relates to Clough's advisory business and compared the profitability analysis to that provided by Clough Capital to the Board in previous years.

The Board discussed the possible benefits Clough may accrue because of its relationship with the Funds as well as potential benefits that accrue to the Funds because of their relationship with Clough. The Board noted that Clough does not realize any direct benefits due to the allocation of brokerage and related transactions on behalf of the Funds.

The Board reviewed and discussed materials prepared and distributed in advance of the meeting regarding the comparability of the investment advisory fees of the Funds with the investment advisory fees of other investment companies, which had been prepared at the request of ALPS by Lipper Analytical Services (Lipper). Lipper's report contained information regarding investment performance, comparisons of cost and expense structures of each Fund with other funds' cost and expense structures, as well as comparisons of each Fund's performance with the performance during similar periods of members of an objectively identified peer group and related matters.

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

As the Funds are unique in the marketplace, Lipper had a difficult time presenting a large peer group for comparison. The Trustees compared fees from nine (9) leveraged closed-end investment companies versus each Fund's fees. The investment advisory fee for this group ranged from 0.694% to 1.000%, with a median of 0.978%. The Board noted that as prepared by Lipper, the net total expenses for this group ranged from 1.155% to 2.017%, with a median of 1.612% and the Clough Global Allocation Fund's, Clough Global Equity Fund's and Clough Global Opportunities Fund's net total expenses were 1.705%, 1.922% and 2.017%, respectively. The Board discussed the other non-management expenses category included in Lipper's expense ratio components. Discussion ensued and the Board noted that the total expense ratio includes investment related expenses. The Board noted that they believe investment related expenses are operational in nature and should not be considered a management expense. Excluding the investment related expenses from the total expense ratio, the Board noted that each Fund's overall expenses are comparable to their peer group. The Board further noted that in addition to the Lipper report, the Board also received from Clough a comparative fund universe. The

Table of Contents

Investment Advisory Agreement

Clough Global Funds

September 30, 2011 (Unaudited)

Trustees then reviewed each Fund's performance as compared to the performance of the closed-end fund universe selected by Lipper. For the one-year ended performance as of March 31, 2011, the performance data ranged from a high of 25.03% to a low of 4.11% with a median of 16.58%. The Clough Global Allocation Fund's, Clough Global Equity Fund's and Clough Global Opportunities Fund's performance during such time period was 17.30%, 17.05% and 16.21%, respectively.

The Trustees further noted that the objectives of the funds in the Lipper analysis differed from each Fund's objectives and policies. The Trustees believed that the Lipper report, augmented by Clough's analysis, provided a sufficient comparative universe.

At this point, Mr. Burke and Mr. Canty, both interested persons of the Funds, as well as the other representatives of ALPS and Clough, left the meeting. The non-interested Trustees, with the assistance of legal counsel, reviewed and discussed in more detail the information that had been presented relating to Clough, the Advisory Agreements and Clough's profitability.

Mr. Burke, Mr. Canty, and the representatives of ALPS and Clough re-joined the meeting. The Board of Trustees of the Fund, present in person, with the non-interested Trustees present in person voting separately, unanimously concluded that the investment advisory fee of 0.70%, 0.90% and 1.00% based on Clough Global Allocation Fund's, Clough Global Equity Fund's and Clough Global Opportunities Fund's, respectively, average daily total assets are fair and reasonable for each respective Fund and that the renewal of the Advisory Agreements is in the best interests of each Fund and its shareholders.
