**Item 8.01 Other Events**

On March 1, 2012, PowerSecure International, Inc., a Delaware corporation (the Company), issued a press release announcing that its new energy efficient LED-based area light, called SecureLite™, has been adopted by two more utilities as their standard fixture. These utilities have placed orders for several hundred units, which will be used to replace lighting on their systems as their traditional lights require repair or replacement, and for specific residential and commercial illumination projects. The Company expects additional orders will be received in 2012 and beyond as these initial orders are depleted.

The press release filed herewith as Exhibit 99.1 contains forward-looking statements relating to the Company's future performance made within the meaning of and pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. A more thorough discussion of certain risks, uncertainties and other factors that may affect the Company is included in the Company's most recent Annual Report on Form 10-K and in subsequent reports, including the Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, that the Company files or furnishes with the Securities and Exchange Commission.
