NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION FOR THE THREE MONTHS ENDED 31 MARCH 2012

1. GENERAL INFORMATION

China Unicom (Hong Kong) Limited (the Company) was incorporated as a limited liability company in the Hong Kong Special Administrative Region (Hong Kong), the People's Republic of China (the PRC) on 8 February 2000. The principal activities of the Company are investment holding and the Company's subsidiaries are principally engaged in the provision of cellular and fixed-line voice and related value-added services, broadband and other Internet-related services, information communications technology services, and business and data communications services in the PRC. The GSM cellular voice, WCDMA cellular voice and related value-added services is referred to as the Mobile business, the services aforementioned other than the Mobile business is hereinafter collectively referred to as the Fixed-line business. The Company and its subsidiaries are hereinafter referred to as the Group.

2. BASIS OF PREPARATION

The basis of preparation and the significant accounting policies and estimates adopted in the preparation of the unaudited condensed consolidated financial information for the three months ended 31 March 2012 are consistent with those used in preparing the annual financial statements for the year ended 31 December 2011.

(a) Business Combination of Entity and Business under Common Control

On 1 December 2011, China Unicom Broadband Online Limited Corporation (Broadband Online, a wholly-owned subsidiary of China United Network Communications Corporation Limited (CUCL, a wholly-owned subsidiary of the Company)) entered into an equity interest transfer agreement with China United Network Communications Group Company Limited (a state-owned enterprise established in the PRC, hereinafter referred to as Unicom Group, the ultimate holding company of the Company), pursuant to which Broadband Online agreed to acquire the entire equity interest of China Unicom NewSpace Limited (Unicom NewSpace) from Unicom Group for a total cash consideration of RMB158 million. The acquisition is hereinafter referred to as 2011 Business Combination which was completed on 1 December 2011.

Table of Contents

The 2011 Business Combination was considered a business combination of entity and business under common control as Unicom NewSpace was under the control of Unicom Group, the Group's ultimate holding company before and after the acquisition.

Under Hong Kong Financial Reporting Standards (HKFRSs), the 2011 Business Combination was accounted for using merger accounting in accordance with the Accounting Guideline 5 Merger accounting for common control combinations (AG 5) issued by the Hong Kong Institute of Certified Public Accountants (HKICPA). Upon the adoption of International Financial Reporting Standards (IFRSs) by the Group in 2008, the Group adopted the accounting policy to account for business combinations of entities and businesses under common control using the predecessor values method, which is consistent with HKFRSs. Accordingly, the acquired assets and liabilities are stated at predecessor values, and were included in the consolidated financial statements from the beginning of the earliest period presented as if the entities and businesses acquired had always been part of the Group considering the acquired entities had always been under common control during all the periods presented.

(b) Adoption of amended IFRS/HKFRS 1

Pursuant to the amended IFRS/HKFRS 1 First-time Adoption of International/Hong Kong Financial Reporting Standards issued in 2010, a first-time-adopt entity may have established a deemed cost in accordance with previous generally accepted accounting principles for some or all of its assets and liabilities by measuring them at their fair value at one particular date because of an event such as a privatisation or initial public offering (IPO). If the measurement date is at or before the date of transition to IFRSs/HKFRSs, the entity may use such event-driven fair value measurements as deemed cost for IFRSs/HKFRSs at the date of that measurement. If the measurement date is after the date of transition to IFRSs/HKFRSs, but during the period covered by the first IFRSs/HKFRSs financial statements, the event-driven fair value measurements may be used as deemed cost when the event occurs. The amendment permits to apply event-driven fair value measurements as deemed cost retrospectively in the first annual period after 1 January 2011.

The Group had completed its IPO process and merger of businesses under common control before the adoption of IFRSs and the property, plant and equipment were revalued for the purpose of the transactions. Such revaluations were event-driven fair value measurements. Accordingly, upon the adoption of amended IFRS/HKFRS 1 in 2011, the Group applied such event-driven fair value measurements as deemed cost for the relevant property, plant and equipment (other than buildings and telecommunications equipment of Mobile business which were accounted for using the cost model), retrospectively. The restated deemed costs of these assets would be subject to depreciation and impairment assessments.

Upon the adoption of amended IFRS/HKFRS 1, the event-driven fair value measurement has been treated as deemed cost, so subsequent re-measurement at fair value of property, plant and equipment is not necessary to comply with IAS/HKAS 16 Property, Plant and Equipment. Accordingly, the Group changed its accounting policy and measures all of its property, plant and equipment at cost less accumulated depreciation and accumulated impairment losses. As a result, those revaluation surpluses or deficits recognised as a consequence of the 2006 and 2008 revaluations have been reversed and their impacts on depreciation have been adjusted accordingly.

Table of Contents

The comparative figures for the three months ended 31 March 2011 have been restated to reflect the effects of the 2011 Business Combination and the change in accounting policy upon adoption of amended IFRS/HKFRS 1.

(c) Going Concern Assumption

As at 31 March 2012, current liabilities of the Group exceeded current assets by approximately RMB163.7 billion (31 December 2011: approximately RMB175.1 billion). Given the current global economic conditions and the Group's expected capital expenditures in the foreseeable future, management has comprehensively considered the Group's available sources of funds as follows:

The Group's continuous net cash inflows from operating activities;

Approximately RMB203.0 billion of revolving banking facilities and registered quota of commercial papers, of which approximately RMB134.1 billion was unutilised as at 31 March 2012; and

Other available sources of financing from domestic banks and other financial institutions given the Group's credit history. In addition, the Group believes that it has ability to raise funds from the short, medium and long-term perspectives and maintain reasonable financing costs through appropriate financing portfolio.

Based on the above considerations, the Board of Directors is of the opinion that the Group has sufficient funds to meet its working capital requirements and debt obligations. As a result, the unaudited condensed consolidated financial information of the Group for the three months ended 31 March 2012 has been prepared on a going concern basis.

3. EARNINGS PER SHARE

Basic earnings per share for the three months ended 31 March 2012 and 2011 were computed by dividing the profit attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the periods.

Diluted earnings per share for the three months ended 31 March 2012 and 2011 were computed by dividing the profit attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the periods, after adjusting for the effects of dilutive potential ordinary shares. All potential ordinary shares for the three months ended 31 March 2012 and 2011 arose from (i) share options granted under the amended Share Option Scheme; (ii) share options granted under the amended Special Purpose Share Option Scheme and (iii) convertible bonds.

Table of Contents

The potential ordinary shares which are not dilutive for the three months ended 31 March 2012 arose from convertible bonds with initial conversion price of HKD15.85, while the potential ordinary shares which are not dilutive for the three months ended 31 March 2011 arose from (i) share options with exercise price of HKD15.42 granted under the amended Share Option Scheme and (ii) convertible bonds with initial conversion price of HKD15.85, which were excluded from the weighted average number of ordinary shares for the purpose of computation of diluted earnings per share.

The following table sets forth the computation of basic and diluted earnings per share:

Note 1: Except for basic earnings per share, all revenue and profit figures herein exclude deferred fixed-line upfront connection fee of RMB13 million for the first quarter of 2011.

Note 2: Including interconnection charges, depreciation and amortisation, networks, operations and support expenses, employee benefit expenses, costs of telecommunications products sold, other operating expenses, finance costs, interest income and other income-net.

Table of Contents

Note 3: EBITDA represents profit for the period before finance costs, interest income, other income-net, income tax, depreciation and amortisation. As the telecommunications business is a capital intensive industry, capital expenditures and finance costs may have a significant impact on the net profit of the companies with similar operating results. Therefore, we believe that EBITDA may be helpful in analysing the operating results of a telecommunications service operator like our Group.

Note 4: The Company completed the acquisition of the entire equity interest in China Unicom NewSpace Limited from China United Network Communications Group Company Limited on 1 December 2011, which was accounted for using merger accounting in accordance with Accounting Guideline 5 Merger accounting for common control combinations issued by the Hong Kong Institute of Certified Public Accountants in November 2005. Under the IFRSs, the Company adopted the accounting policy to account for business combinations of entities and businesses under common control using the predecessor values method, which is consistent with the HKFRSs. The acquired assets and liabilities are stated at predecessor values, and were included in the consolidated financial statements from the beginning of the earliest period presented as if the entities and businesses acquired had always been a part of the Group.
