Item 7.01 Regulation FD Disclosure.

On December 21, 2012, Capital Senior Living Corporation (the Company) issued a press release announcing the acquisition of two senior living communities located in Missouri and Ohio (the Communities) for purchase price of approximately \$32.8 million. The levels of care offered at the Communities include independent living, assisted living and memory care. The acquisition of the Communities, which have both been completed, was financed with approximately \$24.6 million of 10-year fixed rate debt with a blended interest rate of 4.40%. A copy of the Company's press release announcing the acquisition of the Communities is attached as Exhibit 99.1 to this Current Report on Form 8-K.

A copy of the Company's updated slideshow presentation is attached as Exhibit 99.2 to this Current Report on Form 8-K.

The information being furnished under Item 7.01, Exhibit 99.1, and Exhibit 99.2 shall not be deemed filed for purposes of the Securities Exchange Act of 1934, as amended (the Exchange Act), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing. The press release and the presentation contain, and may implicate, forward-looking statements regarding the Company and include cautionary statements identifying important factors that could cause actual results to differ materially from those anticipated.

In the press release and the presentation, the Company's management utilized non-GAAP financial measures to describe the Company's adjusted EBITDAR, adjusted CFO, adjusted CFO per share and other items. These non-GAAP financial measures are used by management to evaluate financial performance and resource allocation for its facilities and for the Company as a whole. These measures are commonly used as an analytical indicator within the senior housing industry, and also serve as a measure of leverage capacity and debt service ability. The Company has provided this information in order to enhance investors overall understanding of the Company's financial performance and prospects. In addition, because the Company has historically provided this type of information to the investment community, the Company believes that including this information provides consistency in its financial reporting.

These non-GAAP financial measures should not be considered as measures of financial performance under generally accepted accounting principles, and items excluded from them are significant components in understanding and assessing financial performance. These measures should not be considered in isolation or as an alternative to net income, cash flows generated by operating, investing, or financing activities, earnings per share or other financial statement data presented in the consolidated financial statements as an indicator of financial performance or liquidity. Because these measures are not measurements determined in accordance with generally accepted accounting principles and are thus susceptible to varying calculations, these measures as presented may not be comparable to other similarly titled measures of other companies.

By filing this Current Report on Form 8-K, the Company does not acknowledge that disclosure of this information furnished under this Item 7.01, Exhibit 99.1 and Exhibit 99.2 is required by Regulation FD or that the information was material or non-public before the disclosure. The Company assumes no obligation to update or supplement forward-looking statements in the press release or the presentation that become untrue because of new information, subsequent events or otherwise.
