Form 10-Q

Notes to Consolidated Financial Statements (Unaudited)

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Basis of Presentation

Hamilton Bancorp, Inc. (the Company) was incorporated on June 7, 2012 to serve as the stock holding company for Hamilton Bank (the Bank), a federally chartered savings bank. On October 10, 2012, in accordance with a Plan of Conversion adopted by its Board of Directors and approved by its members, the Bank converted from a mutual savings bank to a stock savings bank and became the wholly owned subsidiary of the Company. The conversion was accomplished through the sale and issuance of 3,703,000 shares of common stock at a price of \$10.00 per share, through which the Company received proceeds of approximately \$35,640,000, net of offering expenses of approximately \$1,390,000. In connection with the conversion, the Bank's Board of Directors adopted an employee stock ownership plan (the ESOP) which subscribed for 8.0% of the shares sold in the offering, or 296,240 shares. Accordingly, the reported results for the three months and nine months ended December 31, 2012 relate to the consolidated holding company and the results for the three months and nine months ended December 31, 2011 relate solely to the operations of the Bank. All material intercompany accounts and transactions have been eliminated in consolidation.

In accordance with Office of the Comptroller of the Currency (the OCC) regulations, upon the completion of the conversion, the Bank restricted retained earnings by establishing a liquidation account. The liquidation account will be maintained for the benefit of eligible account holders who continue to maintain their accounts at the Bank after conversion. The liquidation account will be reduced annually to the extent that eligible account holders have reduced their qualifying deposits. Subsequent increases will not restore an eligible account holder's interest in the liquidation account. In the event of a complete liquidation of the Bank, and only in such event, each account holder will be entitled to receive a distribution from the liquidation account in an amount proportionate to the adjusted qualifying account balances then held. The Bank may not pay dividends if those dividends would reduce equity capital below the required liquidation account amount.

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial reporting and with instructions for Form 10-Q and Regulation S-X as promulgated by the Securities and Exchange Commission (the SEC). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, the preceding unaudited consolidated financial statements contain all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial condition and results of operations for the periods presented. We derived the balances as of March 31, 2012 from audited financial statements. Operating results for the three and nine months ended December 31, 2012 are not necessarily indicative of the results that may be expected for the fiscal year ending March 31, 2013, or any other period. These consolidated financial statements should be read in conjunction with the consolidated financial statements of the Bank for the year ended March 31, 2012 included as part of Hamilton Bancorp, Inc.'s Prospectus dated August 13, 2012 as filed with the SEC pursuant to Securities Act Rule 424(b)(3) on August 22, 2012 (the Prospectus). Certain amounts from prior period financial statements have been reclassified to conform to the current period's presentation.

Nature of Operations

The Bank provides a full range of banking services to individuals and businesses through its main office and five branches in the Baltimore metropolitan area. Its primary deposit products are certificates of deposit and demand, savings, NOW, and money market accounts. Its primary lending products are real estate mortgages and commercial business loans.

Table of Contents

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated events and transactions subsequent to December 31, 2012 through February 13, 2013, the date these financial statements were issued. No significant subsequent events were identified that would affect the presentation of the financial statements.

Note 2: New Accounting Pronouncements Recent Accounting Pronouncements

ASU No. 2011-03, Transfers and Servicing (Topic 860) Reconsideration of Effective Control for Repurchase Agreements. ASU 2011-03 is intended to improve financial reporting of repurchase agreements and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. ASU 2011-03 removes from the assessment of effective control (i) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee, and (ii) the collateral maintenance guidance related to that criterion. ASU 2011-03 became effective for Hamilton on April 1, 2012, and has not had a significant impact on our financial statements.

ASU 2011-04, Fair Value Measurement (Topic 820) Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs. ASU 2011-04 amends Topic 820, Fair Value Measurements and Disclosures, to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. ASU 2011-04 clarifies the application of existing fair value measurement requirements, changes certain principles in Topic 820 and requires additional fair value disclosures. ASU 2011-04 became effective for Hamilton on April 1, 2012, and has not had a significant impact on our financial statements.

ASU 2011-05, Comprehensive Income (Topic 220) Presentation of Comprehensive Income. ASU 2011-05 amends Topic 220, Comprehensive Income, to require that all non-owner changes in shareholders' equity be presented in either a single continuous statement of comprehensive income or in two separate but consecutive statements. Additionally, ASU 2011-05 requires entities to present, on the face of the financial statements, reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statement or statements where the components of net income and the components of other comprehensive income are presented. The option to present components of other comprehensive income as part of the statement of changes in shareholders' equity was eliminated. ASU 2011-05 became effective for Hamilton on April 1, 2012; however, certain provisions related to the presentation of reclassification adjustments have been deferred by ASU 2011-12 *Comprehensive Income (Topic 220) Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05*, as further discussed below. In connection with the application of ASU 2011-05, our financial statements now include separate statements of comprehensive income.

ASU 2011-08, Intangibles - Goodwill and Other (Topic 350) Testing Goodwill for Impairment. ASU 2011-08 amends Topic 350, Intangibles - Goodwill and Other, to give entities the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, an entity determines it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. However, if an entity concludes otherwise, then it is required to perform the first step of the two-step impairment test by calculating the fair value of the reporting unit and comparing the fair value with the carrying amount of the reporting unit. ASU 2011-08 became effective for Hamilton on April 1, 2012, and has not had a significant impact on our financial statements.

Table of Contents

HAMILTON BANCORP, INC AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

ASU 2011-11, Balance Sheet (Topic 210) Disclosures about Offsetting Assets and Liabilities. ASU 2011-11 amends Topic 210, Balance Sheet, to require an entity to disclose both gross and net information about financial instruments, such as sales and repurchase agreements and reverse sale and repurchase agreements and securities borrowing/lending arrangements, and derivative instruments that are eligible for offset in the statement of financial position and/or subject to a master netting arrangement or similar agreement. ASU 2011-11 is effective for annual and interim periods beginning on April 1, 2013, and is not expected to have a significant impact on our financial statements.

ASU 2011-12 Comprehensive Income (Topic 220) Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05. ASU 2011-12 defers changes in ASU 2011-05 that relate to the presentation of reclassification adjustments to allow the FASB time to redeliberate whether to require presentation of such adjustments on the face of the financial statements to show the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income. ASU 2011-12 allows entities to continue to report reclassifications out of accumulated other comprehensive income consistent with the presentation requirements in effect before ASU 2011-05. All other requirements in ASU 2011-05 are not affected by ASU 2011-12. ASU 2011-12 became effective for Hamilton on April 1, 2012 and has not had a significant impact on our financial statements.

Note 3: Earnings per Share

When presented, basic earnings per share is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity. Because the mutual to stock conversion was not completed until October 10, 2012, per share earnings data is not meaningful for prior comparative periods and therefore is not presented. The end of period shares outstanding is being used for the earnings per share calculation for the three and nine months ended December 31, 2012, assuming for calculation purposes that the shares were outstanding for the entire period and not since the issue date of October 10, 2012.

Both the basic and diluted earnings per share for the three and nine months ended December 31, 2012 are summarized below:

	Three Months Ended December 31, 2012	Nine Months Ended December 31, 2012
Net income	\$ 65,434	\$ 429,459
Average common shares outstanding	3,406,760	3,406,760
Earnings per common share - basic and diluted	\$ 0.02	\$ 0.13

Note 4: Goodwill and Other Intangible Assets

On December 4, 2009, the Bank acquired a branch office in Pasadena, Maryland from K Bank. The Bank paid premiums of \$653,000 and \$92,000 for the certificates of deposit and loans that were acquired, respectively. The premiums are being amortized over four years, which is the estimated lives of the certificates and loans. The Bank also purchased \$757,432 of premises and equipment, which includes the building, land, and equipment. In addition, the Bank recorded goodwill totaling \$2,664,432 and identifiable intangibles (core deposit intangible) totaling \$434,000. The goodwill is deductible for tax purposes.

HAMILTON BANCORP, INC AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

The activity in goodwill and acquired intangible assets related to the branch purchase is as follows:

	Goodwill	Core deposit intangible
Balance March 31, 2011	\$ 2,664,432	\$ 327,333
Acquired during the period		
Amortization		(49,917)
Balance December 31, 2011	\$ 2,664,432	\$ 277,416
	Goodwill	Core deposit intangible
Balance March 31, 2012	\$ 2,664,432	\$ 263,666
Acquired during the period		
Amortization		(40,333)
Balance December 31, 2012	\$ 2,664,432	\$ 223,333

Note 5: Investment Securities Available for Sale

The amortized cost and fair value of securities at December 31, 2012 and March 31, 2012, are summarized as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
December 31, 2012				
Investment securities available for sale:				
U.S. government agency	\$ 22,587,539	\$ 97,576	\$ 58,823	\$ 22,626,292
Mortgage-backed	72,515,362	1,433,965	57,887	73,891,440
	95,102,901	1,531,541	116,710	96,517,732
FHLMC stock	6,681		4,840	1,841
	\$ 95,109,582	\$ 1,531,541	\$ 121,550	\$ 96,519,573
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
March 31, 2012				

Edgar Filing: Hamilton Bancorp, Inc. - Form 10-Q

Investment securities available for sale:				
U.S. government agency	\$ 18,766,086	\$ 118,981	\$ 64,504	\$ 18,820,563
Mortgage-backed	75,015,823	1,249,592	257,177	76,008,238
	93,781,909	1,368,573	321,681	94,828,801
FHLMC stock	6,681		5,106	1,575
	\$ 93,788,590	\$ 1,368,573	\$ 326,787	\$ 94,830,376

Proceeds from sales of investment securities were \$13,048,297 and \$11,306,432 during the nine months ended December 31, 2012 and 2011, respectively, with gains of \$122,314 and losses of \$43,308 for the nine months ended December 31, 2012 and gains of \$176,722 and no losses for the nine months ended December 31, 2011.

Table of Contents

HAMILTON BANCORP, INC AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

As of December 31, 2012, the Bank had pledged one security to the Federal Reserve Bank with a book value of \$520,552 and a fair value of \$560,541.

As of December 31, 2012 and March 31, 2012, all mortgage-backed securities are backed by U.S. Government-Sponsored Enterprises (GSE s).

The amortized cost and estimated fair value of debt securities by contractual maturity at December 31, 2012 and March 31, 2012 follow. Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations.

	Available-for-Sale			
	December 31, 2012		March 31, 2012	
	Amortized cost	Fair value	Amortized cost	Fair value
Maturing				
Within one year	\$ 1,511,275	\$ 1,520,240	\$ 1,012,984	\$ 1,018,605
Over one to five years	2,084,926	2,147,575	3,711,405	3,800,596
Over five to ten years	11,998,756	11,988,110	5,991,697	5,990,794
Over ten years	6,992,582	6,970,367	8,050,000	8,010,568
Mortgage-backed, in monthly installments	72,515,362	73,891,440	75,015,823	76,008,238
	\$ 95,102,901	\$ 96,517,732	\$ 93,781,909	\$ 94,828,801

The following table presents the Bank's investments' gross unrealized losses and the corresponding fair values by investment category and length of time that the securities have been in a continuous unrealized loss position at December 31, 2012.

	Less than 12 months		12 months or longer		Total	
	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value
U.S. government agency obligations	\$ 58,823	\$ 10,935,244	\$	\$	\$ 58,823	\$ 10,935,244
Mortgage-backed	55,853	17,653,348	2,034	55,943	57,887	17,709,291
FHLMC stock			4,840	1,841	4,840	1,841
	\$ 114,676	\$ 28,588,592	\$ 6,874	\$ 57,784	\$ 121,550	\$ 28,646,376

The unrealized losses on debt securities are considered temporary because the impairment in value is caused by fluctuation in the current interest rate market. These securities are expected to be redeemed at par at maturity.

Notes to Consolidated Financial Statements (Continued)

Note 6: Loans Receivable and Allowance for Loan Losses

Loans receivable consist of the following at December 31, 2012 and March 31, 2012:

	December 31, 2012	March 31, 2012
Real estate loans:		
One-to four-family:		
Residential	\$ 67,276,544	\$ 76,687,365
Investor	16,309,852	17,265,202
Commercial	35,472,360	31,017,798
Construction	3,479,463	3,865,397
Commercial	28,313,427	27,158,449
Home equity loans	14,625,193	16,343,508
Consumer	1,116,395	1,180,933
Total Loans	166,593,234	173,518,652
Premium on loans purchased	21,084	38,334
Net deferred loan origination fees and costs	(112,787)	(100,197)
Allowance for loan losses	(1,943,193)	(3,552,364)
	 \$ 164,558,338	 \$ 169,904,425

Residential lending is generally considered to involve less risk than other forms of lending, although payment experience on these loans is dependent on economic and market conditions in the Bank's lending area. Construction loan repayments are generally dependent on the related properties or the financial condition of its borrower or guarantor. Accordingly, repayment of such loans can be more susceptible to adverse conditions in the real estate market and the regional economy.

A substantial portion of the Bank's loan portfolio is mortgage loans secured by residential and commercial real estate properties located in the Baltimore metropolitan area. Loans are extended only after evaluation of a customer's creditworthiness and other relevant factors on a case-by-case basis. The Bank generally does not lend more than 90% of the appraised value of a property and requires private mortgage insurance on residential mortgages with loan-to-value ratios in excess of 80%. In addition, the Bank generally obtains personal guarantees of repayment from borrowers and/or others for construction loans and disburses the proceeds of those and similar loans only as work progresses on the related projects.

Table of Contents

HAMILTON BANCORP, INC AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

The following tables set forth for the nine months ended December 31, 2012 and for the year ended March 31, 2012, the balance of the allowance for loan losses by portfolio segment, disaggregated by impairment methodology, which is further segregated by amounts evaluated for impairment collectively and individually. The allowance for loan losses allocated to each portfolio segment is not necessarily indicative of future losses in any particular portfolio segment and does not restrict the use of the allowance to absorb losses in other portfolio segments. There were no recoveries during the nine months ended December 31, 2012 and the year ended March 31, 2012.

Notes to Consolidated Financial Statements (Continued)

Credit quality indicators

As part of the ongoing monitoring of the credit quality of the Bank's loan portfolio, management tracks certain credit quality indicators including trends related to the risk grade of loans, the level of classified loans, net charge offs, nonperforming loans, and the general economic conditions in the Bank's market.

The Bank utilizes a risk grading matrix to assign a risk grade to each of its loans. A description of the general characteristics of loans characterized as watch list or classified is as follows:

Special Mention

A special mention loan has potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or in the Bank's credit position at some future date. Special mention loans are not adversely classified and do not expose the Bank to sufficient risk to warrant adverse classification.

Borrowers may exhibit poor liquidity and leverage positions resulting from generally negative cash flow or negative trends in earnings. Access to alternative financing may be limited to finance companies for business borrowers and may be unavailable for commercial real estate borrowers.

Substandard

A substandard loan is inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Substandard loans have a well defined weakness, or weaknesses, that jeopardize the collection or liquidation of the debt. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected.

Borrowers may exhibit recent or unexpected unprofitable operations, an inadequate debt service coverage ratio, or marginal liquidity and capitalization. These loans require more intense supervision by Bank management.

Doubtful

A doubtful loan has all the weaknesses inherent as a substandard loan with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Table of Contents

HAMILTON BANCORP, INC AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

The following tables present the December 31, 2012 and March 31, 2012, balances of classified loans based on the risk grade. Classified loans include Special Mention, Substandard, and Doubtful loans.

December 31, 2012	Special Mention	Substandard	Doubtful	Total
Real estate loans				
One-to four-family	\$ 2,062,233	\$ 1,571,324	\$	\$ 3,633,557
Commercial	2,441,662	1,406,421		3,848,083
Construction	2,476,150	1,003,314		3,479,464
Commercial	2,078,961	977,762		3,056,723
Home equity loans	23,513	36,891		60,404
Consumer				
	\$ 9,082,519	\$ 4,995,712	\$	\$ 14,078,231

Commercial		1,782,004	592,963	2,374,967
Home equity loans		30,033		30,033
Consumer				
	\$ 2,286,078	\$ 7,718,692	\$ 592,963	\$ 10,597,733

Classified loans also include certain loans that have been modified in troubled debt restructurings (TDRs) where economic concessions have been granted to borrowers who have experienced or are expected to experience financial difficulties. These concessions typically result from the Bank's loss mitigation activities and could include reductions in the interest rate, payment extensions, forgiveness of principal, forbearance or other actions. Generally, TDRs are classified as nonperforming at the time of restructure and may only be returned to performing status after considering the borrower's sustained repayment performance for a reasonable period, generally six months.

A summary of TDRs at December 31, 2012 and March 31, 2012 follows:

December 31, 2012	Performing	Nonperforming	Total
Real estate			
One-to four-family	\$ 1,469,337	\$	\$ 1,469,337
Commercial			
Construction

HAMILTON BANCORP, INC AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

In the normal course of business, the Bank has various outstanding commitments and contingent liabilities that are not reflected in the accompanying financial statements. Loan commitments and lines of credit are agreements to lend to a customer as long as there is no violation of any condition to the contract. Mortgage loan commitments generally have fixed interest rates, fixed expiration dates, and may require payment of a fee. Other loan commitments generally have fixed interest rates. Lines of credit generally have variable interest rates. Such lines do not represent future cash requirements because it is unlikely that all customers will draw upon their lines in full at any time.

The Bank's maximum exposure to credit loss in the event of nonperformance by the customer is the contractual amount of the credit commitment. Loan commitments, lines of credit, and letters of credit are made on the same terms, including collateral, as outstanding loans. Management is not aware of any accounting loss to be incurred by funding these loan commitments.

The Bank had the following outstanding commitments and unused lines of credit as of December 31, 2012 and March 31, 2012:

	December 31, 2012	March 31, 2012
Unused commercial lines of credit	\$ 7,964,649	\$ 8,164,696
Unused home equity lines of credit	16,760,591	16,445,437
Mortgage loan commitments	220,000	455,000
Construction loan commitments	123,164	494,603
Commercial loan commitments	2,497,903	3,590,000

Note 7: Regulatory Capital Ratios

The Office of the Comptroller of the Currency has adopted risk-based capital standards for banking organizations. These standards require ratios of capital to assets for minimum capital adequacy and to be classified as well capitalized under prompt corrective action provisions. The capital ratios and minimum capital requirements of the Bank at December 31, 2012 and March 31, 2012 were as follows:

	Actual		Minimum capital requirement		To be well capitalized (1)	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
December 31, 2012						
Total Risk-based Capital (to risk-weighted assets)	\$ 47,257	26.82%	\$ 14,094	8.00%	\$ 17,617	10.00%
Tier 1 Capital (to risk-weighted assets)	\$ 45,313	25.72%	N/A	N/A	\$ 10,570	6.00%
Tier 1 Capital (to adjusted total assets)	\$ 45,313	13.73%	\$ 9,901	3.00%	\$ 16,502	5.00%
Tangible Capital (to adjusted total assets)	\$ 45,313	13.73%	\$ 4,951	1.50%	N/A	N/A
March 31, 2012						
Total Risk-based Capital (to risk-weighted assets)	\$ 33,552	20.66%	\$ 12,998	8.00%	\$ 16,247	10.00%
Tier 1 Capital (to risk-weighted assets)	\$ 31,506	19.04%	N/A	N/A	\$ 9,748	6.00%
Tier 1 Capital (to adjusted total assets)	\$ 31,506	9.91%	\$ 9,537	4.00%	\$ 15,895	5.00%
Tangible Capital (to adjusted total assets)	\$ 31,506	9.91%	\$ 4,769	1.50%	N/A	N/A

(1) Under prompt corrective action provisions

Table of Contents

HAMILTON BANCORP, INC AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

Tier 1 capital consists of total shareholders' equity less goodwill and intangible assets. Total capital includes a limited amount of the allowance for loan losses and a portion of any unrealized gain on equity securities. In calculating risk-weighted assets, specified risk percentages are applied to each category of asset and off-balance-sheet items.

Failure to meet the capital requirements could affect, among other things, the Bank's ability to accept brokered deposits and may significantly affect the operations of the Bank.

In its regulatory report filed as of December 31, 2012, the Bank exceeded all of its regulatory capital requirements and was considered "well capitalized" under regulatory guidelines. Management is not aware of any events that would have caused this classification to change. Management has no plans that should change the classification of the capital adequacy.

Note 8: Fair Value Measurements

Generally accepted accounting principles define fair value, establish a framework for measuring fair value, and establish a hierarchy for determining fair value measurement. The hierarchy includes three levels and is based upon the valuation techniques used to measure assets and liabilities. The three levels are as follows:

Level 1: Valuation is based on quoted prices (unadjusted) for identical assets or liabilities in active markets;

Level 2: Valuation is determined from quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar instruments in markets that are not active or by model-based techniques in which all significant inputs are observable in the market; and

Level 3: Valuation is derived from model-based techniques in which at least one significant input is unobservable and based on the Company's own estimates about the assumptions that market participants would use to value the asset or liability.

Table of Contents

HAMILTON BANCORP, INC AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

The following is a description of the valuation methods used for instruments measured at fair value as well as the general classification of such instruments pursuant to the applicable valuation method.

Fair value measurements on a recurring basis

Securities available for sale If quoted prices are available in an active market for identical assets, securities are classified within Level 1 of the hierarchy. If quoted market prices are not available, then fair values are estimated using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. As of December 31, 2012 and March 31, 2012, the Bank has categorized its investment securities available for sale as follows:

	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total
December 31, 2012				
U.S. government agency	\$	\$ 22,626,292	\$	\$ 22,626,292
Mortgage-backed		73,891,440		73,891,440
FHLMC stock	1,841			1,841
Total investment securities available for sale	\$ 1,841	\$ 96,517,732	\$	\$ 96,519,573
March 31, 2012				
U.S. government agency	\$	\$ 18,820,563	\$	\$ 18,820,563
Mortgage-backed		76,008,238		76,008,238
FHLMC stock	1,575			1,575
Total investment securities available for sale	\$ 1,575	\$ 94,828,801	\$	\$ 94,830,376

Fair value measurements on a nonrecurring basis

Impaired Loans The Bank has measured impairment generally based on the fair value of the loan's collateral. Fair value is generally determined based upon independent appraisals of the properties, or discounted cash flows based upon the expected proceeds. These assets are included as Level 3 fair values. As of December 31, 2012 and March 31, 2012, the fair values consist of loan balances of \$7,927,640 and \$10,597,733 that have been written down by \$624,045 and \$2,252,544, respectively, as a result of specific loan loss allowances.

Foreclosed real estate The Bank's foreclosed real estate is measured at fair value less estimated cost to sell. As of December 31, 2012 and March 31, 2012, the fair value of foreclosed real estate was estimated to be \$1,183,647 and \$755,659, respectively. Fair value was determined based on offers and/or appraisals. Cost to sell the assets was based on standard market factors. The Company has categorized its foreclosed assets as Level 3. There was no foreclosed real estate as of March 31, 2011.

	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total
December 31, 2012				
Impaired Loans	\$	\$	\$ 7,303,595	\$ 7,303,595
Foreclosed real estate			1,183,647	1,183,647

Edgar Filing: Hamilton Bancorp, Inc. - Form 10-Q

Total impaired loans and foreclosed real estate	\$	\$	\$ 8,487,242	\$ 8,487,242
March 31, 2012				
Impaired Loans	\$	\$	\$ 8,345,189	\$ 8,345,189
Foreclosed real estate			755,659	755,659
Total impaired loans and foreclosed real estate	\$	\$	\$ 9,100,848	\$ 9,100,848

Table of Contents

HAMILTON BANCORP, INC AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

The following table reconciles the beginning and ending balance of foreclosed real estate, which is measured on a nonrecurring basis using significant unobservable, level 3, inputs:

Balance, March 31, 2012	\$ 755,659
Transfer to foreclosed real estate	427,988
 Balance, December 31, 2012	 \$ 1,183,647

The remaining financial assets and liabilities are not reported on the balance sheets at fair value on a recurring basis. The calculation of estimated fair values is based on market conditions at a specific point in time and may not reflect current or future fair values.

	December 31, 2012		March 31, 2012	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets				
Level 1 inputs				
Cash and cash equivalents	\$ 51,871,461	\$ 51,871,461	\$ 35,249,548	\$ 35,249,548
Certificates of deposit in other banks			248,000	248,000
Level 2 inputs				
Federal Home Loan Bank stock	480,800	480,800	501,900	501,900
Bank-owned life insurance	11,528,423	11,528,423	8,307,075	8,307,075
Level 3 inputs				
Loans receivable, net	164,558,338	166,798,481	169,904,425	175,838,162
Financial liabilities				
Level 1 inputs				
Advance payments by borrowers for taxes and insurance	249,967	249,967	906,854	906,854
Level 3 inputs				
Deposits	264,702,689	266,083,064	281,014,802	281,981,886

The fair values of cash and cash equivalents, certificates of deposit in other banks, and advance payment by borrowers for taxes and insurance are estimated to equal the carrying amount. These are Level 1 inputs.

The fair values of Federal Home Loan Bank stock and bank-owned life insurance are estimated to equal carrying amounts, which are based on repurchase prices of the FHLB stock and the insurance company. These are Level 2 inputs.

The fair value of fixed-rate loans is estimated to be the present value of scheduled payments discounted using interest rates currently in effect. The fair value of variable-rate loans, including loans with a demand feature, is estimated to equal the carrying amount. The valuation of loans is adjusted for estimated loan losses.

The fair value of interest-bearing checking, savings, and money market deposit accounts is equal to the carrying amount. The fair value of fixed-maturity time deposits is estimated based on interest rates currently offered for deposits of similar remaining maturities.

Edgar Filing: Hamilton Bancorp, Inc. - Form 10-Q

The fair value of outstanding loan commitments and unused lines of credit are considered to be the same as the contractual amounts, and are not included in the table above. These commitments generate fees that approximate those currently charged to originate similar commitments.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

Safe Harbor Statement for Forward-Looking Statements

This report may contain forward-looking statements within the meaning of the federal securities laws. These statements are not historical facts; rather they are statements based on the Company's current expectations regarding its business strategies and their intended results and its future performance. Forward-looking statements are preceded by terms such as "expects", "believes", "anticipates", "intends", and similar expressions.

Forward-looking statements are not guarantees of future performance. Numerous risks and uncertainties could cause or contribute to the Company's actual results, performance, and achievements being materially different from those expressed or implied by the forward-looking statements. Factors that may cause or contribute to these differences include, without limitation, general economic conditions, including changes in market interest rates and changes in monetary and fiscal policies of the federal government, legislative and regulatory changes, the quality and composition of the loan and investment securities portfolio, loan demand, deposit flows, competition, and changes in accounting principles and guidelines. Additional factors that may affect our results are discussed in Hamilton Bancorp, Inc.'s Prospectus dated August 13, 2012 as filed with the Securities and Exchange Commission pursuant to Securities Act Rule 424(b)(3) on August 22, 2012. These factors should be considered in evaluating the forward-looking statements, and undue reliance should not be placed on such statements. Except as required by applicable law or regulation, the Company assumes no obligation and disclaims any obligation to update any forward-looking statements.

General

Hamilton Bancorp, Inc. (the "Company") is a Maryland corporation incorporated on June 7, 2012 by Hamilton Bank (the "Bank") to be its holding company following the Bank's conversion from the mutual to the stock form of organization (the "Conversion"). The Conversion was completed on October 10, 2012. On that same date, the Company completed its public stock offering and issued 3,703,000 shares of its common stock for aggregate proceeds of \$37,030,000, and net proceeds of \$35,640,000. The Company's business is the ownership of the outstanding capital stock of the Bank. The Company does not own or lease any property but instead uses the premises, equipment and other property of the Bank.

Founded in 1915, the Bank is a community-oriented financial institution, dedicated to serving the financial service needs of customers and businesses within its geographic area, which consists of Baltimore City, Baltimore County, and Anne Arundel County in Maryland. We offer a variety of deposit products and provide loans secured by real estate located in our market area. Our real estate loans consist primarily of one-to four-family mortgage loans, as well as commercial real estate loans, and home equity loans and lines of credit. We also offer commercial term and line of credit loans and, to a limited extent, consumer loans. We currently operate out of our corporate headquarters in Towson, Maryland and full-service branch offices located in Baltimore City, Cockeysville, Towson and Pasadena, Maryland. The Bank is subject to extensive regulation, examination and supervision by the Office of the Comptroller of the Currency, its primary federal regulator, and the Federal Deposit Insurance Corporation, its deposit insurer. The Company is subject to regulation and supervision by the Board of Governors of the Federal Reserve System.

The Company and the Bank maintain an Internet website at <http://www.hamilton-bank.com>. Information on our website should not be considered a part of this Quarterly Report on Form 10-Q.

Critical Accounting Policies

We consider accounting policies involving significant judgments and assumptions by management that have, or could have, a material impact on the carrying value of certain assets or on income to be critical accounting policies. The following represent our critical accounting policies:

Allowance for Loan Losses. The allowance for loan losses is the amount estimated by management as necessary to cover losses inherent in the loan portfolio at the balance sheet date. The allowance is established through the provision for

Table of Contents

loan losses, which is charged to income. Determining the amount of the allowance for loan losses necessarily involves a high degree of judgment. Among the material estimates required to establish the allowance are: loss exposure at default, the amount and timing of future cash flows on impacted loans, value of collateral, and determination of loss factors to be applied to the various elements of the portfolio. All of these estimates are susceptible to significant change. Management reviews the level of the allowance monthly and establishes the provision for loan losses based upon an evaluation of the portfolio, past loss experience, current economic conditions, and other factors related to the collectability of the loan portfolio. Although we believe that we use the best information available to establish the allowance for loan losses, future adjustments to the allowance may be necessary if economic or other conditions differ substantially from the assumptions used in making the evaluation. In addition, the Office of The Comptroller of the Currency, as an integral part of its examination process, periodically reviews our allowance for loan losses and may require us to recognize adjustments to the allowance based on its judgments about information available to it at the time of its examination. A large loss could deplete the allowance and require increased provisions to replenish the allowance, which would adversely affect earnings.

Fair Value of Investments. Securities are characterized as available for sale or held to maturity based on management's ability and intent regarding such investment at acquisition. On an ongoing basis, management must estimate the fair value of its investment securities based on information and assumptions it deems reliable and reasonable, which may be quoted market prices or if quoted market prices are not available, fair values extrapolated from the quoted prices of similar instruments. Based on this information, an assessment must be made as to whether any decline in the fair value of an investment security should be considered an other-than-temporary impairment and recorded in noninterest revenue as a loss on investments. The determination of such impairment is subject to a variety of factors, including management's judgment and experience.

Goodwill Impairment. Goodwill represents the excess purchase price paid for our Pasadena branch over the fair value of the net assets acquired. Goodwill is not amortized but is tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. The Bank is considered the Reporting Unit for purposes of impairment testing. Impairment testing requires that the fair value of the Bank be compared to the carrying amount of the Bank's net assets, including goodwill. If the fair value of the Bank exceeds the book value, no write-down of recorded goodwill is required. If the fair value of the Bank is less than book value, an expense may be required to write-down the related goodwill to the proper carrying value. We test for impairment of goodwill during February of each year. We estimate the fair value of the Bank utilizing three valuation methods including the Comparable Transactions Approach, the Public Market Peers Approach, and the Discounted Cash Flow Approach.

Based on our impairment testing during February 2012, there was no evidence of impairment of the Bank's goodwill or intangible assets.

Comparison of Financial Condition at December 31, 2012 and March 31, 2012

Assets. Total assets increased \$16.3 million, or 5.1%, to \$334.8 million at December 31, 2012 from \$318.5 million at March 31, 2012. The increase was primarily the result of a \$16.6 million increase in cash and cash equivalents, a \$1.7 increase in total securities, a \$3.2 million increase in Bank-owned life insurance (BOLI), partially offset by a \$5.3 million decrease in net loans receivable.

Cash and Cash Equivalents. Cash and cash equivalents increased by \$16.6 million, or 47.2%, to \$51.9 million at December 31, 2012 from \$35.2 at March 31, 2012. The increase in cash and cash equivalents is primarily due to \$37.0 million received in proceeds from Hamilton Bancorp's stock offering in connection with the mutual-to-stock conversion of Hamilton Bank. The stock conversion date was October 10, 2012. Roughly \$1.4 million of the proceeds were used to pay offering expenses and another \$16.3 million was invested in Hamilton Bank as equity. In addition, some of the proceeds were used to purchase several available-for-sale securities.

Securities. Total securities increased \$1.7 million, or 1.8%, to \$96.5 million at December 31, 2012, as U.S. government agency securities increased \$3.8 million and mortgage-backed securities decreased \$2.1 million. The decline in mortgage-backed securities during the nine months ended December 31, 2012 was primarily due to large principal pay downs on several mortgage-backed investment securities. In addition, four mortgage-backed investments were sold in the nine months ending December 31, 2012. Proceeds from the principal pay downs and sales were used to purchase additional BOLI, as well as U.S. government agency and other mortgage-back investments.

Table of Contents

Loans. Net loans receivable decreased by \$5.3 million, or 3.1%, to \$164.6 million at December 31, 2012 from \$169.9 million at March 31, 2012. The decrease in loans receivable for the nine month period ended December 31, 2012 was primarily due to a decrease of \$10.4 million, or 11.0%, in total residential mortgage loans, a \$1.7 million, or 10.5%, decrease in home equity loans and lines of credit. These declines were offset by a \$4.5 million, or 14.4%, increase in commercial real estate loans, and a \$1.2 million, or 4.3%, increase in commercial business loans. The decrease in residential mortgage loans was primarily due to the repayment of residential mortgage loans, which exceeded our origination of residential mortgage loans for portfolio during the nine month period. The increase in commercial loans reflects the settlement of several new loan advances during the three months ending December 31, 2012.

Foreclosed Real Estate. Foreclosed real estate increased from \$756,000 at March 31, 2012, to \$1.2 million at December 31, 2012 due to the transfer in May 2012 of one non-performing commercial real estate loan secured by a building in Baltimore City to foreclosed real estate.

Bank-Owned Life Insurance. At December 31, 2012, our investment in bank-owned life insurance was \$11.5 million, an increase of \$3.2 million from \$8.3 million at March 31, 2012. The increase in BOLI is primarily related to \$3.0 million in additional BOLI purchased in December 2012.

Deposits. Total deposits decreased \$16.3 million, or 5.8%, to \$264.7 million at December 31, 2012 from \$281.0 million at March 31, 2012. The decrease is attributable to our on-going efforts to reduce the Bank's reliance on certificates of deposit as a funding source. We continued to allow higher costing certificates of deposit to runoff at maturity during the first nine months of fiscal 2013, as we focused on increasing the level of core deposits. During the nine month period ended December 31, 2012, certificates of deposit decreased \$17.4 million, or 7.9%, to \$202.4 million, while money market accounts increased \$1.2 million, or 4.5%, to \$27.8 million. NOW accounts increased \$878,000 to \$8.4 million, while non-interest bearing deposits decreased \$1.3 million, or 11.0%, to \$10.5 million and statement savings accounts increased \$360,000, or 2.3%, to \$15.6 million at December 31, 2012 from \$15.3 million at March 31, 2012.

Borrowings. We had no borrowings outstanding at December 31, 2012 or March 31, 2012. At December 31, 2012, we had the ability to borrow approximately \$67.0 million, or 20%, of total assets from the Federal Home Loan Bank of Atlanta, subject to our pledging sufficient assets.

Equity. Total equity increased \$33.3 million, or 94.9%, to \$68.3 million at December 31, 2012 from \$35.1 million at March 31, 2012. The increase was due to the net capital infusion of \$35.6 million received in Hamilton Bancorp's stock offering in connection with the mutual-to-stock conversion of Hamilton Bank. The capital infusion was offset by \$3.0 million associated with the establishment of an employee stock ownership program (ESOP). In addition, equity increased during the nine month period ended December 31, 2012 due to net income of \$429,000 and a \$219,000 increase in accumulated other comprehensive income resulting from increased market value in the investment portfolio due to lower market interest rates.

Comparison of Asset Quality at December 31, 2012 and March 31, 2012

Our non-performing assets decreased \$2.6 million to \$5.5 million at December 31, 2012 from \$8.1 million at March 31, 2012. Our non-performing loans decreased from \$7.4 million at March 31, 2012, to \$4.4 million at December 31, 2012. The decline in non-performing loans between March 31, 2012 and December 31, 2012 was primarily due to \$2.0 million of charge-offs, the receipt of \$594,000 for payment in full of two non-performing commercial business loans, and the transfer to foreclosed real estate of a property valued at \$428,000 that secured a non-performing commercial real estate loan. This property is currently being marketed for sale. The \$2.0 million in charge-offs included \$593,000 and \$280,000 on two commercial business loans, \$629,000 on one commercial real estate loan and \$337,000 on one commercial construction loan. These four loans were classified as impaired as of March 31, 2012. Of the \$2.0 million in loans charged off, \$1.6 million had been previously reflected in the Bank's allowance for loan losses as specific reserves at March 31, 2012.

Table of Contents

The provision for loan losses totaled \$335,000 for the quarter ended December 31, 2012 compared to a provision adjustment of \$(30,000) for the third quarter of fiscal 2012. The provision for loan losses totaled \$393,000 for the nine months ended December 31, 2012 compared to \$387,000 for the 2011 period. The increased provision in the third quarter of 2012 was primarily related to a charge off for \$212,000 on one commercial property and \$130,000 in specific reserves established for two residential properties.

The allowance for loan and lease losses at December 31, 2012 totaled \$1.9 million, or 1.17% of total loans, compared to \$3.6 million at March 31, 2012, or 2.05% of total loans. The \$1.6 million decrease in the allowance for loan losses was primarily the result of the charge-off of loans with specific reserves, partially offset by the \$393,000 provision for loan losses for the nine months ending December 31, 2012.

Results of Operations for the Three Months Ended December 31, 2012 and 2011 (unaudited)

General. Net income decreased \$315,000, or 82.8%, to \$65,000 for the three months ended December 31, 2012 from \$380,400 for the three months ended December 31, 2011. The decrease resulted primarily from a \$128,000 decrease in net interest income, an \$87,000 increase in noninterest expense and a \$365,000 increase in the provision for loan losses, partially offset by a \$63,000 increase in noninterest revenue.

Net Interest Income. Net interest income decreased \$128,000, or 6.2%, to \$1.9 million for the three months ended December 31, 2012 from \$2.1 million for the three months ended December 31, 2011. The decrease in net interest income primarily resulted from a decrease of \$372,000 in interest and dividend income, partially offset by a decrease of \$245,000 in interest expense. The decrease in net interest income was primarily driven by declining market interest rates and the accelerated amortization of premiums on mortgage-backed securities during the three months ended December 31, 2012. During fiscal 2012, the average cost of deposits (the Bank's only interest-bearing liabilities), in particular certificates of deposit, declined slower than the average yield earned on our interest-earning assets. As a result, our interest rate spread for the three months ended December 31, 2012 declined 37 basis points to 2.17% when compared to the three month period ended December 31, 2011. Although our average interest-earning assets increased by \$17.7 million, or 5.8%, our net interest income did not decrease because most of these assets were in lower yielding interest-bearing deposits when compared to the period ended December 31, 2011. In addition, our average balance of higher yielding loans and securities decreased, which had a negative impact on net interest income.

Interest and Dividend Income. Interest and dividend income decreased \$372,000 to \$2.6 million for the three months ended December 31, 2012 from \$3.0 million for the three months ended December 31, 2011. The decrease resulted primarily from a \$216,000 decrease in interest income on loans and a \$174,000 decrease in interest income on U.S. government agency and mortgage-backed securities, partially offset by an increase of \$17,000 in interest income on federal funds sold and other bank deposits.

Interest income on loans decreased \$216,000, or 8.9%, to \$2.2 million for the three months ended December 31, 2012 from \$2.4 million for the three months ended December 31, 2011. The decrease primarily resulted from a 17 basis point decrease in the average yield to 5.46% for the three months ended December 31, 2012 from 5.63% for the three months ended December 31, 2011, reflecting decreases in market interest rates for loan products. The decrease was also due in part to a \$10.2 million, or 5.9%, decrease in the average balance of loans, net, to \$162.6 million for the three months ended December 31, 2012 from \$172.8 million for the three months ended December 31, 2011.

Interest and dividend income on total securities decreased \$174,000 to \$354,000 for the three months ended December 31, 2012 from \$528,000 for the three months ended December 31, 2011. The decrease primarily resulted from a \$142,000 decrease in interest income on mortgage-backed securities and a \$31,000 decrease in interest income on U.S. government agency securities. The decrease in interest income from mortgage-backed securities was primarily due to an 83 basis point decrease in the average yield on mortgage-backed securities, partially offset by a \$5.1 million increase in the average balance of mortgage-backed securities. The decrease in interest income on U.S. government agency securities was primarily due to a \$9.3 million decrease in the average balance of U.S. government agency securities, partially offset by a 31 basis point increase in the average yield on U.S. government agency securities.

Table of Contents

Interest income associated with federal funds sold and other bank deposits increased \$17,000, or 96.7%, to \$35,000 for the three months ended December 31, 2012 from \$18,000 for the three months ended December 31, 2011. The increase is primarily attributable to the average balance of federal funds sold and other bank deposits increasing \$32.4 million, or 96.7%, to \$65.8 million for the three months ended at December 31, 2012 from \$33.4 million for the three months ended at December 31, 2011. The increase primarily resulted from the \$35.6 million in net proceeds received in the stock offering.

Interest Expense. Interest expense, consisting entirely of the cost of interest-bearing deposits, decreased \$245,000, or 26.6%, to \$676,000 for the three months ended December 31, 2012 from \$921,000 for the three months ended December 31, 2011. The decrease in the cost of interest-bearing deposits was due to a decrease of 30 basis points in the average rate paid on interest-bearing deposits to 1.05% for the three months ended December 31, 2012 from 1.35% for the three months ended December 31, 2011. The decrease in interest expense was also due to a \$17.0 million, or 6.2%, decrease in the average balance of interest-bearing deposits to \$256.7 million for the three months ended December 31, 2012 from \$273.7 million for the three months ended December 31, 2011. The decline in the average balance of interest-bearing deposits was primarily due to our strategy to allow higher costing certificates of deposit to runoff at maturity and gradually replace them with lower-cost core deposits. The balance of certificates of deposit decreased \$20.9 million to \$202.4 million at December 31, 2012 from \$223.3 million at December 31, 2011.

Table of Contents

Average Balances, Interest and Yields. The following table presents information regarding average balances of assets and liabilities, the total dollar amounts of interest income and dividends from average interest-earning assets, the dollar amounts of interest expense on average interest-bearing liabilities, and the resulting annualized average yields and costs. The yields and costs for the periods indicated are derived by dividing income or expense by the average balances of assets or liabilities, respectively, for the periods presented. Average balances have been calculated using monthly balances. Amortization of net deferred loan fees are included in interest income on loans and are insignificant. No tax-equivalent adjustments were made. Nonaccruing loans have been included in the table as loans carrying a zero yield.

Edgar Filing: Hamilton Bancorp, Inc. - Form 10-Q

Provision for Loan Losses. We establish provisions for loan losses that are charged to operations in order to maintain the allowance for loan losses at a level believed, to the best of management's knowledge, to cover all known and inherent losses in the portfolio both probable and reasonable to estimate at each reporting date. We recorded a \$335,000 provision for loan losses for the three months ended December 31, 2012 compared to a negative \$30,000 provision for loan loss for the three months ended December 31, 2011. The allowance for loan losses was \$1.9 million, or 44.6% of non-performing loans at December 31, 2012 compared to \$1.5 million, or 19.5% of non-performing loans at December 31, 2011. The increased provision for the third quarter of fiscal 2013 reflects management's view of the losses inherent in the loan portfolio. During the three months ended December 31, 2012, loan charge offs increased \$212,000, compared to no charge offs during the three months ended December 31, 2011. In addition, during fiscal year 2012 we increased the amount of our commercial real estate and commercial business loans, which are generally considered to bear higher risk than one-to four-family mortgage loans. The increase in our balances of commercial loans and non-performing loans and the continued weak economy have caused us to increase the overall level of our allowance for loan losses.

Table of Contents

Analysis of Loan Loss Experience. The following table sets forth an analysis of the allowance for loan losses for the periods indicated.

	Three Months Ended	
	December 31,	
	2012	2011
	(dollars in thousands)	
Allowance for loan losses at beginning of period	\$ 1,822	\$ 1,505
Charge-offs:		
Real estate loans:		
One-to four-family		
Commercial	213	
Construction		
Commercial		
Home equity		
Consumer		
Total charge-offs	213	
Recoveries		
Net charge-offs	213	
Provision for loan losses	335	(30)
Allowance for loan losses at end of period	\$ 1,944	\$ 1,475
Allowance for loan losses to non-performing loans	44.61%	19.53%
Allowance for loan losses to total loans outstanding at the end of the period	1.17%	0.84%
Net charge-offs to average loans outstanding during the period (not annualized)	0.13%	0.00%

Noninterest Income. Noninterest income increased \$63,000 to \$196,000 for the three months ended December 31, 2012, compared to \$134,000 for the three months ended December 31, 2011. The increase was primarily attributable to an increase of \$28,000 in gain on sale of investment securities, a \$12,000 increase in service charges and a \$25,000 increase in gain on sale of loans. Other noninterest income did change significantly for the three month period ended December 31, 2012 as compared to the period ended December 31, 2011

Noninterest Expense. Noninterest expense increased \$87,000, or 5.3%, to \$1.7 million for the three months ended December 31, 2012 from \$1.6 million for the three months ended December 31, 2011. The largest components of this increase were advertising, which increased by \$36,000, data processing, which increased \$36,000, office occupancy expense, which increased \$21,000, and other real estate owned expense which increased by \$45,000. These increases were partially offset by a \$75,000 decrease in overall salaries and benefits. Reversal of certain accruals during the third quarter of fiscal 2013 accounted for the decrease in salaries.

Income Tax Expense. We recorded a \$6,000 income tax benefit for the three months ended December 31, 2012 and \$196,000 of income tax expense for the three months ended December 31, 2011. The effective income tax rate was a negative 10.1% for the three months ended December 31, 2012 and 34.0% for the three months ended December 31, 2011. The reason the effective tax rate in the fiscal 2013 period was negative was that tax-exempt revenue exceeded our income before income taxes compared to the three months ended December 31, 2011.

Table of Contents**Comparison of Results of Operations for the Nine Months Ended December 31, 2012 and 2011 (unaudited)**

General. Net income decreased \$613,000, or 58.8%, to \$429,000 for the nine months ended December 31, 2012 from \$1.0 million for the nine months ended December 31, 2011. The decrease resulted primarily from a \$453,000 decrease in net interest income and a \$585,000 increase in noninterest expense, partially offset by a \$44,000 increase in noninterest income and a \$387,000 decrease in income tax expense.

Net Interest Income. Net interest income decreased \$453,000, or 7.0%, to \$6.0 million for the nine months ended December 31, 2012 from \$6.5 million for the nine months ended December 31, 2011. The decrease in net interest income primarily resulted from a decrease of \$1.3 million in interest and dividend income, partially offset by a decrease of \$823,000 in interest expense. The decrease in net interest income was primarily driven by declining market interest rates during the nine months ended December 31, 2012. During fiscal 2012, the average cost of deposits (the Bank's only interest-bearing liabilities), in particular certificates of deposit, declined faster than the average yield earned on our interest-earning assets. However, during the nine months ended December 31, 2012, the average yield on our interest-earning assets decreased at a faster pace than the average cost of deposits. As a result, our interest rate spread for the nine months ended December 31, 2012 decreased 19 basis points to 2.44% compared to 2.63% for the nine months ended December 31, 2011. Our net interest income was negatively impacted by a \$3.5 million decrease in the average balance of our interest-earning assets for the nine months ended December 31, 2012 compared to the nine months ended December 31, 2011. The impact of this decrease was magnified by a decrease of \$10.5 million in the average balance of loans during the nine months ended December 31, 2012 (which had average yields of 5.54% during the period), and a \$12.8 million increase in deposits in other banks during the nine months ended December 31, 2012 (which had average yields of 0.19%). The decline in average earning assets was partially offset by a \$19.5 million decrease in our average interest-bearing liabilities over the same nine month period ended December 31, 2012 compared to the same period ended December 31, 2011.

Interest and Dividend Income. Interest and dividend income decreased \$1.3 million, or 13.5%, to \$8.2 million for the nine months ended December 31, 2012 from \$9.5 million for the nine months ended December 31, 2011. The decrease resulted primarily from a \$717,000 decrease in interest income on loans and a \$567,000 decrease in interest income on U.S. government agency and mortgage-backed securities.

Interest income on loans decreased \$717,000, or 9.5%, to \$6.8 million for the nine months ended December 31, 2012 from \$7.6 million for the nine months ended December 31, 2011. This decrease primarily resulted from a 22 basis point decrease in the average yield to 5.54% for the nine months ended December 31, 2012 from 5.76% for the nine months ended December 31, 2011, reflecting decreases in market interest rates. The decrease was also due in part to a \$10.5 million, or 6.0%, decrease in the average balance of loans to \$164.4 million for the nine months ended December 31, 2012 from \$174.9 million for the nine months ended December 31, 2011.

Interest income on U.S. government agency and mortgage-backed securities decreased \$567,000, or 30.3%, to \$1.3 million for the nine months ended December 31, 2012 from \$1.9 million for the nine months ended December 31, 2011. The decrease resulted from a \$254,000 decrease in interest income on U.S. government agency securities and a \$313,000 decrease in interest income on mortgage-backed securities. The decrease in interest income from U.S. government agency securities was primarily due to a 14 basis point decrease in the average yield on U.S. government agency securities and a \$15.0 million decrease in the average balance of U.S. government agency securities. The decrease in interest income from mortgage-backed securities was primarily due to an 81 basis point decrease in the average yield on mortgage-backed securities, partially offset by a \$9.2 million increase in the average balance of mortgage-backed securities.

Interest income associated with federal funds sold and other bank deposits increased \$7,000, or 10.7%, to \$73,000 for the nine months ended December 31, 2012 from \$66,000 for the nine months ended December 31, 2011. The increase is primarily attributable to the average balance on federal funds and other bank deposits increasing \$12.8 million, or 36.4%, to \$48.1 million for the nine months ended December 31, 2012 from \$35.3 million for the nine months ended December 31, 2011. The increase primarily resulted from the \$35.6 million in net proceeds received in the stock offering.

Interest Expense. Interest expense, consisting entirely of the cost of interest-bearing deposits, decreased \$823,000, or 27.3%, to \$2.2 million for the nine months ended December 31, 2012 from \$3.0 million for the nine months ended

Table of Contents

December 31, 2011. The decrease in the cost of interest-bearing deposits was due to a decrease of 31 basis points in the average rate paid on interest-bearing deposits to 1.12% for the nine months ended December 31, 2012 from 1.43% for the nine months ended December 31, 2011. The decrease in interest expense was also due to a \$19.5 million, or 6.9%, decrease in the average balance of interest-bearing deposits to \$261.0 million for the nine months ended December 31, 2012 from \$280.5 million for the nine months ended December 31, 2011. The decline in the average balance of interest-bearing deposits was primarily due to our strategy to allow higher costing certificates of deposit to runoff at maturity, and gradually replace them with lower-cost core deposits. The balance of certificates of deposit decreased \$20.9 million to \$202.4 million at December 31, 2012 from \$223.3 million at December 31, 2011.

Average Balances, Interest and Yields. The following table presents information regarding average balances of assets and liabilities, the total dollar amounts of interest income and dividends from average interest-earning assets, the dollar amounts of interest expense on average interest-bearing liabilities, and the resulting annualized average yields and costs. The yields and costs for the periods indicated are derived by dividing income or expense by the average balances of assets or liabilities, respectively, for the periods presented. Average balances have been calculated using monthly balances. Amortization of net deferred loan fees are included in interest income on loans and are insignificant. No tax-equivalent adjustments were made. Nonaccruing loans have been included in the table as loans carrying a zero yield.

(1) Loans placed on non-accrual status are included in average assets.

Provision for Loan Losses. We establish provisions for loan losses that are charged to operations in order to maintain the allowance for loan losses at a level believed, to the best of management's knowledge, to cover all known and

Table of Contents

inherent losses in the portfolio both probable and reasonable to estimate at each reporting date. We recorded a provision for loan losses of \$393,000 for the nine months ended December 31, 2012 compared to a \$387,000 provision for loan loss for the nine months ended December 31, 2011. The allowance for loan losses was \$1.9 million, or 44.6% of non-performing loans at December 31, 2012 compared to \$1.5 million, or 19.5% of non-performing loans at December 31, 2011. The provision for the nine months of fiscal 2013 reflects management's view of the losses inherent in the loan portfolio. During the nine months ended December 31, 2012, loan charge offs increased to \$2.0 million, compared to \$95,000 in charge offs during the nine months ended December 31, 2011. In addition, during fiscal year 2012 we increased the amount of our commercial real estate and commercial business loans, which are generally considered to bear higher risk than one-to four-family mortgage loans. The increase in our balances of commercial loans and non-performing loans and the continued weak economy have caused us to increase the overall level of our allowance for loan losses.

Analysis of Loan Loss Experience. The following table sets forth an analysis of the allowance for loan losses for the periods indicated.

	Nine Months Ended December 31,	
	2012	2011
(dollars in thousands)		
Allowance for loan losses at beginning of period	\$ 3,552	\$ 1,183
Charge-offs:		
Real estate loans:		
One-to four-family	77	95
Commercial	702	
Construction	337	
Commercial	873	
Home equity	5	
Consumer	8	
Total charge-offs	2,002	95
Recoveries		
Net charge-offs	2,002	95
Provision for loan losses	393	387
Allowance for loan losses at end of period	\$ 1,943	\$ 1,475
Allowance for loan losses to non-performing loans	44.61%	19.53%
Allowance for loan losses to total loans outstanding at the end of the period	1.17%	0.84%
Net charge-offs to average loans outstanding during the period (not annualized)	1.22%	0.05%

Noninterest Income. Noninterest income increased \$44,000, or 7.7%, to \$616,000 for the nine months ended December 31, 2012 from \$573,000 for the nine months ended December 31, 2011. The increase is primarily due to a \$116,000 increase in gain on sale of loans and a \$32,000 increase in service charges resulting from more transactions and increased fees. The increases are partially offset by a \$98,000 decrease in gain on sale of investment securities and a \$16,000 decrease in earnings on bank-owned life insurance.

Noninterest expense. Noninterest expense increased \$585,000, or 11.5%, to \$5.7 million for the nine months ended December 31, 2012 from \$5.1 million for the nine months ended December 31, 2011. The largest components of this increase were salaries and employee benefits, which increased \$123,000 due to new hires and normal salary increases, advertising, which increased \$98,000 as a result of our new branding strategy and marketing campaign, data processing, which increased \$114,000, other real estate owned expense incurred for the taxes and maintenance of foreclosed real

Table of Contents

estate, which increased \$118,000, and other noninterest expenses, which increased \$90,000 due to expenses associated with operating the residential and commercial loan portfolio. These increases were partially offset by a \$57,000 decrease in furniture and equipment expense associated with the administrative office move last year.

Income Tax Expense. We recorded \$133,000 in income tax expense for the nine months ended December 31, 2012 and \$520,000 of tax expense for the nine months ended December 31, 2011. The effective income tax rate was 23.6% for the nine months ended December 31, 2012 and 33.3% for the nine months ended December 31, 2011. The reason for the decrease in the effective tax rate in the fiscal 2013 period was that tax-exempt revenue represented a larger percentage of our income before income taxes during the nine months ended December 31, 2012 compared to the nine months ended December 31, 2011.

Liquidity and Capital Resources

Liquidity is the ability to meet current and future financial obligations of a short-term nature. Our primary sources of funds available to meet short-term liquidity needs consist of deposit inflows, loan repayments, and maturities and sales of investment securities. While maturities and scheduled amortization of loans and securities are predictable sources of funds, deposit flows and mortgage prepayments are greatly influenced by general interest rates, economic conditions, and competition. We regularly adjust our investments in liquid assets available to meet short-term liquidity needs based upon our assessment of (i) expected loan demand, (ii) expected deposit flows, (iii) yields available on interest-earning deposits and securities, and (iv) the objectives of our asset/liability management policy. We do not have long-term debt or other financial obligations that would create long-term liquidity concerns.

Our most liquid assets are cash and cash equivalents and interest-bearing deposits. The level of these assets depends on our operating, financing, lending, and investing activities during any given period. At December 31, 2012, cash and cash equivalents totaled \$51.9 million. This increase is primarily attributable to the \$35.6 million received in net proceeds from the mutual-to-stock conversion completed on October 10, 2012. Securities classified as available-for-sale amounted to \$96.5 million. Our liquidity has increased as customers have sought the safety of the FDIC insured deposits. In addition, at December 31, 2012, the Bank had the ability to borrow a total of approximately \$67.0 million or 20% of total assets from the Federal Home Loan Bank of Atlanta, and the Bank has two lines of credit totaling \$6.0 million with one large financial institution. At December 31, 2012, we had no Federal Home Loan Bank advances outstanding or borrowings on the lines of credit.

Certificates of deposit due within one year of December 31, 2012 totaled \$115.3 million, or 57.0% of certificates of deposit. We believe the large percentage of certificates of deposit that mature within one year reflects customers' hesitancy to invest their funds for longer periods due to the current low interest rate environment and local competitive pressures. If these maturing deposits do not remain with us, we will be required to seek other sources of funds, including other certificates of deposit and borrowings. Depending on market conditions, we may be required to pay higher rates on such deposits or other borrowings than we currently pay on certificates of deposit due on or before December 31, 2013. We believe, however, based on past experience that a significant portion of our certificates of deposit will remain with us. We have the ability to attract and retain deposits by adjusting the interest rates offered.

In the normal course of operations, we engage in a variety of financial transactions that, in accordance with generally accepted accounting principles, are not recorded in our financial statements. These transactions involve, to varying degrees, elements of credit, interest rate and liquidity risk. Such transactions are used primarily to manage customers' requests for funding and take the form of loan commitments, unused lines of credit and letters of credit. At December 31, 2012, we had \$27.6 million in commitments to extend credit outstanding.

We are subject to various regulatory capital requirements administered by the Office of the Comptroller of the Currency, including a risk-based capital measure. The risk-based capital guidelines include both a definition of capital and a framework for calculating risk-weighted assets by assigning balance sheet assets and off-balance sheet items to broad risk categories. At December 31, 2012, the Bank exceeded all of its regulatory capital requirements and was considered well capitalized under regulatory guidelines.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For a discussion of our market risk, see the Company's prospectus dated August 13, 2012, filed with the SEC on Form 424(b)(3) on August 22, 2012. The Company's market risk has not changed materially from that disclosed in the prospectus.

Item 4. Controls and Procedures

An evaluation was performed under the supervision and with the participation of the Company's management, including the Company's principal executive officer and principal financial officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities and Exchange Act of 1934, as amended) as of the period covered by this report. Based upon such evaluation, the principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective for the purpose of ensuring that the information required to be disclosed in the reports that the Company files or submits under the Exchange Act with the Securities and Exchange Commission (the SEC) (1) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

During the period covered by this report, there have been no changes in the Company's internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II Other Information

Item 1. Legal Proceedings

The Bank and Company are subject to various legal actions arising in the normal course of business. In the opinion of management, the resolution of these legal actions is not expected to have a material adverse effect on the Bank's or the Company's financial condition or results of operations.

Item 1A. Risk Factors

For information regarding the Company's risk factors, see "Risk Factors" in the Company's prospectus, filed with the Securities and Exchange Commission pursuant to Rule 424(b)(3) on August 22, 2012. As of December 31, 2012, the risk factors of the Company have not changed materially from those disclosed in the prospectus.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On October 10, 2012, Hamilton Bancorp, Inc. completed the sale of 3,703,000 shares of its common stock, including 296,240 shares purchased by Hamilton Bank's employee stock ownership plan. The following information is provided with respect to the Company's sale of its common stock.

- a. The effective date of the Registration Statement on Form S-1 (File No. 333-182151) was August 13, 2012.
- b. The offering was consummated on October 10, 2012, with the issuance of all securities registered pursuant to the Registration Statement. Stifel, Nicolaus & Company, Incorporated acted as marketing agent for the offering.
- c. The class of securities registered was common stock, par value of \$0.01 per share. The aggregate amount of such securities registered and sold was 3,703,000 shares. The shares were sold at \$10.00 per share, which resulted in gross proceeds of approximately \$37.0 million.
- d. The expenses incurred in connection with the stock offering equaled approximately \$1.4 million, including fees and expenses paid to and for underwriters of \$431,000, attorney and accounting fees and expenses of \$666,000 and other expenses of \$354,000. The net proceeds to the Company resulting from the offering after deducting expenses equaled approximately \$35.6 million.
- e. The Company contributed approximately \$16.3 million of the net proceeds of the offering to Hamilton Bank. In addition, approximately \$3.0 million of the net proceeds were used to fund the loan to the employee stock ownership plan, and \$16.3 million of the net proceeds were retained by the Company. The net proceeds contributed to Hamilton Bank have been invested in securities available for sale, including securities issued by U.S. Government agencies and mortgage-backed securities issued by U.S. Government agencies and U.S. Government-sponsored enterprises. The net proceeds retained by the Company have been deposited with Hamilton Bank.
