This summary highlights selected information from this prospectus and is therefore qualified in its entirety by the more detailed information appearing elsewhere, or incorporated by reference, in this prospectus. It may not contain all the information that is important to you. We urge you to read carefully this entire prospectus and the other documents to which it refers to understand fully the terms of the new notes and the exchange offer. As used in this prospectus, unless otherwise indicated, Lockheed Martin, the company, we, our and us are used interchangeably to refer to Lockheed Martin Corporation or to Lockheed Martin Corporation and its consolidated subsidiaries, as appropriate to the context.

Lockheed Martin Corporation

We are a global security and aerospace company principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems and products. We also provide a broad range of management, engineering, technical, scientific, logistic and information services. We serve both domestic and international customers with products and services that have defense, civil and commercial applications, with our principal customers being agencies of the U.S. Government. Our main areas of focus are in defense, space, intelligence, homeland security and information technology, including cyber security.

We are a Maryland corporation and were formed in 1995 by combining the businesses of Lockheed Corporation and Martin Marietta Corporation. Our principal executive offices are located at 6801 Rockledge Drive, Bethesda, Maryland 20817-1877. Our telephone number is (301) 897-6000. Our website home page on the Internet is www.lockheedmartin.com. We make our website content available for information purposes only. It should not be relied upon for investment purposes, nor is it incorporated by reference into this prospectus.

In 2012, 82% of our \$47.2 billion in net sales were made to the U.S. Government, either as a prime contractor or as a subcontractor (including 61% from the Department of Defense), 17% were from international customers (including foreign military sales (FMS) contracted through the U.S. Government) and 1% were from U.S. commercial and other customers. Each of our business segments is heavily dependent on sales to the U.S. Government.

Business Segments

We organize our business segments based on the nature of the products and services offered. Effective December 31, 2012, we operate in five business segments: Aeronautics, Information Systems & Global Solutions (IS&GS), Missiles and Fire Control (MFC), Mission Systems and Training (MST) and Space Systems. This structure reflects the reorganization of our former Electronic Systems business segment into the new MFC and MST business segments in order to streamline our operations and enhance customer alignment. In connection with this reorganization, management layers at our former Electronic Systems business segment and our former Global Training and Logistics (GTL) business were eliminated, and the former GTL business was split between the two new business segments. In addition, our operating results for Sandia Corporation, which manages the Sandia National Laboratories for the U.S. Department of Energy, and our equity interest in the U.K. Atomic Weapons Establishment joint venture were transferred from our former Electronic Systems business segment to our Space Systems business segment.

Aeronautics

In 2012, our Aeronautics business segment generated net sales of \$15.0 billion, which represented 31% of our total consolidated net sales. Aeronautics customers include the military services and various other

government agencies of the U.S. and allied countries. In 2012, U.S. Government customers accounted for 78% and international customers accounted for 22% of Aeronautics' net sales. Net sales from Aeronautics' combat aircraft products and services represented 21% of our consolidated net sales in 2012 and 20% of our total consolidated net sales in each of 2011 and 2010.

Aeronautics is engaged in the research, design, development, manufacture, integration, sustainment, support, and upgrade of advanced military aircraft, including combat and air mobility aircraft, unmanned air vehicles, and related technologies. Aeronautics' major programs include:

F-35 Lightning II Joint Strike Fighter international multi-role, fifth generation stealth fighter.

F-22 Raptor air dominance and multi-mission fifth generation stealth fighter.

F-16 Fighting Falcon low-cost, combat-proven, international multi-role fighter.

C-130 Hercules international tactical airlifter.

C-5M Super Galaxy strategic airlifter.

In addition to the above aircraft programs, Aeronautics is involved in advanced development programs incorporating innovative design and rapid prototype applications. Our Advanced Development Programs organization, also known as the Skunk Works®, is focused on future systems, including unmanned aerial systems and next generation capabilities for advanced strike, intelligence, surveillance, reconnaissance, situational awareness and air mobility. We continue to explore technology advancement and insertion in our existing aircraft. We also are involved in numerous network-enabled activities that allow separate systems to work together to increase effectiveness, and continue to invest in new technologies to maintain and enhance competitiveness in military aircraft design, development and production.

Information Systems & Global Solutions

In 2012, our IS&GS business segment generated net sales of \$8.8 billion, which represented 19% of our total consolidated net sales. IS&GS customers include the various government agencies of the U.S. and allied countries around the world and military services, as well as commercial and other customers. In 2012, U.S. Government customers accounted for 95%, international customers accounted for 4% and U.S. commercial and other customers accounted for 1% of IS&GS' net sales. IS&GS has been impacted by the continuing downturn in the federal information technology budgets and the impact of the continuing resolution that was effective on October 1, 2012, the start of the U.S. Government's fiscal year.

IS&GS provides management services, integrated information technology solutions, and advanced technology systems and expertise across a broad spectrum of applications for civil, defense, intelligence and other government customers. IS&GS supports the needs of customers in cyber-security, health care, energy and environmental protection management, transportation, space exploration, human capital planning, financial services, data protection and sharing and biometrics. IS&GS provides network-enabled situational awareness, delivers communications and command and control capability through complex mission solutions for defense applications and integrates complex global systems to help our customers gather, analyze and securely distribute critical intelligence data. IS&GS is also responsible for various classified systems and services in support of vital national security systems. While IS&GS has a portfolio of many smaller contracts as compared to our other business segments, this business segment's major programs include:

The Command, Control, Battle Management, and Communications (C2BMC) contract, a program to increase the integration of the Ballistic Missile Defense System for the U.S. Government.

The En-Route Automation Modernization (ERAM) contract, which is a program to replace the Federal Aviation Administration's infrastructure with a modern automation environment that includes new functions and capabilities.

The Hanford Mission Support contract, which provides infrastructure and site support services to the Department of Energy.

In connection with this transaction, we entered into a registration rights agreement pursuant to which we agreed to commence this exchange offer. Accordingly, you may exchange your old notes for new notes, which have substantially the same terms. We refer to the old notes and the new notes together as the notes. The following is a summary of the exchange offer. For a more complete description of the terms of the exchange offer, see [The Exchange Offer](#) in this prospectus.

Securities Offered

Up to \$1,336,384,000 aggregate principal amount of our 4.07% Notes due 2042, Series B, registered under the Securities Act. The terms of the new notes offered in the exchange offer are substantially identical to those of the old notes, except that the transfer restrictions, exchange offer provisions and certain related additional interest provisions relating to the old notes do not apply to the new notes.

The Exchange Offer

We are offering new notes in exchange for a like principal amount of our old notes. We are offering these new notes to satisfy our obligations under a registration rights agreement which we entered into in connection with the issuance of the old notes. You may tender your outstanding notes for exchange by following the procedures described under the heading [The Exchange Offer](#). The exchange offer is not subject to any federal or state regulatory requirements other than securities laws.

Expiration Date; Tenders; Withdrawal

The exchange offer will expire at 11:59 p.m., New York City time, on May 29, 2013, unless we extend it. We refer to this date and time as the expiration date. You may withdraw any old notes that you tender for exchange at any time prior to the expiration date of the exchange offer. We will accept any and all old notes validly tendered and not validly withdrawn on or before the expiration date. See [The Exchange Offer Procedures for Tendering Old Notes](#) and [Withdrawal of Tenders of Old Notes](#) for a more complete description of the tender and withdrawal period.

Settlement

Settlement of the exchange offer will occur promptly following the expiration of the exchange offer.

Absence of Dissenters' Rights	Holders of the old notes do not have any appraisal or dissenters' rights in connection with the exchange offer. See "The Exchange Offer - Absence of Dissenters' Rights."
Accounting Treatment	We will not recognize any gain or loss for accounting purposes upon the completion of the exchange offer, except for the recognition of certain fees and expenses incurred in connection with the exchange offer. See "The Exchange Offer - Accounting Treatment."
U.S. Federal Income Tax Considerations	Your exchange of old notes for new notes to be issued in the exchange offer will not result in any gain or loss to you for United States federal income tax purposes. See "U.S. Federal Income Tax Considerations" for a summary of United States federal income tax consequences associated with the exchange of old notes for new notes.
Use of Proceeds	We will not receive any cash proceeds from the exchange offer.
Exchange Agent	Global Bondholder Services Corporation is acting as exchange agent for the exchange offer. The address and telephone number of the exchange agent for the exchange offer are set forth in the section titled "The Exchange Offer - Exchange Agent."
Shelf Registration	If applicable interpretations of the staff of the SEC do not permit us to effect the exchange offer, or upon the request of holders of the notes under certain circumstances, we will be required to file, and use commercially reasonable efforts to cause to become effective, a shelf registration statement under the Securities Act which would cover resales of the notes. See "Description of the New Notes - Registration Rights."
Consequences of Your Failure to Exchange Your Old Notes	Old notes that are not exchanged in the exchange offer will continue to be subject to the restrictions on transfer that are described in the legend on the old notes. In general, you may offer or sell your old notes only if they are registered under, or offered or sold under an exemption from, the Securities Act and applicable state securities laws. We do not currently intend to register the old notes under the Securities Act (except as discussed in the next sentence). Following consummation of the exchange offer, we will not be required to register under the Securities Act any old notes that remain outstanding, except in the limited circumstances in which we are obligated to file a shelf registration statement for certain holders of old notes not eligible to participate in the exchange offer pursuant to the registration rights agreement. If your old notes are not tendered and accepted in the exchange offer, it may become more difficult for you to sell or transfer your old notes. See "Description of the New Notes - Registration Rights."

Consequences of Exchanging Your Old Notes; Who May Participate in the Exchange Offer

We believe that you will be allowed to resell the new notes that we issue in the exchange offer without complying with the registration and prospectus delivery requirements of the Securities Act if:

you are acquiring the new notes in the ordinary course of your business;

you are not participating in and do not intend to participate in a distribution of the new notes;

you have no arrangement or understanding with any person, including us or any of our affiliates, to participate in a distribution of the new notes;

you are not one of our affiliates, as defined in Rule 405 under the Securities Act; and

if you are a broker-dealer, you acquired the old notes as a result of market-making activities or other trading activities and not directly from us for your own account in the initial offering of the old notes.

If any of these conditions are not satisfied, you will not be eligible to participate in the exchange offer, you should not rely on the position of the staff of the SEC enunciated in a series of no-action letters issued to third parties in connection with the exchange offer and you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with the resale of your notes.

If you are a broker-dealer and you will receive new notes for your own account in exchange for old notes that you acquired as a result of market-making activities or other trading activities, you may be a statutory underwriter and will be required to acknowledge that you will deliver a prospectus in connection with any resale of the new notes. See Plan of Distribution for a description of the prospectus delivery obligations of broker-dealers in the exchange offer.

Conditions of the Exchange Offer

Notwithstanding any other term of the exchange offer, or any extension of the exchange offer, we do not have to accept for exchange, or exchange new notes for, any old notes, and we may terminate the exchange offer before acceptance of the old notes, if in our reasonable judgment:

the exchange offer would violate applicable law;

any action or proceeding has been instituted or threatened in any court or by any governmental agency that might materially impair our ability to proceed with the exchange offer or, in any such action or proceeding, any material adverse development has occurred with respect to us; or

we have not obtained any governmental approval which we deem necessary for the consummation of the exchange offer.

U.S. Bank National Association

Additional Issues

We may from time to time, without giving notice to or seeking the consent of the holders of the new notes, issue an unlimited principal amount of additional notes having the same ranking and the same interest rate, maturity and other terms as the new notes, except for the initial offering price, the initial interest accrual date and, if applicable, the initial interest payment date. Any additional notes having such similar terms, together with the new notes, will constitute a single series of securities under the indenture. Any of these additional notes may be issued by us for less consideration than we will receive for new notes in the exchange offer.

Risk Factors

You should read [Risk Factors](#) for important information regarding the new notes and us.

RISK FACTORS

*You should consider carefully the following risks relating to the exchange offer, the old notes and the new notes, together with the risks and uncertainties discussed under **Forward Looking Information** and the other information included or incorporated by reference in this prospectus, including the information under the heading **Risk Factors** in our Annual Report on Form 10-K for the year ended December 31, 2012, as such risk factors may be updated from time to time in our Quarterly Reports on Form 10-Q, before tendering your old notes in the exchange offer. Additional risks and uncertainties not presently known to us, or that we currently deem immaterial, may also impair our business operations. We cannot assure you that any of the events discussed in or incorporated by reference into this prospectus will not occur. If they do, our business, financial condition or results of operations could be materially and adversely affected. In such case, the trading price of our securities, including the new notes, could decline, and you might lose all or part of your investment.*

Risks Relating to the Exchange Offer

An active trading market for the notes may not develop, which could make it difficult to resell your notes at their fair market value or at all.

The new notes are new securities for which there currently is no public market. We do not intend to list the new notes on any national securities exchange or automated quotation system. Accordingly, no market for the new notes may develop, and any market that develops may not be sustained. To the extent that an active trading market does not develop or is not sustained, you may not be able to resell your new notes at their fair market value or at all.

If you do not exchange your old notes for new notes, you will continue to have restrictions on your ability to resell them, which could reduce their value.

The old notes were not registered under the Securities Act or under the securities laws of any state and may not be resold, offered for resale, or otherwise transferred unless they are subsequently registered or resold pursuant to an exemption from the registration requirements of the Securities Act and applicable state securities laws. If you do not exchange your old notes for new notes pursuant to the exchange offer, you will not be able to resell, offer to resell, or otherwise transfer the old notes unless they are registered under the Securities Act or unless you resell them, offer to resell them or otherwise transfer them under an exemption from the registration requirements of, or in a transaction not subject to, the Securities Act. In addition, we will no longer be under an obligation to register the old notes under the Securities Act except in the limited circumstances provided in the registration rights agreement.

FORWARD-LOOKING INFORMATION

This prospectus and the documents incorporated by reference in this prospectus contain forward-looking information. Forward-looking information may be identified by words like may, believe, expect, plan, anticipate, estimate and other similar expressions. Forward-looking information involves risks and uncertainties and reflects our best judgment based on then current information. Our financial condition, results of operations and cash flows can be affected by inaccurate assumptions we make or by known or unknown risks and uncertainties. In addition, other factors may affect the accuracy of our forward-looking information. As a result, no forward-looking information can be guaranteed. Actual events and our results of operations may vary materially. While it is not possible to identify all factors, we continue to face many risks and uncertainties that could cause actual results to differ from our forward-looking statements, including the risks described in Risk Factors and in our Annual Report on Form 10-K for the year ended December 31, 2012.

We do not assume any responsibility to publicly update any of our forward-looking statements regardless of whether factors change as a result of new information, future events or for any other reason. You should review any additional disclosures we make regarding forward-looking information in our Forms 10-K, 10-Q and 8-K filed with the SEC, which are incorporated into this prospectus by reference.

RATIO OF EARNINGS FROM CONTINUING OPERATIONS TO FIXED CHARGES

We have presented in the table below our historical consolidated ratio of earnings from continuing operations to fixed charges for the periods shown.

	Quarter Ended		Fiscal Year			
	March 31, 2013	2012	2011	2010	2009	2008
Ratio of earnings from continuing operations to fixed charges	11.0	10.5	9.5	10.4	12.4	12.9

For purposes of calculating the above ratios of earnings to fixed charges, earnings consists of our consolidated pretax earnings from continuing operations, adjusted to add back fixed charges and to eliminate undistributed earnings and losses we recognized for companies in which we have an ownership interest accounted for using the equity method (typically an ownership interest of 20% but less than or equal to 50%). Fixed charges include interest expense related to our indebtedness, amortization of debt discounts or premiums, interest capitalized, and an interest factor attributable to rents.

USE OF PROCEEDS

This exchange offer is intended to satisfy our obligations under the registration rights agreement. We will not receive any proceeds from the exchange offer. You will receive, in exchange for old notes validly tendered and accepted for exchange pursuant to the exchange offer, new notes in the same principal amount as your old notes. Old notes validly tendered and accepted for exchange pursuant to the exchange offer will be retired and cancelled and cannot be reissued. Accordingly, the issuance of the new notes will not result in any increase of our outstanding debt.

THE EXCHANGE OFFER

Background and Purpose of the Exchange Offer

We issued the old notes on December 14, 2012 in an exchange offer that was completed on December 14, 2012. The old notes and cash were issued in exchange for a portion of our outstanding debt securities. The old notes were issued in a private placement without registration under the Securities Act in reliance on the exemption afforded by Section 4(a)(2) of the Securities Act, or, outside the United States, in compliance with Regulation S under the Securities Act.

In connection with the issuance of the old notes, we entered into a registration rights agreement dated December 14, 2012. Pursuant to the registration rights agreement, we agreed, among other things, to:

file, not later than 270 days after December 14, 2012 (or if such 270th day is not a business day, the next succeeding business day), a registration statement with the SEC with respect to a registered offer to exchange the old notes for substantially identical notes that will not contain transfer restrictions and will be registered under the Securities Act; and

use commercially reasonable efforts to cause the registration statement to be declared effective within 330 days after December 14, 2012 (or if such 330th day is not a business day, the next succeeding business day).

The registration rights agreement provides that, upon the effectiveness of this registration statement, we will use commercially reasonable efforts to commence promptly the exchange offer and complete the exchange offer not later than 360 days after December 14, 2012 (or if such 360th day is not a business day, the next succeeding business day). We will keep the exchange offer open for not less than 30 days, or longer if required by applicable law, after the date on which notice of the exchange offer is mailed to the holders of the old notes.

Promptly after the expiration of the exchange offer, we agreed to issue and exchange the new notes for all old notes validly tendered and not validly withdrawn before the expiration of the exchange offer. We are sending this prospectus, together with a letter of transmittal, to all the beneficial holders known to us. For each old note validly tendered to us pursuant to the exchange offer and not validly withdrawn, the holder will receive a new note having a principal amount equal to that of the tendered old note. A copy of the registration rights agreement has been filed as an exhibit to the registration statement which includes this prospectus. The registration statement, of which this prospectus is a part, is intended to satisfy some of our obligations under the registration rights agreement.

The term *holder* with respect to the exchange offer means any person in whose name old notes are registered on the trustee's books or any other person who has obtained a properly completed bond power from the registered holder.

Resale of the New Notes

We believe that you will be allowed to resell the new notes to the public without registration under the Securities Act, and without delivering a prospectus that satisfies the requirements of Section 10 of the Securities Act, if you can make the representations set forth below under *Proper Execution and Delivery of the Letter of Transmittal*. However, if you intend to participate in a distribution of the new notes, are a broker-dealer that acquired the old notes directly from us for your own account in the initial offering of the old notes and not as a result of market-making activities or other trading activities or are an *affiliate* of us as defined in Rule 405 of the Securities Act, you will not be eligible to participate in the exchange offer, and you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with the resale of your notes. See *Description of the New Notes* *Registration Rights*.

A broker-dealer that has acquired old notes as a result of market-making or other trading activities has to deliver a prospectus in order to resell any new notes it receives for its own account in the exchange offer. This prospectus may be used by such broker-dealer to resell any of its new notes. We have agreed in the registration rights agreement to send this prospectus to any broker-dealer that requests copies for a period of up to 180 days after the consummation of the exchange offer. See [Plan of Distribution](#) for more information regarding broker-dealers.

The exchange offer is not being made to, nor will we accept tenders for exchange from, holders of old notes in any jurisdiction in which this exchange offer or the acceptance of the exchange offer would not be in compliance with the securities or blue sky laws.

The exchange offer is not subject to any federal or state regulatory requirements other than securities laws.

Terms of the Exchange Offer

Based on the terms and conditions set forth in this prospectus and in the letter of transmittal, we will accept any and all old notes validly tendered and not validly withdrawn on or before the expiration date.

At settlement, we will issue \$1,000 principal amount of new notes in exchange for each \$1,000 principal amount of outstanding old notes validly tendered pursuant to the exchange offer and not validly withdrawn on or before the expiration date. Holders may tender some or all of their old notes pursuant to the exchange offer. However, old notes may be tendered only in amounts that are integral multiples of \$1,000 principal amount.

The form and terms of the new notes are the same as the form and terms of the old notes except that:

the new notes will be registered under the Securities Act and, therefore, the new notes will not bear legends restricting the transfer of the new notes;

except in certain limited circumstances, holders of the new notes will not be entitled to any further registration rights under the registration rights agreement or to the benefit of the additional interest provisions of the registration rights agreement.

The new notes will evidence the same indebtedness as the old notes, which they will replace, and will be issued under, and be entitled to the benefits of, the same indenture that governs the old notes. As a result, both the new notes and the old notes will be treated as a single series of debt securities under the indenture. The exchange offer does not depend on any minimum aggregate principal amount of old notes being tendered for exchange.

As of the date of this prospectus, \$1,336,384,000 in aggregate principal amount of the old notes is outstanding, registered in the names and denominations as set forth in the security register for the old notes. There will be no fixed record date for determining holders of the old notes entitled to participate in this exchange offer, and all holders of old notes may tender their old notes.

We intend to conduct the exchange offer in accordance with the provisions of the registration rights agreement and the applicable requirements of the Exchange Act, and the related rules and regulations of the SEC. Old notes that are not tendered for exchange in the exchange offer will remain outstanding and interest on these notes will continue to accrue at a rate equal to 4.07% per year.

If you validly tender old notes in the exchange offer, you will not be required to pay brokerage commissions or fees. In addition, subject to the instructions in the letter of transmittal, you will not have to pay transfer taxes for the exchange of old notes. We will pay all charges and expenses in connection with the exchange offer, other than certain applicable taxes described under [Fees and Expenses](#).

Expiration Date; Extensions; Amendments

For purposes of the exchange offer, the term "expiration date" means 11:59 p.m., New York City time, on May 29, 2013, unless we extend the exchange offer, in which case the expiration date is the latest date and time to which we extend the exchange offer.

Subject to applicable law, we reserve the right, in our absolute discretion, by giving oral or written notice to the exchange agent, to:

extend the exchange offer;

terminate the exchange offer if a condition to our obligation to exchange old notes for new notes is not satisfied or waived on or prior to the expiration date; and

amend the exchange offer.

If the exchange offer is amended in a manner that we determine constitutes a material change, including the waiver of a material condition, we will extend th
