**Table of Contents**

**Atlas Air Worldwide Holdings, Inc.**

**Notes to Unaudited Consolidated Financial Statements**

**March 31, 2013**

**1. Basis of Presentation**

Our consolidated financial statements include the accounts of the holding company, Atlas Air Worldwide Holdings, Inc. ( AAWW ) and its consolidated subsidiaries. AAWW is the parent company of its principal operating subsidiary, Atlas Air, Inc. ( Atlas ), and of Polar Air Cargo LLC ( Old Polar ). AAWW is also the parent company of several subsidiaries related to our dry leasing services (collectively referred to as Titan ). In addition, we are the primary beneficiary of Global Supply Systems Limited ( GSS ), a consolidated subsidiary. AAWW has a 51% equity interest and 75% voting interest in Polar Air Cargo Worldwide, Inc. ( Polar ). We record our share of Polar s results under the equity method of accounting.

The terms we, us, our, and the Company mean AAWW and all entities included in its consolidated financial statements.

We provide outsourced aircraft and aviation operating solutions throughout the world, serving Africa, Asia, Australia, Europe, the Middle East, North America and South America through: (i) contractual service arrangements, including those through which we provide aircraft to customers and value-added services, including crew, maintenance and insurance ( ACMI ), as well as those through which we provide crew, maintenance and insurance, with the customer providing the aircraft ( CMI ); (ii) military charter services provided to the U.S. Military Air Mobility Command (the AMC ) ( AMC Charter ); (iii) seasonal, commercial and ad-hoc charter services ( Commercial Charter ); and (iv) dry leasing of aircraft and engines ( Dry Leasing or Dry Lease ).

The accompanying unaudited consolidated financial statements and related notes (the Financial Statements ) have been prepared in accordance with the U.S. Securities and Exchange Commission (the SEC ) requirements for quarterly reports on Form 10-Q, and consequently, exclude certain disclosures normally included in audited consolidated financial statements prepared in conformity with accounting principles generally accepted in the United States of America ( GAAP ). All significant intercompany accounts and transactions have been eliminated. The Financial Statements should be read in conjunction with the audited consolidated financial statements and the notes included in the AAWW Annual Report on Form 10-K for the year ended December 31, 2012, which includes additional disclosures and a summary of our significant accounting policies. In our opinion, the Financial Statements contain all adjustments, consisting of normal recurring items, necessary to fairly state the financial position of AAWW and its consolidated subsidiaries as of March 31, 2013, the results of operations for the three months ended March 31, 2013 and 2012, comprehensive income for the three months ended March 31, 2013 and 2012, cash flows for the three months ended March 31, 2013 and 2012, and shareholders equity as of and for the three months ended March 31, 2013 and 2012.

Our quarterly results are subject to seasonal and other fluctuations, and the operating results for any quarter are therefore not necessarily indicative of results that may be otherwise expected for the entire year.

Except for per share data, all dollar amounts are in thousands unless otherwise noted.

Certain reclassifications have been made to the prior periods unaudited consolidated financial statement amounts and related note disclosures to conform to the current period s presentation.

**2. Recently Adopted Accounting Pronouncements**

In February 2013, the Financial Accounting Standards Board issued new guidance requiring additional information about reclassification adjustments out of accumulated other comprehensive income, including changes in accumulated other comprehensive income balances by component and significant items reclassified out of accumulated other comprehensive income. The new guidance was effective as of the beginning of 2013 and its adoption did not have any impact on our financial condition, results of operations or cash flows.

**Table of Contents****3. Related Parties*****DHL Investment and Polar***

DHL Network Operations (USA), Inc. ( *DHL* ), a subsidiary of Deutsche Post AG ( *DP* ), holds a 49% equity interest and a 25% voting interest in Polar. Polar is a variable interest entity that is not consolidated because we are not the primary beneficiary as the risks associated with the direct costs of operation are with DHL. Concurrent with the investment, under a 20-year blocked space agreement that was subsequently amended (the *BSA* ), Polar provides air cargo capacity to DHL through Polar's network for DHL Express services. In addition to the *BSA*, we have several agreements between Atlas and Polar to provide ACMI, CMI, administrative, sales and ground support services to one another. Except for any liquidated damages that we could incur under these agreements, we do not have any continuing financial exposure to fund debt obligations or operating losses of Polar. The following table summarizes our transactions with Polar:

<b>Revenue and Expenses:</b>	<b>For the Three Months Ended</b>	
	<b>March 31, 2013</b>	<b>March 31, 2012</b>
ACMI segment revenue from Polar	\$ 70,847	\$ 60,694
Other revenue from Polar	\$ 2,847	\$ 2,837
Ground handling and airport fees paid to Polar	\$ 327	\$ 998
	<b>March</b>	<b>December 31, 2012</b>
<b>Accounts receivable/payable as of:</b>	<b>31, 2013</b>	
Receivables from Polar	\$ 4,713	\$ 4,264
Payables to Polar	\$ 121	\$ 140
	<b>March</b>	<b>December 31,</b>
<b>Aggregate Carrying Value of Polar</b>	<b>31, 2013</b>	<b>2012</b>
<b>Investment as of:</b>		
	\$ 4,870	\$ 4,870

***GATS***

We hold a 50% equity and voting interest in Global Aviation Technical Solutions Co. Ltd. ( *GATS* ), a joint venture with an unrelated third party. The purpose of the joint venture is to purchase rotatable parts and source repair services for those parts, primarily for our 747-8F aircraft. The joint venture is a variable interest entity and we have not consolidated *GATS* because we are not the primary beneficiary as we do not exercise financial control. As of March 31, 2013 and December 31, 2012, our investment in *GATS* was \$12.3 million and our maximum exposure to losses from the entity is limited to our investment, which is composed primarily of rotatable inventory parts. *GATS* does not have any third-party debt obligations.

**4. Financial Instruments**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Inputs used to measure fair value are classified in the following hierarchy:

- Level 1      Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2      Other inputs that are observable directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, or inactive quoted prices for identical assets or liabilities in inactive markets;
- Level 3      Unobservable inputs reflecting assumptions about the inputs used in pricing the asset or liability.

We endeavor to utilize the best available information to measure fair value.

## Edgar Filing: ATLAS AIR WORLDWIDE HOLDINGS INC - Form 10-Q

We maintain Cash and cash equivalents and Short-term investments, which include cash on hand, demand deposits, other cash investments that are highly liquid in nature and have original maturities of three months or less at acquisition, money market funds, certificates of deposit and the current portion of debt securities. The carrying value of Cash and cash equivalents and Short-term investments is based on cost, which approximates fair value.

**Table of Contents**

Long-term investments consist of debt securities for which we have both the ability and the intent to hold until maturity. These investments are classified as held-to-maturity and reported at amortized cost. The fair value of our Long-term investments was based on a discounted cash flow analysis using the contractual cash flows of the investments and a discount rate derived from unadjusted quoted interest rates for debt securities of comparable risk. Such debt securities represent investments in Pass-Through Trust Certificates related to enhanced equipment trust certificates ( EETCs ) issued by Atlas in 1998, 1999 and 2000. Interest on debt securities and accretion of discounts using the effective interest method are included in Interest income.

The fair value of our EETCs was estimated based on Level 3 inputs. We obtained Level 2 inputs of quoted market prices of equipment notes issued under our EETCs and used them as a basis for valuing the EETCs.

The fair values of our term loans and the Export-Import Bank of the United States ( Ex-Im Bank ) guaranteed notes were based on a discounted cash flow analysis using current borrowing rates for instruments with similar terms.

The following table summarizes the carrying amount, estimated fair value and classification of our financial instruments as of:

	March 31, 2013				
	Carrying Value	Fair Value	Level 1	Level 2	Level 3
<b>Assets</b>					
Cash and cash equivalents	\$ 330,311	\$ 330,311	\$ 330,311	\$	\$

**Table of Contents****5. Accrued Liabilities**

Accrued liabilities consisted of the following as of:

	<b>March 31, 2013</b>	<b>December 31, 2012</b>
Maintenance	\$ 58,253	\$ 38,475
Salaries, wages and benefits	26,143	32,734
Deferred revenue	22,301	18,619
Aircraft fuel	19,665	19,882
Other	40,648	42,757
Accrued liabilities	\$ 167,010	\$ 152,467

**6. Debt**

On March 7, 2013, we entered into a \$119.5 million term loan secured by a mortgage on a 777-200LRF aircraft (manufacturer serial number 36201) for a period of 89 months with a final payment of \$62.4 million due in July 2020 (the First 2013 Term Loan). In connection with entry into the First 2013 Term Loan, we paid usual and customary fees. The First 2013 Term Loan accrues interest at a variable rate, payable quarterly, at LIBOR plus a margin and contains customary covenants and events of default.

On March 28, 2013, we entered into a \$105.4 million six-month term loan secured by a mortgage on a 747-8F aircraft (aircraft tail number N854GT) (the First 2013 Bridge Loan). In connection with entry into the First 2013 Bridge Loan, we paid usual and customary fees. The First 2013 Bridge Loan accrues interest at a variable rate, payable monthly, at LIBOR plus a margin and contains customary covenants and events of default.

**7. Commitments and Contingencies**

In 2006, we entered into an agreement with The Boeing Company ( Boeing ) providing for the purchase of 12 747-8F aircraft (the Boeing 747-8F Agreement). In September 2011, we exercised our termination rights in connection with three early build 747-8F aircraft, reducing our order to nine. In addition, the Boeing 747-8F Agreement provided us with rights to purchase up to an additional 13 747-8F aircraft.

As of March 31, 2013, we purchased and took delivery of eight of the nine aircraft on order. Estimated remaining expenditures under the Boeing 747-8F Agreement as of March 31, 2013, including estimated amounts for contractual price escalations and delivery payments, are \$98.8 million for the remainder of 2013.

**8. Segment Reporting**

We have the following four reportable segments: ACMI (which includes CMI), AMC Charter, Commercial Charter and Dry Leasing. We use an economic performance metric ( Direct Contribution ) that shows the profitability of each segment after allocation of direct operating costs. The following table sets forth Operating Revenue and Direct Contribution for our reportable business segments reconciled to Operating Income and Income before Income Taxes:

	<b>For the Three Months Ended</b>	
	<b>March 31, 2013</b>	<b>March 31, 2012</b>
<b>Operating Revenue:</b>		
ACMI	\$ 181,170	\$ 154,703
AMC Charter	98,037	121,294
Commercial Charter	91,100	76,947
Dry Leasing	3,747	2,945
Other	3,282	3,415

<b>Total Operating Revenue</b>	\$ 377,336	\$ 359,304
--------------------------------	------------	------------

**Table of Contents**

	<b>For the Three Months Ended</b>	
	<b>March 31, 2013</b>	<b>March 31, 2012</b>
<b>Direct Contribution:</b>		
ACMI	\$ 39,944	\$ 24,154
AMC Charter	12,737	20,581
Commercial Charter	(8,685)	1,876
Dry Leasing	1,176	1,336
<b>Total Direct Contribution for Reportable Segments</b>	<b>45,172</b>	<b>47,947</b>
<b>Add back (subtract):</b>		
Unallocated income and expenses	(35,012)	(29,969)
Gain on disposal of aircraft	23	196
<b>Income before Income Taxes</b>	<b>10,183</b>	<b>18,174</b>
<b>Add back (subtract):</b>		
Interest income	(5,176)	(4,909)
Interest expense	18,440	13,963
Capitalized interest	(1,402)	(6,352)
Other expense (income), net	552	(297)
<b>Operating Income</b>	<b>\$ 22,597</b>	<b>\$ 20,579</b>

We are exposed to a concentration of revenue to the AMC and Polar (see Note 3). No other customer accounted for 10.0% or more of our Total Operating Revenue. We have not experienced credit issues with either of these customers.

**9. Legal Proceedings*****Department of Justice Investigation and Related Litigation***

In 2010, Old Polar entered into a plea agreement with the United States Department of Justice (the DOJ) relating to the previously disclosed DOJ investigation concerning alleged manipulation by cargo carriers of fuel surcharges and other rate components for air cargo services (the DOJ Investigation).

As a result of the DOJ Investigation, the Company and Old Polar have been named defendants, along with a number of other cargo carriers, in several class actions in the United States arising from allegations about the pricing practices of a number of air cargo carriers that have now been consolidated for pre-trial purposes in the United States District Court for the Eastern District of New York. The consolidated complaint alleges, among other things, that the defendants, including the Company and Old Polar, manipulated the market price for air cargo services sold domestically and abroad through the use of surcharges, in violation of United States, state, and European Union antitrust laws. The suit seeks treble damages and injunctive relief.

In 2007, the Company and Old Polar commenced an adversary proceeding in bankruptcy court against each of the plaintiffs in this class action litigation seeking to enjoin the plaintiffs from prosecuting claims against the Company and Old Polar that arose prior to 2004, the date on which the Company and Old Polar emerged from bankruptcy. In 2007, the plaintiffs consented to the injunctive relief requested and the bankruptcy court entered an order enjoining plaintiffs from prosecuting Company claims arising prior to 2004.

The court in the antitrust class actions has heard and decided a number of procedural motions. Among those was the plaintiffs' motion to join Polar Air Cargo Worldwide, Inc. as an additional defendant, which the court granted on April 13, 2011. There was substantial pre-trial written discovery and document production, and a number of depositions were taken. The case is currently in the class certification phase, with motions and responses being submitted and additional depositions occurring. We are unable to reasonably predict the court's ruling on the motion or the ultimate outcome of the litigation.

## Edgar Filing: ATLAS AIR WORLDWIDE HOLDINGS INC - Form 10-Q

The Company, Old Polar and a number of other cargo carriers have also been named as defendants in civil class action suits in the provinces of British Columbia, Ontario and Quebec, Canada that are substantially similar to the class action suits in the United States. The plaintiffs in the British Columbia case have indicated they do not intend to pursue their lawsuit against the Company and Old Polar. We are unable to reasonably predict the outcome of the litigation in Ontario and Quebec.

---

## **Table of Contents**

If the Company or Old Polar were to incur an unfavorable outcome in connection with one or more of the matters described above, such outcome is not expected to materially affect our business, financial condition, results of operations, and/or cash flows.

### ***Brazilian Customs Claim***

Old Polar was cited for two alleged customs violations in Sao Paulo, Brazil, relating to shipments of goods dating back to 1999 and 2000. Each claim asserts that goods listed on the flight manifest of two separate Old Polar scheduled service flights were not on board the aircraft upon arrival and therefore were improperly brought into Brazil. The two claims, which also seek unpaid customs duties, taxes and penalties from the date of the alleged infraction, are approximately \$9.7 million in aggregate based on March 31, 2013 exchange rates.

In both cases, we believe that the amounts claimed are substantially overstated due to a calculation error when considering the type and amount of goods allegedly missing, among other things. Furthermore, we may seek appropriate indemnity from the shipper in each claim as may be feasible. In the pending claim for one of the cases, we have received an administrative decision dismissing the claim in its entirety, which remains subject to a mandatory appeal by the Brazil customs authorities. As required to defend such claims, we have made deposits pending resolution of these matters. The balances were \$6.4 million as of March 31, 2013 and \$6.3 million as of December 31, 2012, and are included in Deposits and other assets.

We are currently defending these and other Brazilian customs claims and the ultimate disposition of these claims, either individually or in the aggregate, is not expected to materially affect our financial condition, results of operations or cash flows.

### ***Trademark Matters***

Since 2005, we have been involved in ongoing litigation in Europe against Atlas Transport, an unrelated and unaffiliated entity, over the use of the name Atlas. Following application by us to register the mark ATLAS AIR in the European Union (EU), opposition from Atlas Transport and follow-up filings by us, the Office for Harmonization in the Internal Market (OHIM), which handles trademark matters in the EU, declared Atlas Transport's own trademark ATLAS partially invalid because of the prior existence of our Benelux trademark registration. In 2008, OHIM's First Board of Appeal upheld the lower panel's decision, and Atlas Transport appealed that decision to the EU General Court (formally the Court of First Instance), which upheld the court's decision on May 18, 2011. Atlas Transport appealed that ruling to the European Court of Justice (ECJ). On March 9, 2012, the ECJ denied the appeal, bringing to an end that aspect of the OHIM proceedings. The Company's request for OHIM to resume another aspect of the proceedings remains pending.

In 2007, Atlas Transport also filed a lawsuit in the Netherlands challenging the validity of our Benelux trademark. In 2009, following completion of its proceedings, the court issued a judgment in favor of us. Atlas Transport appealed that decision to the Dutch Court of Appeal, but the judgment took effect immediately upon entry. The appeal remains pending.

In 2009, Atlas Transport instituted a trademark infringement lawsuit against us in the regional court in Hamburg, Germany. The amended complaint alleges that Atlas Air has been unlawfully using Atlas Transport's trademark in Germany without permission and should be required to render information on the scope of use and pay compensation. In a supplementary motion, Atlas Transport asserts a cease and desist claim against Atlas Air, to be considered if the court denies the claim for compensation. On May 31, 2011, the court dismissed the case and Atlas Transport filed an appeal, which remains pending.

We believe that the ultimate disposition of these claims, either individually or in the aggregate, will not materially affect our financial condition, results of operations or cash flows.

### ***Other***

We have certain other contingencies incident to the ordinary course of business. Management believes that the ultimate disposition of such other contingencies is not expected to materially affect our financial condition, results of operations or cash flows.

**Table of Contents****10. Stock Repurchase**

In 2008, we announced a stock repurchase program authorizing the repurchase of up to \$100 million of our common stock. Purchases may be made at our discretion in the form of open market repurchase programs, privately negotiated transactions, accelerated share repurchase programs or a combination of these methods. The actual timing and amount of our repurchases will depend on company and market conditions. Repurchased shares are included in Treasury stock.

On February 19, 2013, we entered into an accelerated share repurchase program agreement ( ASR ) with a financial institution for the repurchase of our common stock for an aggregate purchase price of a minimum of \$25.0 million up to a maximum of \$50.0 million. As of March 31, 2013, we paid \$50.0 million to the financial institution and received an initial delivery of 427,168 shares. We accounted for this ASR as a repurchase of common stock and as a forward contract indexed to our own common stock. We have determined that the forward contract met all of the applicable criteria for equity classification and, therefore, this ASR was not accounted for as a derivative instrument.

On April 25, 2013, the ASR was settled, and we received a refund of \$13.5 million and an additional 476,133 shares. In the aggregate, we repurchased 903,301 shares for \$36.5 million at an average cost of \$40.40 per share under this ASR. The number of shares repurchased by us was generally based on the volume weighted average price of our common stock during the term of this ASR less a pre-determined discount.

**11. Earnings Per Share**

Basic earnings per share ( EPS ) represent net income attributable to common shareholders divided by the weighted average number of common shares outstanding during the measurement period. Diluted EPS represent net income attributable to common shareholders divided by the weighted average number of common shares outstanding during the measurement period while also giving effect to all potentially dilutive common shares that were outstanding during the period. Anti-dilutive options that were out of the money for the three months ended March 31, 2013 and 2012 were de minimis and excluded.

The calculations of basic and diluted EPS were as follows:

	<b>For the Three Months Ended</b>	
	<b>March 31, 2013</b>	<b>March 31, 2012</b>
<b>Numerator:</b>		
Net Income Attributable to Common Stockholders	\$ 20,078	\$ 12,835
<b>Denominator:</b>		
Basic EPS weighted average shares outstanding	26,330	26,360
Effect of dilutive stock options and restricted stock	109	128
Diluted EPS weighted average shares outstanding	26,439	26,488
<b>EPS:</b>		
Basic	\$ 0.76	\$ 0.49
Diluted	\$ 0.76	\$ 0.48

Diluted shares reflect the potential dilution that could occur from stock options and restricted share units using the treasury stock method. The calculation does not include restricted share units in which performance or market conditions were not satisfied of 0.6 million for the three months ended March 31, 2013 and 0.4 million for the three months ended March 31, 2012.

**Table of Contents****12. Accumulated Other Comprehensive Income (Loss)**

The following table summarizes the components of Accumulated other comprehensive income (loss):

	<b>Interest Rate Derivatives</b>	<b>Foreign Currency Translation</b>	<b>Total</b>
Balance as of December 31, 2012	\$ (14,618)	\$ 355	\$ (14,263)
Reclassification into earnings	770		770
Translation adjustment		(154)	(154)
Tax effect	(279)		(279)
Balance as of March 31, 2013	\$ (14,127)	\$ 201	\$ (13,926)

**Interest Rate Derivatives**

As of March 31, 2013, there was \$22.1 million of unamortized realized loss before taxes remaining in Accumulated other comprehensive income (loss) related to terminated forward-starting interest rate swaps, which had been designated as cash flow hedges to effectively fix the interest rates on two 747-8F financings in 2011. The loss is amortized into Interest expense over the remaining life of the related debt. We reclassified realized losses into earnings as a component of Interest expense \$0.8 million for the three months ended March 31, 2013 and \$0.3 million for the three months ended March 31, 2012. Realized losses expected to be reclassified into earnings within the next 12 months are \$3.0 million as of March 31, 2013.

**13. Income Taxes**

Our effective income tax rates were a benefit of 97.4% for the three months ended March 31, 2013 and an expense of 39.8% for the three months ended March 31, 2012. The effective rate for the three months ended March 31, 2013 differs from the U.S. federal statutory rate primarily due to an income tax benefit of \$14.2 million related to extraterritorial income ( ETI ) from certain of our aircraft. We recognized this income tax benefit based on a decision in a recent court case. The effective rates for both three month periods also differ from the U.S. federal statutory rate due to the income tax impact of global operations, U.S. state income taxes, the non-deductibility of certain expenses for tax purposes, and the relationship of these items to our projected operating results for the year. For interim accounting purposes, we recognize income taxes using an estimated annual effective tax rate.

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion and analysis should be read in conjunction with our unaudited Financial Statements appearing in this report and our audited consolidated financial statements and related notes included in our 2012 Annual Report on Form 10-K.

**Background**

**Certain Terms Glossary**

The following represents terms and statistics specific to our business and industry. They are used by management to evaluate and measure operations, results, productivity and efficiency.

Block Hour	The time interval between when an aircraft departs the terminal until it arrives at the destination terminal.
C Check	High-level or heavy airframe maintenance checks, which are more intensive in scope than Line Maintenance and are generally performed between 18 and 24 months depending on aircraft type.
D Check	High-level or heavy airframe maintenance checks, which are the most extensive in scope and are generally performed between six and nine years depending on aircraft type.
Heavy Maintenance	Scheduled maintenance activities, which are extensive in scope and are primarily based on time intervals, including, but not limited to, C Checks, D Checks and engine overhauls.
Line Maintenance	Unscheduled maintenance to rectify events occurring during normal day-to-day operations.
Non-heavy Maintenance	Discrete maintenance activities for the overhaul and repair of specific aircraft components.
Revenue Per Block Hour	An amount calculated by dividing Operating revenues by Block Hours.
Yield	The average amount a customer pays to fly one tonne of cargo one mile.

**Business Overview**

We are a leading global provider of outsourced aircraft and aviation operating solutions. As such, we manage and operate the world's largest fleet of Boeing 747 freighters. We provide unique value to our customers by giving them access to highly reliable new production freighters that deliver the lowest unit cost in the marketplace combined with outsourced aircraft operating services that we believe lead the industry in terms of quality and global scale. Our customers include airlines, express delivery providers, freight forwarders, the U.S. military and charter brokers. We provide global services with operations in Africa, Asia, Australia, Europe, the Middle East, North America and South America.

Our primary service offerings encompass the following:

ACMI, whereby we provide outsourced cargo aircraft operating solutions, including the provision of an aircraft, crew, maintenance and insurance, while customers assume fuel, demand and Yield risk;

CMI, which is part of our ACMI business segment, whereby we provide outsourced cargo and passenger aircraft operating solutions including the provision of crew, maintenance and insurance, while customers provide the aircraft and assume fuel, demand and Yield risk;

## Edgar Filing: ATLAS AIR WORLDWIDE HOLDINGS INC - Form 10-Q

AMC Charter services, whereby we provide cargo and passenger aircraft charter services for the AMC. The AMC pays a fixed charter fee that includes fuel, insurance, landing fees, overfly and all other operational fees and costs;

Commercial Charter, whereby we provide cargo and passenger aircraft charters to customers, including brokers, cruise-ship operators, freight forwarders, direct shippers and airlines. The customer generally pays a fixed charter fee that includes fuel, insurance, landing fees, overfly and all other operational fees and costs; and

## **Table of Contents**

Dry Leasing, whereby we provide aircraft and/or engine leasing solutions.  
We look to achieve our growth plans to enhance stakeholder value by:

Delivering superior service quality to our valued customers;

Aggressively managing our fleet with a focus on leading-edge aircraft;

Focusing on securing long-term customer contracts;

Driving significant and ongoing productivity improvements;

Selectively pursuing and evaluating future acquisitions and alliances; and

Building our brand and increasing our market share.

See **Business Overview** and **Business Strategy** in our 2012 Annual Report on Form 10-K for additional information.

## **Business Developments**

Our ACMI results for the first three months of 2013, compared to 2012, were positively impacted by the following events:

Between March and June 2012, we began CMI flying the first three of five 767-200 freighters owned by DHL. We began flying the fourth during July 2012 and the fifth during November 2012.

In May and July 2012, we took delivery of two 747-8F aircraft that we placed in service with Panalpina Air & Ocean Ltd ( Panalpina ) under an ACMI agreement, which replaced two 747-400F aircraft.

In June 2012, we began ACMI flying a 747-400F aircraft for Etihad Airways ( Etihad ), which was the first 747-400F aircraft in its global network.

In July 2012, we began ACMI flying an additional 747-400F aircraft for Polar and DHL, which increased the size of our fleet flying for DHL from eight to nine aircraft.

In October and December 2012, we took delivery of two 747-8F aircraft that we placed into ACMI service with Polar and DHL, replacing two 747-400 aircraft.

In January and February 2013, we began CMI flying two new 767-300ERF aircraft owned by DHL.

In February 2013, we signed an ACMI agreement with Chapman Freeborn Airchartering Ltd. for a 747-400F aircraft, with network service that began in April 2013. This was the first dedicated 747-400F aircraft in its network.

## Edgar Filing: ATLAS AIR WORLDWIDE HOLDINGS INC - Form 10-Q

In May 2013, we signed an ACMI agreement with Etihad for a 747-8F aircraft, with service that will begin in May 2013. This is the first 747-8F aircraft in its global network.

AMC Charter Cargo Block Hours have continued to be negatively impacted by reduced demand. Partially offsetting this reduction was an increase in AMC passenger Block Hours primarily due to a third 767-300ER passenger aircraft placed in service in May 2012. This increased the size of our passenger service for the AMC to two 747-400 and three 767-300ER passenger aircraft.

Commercial Charter Block Hours have increased significantly during the first quarter of 2013, reflecting our redeployment of 747-400 aircraft from ACMI during remarketing periods. However, Commercial Charter Yields have been negatively impacted by softer demand and excess capacity in the air cargo market.

In March 2013, Titan purchased its first Boeing 777-200LRF aircraft that is being Dry Leased to a customer on a long-term basis.

**Table of Contents****Results of Operations***Three Months Ended March 31, 2013 and 2012***Operating Statistics**

The following discussion should be read in conjunction with our Financial Statements and other financial information appearing and referred to elsewhere in this report.

The table below sets forth selected Operating Statistics for the three months ended March 31:

	2013	2012	Increase / (Decrease)	Percent Change
<b>Block Hours</b>				
ACMI	28,089	24,509	3,580	14.6%
AMC Charter:				
Cargo	1,874	3,189	(1,315)	(41.2)%
Passenger	2,561	1,850	711	38.4%
Commercial Charter	4,719	3,691	1,028	27.9%
Other	190	434	(244)	(56.2)%
Total Block Hours	37,433	33,673	3,760	11.2%
<b>Revenue Per Block Hour</b>				
ACMI	\$ 6,450	\$ 6,312	\$ 138	2.2%
AMC Charter	22,105	24,071	(1,966)	(8.2)%
Cargo	23,334	24,886	(1,552)	(6.2)%
Passenger	21,206	22,667	(1,461)	(6.4)%
Commercial Charter	19,305	20,847	(1,542)	(7.4)%
<b>Fuel</b>				
<b>AMC</b>				
Average fuel cost per gallon	\$ 3.63	\$ 3.61	\$ 0.02	0.6%
Fuel gallons consumed (000s)	11,418	14,029	(2,611)	(18.6)%
<b>Commercial Charter</b>				
Average fuel cost per gallon	\$ 3.32	\$ 3.39	\$ (0.07)	(2.1)%
Fuel gallons consumed (000s)	15,627	13,031	2,596	19.9%
<b>Segment Operating Fleet (average aircraft equivalents during the period)</b>				
<b>ACMI*</b>				
747-8F Cargo	7.0	3.0	4.0	133.3%
747-400 Cargo	14.7	17.5	(2.8)	(16.0)%
747-200 Cargo		0.1	(0.1)	(100.0)%
767-200 Cargo	5.0	0.2	4.8	NM

747-400 Passenger	1.0	1.0		NM
767-300 Passenger	0.7	0.1	0.6	NM
Total	29.8	21.9	7.9	36.1%
<b>AMC Charter</b>				
747-400 Cargo	3.0	3.6	(0.6)	(16.7)%
747-200 Cargo		0.7	(0.7)	(100.0)%
747-400 Passenger	1.9	1.7	0.2	11.8%
767-300 Passenger	2.1	1.1	1.0	90.9%
Total	7.0	7.1	(0.1)	(1.4)%

Edgar Filing: ATLAS AIR WORLDWIDE HOLDINGS INC - Form 10-Q

<b>Commercial Charter</b>				
747-400 Cargo	7.2	3.9	3.3	84.6%
747-200 Cargo		0.7	(0.7)	(100.0)%
747-400 Passenger	0.1	0.1		NM
767-300 Passenger	0.1	0.3	(0.2)	(66.7)%
<b>Total</b>	<b>7.4</b>	<b>5.0</b>	<b>2.4</b>	<b>48.0%</b>

**Table of Contents**

	2013	2012	Increase / (Decrease)	Percent Change
<b>Dry Leasing</b>				
757-200 Cargo	1.0	1.0		NM
737-300 Cargo	1.0		1.0	NM
777-200 Cargo	0.3		0.3	NM
737-800 Passenger	2.0	2.0		NM
<b>Total</b>	4.3	3.0	1.3	43.3%
<b>Total Operating Aircraft</b>	48.5	37.0	11.5	31.1%
<b>Out-of-service**</b>	0.5		0.5	NM

\* ACMI average fleet excludes spare aircraft provided by CMI customers.

\*\* All of our out-of-service aircraft are completely unencumbered. Permanently parked aircraft, all of which are also completely unencumbered, are not included in the operating statistics above.

**Operating Revenue**

The following table compares our Operating Revenue for the three months ended March 31 (in thousands):

	2013	2012	Increase / (Decrease)	Percent Change
<b>Operating Revenue</b>				
ACMI	\$ 181,170	\$ 154,703	\$ 26,467	17.1%
AMC Charter	98,037	121,294	(23,257)	(19.2)%
Commercial Charter	91,100	76,947	14,153	18.4%
Dry Leasing	3,747	2,945	802	27.2%
Other	3,282	3,415	(133)	(3.9)%
<b>Total Operating Revenue</b>	<b>\$ 377,336</b>	<b>\$ 359,304</b>	<b>\$ 18,032</b>	<b>5.0%</b>

ACMI revenue increased \$26.5 million, or 17.1%, primarily due to the entry of four 747-8F aircraft into service beginning in May 2012 and increased CMI flying, partially offset by the redeployment of 747-400 aircraft into other segments. ACMI Block Hours were 28,089 for the first quarter of 2013, compared to 24,509 in 2012, representing an increase of 3,580 Block Hours, or 14.6%. The increase in Block Hours was primarily driven by the start-up of CMI flying of five 767-200 cargo aircraft during 2012 and two 767-300 cargo aircraft during the first quarter of 2013 for DHL and an increase in CMI flying for Boeing. In addition, Block Hours increased related to the start-up of ACMI 747-400 flying for Etihad in June 2012 and 747-8F flying for DHL in October 2012. Partially offsetting these increases was the return of 747-400 cargo aircraft during 2012, which were temporarily redeployed to other segments. ACMI Revenue per Block Hour was \$6,450 for the first quarter of 2013, compared to \$6,312 in 2012, an increase of \$138 per Block Hour, or 2.2%. The increase in Revenue per Block Hour primarily reflects the impact of higher rates on an increased number of 747-8F aircraft, partially offset by the impact of lower rates on increased CMI flying.

AMC Charter revenue decreased \$23.3 million, or 19.2%, primarily driven by a reduction in AMC Charter Cargo flying, partially offset by increased AMC Charter Passenger flying. AMC Charter Block Hours were 4,435 for the first quarter of 2013 compared to 5,039 in 2012, a decrease of 604 Block Hours, or 12.0%. The decrease in AMC Charter Block Hours was due to a decrease of 1,315 AMC Charter Cargo Block Hours driven by reduced cargo demand from the AMC, partially offset by an increase of 711 AMC Charter Passenger Block Hours. AMC Charter Revenue per Block Hour was \$22,105 for the first quarter of 2013 compared to \$24,071 in 2012, a decrease of \$1,966 per Block Hour, or 8.2%, primarily due to a higher volume of passenger flying on smaller 767 aircraft, reduced cargo Block Hours and a reduction in the number of one-way AMC missions. For the first quarter of 2013, the AMC average pegged fuel price was \$3.63 per gallon compared to \$3.61 in 2012. The pegged fuel price is set by the AMC and the impact to revenue from changes in the pegged fuel price is generally offset by a corresponding impact to fuel expense.

## Edgar Filing: ATLAS AIR WORLDWIDE HOLDINGS INC - Form 10-Q

*Commercial Charter revenue* increased \$14.2 million, or 18.4%, primarily due to an increase in Block Hours, partially offset by a decrease in Revenue per Block Hour. Commercial Charter Block Hours were 4,719 in the first quarter of 2013, compared to 3,691 in 2012, representing an increase of 1,028 Block Hours, or 27.9%. The increase in Block Hours was primarily due to the deployment of 747-400 cargo aircraft from ACMI during remarketing periods. Revenue per Block Hour was \$19,305 in the first quarter of 2013, compared to \$20,847 in 2012, a decrease of \$1,542 per Block Hour, or 7.4%. This reflects the impact of lower Yields from softer demand and excess capacity in the air cargo market, as well as the impact of a reduction in Commercial Charter return legs due to fewer AMC one-way missions.

**Table of Contents**

Dry Leasing revenue was relatively unchanged.

**Operating Expenses**

The following table compares our Operating Expenses for the three months ended March 31 (in thousands):

	2013	2012	Increase / (Decrease)	Percent Change
<b>Operating Expenses</b>				
Aircraft fuel	\$ 93,358	\$ 94,763	\$ (1,405)	(1.5)%
Salaries, wages and benefits	72,531	70,876	1,655	2.3%
Maintenance, materials and repairs	58,369	52,980	5,389	10.2%
Aircraft rent	40,008	39,418	590	1.5%
Depreciation and amortization	17,808	14,303	3,505	24.5%
Passenger and ground handling services	16,772	12,771	4,001	31.3%
Travel	15,179	12,620	2,559	20.3%
Navigation fees, landing fees and other rent	14,112	13,055	1,057	8.1%
Gain on disposal of aircraft	(23)	(196)	(173)	88.3%
Other	26,625	28,135	(1,510)	(5.4)%
Total Operating Expenses	\$ 354,739	\$ 338,725		

Aircraft fuel decreased \$1.4 million, or 1.5%, primarily due to fuel price decreases in Commercial Charter. The average fuel price per gallon for the Commercial Charter business was \$3.32 for the first quarter of 2013, compared to \$3.39 in 2012, a decrease of 2.1%. Commercial Charter fuel consumption increased by 2.6 million gallons, or 19.9%, primarily driven by the increase in Block Hours operated. The average fuel price per gallon for the AMC Charter business was \$3.63 in the first quarter of 2013, compared to \$3.61 in 2012, an increase of 0.6%. AMC fuel consumption decreased by 2.6 million gallons, or 18.6%, primarily reflecting the decrease in Block Hours operated and the use of smaller twin-engine 767 passenger aircraft. We do not incur fuel expense in our ACMI or Dry Leasing businesses as the cost of fuel is borne by the customer.

Salaries, wages and benefits increased \$1.7 million, or 2.3%, primarily driven by higher Block Hours.

Maintenance, materials and repairs increased \$5.4 million, or 10.2%, driven by an increase in maintenance expense of \$3.8 million for 767 aircraft and \$2.2 million for 747-8F aircraft, partially offset by a decrease of \$0.6 million for other aircraft. Heavy Maintenance expense on 747-400 aircraft increased approximately \$2.4 million primarily due to an increase in engine overhaul expense compared to 2012. Heavy Maintenance expense on 767 aircraft increased approximately \$2.1 million primarily due to an increase in the number of C Checks in 2013. Non-heavy Maintenance expense on 747-400 aircraft decreased \$1.1 million. Line Maintenance expense increased \$2.2 million for 747-8F aircraft and \$1.8 million for 767 aircraft driven by increased flying. Line Maintenance expense decreased \$1.4 million for 747-400 aircraft driven by decreased flying and \$0.5 million on 747-200 aircraft due to the retirement of this fleet in the first quarter of 2012. Heavy airframe maintenance events and engine overhauls for the three months ended March 31 were:

	2013	2012	Increase / (Decrease)
<b>Heavy Maintenance Events</b>			
747-400 C Checks	6	7	(1)
747-400 D Checks		2	(2)
767 C Checks	2		2
CF6-80 engine overhauls	7	5	2

Depreciation and amortization increased \$3.5 million, or 24.5%, due to additional operating aircraft in 2013.

## Edgar Filing: ATLAS AIR WORLDWIDE HOLDINGS INC - Form 10-Q

*Passenger and ground handling services* increased \$4.0 million, or 31.3%, primarily due to higher rates for ground handling from Commercial Charter flying to more expensive locations, and passenger catering and contract services for flight attendants related to increased passenger flying during 2013. We reclassified passenger catering and contract services for flight attendants from Other operating expenses to Passenger and ground handling services and reclassified previously reported amounts to conform to the current period's presentation.

**Table of Contents**

*Travel* increased \$2.6 million, or 20.3%, primarily due to increased travel for crew and flight attendants related to increased flying and higher rates during the first quarter of 2013.

*Navigation fees, landing fees and other rent* increased \$1.1 million, or 8.1%, primarily due to higher fees from Commercial Charter flying to more expensive locations during the first quarter of 2013.

*Other* decreased \$1.5 million, or 5.4%, primarily due to decreases in commissions for AMC Charter revenue.

**Non-operating Expenses (Income)**

The following table compares our Non-operating Expenses (Income) for the three months ended March 31 (in thousands):

	2013	2012	Increase / (Decrease)	Percent Change
<b>Non-operating Expenses (Income)</b>				
Interest income	\$ (5,176)	\$ (4,909)	\$ 267	5.4%
Interest expense	18,440	13,963	4,477	32.1%
Capitalized interest	(1,402)	(6,352)	(4,950)	(77.9)%
Other expense (income), net	552	(297)	(849)	(285.9)%

*Interest expense* increased \$4.5 million, or 32.1%, primarily due to an increase in our average debt balances related to the financing for 747-8F aircraft throughout 2012.

*Capitalized interest* decreased \$5.0 million, or 77.9%, resulting from 747-8F aircraft that entered service.

*Income taxes.* Our effective income tax rates were a benefit of 97.4% for the three months ended March 31, 2013 and an expense of 39.8% for the three months ended March 31, 2012. During the three months ended March 31, 2013, we recognized an income tax benefit of \$14.2 million related to ETI from certain of our aircraft based on a decision in a recent court case.

**Segments**

The following table compares the Direct Contribution of our reportable segments (see Note 8 to our Financial Statements for the reconciliation to Operating income) for the three months ended March 31 (in thousands):

	2013	2012	Increase / (Decrease)	Percent Change
<b>Direct Contribution:</b>				
ACMI	\$ 39,944	\$ 24,154	\$ 15,790	65.4%
AMC Charter	12,737	20,581	(7,844)	(38.1)%
Commercial Charter	(8,685)	1,876	(10,561)	NM
Dry Leasing	1,176	1,336	(160)	(12.0)%
Total Direct Contribution	\$ 45,172	\$ 47,947	\$ (2,775)	(5.8)%
Unallocated income and expenses	\$ 35,012	\$ 29,969	\$ 5,043	16.8%

**ACMI Segment**

Direct Contribution related to the ACMI segment increased \$15.8 million, or 65.4%, primarily due to higher profitability on our new 747-8F aircraft and increased CMI flying for DHL and Boeing during the first quarter of 2013.

*AMC Charter Segment*

Direct Contribution related to the AMC Charter segment decreased \$7.8 million, or 38.1%, primarily due to a decrease in cargo Block Hours resulting from lower AMC cargo demand and a reduction in the number of one-way AMC missions, partially offset by increased passenger Block Hours.

**Table of Contents****Commercial Charter Segment**

Direct Contribution related to the Commercial Charter segment decreased \$10.6 million, primarily due to a reduction in Revenue per Block Hour driven by softer demand, excess capacity in the air cargo market and a reduction in Commercial Charter return legs due to fewer AMC one-way missions. Partially offsetting these items was an increase in Block Hours, primarily due to the redeployment of 747-400 aircraft from ACMI during remarketing periods. In addition, Commercial Charter Direct Contribution was negatively impacted by increases in volume-driven operating expenses from flying to more expensive locations and aircraft ownership costs from the deployment of 747-400 aircraft into this segment.

**Dry Leasing Segment**

Direct Contribution related to the Dry Leasing segment was relatively unchanged.

**Unallocated income and expenses**

Unallocated income and expenses increased \$5.0 million, or 16.8%, primarily due to a reduction in capitalized interest on 747-8F aircraft that entered service.

**Reconciliation of GAAP to non-GAAP Financial Measures**

To supplement our Financial Statements presented in accordance with accounting principles generally accepted in the United States of America ( GAAP ), we present certain non-GAAP financial measures to assist in the evaluation of our business performance. These non-GAAP measures include Adjusted Net Income Attributable to Common Stockholders and adjusted diluted earnings per share ( Adjusted Diluted EPS ), which exclude certain items that impact year-over-year comparisons of our results. These non-GAAP measures may not be comparable to similarly titled measures used by other companies and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

We use these non-GAAP financial measures in assessing the performance of our ongoing operations and in planning and forecasting future periods. We believe that these adjusted measures provide meaningful information to assist investors and analysts in understanding our business results and assessing our prospects for future performance.

The following is a reconciliation of Net Income Attributable to Common Stockholders and Diluted EPS to the corresponding non-GAAP measures (in thousands, except per share data):

	<b>For the Three Months Ended</b>		
	<b>March 31, 2013</b>	<b>March 31, 2012</b>	<b>Percent Change</b>
<b>Net Income Attributable to Common Stockholders</b>	\$ 20,078	\$ 12,835	56.4%
After-tax impact from:			
Fleet retirement costs (a)		926	
ETI tax benefit	(14,160)		
Gain on disposal of aircraft	(15)	(125)	
<b>Adjusted Net Income Attributable to Common Stockholders</b>	\$ 5,903	\$ 13,636	(56.7%)
<b>Diluted EPS</b>	\$ 0.76	\$ 0.48	58.3%
After-tax impact from:			
Fleet retirement costs (a)		0.03	
ETI tax benefit	(0.54)		
Gain on disposal of aircraft	(0.00)	(0.00)	
<b>Adjusted Diluted EPS</b>	\$ 0.22	\$ 0.51	(56.9%)

- a) Fleet retirement costs in 2012 included incremental employee costs related to the retirement of our 747-200 fleet.

---

## **Table of Contents**

### **Liquidity and Capital Resources**

Significant liquidity events in the first three months of 2013 were as follows:

In January 2013, we prepaid the amounts outstanding under two term loans of \$40.2 million, which were due in the third quarter of 2013.

In February 2013, we paid \$50.0 million under an ASR to repurchase a minimum of \$25.0 million up to a maximum of \$50.0 million of our common stock depending on the price of our common stock. We subsequently settled the ASR in April 2013 and received a refund of \$13.5 million. See Note 10 to our Financial Statements for a discussion of our ASR.

In March 2013, we entered into the First 2013 Term Loan in the amount of \$119.5 million to finance the purchase of a 777-200LRF aircraft that is being Dry Leased to a customer on a long-term basis.

In March 2013, we entered into the First 2013 Bridge Loan in the amount of \$105.4 million to finance the delivery of our eighth 747-8F aircraft.

*Operating Activities.* Net cash provided by operating activities for the first quarter of 2013 was \$54.4 million, compared to \$18.1 million for the first quarter of 2012. The increase primarily reflects higher earnings and the timing of payments of our obligations.

*Investing Activities.* Net cash used for investing activities was \$234.1 million for the first quarter of 2013, consisting primarily of \$235.5 million of purchase deposit and delivery payments for flight equipment, which included \$1.4 million of capitalized interest on our 747-8F aircraft order, and \$10.5 million of capital expenditures, partially offset by \$9.1 million of proceeds from insurance and \$2.4 million of proceeds from short-term investments. Purchase deposit and delivery payments for flight equipment are primarily related to the purchase of one 747-8F cargo aircraft and one 777-200LRF cargo aircraft. Capital expenditures for the first quarter of 2013 were funded through working capital, except for the aircraft financed as discussed above. Net cash used for investing activities was \$51.8 million for the first quarter of 2012, consisting primarily of \$42.9 million of purchase deposit and delivery payments for flight equipment, which included \$6.4 million of capitalized interest on our 747-8F aircraft order and \$10.7 million of capital expenditures, partially offset by \$2.7 million of proceeds from short-term investments.

*Financing Activities.* Net cash provided by financing activities was \$100.3 million for the first quarter of 2013, which primarily reflected the proceeds from debt issuance of \$224.8 million, partially offset by \$70.6 million of payments on debt obligations and \$50.0 million related to the payment under the ASR discussed above. Net cash provided by financing activities was \$13.2 million for the first quarter of 2012, which primarily reflected the proceeds from debt issuance of \$35.7 million, partially offset by \$18.3 million of payments on debt obligations.

We consider Cash and cash equivalents, Short-term investments and Net cash provided by operating activities to be sufficient to meet our debt and lease obligations, to fund capital expenditures for the remainder of 2013 and to repurchase shares of our stock. Capital expenditures for the remainder of 2013 are expected to be approximately \$97.8 million, which excludes aircraft and capitalized interest. Our estimated 747-8F aircraft delivery payment requirements for the remainder of 2013 are approximately \$98.8 million. We expect our Cash and cash equivalents, and the Ex-Im Bank Facility to be sufficient to fund our 747-8F aircraft delivery payment requirements for 2013. We expect the First 2013 Bridge Loan to be refinanced with a long-term financing facility.

We may access external sources of capital from time to time depending on our cash requirements, assessments of current and anticipated market conditions, and the after-tax cost of capital. To that end, we filed a shelf registration statement with the SEC in 2012 that enables us to sell a yet to be determined amount of debt and/or equity securities over the subsequent three years, depending on market conditions, our capital needs and other factors. Our access to capital markets can be adversely impacted by prevailing economic conditions and by financial, business and other factors, some of which are beyond our control. Additionally, our borrowing costs are affected by market conditions and may be adversely impacted by a tightening in credit markets.

We can claim bonus tax depreciation equal to 50% of the cost of qualified assets placed in service during 2013 or 2014. One 747-8F aircraft delivered to us in 2013 qualified for 50% bonus tax depreciation. In addition, we expect that one additional 747-8F aircraft, to be delivered in 2013, will qualify for 50% bonus tax depreciation. As a result of bonus tax depreciation claimed on aircraft delivered to us, we do not expect to pay any significant U.S. federal income tax until 2017 or later. Our business operations are subject to income tax in several non-U.S. jurisdictions. We expect GSS to pay U.K. cash income taxes commensurate with its earnings. We do not expect to pay cash income taxes in any other jurisdiction for at least several years.

## **Table of Contents**

### ***Contractual Obligations and Debt Agreements***

See Notes 6 and 14 to our Financial Statements for a description of our new debt obligations: the First 2013 Term Loan and the First 2013 Bridge Loan. See our 2012 Annual Report on Form 10-K for a tabular disclosure of our contractual obligations as of December 31, 2012 and a description of our debt obligations and amendments thereto.

### **Off-Balance Sheet Arrangements**

There were no material changes in our off-balance sheet arrangements during the three months ended March 31, 2013.

### **Recent Accounting Pronouncement**

See Note 2 to our Financial Statements for a discussion of a recent accounting pronouncement.

### **Forward Looking Statements**

This Quarterly Report on Form 10-Q (this Report), as well as other reports, releases and written and oral communications issued or made from time to time by or on behalf of AAWW, contain statements that may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Those statements are based on management's beliefs, plans, expectations and assumptions, and on information currently available to management. Generally, the words will, may, should, expect, anticipate, intend, plan, continue, project, estimate and similar expressions used in this Report that do not relate to historical facts are intended to identify forward-looking statements.

The forward-looking statements in this Report are not representations or guarantees of future performance and involve certain risks, uncertainties and assumptions. Such risks, uncertainties and assumptions include, but are not limited to, those described in our Annual Report on Form 10-K for the year ended December 31, 2012. Many of such factors are beyond AAWW's control and are difficult to predict. As a result, AAWW's future actions, financial position, results of operations and the market price for shares of AAWW's common stock could differ materially from those expressed in any forward-looking statements. Readers are therefore cautioned not to place undue reliance on forward-looking statements. AAWW does not intend to publicly update any forward-looking statements that may be made from time to time by, or on behalf of, AAWW, whether as a result of new information, future events or otherwise, except as required by law.

## **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

For additional discussion of our exposure to market risk, refer to Part II, Item 7A Quantitative and Qualitative Disclosures About Market Risk included in our 2012 Annual Report on Form 10-K.

## **ITEM 4. CONTROLS AND PROCEDURES**

### **Evaluation of Disclosure Controls and Procedures**

An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer, or CEO, and Chief Financial Officer, or CFO, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of March 31, 2013. Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and is accumulated and communicated to our management, including our CEO and CFO, to allow timely decisions regarding required disclosure.

### **Changes in Internal Control Over Financial Reporting**

There has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the three months ended March 31, 2013 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents****PART II OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

With respect to the fiscal quarter ended March 31, 2013, the information required in response to this Item is set forth in Note 9 to our Financial Statements and such information is incorporated herein by reference. Such description contains all of the information required with respect hereto.

**ITEM 1A. RISK FACTORS**

For additional risk factors that may cause actual results to differ materially from those anticipated, please refer to our 2012 Annual Report on Form 10-K.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

We made the following repurchases of shares of our common stock during the quarter ended March 31, 2013:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
January 1, 2013 through January 31, 2013				
February 1, 2013 through February 28, 2013	427,168 (a)	(a)	1,127,411 (a)	\$ 61,100,000
March 1, 2013 through March 31, 2013				
Total	427,168		1,127,411	\$ 61,100,000

(a) Reflects the repurchase of shares of common stock pursuant to our ASR. See Note 10 to our Financial Statements for a discussion of our ASR.

**ITEM 6. EXHIBITS**
