**PROSPECTUS SUPPLEMENT**

(To Prospectus dated May 6, 2013)

**Teekay LNG Partners L.P.**  
**Common Units**  
**Representing Limited Partner Interests**  
**Having an Aggregate Offering Price of Up to \$100,000,000**

We have entered into an equity distribution agreement with Citigroup Global Markets Inc. relating to the common units representing limited partner interests of Teekay LNG Partners L.P. offered by this prospectus supplement. In accordance with the terms of the equity distribution agreement, we may offer and sell common units having an aggregate offering price of up to \$100,000,000 from time to time through Citigroup Global Markets Inc. as our sales agent.

Sales of the common units, if any, will be made by means of ordinary brokers' transactions on the New York Stock Exchange (or the NYSE) at market prices, in block transactions, or as otherwise agreed upon by the sales agent and us.

We will pay the sales agent a commission of 2% of the gross sales price per common unit sold through it as sales agent under the equity distribution agreement.

Under the terms of the equity distribution agreement, we also may sell common units to the sales agent as principal for its own account at a price agreed upon at the time of sale. If we sell common units to the sales agent as principal, we will enter into a separate terms agreement with the sales agent, and we will describe this agreement in a separate prospectus supplement or pricing supplement.

The sales agent is not required to sell any specific number or dollar amount of our common units but will use its reasonable efforts, as our agent and subject to the terms of the equity distribution agreement, to sell the common units offered, as instructed by us. The offering of our common units pursuant to the equity distribution agreement will terminate upon the earlier of (1) the sale of all of the common units subject to the equity distribution agreement and (2) the termination of the equity distribution agreement by either the sales agent or us.

Our common units are listed on the New York Stock Exchange under the symbol TGP. The last reported sale price of our common units on the New York Stock Exchange on May 21, 2013 was \$44.51 per common unit.

**Investing in our common units involves risks. Limited partnerships are inherently different from corporations. You should carefully consider each of the factors described or referred to under Risk Factors beginning on page S-4 of this prospectus supplement, page 5 of the accompanying prospectus and in the documents incorporated by reference into this prospectus supplement and accompanying prospectus before you make an investment in our common units.**

**FORWARD-LOOKING STATEMENTS**

All statements, other than statements of historical fact, included in or incorporated by reference into this prospectus are forward-looking statements. In addition, we and our representatives may from time to time make other oral or written statements that are also forward-looking statements. Such statements include, in particular, statements about our operations, cash flows, financial position, plans, strategies, business prospects, changes and trends in our business, and the markets in which we operate. In some cases, you can identify the forward-looking statements by the use of words such as may, will, could, should, would, expect, plan, anticipate, intend, forecast, believe, propose, potential, continue or the negative of these terms or other comparable terminology. Forward-looking statements include statements with respect to, among other things, our expected future projects, expected newbuilding deliveries, our business strategies, and those statements set forth in the sections titled **Material U.S. Federal Income Tax Considerations** and **Non-United States Tax Considerations** in this prospectus supplement.

These and other forward-looking statements reflect management's current plans, expectations, estimates, assumptions and beliefs concerning future events affecting us. Forward-looking statements involve known and unknown risks and are based upon a number of assumptions and estimates that are inherently subject to significant uncertainties and contingencies, many of which are beyond our control. Actual results may differ materially from those expressed or implied by such forward-looking statements. Important factors that could cause actual results to differ materially include, but are not limited, to those factors discussed under the heading **Risk Factors** set forth in this prospectus and in our most recent Annual Report on Form 20-F and in other reports we file with or furnish to the SEC and that are incorporated into this prospectus by reference.

We undertake no obligation to update any forward-looking statement to reflect any change in our expectations or events or circumstances that may arise after the date on which such statement is made. New factors emerge from time to time, and it is not possible for us to predict all of these factors. In addition, we cannot assess the effect of each such factor on our business or the extent to which any factor, or combination of factors, may cause actual results to be materially different from those contained in any forward-looking statement.

### **SUMMARY**

*This summary highlights selected information contained elsewhere in this prospectus and the documents incorporated by reference in this prospectus and does not contain all the information you will need in making an investment decision. You should carefully read this entire prospectus supplement, the accompanying prospectus and the documents incorporated by reference in this prospectus.*

*Unless otherwise indicated, references in this prospectus to Teekay LNG Partners, we, us and our and similar terms refer to Teekay LNG Partners L.P. and/or one or more of its subsidiaries, except that those terms, when used in this prospectus in connection with the common units described herein, shall mean specifically Teekay LNG Partners L.P. References in this prospectus to Teekay Corporation refer to Teekay Corporation and/or any one or more of its subsidiaries.*

### **Overview**

We are an international provider of marine transportation services for liquefied natural gas (or *LNG*), liquefied petroleum gas (or *LPG*) and crude oil. We were formed in 2004 by Teekay Corporation (NYSE: TK), a leading provider of marine services to the global oil and natural gas industries, to expand its operations in the LNG shipping sector. Our primary growth strategy focuses on expanding our fleet of LNG and LPG carriers under long-term, fixed-rate time charters. In executing our growth strategy, we may engage in vessel or business acquisitions or enter into joint ventures and partnerships with companies that may provide increased access to emerging opportunities from the global expansion of the LNG and LPG sectors.

Our fleet, excluding newbuildings, currently consists of 27 LNG carriers, 10 Suezmax-class crude oil tankers, 21 LPG carriers and one Handymax product tanker, all of which are double-hulled and generally operate under long-term, fixed-rate time charters. Our interests in these vessels, excluding the 5 chartered-in LPG carriers, range from 33% to 100%. Although we may acquire additional conventional tankers from time to time, we view our conventional tanker fleet primarily as a source of stable cash flow as we seek to continue to expand our LNG and LPG operations. We seek to leverage the expertise, relationships and reputation of Teekay Corporation and its affiliates to pursue growth opportunities in the LNG and LPG shipping sectors and may consider other opportunities for which our competitive strengths are well suited. As of March 31, 2013, Teekay Corporation, which beneficially owns and controls our general partner, beneficially owned a 37.45% interest in us, including a 2% general partner interest.

Our operations are conducted through, and our operating assets are owned by, our subsidiaries. We own our interests in our subsidiaries through our 100% ownership interest in our operating company, Teekay LNG Operating L.L.C., a Marshall Islands limited liability company. Our general partner, Teekay GP L.L.C., a Marshall Islands limited liability company, has an economic interest in us and manages our operations and activities.

### **Recent Developments**

#### **Exmar LPG Joint Venture**

On February 12, 2013, we entered into a joint venture agreement with Belgium-based Exmar NV (or *Exmar*) to own and charter-in LPG carriers with a primary focus on the mid-size gas carrier segment. The joint venture entity, called Exmar LPG BVBA, took economic effect as of November 1, 2012 and included 16 owned LPG carriers (including four newbuilding carriers scheduled for delivery in 2014) and five chartered-in LPG carriers. Since then, the joint venture sold the *Donau*, one of its LPG carriers. In addition, the joint venture recently ordered another four medium-size newbuilding carriers with deliveries scheduled between 2015 and 2016, with

**Table of Contents**

options to order up to four additional vessels. These recent changes bring the total fleet size of Exmar LPG BVBA to 24 vessels, excluding options to purchase additional newbuilding carriers. For our 50% ownership interest in the joint venture, including newbuilding payments made prior to the November 1, 2012 economic effective date of the joint venture, we invested approximately \$134 million of equity and assumed approximately \$108 million of our pro rata share of the existing debt and lease obligations as of the economic effective date, secured by certain vessels in the Exmar LPG BVBA fleet. Exmar will continue to commercially and technically manage and operate the vessels. Since control of Exmar LPG BVBA will be shared jointly between Exmar and us, we expect to account for Exmar LPG BVBA using the equity method.

**Table of Contents**

**RISK FACTORS**

An investment in our common units involves a significant degree of risk. Although many of our business risks are comparable to those of a corporation engaged in a similar business, limited partner interests are inherently different from the capital stock of a corporation. Before investing in our common units, you should carefully consider all information included or incorporated by reference in this prospectus, including the risks discussed under the heading "Risk Factors" in the accompanying prospectus and in our latest Annual Report on Form 20-F filed with the SEC, which is incorporated by reference into this prospectus. In addition, you should read "Material U.S. Federal Income Tax Considerations" in this prospectus supplement and in the accompanying base prospectus for a more complete discussion of expected material U.S. federal income tax consequences of owning and disposing of our securities.

If any of these risks were to occur, our business, financial condition, operating results or cash flows could be materially adversely affected. In that case, we may be unable to pay distributions on our common units, the trading price of our common units may decline, and you could lose all or part of your investment.

**USE OF PROCEEDS**

We intend to use the net proceeds of this offering of common units, including our general partner's related capital contribution, after deducting the sales agent's commission and our offering expenses, for general partnership purposes, which may include, among other things, paying or refinancing all or a portion of our outstanding indebtedness and funding working capital, capital expenditures or acquisitions.

An affiliate of the sales agent is a lender under our credit facilities. To the extent we use proceeds from this offering to repay indebtedness under our credit facilities, such affiliate may receive proceeds from this offering. Please read "Plan of Distribution (Conflicts of Interest)" in this prospectus supplement for further information.

At May 22, 2013, we had approximately \$1,575 million of borrowings outstanding under our credit facilities, with a weighted average interest rate of approximately 2.0628%. Substantially all of the borrowings were used to fund new building carriers and for general partnership purposes.

**PLAN OF DISTRIBUTION (CONFLICTS OF INTEREST)**

We have entered into an equity distribution agreement with Citigroup Global Markets Inc. under which we may offer and sell common units having an aggregate offering price of up to \$100,000,000 from time to time through Citigroup Global Markets Inc., as our sales agent. We have filed the equity distribution agreement as an exhibit to a Report on Form 6-K, which is incorporated by reference in this prospectus supplement. The sales, if any, of common units made under the equity distribution agreement will be made by means of ordinary brokers' transactions on the NYSE at market prices, in block transactions, or as otherwise agreed upon by the sales agent and us. As sales agent, Citigroup Global Markets Inc. will not engage in any transactions that stabilize the price of our common units.

Under the terms of the equity distribution agreement, we also may sell common units to the sales agent as principal for its own account at a price agreed upon at the time of sale. If we sell common units to the sales agent as principal, we will enter into a separate agreement with the sales agent, and we will describe this agreement in a separate prospectus supplement or pricing supplement.

We will designate the maximum amount of common units to be sold through the sales agent on a daily basis or otherwise as we and the sales agent agree and the minimum price per common unit at which such common units may be sold. Subject to the terms and conditions of the equity distribution agreement, the sales agent will use its reasonable efforts to sell on our behalf all of the designated common units. We may instruct the sales agent not to sell any common units if the sales cannot be effected at or above the price designated by us in any such instruction. We or the sales agent may suspend the offering of common units at any time and from time to time by notifying the other party.

The sales agent will provide to us written confirmation following the close of trading on the NYSE each day on which common units are sold under the equity distribution agreement. Each confirmation will include the number of common units sold on that day, the gross sales proceeds, the net proceeds to us (after regulatory transaction fees, if any, but before other expenses) and the compensation payable by us to the sales agent. We will report at least quarterly the number of common units sold through the sales agent under the equity distribution agreement, the net proceeds to us (before expenses) and the compensation paid by us to the sales agent in connection with the sales of the common units.

We will pay the sales agent a commission of 2% of the gross sales price per common unit sold through it as our agent under the equity distribution agreement. We have agreed to reimburse the sales agent for certain of its expenses.

Settlement for sales of common units will occur on the third business day following the date on which any sales were made in return for payment of the net proceeds to us. There is no arrangement for funds to be received in an escrow, trust or similar arrangement.

If we or the sales agent have reason to believe that our common units are no longer an actively-traded security as defined under Rule 101(c)(1) of Regulation M under the U.S. Securities Exchange Act of 1934, as amended, that party will promptly notify the other and sales of common units pursuant to the equity distribution agreement or any terms agreement will be suspended until in our collective judgment Rule 101(c)(1) or another exemptive provision has been satisfied.

The offering of common units pursuant to the equity distribution agreement will terminate upon the earlier of (1) the sale of all common units subject to the equity distribution agreement and (2) the termination of the equity distribution agreement by us or by the sales agent.

In connection with the sale of the common units on our behalf, the sales agent may be deemed to be an underwriter within the meaning of the Securities Act of 1933, as amended (or the *Securities Act*) and the

## **Table of Contents**

compensation paid to the sales agent may be deemed to be underwriting commissions or discounts. We have agreed to provide indemnification and contribution to the sales agent against certain liabilities, including civil liabilities under the Securities Act.

### ***Notice to Prospective Investors in the EEA***

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a relevant member state), other than Germany, with effect from and including the date on which the Prospectus Directive is implemented in that relevant member state (the relevant implementation date), an offer of securities described in this prospectus may not be made to the public in that relevant member state other than:

to any legal entity which is a qualified investor as defined in the Prospectus Directive;

to fewer than 100 or, if the relevant member state has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or

in any other circumstances falling within Article 3(2) of the Prospectus Directive; provided that no such offer of securities shall require us or sales agent to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

For purposes of this provision, the expression an offer of securities to the public in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe for the securities, as the expression may be varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression Prospectus Directive means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the relevant member state), and includes any relevant implementing measure in each relevant member state. The expression 2010 PD Amending Directive means Directive 2010/73/EU.

We have not authorized and do not authorize the making of any offer of securities through any financial intermediary on their behalf, other than offers made by the sales agent with a view to the final placement of the securities as contemplated in this prospectus. Accordingly, no purchaser of the securities, other than the sales agent, is authorized to make any further offer of the securities on behalf of us or the sales agent.

Under this shelf registration process, we may sell the common units described in this prospectus in one or more offerings up to an aggregate offering price of \$100,000,000. This prospectus generally describes us and the common units we may offer. Each time we offer common units with this prospectus, we will provide this prospectus and a prospectus supplement that will describe, among other things, the specific amounts and prices of the common units being offered and the terms of the offering. The prospectus supplement may also add to, update or change information in this prospectus. To the extent information in this prospectus is inconsistent with information contained in a prospectus supplement, you should rely on the information in the prospectus supplement.

Unless otherwise indicated, references in this prospectus to Teekay LNG Partners, we, us and our and similar terms refer to Teekay LNG Partners L.P. and/or one or more of its subsidiaries, except that those terms, when used in this prospectus in connection with the common units described herein, shall mean specifically Teekay LNG Partners L.P. References in this prospectus to Teekay Corporation refer to Teekay Corporation and/or any one or more of its subsidiaries.

Unless otherwise indicated, all references in this prospectus to dollars and \$ are to, and amounts are presented in, U.S. Dollars, and financial information presented in this prospectus is prepared in accordance with accounting principles generally accepted in the United States (or *GAAP*).

You should read carefully this prospectus, any prospectus supplement, and the additional information described below under the headings Where You Can Find More Information and Incorporation of Documents by Reference.

**FORWARD-LOOKING STATEMENTS**

All statements, other than statements of historical fact, included in or incorporated by reference into this prospectus and any prospectus supplements are forward-looking statements. In addition, we and our representatives may from time to time make other oral or written statements that are also forward-looking statements. Such statements include, in particular, statements about our operations, cash flows, financial position, plans, strategies, business prospects, changes and trends in our business, and the markets in which we operate. In some cases, you can identify the forward-looking statements by the use of words such as may, will, could, should, would, expect, plan, anticipate, intend, believe, estimate, predict, propose, potential, continue or the negative of these terms or other comparable terminology.

Forward-looking statements reflect management's current plans, expectations, estimates, assumptions and beliefs concerning future events affecting us. Forward-looking statements involve known and unknown risks and are based upon a number of assumptions and estimates that are inherently subject to significant uncertainties and contingencies, many of which are beyond our control. Actual results may differ materially from those expressed or implied by such forward-looking statements. Important factors that could cause actual results to differ materially include, but are not limited to, those factors discussed under the heading Risk Factors set forth in this prospectus and in our most recent Annual Report on Form 20-F and in other reports we file with or furnish to the SEC and that are incorporated into this prospectus by reference.

We undertake no obligation to update any forward-looking statement to reflect any change in our expectations or events or circumstances that may arise after the date on which such statement is made. New factors emerge from time to time, and it is not possible for us to predict all of these factors. In addition, we cannot assess the effect of each such factor on our business or the extent to which any factor, or combination of factors, may cause actual results to be materially different from those contained in any forward-looking statement.

**TEEKAY LNG PARTNERS L.P.**

Teekay LNG Partners L.P. is an international provider of marine transportation services for liquefied natural gas (or *LNG*), liquefied petroleum gas (or *LPG*) and crude oil. We were formed in 2004 by Teekay Corporation (NYSE: TK), a leading provider of marine services to the global oil and natural gas industries, to expand its operations in the LNG shipping sector. We operate a fleet of LNG and LPG carriers and conventional crude oil and product tankers, all of which are double-hulled and generally operate under long-term, fixed-rate time charters.

Our primary growth strategy focuses on expanding our fleet of LNG and LPG carriers under long-term, fixed-rate time charters. In executing our growth strategy, we may engage in vessel or business acquisitions or enter into joint ventures and partnerships with companies that provide increased access to emerging global LNG and LPG opportunities. Although we may acquire additional conventional tankers from time to time, we view our conventional tanker fleet primarily as a source of stable cash flow as we seek to expand our LNG and LPG operations. We seek to leverage the expertise, relationships and reputation of Teekay Corporation and its affiliates to pursue these opportunities in the LNG and LPG sectors and may consider other opportunities to which our competitive strengths are well suited. Teekay Corporation owns and controls our general partner and owns a substantial limited partner interest in us.

Our operations are conducted through, and our operating assets are owned by, our subsidiaries. We own our interests in our subsidiaries through our 100% ownership interest in our operating company, Teekay LNG Operating L.L.C., a Marshall Islands limited liability company. Our general partner, Teekay GP L.L.C., a Marshall Islands limited liability company, has an economic interest in us and manages our operations and activities. Our general partner does not receive any management fee or other compensation in connection with its management of our business, but it is entitled to be reimbursed for all direct and indirect expenses incurred on our behalf. Pursuant to services agreements between us and our subsidiaries, on the one hand, and other subsidiaries of Teekay Corporation, on the other hand, the Teekay Corporation subsidiaries provide to us substantially all of our administrative services and to our subsidiaries substantially all of their strategic consulting, advisory, ship management, technical and administrative services.

We are a limited partnership organized under the laws of the Republic of The Marshall Islands. Our principal executive offices are located at 4th Floor, Belvedere Building, 69 Pitts Bay Road, Hamilton HM 08, Bermuda, and our phone number is (441) 298-2530. Our principal operating office is located at Suite 2000, Bentall 5, 550 Burrard Street, Vancouver, British Columbia, Canada, V6C 2K2, and our telephone number at such address is (604) 683-3529. Our website address is [www.teekaylng.com](http://www.teekaylng.com). The information contained in our website is not part of this prospectus.

**Table of Contents**

**RISK FACTORS**

*An investment in our common units involves a significant degree of risk. Although many of our business risks are comparable to those of a corporation engaged in a similar business, limited partner interests are inherently different from the capital stock of a corporation. Before investing in our common units, you should carefully consider the following risk factors together with all other information included in this prospectus, including the risks discussed under the heading **Risk Factors** in our latest Annual Report on Form 20-F filed with the SEC, which are incorporated by reference into this prospectus, and information included or incorporated by reference in any applicable prospectus supplement.*

*If any of these risks were to occur, our business, financial condition, operating results or cash flows could be materially adversely affected. In that case, we might be unable to pay distributions on our common units, the trading price of our common units could decline, and you could lose all or part of your investment.*

In addition to the following risk factors, please read **Material U.S. Federal Income Tax Considerations** in this prospectus for a more complete discussion of expected material U.S. federal income tax consequences of owning and disposing of our securities.

**Risks Inherent in an Investment in our Common Units**

***Our partnership agreement limits our general partner's fiduciary duties to our unitholders and restricts the remedies available to unitholders for actions taken by our general partner.***

Our partnership agreement contains provisions that reduce the standards to which our general partner would otherwise be held by Marshall Islands law. For example, our partnership agreement:

permits our general partner to make a number of decisions in its individual capacity, as opposed to in its capacity as our general partner. Where our partnership agreement permits, our general partner may consider only the interests and factors that it desires, and in such cases it has no duty or obligation to give any consideration to any interest of, or factors affecting us, our affiliates or our unitholders. Decisions made by our general partner in its individual capacity are made by its sole owner, Teekay Corporation, and not by the board of directors of our general partner. Examples include the exercise of its call right, its voting rights with respect to the units it owns, its registration rights and its determination whether to consent to any merger or consolidation of the partnership;

provides that our general partner is entitled to make other decisions in good faith if it reasonably believes that the decision is in our best interests;

generally provides that affiliated transactions and resolutions of conflicts of interest not approved by the conflicts committee of the board of directors of our general partner and not involving a vote of unitholders must be on terms no less favorable to us than those generally being provided to or available from unrelated third parties or be fair and reasonable to us and that, in determining whether a transaction or resolution is fair and reasonable, our general partner may consider the totality of the relationships between the parties involved, including other transactions that may be particularly favorable or advantageous to us; and

provides that our general partner and its officers and directors will not be liable for monetary damages to us or our limited partners for any acts or omissions unless there has been a final and non-appealable judgment entered by a court of competent jurisdiction determining that the general partner or those other persons acted in bad faith or engaged in fraud, willful misconduct or gross negligence.

In order to become a limited partner of our partnership, a common unitholder agrees to be bound by the provisions in the partnership agreement, including the provisions discussed above.

## **Table of Contents**

***Fees and cost reimbursements, which our general partner determines for services provided to us, are substantial and reduce our cash available for distribution to our common unitholders.***

Prior to making any distribution on the common units, we pay fees for services provided to us and our operating subsidiaries by certain subsidiaries of Teekay Corporation, and we reimburse our general partner for all expenses it incurs on our behalf. These fees are negotiated on our behalf by our general partner, and our general partner also determines the amounts it is reimbursed. These fees and expenses include all costs incurred in providing certain advisory, ship management, technical and administrative services to us and our operating subsidiaries. The payment of fees to Teekay Corporation and reimbursement of expenses to our general partner could adversely affect our ability to pay cash distributions to our common unitholders.

***Our general partner, which is owned and controlled by Teekay Corporation, makes all decisions on our behalf, subject to the limited voting rights of our common unitholders. Even if public unitholders are dissatisfied, they cannot remove our general partner without Teekay Corporation's consent.***

Unlike the holders of common stock in a corporation, unitholders have only limited voting rights on matters affecting our business and, therefore, limited ability to influence management's decisions regarding our business. Unitholders did not elect our general partner or its board of directors and have no right to elect our general partner or its board of directors on an annual or other continuing basis. Teekay Corporation, which owns and controls our general partner, appoints our general partner's board of directors. Our general partner makes all decisions on our behalf. If the unitholders are dissatisfied with the performance of our general partner, they have little ability to remove our general partner. As a result of these limitations, the price at which the common units trade could be diminished because of the absence or reduction of a takeover premium in the trading price.

The vote of the holders of at least 66 $\frac{2}{3}$ % of all outstanding units voting together as a single class is required to remove the general partner. As of the date of this prospectus, Teekay Corporation owned a sufficient number of units to prevent the removal of the general partner.

In addition, unitholders' voting rights are further restricted by our partnership agreement provision providing that any units held by a person that owns 20% or more of any class of units then outstanding, other than our general partner, its affiliates, their transferees, and persons who acquired such units with the prior approval of the board of directors of our general partner, cannot vote on any matter. Our partnership agreement also contains provisions limiting the ability of unitholders to call meetings or to acquire information about our operations, as well as other provisions limiting the unitholders' ability to influence the manner or direction of management.

***The control of our general partner may be transferred to a third party without unitholder consent.***

On or after March 31, 2015, our general partner may transfer its general partner interest to a third party in a merger or in a sale of all or substantially all of its assets without the consent of the unitholders. In addition, our partnership agreement does not restrict the ability of the members of our general partner from transferring their respective membership interests in our general partner to a third party. In the event of any such transfer, the new members of our general partner would be in a position to replace the board of directors and officers of our general partner with their own choices and to control the decisions taken by the board of directors and officers.

***Our partnership agreement restricts the voting rights of unitholders owning 20% or more of our common units.***

Our partnership agreement restricts unitholders' voting rights by providing that any units held by a person that owns 20% or more of any class of units then outstanding, other than our general partner, its affiliates, their transferees and persons who acquired such units with the prior approval of the board of directors of our general partner, cannot vote on any matter. The partnership agreement also contains provisions limiting the ability of

## **Table of Contents**

unitholders to call meetings or to acquire information about our operations, as well as other provisions limiting the unitholders' ability to influence the manner or direction of management.

***In establishing cash reserves, our general partner may reduce the amount of cash available for distribution to unitholders.***

Our partnership agreement requires our general partner to deduct from our operating surplus cash reserves that it determines are necessary to fund our future operating expenditures. These reserves affect the amount of cash available for distribution by us to our unitholders. Furthermore, our partnership agreement requires our general partner each quarter to deduct from operating surplus estimated maintenance capital expenditures, as opposed to actual expenditures, which could reduce the amount of available cash for distribution.

***We can borrow money to pay distributions, which would reduce the amount of credit available to operate our business.***

Our partnership agreement allows us to make working capital borrowings to pay distributions. Accordingly, we can make distributions on all our units even though cash generated by our operations may not be sufficient to pay such distributions. Any working capital borrowings by us to make distributions may reduce the amount of working capital borrowings we can make for operating our business.

***Unitholders may have liability to repay distributions.***

Under certain circumstances, unitholders may have to repay amounts wrongfully distributed to them. Under the Marshall Islands Limited Partnership Act (or *Marshall Islands Act*), we may not make a distribution to unitholders if the distribution would cause our liabilities to exceed the fair value of our assets. Marshall Islands law provides that for a period of three years from the date of the impermissible distribution limited partners who received the distribution and who knew at the time of the distribution that it violated Marshall Islands law will be liable to the limited partnership for the distribution amount. Purchasers of units who become limited partners are liable for the obligations of the transferring limited partner to make contributions to the partnership that are known to the purchaser at the time it became a limited partner and for unknown obligations if the liabilities could be determined from the partnership agreement. Liabilities to partners on account of their partnership interest and liabilities that are non-recourse to the partnership are not counted for purposes of determining whether a distribution is permitted.

***We may issue additional equity securities without unitholder approval, which would dilute their ownership interests.***

Our general partner, without the approval of our unitholders, may cause us to issue an unlimited number of additional units or other equity securities of equal or senior rank. The issuance by us of additional common units or other equity securities will have the following effects:

our unitholders' proportionate ownership interest in us will decrease;

the amount of cash available for distribution on each unit may decrease;

the relative voting strength of each previously outstanding unit may be diminished;

the market price of the common units may decline; and

the ratio of taxable income to distributions may increase.

***Our general partner has a call right that may require common unitholders to sell their common units at an undesirable time or price.***

If at any time our general partner and its affiliates hold more than 80% of the then-issued and outstanding partnership securities of any class, our general partner will have the right, which it may assign in whole or in part

## **Table of Contents**

to any of its affiliates or to us, to acquire all, but not less than all, of the remaining partnership securities of the class held by unaffiliated persons as of a record date to be selected by our general partner, on at least 10 but not more than 60 days' notice. The purchase price in this event is the greater of (x) the average of the daily closing prices of the partnership securities of such class over the 20 trading days preceding the date three days before notice of exercise of the call right is first mailed and (y) the highest price paid by our general partner or any of its affiliates for partnership securities of such class during the 90-day period preceding the date such notice is first mailed. As a result of our general partner's right to purchase outstanding partnership securities, a holder of partnership securities may have the holder's partnership securities purchased at an undesirable time or price. Common unitholders may also incur a tax liability upon a sale of their units.

### ***Increases in interest rates may cause the market price of our common units to decline.***

An increase in interest rates may cause a corresponding decline in demand for equity investments in general, and in particular for yield-based equity investments such as our common units. Any such increase in interest rates or reduction in demand for our common units resulting from other relatively more attractive investment opportunities may cause the trading price of our common units to decline.

### ***We have been organized as a limited partnership under the laws of the Republic of The Marshall Islands, which does not have a well-developed body of partnership law.***

Our partnership affairs are governed by our partnership agreement and by the Marshall Islands Act. The provisions of the Marshall Islands Act resemble provisions of the limited partnership laws of a number of states in the United States, most notably Delaware. The Marshall Islands Act also provides that it is to be applied and construed to make it uniform with the Delaware Revised Uniform Limited Partnership Act and, so long as it does not conflict with the Marshall Islands Act or decisions of the Marshall Islands courts, interpreted according to the non-statutory law (or case law) of the courts of the State of Delaware. There have been, however, few, if any, court cases in the Marshall Islands interpreting the Marshall Islands Act, in contrast to Delaware, which has a fairly well-developed body of case law interpreting its limited partnership statute. Accordingly, we cannot predict whether Marshall Islands courts would reach the same conclusions as Delaware courts. For example, the rights of our unitholders and the fiduciary responsibilities of our general partner under Marshall Islands law are not as clearly established as under judicial precedent in existence in Delaware. As a result, unitholders may have more difficulty in protecting their interests in the face of actions by our general partner and its officers and directors than would unitholders of a limited partnership formed in the United States.

### ***Because we are organized under the laws of the Marshall Islands, it may be difficult to serve us with legal process or enforce judgments against our directors or our management.***

We are organized under the laws of the Marshall Islands, and all of our assets are located outside of the United States. Our business is operated primarily from our offices in Bermuda and Spain. In addition, our general partner is a Marshall Islands limited liability company and many of its directors and officers are non-residents of the United States, and all or a substantial portion of the assets of these non-residents are located outside the United States. As a result, it may be difficult or impossible for you to bring an action against us or against these individuals in the United States if you believe that your rights have been infringed under securities laws or otherwise. Even if you are successful in bringing an action of this kind, the laws of the Marshall Islands and of other jurisdictions may prevent or restrict you from enforcing a judgment against our assets or the assets of our general partner or its directors and officers. For more information regarding the relevant laws of the Marshall Islands, please read "Service of Process and Enforcement of Civil Liabilities."

**Table of Contents****Tax Risks**

***The decision of the United States Court of Appeals for the Fifth Circuit in Tidewater Inc. v. United States creates some uncertainty as to whether we will be classified as a partnership for U.S. federal income tax purposes.***

In order for us to be classified as a partnership for U.S. federal income tax purposes, more than 90% of our gross income each year must be qualifying income under Section 7704 of the U.S. Internal Revenue Code of 1986, as amended (the *Code*). For this purpose, qualifying income includes income from providing marine transportation services to customers with respect to crude oil, natural gas and certain products thereof but may not include rental income from leasing vessels to customers.

The decision of the United States Court of Appeals for the Fifth Circuit in *Tidewater Inc. v. United States*, 565 F.3d 299 (5th Cir. 2009) held that income derived from certain time chartering activities should be treated as rental income rather than services income for purposes of a foreign sales corporation provision of the Code. However, the Internal Revenue Service (or *IRS*) stated in an Action on Decision (AOD 2010-001) that it disagrees with, and will not acquiesce to, the way that the rental versus services framework was applied to the facts in the *Tidewater* decision, and in its discussion stated that the time charters at issue in *Tidewater* would be treated as producing services income for purposes of the passive foreign investment company provisions of the Code. The *IRS*'s statement with respect to *Tidewater* cannot be relied upon or otherwise cited as precedent by taxpayers. Consequently, in the absence of any binding legal authority specifically relating to the statutory provisions governing qualifying income under Section 7704 of the Code, there can be no assurance that the *IRS* or a court would not follow the *Tidewater* decision in interpreting the qualifying income provisions under Section 7704 of the Code. Nevertheless, our counsel, Perkins Coie LLP, is of the opinion that our time charter income should be qualifying income within the meaning of Section 7704(d) of the Code and that we should (as opposed to will) be classified as a partnership for U.S. federal income tax purposes. No assurance can be given, however, that the opinion of Perkins Coie LLP would be sustained by a court if contested by the *IRS*. As such, there is some uncertainty regarding the status of our time charter income as qualifying income and therefore some uncertainty as to whether we will be classified as a partnership for federal income tax purposes. Please read Material U.S. Federal Income Tax Considerations Classification as a Partnership.

***Common unitholders may be subject to income tax in one or more non-U.S. countries, including Canada, as a result of owning our common units if, under the laws of any such country, we are considered to be carrying on business there. Such laws may require common unitholders to file a tax return with, and pay taxes to, those countries. Any foreign taxes imposed on us or any of our subsidiaries may not be allowed as a credit against a common unitholder's U.S. federal income tax liability and will reduce our cash available for distribution to common unitholders.***

We intend that our affairs and the business of each of our subsidiaries is conducted and operated in a manner that minimizes foreign income taxes imposed upon us and our subsidiaries or which may be imposed upon you as a result of owning our common units. However, there is a risk that common unitholders will be subject to tax in one or more countries, including Canada, as a result of owning our common units if, under the laws of any such country, we are considered to be carrying on business there. If common unitholders are subject to tax in any such country, common unitholders may be required to file a tax return with, and pay taxes to, that country based on their allocable share of our income. We may be required to reduce distributions to common unitholders on account of any withholding obligations imposed upon us by that country in respect of such allocation to common unitholders. The United States may not allow a tax credit for any foreign income taxes that common unitholders directly or indirectly incur. Any foreign taxes imposed on us or any of our subsidiaries will reduce our cash available for common unitholders.

**USE OF PROCEEDS**

Unless we specify otherwise in any prospectus supplement, we will use the net proceeds from our sale of common units covered by this prospectus for general partnership purposes, which may include, among other things:

paying or refinancing all or a portion of our indebtedness outstanding at the time; and

funding working capital, capital expenditures or acquisitions.

The actual application of proceeds from the sale of any particular offering of common units covered by this prospectus will be described in the applicable prospectus supplement relating to the offering.

**DESCRIPTION OF THE COMMON UNITS**

Our common units represent limited partner interests in us. The holders of units are entitled to participate in partnership distributions and exercise the rights and privileges available to limited partners under our partnership agreement. For a description of the relative rights and privileges of holders of common units and our general partner in and to partnership distributions, please read [Cash Distributions](#).

**Number of Units**

The number of our common units outstanding, and those held by Teekay Corporation, which owns our general partner, are provided in our Annual Report on Form 20-F and in the quarterly reports we provide on Form 6-K. The common units represent an aggregate 98% limited partner interest and the general partner interest represents a 2% general partner interest in us.

**Issuance of Additional Securities**

Our partnership agreement authorizes us to issue an unlimited number of additional partnership securities and rights to buy partnership securities for the consideration and on the terms and conditions determined by our general partner without the approval of our unitholders.

We may fund acquisitions through the issuance of additional common units or other equity securities. Holders of any additional common units we issue will be entitled to share equally with the then-existing holders of common units in our distributions of available cash. In addition, the issuance of additional common units or other equity securities interests may dilute the value of the interests of the then-existing holders of common units in our net assets.

In accordance with Marshall Islands law and the provisions of our partnership agreement, we may also issue additional partnership securities interests that, as determined by the general partner, have special voting or other rights to which the common units are not entitled.

Upon issuance of additional partnership securities, our general partner will be required to make additional capital contributions to the extent necessary to maintain its 2% general partner interest in us. In addition, our general partner and its affiliates have the right, which it may from time to time assign in whole or in part to any of its affiliates, to purchase common units or other equity securities whenever, and on the same terms that, we issue those securities to persons other than our general partner and its affiliates, to the extent necessary to maintain its and its affiliates' percentage interest, including its interest represented by common units that existed immediately prior to each issuance. Other holders of common units do not have similar preemptive rights to acquire additional common units or other partnership securities.

## **Table of Contents**

### **Meetings; Voting**

Unlike the holders of common stock in a corporation, the holders of our units have only limited voting rights on matters affecting our business. They have no right to elect our general partner (who manages our operations and activities), or the directors of our general partner on an annual or other continuing basis. On those matters that are submitted to a vote of unitholders, each record holder of a unit may vote according to the holder's percentage interest in us, although additional limited partner interests having special voting rights could be issued. However, if at any time any person or group, other than our general partner and its affiliates, or a direct or subsequently approved transferee of our general partner or its affiliates or a transferee approved by the board of directors of our general partner, acquires, in the aggregate, beneficial ownership of 20% or more of any class of units then outstanding, that person or group will lose voting rights on all of its units and the units may not be voted on any matter and will not be considered to be outstanding when sending notices of a meeting of unitholders, calculating required votes, determining the presence of a quorum, or for other similar purposes.

The common units held by our general partner or any of its affiliates are not entitled to vote on approval of the withdrawal of our general partner or the transfer by our general partner of its general partner interest or incentive distribution rights under some circumstances. Removal of our general partner requires:

a  $66\frac{2}{3}\%$  vote of all outstanding units, voting together as a single class; and

the election of a successor general partner by the holders of a majority of the outstanding common units.

Except as described above regarding a person or group owning 20% or more of any class of units then outstanding, unitholders or assignees who are record holders of units on the record date will be entitled to notice of, and to vote at, any meetings of our limited partners and to act upon matters for which approvals may be solicited. Common units that are owned by an assignee who is a record holder, but who has not yet been admitted as a limited partner, will be voted by our general partner at the written direction of the record holder. Absent direction of this kind, the common units will not be voted.

Any action that is required or permitted to be taken by the unitholders may be taken either at a meeting of the unitholders or without a meeting if consents in writing describing the action so taken are signed by holders of the number of units necessary to authorize or take that action at a meeting. Meetings of the unitholders may be called by our general partner or by unitholders owning at least 20% of the outstanding units of the class for which a meeting is proposed. Unitholders may vote either in person or by proxy at meetings. The holders of a majority of the outstanding units of the class or classes for which a meeting has been called, represented in person or by proxy, will constitute a quorum unless any action by the unitholders requires approval by holders of a greater percentage of the units, in which case the quorum will be the greater percentage.

Common units held in nominee or street name account will be voted by the broker or other nominee in accordance with the instruction of the beneficial owner unless the arrangement between the beneficial owner and his nominee provides otherwise.

### **Call Right**

If at any time our general partner and its affiliates hold more than 80% of the then-issued and outstanding partnership securities of any class, our general partner will have the right, which it may assign in whole or in part to any of its affiliates or to us, to acquire all, but not less than all, of the remaining partnership securities of the class held by unaffiliated persons as of a record date to be selected by our general partner, on at least 10 but not more than 60 days' notice. The purchase price in this event is the greater of (x) the average of the daily closing prices of the partnership securities of such class over the 20 trading days preceding the date three days before notice of exercise of the call right is first mailed and (y) the highest price paid by our general partner or any of its affiliates for partnership securities of such class during the 90-day period preceding the date such notice is first mailed.

## **Table of Contents**

As a result of our general partner's right to purchase outstanding partnership securities, a holder of partnership securities may have the holder's partnership securities purchased at an undesirable time or price.

## **Exchange Listing**

Our common units are listed on the New York Stock Exchange, where they trade under the symbol TGP.

## **Transfer Agent and Registrar**

Computershare Shareowner Services LLC serves as registrar and transfer agent for our common units. We pay all fees charged by the transfer agent for transfers of common units, except the following, which must be paid by unitholders:

surety bond premiums to replace lost or stolen certificates, taxes and other governmental charges;

special charges for services requested by a holder of a common unit; and

other similar fees or charges.

There is no charge to unitholders for disbursements of our cash distributions. We will indemnify the transfer agent, its agents and each of their stockholders, directors, officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any liability due to any gross negligence or intentional misconduct of the indemnified person or entity.

## **Transfer of Common Units**

Transfers of a common unit will not be recorded by the transfer agent or recognized by us unless the transferee executes and delivers a transfer application. By executing and delivering a transfer application, the transferee of common units:

becomes the record holder of the common units and is an assignee until admitted into our partnership as a substituted limited partner;

automatically requests admission as a substituted limited partner in the partnership;

agrees to be bound by the terms and conditions of, and executes, our partnership agreement;

represents that the transferee has the capacity, power and authority to enter into our partnership agreement;

grants powers of attorney to officers of our general partner and any liquidator of us as specified in our partnership agreement; and

gives the consents and approvals contained in our partnership agreement.

An assignee will become a substituted limited partner of our partnership for the transferred common units automatically upon the recording of the transfer on our books and records. Our general partner will cause any unrecorded transfers for which a completed and duly executed transfer application has been received to be recorded on our books and records no less frequently than quarterly.

## Edgar Filing: Teekay LNG Partners L.P. - Form 424B5

A transferee's broker, agent or nominee may complete, execute and deliver a transfer application. We are entitled to treat the nominee holder of a common unit as the absolute owner. In that case, the beneficial holder's rights are limited solely to those that it has against the nominee holder as a result of any agreement between the beneficial owner and the nominee holder.

Common units are securities and are transferable according to the laws governing transfer of securities. In addition to other rights acquired upon transfer, the transferor gives the transferee the right to request admission as

## **Table of Contents**

a substituted limited partner in our partnership for the transferred common units. A purchaser or transferee of common units who does not execute and deliver a transfer application obtains only:

the right to assign the common unit to a purchaser or other transferee; and

the right to transfer the right to seek admission as a substituted limited partner in our partnership for the transferred common units. Thus, a purchaser or transferee of common units who does not execute and deliver a transfer application:

will not receive cash distributions or U.S. federal income tax allocations, unless the common units are held in a nominee or street name account and the nominee or broker has executed and delivered a transfer application; and

may not receive some U.S. federal income tax information or reports furnished to record holders of common units.

The transferor of common units has a duty to provide the transferee with all information that may be necessary to transfer the common units. The transferor does not have a duty to ensure the execution of the transfer application by the transferee and has no liability or responsibility if the transferee neglects or chooses not to execute and forward the transfer application to the transfer agent.

Until a common unit has been transferred on our books, we and the transfer agent may treat the record holder of the unit as the absolute owner for all purposes, except as otherwise required by law or stock exchange regulations.

## **Other Matters**

*Merger, Sale, or Other Disposition of Assets.* A merger or consolidation of us requires the consent of our general partner, in addition to the approval of the holders of units representing a unit majority. However, our general partner will have no duty or obligation to consent to any merger or consolidation and may decline to do so free of any fiduciary duty or obligation whatsoever to us or the limited partners, including any duty to act in good faith or in the best interests of us or the limited partners. In addition, our partnership agreement generally prohibits our general partner, without unitholder approval, from causing us to sell, exchange, or otherwise dispose of all or substantially all of our assets. Our general partner may, however, mortgage, pledge, hypothecate, or grant a security interest in all or substantially all of our assets without unitholder approval. Our general partner may also sell all or substantially all of our assets under a foreclosure or other realization upon those encumbrances without unitholder approval. The unitholders are not entitled to dissenters' rights of appraisal under our partnership agreement or applicable law in the event of a conversion, merger or consolidation, a sale of substantially all of our assets, or any other transaction or event.

*Registration Rights.* Under our partnership agreement, we have agreed to register for resale under the Securities Act of 1933 and applicable state securities laws any common units or other partnership securities proposed to be sold by our general partner or any of its affiliates or their assignees if an exemption from the registration requirements is not otherwise available or advisable. These registration rights continue for two years following any withdrawal or removal of Teekay GP L.L.C. as our general partner. We are obligated to pay all expenses incidental to the registration, excluding underwriting discounts and commissions.

In addition to the partnership agreement summary, the Form 8-A/A also describes (1) conflicts of interest that may arise as a result of the relationship between our general partner and its affiliates, including Teekay Corporation, on the one hand, and us and our unaffiliated limited partners on the other hand, and (2) the fiduciary duties our general partner owes us, and possible limitations on those duties. ## **CASH DISTRIBUTIONS**

### **Distributions of Available Cash**

#### ***General***

Within approximately 45 days after the end of each quarter, we distribute all of our available cash to unitholders of record on the applicable record date.

#### ***Available Cash***

Available cash generally means, for each fiscal quarter, all cash on hand at the end of the quarter (including our proportionate share of cash on hand of certain subsidiaries we do not wholly own):

less the amount of cash reserves (including our proportionate share of cash reserves of certain subsidiaries we do not wholly own) established by our general partner to:

provide for the proper conduct of our business (including reserves for future capital expenditures and for our anticipated credit needs);

comply with applicable law, any debt instruments, or other agreements; or

provide funds for distributions to our unitholders and to our general partner for any one or more of the next four quarters;

plus all cash on hand (including our proportionate share of cash on hand of certain subsidiaries we do not wholly own) on the date of determination of available cash for the quarter resulting from working capital borrowings made after the end of the quarter. Working capital borrowings are generally borrowings that are made under our credit agreements and in all cases are used solely for working capital purposes or to pay distributions to partners.

#### ***Minimum Quarterly Distribution***

Common unitholders are entitled under our partnership agreement to receive a quarterly distribution of \$0.4125 per unit, or \$1.65 per year to the extent we have sufficient available cash from our operations after we establish cash reserves and pay fees and expenses, including payments to our general partner. Our general partner has the authority to determine the amount of our available cash for any quarter. This determination, as well as all determinations made by our general partner, must be made in good faith. There is no guarantee that we will pay the minimum quarterly distribution on our common units in any quarter, and we will be prohibited from making any distributions to our unitholders if it would cause an event of default, or an event of default is existing, under our credit facilities.

### **Operating Surplus and Capital Surplus**

#### ***General***

## Edgar Filing: Teekay LNG Partners L.P. - Form 424B5

All cash distributed to unitholders is characterized as either operating surplus or capital surplus. We treat distributions of available cash from operating surplus differently than distributions of available cash from capital surplus.

## **Table of Contents**

### ***Definition of Operating Surplus***

Operating surplus, for any period, generally means:

our cash balance (including our proportionate share of cash balances of certain subsidiaries we do not wholly own) on May 10, 2005, the closing date of our initial public offering, other than cash reserved to terminate interest rate swap agreements; plus

\$10 million; plus

all of our cash receipts (including our proportionate share of cash receipts of certain subsidiaries we do not wholly own) after the closing of our initial public offering, excluding cash from (1) borrowings, other than working capital borrowings, (2) sales of equity and debt securities, (3) sales or other dispositions of assets outside the ordinary course of business, (4) termination of interest rate swap agreements, (5) capital contributions or (6) corporate reorganizations or restructurings; plus

working capital borrowings (including our proportionate share of working capital borrowings for certain subsidiaries we do not wholly own) made after the end of a quarter but before the date of determination of operating surplus for the quarter; plus

interest paid on debt incurred (including periodic net payments under related interest rate swap agreements) and cash distributions paid on equity securities issued, in each case (and including our proportionate share of such interest and cash distributions paid by certain subsidiaries we do not wholly own), to finance all or any portion of the construction, replacement or improvement of a capital asset such as vessels during the period from such financing until the earlier to occur of the date the capital asset is put into service or the date that it is abandoned or disposed of; plus

interest paid on debt incurred (including periodic net payments under related interest rate swap agreements) and cash distributions paid on equity securities issued, in each case (and including our proportionate share of such interest and cash distributions paid by certain subsidiaries we do not wholly own), to pay the construction period interest on debt incurred (including periodic net payments under related interest rate swap agreements), or to pay construction period distributions on equity issued, to finance the construction projects described in the immediately preceding bullet; less

all of our operating expenditures (including our proportionate share of operating expenditures of certain subsidiaries we do not wholly own) after the closing of our initial public offering and the repayment of working capital borrowings, but not (1) the repayment of other borrowings, (2) actual maintenance capital expenditures or expansion capital expenditures, (3) transaction expenses (including taxes) related to interim capital transactions or (4) distributions; less

estimated maintenance capital expenditures and the amount of cash reserves (including our proportionate share of cash reserves of certain subsidiaries we do not wholly own) established by our general partner to provide funds for future operating expenditures.

As described above, operating surplus includes a provision that enables us, if we choose, to distribute as operating surplus up to \$10 million of cash we have received or will receive from non-operating sources since the time of our initial public offering, such as asset sales, issuances of securities and long-term borrowings, that would otherwise be distributed as capital surplus. In addition, the effect of including, as described above, certain cash distributions on equity securities or interest payments on debt in operating surplus would also be to increase operating surplus by the amount of any such cash distributions or interest payments. As a result, we may distribute as operating surplus up to the amount of any such cash distributions or interest payments of cash we receive from non-operating sources.

### ***Capital Expenditures***

## Edgar Filing: Teekay LNG Partners L.P. - Form 424B5

For purposes of determining operating surplus, maintenance capital expenditures are those capital expenditures required to maintain over the long term the operating capacity of or the revenue generated by

---

**Table of Contents**

capital assets, and expansion capital expenditures are those capital expenditures that increase the operating capacity of or the revenue generated by capital assets. To the extent, however, that capital expenditures associated with acquiring a new vessel increase the revenues or the operating capacity of our fleet, those capital expenditures would be classified as expansion capital expenditures.

Examples of maintenance capital expenditures include capital expenditures associated with drydocking a vessel or acquiring a new vessel to the extent such expenditures are incurred to maintain the operating capacity of or the revenue generated by our fleet. Maintenance capital expenditures also include interest (and related fees) on debt incurred and distributions on equity issued to finance the construction of a replacement vessel and paid during the construction period, which we define as the period beginning on the date of entry into a binding construction contract and ending on the earlier of the date that the replacement vessel commences commercial service or the date that the replacement vessel is abandoned or disposed of. Debt incurred to pay or equity issued to fund construction period interest payments, and distributions on such equity, are also considered maintenance capital expenditures.

Because maintenance capital expenditures can be very large and vary significantly in timing, the amount of our actual maintenance capital expenditures may differ substantially from period to period, which could cause similar fluctuations in the amounts of operating surplus, adjusted operating surplus, and available cash for distribution to our unitholders if we subtracted actual maintenance capital expenditures from operating surplus each quarter. Accordingly, to eliminate the effect on operating surplus of these fluctuations, our partnership agreement requires that an amount equal to an estimate of the average quarterly maintenance capital expenditures necessary to maintain the operating capacity of or the revenue generated by our capital assets over the long term be subtracted from operating surplus each quarter, as opposed to the actual amounts spent. The amount of estimated maintenance capital expenditures deducted from operating surplus is subject to review and change by the board of directors of our general partner at least once a year, provided that any change must be approved by the board's conflicts committee. The estimate is made at least annually and whenever an event occurs that is likely to result in a material adjustment to the amount of our maintenance capital expenditures, such as a major acquisition or the introduction of new governmental regulations that will affect our fleet. For purposes of calculating operating surplus, any adjustment to this estimate is prospective only.

The use of estimated maintenance capital expenditures in calculating operating surplus has the following effects:

it reduces the risk that actual maintenance capital expenditures in any one quarter will be large enough to make operating surplus less than the minimum quarterly distribution to be paid on all the units for that quarter and subsequent quarters;

it reduces the need for us to borrow under our working capital facility to pay distributions; and

it is more difficult for us to raise our distribution on our units above the minimum quarterly distribution and pay incentive distributions to our general partner.

***Definition of Capital Surplus***

Capital surplus generally is generated only by:

borrowings other than working capital borrowings;

sales of debt and equity securities; and

sales or other dispositions of assets for cash, other than inventory, accounts receivable and other current assets sold in the ordinary course of business or non-current assets sold as part of normal retirements or replacements of assets.

**Table of Contents*****Characterization of Cash Distributions***

We treat all available cash distributed as coming from operating surplus until the sum of all available cash distributed since we began operations equals the operating surplus as of the most recent date of determination of available cash. We treat any amount distributed in excess of operating surplus, regardless of its source, as capital surplus. As described above, operating surplus does not reflect actual cash on hand that is available for distribution to our unitholders. For example, it includes a provision that enables us, if we choose, to distribute as operating surplus up to \$10 million of cash we have received or will receive from non-operating sources since the time of our initial public offering, such as asset sales, issuances of securities and long-term borrowings that would otherwise be distributed as capital surplus. We do not anticipate that we will make any distributions from capital surplus.

**Distributions of Available Cash From Operating Surplus**

We make distributions of available cash from operating surplus in the following manner:

first, 98% to all unitholders, pro rata, and 2% to our general partner, until we distribute for each outstanding unit an amount equal to the minimum quarterly distribution for that quarter; and

thereafter, in the manner described in *Percentage Allocations of Available Cash From Operating Surplus* below.

**Incentive Distribution Rights**

Incentive distribution rights represent the right to receive an increasing percentage of quarterly distributions of available cash from operating surplus after the minimum quarterly distribution and the target distribution levels have been achieved. Our general partner currently holds the incentive distribution rights, but may transfer these rights separately from its general partner interest. Except for transfers of incentive distribution rights to an affiliate or another entity as part of our general partner's merger or consolidation with or into, or sale of all or substantially all of its assets to such entity, the approval of a majority of our common units (excluding common units held by our general partner and its affiliates), voting separately as a class, generally is required for a transfer of the incentive distributions rights to a third party prior to March 31, 2015. Any transfer by our general partner of the incentive distribution rights would not change the percentage allocations of quarterly distributions with respect to such rights.

**Percentage Allocations of Available Cash From Operating Surplus**

The following table illustrates the percentage allocations of available cash from operating surplus between the unitholders and our general partner up to the various target distribution levels. The amounts set forth under *Marginal Percentage Interest in Distributions* are the percentage interests of the unitholders and our general partner in any available cash from operating surplus we distribute up to and including the corresponding amount in the column *Total Quarterly Distribution Target Amount*, until available cash from operating surplus we distribute reaches the next target distribution level, if any. The percentage interests shown for the unitholders and our general partner for the minimum quarterly distribution are also applicable to quarterly distribution amounts that are less than the minimum quarterly distribution. The percentage interests shown for our general partner include its 2% general partner interest and assume our general partner has not transferred the incentive distribution rights.
