The Mosaic Company

We are the world's leading producer and marketer of concentrated phosphate and potash crop nutrients. We are the largest integrated phosphate producer in the world and one of the largest producers and marketers of phosphate-based animal feed ingredients in the United States. We are the fourth largest producer of potash in the world. Through our broad product offering, we are a single source supplier of phosphate- and potash-based crop nutrients and animal feed ingredients. We serve customers in approximately 40 countries. We mine phosphate rock in Florida and process rock into finished phosphate products at facilities in Florida and Louisiana. We mine potash in Saskatchewan, New Mexico and Michigan. We have other production, blending or distribution operations in Brazil, China, India, Argentina and Chile, and a strategic equity investment in a phosphate rock mine in Peru. We also have entered into an agreement to develop a planned 3.5 million tonne per year integrated phosphate production operation with Saudi Arabian Mining Company and Saudi Basic Industries Corporation in the Kingdom of Saudi Arabia, pursuant to which we will own 25 percent of the joint venture and market approximately 25 percent of its production. Our operations include the top four nutrient-consuming countries in the world.

We conduct our business through wholly and majority-owned subsidiaries as well as businesses in which we own less than a majority or a non-controlling interest. We are organized into two reportable business segments: Phosphates and Potash. The following charts show the respective contributions to fiscal 2013 sales volumes, net sales and operating earnings for each of these business segments:

Phosphates Segment We are the largest integrated phosphate producer in the world and the largest producer and marketer of phosphate-based animal feed ingredients in the United States. We sell phosphate-based crop nutrients and animal feed ingredients throughout North America and internationally. Our Phosphates segment also includes our international distribution activities. Our distribution activities include sales offices, port terminals and warehouses in the United States, Canada and several other key international countries. In addition, the international distribution activities include blending, bagging and production facilities in Brazil, China, India, Argentina and Chile. We

Table of Contents

accounted for approximately 12% of estimated global production and 59% of estimated North American production of concentrated phosphate crop nutrients during fiscal 2013.

Potash Segment We are the fourth-largest producer of potash in the world. We sell potash throughout North America and internationally, principally as fertilizer, but also for use in industrial applications and, to a lesser degree, as animal feed ingredients. We accounted for approximately 13% of estimated global potash production and 42% of estimated North American potash production during fiscal 2013.

The Mosaic Company was formed in March 2004 and serves as the parent company of the business that was formed through the October 2004 business combination of IMC Global Inc. and the fertilizer businesses of Cargill, Incorporated (Cargill). In May 2011, Cargill divested the approximately 64% (285.8 million shares) interest in us that Cargill then held in a split-off to certain Cargill stockholders (the Exchanging Cargill Stockholders) and a debt exchange with certain Cargill debt holders (the Cargill Transaction). The agreements relating to the Cargill Transaction contemplated an orderly distribution of our shares that Cargill formerly held. Our shares that continue to be held by Exchanging Cargill Stockholders (approximately 128.8 million shares in the aggregate after the disposition of shares designated to be sold during the 15-month period following the initial split-off and debt exchange) are generally subject to transfer restrictions until such restrictions are removed in three equal annual installments beginning on November 26, 2013, or if the shares are sold in registered public secondary offerings. Under the terms of the Cargill Transaction, we are restricted from engaging in open-market or negotiated share repurchase until November 26, 2013. After discussions with Cargill and one of the Exchanging Cargill Stockholders regarding a potential amendment of these restrictions to permit a negotiated repurchase of restricted shares, we have been unable to amend the terms of the agreements relating to the Cargill Transaction and we are not permitted to engage in open market or negotiated share repurchases until after November 26, 2013. At that time, depending on market conditions and sellers' interest, we will consider the repurchase of shares either in a negotiated transaction or through open market repurchases. Any share repurchases would be made under our capital management philosophy, which seeks to lower our weighted average cost of capital and contemplates the return of capital to stockholders over time, while maintaining a liquidity buffer of \$2.25 billion and increasing our long-term debt levels in anticipation of potential share repurchases.

Recent Developments

On October 28, 2013, we entered into an agreement to acquire the Florida phosphate assets and assume certain related liabilities of CF Industries, Inc. (CF) for \$1.2 billion plus an additional \$200 million to fund CF's asset retirement obligation escrow. Under the terms of the agreement, we would acquire CF's phosphate mining and production operations in Central Florida and terminal and warehouse facilities in Tampa, Florida. These facilities currently produce approximately 1.8 million tonnes of phosphate fertilizer per year. This transaction is expected to close in the first half of 2014 and is subject to customary regulatory approvals.

In connection with this transaction, we also signed supply agreements under which CF will provide us with ammonia. Under one of the agreements, we will purchase approximately 545,000 to 725,000 tonnes annually for up to fifteen years at a price tied to the prevailing price of U.S. natural gas. This agreement is expected to commence prior to January 1, 2017. Under a second agreement, we would purchase approximately 270,000 tonnes annually for three years from CF's Trinidad operations at CFR Tampa market-based pricing. In light of these supply arrangements, we have decided to forego our proposed ammonia manufacturing plant at our Faustina, Louisiana facility.

Table of Contents

In addition to the \$1.4 billion total consideration in connection with this transaction, we expect to spend an estimated \$500 million to develop reserves and improve existing mines and an estimated \$200 million on marine assets to transport ammonia from Louisiana to our Florida facilities. These estimated \$2.1 billion of investments and capital expenditures are expected to be offset by an estimated \$2.1 billion in capital savings related to the cancellations of (i) the Faustina ammonia project, saving approximately \$1.1 billion in future capital expenditures, and (ii) a planned \$1 billion beneficiation facility for our future Ona phosphate rock mine, because the proximity of the existing infrastructure at CF s South Pasture mine to Ona would allow us to take advantages of synergies associated with the combined mining assets. We also expect to capture significant additional operating efficiencies.

Risks Related to the Notes

The notes are senior unsecured obligations and are subordinated to all of our existing and future secured indebtedness.

The notes are senior unsecured obligations and effectively subordinated in right of payment to all of our existing and future secured indebtedness, to the extent of the value of the assets securing such indebtedness. The indenture for the notes does not restrict our ability to incur additional indebtedness, including secured indebtedness generally, which would have a prior claim on the assets securing that indebtedness. In the event of our insolvency, bankruptcy, liquidation, reorganization, dissolution or winding up, our assets that serve as collateral for any secured indebtedness would be made available to satisfy the obligations to our secured creditors before any payments are made on the notes. See Description of Debt Securities General in the accompanying prospectus.

The notes are effectively subordinated to the obligations of our subsidiaries.

All of our operations are conducted through our subsidiaries. Although the notes are unsubordinated obligations, they will be effectively subordinated to all liabilities of our subsidiaries, to the extent of their assets. Our subsidiaries are separate and distinct legal entities and have no obligation to pay any amounts due under our indebtedness, including the notes, or to make any funds available to us, whether by paying dividends or otherwise, so that we can do so.

As of September 30, 2013, our consolidated subsidiaries had approximately \$3,355.5 million of indebtedness and other liabilities (excluding intercompany liabilities).

We have made only limited covenants in the indenture for the notes.

The indenture for the notes does not:

establish a sinking fund for the notes;

require us to maintain any financial ratios or specific levels of net worth, revenues, income, cash flows or liquidity and, accordingly, does not protect holders of the notes in the event that we incur operating losses;

limit our subsidiaries ability to incur indebtedness generally or indebtedness that would effectively rank senior to the notes;

limit our ability to incur indebtedness generally or any indebtedness that is equal in right of payment to the notes;

Table of Contents

restrict our subsidiaries' ability to issue securities that would be senior to the common stock of our subsidiaries held by us;

restrict our ability to repurchase our securities;

restrict our ability generally to pledge our assets or those of our subsidiaries; or

restrict our ability to make investments or to pay dividends or make other payments in respect of our common shares or other securities ranking junior to the notes.

If an active trading market does not develop for the notes, you may be unable to sell your notes or to sell your notes at a price that you deem sufficient.

The notes are new issues of securities with no established trading market. We do not intend to list the notes of any series on any securities exchange or include the notes in any automated quotation system. While the underwriters of the notes have advised us that they intend to make a market in the notes, the underwriters will not be obligated to do so and may stop their market-making at any time. No assurance can be given:

that a market for any series of notes will develop or continue;

as to the liquidity of any market that does develop; or

as to your ability to sell any notes you may own or the price at which you may be able to sell your notes.

We may be unable to repurchase the notes upon a Change of Control Triggering Event.

Upon the occurrence of a Change of Control Triggering Event with respect to a particular series of notes, subject to certain conditions, we will be required to make an offer to repurchase all outstanding notes of such series at 101% of their principal amount, plus accrued and unpaid interest. See "Description of the Notes—Change of Control" in this prospectus supplement. The source of funds for such a repurchase will be our available cash or cash generated from our subsidiaries' operations or other potential sources, including borrowings, sales of assets or sales of equity. We cannot assure you that sufficient funds from such sources will be available at the time of any Change of Control Triggering Event to make required repurchases of notes tendered. Our future debt instruments may contain similar provisions. It is possible that we will not have sufficient funds at the time of the Change of Control Triggering Event to complete the required repurchase of the notes and, if applicable, our other indebtedness.

Downgrades or other changes in our credit ratings could affect our financial results and reduce the market value of the notes.

We expect that the notes will be rated "investment grade" by one or more nationally recognized statistical rating organizations. A rating is not a recommendation to purchase, hold or sell the notes, since a rating does not predict the market price of a particular security or its suitability for a particular investor. The rating organization may lower the rating or decide not to rate the notes in its sole discretion. The rating of the notes will be based primarily on the rating organization's assessment of the likelihood of timely payment of interest when due on the notes and the ultimate payment of principal of the notes on the final maturity date. Any ratings downgrade could increase our cost of borrowing or require certain actions to be performed to rectify such a situation. The reduction, suspension or withdrawal of the ratings of the notes will not, in and of itself, constitute an event of default under the indenture.

Table of Contents

The notes offered hereby will vote with our 3.750% Senior Notes due 2021, our 4.875% Senior Notes due 2041 and any other notes issued pursuant to the Indenture with respect to certain matters as provided in the Indenture.

Pursuant to the Indenture, for purposes of certain amendments to the Indenture, the notes offered hereby will vote as a single series on a pro rata basis with all outstanding notes of other series issued pursuant to the Indenture, including our 3.750% Senior Notes due 2021 and our 4.875% Senior Notes due 2041. Therefore, to the extent holders of such other notes have different interests than the holders of the notes offered hereby, such other holders may, to the extent they represent a majority of all notes outstanding under the Indenture, amend the Indenture in ways that are not in the best interests of the holders of the notes offered hereby.

Use of Proceeds

We estimate the net proceeds from the sale of the notes to be approximately \$1,976.4 million after deducting underwriting discounts and commissions and expenses of the offering payable by us. We intend to use the net proceeds for general corporate purposes, including, without limitation, working capital, capital expenditures, strategic opportunities and distributions to our stockholders, either in the form of share repurchases or dividend policies.

Pending application of proceeds in accordance with this clause, the net proceeds from the sale of the notes are expected to be held as cash and cash equivalents and diversified in highly rated investment vehicles.

Description of the Notes

The following is a description of the principal terms of the notes. This description does not purport to be complete and is subject to the indenture dated October 24, 2011 between us and U.S. Bank National Association, as trustee (the *Trustee*) (the *Indenture*). The Indenture is subject to and governed by the Trust Indenture Act of 1939, as amended. A copy of the form of the Indenture has been filed with the SEC. This description supplements and, to the extent inconsistent therewith, replaces the description of the Debt Securities with respect to the notes offered hereby as set forth under *Description of Debt Securities* in the accompanying prospectus.

As used under this heading *Description of the Notes*, all references to *we*, *us*, *our* or *Mosaic* shall mean The Mosaic Company, excluding, unless otherwise expressly stated or the context otherwise requires, its subsidiaries, its proportionate share of joint ventures, any partnership of which it is a partner and its significant equity investments. All capitalized words used under this heading *Description of the Notes* and not defined herein have the meanings provided for in the accompanying prospectus.

General

Payment of the principal, redemption amounts, if any, and interest on the notes will be made in United States dollars.

The 4.250% Senior Notes due 2023 (the *2023 notes*) initially will be issued in an aggregate principal amount of \$900,000,000 and will bear interest at the rate of 4.250% per year, the 5.450% Senior Notes due 2033 (the *2033 notes*) initially will be issued in an aggregate principal amount of \$500,000,000 and will bear interest at the rate of 5.450% per year and the 5.625% Senior Notes due 2043 (the *2043 notes* and, together with the 2023 notes and the 2033 notes, the *notes*) will initially be issued in an aggregate principal amount of \$600,000,000 and will bear interest at the rate of 5.625% per year.

We will pay interest on the notes semi-annually on May 15 and November 15 of each year, beginning May 15, 2014 or from the most recent date to which interest has been paid or provided for, to the registered holders of the notes on the preceding May 1 or November 1, respectively. The 2023 notes will mature on November 15, 2023, the 2033 notes will mature on November 15, 2033 and the 2043 notes will mature on November 15, 2043. The amount of interest payable will be computed on the basis of a 360-day year consisting of twelve 30-day months.

If any interest payment date, redemption date or the maturity date of the notes falls on a day that is not a Business Day, the related payment of principal, redemption amounts, if any, or interest will be postponed to the next succeeding Business Day, and no interest on such payment will accrue for the period from and after such interest payment date or the maturity date of the notes, as the case may be.

Business Day means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation (including any executive order) to close in The City of New York.

We may from time to time without notice to, or the consent of, the holders of the notes of a particular series, reopen such series and issue additional notes of that series. Such further notes would be identical in all respects to the applicable series of notes offered hereby (except for the issue date, public offering price, payment of interest accruing before the issue date and, if applicable, the first interest payment date). There is no limit on the principal amount of notes we may issue under the Indenture from time to time. Additional notes of a series issued in this manner will be consolidated with and will form a single series with the notes of such series being offered hereby, *provided* that such additional notes are fungible with the notes of such series for U.S. federal income tax purposes.

Table of Contents

The notes will not be entitled to the benefits of any sinking fund.

The notes of each series will be represented by Global Securities registered in the name of Cede & Co., the nominee of The Depository Trust Company (DTC). Except as described below and under the heading The Depository, Book-Entry and Settlement below, notes in definitive form will not be issued.

The nominee of DTC, as holder of record of the Global Securities, will be entitled to receive payments of principal, redemption amounts, if any, and interest by wire transfer of same day funds for payment to beneficial owners in accordance with DTC's procedures. See The Depository, Book-Entry and Settlement below. In the event that notes of a series are issued in definitive form, principal, redemption amounts, if any, and interest on the notes of such series will be payable, and the notes of such series will be exchangeable and transferable, at an office or agency of the Trustee in New York, New York, except that at our option, interest, if any, may be paid (i) by check mailed to the address of the Person entitled thereto as such address shall appear in the security register or (ii) by wire transfer to an account located in the United States maintained by the Person entitled thereto as specified in the security register.

Notes will be issued solely as registered notes issuable in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. No service charge will be made for any transfer or exchange of notes, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

Ranking

The notes will be our direct, senior unsecured obligations and will rank equally in right of payment with all of our existing and future senior unsecured debt, and will rank senior to all of our existing and future subordinated debt. As of September 30, 2013, The Mosaic Company had approximately \$750 million of indebtedness (excluding intercompany debt and letters of credit), none of which was secured indebtedness. After giving effect to the issuance and sale of the notes offered hereby and the application of the proceeds therefrom as described under Use of Proceeds, as of September 30, 2013, The Mosaic Company (excluding its subsidiaries) would have had \$2,750 million of indebtedness (excluding intercompany debt and letters of credit). The notes will be effectively subordinated to all indebtedness and other liabilities, including guarantees, of any of our subsidiaries. See Risk Factors Risks Related to the Notes *The notes are effectively subordinated to the obligations of our subsidiaries* in this prospectus supplement. As of September 30, 2013, our consolidated subsidiaries had approximately \$3,355.5 million of indebtedness and other liabilities (excluding intercompany liabilities). None of the net proceeds from the sale of the notes will be used to repay indebtedness and other liabilities of our consolidated subsidiaries.

Optional Redemption

The notes of each series will be redeemable in whole or in part, at our option, at any time and from time to time. Prior to August 15, 2023, in the case of the 2023 notes, prior to May 15, 2033, in the case of the 2033 notes, and prior to May 15, 2043, in the case of the 2043 notes, the notes of each series will be redeemable, in whole or in part, at our option, at a redemption price equal to the greater of (i) 100% of their principal amount and (ii) the sum of the present values of the remaining scheduled payments of principal and interest thereon (exclusive of interest accrued to the date of redemption) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate, plus 25 basis points, in the case of the 2023 notes, plus 30 basis points, in the case of the 2033 notes and plus 30 basis points, in the case of the 2043 notes, plus, in each case, accrued and unpaid interest thereon to, but not including, the date of redemption.

Table of Contents

If the notes are redeemed on or after August 15, 2023, in the case of the 2023 notes, on or after May 15, 2033, in the case of the 2033 notes, and on or after May 15, 2043, in the case of the 2043 notes, they may be redeemed, in whole or in part, at our option, at a redemption price equal to 100% of their principal amount, plus, in each case, accrued and unpaid interest thereon to, but not including, the date of redemption.

Comparable Treasury Issue means the U.S. Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the series of notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of such notes.

Comparable Treasury Price means, with respect to any redemption date, (A) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (B) if we are unable to obtain at least five such Reference Treasury Dealer Quotations, the average of all such quotations.

Independent Investment Banker means one of the Reference Treasury Dealers selected by us.

Reference Treasury Dealer means each of Goldman, Sachs & Co., J.P. Morgan Securities LLC, Morgan Stanley & Co. LLC and a Primary Treasury Dealer (as defined herein) selected by Wells Fargo Securities, LLC or any designee selected by any named Reference Treasury Dealer plus two others or their affiliates which are primary U.S. Government securities dealers and their respective successors, *provided, however*, that if any of the foregoing Reference Treasury Dealers shall cease to be a primary U.S. Government securities dealer in the United States of America (a Primary Treasury Dealer), we shall substitute therefor another Primary Treasury Dealer.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by us, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to us by such Reference Treasury Dealer at 3:30 p.m. (New York time) on the third Business Day preceding such redemption date.

Treasury Rate means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

Notice of any redemption will be mailed not less than 30 days and not more than 60 days before the redemption date to each registered holder of the notes to be redeemed. If less than all of a series of notes are redeemed, the Trustee will select the notes of such series to be redeemed by a method determined by the Trustee to be fair and appropriate.

Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the series of notes or portions thereof called for redemption.

If notice of redemption has been given as provided in the Indenture for a series of notes, unless we default in the payment of the redemption price and accrued and unpaid interest thereon to, but not including, the date of redemption or portions thereof called for redemption, such notes will cease to bear interest from and after the date fixed for such redemption specified in such notice and the only right of the holders of such notes will be to receive payment of the redemption price plus accrued and unpaid interest to, but not including, the date of redemption.

Change of Control

If a Change of Control Triggering Event (as defined below) occurs with respect to a series of notes, unless we have exercised our right to redeem such series of notes, as described above, holders of the notes of such series that have not been redeemed will have the right to require us to repurchase all or any part equal to \$2,000 or an integral multiple of \$1,000 in excess thereof of such notes pursuant to the offer described below (the Change of Control Offer). In the Change of Control Offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of notes repurchased plus accrued and unpaid interest, if any, on the notes repurchased to, but not including, the date of purchase (Change of Control Payment), subject to the right of holders of notes being repurchased on the relevant record date to receive interest due on the relevant interest payment date. No later than 30 days following any Change of Control Triggering Event with respect to a series of notes or, at our option, prior to a Change of Control, but after the public announcement of such Change of Control, we will be required to mail a notice to holders of notes of such series, with a copy to the Trustee, describing the transaction or transactions that constitute the Change of Control Triggering Event and offering to repurchase the notes of such series on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed (the Change of Control Payment Date), pursuant to the procedures described in such notice. The notice shall, if mailed prior to the date of consummation of the Change of Control, state that the Change of Control Offer is conditioned on a Change of Control Triggering Event occurring prior to the Change of Control Payment Date. We must comply with the requirements of Rule 14e-1 under the United States Securities Exchange Act of 1934, as amended (the Exchange Act), and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the Indenture, we will be required to comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control provisions of the Indenture by virtue of such conflicts.

On or before the Change of Control Payment Date with respect to a series of notes, we will be required to:

accept for payment all notes or portions of notes of such series properly tendered pursuant to the Change of Control Offer;

deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes of such series properly tendered; and

deliver or cause to be delivered to the Trustee the notes of such series properly accepted, together with an officers' certificate stating the aggregate principal amount of notes or portions of notes of such series being purchased.

For purposes of the foregoing discussion of a repurchase at the option of holders of notes, the following definitions are applicable:

Below Investment Grade Rating Event means, with respect to a series of notes, such series of notes are rated below an Investment Grade Rating by each of the Rating Agencies, on any date from the earlier of (i) the date of the Change of Control and (ii) the date of the public notice of an arrangement or transaction that could result in a Change of Control, until the end of the 60-day period following such date, which 60-day period shall be extended if, by the end of the 60-day period, the rating of the notes of such series is under publicly announced consideration for a possible downgrade by either of the Rating Agencies if the other Rating Agency has already lowered its ratings on the notes

Table of Contents

of such series as aforesaid, such extension to continue for so long as consideration for a possible downgrade continues by such Rating Agency.

Change of Control means the occurrence of any of the following: (1) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger, consolidation or amalgamation), in one or a series of related transactions, of all or substantially all of the properties or assets of ours and our subsidiaries, taken as a whole, to one or more persons (as such term is used in Section 13(d) of the Exchange Act) other than us or any of our subsidiaries; (2) the consummation of any transaction (including, without limitation, any merger or amalgamation) the result of which is that one or more persons (as such term is used in Section 13(d) of the Exchange Act) becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50 percent of the total voting power in the aggregate of all classes of our voting stock normally entitled to vote in the elections of directors, other than any such transaction where shares of our voting stock outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the total voting power of the voting stock of such person immediately after giving effect to such transaction; (3) the first day on which a majority of the members of our board of directors are not Continuing Directors; (4) we consolidate with, or merge with or into, any person, or any person consolidates with, or merges with or into, Mosaic, in any such event pursuant to a transaction in which any of our outstanding common shares or such other person's outstanding common shares is converted into or exchanged for cash, securities or other property, other than any such transaction where shares of our voting stock outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the total voting power of the voting stock of the surviving person immediately after giving effect to such transaction; or (5) the adoption of a plan relating to the liquidation or dissolution of us.

Notwithstanding the foregoing, a transaction will not be deemed to involve a Change of Control if (1) we become a direct or indirect wholly-owned Subsidiary of a Person (as such terms are defined in the accompanying prospectus) and (2) the direct or indirect holders of the common shares of such Person immediately following that transaction are substantially the same as the holders of our common shares, or other voting shares into which our common shares are reclassified, consolidated, exchange or changed immediately prior to that transaction.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of our and our subsidiaries' properties or assets taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase such holder's notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of our and our subsidiaries' assets taken as a whole to another person or group may be uncertain.

Change of Control Triggering Event with respect to a series of notes means the occurrence of both a Change of Control and a Below Investment Grade Rating Event for such series of notes.

Continuing Directors means, as of any date of determination, any member of our board of directors who (1) was a member of such board of directors on the date of the issuance of the notes of the applicable series, or (2) was nominated for election or elected to such board of directors with the approval of a majority of the Continuing Directors who were members of such board of directors at the time of such nomination or election (either by a specific vote or by approval of our proxy circular in which such member was named as a nominee for election as a director, without objection to such nomination).

Table of Contents

Investment Grade Rating means a rating equal to or higher than Baa3 (or the equivalent) by Moody's and BBB (or the equivalent) by S&P.

Moody's means Moody's Investors Service, Inc., a subsidiary of Moody's Corporation, and its successors.

Rating Agencies means (1) each of Moody's and S&P, and (2) if any of Moody's or S&P ceases to rate the notes of a series or fails to make a rating of the notes of such series publicly available for any reason, a nationally recognized statistical rating organization within the meaning of Section 3(a)(62) under the Exchange Act, selected by us (by a resolution of our board of directors) as a replacement agency with respect to the notes of such series for Moody's or S&P, or both of them, as the case may be.

S&P means Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc., and its successors.

We will not be required to make a Change of Control Offer with respect to a series of notes upon a Change of Control Triggering Event with respect to such series of notes if a third party makes an equivalent offer in the manner, at the times and otherwise in compliance with the requirements for a Change of Control Offer made by us and such third party purchases all the notes of such series properly tendered and not withdrawn under its offer.

An event of default with respect to a series of notes shall be deemed to occur upon the failure by us to comply with the terms of the covenant set forth in this Change of Control section with respect to such series of notes for a period of 60 days after written notice to us by the trustee or to us and the trustee by the holders of not less than 25% in principal amount of the outstanding notes of such series. If such an event of default occurs and is continuing, the Trustee or the holders of not less than 25% in principal amount of the outstanding notes of such series may declare the principal amount of such notes and all interest thereon to be due and payable immediately, by notice in writing to us (and to the Trustee if given by holders), and upon any such declaration the same shall become immediately due and payable. The consent of holders of not less than a majority in principal amount of the outstanding notes of a series is required to (i) modify or amend the provisions of this section (including the provisions of this paragraph) with respect to such series of notes, and (ii) waive a past default or event of default on account of a breach of our obligations under this section with respect to such series of notes.

The Change of Control Triggering Event provision may in certain circumstances make more difficult or discourage a sale or takeover of Mosaic. We could, in the future, enter into certain transactions, including asset sales, acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control Triggering Event but that could increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings on the notes.

We may not have sufficient funds to repurchase all of the notes upon a Change of Control Triggering Event. See **Risk Factors** **Risks Related to the Notes** *We may be unable to repurchase the notes upon a Change of Control Triggering Event.*

The Depositary, Book-Entry and Settlement

DTC will act as securities depository for each series of notes. The notes of each series may only be issued as Global Securities registered in the name of Cede & Co. (DTC's partnership nominee), except in the limited circumstances described below.

Table of Contents

DTC has advised us as follows: DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants (Participants) deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book entry changes in Participants accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, depositories for Euroclear and Clearstream, clearing corporations and certain other organizations (Direct Participants). DTC is a wholly-owned subsidiary of the Depository Trust Clearing Corporation owned by a number of its Direct Participants and by The New York Stock Exchange, Inc. and the Financial Industry Regulatory Authority, Inc. Access to the DTC system is also available to others, such as securities brokers and dealers, banks and trust companies that clear transactions through or maintain a custodial relationship with a Direct Participant either directly or indirectly (Indirect Participants). The rules applicable to DTC and its Participants are on file with the SEC.

Purchases of notes within the DTC system must be made by or through Direct Participants, which will receive a credit for the notes on DTC s records. The ownership interest of each actual purchaser of notes (a Beneficial Owner) is in turn to be recorded on the Direct Participants and Indirect Participants records. Beneficial Owners will not receive written confirmation from DTC of their purchases, but Beneficial Owners are expected to receive written confirmation providing details of the transactions, as well as periodic statements of their holdings from the Direct Participants or Indirect Participants through which the Beneficial Owners hold notes. Transfers of ownership interests in the notes will be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the notes, except under the limited circumstances described under Discontinuance of Depository s Services below.

To facilitate subsequent transfers, all the notes deposited by Participants with DTC will be registered in the name of Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of notes with DTC and their registration in the name of Cede & Co. will effect no change in beneficial ownership. DTC will have no knowledge of the actual Beneficial Owners of the notes. DTC s records will reflect only the identity of the Direct Participants to whose accounts such notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements that may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. If less than all of the notes of a series are being redeemed, DTC s practice is to determine by lot the amount of the interest of each Direct Participant in such notes to be redeemed.

Neither DTC nor Cede & Co. will itself consent or vote with respect to the notes. Under its usual procedures, DTC will mail an omnibus proxy to us as soon as possible after the relevant record date. The omnibus proxy assigns Cede & Co. s consenting or voting rights to those Direct Participants to whose accounts the notes are credited on the record date (identified in a listing attached to the omnibus proxy). We believe that the arrangements among DTC, Direct Participants and Indirect

Table of Contents

Participants and Beneficial Owners will enable the Beneficial Owners to exercise rights equivalent in substance to the rights that can be directly exercised by the registered holder of notes.

Payments of principal, redemption amounts, if any, and interest on the notes will be made to DTC. DTC's practice is to credit Direct Participants accounts on the relevant payment date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payments on such payment date. Payments by Participants to Beneficial Owners will be governed by standing instructions and practices, as is the case with securities held for the account of customers in bearer form or registered in street name, and such payments will be the responsibility of such Participants and not of DTC, the Trustee or us, subject to any statutory or regulatory requirements to the contrary that may be in effect from time to time. Payment of principal, redemption amounts, if any, and interest to DTC is the responsibility of us or the responsibility of the Trustee, disbursements of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct Participants and Indirect Participants.

Except as provided herein, a Beneficial Owner of an interest in a Global Security will not be entitled to receive physical delivery of notes. Accordingly, each Beneficial Owner must rely on the procedures of DTC, the Direct Participants and the Indirect Participants to exercise any rights under the notes. The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of securities in definitive form. Such laws may impair the ability to transfer beneficial interests in the Global Securities as represented by a global certificate.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof. Furthermore, such information is subject to any changes to these procedures that may be instituted unilaterally by DTC and to any changes to the arrangements between us and DTC.

Neither the Trustee nor we will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in a Global Security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Discontinuance of Depositary's Services

A Global Security with respect to a series of notes shall be exchangeable for notes of such series registered in the names of persons other than DTC or its nominee or a successor depositary or other depositary or its nominee only if:

DTC or such successor depositary, as applicable, notifies us that it is unwilling or unable to continue as a depositary for such Global Security and no successor depositary shall have been appointed by us within 90 days;

DTC or such successor depositary, as applicable, at any time, ceases to be a clearing agency registered under the Exchange Act at which time DTC or such successor depositary, as applicable, is required to be so registered to act as such depositary and no successor depositary shall have been appointed by us within 90 days;

we, in our sole discretion, determine that such Global Security shall be so exchangeable; or

there shall have occurred and shall be continuing an event of default under the Indenture with respect to the notes of such series and the Trustee has received through DTC a

request from an owner of a beneficial interest in any Global Securities to exchange such Global Security for notes so registered. Any Global Security with respect to a series of notes that is exchangeable pursuant to the preceding sentence shall be exchangeable for notes of such series registered in such names as DTC or such successor depository, as applicable, shall direct. It is expected that such instructions will be based upon directions received by DTC from its Participants or such successor depository from its participants with respect to ownership of beneficial interests in such Global Security.

Certain U.S. Federal Income Tax Considerations

The following is a summary of the material U.S. federal income and, in the case of non-U.S. holders (as defined below), certain estate tax consequences of the purchase, ownership and disposition of the notes. This summary is limited to holders that purchase the notes for cash at original issue at their initial offering price and hold the notes as capital assets (generally, property held for investment) for U.S. federal income tax purposes. This discussion does not describe all of the U.S. federal income tax consequences that may be relevant to a holder in light of its particular circumstances or to holders subject to special rules, including, without limitation, tax-exempt organizations, holders subject to the U.S. federal alternative minimum tax, dealers in securities or currencies, financial institutions, insurance companies, regulated investment companies, real estate investment trusts, certain former citizens or residents of the United States, controlled foreign corporations, passive foreign investment companies, partnerships, S corporations or other pass-through entities, U.S. holders (as defined below) whose functional currency is not the U.S. dollar, and persons that hold the notes in connection with a straddle, hedging, conversion or other risk-reduction transaction.

The U.S. federal income tax consequences set forth below are based upon the Internal Revenue Code of 1986, as amended (the Code) and applicable Treasury regulations, court decisions and rulings and pronouncements of the IRS, all as in effect on the date hereof, and all of which are subject to change, or differing interpretations at any time with possible retroactive effect. The Company has not sought any ruling from the IRS with respect to statements made and conclusions reached in this discussion, and there can be no assurance that the IRS will agree with such statements and conclusions.

As used herein, the term U.S. holder means a beneficial owner of a note that is for U.S. federal income tax purposes:

an individual who is a citizen or resident of the United States;

a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, that is created or organized in or under the laws of the United States or any political subdivision thereof;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust, if a court within the United States is able to exercise primary jurisdiction over its administration and one or more U.S. persons have authority to control all of its substantial decisions, or if the trust has a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

As used herein, the term non-U.S. holder means a beneficial owner of a note that is neither a U.S. holder nor a partnership or an entity treated as a partnership for U.S. federal income tax purposes.

If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) is a beneficial owner of a note, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. A beneficial owner that is a partnership and partners in such a partnership should consult their tax advisors about the U.S. federal income tax consequences of the purchase, ownership and disposition of the notes.

Table of Contents

This summary does not address the tax consequences arising under any state, local, or foreign law. Furthermore, this summary does not consider the effect of the U.S. federal estate or gift tax laws (except as set forth below with respect to certain U.S. federal estate tax consequences to non-U.S. holders).

Investors considering the purchase of the notes should consult their own tax advisors with respect to the application of the U.S. federal income tax laws to their particular situation, as well as any tax consequences arising under the U.S. federal estate or gift tax rules or under the laws of any state, local, or foreign taxing jurisdiction or under any applicable tax treaty.

Possible Treatment as Contingent Payment Debt Instruments

We may be obligated to pay amounts in excess of the stated interest or principal on the notes, including as described under Description of the Notes Optional Redemption, and Description of the Notes Change of Control. These potential payments may implicate the provisions of Treasury regulations relating to contingent payment debt instruments. According to the applicable Treasury regulations, certain contingencies will not cause a debt instrument to be treated as a contingent payment debt instrument if such contingencies, as of the date of issuance, are remote or incidental. We intend to take the position that the foregoing contingencies are remote or incidental, and we do not intend to treat the notes as contingent payment debt instruments. Our determination regarding the remoteness of such contingency is binding on each U.S. holder unless a U.S. holder explicitly discloses to the IRS in the proper manner that its determination is different than ours.

Our determination is not binding on the IRS and it is possible that the IRS may take a different position regarding the possibility of such additional payments, in which case, if that position were sustained, the timing, amount and character of income recognized with respect to a note may be materially different than described herein and a holder may be required to recognize income significantly in excess of payments received and may be required to treat as interest income all or a portion of any gain recognized on the disposition of a note. This summary assumes that the IRS will not take a different position, or, if it takes a different position, that such position will not be sustained. Prospective purchasers should consult their own tax advisors as to the tax considerations that relate to the possibility of additional payments.

U.S. Holders

Payments of Interest

A U.S. holder will be required to recognize as ordinary income any interest received or accrued on the notes in accordance with the U.S. holder's regular method of accounting.

Sale, Redemption, Retirement, Exchange or Other Taxable Disposition of Notes

A U.S. holder will generally recognize gain or loss on the sale, redemption, retirement, exchange, or other taxable disposition of a note, in an amount equal to the difference between (i) the proceeds received by the holder in exchange for such note (less an amount attributable to any accrued but unpaid interest not previously included in income, which will be treated as a payment of interest for U.S. federal income tax purposes) and (ii) the U.S. holder's adjusted tax basis in the note. The proceeds received by a U.S. holder will include the amount of any cash and the fair market value of any other property received for the note. In general, a U.S. holder's adjusted tax basis in a note will equal the amount paid for the note. Such gain or loss recognized by a U.S. holder on a disposition of a note will be capital gain or loss and will be long-term capital gain or loss if the holder held the note for

Table of Contents

more than one year. Under current U.S. federal income tax law, net long-term capital gains of non-corporate U.S. holders (including individuals) are eligible for taxation at preferential rates. The deductibility of capital losses is subject to certain limitations.

Information Reporting and Backup Withholding

Generally, U.S. holders will be subject to information reporting on payments of interest on the notes and the proceeds from a sale or other disposition of the notes. Unless a U.S. holder is an exempt recipient such as a corporation, a backup withholding tax (currently at a rate of 28%) may apply to such payments if the U.S. holder (i) fails to furnish a taxpayer identification number (TIN) within a reasonable time after a request therefor; (ii) furnishes an incorrect TIN; (iii) is notified by the IRS that it failed to report interest or dividends properly; or (iv) failed, under certain circumstances, to provide a certified statement, signed under penalty of perjury that the TIN provided is correct and that such U.S. holder is not subject to backup withholding. Backup withholding is not an additional tax. Any amount withheld from a payment to a U.S. holder under these rules will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is furnished timely to the IRS.

Net Investment Income Tax

For taxable years beginning after December 31, 2012, there is a 3.8% net investment income tax on the lesser of (i) the net investment income or (ii) the excess of modified adjusted gross income over a threshold amount, in the case of U.S. holders who are individuals, and on the lesser of (i) the undistributed net investment income or (ii) the excess of modified adjusted gross income over a threshold amount, in the case of certain U.S. holders that are estates and trusts. Among other items, net investment income would generally include gross interest income, and net gain from the sale, exchange, redemption, retirement or other taxable disposition of a note, less certain deductions.

Non-U.S. Holders

Payments of Interest

Interest paid on a note by us or our agent to a non-U.S. holder will qualify for the portfolio interest exemption and will not be subject to U.S. federal income tax or withholding tax, provided that such interest income is not effectively connected with a U.S. trade or business of the non-U.S. holder (or, if a tax treaty applies, is not attributable to a U.S. permanent establishment or fixed base maintained by the non-U.S. holder within the United States), and further provided that the non-U.S. holder:

does not actually or by attribution own 10% or more of the combined voting power of all classes of our stock entitled to vote;

is not a controlled foreign corporation for U.S. federal income tax purposes that is related to us actually or by attribution through stock ownership;

is not a bank that acquired the note in consideration for an extension of credit made pursuant to a loan agreement entered into in the ordinary course of business; and

either (a) provides a Form W-8BEN (or a suitable substitute form) signed under penalties of perjury that includes the non-U.S. holder's name and address and certifies as to non-United States status in compliance with applicable law and regulations; or (b) is a securities clearing organization, bank or other financial institution that holds customers

Table of Contents

securities in the ordinary course of its trade or business and provides a statement to us or our agent under penalties of perjury in which it certifies that such a Form W-8 (or a suitable substitute form) has been received by it from the non-U.S. holder or qualifying intermediary and furnishes us or our agent with a copy. The Treasury regulations provide special certification rules for notes held by a foreign partnership and other intermediaries.

If a non-U.S. holder cannot satisfy the requirements described above, payments of interest made to the non-U.S. holder will be subject to the 30% U.S. federal withholding tax, unless the holder provides us with a properly executed IRS Form W-8BEN claiming an exemption from (or reduction of) withholding under the benefit of an applicable tax treaty.

If interest on a note is effectively connected with a U.S. trade or business by a non-U.S. holder and, if a tax treaty applies, is attributable to a U.S. permanent establishment or fixed base maintained by the non-U.S. holder within the United States, the non-U.S. holder generally will not be subject to withholding if the non-U.S. holder complies with applicable IRS certification requirements (i.e., by delivering a properly executed IRS Form W-8ECI) and generally will be subject to U.S. federal income tax on a net-income basis at regular graduated rates in the same manner as if the holder were a U.S. holder. In the case of a non-U.S. holder that is a corporation, such effectively connected income also may be subject to the additional branch profits tax, which generally is imposed on a foreign corporation on the deemed repatriation from the United States of effectively connected earnings and profits at a 30% rate (or such lower rate as may be prescribed by an applicable tax treaty).

Sale, Redemption, Retirement, Exchange or Other Taxable Disposition of Notes

The 30% U.S. federal withholding tax generally will not apply to any gain that a non-U.S. holder realizes on the sale, redemption, exchange or other disposition of a note.

Any gain realized by a non-U.S. holder on the disposition of a note generally will not be subject to U.S. federal income tax, unless:

the gain is effectively connected with the conduct of a U.S. trade or business by the non-U.S. holder and, if required by an applicable tax treaty, the gain is attributable to a permanent establishment maintained in the United States by the non-U.S. holder; or

the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met, or the non-U.S. holder is subject to Code provisions applicable to certain U.S. expatriates.

A non-U.S. holder should consult his or her tax advisor regarding the tax consequences of the purchase, ownership and disposition of the notes.

Information Reporting and Backup Withholding

Information Reporting. The payment of interest to a non-U.S. holder is generally not subject to information reporting on IRS Form 1099 if applicable certification requirements (for example, by delivering a properly executed IRS Form W-8BEN) are satisfied. The payment of proceeds from the sale or other disposition of a note by a broker to a non-U.S. holder is generally not subject to information reporting if:

the beneficial owner of the note certifies the owner's non-U.S. status under penalties of perjury (i.e., by providing a properly executed IRS Form W-8BEN), or otherwise establishes an exemption; or

Table of Contents

the sale or other disposition of the note is effected outside of the United States by a foreign office of a broker, unless the broker is:

a U.S. person;

a foreign person that derives 50% or more of its gross income for certain periods from activities that are effectively connected with the conduct of a trade or business in the United States;

a controlled foreign corporation for U.S. federal income tax purposes; or

a foreign partnership more than 50% of the capital or profits of which is owned by one or more U.S. persons or which engages in a U.S. trade or business.

In addition to the foregoing, we must report annually to the IRS and to each non-U.S. holder on IRS Form 1042-S the entire amount of interest payment on the notes. This information may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty or other agreement.

Backup Withholding. Backup withholding (currently at a rate of 28%) is required only on payments that are subject to the information reporting requirements, discussed above, and only if other requirements are satisfied. Even if the payment of proceeds from the sale or other disposition of a note were subject to the information reporting requirements, the payment of proceeds from a sale or other disposition outside the United States would not be subject to backup withholding unless the payor has actual knowledge that the payee is a U.S. person. Backup withholding does not apply when any other provision of the Code requires withholding. For example, if interest is subject to the withholding tax described above under Payments of Interest, backup withholding will not also be imposed. Thus, backup withholding may be required on payments subject to information reporting, but not otherwise subject to withholding.

Backup withholding is not an additional tax. Any amount withheld from a payment to a non-U.S. holder under these rules will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle such holder to a refund provided that the required information is furnished timely to the IRS.

U.S. Estate Tax

A note held, or treated as held, by an individual who is not a citizen or resident of the United States, as specifically defined for U.S. federal estate tax purposes, at the time of death will not be included in the decedent's gross estate for U.S. federal estate tax purposes; provided that at the time of death the non-U.S. holder does not own, actually or by attribution, 10% or more of the total combined voting power of all classes of our stock entitled to vote, and provided that at the time of death payments with respect to such note would not have been effectively connected with the conduct of a trade or business within the United States by such non-U.S. holder.

THE U.S. FEDERAL INCOME AND ESTATE TAX SUMMARY SET FORTH ABOVE IS INCLUDED FOR GENERAL INFORMATION ONLY AND MAY NOT BE APPLICABLE DEPENDING UPON YOUR PARTICULAR SITUATION. YOU SHOULD CONSULT YOUR OWN TAX ADVISORS WITH RESPECT TO THE TAX CONSEQUENCES TO YOU OF THE EXCHANGE OF THE NOTES, AND THE OWNERSHIP AND DISPOSITION OF THE NOTES, INCLUDING THE TAX CONSEQUENCES UNDER STATE, LOCAL, FOREIGN AND OTHER TAX LAWS AND THE POSSIBLE EFFECTS OF CHANGES IN FEDERAL OR OTHER TAX LAWS.

We estimate that our total expenses for this offering, other than underwriting discounts and commissions, will be approximately \$3,850,000 and will be payable by us.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to the issuer and to persons and entities with relationships with the issuer, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the issuer (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with the issuer. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments. In addition, certain of the underwriters and their respective affiliates have, and will continue to have, lending relationships with the issuer.

If any of the underwriters or their affiliates has a lending relationship with the issuer, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby.

New Issue of Notes

The notes are new issues of securities with no established trading market. We have not applied and do not intend to apply to list the notes on any securities exchange. The underwriters have advised us that they intend to make a market in each series of the notes. However, they are not obligated to do so and may discontinue any market-making in the notes at any time in their sole discretion. Therefore, we cannot assure you that liquid trading markets for the notes will develop, that you will be able to sell your notes at a particular time or that the price you receive when you sell will be favorable.

Sales Outside the United States

The notes may be offered and sold in the United States and certain jurisdictions outside the United States in which such offer and sale is permitted.

Some of the information included in this prospectus, the prospectus supplement applicable to each sale of debt securities offered pursuant to this prospectus and the documents we have incorporated by reference may include statements of our expectations, intentions, plans and beliefs that constitute forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended, and are intended to come within the safe harbor protection provided by those sections. other difficulties or delays in receiving, or increased costs of, or revocation of, necessary governmental permits or approvals;

further developments in the lawsuit involving the tolling agreement at our Esterhazy, Saskatchewan, potash mine, including settlement or orders, rulings, injunctions or other actions by the court, the plaintiff or others in relation to the lawsuit;

THE MOSAIC COMPANY

We are one of the world's leading producers and marketers of concentrated phosphate and potash crop nutrients for the global agriculture industry. Through our broad product offering, we are a single source supplier of phosphate- and potash-based crop nutrients and animal feed ingredients. We serve customers in approximately 40 countries. We mine phosphate rock in Florida and process rock into finished phosphate products at facilities in Florida and Louisiana. We mine potash in Saskatchewan, New Mexico and Michigan. We have other production, blending or distribution operations in Brazil, China, India, Argentina, and Chile, and have a strategic equity investment in a phosphate rock mine in Peru. Our operations are situated in the top four nutrient-consuming countries in the world.

Mosaic was formed in March 2004 and serves as the parent company of the business that was formed through the October 2004 business combination of IMC Global Inc. and the fertilizer businesses of Cargill, Incorporated. In May 2011, Cargill, our former majority stockholder, distributed its 64% stake in our company to certain Cargill stockholders and certain Cargill debt holders.

We conduct our business through wholly and majority-owned subsidiaries as well as businesses in which we own less than a majority or a non-controlling interest. We are organized into two reportable business segments: Phosphates and Potash.

Phosphates Segment We are the largest integrated phosphate producer in the world and one of the largest producers of phosphate-based animal feed ingredients in the United States. We sell phosphate-based crop nutrients and animal feed ingredients throughout North America and internationally. Our Phosphates segment also includes our North American and international distribution activities. Our distribution activities include sales offices, port terminals and warehouses in the United States, Canada, and several other key international countries. In addition, the international distribution activities include blending, bagging and production facilities in Brazil, China, India, Argentina and Chile. We accounted for approximately 13% of estimated global production and 57% of estimated North American production of concentrated phosphate crop nutrients during fiscal 2011.

Potash Segment We are the third-largest producer of potash in the world. We sell potash throughout North America and internationally, principally as fertilizer, but also for use in industrial applications and, to a lesser degree, as animal feed ingredients. We accounted for approximately 12% of estimated global potash production and 38% of estimated North American potash production during fiscal 2011.

Our principal executive offices are located at 3033 Campus Drive, Suite E490, Plymouth, Minnesota 55441, telephone (800) 918-8270. Our Internet website address is www.mosaicco.com. Information on our website is not a part of, or incorporated by reference in, this prospectus.

USE OF PROCEEDS

We will use the net proceeds from the sale of the offered debt securities as set forth in the applicable prospectus supplement.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our ratio of earnings to fixed charges on a historical basis for the five fiscal years in the period ended May 31, 2011 and for the three months ended August 31, 2011. For purposes of these ratios, earnings consist of earnings from consolidated companies before income taxes plus fixed charges, amortization of capitalized interest and distributions from 50% or less owned companies accounted for in accordance with the equity method (net of capitalized interest and noncontrolling interest in earnings from consolidated companies with no fixed charges). Fixed charges consist of interest costs, whether expensed or capitalized (excluding amortized interest), amortized premiums, discounts and capitalized debt expenses, honored guarantees amount and the estimate of interest in rent expense.

In this section only, we, us or our refer only to The Mosaic Company without any of its subsidiaries, any of its proportionate share of joint ventures, any partnership of which it is a partner or any of its significant equity investments.

The Debt Securities will be issued under an indenture (the Indenture) between The Mosaic Company and U.S. Bank National Association (the Trustee). The Indenture is subject to and governed by the Trust Indenture Act of 1939, as amended.

The terms and conditions applicable to a series of Debt Securities will be established in accordance with the requirements of the Indenture for the specific Debt Securities and contained in the applicable prospectus supplement.

A copy of the Indenture is filed as an exhibit to the registration statement on Form S-3 with respect to the Debt Securities. The following is a summary only of important provisions and definitions of the Indenture and the Debt Securities which describes certain general terms and provisions of the Debt Securities and is not intended to be complete. We reserve the right to set forth in a prospectus supplement specific terms of the Debt Securities that are not within the parameters set forth in this prospectus. In addition, to the extent that any particular terms of the Debt Securities described in a prospectus supplement differ from any of the terms described in this prospectus, the description of such terms set forth in this prospectus shall be deemed to have been superseded by the description of the differing terms set forth in such prospectus supplement with respect to such Debt Securities.

Ranking

Unless otherwise indicated in any applicable prospectus supplement, the Debt Securities will be our unsecured obligations and will rank *pari passu* as to priority of payment with all of our other outstanding unsecured and unsubordinated debt. We are a holding company that conducts all of our business through subsidiaries. Accordingly, the Debt Securities will be effectively subordinated to all existing and future liabilities, including trade payables, of our subsidiaries.

Unless otherwise specified in the applicable prospectus supplement, other than the restriction on liens and sale and leaseback transactions set forth in the Indenture and described below, the Indenture does not contain any covenants or other provisions designed to afford holders of Debt Securities protection in the event of a highly leveraged transaction involving us or any of our subsidiaries.

Form, Exchange and Transfer

The Indenture provides that a series of Debt Securities may be issuable in global form.

A prospectus supplement may indicate the places to register a transfer of Debt Securities. No service charge will be made for any registration of transfer or exchange of Securities, but we may, in certain circumstances, require a sum sufficient to cover any tax or other governmental charges payable in connection with these transactions.

We shall not be required to:

- (a) issue, register the transfer of or exchange any series of our Debt Securities during a period beginning at the opening of business 15 days before the day of mailing of a notice of redemption of securities of that series and ending at the close of business on the day of mailing of the relevant notice of redemption;
- (b) register the transfer of or exchange any registered Debt Security, or portion thereof, called for redemption, except the unredeemed portion of any registered Debt Security being redeemed in part; or
- (c) issue, register the transfer of or exchange any of our Debt Securities which have been surrendered for repayment at the option of the holder, except the portion, if any, thereof not to be so repaid.

Payment

Unless otherwise indicated in the applicable prospectus supplement, payment of principal of (and premium, if any, and interest, if any, on) our Debt Securities will be made at the office or agency of the Trustee.

Unless otherwise indicated in the applicable prospectus supplement, payment of any interest will be made to the persons in whose name our Debt Securities are registered at the close of business on the day or days specified by us.

Global Securities

A series of our Debt Securities may be issued in whole or in part in global form as a global security and will be registered in the name of and be deposited with a depository, or its nominee, each of which will be identified in the prospectus supplement relating to that series. Unless and until exchanged, in whole or in part, for

Table of Contents

our debt securities in definitive registered form, a global security may not be transferred except as a whole by the depositary for such global security to a nominee of the depositary, by a nominee of the depositary to the depositary or another nominee of the depositary or by the depositary or any such nominee to a successor of the depositary or a nominee of the successor.

The specific terms of the depositary arrangement with respect to any portion of a particular series of our Debt Securities to be represented by a global security may be described in a prospectus supplement relating to such series. We anticipate that the following provisions will apply to all depositary arrangements.

Upon the issuance of a global security, the depositary therefor or its nominee will credit, on its book entry and registration system, the respective principal amounts of our Debt Securities represented by the global security to the accounts of such persons, designated as participants, having accounts with such depositary or its nominee. Such accounts shall be designated by the underwriters, dealers or agents participating in the distribution of our Debt Securities or by us if such Debt Securities are offered and sold directly by us. Ownership of beneficial interests in a global security will be limited to participants or persons that may hold beneficial interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depositary therefor or its nominee (with respect to interests of participants) or by participants or persons that hold through participants (with respect to interests of persons other than participants). The laws of some states in the United States require that certain purchasers of securities have the ability to take physical delivery of such Debt Securities in definitive form.

So long as the depositary for a global security, or its nominee, is the registered owner of the global security, such depositary or such nominee, as the case may be, will be considered the sole owner or holder of the Debt Securities represented by the global security for all purposes under the Indenture. Unless otherwise specified in the applicable prospectus supplement for a series of Debt Securities, owners of beneficial interests in a global security will not be entitled to have a series of our Debt Securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of such series of our Debt Securities in definitive form and will not be considered the owners or holders thereof under the Indenture.

Any payments of principal, premium, if any, and interest on global securities registered in the name of a depositary or its nominee will be made to the depositary or its nominee, as the case may be, as the registered owner of the global security representing such Debt Securities. Neither we, the Trustee nor any paying agent for our Debt Securities represented by the global securities will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests of the global security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

We expect that the depositary for a global security or its nominee, upon receipt of any payment of principal, premium, if any, or interest, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global security as shown on the records of such depositary or its nominee. We also expect that payments by participants to owners of beneficial interests in a global security held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in street name, and will be the responsibility of such participants.

Certain Definitions

Set forth below is a summary of certain of the defined terms used in the Indenture. We urge you to read the Indenture for the full definition of all such terms.

Consolidated Net Tangible Assets , as of any date of determination, means the total amount of assets (less applicable reserves and other properly deductible items) after deducting therefrom (i) all current liabilities (excluding any current liabilities which are by their terms extendible or renewable at the option of the obligor thereon to a time more than 12 months after the time as of which the amount thereof is being computed), (ii) all goodwill, trade names, trademarks, patents, unamortized debt discount and expense and other like intangibles, and (iii) appropriate adjustments on account of minority interests of other Persons holding stock of our Subsidiaries, all as set forth on the most recently available balance sheet as of the last day of a fiscal quarter of us and our consolidated subsidiaries computed in accordance with U.S. generally accepted accounting principles.

Notwithstanding any terms of this definition to the contrary Debt shall not include any trade accounts payable or accrued liabilities arising in the ordinary course of business.

Incur means, with respect to any Debt or other obligation of any Person, to create, issue, incur (by conversion, exchange or otherwise) assume, secure, guarantee or otherwise become liable in respect of such Debt or other obligation or the recording, as required pursuant to U.S. generally accepted accounting principles, or otherwise, of any such Debt or other obligation on the balance sheet of such Person (and Incurrence and Incurred shall have meanings correlative to the foregoing); *provided, however*, that a change in U.S. generally accepted account principles that results in an obligation of such Person that exists at such time becoming Debt shall not be deemed an Incurrence of such Debt.

Person means any individual, corporation, partnership, association, trust, or any other entity or organization, including a government or any agency or political subdivision or instrumentality thereof.

Principal Property means any manufacturing plant or warehouse owned or leased by the Company or any Subsidiary, whether owned or leased as of the date of the Indenture or thereafter, the gross book value of which exceeds 3% of Consolidated Net Tangible Assets, other than manufacturing plants and warehouses which the Board of Directors of the Company by resolution declares are not material to the total business conducted by the Company and the Subsidiaries as an entirety and which, when taken together with all other manufacturing plants and warehouses as to which such declaration has been so made, is so declared by the Board of Directors of the Company to be not of material importance to the total business conducted by the Company and the Subsidiaries as an entirety.

Sale/Leaseback Transaction means any arrangement with any Person providing for the leasing by us or any Subsidiary of ours, for a period of more than 36 months, of any Principal Property, which property has been or is to be sold or transferred by us or such Subsidiary to such Person in contemplation of such leasing.

Significant Subsidiary of a Person means a Subsidiary of such Person that constitutes a significant subsidiary as defined in Rule 1-02 of Regulation S-X of the Securities Exchange Act of 1934 (the Exchange Act).

Table of Contents

Subsidiary of a Person means (i) any corporation, association, or other business entity (other than a partnership) more than 50% of the outstanding securities having ordinary voting power of which is owned, directly or indirectly, by such Person or by one or more of its Subsidiaries, or a combination thereof and (ii) any partnership, joint venture, limited liability company or similar entity more than 50% of the ownership interests having ordinary voting power of which shall at the time be so owned. For the purposes of this definition, securities having ordinary voting power means securities or other equity interests that ordinarily have voting power for the election of directors, or persons having management power with respect to the Person, whether at all times or only so long as no senior class of securities has such voting power by reason of any contingency.

Covenants**Limitation on Liens**

The Indenture provides that we will not, and will not permit any Subsidiary of ours to, Incur any Debt if such Debt is secured by a mortgage, pledge, security interest or lien (a lien or liens) upon any Principal Property, without in any such case effectively providing that the Debt Securities shall be secured equally and ratably with (or prior to) such Debt; *provided, however*, that the foregoing restrictions shall not apply to:

- (a) liens existing on the date the Debt Securities are originally issued or liens provided for under the terms of agreements existing on such date;
- (b) liens on any property acquired or constructed by us or any Subsidiary of ours after the date of the Indenture that are created or assumed contemporaneously with or within 270 days after such acquisition or construction to secure or provide for the payment of all or part of the purchase price or cost of construction thereof (or to secure any Debt Incurred by us or a Subsidiary of ours for the purpose of financing all or a part of the purchase price or cost of construction thereof or of improvements thereon);
- (c) existing liens on property acquired (including liens on any property acquired from a Person that is consolidated or amalgamated with or merged with or into us or a Subsidiary of ours) or liens outstanding at the time any Person becomes a Subsidiary of ours that are not incurred in connection with such entity becoming a Subsidiary of ours;
- (d) liens in favor of us or any Subsidiary of ours;
- (e) liens on any property in favor of domestic or foreign governmental bodies to secure partial, progress, advance or other payments pursuant to any contract or statute;
- (f) liens on any property to secure asset retirement, reclamation or similar obligations, or to secure penalties, assessments, clean-up costs or other governmental charges relating to environmental protection matters;
- (g) any extension, renewal or replacement (or successive extensions, renewals or replacements), in whole or in part, of any liens referred to in any foregoing clause (a), (b), (c), (d), (e) or (f) to the extent that the principal amount of Debt secured thereby does not exceed the principal amount of Debt so secured at the time of such extension, renewal or replacement, together with the reasonable costs (including any premiums or make-whole payments) related to such extension, renewal or replacement, and to the extent that such extension, renewal or replacement shall be limited to all or a part of the property that secured the lien so extended, renewed or replaced (plus improvements on such property); and
- (h) any lien which would otherwise be subject to the foregoing restrictions, to the extent that the aggregate principal amount of the Debt so secured, together with the aggregate principal amount of other Debt secured by liens then outstanding (excluding Debt secured by

liens permitted under the foregoing exceptions and any obligation existing on the date the Debt Securities are originally issued that becomes Debt after such date due solely to a change in U.S. generally accepted accounting principles) and the Attributable Debt in respect of all Sale/Leaseback Transactions entered into after

the date of the Indenture (not including Attributable Debt in respect of any such Sale/Leaseback Transactions the proceeds of which are applied to the prepayment of outstanding Debt Securities or other Debt of ours as set forth below under clause (c) of *Limitation on Sale/Leaseback Transactions*) would not then exceed 15% of Consolidated Net Tangible Assets.

Limitation on Sale/Leaseback Transactions

The Indenture provides that we will not, and will not permit any Subsidiary of ours to, enter into any Sale/Leaseback Transaction with any Person (other than us or a Subsidiary of ours) unless:

- (a) at the time of entering into such Sale/Leaseback Transaction, we or such Subsidiary would be entitled to Incur Debt, in a principal amount equal to the Attributable Debt with respect to such Sale/Leaseback Transaction, secured by a lien on such Principal Property subject to such Sale/Leaseback Transaction, pursuant to the provision of the covenant described under *Limitation on Liens* without equally and ratably securing the Debt Securities pursuant to such provisions;
- (b) after the date on which Debt Securities are first issued and within a period commencing six months prior to the consummation of such Sale/Leaseback Transaction and ending six months after the consummation thereof, we or any Subsidiary shall have expended for property used or to be used in the ordinary course of business of us or any Subsidiary (including amounts expended for additions, expansions, alterations, repairs and improvements thereto) an amount equal to all or a portion of the net proceeds of such Sale/Leaseback Transaction, and we shall have elected to designate such amount as a credit against such Sale/Leaseback Transaction (with any portion of such amount not being so designated to be applied as set forth in clause (c) below except to the extent permitted under clause (a) above); or
- (c) during the 12-month period after the effective date of such Sale/Leaseback Transaction, we shall have applied to the voluntary defeasance or retirement of Debt Securities or any Debt of ours (other than Debt Securities or Debt that is held by us or any Subsidiary of ours or Debt of ours that is subordinate in right of payment to the Debt Securities) an amount equal to the net proceeds of the sale or transfer of the property leased in such Sale/Leaseback Transaction, which amount shall not be less than the fair value of such property at the time of entering into such Sale/Leaseback Transaction (adjusted to reflect any amount expended by us as set forth in clause (b) above), less an amount equal to the principal amount of such Debt Securities and Debt voluntarily defeased or retired by us within such 12-month period and not designated as a credit against any other Sale/Leaseback Transaction entered into by us or any Subsidiary of ours during such period.

Consolidation, Merger and Sale of Assets

The Indenture provides that we may not amalgamate or consolidate with or merge into any other corporation, or convey, transfer or lease, or permit one or more of our Significant Subsidiaries to convey, transfer or lease, all or substantially all of our property and assets, on a consolidated basis, to any Person (other than us or any of our Subsidiaries or a Person that will be a Subsidiary after the transaction) unless (i) either we are the continuing corporation or such corporation or Person assumes by supplemental indenture all of our obligations under the Indenture (including the Debt Securities), (ii) immediately after the transaction no default or event of default shall exist, (iii) the surviving corporation or such Person is a corporation, partnership or trust organized and validly existing under the laws of the United States of America, any state thereof or the District of Columbia and (iv) we or such Person shall have delivered to the Trustee an officers' certificate and an opinion of counsel, each stating that such amalgamation, consolidation, merger, conveyance, transfer or lease and such supplemental indenture comply with the relevant provisions of the Indenture and that all conditions precedent in the Indenture relating to such transaction have been complied with. In addition, no such amalgamation, consolidation, merger or transfer may be made if, as a result thereof, any property or assets of ours or any Subsidiary would become subject to any lien or other encumbrance securing Debt, unless such lien or other encumbrance could be created

pursuant to the provisions described under **Limitation on Liens** above without equally and ratably securing the Debt Securities or unless the Debt Securities are secured equally and ratably with, or prior to, the Debt secured by such lien or other encumbrance.

Discharge, Defeasance and Covenant Defeasance

Unless otherwise indicated in the applicable prospectus supplement, the Indenture provides that, at our option, we will be discharged from any and all obligations in respect of any of the Debt Securities outstanding thereunder (except with respect to the authentication, transfer, exchange or replacement of such Debt Securities or the maintenance of a place of payment and certain other obligations set forth in the Indenture), upon irrevocable deposit with the Trustee, in trust, of money and/or government obligations which will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent certified public accountants to pay the principal of and each installment of interest and any mandatory sinking fund payments or analogous payments on the outstanding Debt Securities of such series (**Defeasance**). Such trust may only be established if among other things:

- (a) we have delivered to the Trustee an opinion of counsel in the United States stating that (x) we have received from, or there has been published by, the Internal Revenue Service a ruling, or (y) since the date of execution of the Indenture, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that the holders of outstanding Debt Securities will not recognize income, gain or loss for United States federal income tax purposes as a result of such Defeasance and will be subject to United State federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Defeasance had not occurred;
- (b) no event of default or event that with the passing of time or the giving of notice, or both, shall constitute an event of default shall have occurred or be continuing;
- (c) we have delivered to the Trustee an opinion of counsel to the effect that such deposit shall not cause the Trustee or the trust created to be subject to the United States Investment Company Act of 1940, as amended; and
- (d) other customary conditions precedent are satisfied.

We may exercise our Defeasance option notwithstanding a prior exercise of the Covenant Defeasance option described in the following paragraph if we meet the conditions described in the preceding sentence at the time we exercise the Defeasance option.

Unless otherwise indicated in the applicable prospectus supplement, the Indenture provides that, at our option, unless and until we have exercised our Defeasance option described in the preceding paragraph, we may be released with respect to the Debt Securities, from the **Limitation on Liens** covenant, the **Limitation on Sale/Leaseback Transactions** covenant, the **Consolidation, Merger and Sale of Assets** covenant and certain other covenants, and such omission shall not be deemed to be an event of default under the Indenture and the Debt Securities outstanding thereunder upon irrevocable deposit with the Trustee, in trust, of money and/or government obligations which will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent certified public accountants to pay the principal of and each installment of interest and any mandatory sinking fund payments or analogous payments on the outstanding Debt Securities of such series (**Covenant Defeasance**). If we exercise the Covenant Defeasance option, the obligations under the Indenture other than with respect to such covenants and the events of default other than with respect to such covenants shall remain in full force and effect. Such trust may only be established if, among other things:

- (a) we have delivered to the Trustee an opinion of counsel in the United States to the effect that the holders of outstanding Debt Securities will not recognize income, gain or loss of United States federal income tax purposes as a result of such Covenant Defeasance and will be subject to United States federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

Table of Contents

- (b) no event of default or event that, with the passing of time or the giving of notice, or both, shall constitute an event of default shall have occurred or be continuing;
- (c) we have delivered to the Trustee an opinion of counsel to the effect that such deposit shall not cause the Trustee or the trust so created to be subject to the United States Investment Company Act of 1940, as amended; and
- (d) other customary conditions precedent are satisfied.

Events of Default

The Indenture provides that the following shall constitute events of default with respect to Debt Securities of any series:

- (a) default in the payment of any interest on any Indenture Security of that series when it becomes due and payable, and continuance of such default for a period of 30 days;
- (b) default in the payment of the principal of (or any premium on) any Indenture Security of that series at its maturity;
- (c) default in the deposit of any sinking fund payment when the same becomes due by the terms of the Debt Securities of that series;
- (d) breach or default in the performance of any covenant or agreement of ours in the Indenture, which continues for 60 days after written notice to us by the Trustee or to us and the Trustee by the holders of at least 25% in principal amount of all outstanding Debt Securities of such series affected thereby;
- (e) acceleration of or any failure to pay at final maturity any Debt or ours or any Subsidiary or ours in an aggregate amount in excess of \$100 million;
- (f) certain events in bankruptcy, insolvency or reorganization of us or any Subsidiary of ours which constitutes a Significant Subsidiary; and
- (g) any other events of default provided with respect to the Debt Securities of that series.

If an event of default (other than an event of default described in clause (e)), occurs and is continuing with respect to Debt Securities of any series, then in every such case the Trustee or the holders of not less than 25% in principal amount of outstanding Debt Securities of that series may declare the principal amount (or, if the Debt Securities of that series are original issue discount Debt Securities, such portion of the principal amount as may be specified in the terms of that series) of all the outstanding Debt Securities of that series and all interest thereon to be due and payable immediately, by notice in writing to us (and to the Trustee if given by holders), and upon any such declaration the same shall become immediately due and payable.

If an event of default described in clause (e) above occurs and is continuing with respect to Debt Securities of any series, the principal of and interest on all the Debt Securities of such series will *ipso facto* become and be immediately due and payable without any declaration or other act on the part of the Trustee or any holders of the notes.

However, at any time after a declaration of acceleration with respect to the outstanding Debt Securities of one or more series has been made and before a judgment or decree for payment of the money due has been obtained, the holders of a majority in principal amount of the outstanding Debt Securities of such series, by written notice to us and the Trustee, may, under certain circumstances, rescind and annul such acceleration.

Edgar Filing: MOSAIC CO - Form 424B2

The Indenture provides that, subject to the duty of the Trustee during default to act with the required standard of care, the Trustee shall be under no obligation to exercise any of its rights and powers under the Indenture at the request or direction of any of the holders, unless such holders shall have offered to the Trustee reasonable indemnity. Subject to such provisions for indemnification of the Trustee and certain other limitations

Table of Contents

set forth in the Indenture, the holders of a majority in principal amount of the outstanding Debt Securities of all series affected by an event of default shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee, with respect to the Debt Securities of all series affected by such event of default.

No holder of an Indenture Security of any series will have any right to institute any proceedings with respect to the Indenture, or for the appointment of a receiver or a trustee, or for any other remedy thereunder, unless (a) such holder has previously given to the Trustee written notice of a continuing event of default with respect to the Debt Securities of that series, (b) the holders of at least 25% in principal amount of the outstanding Debt Securities of all series affected by such event of default (as one class) have made written request, and such holder or holders have offered reasonable indemnity to the Trustee to institute such proceedings as trustee and (c) the Trustee has failed to institute such proceeding, and has not received from the holders of a majority in aggregate principal amount of the outstanding Debt Securities of all series affected by such event of default (as one class) a direction inconsistent with such request, within 60 days after such notice, request and offer. However, such limitations do not apply to a suit instituted by the holder of an Indenture Security for the enforcement of payment of the principal of or any premium or interest on such Indenture Security on or after the applicable due date specified in such Indenture Security.

We will be required to furnish to the Trustee annually a statement by certain of our officers as to whether or not we, to their knowledge, are in default in the performance or observance of any of the terms, provisions and conditions of the Indenture and, if so, specifying all such known defaults.

Modification of the Indenture and Waiver

Modification and amendment of the Indenture may be made by us and the Trustee with the consent of the holders of not less than a majority in principal amount of the outstanding Debt Securities of all series affected by such modification or amendment (as one class); *provided* that no such modification or amendment may, without the consent of the holder of each outstanding Indenture Security of such affected series: (i) change the stated maturity of the principal of (and premium, if any), or any installment of interest on, such outstanding Indenture Security; (ii) reduce the principal of (and premium, if any), or any installment of interest on, such outstanding Indenture Security; (iii) reduce the amount of the principal of such outstanding Indenture Security payable upon the acceleration of the maturity thereof; (iv) change the place or currency of payment of principal of, or the premium, if any, or interest on, such outstanding Indenture Security; (v) impair the right to institute suit for the enforcement of any such payment on or after the maturity thereof; (vi) reduce the percentage of outstanding Debt Securities of such series necessary to modify or amend the Indenture or to consent to any waiver thereunder or reduce the requirements for voting or quorum described below; or (vii) modify the foregoing requirements or reduce the percentage of outstanding Debt Securities necessary to waive any past default or covenants except as otherwise specified.

Notwithstanding the preceding, we and the Trustee are permitted to make modifications and amendments to the Indenture without the consent of any holder of Debt Securities of any series for any of the following purposes: (i) to evidence the succession of another person to us as obligor under the Indenture; (ii) to add covenants for any series of Debt Securities or to surrender any of our rights or powers in the Indenture; (iii) to add events of default for any series of Debt Securities; (iv) to add or change any provisions of the Indenture to permit or facilitate the issuance of Debt Securities in bearer form, or to permit or facilitate the issuance of Debt Securities in uncertificated form; (v) to change or eliminate any provisions of the Indenture, provided that any such change or elimination will become effective only when there are no Debt Securities outstanding of any series created prior thereto that are entitled to the benefit of such provision; (vi) to add guarantees to the Debt Securities of any series and guarantors under the Indenture or to secure the Debt Securities of any series; (vii) to establish the form or terms of Debt Securities of any series; (viii) to provide for the acceptance of appointment by a successor trustee or facilitate the administration of the trusts under the Indenture by more than one trustee; (ix) to cure any ambiguity, defect or inconsistency in the Indenture, *provided* that such action will not adversely

affect the interests of holders of Debt Securities of any series in any material respect; or (x) to supplement any of the provisions of the Indenture to the extent necessary to permit or facilitate defeasance and discharge of any series of Debt Securities, *provided* that such action will not adversely affect the interests of the holders of the Debt Securities of such series in any material respect.

The holders of a majority in principal amount of the outstanding Debt Securities of any series, on behalf of all holders of outstanding Debt Securities of such series, may waive compliance by us with certain restrictive provisions of the Indenture. Subject to certain rights of the Trustee, as provided in the Indenture, the holders of a majority in principal amount of outstanding Debt Securities of all series with respect to which an event of default shall have occurred and be continuing, on behalf of the holders of all outstanding Debt Securities such series, may waive such event of default, except a default in the payment of principal, premium or interest.
