## **Section 1 Conflict Minerals Disclosure**

### **Item 1.01 Conflict Minerals Disclosure**

LSB Industries, Inc. (the Company) has conducted a good faith investigation of its current product lines and determined that certain components or parts of certain products within its Climate Control Business ( Covered Products ) contain tin, tungsten, tantalum and/or gold (3TG) (defined as conflict minerals by the U.S. Securities and Exchange Commission). The Company conducted reasonable due diligence as required by Rule 13p-1 (the Rule ) of the Securities Exchange Act of 1934, as amended, including surveying its direct suppliers to try to determine the sources of these minerals, which the Company's business units purchase through a complex supply chain. The Company was unable to determine whether the conflict minerals used in one or more of its products where such conflict minerals are necessary to such product(s) functionality or production originated from the Democratic Republic of the Congo or an adjoining country. As a result, the Company determined that the Covered Products should be described as DRC conflict undeterminable, as defined in the Rule.

A copy of our Conflict Minerals Report for the reporting period from January 1 to December 31, 2014, is filed as Exhibit 1.01 hereto and is publicly available at: <http://investors.lsbindustries.com>.
