Section 1 Registrant's Business and Operations

Item 1.01 Entry into a Material Definitive Agreement.

On July 18, 2015, Talen Energy Supply, LLC ("Energy Supply"), a wholly owned, indirect subsidiary of Talen Energy Corporation ("Talen Energy"), executed a definitive agreement (the "Purchase Agreement") to acquire from the Sellers identified therein (the "Sellers") all of the equity interests of MACH Gen, LLC ("MACH Gen"), which indirectly owns the following electric generating facilities and certain other assets related thereto: (i) the 1,092 MW combined-cycle gas fired Harquahala generating facility, located in Tonopah, Arizona; (ii) the 1,080 MW gas/fuel oil-fired capable Athens generating facility, located in Greene County, New York; and (iii) the 360 MW gas/fuel oil-fired capable Millennium generating facility, located in Worcester County, Massachusetts. In order to facilitate the consummation of the acquisition, Silver Oak Capital, LLC ("Seller Representative") has been irrevocably appointed as the agent and attorney-in-fact of each Seller.

The Purchase Agreement provides for the sale to Energy Supply of 100% of the issued and outstanding membership interests of MACH Gen. The consideration payable by Energy Supply in respect of the acquisition is \$1.175 billion in cash, plus the net working capital of MACH Gen and its subsidiaries on the closing date and minus the amount (if any) of indebtedness outstanding under MACH Gen's First Lien Credit and Guaranty Agreement (the "Credit Agreement") on the closing date and certain transaction expenses. The cash purchase price is subject to adjustment based on the amounts by which the actual closing date net working capital, credit agreement indebtedness (if any) and transaction expenses vary from Seller Representative's estimates. At the closing, \$75 million of the purchase price will be paid into an escrow account for the purposes of paying any post-closing adjustments to the purchase price required to be paid by Sellers and satisfying Sellers' post-closing indemnification obligations under the Purchase Agreement. The escrow will be reduced to \$50 million after approximately three months.

As of December 31, 2014, the MACH Gen credit facility was comprised of (i) a secured term loan with approximately \$478 million outstanding and (ii) a \$160 million secured revolving credit facility, of which approximately \$84 million was outstanding. At or prior to the closing of the acquisition, the Sellers will either (i) obtain certain waivers and consents under the Credit Agreement to permit the consummation of the transaction or (ii) fully repay all outstanding indebtedness under and terminate the Credit Agreement.

The Sellers, MACH Gen and Energy Supply have each made customary representations, warranties and covenants in the Purchase Agreement, which includes customary indemnification provisions. The transaction is subject to customary closing conditions, including (i) the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 and (ii) receipt of required regulatory approvals, including approval by the Federal Energy Regulatory Commission under section 203 of the Federal Power Act and approval by (or a satisfactory declaratory order from) the New York State Public Service Commission.

The Purchase Agreement also contains certain customary termination rights for both Energy Supply and the Sellers, including a termination right for each if the closing does not occur by January 18, 2016 (provided that each party may postpone such date to April 18, 2016 in the event that the only closing condition that remains to be satisfied is the receipt of regulatory approvals). In addition, the Sellers have the right to terminate the Purchase Agreement if Energy Supply has failed to consummate the transaction when it was otherwise obligated to do so and upon such termination, subject to certain conditions, Energy Supply may be required to pay to the Sellers a termination fee in the amount of \$75 million.

In connection with entering into the Purchase Agreement, Energy Supply obtained committed debt financing from Citigroup Global Markets Inc. sufficient to fund the consideration for the acquisition.

The foregoing summary of the Purchase Agreement and the transactions contemplated thereby does not purport to be complete and is subject to and qualified in its entirety by reference to the full text of the Purchase Agreement, which is filed herewith as Exhibit 2.1.
