Item 1.01 Entry into a Material Definitive Agreement.

On August 4, 2015 (the "Effective Date"), AVEO Pharmaceuticals, Inc., a Delaware corporation ("AVEO"), entered into a License Agreement (the "License Agreement") with JSC Pharmstandard- Ufimskiy Vitamin Plant, a company registered under the laws of the Russian Federation ("Pharmstandard"). Pharmstandard is a subsidiary of Pharmstandard OJSC. Under the License Agreement, AVEO has granted to Pharmstandard the exclusive, sublicensable right to develop, manufacture and commercialize tivozanib in the territories of Russia, Ukraine and the Commonwealth of Independent States (the "Licensed Territories") for all diseases and conditions in humans, excluding non-oncologic ocular conditions.

Under the License Agreement, Pharmstandard is required to make an upfront payment to AVEO of \$1.5 million, of which \$1.0 million is payable within ten (10) business days of the Effective Date of the License Agreement (or, if later, upon AVEO's delivery to Pharmstandard of a Certification of U.S. Tax Residency), and \$500,000 is payable within fifteen (15) business days of the date the License Agreement is registered with the Federal Service for Intellectual Property of the Russian Federation. AVEO is also eligible to receive \$7.5 million in connection with the first marketing authorization of tivozanib in Russia. If Russian regulatory authorities require additional studies to be conducted by Pharmstandard prior to approval, this amount would be reduced to \$3.0 million. In addition, AVEO is eligible to receive \$3.0 million for each additional approved indication of tivozanib, if Pharmstandard elects to seek any such approvals, as well as a high single-digit royalty on net sales in the Licensed Territories.

Pharmstandard is obligated to use commercially reasonable efforts to develop and commercialize tivozanib throughout the Licensed Territories, and Pharmstandard has responsibility for all activities and costs associated with the further development, manufacture, regulatory filings and commercialization of tivozanib in the Licensed Territories. Pharmstandard is obligated to file an application for marketing authorization in Russia for tivozanib for the treatment of renal cell carcinoma no later than the first anniversary of the Effective Date, unless Russian regulatory authorities require Pharmstandard to conduct an additional clinical trial prior to approval and Pharmstandard is actively performing such trial.

The term of the License Agreement commenced on the Effective Date and will continue on a product-by-product and country-by-country basis until the later to occur of (a) the expiration of the last valid patent claim for such product in such country, (b) the expiration of the last marketing authorization for such product in such country or (c) the 10th anniversary of the first commercial sale of such product in such country. Either party may terminate the License Agreement in the event of a material breach by the other party that remains uncured, following receipt of written notice of such breach, for a period of (a) thirty (30) days, in the case of breach for nonpayment of any amount due under the License Agreement, and (b) ninety (90) days, in the case of any other material breach. After the first anniversary of the Effective Date, Pharmstandard may terminate the License Agreement at any time upon ninety (90) days' prior written notice. In addition, AVEO may terminate the License Agreement upon thirty (30) days' prior written notice if Pharmstandard challenges certain patents controlled by AVEO or AVEO's licensor, Kyowa Hakko Kirin ("KHK"), related to tivozanib.

A percentage of all upfront, milestone and royalty payments received by AVEO are due to KHK as a sublicensing fee under the License Agreement between AVEO and KHK (formerly Kirin Brewery Co. Ltd.) dated as of December 21, 2006.

The foregoing summary of the License Agreement does not purport to be complete and is qualified in its entirety by the full text of the License Agreement, which AVEO intends to file as an exhibit to its future filings with the Securities and Exchange Commission.
