Disclaimer Regarding Forward-Looking Statements

This quarterly report includes forward-looking statements (that include those within the meaning of Section 27A of the U.S. Securities Act of 1933, as amended, and Section 21E of the U.S. Securities Exchange Act of 1934), as amended about Panasonic and its Group companies (the Panasonic Group). To the extent that statements in this quarterly report do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Panasonic Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Panasonic Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Panasonic undertakes no obligation to publicly update any forward-looking statements after the date of this quarterly report. Investors are advised to consult any further disclosures by Panasonic in its subsequent filings under the Financial Instrument and Exchange Act of Japan (the FIEA) and other publicly disclosed documents.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the Americas, Europe, Japan, China and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; the possibility that excessive currency rate fluctuations of the U.S. dollar, the euro, the Chinese yuan and other currencies against the yen may adversely affect costs and prices of Panasonic's products and services and certain other transactions that are denominated in these foreign currencies; the possibility of the Panasonic Group incurring additional costs of raising funds, because of changes in the fund raising environment; the possibility of the Panasonic Group not being able to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the possibility of not achieving expected results or incurring unexpected losses in connection with the alliances or mergers and acquisitions; the possibility of not being able to achieve its business objectives through joint ventures and other collaborative agreements with other companies, including due to the pressure of price reduction exceeding that which can be achieved by its effort and decrease in demand for products from business partners which Panasonic highly depends on in BtoB business areas; the possibility of the Panasonic Group not being able to maintain competitive strength in many product and geographical areas; the possibility of incurring expenses resulting from any defects in products or services of the Panasonic Group; the possibility that the Panasonic Group may face intellectual property infringement claims by third parties; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; fluctuations in market prices of securities and other assets in which the Panasonic Group has holdings or changes in valuation of long-lived assets, including property, plant and equipment and goodwill, deferred tax assets and uncertain tax positions; future changes or revisions to accounting policies or accounting rules; the possibility of incurring expenses resulting from a leakage of customers' or confidential information from Panasonic's systems due to unauthorized access or a detection of vulnerability of network-connected products of the Panasonic Group; as well as natural disasters including earthquakes, prevalence of infectious diseases

throughout the world, disruption of supply chain and other events that may negatively impact business activities of the Panasonic Group. The factors listed above are not all-inclusive and further information is contained in the most recent English translated version of Panasonic's securities reports under the FIEA and any other documents which are disclosed on its website.

(2) Principal Businesses

The Panasonic Group is comprised primarily of the parent Panasonic Corporation and 464 consolidated subsidiaries in and outside of Japan, operating in close cooperation with each other. As a comprehensive electronics manufacturer, Panasonic is engaged in production, sales and service activities in a broad array of business areas.

Panasonic supplies spectrum of electric/electronic equipment and related products, which is categorized into the following five segments: Appliances, Eco Solutions, AVC Networks, Automotive & Industrial Systems, and Other.

During the three months ended June 30, 2015, there were changes in principal businesses and major affiliated companies as follows.

Consolidated subsidiary:

As of April 1, 2015, SANYO North America Corporation (Automotive & Industrial Systems and Other) was merged to Panasonic Corporation of North America.

Associated company under the equity method:

As of June 30, 2015, Panasonic acquired 49% of shares in Ficosa International S.A. (Ficosa) which is a mirror manufacture for automotive-use in Spain classifying it as an associated company under the equity method.

The Company's consolidated financial statements have been prepared in conformity with U.S. GAAP, and the scope of affiliates are disclosed based on the definition of those accounting principles. The same applies to II The Business Overview.

II The Business Overview

(1) Operating Results

During the fiscal 2016 first quarter under review, the economic expansion was slower in China and sluggish in some ASEAN countries. In Japan, personal spending was moderately weak, despite the improvement of the employment environment and signs of recovery in capital investment. In Europe and the U.S., economic recovery was slow but continuing.

Under such business circumstances, Panasonic positions its fiscal 2016 as a year to make a major change towards generating profit from sales growth. Recognizing its recent business conditions, Panasonic has carefully determined the business fields for its sustainable growth and has been promoting various initiatives.

As one of the initiatives during the fiscal 2016 first quarter, for housing business, the Company decided on capital investment to boost capacity of solar cells at its production sites in Japan to meet growing demand in the global solar market. For automotive business, Ficosa in Spain and the Company announced the agreement on their capital and business alliance in September 2014 to launch electronic mirror systems business in a timely manner. After completing approval procedures from related authorities, Panasonic has a 49% stake in Ficosa in June 2015. Accordingly the Company started business alliance with Ficosa and is involved in its management.

Consolidated group sales for the fiscal 2016 first quarter were 1,857.8 billion yen in line with the same period of fiscal 2015 (a year ago). Domestic sales decreased year on year due mainly to slower recovery in housing market and the effect of demand surge before the tax hike remaining for some products in the same period of last year. Overseas sales increased year on year due mainly to a positive effect from yen depreciation and sales increases in BtoB solutions, automotive electronic and LCD panel businesses, although sales in TVs decreased significantly due mainly to downsizing marketing activities to pursue better profitability.

Operating profit* decreased by 7% to 76.6 billion yen from a year ago due mainly to the negative impact on profitability such as sales decrease excluding the effect of exchange rate, despite streamlining of material-related process and the restructuring.

Edgar Filing: PANASONIC Corp - Form 6-K

Income before income taxes increased by 32% to 72.7 billion yen comparing with the same period of last year. This was due mainly to the expenses for preventing further accidents with the residential water heating systems incurred a year ago and the improvement in the financial income (loss) in fiscal 2016.

Net income attributable to Panasonic Corporation significantly increased by 57% to 59.5 billion yen from a year ago, due to the benefit from the revaluation of deferred tax assets as a result of the board resolution to apply for consolidated tax in Japan.

- * In order to be consistent with generally accepted financial reporting practices in Japan, operating profit, a non-GAAP measure, is presented as net sales less cost of sales and selling, general and administrative expenses. The Company believes that this is useful to investors in comparing the Company's financial results with those of other Japanese companies.

(2) Operating Results by Segment

The Company's first quarter consolidated sales and profits by segment with previous year comparisons are summarized as follows:

Certain businesses were transferred among segments on April 1, 2015. Accordingly, the figures for segment information in fiscal 2015 have been reclassified to conform to the presentation for fiscal 2016.

Appliances

Sales decreased by 3% to 599.0 billion yen from a year ago. This was due mainly to sales decreases in TV business as a result of downsizing marketing activities. However, sales in laundry systems and vacuum cleaner, and cold chain businesses were favorable mainly in Japan.

Segment profit decreased by 23% to 23.8 billion yen from a year ago due mainly to Japanese yen depreciation and Brazilian real depreciation. Another impact from sales decreases also dragged down profitability.

Eco Solutions

Sales decreased by 4% to 370.2 billion yen compared with the previous year. This was due mainly to the backlog orders associated with undelivered products due to the winter storms and the demand surge prior to the consumption tax hike in Japan occurred a year ago. Flagging sales in housing system and energy system businesses because of slower recovery in Japanese housing market and weakening solar panel market also resulted in the overall sales decrease.

Segment profit significantly decreased by 43% to 9.2 billion yen from a year ago due mainly to sales decrease, product price declines and negative impact of exchange rate fluctuation, despite the positive impact of rationalization in materials and others.

AVC Networks

Sales increased by 5% to 271.2 billion yen from a year ago. This result was due mainly to favorable sales of the vertical solution business in North America, and visual and imaging business including security system business in Japan. In addition, solutions business sales expanded especially in Japan.

Segment profit was 5.1 billion yen, turned to black, compared with a loss of 3.1 billion yen a year ago, due to profit improvement by sales increase mainly in vertical solution business.

Automotive & Industrial Systems

Sales increased by 2% to 696.6 billion yen from a year ago. Favorable sales in automotive electronics business such as cameras for automotive-use, LCD panels business and FA business, as well as the positive impact of exchange rate fluctuation, contributed to the overall increase.

Segment profit increased by 35% to 28.5 billion yen from a year ago due mainly to rationalization in materials, fixed-cost reductions and the positive impact of exchange rate fluctuation, although R&D costs mainly in automotive business increased.

Other

Sales decreased by 14% to 123.1 billion yen from a year ago due mainly to the business transfers.

Segment loss was 5.2 billion yen, compared with a loss of 2.0 billion yen a year ago, worsened from a year ago.

(3) Assets, Liabilities and Equity

The Company's consolidated total assets as of June 30, 2015 increased by 80.6 billion yen to 6,037.6 billion yen from March 31, 2015. This was due mainly to yen depreciation and the seasonal increase in its inventory, despite decreases in cash and cash equivalent and account receivables.

The Company's consolidated total liabilities as of June 30, 2015 decreased by 33.9 billion yen to 3,930.5 billion yen from March 31, 2015. This was due mainly to redemption of unsecured straight bonds.

Panasonic Corporation shareholders' equity increased by 117.2 billion yen, compared with March 31, 2015, to 1,940.5 billion yen. This was due mainly to recording Net income attributable to Panasonic Corporation and improvement in accumulated other comprehensive income (loss) along with yen depreciation. Adding Noncontrolling interests to Panasonic Corporation shareholders' equity, total equity was 2,107.1 billion yen.

(4) Cash Flows

Cash flows from operating activities

Net cash provided by operating activities for the first quarter ended June 30, 2015 amounted to 86.7 billion yen, down 40.9 billion yen from a year ago. This was due mainly to worsening working capital including inventories.

Cash flows from investing activities

Net cash used in investing activities amounted to 72.8 billion yen, up 30.8 billion yen from a year ago. This was due mainly to purchase of associated companies' shares.

Accordingly, free cash flow (net cash provided by operating activities plus net cash provided by investing activities) decreased by 71.7 billion yen from a year ago to 13.9 billion yen.

Cash flows from financing activities

Net cash used in financing activities amounted to 69.1 billion yen, up 31.4 billion yen from a year ago. This was due mainly to redemption of unsecured straight bonds.

Taking into consideration exchange rate fluctuations, cash and cash equivalents totaled 1,247.5 billion yen as of June 30, 2015, down 32.9 billion yen compared with the end of the fiscal 2015.

PANASONIC CORPORATION
AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) Summary of Significant Accounting Policies

(a) **Basis of Presentation of Consolidated Financial Statements**

The Company and its domestic subsidiaries maintain their books of account in conformity with financial accounting standards of Japan, and its foreign subsidiaries in conformity with those of the countries of their domicile.

The consolidated financial statements presented herein have been prepared in a manner that reflects adjustments which are necessary to conform with U.S. generally accepted accounting principles (U.S. GAAP).

(b) **Principles of Consolidation**

The consolidated financial statements include the accounts of the Company and its majority-owned, controlled subsidiaries. The Company also consolidates entities in which controlling interest exists through variable interests in accordance with the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 810, Consolidation. All significant intercompany balances and transactions have been eliminated on consolidation.

The equity method is used to account for investments in associated companies in which the Company exerts significant influence, generally having a 20% to 50% voting interest, and corporate joint ventures. These investments are included in Investments and advances in the consolidated balance sheets.

The Company has 464 consolidated subsidiaries and 93 associated companies under equity method as of June 30, 2015.

The Company accounts for the defined benefit pension plans and the lump-sum payment plans in accordance with the provisions of ASC 715, Compensation-Retirement Benefits. In accordance with the provisions, funded status of defined benefit pension plans (that is the balance of plan assets less benefit obligations) is recognized on the consolidated balance sheets and pension liability adjustments, net of tax, are recorded in the Accumulated other comprehensive income (loss).

Actuarial net gains and losses in excess of the corridor (10% of benefit obligations or fair value of plan assets, whichever is greater) are amortized over the average remaining service period of employees, except for the plan described as follows.

The Company and certain domestic subsidiaries made a transition from the defined benefit pension plan to a defined contribution pension plan, effective after the date of transition with respect to employees' future service. Actuarial net gains and losses related to the defined benefit pension plan that are maintained for employees' past service in excess of the corridor are amortized over the average remaining life expectancy of plan participants.

(c) Description of Business

Panasonic Corporation (hereinafter, the Company, including consolidated subsidiaries, unless the context otherwise requires) is one of the world's leading producers of electronic and electric products. The Company currently offers a comprehensive range of products, systems and components for consumer, business and industrial use based on sophisticated electronics and precision technology, expanding to building materials and equipment, and housing business.

Sales by segment for the three months ended June 30, 2015 were as follows: Appliances 29%, Eco Solutions 18%, AVC Networks 13%, Automotive & Industrial Systems 34% and Other 6%. A sales breakdown by geographical market was as follows: Japan 44%, North and South America 17%, Europe 9%, and Asia and Others 30%.

The Company is not dependent on a single supplier and has no significant difficulty in obtaining raw materials from suppliers.

(d) Use of Estimates

The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates and assumptions are reflected in valuation and disclosure of revenue recognition, allowance for doubtful receivables, valuation of inventories, impairment of long-lived assets, impairment of goodwill, environmental liabilities, valuation of deferred tax assets, uncertain tax positions, employee retirement and severance benefit plans and assets acquired and liabilities assumed in business combinations.

Management evaluated the subsequent events through August 6, 2015, the issue date of the Company's consolidated financial statements.

(e) Reclassifications

Certain reclassifications have been made to the prior years consolidated financial statements in order to conform with the presentation used for fiscal 2016.

(10) Fair Value

ASC 820, Fair Value Measurements and Disclosures defines fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets.
- Level 2 Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Unobservable inputs for the asset or liability.

Assets and liabilities measured at fair value on a recurring basis

The following table presents assets and liabilities that are measured at fair value on a recurring basis at June 30 and March 31, 2015:

Assets and liabilities measured at fair value on a nonrecurring basis

For the three months ended June 30, 2015 and 2014, there were no circumstances that required any significant assets and liabilities that are not measured at fair value on an ongoing basis to be measured and recognized at fair value.

The fair value of financial instruments

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Available-for-sale securities

The carrying amount is equal to the fair value which is estimated based on quoted market prices or other observable inputs. The fair value is also described in Note 3.

Long-term debt, including current portion

The fair value of long-term debt is estimated based on quoted market prices or the present value of future cash flows using appropriate current discount rates. The Company classified long-term debt in Level 2. The carrying amount and fair value at June 30, 2015 are 921,003 million yen and 933,638 million yen, respectively. The carrying amount and fair value at March 31, 2015 are 962,029 million yen and 974,671 million yen, respectively.

Derivative financial instruments

The fair value of derivative financial instruments is estimated based on unadjusted market prices or quotes obtained from brokers, which are periodically validated by pricing models using observable inactive market inputs.

Advances

The fair value of advances is estimated based on the present value of future cash flows using appropriate current discount rates. The Company classified advances in Level 2. The following table excludes advances for which carrying amount approximates fair value.

Financial instruments other than those listed above (such as Cash and cash equivalents, Time deposits, Trade receivables, Short-term debt, Trade payables, Accrued expenses)

The carrying amount approximates fair value because of the short maturity of these instruments.

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgments and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

(11) Commitments and Contingent Liabilities

The Company provides guarantees to third parties mainly on bank loans provided to associated companies and customers. The guarantees are made to enhance their credit. For each guarantee provided, the Company is required to perform under the guarantee if the guaranteed party defaults on a payment. Also, the Company sold certain trade receivables to independent third parties, some of which are with recourse. If the collectibility of those receivables with recourse becomes doubtful, the Company is obligated to assume the liabilities. At June 30, 2015, the maximum amount of undiscounted payments the Company would have to make in the event of default was 23,177 million yen. The carrying amount of the liabilities recognized for the Company's obligations as a guarantor under those guarantees at June 30, 2015 was immaterial.

In connection with the sale and lease back of certain machinery and equipment, the Company guarantees a specific value of the leased assets. For each guarantee provided, the Company is required to perform under the guarantee if certain conditions are met during or at the end of the lease term. At June 30, 2015, the maximum amount of undiscounted payments the Company would have to make in the event that these conditions were met was 1,472 million yen. The carrying amount of the liabilities recognized for the Company's obligations as guarantors under those guarantees at June 30, 2015 was immaterial.

The Company and certain subsidiaries are under the term of leasehold interest contracts for land of domestic factories and have obligations for restoration upon their leaving. The asset retirement obligations cannot be reasonably estimated because the durations of use of the leased assets are not specified and there are no plans to undertake relocation in the future. Therefore, the Company did not recognize asset retirement obligations.

The Company and certain of its subsidiaries are subject to a number of legal proceedings including civil litigations related to trade, tax, products or intellectual properties, or governmental investigations. The Company has been dealing with the various litigations and investigations. Depending upon the outcome of these different proceedings, the Company and certain of its subsidiaries may be subject to an uncertain amount of fines, and accordingly the Company has accrued for certain probable and reasonable estimated amounts for the fines.

Since November 2007, the Company and MT Picture Display Co., Ltd. (MTPD), a subsidiary of the Company, have been subjected to investigations by government authorities, including the Japan Fair Trade Commission, the U.S. Department of Justice and the European Commission, in respect of alleged antitrust violations relating to cathode ray tubes (CRTs). For the year ended March 31, 2010, the Japan Fair Trade Commission (JFTC) issued a cease and desist order against MTPD and assessed a fine against its three subsidiaries in South East Asia, but each named company challenged the orders. In May 2015, JFTC made a decision to revoke a part of the orders and sustain the other, but MTPD and its subsidiaries appealed to the Tokyo High Court because they believe the decision is factually and legally

erroneous. For the year ended March 31, 2013, the Company and MTPD received notification of a European Commission Decision in violation of EU competition law and appealed to the European General Court against the decision because Panasonic believes this decision is factually and legally erroneous as it applies to Panasonic and MTPD. Since June 2012, the Company and Sanyo Electric Co., Ltd., a subsidiary of the Company, have been subjected to investigations by the European Commission, in respect of alleged antitrust violations relating to the rechargeable battery. Other than those above, there are a number of legal actions against the Company and certain subsidiaries. Management is of the opinion that damages, if any, resulting from these actions, will not have a material effect on the Company's consolidated financial statements.

The ability to predict the outcome of these actions and proceedings is difficult to assess given that certain of the investigations and legal proceedings are still at an early stage, present novel legal theories, involve a large number of parties or taking place in jurisdictions outside of Japan where the laws are complex or unclear. Accordingly, the Company is unable to estimate the losses or range of losses for the actions and proceedings where there is only a reasonable possibility that a loss exceeding amounts already recognized may have been incurred.
