2016 Bonus Program

On October 29, 2015 the Compensation Committee of The Greenbrier Companies, Inc. (the Company) adopted and approved the 2016 Executive Officer Bonus Program, pursuant to which the Company's executive officers, including its named executive officers (NEOs), may earn bonuses based on Company and/or business unit financial performance and personal goals during fiscal 2016. No bonuses will be paid unless the Company achieves at least the threshold level of performance against its corporate-level adjusted EBITDA goal.

For William A. Furman, President and Chief Executive Officer, and Mark J. Rittenbaum, Executive Vice President and Chief Financial Officer, 75% of the bonus opportunity is based on achievement of the Company's corporate-level adjusted EBITDA goal and 25% is based on achievement of corporate-level adjusted return on invested capital (ROIC) goal. For named executive officer Alejandro Centurion, President of Greenbrier Manufacturing Operations (GMO), 30% of the bonus opportunity is based on the corporate-level adjusted EBITDA goal, 45% is based on achievement of GMO's pre-tax income performance goal, and 25% is based on performance goals related to GMO inventory turns. For named executive officer William Glenn, Senior Vice President and Chief Commercial Officer, 40% of the bonus opportunity is based on the corporate-level adjusted EBITDA goal, 20% is based on European operations pre-tax earnings, 20% is based on Greenbrier's market share of new railcar orders, and 20% is based on ROIC for Greenbrier Leasing Company LLC (GLC). For named executive officer James T. Sharp, President of GLC, 30% of the bonus opportunity is based on the corporate-level adjusted EBITDA goal, 45% is based on achievement of GLC's EBIT performance goal, and 25% is based on GLC's ROIC.

Corporate adjusted EBITDA is defined as EBITDA (net earnings before interest, taxes, depreciation and amortization) before bonus, as reported in quarterly financial disclosures, adjusted for special and non-recurring items listed in the Company's Umbrella Performance Based Plan for Executive Officers in the discretion of the Compensation Committee. Corporate adjusted ROIC is defined as net operating profit after cash paid during the period for income taxes, divided by Average Invested Capital. Average Invested Capital is calculated as the average balance of revolving notes plus notes payable plus total equity less cash in excess of \$40 million.

Potential bonus payments are established for each executive officer at different percentages of base salary, depending on the achievement of threshold, target or stretch performance against the financial performance goals described above. Bonus amounts will be interpolated for performance between the threshold, target and stretch levels. The target, threshold and stretch bonus amounts for each of the Company's named executive officers participating in the 2016 Executive Officer Bonus Program, as a percentage of base salary, are as follows:

Named Executive Officer	Threshold	Target	Stretch
William A. Furman	69%	115%	230%
Mark J. Rittenbaum	48%	80%	160%

Alejandro Centurion	54%	90%	180%
William Glenn	48%	80%	160%
James Sharp	48%	80%	160%

Salary Adjustments

On October 29, 2015, the Compensation Committee considered current annual base salaries for all executive officers, and determined to keep such base salaries at current levels for 2016.
