Cautionary Statement Regarding Forward-Looking Statements

This presentation contains forward-looking statements, including, in particular, statements about the Company's plans, strategies and prospects. These statements are based on the Company's current assumptions, expectations and projections about future events, which are subject to a wide range of economic, political, natural and business risks, including other risks and uncertainties detailed in its most recent Form 10-K filed with the Securities and Exchange Commission. Although the Company believes that the assumptions reflected in these forward-looking statements are reasonable, the Company can give no assurance that these assumptions will prove to be correct or that financial or market forecasts, savings or other benefits anticipated in the forward-looking statements will be achieved. Forward-looking statements are not guarantees of future performance and actual results may differ materially from those projected. The information contained in this presentation is only current as of the date of this presentation, and the Company undertakes no obligation to update this presentation.

The Company may discuss certain non-GAAP financial measures in this presentation, including, without limitation, EBITDA, free cash flow, and modified free cash flow. The Company provides reconciliations to the nearest GAAP measure for these and other non-GAAP measures on a quarterly basis. These non-GAAP measures are not in accordance with, or a substitute for, measures prepared in accordance with GAAP, and may be different from non-GAAP measures used by other companies. In addition, these non-GAAP measures are not based on any comprehensive set of accounting rules or principles. Non-GAAP measures have limitations in that they do not reflect all of the amounts associated with the Company's results of operations that would be reflected in measures determined in accordance with GAAP. These financial measures are provided to enhance investors' overall understanding of the Company's current financial performance. In addition, because the Company has reported certain non-GAAP measures in the past, the Company believes the inclusion of non-GAAP measures provides consistency in the Company's financial reporting.
