(e) Compensatory Arrangements of Certain Officers.

2018 Short-term Incentive Cash Bonus Program

On August 29, 2017, the Compensation Committee of The Greenbrier Companies, Inc. (the Company) adopted a 2018 Short-term Incentive Cash Bonus Program (the Bonus Plan), pursuant to which the Company's executive officers, including its named executive officers (NEOs), may earn bonuses based on Company financial performance and achievement of strategic objectives during fiscal 2018. No bonuses will be paid unless the Company achieves at least the threshold level of performance against its adjusted EBITDA goal.

For each of William A. Furman, President and Chief Executive Officer; Mark J. Rittenbaum, Executive Vice President of Commercial and Leasing; Alejandro Centurion, Executive Vice President and President of Greenbrier Manufacturing Operations; and Lorie Tekorius, Executive Vice President and Chief Financial Officer, 85% of the bonus opportunity is based on achievement of Company-level financial performance goals and 15% of the bonus opportunity is based on achievement of two strategic objectives: integration of new businesses, and talent development and succession planning.

Target bonus payouts are established for each executive officer at a different percentage of base salary. The target bonus payout percentages are 115% of base salary for Mr. Furman, 90% of base salary for Messrs. Centurion and Rittenbaum, and 85% of base salary for Ms. Tekorius. Of the 85% of the bonus opportunity based on financial performance goals, 75% is based on achievement of the Company's adjusted EBITDA goal and 25% is based on achievement of the Company's return on invested capital (ROIC) goal.

Adjusted EBITDA is defined as net earnings before interest and foreign exchange, income tax expense, depreciation and amortization, and before bonus. ROIC is defined as net operating profit after cash paid during the period for income taxes and including earnings (loss) from unconsolidated affiliates, divided by Average Invested Capital. Average Invested Capital is calculated as the average balance of revolving notes plus notes payable plus total equity less cash in excess of \$40 million. Each of these metrics is adjusted for special and non-recurring items listed in the Company's Umbrella Performance Based Plan for Executive Officers in the discretion of the Compensation Committee.

Bonus payouts resulting from achievement of financial performance goals will vary depending upon achievement of threshold, target or stretch performance levels. Below threshold performance, no bonus will be paid. At threshold performance, the bonus payout will equal 75% of the relevant target payout amount. At stretch performance, the bonus payout will equal 200% of the relevant target amount. Bonus amounts will be interpolated between the threshold, target and stretch levels.

With respect to the goals based on achievement of strategic objectives, the Compensation Committee will determine the level of achievement of such goals by all executive officers as a group, on a scale of 0-100%. Stretch level of performance does not apply to strategic goals, which are qualitatively determined. The percentage of bonus payouts to all of the executive officers resulting from achievement of strategic goals will match the percentage of achievement. For example, if the Compensation Committee determines that the executive officers achieved 80% of their strategic goals, the payout percentage for each executive officer would be 80% of the individual's target bonus amount with respect to such goals.
