IAS 34 is consistent with Hong Kong Accounting Standard (HKAS) 34, Interim financial reporting issued by the Hong Kong Institute of Certified Public Accountants (HKICPA) and accordingly this unaudited condensed consolidated interim financial information is also prepared in accordance with HKAS 34.

The unaudited condensed consolidated interim financial information has not been audited, but has been reviewed by the Company's Audit Committee. It has also been reviewed by the Company's auditor in accordance with Hong Kong Standard on Review Engagements 2410, Review of interim financial information performed by the independent auditor of the entity, issued by the HKICPA.

The unaudited condensed consolidated interim financial information should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2016. The Group's policies on financial risk management, including management of market risk, credit risk and liquidity risk, as well as capital risk management, were set out in the financial statements included in the Company's 2016 Annual Report and there have been no significant changes in

any financial risk management policies for the six months ended 30 June 2017.

The financial information relating to the year ended 31 December 2016 that is included in this interim financial report of 2017 as comparative information does not constitute the Company's statutory annual consolidated financial statements for that year but is derived from those financial statements. Further information relating to these statutory financial statements disclosed in accordance with section 436 of the Hong Kong Companies Ordinance (Cap. 622) is as follows:

The Company has delivered the financial statements for the year ended 31 December 2016 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Hong Kong Companies Ordinance (Cap. 622).

2. BASIS OF PREPARATION (Continued)

The Company's auditor has reported on those financial statements. The auditor's report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report; and did not contain a statement under sections 406(2), 407(2) or (3) of the Hong Kong Companies Ordinance (Cap. 622).

(a) Going Concern Assumption

As at 30 June 2017, current liabilities of the Group exceeded current assets by approximately RMB233.4 billion (31 December 2016: approximately RMB260.4 billion). Given the Group's expected capital expenditures in the foreseeable future, management has comprehensively considered the Group's available sources of funds as follows:

The Group's continuous net cash inflow from operating activities;

Approximately RMB339.8 billion of revolving banking facilities and registered quota of corporate bonds, of which approximately RMB216.2 billion was unutilised as at 30 June 2017;

Other available sources of financing from domestic banks and other financial institutions given the Group's credit history.

In addition, the Group believes it has the ability to raise funds from the short, medium and long-term perspectives and maintain reasonable financing costs through appropriate financing portfolio.

Based on the above considerations, the Board of Directors is of the opinion that the Group has sufficient funds to meet its working capital requirements and debt obligations. As a result, the unaudited condensed consolidated interim financial information of the Group for the six months ended 30 June 2017 have been prepared on a going concern basis.

3. SIGNIFICANT ACCOUNTING POLICIES

The IASB and HKICPA has issued a number of amendments to International Financial Reporting Standards (IFRSs)/Hong Kong Financial Reporting Standards (HKFRSs) that are first effective for the current accounting period of the Group. None of these developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented.

In addition, the IASB and HKICPA also published a number of new standards, amendments to standards and interpretations which are effective for the financial year beginning after 1 January 2017 and have not been early adopted by the Group except IFRS/HKFRS 9 (2010), Financial instruments. The Group is in the process of making an assessment of what the impact of these amendments and new standards is expected to be in the period of initial application. So far the Group has identified some aspects of the new standards which may have impact on the consolidated financial statements.

IFRS/HKFRS 15, Revenue from contracts with customers

IFRS/HKFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including IAS/HKAS 18, Revenue, IAS/HKAS 11, Construction contracts and HK(IFRIC) 13, Customer Loyalty Programs. It also includes guidance on when to capitalise costs of obtaining or fulfilling a contract not otherwise addressed in other standards, and includes expanded disclosure requirements.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

IFRS/HKFRS 9 (2014), Financial Instruments

Compared with IFRS/HKFRS 9 (2010), IFRS/HKFRS 9 (2014) includes the new expected credit losses model for impairment of financial assets, the new general hedge accounting requirements and limited amendments to the classification and measurement of financial assets.

IFRS/HKFRS 16, Leases

IFRS/HKFRS 16 provides comprehensive guidance for the identification of lease arrangements and their treatment by lessees and lessors. In particular IFRS/HKFRS 16 introduces a single lessee accounting model, whereby assets and liabilities are recognised for all leases, subject to limited exceptions. It replaces IAS/HKAS 17, Leases and the related interpretations including HK(IFRIC) 4, Determining whether an arrangement contains a lease.

The Group does not plan to early adopt the above new standards or amendments. With respect to IFRS/HKFRS 15, IFRS/HKFRS 9 (2014) and IFRS/HKFRS 16, given the Group has not completed its assessment of their full impact on the Group's financial statements, their possible impact on the Group's results of operations and financial position has not been quantified.

4. SEGMENT INFORMATION

The Executive Directors of the Company have been identified as the Chief Operating Decision Maker (the "CODM"). Operating segments are identified on the basis of internal reports that the CODM reviews regularly in allocating resources to segments and in assessing their performances.

The CODM make resources allocation decisions based on internal management functions and assess the Group's business performance as one integrated business instead of by separate business lines or geographical regions. Accordingly, the Group has only one operating segment and therefore, no segment information is presented.

The Group primarily operates in Mainland China and accordingly, no geographic information is presented. No single customer accounted for 10 percent or more of the Group's revenue in all periods presented.

5. REVENUE

Revenue from telecommunications services are subject to value-added tax (VAT) and VAT rates applicable to various telecommunications services. The VAT rate for basic telecommunications services is 11%; the VAT rate for value-added telecommunications services is 6% and the VAT rate for sales of telecommunications products remains at 17%. Basic telecommunications services include business activities for the provision of voice services, as well as business activities in relation to rental or sales of bandwidth, wavelength and other network elements etc; value-added telecommunications services include business activities for the provision of Short Message Service and Multimedia Message Service, electronic data and information transmission and application services, Internet access service etc. VAT is excluded from the revenue.

- (ii) Adjustment to investment in associates represents the tax effect on share of net profit/(loss) of associates, excluding reversal of deferred tax assets on unrealised profit from transactions with Tower Company.
- (iii) As at 30 June 2017, the Group did not recognise deferred tax assets in respect of tax losses of approximately RMB2,638 million (31 December 2016: approximately RMB2,622 million), since it is not probable that future taxable profits will be available against which the deferred tax asset can be utilised. The tax losses can be carried forward for five years from the year incurred and hence will be expired by 2021.

As at 30 June 2017, the Group did not recognise deferred tax assets of RMB1,742 million (31 December 2016: RMB1,832 million) in respect of changes in fair value on financial assets through other comprehensive income, since it is not probable that the related tax benefit will be realised.

According to the applicable tax laws issued by the Ministry of Finance and the State Administration of Taxation (SAT) of the PRC, the gain from Tower Assets Disposal in exchange for investment in Tower Company (Qualified Income) is, upon fulfilling the filing requirement with in-charge tax bureau, eligible to be deferred and treated as taxable income on a straight- line basis over a period not exceeding five years. Before completing the filing, the Group accrued current taxes payable based on the total gain from Tower Asset Disposal. During the period ended 30 June 2016, the Group successfully completed the filing requirement with in-charge tax bureau with respect to the Qualified Income and since then has become eligible for deferring part of tax liability with respect to the Qualified Income, which would be reversed in the four years from 2016 to 2019. Accordingly, a balance of RMB1,304 million was reclassified from current taxes payable to net deferred tax assets as at 30 June 2016, and RMB187 million was reversed during the six-month-period ended 30 June 2017.

More than one year	1,347	1,015
	17,000	13,622

The normal credit period granted by the Group to individual subscribers is thirty days from the date of billing unless they meet certain specified credit assessment criteria. For corporate customers, the credit period granted by the Group is based on the service contract terms, normally not exceeding one year.

There is no significant concentration of credit risk with respect to customers receivables, as the Group has a large number of customers.

As at 30 June 2017, accounts receivable of approximately RMB13,404 million (31 December 2016: approximately RMB9,626 million) were neither past due nor impaired. Receivables that were neither past due nor impaired relate to a wide range of customers for whom there was no recent history of default.

18. ACCOUNTS RECEIVABLE (Continued)

Accounts receivable of approximately RMB1,778 million (31 December 2016: approximately RMB1,890 million) were past due but not impaired. Such overdue amounts can be recovered based on past experience. The aging analysis of these receivables is as follows:

	1,778	1,890

Receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable.

19. PREPAYMENTS AND OTHER CURRENT ASSETS

The nature of prepayments and other current assets, net of allowance for doubtful debts, are as follows:

	Note	30 June 2017	31 December 2016

- (i) The Group offers preferential packages to the customers which include the bundle sales of mobile handsets and provision of service. The total contract consideration of such preferential packages is allocated to service revenue and sales of handsets based on their relative fair values. For those contractual preferential packages which the prepaid amounts from customers less than the fair value of the mobile handsets, the revenue relating to the sale of the handsets is recognised when the titles are passed to the customers and are calculated under the aforementioned relative fair value method, which results in the corresponding receivable for the sales of mobile

handsets. The receivable for the sales of mobile handsets is gradually recovered during the contract period when the customers pay the monthly package fee. Receivables to be gradually recovered beyond one year amounted to RMB1,132 million (31 December 2016: RMB1,432 million), and are included in long term other assets (see Note 16(ii)).

Pursuant to the PRC enterprise income tax law, a 10% withholding income tax is levied on dividends declared on or after 1 January 2008 by foreign investment enterprises to their foreign enterprise shareholders unless the enterprise investor is deemed as a PRC Tax Resident Enterprise (TRE). On 11 November 2010, the Company obtained an approval from SAT, pursuant to which the Company qualifies as a PRC TRE from 1 January 2008. Therefore, as at 30 June 2017 and 31 December 2016, the Company's subsidiaries in the PRC did not accrue for withholding tax on dividends distributed to the Company and there has been no deferred tax liability accrued in the Group's unaudited condensed consolidated financial information for the undistributed profits of the Company's subsidiaries in the PRC.

For the Company's non-PRC TRE enterprise shareholders (including Hong Kong Securities Clearing Company Limited), the Company would distribute dividends after deducting the amount of enterprise income tax payable by these non-PRC TRE enterprise shareholders thereon and reclassify the related dividend payable to withholding tax payable upon the declaration of such dividends.
