Item 8.01 Other Events.

On December 22, 2017, the Tax Cuts and Jobs Act (Tax Legislation) was enacted. The Tax Legislation significantly revises the U.S. corporate income tax by, among other things, lowering the federal corporate income tax rates from 35% to 21%, implementing the territorial tax system, and imposing a repatriation tax on deemed repatriated earnings of foreign subsidiaries.

In response to the enacted Tax Legislation, Stifel Financial Corp., together with its consolidated subsidiaries (the Company), took various steps to maximize tax savings and the value of its net deferred tax asset. Based on currently available information, these steps will result in an after-tax reduction of approximately \$105 - \$115 million in the Company s earnings for the fourth quarter ending December 31, 2017. Approximately two thirds of this charge is due to accelerating expenses into 2017, primarily deferred compensation. The remainder includes the effects of the remeasurement of U.S. deferred tax assets at lower enacted corporate tax rates.

As a result of the above steps and the Tax Legislation, the Company expects to generate one-time tax cash savings of approximately \$70 - \$75 million, forecasts its 2018 corporate tax rate (including federal, state and local, and foreign) to be in a range of 25% - 27%, and expects its 2018 core compensation ratio to be between 59% and 61%.

The impact of the Tax Legislation may differ from this estimate, possibly materially, due to, among other things, changes in interpretations and assumptions the Company has made, guidance that may be issued, and actions the Company may take as a result of the Tax Legislation.

The Company plans to host a conference call and announce its financial results for the fourth quarter and year ended December 31, 2017, on January 30, 2018.
