### KINGSWAY REPORTS 26% INCREASE IN NET INCOME

**Toronto, Ontario (May 6, 2004)** Kingsway Financial Services Inc. (TSE:KFS, NYSE:KFS) today announced financial results for the first quarter ended March 31, 2004.

#### Q1 2004 Summary

Earnings per share increased 12% to 55 cents (diluted) compared to Q1 2003

Net income increased 26% to \$30.8 million compared to Q1 2003

Combined ratio improved to 98.2% compared to 101.4% for fiscal 2003

Underwriting profit of \$10.4 million

Annualized return on equity 16.9%

Book value per share \$13.39 an increase of 6% from year end

Investment portfolio increased to \$2.9 billion or \$51.11 per share

Net income increased by 26% to \$30.8 million, compared to \$24.4 million in the first quarter of last year. Return on equity (annualized) was 16.9% in the quarter compared to 16.0% in the same quarter last year. The combined ratio was 98.2% compared to 96.8% in the same quarter last year, producing an underwriting profit of \$10.4 million in the quarter. Diluted earnings per share increased 12% to 55 cents for the quarter, compared to 49 cents for the first quarter of 2003.

We are very pleased with the solid start we have made to 2004", said Bill Star, President & Chief Executive Officer. We are particularly encouraged by the strong improvement in results from our Canadian operations as a result of rate increases and claims fraud initiatives we have implemented. We are well positioned to take advantage of the prevailing insurance market conditions, and see no softening of rates in any of our business lines. The short maturity profile of our investment portfolio also means we are poised to benefit when interest rates rise.

**Premium Growth**

During the first quarter of 2004, gross premiums written increased to \$710.4 million, compared with \$702.6 million in the first quarter last year. A significant portion of the Company's operations and net assets are denominated in U.S. dollars whereas the Company reports in Canadian dollars. In the quarter, U.S. operations represented 77% of gross premiums written compared with 82% in the first quarter last year. Written premiums from U.S. operations decreased to \$545.8 million compared with \$575.6 million last year, whereas in U.S. dollars they increased by 9% to U.S.\$413.7 million. The effect of currency translation reduced reported levels of gross premiums written for the U.S. operations by \$77.3 million in the quarter compared to the same period of 2003. Written premiums from Canadian operations grew 30% to \$164.6 million for the quarter, compared to \$127.0 million in Q1 last year.

**Premium Growth continued**

Net premiums written increased 3% to \$684.1 million compared with \$666.7 million for the first quarter of last year. Net premiums earned increased 6% to \$584.8 million for the quarter, compared with \$551.3 million for the first quarter last year. For U.S. operations, net premiums earned decreased to \$429.7 million compared with \$439.1 million in the first quarter of 2003, whereas in U.S. dollars they increased by 11% to U.S.\$325.3 million compared to Q1 last year. Net premiums earned from Canadian operations increased by 38% to \$155.1 million compared with \$112.2 million last year.

**Underwriting Profit & Combined Ratio**

The combined ratio of 98.2% for the first quarter produced an underwriting profit of \$10.4 million. For the quarter, the U.S. operations combined ratio was 98.2% and 98.4% for the Canadian operations.

The results for the quarter include increases in the provision for unpaid claims occurring prior to December 31, 2003 of approximately \$6.5 million (\$4.3 million after tax). These increases represent 1.1% of the net premiums earned in the quarter and 0.4% of the unpaid claims recorded as at December 31, 2003. The Company increased its estimated provision for incurred but not reported claims (IBNR) and specific estimates for each individual claim based on historical settlement patterns (case reserves). During the quarter, the IBNR provision was increased by \$50 million or 7% to \$797.0 million and the case reserves were increased 13% to \$1,039 million.

**Investment Income**

Investment income increased 42% to \$22.3 million compared with \$15.8 million for the first quarter of 2003. Net realized gains amounted to \$6.8 million compared with net realized losses of \$0.7 million in the first quarter of 2003. Net realized losses in 2003 included adjustments to the carrying value for declines in market value considered other than temporary of \$2.6 million in the quarter on investments still held compared to \$nil for the first quarter of 2004.

Net unrealized gains on the investment portfolio were \$83.1 million (\$1.48 per share outstanding) at March 31, 2004, as compared to \$52.5 million (94 cents per share outstanding) at the end of 2003.

**Balance Sheet**

Total assets as at March 31, 2004 grew to \$4.0 billion. During the quarter, shareholders' equity was increased by \$13.3 million and book value per share by 24 cents as a result of the change in the unrealized currency translation adjustment. As a result of this and the earnings in the quarter, book value per share increased by 6% to \$13.39 from \$12.63 as at December 31, 2003.

The investment portfolio, including cash and accrued investment income, increased 7% to \$2,870.0 million (market value \$2,953.1 million), compared to \$2,674.1 million (market value \$2,726.7 million) as at December 31, 2003. The investment portfolio represents \$51.11 per common share at March 31, 2004. At March 31, 2004 24% of the fixed income portfolio matures in less than one year and 61% matures after one year and in less than five years, and we are well positioned to advantage should interest rates increase.

### **Currency**

The Company reports in Canadian dollars, whereas 77% of its gross premiums in the quarter were generated from its U.S. operations. During 2003 the Canadian dollar appreciated against the U.S. dollar thereby affecting the comparability of results. When the Company's results are translated into U.S. dollars, gross premiums written increased by 19%, net income by 48% and earnings per share by 31% compared to the first quarter of 2003.

### **Executive Appointments**

The Company is pleased to announce the appointment of John Clark to the position of President & Chief Executive Officer of Lincoln General Insurance Company, replacing Gary Bhojwani who has accepted a position outside of the company. Tom Ossmann has been appointed as President & Chief Executive Officer of American Service Insurance Company. I am pleased to announce the appointments of John and Tom to their new roles, said Bill Star, President & Chief Executive Officer. These appointments are indicative of the depth of executive talent that we have within the Kingsway group of companies.

**PRESIDENT S MESSAGE TO SHAREHOLDERS**

Dear Shareholders:

On behalf of the Board of Directors, I am pleased to report our financial results for the three months ended March 31, 2004.

For the three months ended March 31, 2004, net income increased 26% to \$30.8 million compared to Q1 2003, earnings per share increased 12% to 55 cents (diluted) compared to Q1 2003 and our annualized return on equity for the quarter was 16.9%. At the end of the quarter, our book value per share was at \$13.39, an increase of 6% from the year-end and our investment portfolio increased to \$2.9 billion or \$51.11 per share. The combined ratio for the quarter improved to 98.2% compared to 101.4% for fiscal 2003 producing an underwriting profit of \$10.4 million in the quarter. The Canadian operations reported improved results with a 98.4% combined ratio with the U.S. operations reporting a combined ratio of 98.2%. We are very pleased with the solid start that we have made to 2004 and are particularly encouraged by the strong improvement in the results from the Canadian operations as a result of the rate increases and fraud controls that we implemented during the course of 2003.

We report our results in Canadian dollars whereas 77% of our premiums are in U.S. dollars. During the course of 2003, the Canadian dollar appreciated against the U.S. dollar thereby affecting the comparability of results. When our results are translated into U.S. dollars gross premiums written increased by 19% and net income by 48% compared to the first quarter of 2003.

During the quarter we continued to strengthen our estimated unpaid claims provisions which included an increase in the incurred but not reported provision of \$50 million which is a 7% increase from the beginning of the year. Case reserves on individual claims files were also increased by 13% compared to the beginning of the year.

Investment income increased by 42% to \$22.3 million compared to the first quarter of last year and net realized gains in the quarter amounted to \$6.8 million compared to net realized losses of \$0.7 million in the first quarter of 2003. At March 31, 2004, 24% of the fixed income portfolio matures in one year and 61% matures after one year and in less than 5 years. Consequently we are well positioned to see an improvement in our investment income should interest rates rise in the foreseeable future.

Page 15 of 31

**Outlook**

We continue to see good opportunities to profitably grow our business in the United States given the capital constraints of many of our competitors. With interest rates being at historic lows, we believe this bodes well for the future underwriting profitability for this segment of our business for the foreseeable future. In Canada, we continue to see political interference with the personal automobile product in Ontario and

Alberta. In all our markets we continue to focus on maintaining underwriting profitability which means taking necessary actions to restrict business in markets which we are unstable or unattractive and to grow in markets which are stable and which provide opportunities for profitable growth.

Sincerely,

William G. Star (signed)  
President & Chief Executive Officer

**For the Period Ended March 31, 2004 and 2003**

The following management's discussion and analysis (MD&A) should be read in conjunction with the Company's unaudited interim consolidated financial statements for the first quarter of fiscal 2004 and 2003; with the MD&A set out on pages 17 to 54 in the Company's 2003 Annual Report, including the section on risks and uncertainties; and with the notes to the interim consolidated financial statements for the first quarter of fiscal 2004 and the notes to the audited consolidated financial statements for fiscal 2003 set out on pages 55 to 73 of the Company's 2003 Annual Report. (All dollar amounts are in Canadian dollars unless otherwise indicated).

**For the three months ended March 31, 2004 and 2003**

*Gross Premiums Written.* During the first quarter of 2004, gross premiums written increased to \$710.4 million, compared with \$702.6 million in the first quarter last year. A significant portion of the Company's operations and net assets are denominated in U.S. dollars whereas the Company reports in Canadian dollars. In the quarter, U.S. operations represented 77% of gross premiums written compared with 82% in the first quarter last year. Written premiums from Canadian operations grew 30% to \$164.6 million for the quarter, compared to \$127.0 million in Q1 last year. Written premiums from U.S. operations decreased to \$545.8 million compared with \$575.6 million last year, whereas in U.S. dollars they increased by 9% to U.S.\$413.7 million. The results for the first quarter of 2003 include approximately \$64.3 million from a Managing General Agent program that was terminated effective January 1, 2003. After adjusting for these premiums on a comparable basis, gross premiums written increased 11% compared to the first quarter of 2003.

*Net Premiums Written.* Net premiums written increased 3% to \$684.1 million compared with \$666.7 million for the first quarter of last year. Net premiums written from the U.S. operations decreased 4% to \$527.1 million compared with \$549.6 million last year. Net premiums written from the Canadian operations increased 34% to \$157.0 million compared with \$117.1 million in the first quarter of last year.

*Net Premiums Earned.* Net premiums earned increased 6% to \$584.8 million for the quarter, compared with \$551.3 million for the first quarter last year. Net premiums earned from Canadian operations increased by 38% to \$155.1 million compared with \$112.2 million last year. For U.S. operations, net premiums earned decreased to \$429.7 million compared with \$439.1 million in the first quarter of 2003, whereas in U.S. dollars they increased by 11% to U.S.\$325.3 million compared to Q1 last year. The net premiums earned for 2003 included approximately \$60.0 million from a Managing General Agent program that was terminated effective January 1, 2003.

*Investment Income.* Investment income increased 42% to \$22.3 million compared with \$15.8 million for the first quarter of 2003.

*Net Realized Gains.* Net realized gains amounted to \$6.8 million compared with net realized losses of \$0.7 million in the first quarter of 2003. Net realized losses in 2003 included adjustments to the carrying value for declines in market value considered other than temporary of \$2.6 million in the quarter on investments still held compared to \$nil for the first quarter of 2004.

## Edgar Filing: KINGSWAY FINANCIAL SERVICES INC - Form 6-K

*Claims Incurred.* Our claims ratio for the first three months of 2004 was 72.2%, compared to 70.5% to last year. The claims ratio for the U.S. operations was 72.2% compared with 70.6% for the first three months of 2003. The slight deterioration in the U.S. operations claims ratio is a reflection of the growth of the business. The claims ratio for the Canadian operations was 72.4% compared to 70.2% in the first quarter of last year.

The results for the quarter include increases in the provision for unpaid claims occurring prior to December 31, 2003 of approximately \$6.5 million (\$4.3 million after tax). These increases represent 1.1% of the net premiums earned in the quarter and 0.4% of the unpaid claims recorded as at December 31, 2003. The Company continues to increase its estimated provision for incurred but not reported claims (IBNR) and specific estimates for each individual claim based on historical settlement patterns (case reserves). During the quarter, the IBNR provision was increased by \$50 million or 7% to \$797.0 million and the case reserves were increased 13% to \$1,039.1 million.

*Underwriting Expenses.* The combined ratio of 98.2% for the first quarter produced an underwriting profit of \$10.4 million, compared with the combined ratio of 96.8% and \$17.9 million underwriting profit reported in the first quarter of 2003. For the quarter, the U.S. operations combined ratio was 98.2% (96.0% Q1 last year) and for the Canadian operations improved to 98.4% (99.9% Q1 last year). The Canadian operations showed improvement in its expense ratio due to commission actions taken to reduce commissions paid on its non-standard automobile product in both the Ontario and Alberta markets, as well as rate increases and fraud controls implemented in 2003.

*Interest Expense.* Interest expense in the first quarter of 2004 was \$6.9 million, compared to \$4.5 million for the first quarter of 2003 reflecting the increase in interest payment obligations on the U.S.\$90.5 million of subordinated indebtedness issued during late 2002 and 2003.

*Net Income and Earnings Per Share.* Net income for the quarter was \$30.8 million, a 26% increase over the \$24.4 million reported in the first quarter last year. Diluted earnings per share were 55 cents for the quarter compared to 49 cents for the first quarter of 2003.

A significant portion of the Company's operations and net assets are denominated in U.S. dollars whereas the Company reports in Canadian dollars. The strengthening of the Canadian currency against the U.S. dollar during the quarter had a negative impact on results for the quarter. When our results are translated into U.S. dollars net income increased by 48% compared to the first quarter of 2003.

*Book Value Per Share and Return on Equity.* During the quarter, shareholders' equity was increased by \$13.3 million and book value per share by 24 cents as a result of the change in the unrealized currency translation adjustment. As a result of this and the earnings in the quarter, book value per share increased by 6% to \$13.39 from \$12.63 as at December 31, 2003. Our annualized return on equity was 16.9% for the first quarter of 2004 compared to 16.0% for the same quarter last year.

*Balance Sheet.* Total assets as at March 31, 2004 grew to \$4.0 billion. The investment portfolio, including cash and accrued investment income, increased 7% to \$2,870.0 million (market value \$2,953.1 million), compared to \$2,674.1 million (market value \$2,726.7 million) as at December 31, 2003. Net unrealized gains on the investment portfolio were \$83.1 million (\$1.48 per share outstanding) at March 31, 2004, as compared to \$52.5 million (94 cents per share outstanding) at the end of 2003. The investment portfolio is well positioned to take advantage of interest rate increases due to the very short maturity profile of the portfolio. At March 31, 2004 24% of the fixed income portfolio matures in less than one year and 61% matures after one year and in less than five years. However, should interest rates increase this could have a negative impact on the market value of our fixed income portfolio. Unearned premiums as at March 31, 2004 grew to \$891.9 million, an increase of 15% over the \$776.5 million reported at the end of 2003.

*Currency.* The Company reports in Canadian dollars, whereas 77% of its gross premiums in the quarter were generated from its U.S. operations. During 2003 the Canadian dollar appreciated against the U.S. dollar thereby affecting the comparability of results. When the Company's results are translated into U.S. dollars, gross premiums written increased by 19%, net income by 48% and earnings per share by 31% compared to the first quarter of 2003.

*Contractual Obligations.* Information concerning contractual obligations as at March 31, 2004 is shown below:

*Liquidity and Capital Resources.* During the first quarter of 2004, the net cash provided from operations was \$106.4 million compared to \$96.5 million in the first quarter of 2003 which increased our investment portfolio. The Company believes that the cash generated from the operating activities will be sufficient to meet our ongoing cash requirements, including interest payment obligations. Net cash provided by financing activities during the first quarter of 2004 was \$39.3 million compared to \$16.1 million in the first quarter of 2003. As discussed on page 43 of the Company's Annual Report, the proceeds from US\$125 million 7.50% unsecured senior notes due 2014 were used to repay existing bank indebtedness. During the quarter, the Company entered into a \$150 million revolving credit facility to replace the US\$100 million and \$66.5 million facilities. The terms and conditions are further described on page 43 of the Company's Annual Report. As of March 31, 2004 the Company was in compliance with all of the covenant requirements of the credit facility and we expect to remain in compliance for the remainder of the term of this facility.

*Off-Balance Sheet Financing.* The Company does not engage in any off-balance sheet financing arrangements.

*Summary of Quarterly Results.* For a summary of the Company's previous eight quarterly results refer to page 75 of the 2003 Annual Report.

**Outlook**

The Company's 2003 Annual Report includes description and analysis of the key factors and events that could impact future earnings under the heading Risks and Uncertainties in the Management's Discussion and Analysis section. These factors and events have, for the most part, remained substantially unchanged.

**Forward Looking Statements**

This shareholders report includes forward looking statements that are subject to risks and uncertainties. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward looking statements, see Kingsway's securities filings, including its 2003 Annual Report under the heading Risks and Uncertainties in the Management's Discussion and Analysis section. **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**For the three months ended March 31, 2004 and 2003**  
**(Unaudited tabular amounts in thousands of Canadian dollars)**

**1. Basis of presentation**

These interim consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles using the same accounting policies as were used for the Company's consolidated financial statements for the year ended December 31, 2003. These interim consolidated financial statements do not contain all disclosures required by generally accepted accounting principles and accordingly should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2003 as set out on pages 55 to 73 of the Company's 2003 Annual Report. The results of the operations for the interim periods are not necessarily indicative of the full-year results.

**2. Stock-based compensation**

## Edgar Filing: KINGSWAY FINANCIAL SERVICES INC - Form 6-K

As reported on pages 62 of the Company's 2003 Annual Report, effective January 1, 2003 the Company adopted on a prospective basis the fair-value method of accounting for stock-based compensation awards granted to employees and non-employee directors. During the first quarter 2004, the Company recorded \$349,000 of stock-based compensation expense included in employee compensation expense.

For stock options granted in prior years, the Company must provide the following pro forma disclosures of net income and earnings per share as if the Company had measured the additional compensation element of stock options granted based on the fair value on the date of grant. Such proforma disclosure follows:

	<b>Three months ended March 31,</b>	
	<b>2004</b>	<b>2003</b>
Net income		
As reported	\$30,678	\$24,394
Pro forma	30,152	23,814
Basic earnings per share		
As reported	\$ 0.55	\$ 0.50
Pro forma	0.54	0.49
Diluted earnings per share		
As report	\$ 0.55	\$ 0.49
Pro forma	0.54	0.48

The per share weighted average fair value of options granted during 2004 and 2003 was \$3.79 and \$6.11, respectively. The fair value of the options granted was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted average assumptions:

Page 25 of 31

**KINGSWAY FINANCIAL SERVICES INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**For the three months ended March 31, 2004 and 2003**  
**(Unaudited tabular amounts in thousands of Canadian dollars)**

**2. Stock-based compensation continued:**

	<b>As at March 31</b>	
	<b>2004</b>	<b>2003</b>
Risk-free interest rate	4.34%	5.44%
Dividend yield	0.0%	0.0%
Volatility of the expected market price of the Company's common shares	45.7%	56.0%
Expected option life (in years)	4.7 years	5.5 years

The Black-Scholes option valuation model was developed for use in estimating fair value of traded options which have no vesting restrictions and are fully transferable. As the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the above pro forma adjustments are not necessarily a reliable single measure of the fair value of the Company's employee stock options.

3. **Segmented information**

The Company provides property and casualty insurance and other insurance related services in three reportable segments, Canada, the United States and corporate and other insurance related services. The Company's Canadian and United States segments include transactions with the Company's reinsurance subsidiaries. At the present time, other insurance related services are not significant. Results for the Company's operating segments are based on the Company's internal financial reporting systems and are consistent with those followed in the preparation of the consolidated financial statements.
