To
The Board of Directors and Shareholders
Sadia S.A.
Concórdia - SC

1. We have reviewed the interim financial information of Sadia S.A. and the consolidated interim financial information of Sadia S.A and its subsidiaries, for the three-month period ended March 31, 2005, which comprises the balance sheets, the statements of income, management report and other relevant information, prepared in accordance with the accounting practices adopted in Brazil.
2. Our review was prepared in accordance with the review standards established by IBRACON - Brazilian Institute of Independent Auditors and the Federal Council of Accounting, and included, basically: (a) inquiry and discussion with management responsible for the accounting, financial and operating areas of the Company and its subsidiaries, regarding the main criteria adopted in the preparation of the interim financial information; and (b) review of the information and subsequent events, which have, or may have, a material effect on the financial situation and the operations of the Company and its subsidiaries.
3. Based on our special review, we are not aware of any material changes which should be made to the interim financial information above for it to be in accordance with accounting practices adopted in Brazil and regulations issued by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of interim financial information.

Sadia S.A.

Notes to the interim financial information (Unaudited)

Three-month period ended March 31, 2005

(In thousands of Reais)

1 Operations

The Company's main business activities are organized into three operational segments: the industrial processing and distribution of food products and the production of pork and poultry (chickens and turkeys) which are commercialized in Brazil and abroad by retailers, small groceries and food service chains.

The Company distributes approximately 700 products through 300 thousand sales points in the local market and exports to 100 countries distributed in Europe, Middle East, Eurasia, Asia, the Americas and third markets. The Company has 12 industrial units and 15 distribution centers located within 14 Brazilian states and the Federal District.

The industrially processed products segment has been the principal focus of the Company's investments in recent years and comprises products such as oven-ready frozen food, refrigerated pizzas and pasta, margarine, industrially processed poultry and pork by-products, crumbed products, a diet line and pre-sliced ready-packed products.

The Company has a corporate governance tier one listing for its shares on the São Paulo Stock Exchange, the Madrid Stock Exchange (Latibex) and ADR's negotiated on the New York Stock Exchange (NYSE).

2 Preparation and presentation of the interim financial information

The individual and consolidated interim financial information were prepared in accordance with accounting practices derived from the Brazilian Corporation Law and the rules of the Brazilian Securities and Exchange Commission - CVM.

Sadia S.A.

Notes to the interim financial information (Unaudited)

(In thousands of Reais)

3 Summary of the principal accounting practices

a. Statement of income

Income and expenses are recognized on the accrual basis. Revenue from the sale of goods is recognized in the statement of income when the significant risks and rewards of ownership have been transferred to the buyer.

b. Foreign currency

Monetary assets and liabilities denominated in foreign currencies were translated into reais at the foreign exchange rate ruling at the balance sheet date. Foreign exchange differences arising on translation are recognized in the statement of income.

c. Accounting estimates

The preparation of the financial information in accordance with accounting practices adopted in Brazil requires that management uses its judgment in determining and recording accounting estimates. Significant assets and liabilities subject to these estimates and assumptions include the residual value of property, plant and equipment, deferred charges, allowance for doubtful accounts, inventories, deferred tax assets, provision for contingencies, valuation of derivative instruments, and assets and liabilities related to employees' benefits. The settlement of transactions involving these estimates may result in significantly different amounts due to the lack of precision inherent to the process of their determination. The Company reviews the estimates and assumptions at least monthly.

d. Long and short-term investments

Investment funds in local and foreign currency are recorded at market value according to the respective shares price at the date of the interim financial information.

Other long and short-term investments in local and foreign currency are recorded at cost income accrued up to the balance sheet date, not exceeding market value.

Additionally, the portion receivable from currency swap contracts is recorded at the difference between the nominal amounts of these contracts and the amounts restated by the variation of the US dollar, plus interest earned up to the date of the interim financial information.

Sadia S.A.

Notes to the interim financial information (Unaudited)

(In thousands of Reais)

e. Allowance for doubtful accounts

The allowance for doubtful accounts was calculated at an amount considered adequate by management to cover any losses arising on collection of accounts receivable.

f. Inventories

Inventories are stated at the lower of average cost of acquisition or production, including expenditure incurred in acquiring the inventories and bringing them to their existing location and condition, on market value.

g. Investments

Investments in subsidiaries in Brazil and abroad are valued using the equity method of accounting, based on the respective shareholders' equity valued at the same date and in accordance with accounting practices adopted by the Company.

The financial information of foreign subsidiaries are translated into Brazilian Reais, based on the following criteria:

- Balance sheet accounts at the exchange rate at the end of the year.
- Statement of income accounts at the exchange rate at the end of each month.

Other investments are valued at cost less a provision for devaluation, when applicable.

h. Property, plant and equipment

Property, plant and equipment are recorded at the cost of acquisition, formation or construction. Depreciation is calculated using the straight-line method at annual rates taking into consideration the useful economic life of the assets, adjusted for the number of operating shifts, as presented in Note 11. The forest resources depletion is calculated based on the extraction and the average cost of the forest. Interest accrued on financing of projects for construction, modernization and expansion of industrial units is allocated to the costs of the corresponding construction in progress.

Sadia S.A.

Notes to the interim financial information (Unaudited)

(In thousands of Reais)

i. Deferred charges

Deferred charges represents pre-operating costs incurred in the implementation of software, which are amortized on a straight-line basis over 5 years as from the beginning of operation.

j. Current and noncurrent liabilities

Current and noncurrent liabilities are stated at known or estimated amounts, plus related charges and monetary and exchange variations up to the interim financial information date.

k. Provisions

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation.

l. Income and social contribution taxes

The income and social contribution taxes both, current and deferred, are calculated based on the effective income and social contribution tax on taxable income, and consider the offsetting of tax loss carryforward and negative basis of social contribution limited to 30% of taxable income.

The deferred tax assets were recorded in accordance with CVM Instruction 371/02 and are represented significantly by temporary differences arising from non-deductible provisions, including also tax loss carryforward and negative basis of social contribution.

m. Employees' benefits

Employees' benefits are recorded based on actuarial studies prepared annually at the end of the year in compliance with CVM's Deliberation 371/00.

n. Reclassifications

To better reflect the transactions involving sales incentive and bonus for volumes management decided, on March 31, 2005, to classify such transactions as sales deductions instead of sales expenses. The amounts of R\$ 21,634 and R\$ 17,427 for the period ended March 31, 2005 and 2004, respectively, have been reclassified.

Sadia S.A.

Notes to the interim financial information (Unaudited)

(In thousands of Reais)

o. Supplementary Information

The statements of cash flows and added value are supplementary to the aforementioned financial information and have been included to facilitate additional analysis.

The statements of cash flows have been prepared in accordance with NPC 20 - Statement of Cash Flows, issued by IBRACON (Brazilian Institute of Independent Auditors).

The statements of added value have been prepared in accordance with the model of Fundação Instituto de Pesquisas Contábeis, Atuariais e Financeiras da Universidade de São Paulo, which have the objective of demonstrating the value of the wealth generated by the Company and its distribution among the elements that contributed to its generation.

p. Consolidated financial information

The transactions and balances between the Parent and its subsidiaries included in the consolidation process have been eliminated and the non-realized profit arising from the sales to the subsidiaries were excluded and incorporated to the inventory balances for each year. Minority interests were excluded from shareholders' equity and net income and are presented separately in the consolidated balance sheets and income statements.

In the case of joint ventures, the assets, liabilities and shareholders' equity and the result for the year were consolidated in proportion to the percentage of ownership.

In accordance with the CVM 408/04 Instruction, the Company consolidated the interim financial information of its investment funds Concórdia Foreign Investment Fund Class A and B and Taurus Fund Limited, where it is the wholly owned investment holder. These investment funds have the sole purpose of centralizing the foreign investment fund portfolio, delegating to third party the administrative functions and maximizing shareholder returns. As of March 31, 2005 and 2004, these investment funds were consolidated in the Company's financial information as they had loans collateralized by its own financial assets.

The consolidated financial information include the accounts of Sadia S.A. and its direct and indirect subsidiaries, including investments in joint ventures. The consolidated direct or indirect subsidiaries and the corresponding shareholdings of the Company are as follows:

Sadia S.A.

Notes to the interim financial information (Unaudited)

(In thousands of Reais)

As a way of reducing its credit risk and financial indebtedness, the Company maintains a revolving line of credit up to the amount of US\$100 million, through assignment of receivables from the Company's exports. The cost of the operation is an average interest rate of 0,7% p.a. + LIBOR. As a form of significantly reducing credit risk (client and country), credit insurance is contracted covering 90% of the payments to the banks in case of delinquency. In March 2005, the assigned amount of receivables amounted to approximately US\$ 93 million.

The Company also assigned receivables to a Credit Rights Investment Fund (FIDC) administered by Concórdia S.A. Corretora de Valores Mobiliários, Câmbio e Commodities, which has a total paid-in shareholders' equity of R\$195,000, and whose resources are allocated to the acquisition of Sadia S.A. domestic market receivables with a discounted cost equivalent to 95% of the CDI per senior quota. The receivables assigned to the fund have no recourse to the Company and the fund bears with the collection risk.

For other domestic accounts receivables, the Company has credit insurance, which guarantees a compensation, in case of delinquency, of 85% to customers with pre-approved credit and of 60% to the new customers or with a credit limit below R\$ 50 thousand.

(In thousands of Reais)

The Company reviewed its assumptions for the amortization of preoperating expenses incurred in the implementation of management software, reducing the amortization period from 5 to 4 years. This change in the amortization estimate results from the implementation of a new version of the software, which has been concluded on October, 2004. This change generated additional amortization in the period ended 31 March, 2004 in the amount of R\$ 2,914.

Sadia S.A.

Notes to the interim financial information (Unaudited)

(In thousands of Reais)

The International Finance Corporation - IFC funding involves certain restrictive covenants for distribution of dividends in addition to minimum mandatory dividends when obligations, such as certain consolidated financial ratios (current liquidity, long-term and total indebtedness) are not met. At December 31, 2003, the Company did not meet the obligation in connection with consolidated long-term indebtedness ratios, reclassifying for this reason the portion of long-term debt to short-term. This condition remains the same for this period.

15 Pension plans for employees

In addition to the pension plan, the Company's human resources policy offers the following benefits:

- Payment of the penalty in connection with the Government Severance Indemnity Fund for Employees upon retirement;
- Payment of a bonus for time of service;
- Payment of indemnification for termination of service; and
- Payment of indemnification for retirement.

These benefits are due in one single payment upon the employee's retirement or termination of service, and the amounts are computed by actuarial calculations.

16 Contingencies

The Company and its subsidiaries have several on going claims of a labor, civil and tax nature, resulting from its normal business activities. The respective provisions for contingencies were constituted based on the evaluation by the Company's legal counsel, which considered that unfavorable outcomes are likely. Whenever necessary, judicial deposits were made, on March 31, 2005 an amount of R\$ 77,621 (R\$ 77,785 on the consolidated) are recorded.

The Company's management believes that the provision for contingencies shown below is sufficient to cover any losses arising from legal proceedings.

Sadia S.A.

Tax litigation

The main tax contingencies involve the following cases:

a. Income and social contribution taxes on net income

Provision for income and social contribution taxes on net income amounting to R\$6,862, recorded on the acquisition of the subsidiary Granja Rezende (incorporated in 2002).

b. State VAT (ICMS)

The Company is a defendant in several administrative cases involving ICMS, mainly in the States of São Paulo, Rio de Janeiro and Amazonas (SUFRAMA), totaling a probable contingency estimated at R\$18,885.

c. Other tax contingencies

Several cases related to payment of IOF (Tax on Financial Operations), PIS (Social Integration Program Tax), COFINS (Tax for Social Security Financing) and others totaling a probable loss of R\$12,050.

d. Civil litigation

Represents principally proceedings involving claims for indemnification for losses and damages, including pain and suffering, arising from work-related accidents and consumer relations.

e. Labor claims

There are approximately 1,780 labor claims against the Company. These claims involve mainly the payment of overtime, and health exposure or hazard premiums, none of them involving a significant amount on an individual basis.

21 Risk management and financial instruments

The Company's operations are exposed to market risks, principally in relation to exchange rate variations, credit risk and grain purchase prices. These risks are monitored by the Risk Management Area that uses a specific system to calculate the "VAR -Value at Risk", and permanently monitored by the finance committee, composed of members of the Board of Directors and other finance executives of the Company, who are responsible for defining the Board's risk management strategy by determining the position and exposure limits. In March 31, 2005 the Value at Risk (VAR) of the financial assets and liabilities, for one year, with a 95% of confidence rating, represents R\$ 128,254 (not reviewed).

Sadia S.A.

Notes to the interim financial information (Unaudited)

*(In thousands of Reais)***a. Exchange rate risk**

The exchange rate risk for loans, financing and any other payables denominated in foreign currency is hedged by short-term investments denominated in foreign currency and by derivative financial instruments, such as rate swaps (dollar to CDI) and future market agreements, in addition to receivables in U.S. dollars from exports, which also reduce exchange variations by serving as a "natural hedge".

The Company, within its hedge strategy, uses currency futures contracts (US dollars and Euros), as a form of mitigating exchange rate risk. The nominal amounts of these contracts are not recorded in the financial information.

The results of the operations in the currency futures market, realized and not financially settled and the daily adjustments of currency futures contracts from the Future and Commodities Exchange - BM&F, are recorded in the financial information as "Amounts receivable from futures contracts" and "Amounts payable for futures contracts".

Unearned income from contracted operations with future maturities is not recognized in the financial information. The market value of these contracts, if they were settled at March 31, 2005, would give rise to a gain of approximately R\$70,460.

The Company exchange variation exposition (mainly in US dollars) are shown below:

	Consolidated	
	03/31/05	12/31/04
Assets and liabilities in foreign currency

(In thousands of Reais)

b. Credit risk

The Company is potentially exposed to credit risk in relation to its trade accounts receivable, long and short-term investments and derivative instruments. The Company limits the risk associated with these financial instruments by subjecting them to the control of highly rated financial institutions that operate within the limits pre-established by the credit and financing committees.

The concentration of credit risk with respect to accounts receivable is minimized due to the spread of its client base, since the Company does not have any customer or group representing 10% or more of its consolidated revenues, as well as granting credits for customers with solid financial and operational ratios. Generally, the Company does not require a guarantee for domestic accounts receivable.

An allowance for doubtful accounts was established for the receivable where management considers that there exists a risk of it not being received. The expenses with doubtful receivable totaled R\$2,454 in the year ended March 31, 2005 (R\$1,962 at March 31, 2004).

c. Grain purchase price risks

The Company's operations are exposed to the volatility in prices of grain (corn and soybean) used in the preparation of fodder for its breeding stock, where the price variation results from factors beyond the control of management, such as climate, the size of the harvest, transport and storage costs and government agricultural policies, among others. The Company maintains a risk management strategy based on its inventory policy through physical control, which includes purchases in advance in harvest periods aligned with future market operations.

d. Estimated market values

Financial assets and liabilities are presented in the interim financial information balance sheet at cost plus accrued income and expenses and are stated according to their corresponding expected realization or settlement.

The market value of the derivatives at March 31, 2005, estimated based on market price quotations for similar contracts, approximated corresponding book values. Estimated market values of financial instruments as compared to accounting balances are presented in the table below:

22 Insurance (not reviewed)

The Company and its subsidiaries have adopted a policy of maintaining insurance coverage at levels that management considers adequate to cover any risks related to liability or damages involving their assets. Due to the characteristics of the operations carried out in multiple locations, management takes out insurance for maximum possible loss in a single event, which covers fire, comprehensive general liability and miscellaneous risks (storms, lightning and floods). The Company also takes out insurance for the transportation of goods, personal injury and vehicles.

Sadia S.A.

Notes to the interim financial information (Unaudited)

(In thousands of Reais)

23 Private pension plan

a. Defined contribution plan

The Company and its subsidiary Concórdia S.A. C.V.M.C.C. are the sponsors of a defined contribution social security plan for employees managed by Fundação Atílio Francisco Xavier Fontana.

The supplementary pension benefit is defined as the difference between (i) the benefit wage (updated average of the last 12 participation salaries, limited to 80% of the last participation salary) and (ii) the amount of the pension paid by the National Institute of Social Security. The supplementary benefit is updated on the same base date and in accordance with the rates applicable to the main activity category of the Company, discounting real gains.

The actuarial system is that of capitalization for supplementary retirement and pension benefits and of simple apportionment for the supplementary disability compensation. The Company's contribution is based on a fixed percentage of the payroll of active participants, as annually recommended by independent actuaries and approved by the trustees of Fundação Atílio Francisco Xavier Fontana.

At March 31, 2005 and 2004, the parent company contributions totaled R\$484 and R\$472 respectively, and the consolidated contributions, R\$497 and R\$481, respectively.

According to the Foundation's statutes, the sponsoring companies are jointly liable for the obligations undertaken by the Foundation on behalf of its participants and dependents.

At March 31, 2005 the Foundation had a total of 23,585 participants (24,174 on December 31, 2004), of which 20,159 were active participants (20,775 on December 31, 2004).

Sadia S.A.

Notes to the interim financial information (Unaudited)

(In thousands of Reais)

b. Defined contribution plan

As from January 1, 2003, the Company began to adopt new supplementary social security plans under the defined contribution modality for all employees hired by Sadia and its subsidiaries. Under the terms of the regulations, plans are funded on an equitable basis so that the portion paid by the Company is equal to the payment made by the employee in accordance with a contribution scale based on salary bands that vary between 1.5% and 6% of the employee's remuneration, observing a contribution limit that is updated annually. The contributions made by the Company at March 31, 2005 and 2004 totaled R\$506 and R\$274 respectively. As of March 31, 2005 this plan had 12,402 participants (11,927 in December 31, 2004).

24 Subsequent events

On the Extraordinary Shareholders' Meeting on April 29, 2005, it was submitted to the Sadia's shareholders, the approval for the merger of wholly-owned subsidiary Só Frango Produtos Alimentícios Ltda. in order to obtain operational and corporate benefits, among others, resulting in significant economy scale due to the expenses reduction, originated from of the rationalization of the administrative and operational activities.

25 Additional information

The statements of cash flow and added value are presented as additional information to the financial information.

a. Statement of cash flow

The statement of cash flow was prepared by the indirect method based on accounting records in accordance with the instructions established in NPC 20 of the Brazilian Institute of Independent Auditors (IBRACON).
