Basis of Presentation and Reorganization of the Corporation

Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and item 310(b) of Regulation S-B and are prepared using the same accounting policies as outlined in note 3 of Intelgenx Corp. financial statements for the year ended December 31, 2005 and 2004 except for those discussed in note 4 below. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2006 are not necessarily indicative of the results that may be expected for the year ended December 31, 2006. The unaudited financial statements should be read in conjunction with the financial statements and notes thereto included in the Intelgenx Corp. audited financial statements for the years ended December 31, 2005 and 2004.

Reorganization of the Corporation

On April 28, 2006, Intelgenx Corp. entered into a share exchange agreement with IntelGenx Technologies Corp. (formerly Big Flash Corporation), an inactive public shell company, for the acquisition by IntelGenx Technologies Corp. of all the issued and outstanding shares of Intelgenx Corp.

Under accounting principles generally accepted in the United States, the share exchange is considered to be a capital transaction in substance, rather than a business combination. That is, the share exchange is equivalent to the issuance of stock by Intelgenx Corp. for the net monetary assets of IntelGenx Technologies Corp. accompanied by a recapitalization, and is accounted for as a change in capital structure. Accordingly, the accounting for the share exchange is identical to that resulting from a reverse acquisition, except no goodwill is recorded. Under reverse takeover accounting, the post reverse acquisition comparative historical financial statements of the legal acquirer, IntelGenx Technologies Corp., are those of the legal acquiree, Intelgenx Corp., which are considered to be the accounting acquirer.

Item 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following information should be read in conjunction with the financial statements for the three and six month periods ended June 30, 2006 and notes thereto appearing elsewhere in this Form 10-QSB. On August 10, 2006, pursuant to a vote by our shareholders, we changed our corporate name from Big Flash Corp. to IntelGenx Technologies Corp. Unless otherwise indicated or the context otherwise requires, the "Company" we, "us," and "our" and "Intelgenx" refer to IntelGenx Technologies Corp. and its subsidiaries including IntelGenx Corp.

Overview

Company Background

IntelGenx is a drug delivery company established in 2003 and headquartered in Montreal, Quebec, Canada, which focuses on the development of novel oral immediate-release and controlled-release products for the generic pharmaceutical market. IntelGenx's business strategy is to develop pharmaceutical products based on its proprietary drug delivery technologies and then license commercial rights for such products to pharmaceutical partners once the viability of a product has been demonstrated. We expect a partner company will, in some cases, fund development of the licensed products, complete the Food and Drug Administration ("FDA") regulatory approval process relating to the licensed products, and assume responsibility for marketing and distributing such products.

In addition, the Company anticipates that it may undertake full development of certain products without seeking a partner until the product reaches the marketing and distribution stage. The Company will assess the potential for successful development of a product and associated costs, and then determine at which stage it is most prudent to seek a partner, balancing such costs against the potential for additional returns earned by partnering later in the development process.

The Company has also undertaken a strategy under which it will work with pharmaceutical companies in order to develop new dosage forms in addition to already existing ones for pharmaceutical products for which patent protection is about to expire. Under §(505)(b)(2) of the Food, Drug & Cosmetics Act, FDA will grant a market exclusivity of up to three years for such a new dosage form. The Company anticipates significant returns from successfully obtaining market exclusivity in this manner.

The Company is currently continuing to develop the existing products in its pipeline and may also perform research and development on other potential products as the opportunities present themselves.

The Company does not currently plan to acquire a manufacturing facility. The Company currently purchases and or leases, on an as-needed basis, the equipment necessary for performing research and development activities related to its products.

The Company will hire new personnel, primarily in the area of research and development, on an as-needed basis as the Company enters into partnership agreements and increases its research and development activities.

Recent Developments

On April 28, 2006, the Company entered into a Share Exchange Agreement, whereby the Company, (through its wholly-owned subsidiary 6544361 Canada, Inc., a Canadian company) acquired 100% of the issued and outstanding common stock and warrants of IntelGenx Corp., a Canadian corporation . Pursuant to the Share Exchange Agreement, and several separate related agreements, the Company issued, as consideration for the IntelGenx Corp. common stock, 14,507,489 shares of the Company's common stock to various shareholders of IntelGenx Corp., along with 100,000 common stock purchase warrants to an IntelGenx Corp. shareholder. The warrants granted are exercisable at \$0.41 per share of common stock, and expire on April 28, 2008. Upon completion of the acquisition, the total shares of common stock issued by the Company pertaining to the acquisition of IntelGenx Corp. constituted 68.7% of the 16,007,489 shares of common stock of the Company then outstanding. Following the completion of the acquisition, IntelGenx Corp. continued its operations as a controlled subsidiary of the Company.

Since we did not have any substantial assets or operations during the two fiscal years prior to the Intelgenx Corp. Acquisition, Intelgenx Corp. is deemed to be the accounting acquirer of Intelgenx Technologies Corp. and the discussion of operations below relate to the operations of Intelgenx Corp.

Results of Operations six month period ended June 30, 2006 compared to the six month period ended June 30, 2005.

	2006	2005	Increase/ (Decrease)	Percentage Change
Revenue	\$ 188,686	\$ 0	\$ 188,686	%
Research and development	239,701	35,171	204,530	582%
General and Administrative	76,377	35,327	41,050	116%
Interest and financing fees	27,877	3,574	24,303	680%
Net income (loss)	(127,577)	(51,271)	76,306	149%

Revenue

Our revenues from R&D services provided are \$188,686 for the first two quarters of 2006, compared to \$0 for the same period in 2005. Management believes that we may begin to realize increased sales revenues by early 2007.

General and Administrative

General administrative expenses increased by \$41,050 (116%) from \$35,327 for the six month period ended June 30, 2005 to \$76,377 for the six month period ended June 30, 2006. The increase is attributed to an increase in corporate operations.

Research and development

Costs related to research and development increased from \$35,171 in the six month period ended June 30, 2005 to \$239,701 for the same period in 2006, which reflects the commencement of some projects with certain partners started in 2005 and 2006. Management believes that with funding provided by the private placement of common stock (See "Business Recent Developments"), research and development expenses will increase significantly during the remainder of 2006 and into 2007.

Interest Expense

We incurred interest and financing fee expenses of \$27,877 in the six month period ended June 30, 2006 compared to \$3,574 for the same period in 2005. Included in the interest expense for the first six month of 2006 are \$19,420 representing the value of 100,000 warrants issued as a non-cash financing fee payment for a bridge loan. Since the loan was received and repaid in the first six month of this year and the warrants are a one time expense, Management expects the interest expense to be significantly lower for the rest of 2006.

Net Loss

We recorded a net loss of \$127,577 in the six month period ended June 30, 2006 compared to a net loss of \$51,271 for the same period in 2005. Management believes that we will continue to operate at a net loss until such time as we can complete our business development efforts and begin to realize increased sales revenues by early 2007.

Income tax Losses

We have approximately \$100,000 of Canadian and provincial income tax losses as of December 31, 2005, which may be carried forward and offset against taxable income in future years. The use of these losses to reduce future income taxes will depend on the generation of sufficient taxable income prior to the expiration of the carryforwards after the year 2015. In the event of certain changes in control, there will be an annual limitation on the amount of the income tax losses carryforwards which can be used. No tax benefit regarding these losses has been reported in the financial statements for the year ended December 31, 2005 nor for the six month ended June 30, 2006 because management believes there is a 50% or greater chance that the carryforward will not be used. Accordingly, the potential tax benefit of the loss carryforward is offset by a valuation allowance of the same amount.

Prepaid Expenses

At June 30, 2006 our Balance Sheet shows prepaid expenses of \$136,569 compared to \$3,186 for the same period in 2005. The increase is due to the issuance of 325,000 shares in consideration of investor relations services to be rendered

Liquidity and Capital Resources

At June 30, 2006, we had cash on hand of \$607,521. We also had accounts receivable of \$136,306, income taxes recoverable of \$9,794 and investment tax credits receivable of \$95,748.

At June 30, 2006, we had accounts payable and accrued liabilities of \$72,671, of these liabilities, approximately \$25,500 was payable to shareholders. Our current portion of the long term debt was \$12,543.

At June 30, 2006, we had an operating line of credit in place with a maximum of \$45,000 of which \$0 was borrowed.

We believe that the proceeds of the private placement completed on April 28, 2006, in the amount of approximately 900,000 net of transactions cost, will be sufficient to satisfy cash requirements for the next 12 - 18 months.

At June 30, 2006, we had total assets of \$1,155,348 and shareholders' equity of \$891,975.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.
