NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

THREE MONTHS ENDED MARCH 31, 2009 AND 2008

Note 1 Basis of presentation, organization and other matters

On October 20, 2008, Euro Trend Inc. ("Euro Trend") acquired all of the outstanding capital stock of Data Storage Corporation ("Data Storage"). Data Storage became a wholly owned subsidiary of Euro Trend. On January 6, 2009 Euro Trend, Inc. filed with the state of Nevada changing its name to Data Storage Corporation. The business of Data Storage was the only business of Euro Trend after the acquisition.

Data Storage Corporation was incorporated in Delaware on August 29, 2001. Data Storage Corporation is a provider of data backup services. The Company specializes in secure disk-to-disk data backup and restoration solutions for disaster recovery, business continuity, and regulatory compliance.

Data Storage Corporation derives its revenues from the sale of solutions that provide businesses protection of critical electronic data. Primarily, these services consist of email storage and compliance solutions; off site data back up; continuous data protection; data duplication; high availability replication and virtual tape libraries for disaster recovery and business continuity. The Company has Data Centers in Westbury, New York and maintains equipment under a strategic alliance with Broadsmart a VoIP company in Fort Lauderdale, Florida to provide redundant data protection.

The Company accounted for the acquisition as a recapitalization. The recapitalization was the merger of a private operating company (Data Storage) into a public corporation (Euro Trend) with nominal net assets and as such is treated as a capital transaction, rather than a business combination. As a result no Goodwill is recorded. The transaction is the equivalent to the issuance of stock by the private company for the net monetary assets of the shell corporation. The pre acquisition financial statements of Data Storage are treated as the historical financial statements of the consolidated companies.

The consolidated balance sheets, statements of operations and footnotes have been revised to show the effect on the outstanding shares resulting from the acquisition. The effect on the outstanding shares is based on the 3.89 common shares of Euro Trend for every one share of Data Storage's common stock. In addition, where required all share amounts have been revised to reflect the 3.89 common shares of Euro Trend for every one share of Data Storage's common stock.

Condensed Consolidated Financial Statements

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all normal recurring adjustments considered necessary for a fair statement of the results of operations have been included. The results of operations for the three months ended March 31, 2009 are not necessarily indicative of the results of operations for the full year. When reading the financial information contained in this Quarterly Report, reference should be made to the financial statements, schedule and notes contained in the Company's Amended Annual Report on Form 10-K for the year ended December 31, 2008

Liquidity

The financial statements have been prepared using accounting principles generally accepted in the United States of America applicable for a going concern, which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. For the three months ended March 31, 2009, the Company has generated revenues of \$139,373 but has incurred a net loss of \$214,078. Its ability to continue as a going concern is dependent upon achieving sales growth, reduction of operation expenses and ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due, and upon profitable operations. The Company has been funded by the CEO and majority shareholder since inception. It is the intention of Charles Piluso to continue to fund the Company on an as needed basis.

Note 2 Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

Note 3 Stockholders' Equity

On January 7, 2009, our stockholders approved a one-for-seven reverse stock split, which became effective on January 27, 2009. All references to share and per-share data for all periods presented in this report have been adjusted to give effect to this reverse split.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information contained in Item 2 contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Actual results may materially differ from those projected in the forward-looking statements as a result of certain risks and uncertainties set forth in this report. Although management believes that the assumptions made and expectations reflected in the forward-looking statements are reasonable, there is no assurance that the underlying assumptions will, in fact, prove to be correct or that actual results will not be different from expectations expressed in this report.

Liquidity and Capital Resources

In 2009 we intend to continue to work to increase our presence in the marketplace through both organic growth and acquisition of data storage service provider's assets.
