Explanatory Note

This Amendment No. 2 on Form 10-K/A of Blackbaud, Inc. amends our Annual Report on Form 10-K for the year ended December 31, 2012, initially filed with the United States Securities Exchange Commission on February 27, 2013, as amended by Amendment No. 1 thereto filed on June 21, 2013 ("Amendment No. 1"). This Amendment No. 2 is being filed solely to supplement disclosure under "Item 9A. Controls and procedures" of Amendment No. 1. This filing also includes an amended "Item 15. Exhibits and financial statements schedules." There have been no changes or updates to the financial statements included herein since the date of the original filing. The changes to Item 15 include an updated consent of our independent registered public accounting firm and updated certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 and 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002. Except as set forth above, our original Annual Report on Form 10-K is not being amended or updated in any other manner.

Item 9A. Controls and procedures

Evaluation of disclosure controls and procedures

Disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) are designed only to provide reasonable assurance that they will meet their objectives. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e)) pursuant to Exchange Act Rule 13a-15(b). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective to provide the reasonable assurance discussed above.

Changes in internal control over financial reporting

In connection with the acquisition of Convio, we performed certain due diligence procedures related to Convio's financial reporting and disclosure controls. As part of the ongoing integration, we will continue to assess the overall control environment of this business. No change in internal control over financial reporting occurred during the most recent fiscal quarter with respect to our operations, which has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Management's report on internal control over financial reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act). Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. GAAP. Our internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. GAAP, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the financial statements. Our management conducted an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2012, based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that our internal control over financial reporting was effective as of December 31, 2012.

Attestation Report of Registered Public Accounting Firm

The effectiveness of our internal control over financial reporting as of December 31, 2012, has been audited by our independent registered public accounting firm, as stated in their attestation report, which is included herein.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Blackbaud, Inc.

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of comprehensive income, of cash flows and of stockholders' equity present fairly, in all material respects, the financial position of Blackbaud, Inc. and its subsidiaries at December 31, 2012 and 2011, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to consolidated financial statements

1. Organization

We provide on-premise and cloud-based software solutions and related services designed specifically for nonprofit organizations. Our products and services enable nonprofit organizations to increase donations, reduce fundraising costs, improve communications with constituents, manage their finances and optimize internal operations. As of December 31, 2012, we had more than 27,000 active customers distributed across multiple verticals within the nonprofit market including education, foundations, health and human services, religion, arts and cultural, public and societal benefits, environment and animal welfare as well as international foreign affairs.

2. Summary of significant accounting policies

Basis of presentation

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

Basis of consolidation

The consolidated financial statements include the accounts of the Blackbaud, Inc. and its wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting periods. Areas of the financial statements where estimates may have the most significant effect include revenue recognition, the allowance for sales returns and doubtful accounts, deferred sales commissions and professional services costs, valuation of derivative instruments, long-lived and intangible assets and goodwill, stock-based compensation and the provision for income taxes. Changes in the facts or circumstances underlying these estimates could result in material changes and actual results could materially differ from these estimates.

Revenue recognition

Our revenue is primarily generated from the following sources: (i) charging for the use of our software products in a hosted environment; (ii) selling perpetual licenses of our software products; (iii) providing professional services including implementation, training, consulting, analytic, hosting and other services; and (iv) providing software maintenance and support services.

We recognize revenue from the sale of perpetual software license rights when all of the following conditions are met:

- Persuasive evidence of an arrangement exists;
- The product or service has been delivered;
- The fee is fixed or determinable; and
- Collection of the resulting receivable is probable.

Determining whether and when these criteria have been met can require significant judgment and estimates. We deem acceptance of an agreement to be evidence of an arrangement. Delivery occurs when the product is shipped or transmitted, and title and risk of loss have transferred to the customers. Our typical agreements do not include customer acceptance provisions; however, if acceptance provisions are provided, delivery is deemed to occur upon acceptance. We consider the fee to be fixed or determinable unless the fee is subject to refund or adjustment or is not payable within our standard payment terms. Payment terms greater than 90 days are considered to be beyond our customary payment terms. Collection is deemed probable if we expect that the customer will be able to pay amounts under the arrangement as they become due. If we determine that collection is not probable, we defer revenue recognition until collection. Revenue is recognized net of sales returns and allowances.

Blackbaud, Inc.

Notes to consolidated financial statements (continued)

Subscriptions

We provide hosting services to customers who have purchased perpetual rights to certain of our software products (hosting services). Revenue from hosting services, as well as data enrichment services, data management services and online training programs is recognized ratably beginning on the activation date over the term of the agreement, which generally ranges from one to three years. Any related set-up fees are recognized ratably over the estimated period that the customer benefits from the related hosting service.

We make certain of our software products available for use in hosted application arrangements without licensing perpetual rights to the software (hosted applications). Revenue from hosted applications is recognized ratably beginning on the activation date over the term of the agreement, which generally ranges from one to three years. Any revenue related to upfront activation, set-up or implementation fees is recognized ratably over the estimated period that the customer benefits from the related hosted application. Direct and incremental costs relating to activation, set-up and implementation for hosted applications are capitalized until the hosted application is deployed and in use, and then expensed over the estimated period that the customer benefits from the related hosted application.

For arrangements that have multiple elements and do not include software licenses, we allocate arrangement consideration at the inception of the arrangement to those elements that qualify as separate units of accounting. The arrangement consideration is allocated to the separate units of accounting based on relative selling price method in accordance with the selling price hierarchy, which includes: (i) vendor specific objective evidence (VSOE) if available; (ii) third-party evidence (TPE) if VSOE is not available; and (iii) best estimate of selling price if neither VSOE nor TPE is available. In general, we use VSOE to allocate the selling price to subscription and service deliverables.

Revenue from transaction processing fees is recognized when the service is provided and the amounts are determinable. Credit card fees directly associated with processing donations for customers are included in subscriptions revenue, net of related transaction costs.

License fees

We sell software licenses with maintenance, varying levels of professional services and, in certain instances, with hosting services. We allocate revenue to each of the elements in these arrangements using the residual method under which we first allocate revenue to the undelivered elements, typically the non-software license components, based on objective evidence of the fair value of the various elements. We determine the fair value of the various elements using different methods. Fair value for maintenance services associated with software licenses is based upon renewal rates stated in the agreements with customers, which vary according to the level of support service provided under the maintenance program. Fair value of professional services and other products and services is based on sales of these products and services to other customers when sold on a stand-alone basis. Any remaining revenue is allocated to the delivered elements which is normally the software license in the arrangement.

When a software license is sold with software customization services, generally the services are to provide customer support for assistance in creating special reports and other enhancements that will assist with efforts to improve operational efficiency and/or to support business process improvements. These services are not essential to the functionality of the software. However, when software customization services are considered essential to the functionality of the software, we recognize revenue for both the software license and the services using the percentage-of-completion method.

Services

We generally bill consulting, installation and implementation services based on hourly rates plus reimbursable travel-related expenses. Revenue is recognized for these services over the period the services are performed.

We recognize analytic services revenue from donor prospect research engagements, the sale of lists of potential donors, benchmarking studies and data modeling service engagements upon delivery. In arrangements where we provide customers the right to updates to the lists during the contract period, revenue is recognized ratably over the contract period.

We sell training at a fixed rate for each specific class at a per attendee price or at a packaged price for several attendees, and recognize the related revenue upon the customer attending and completing training. Additionally, we sell fixed-rate programs, which permit customers to attend unlimited training over a specified contract period, typically one year, subject to certain restrictions, and revenue is recognized ratably over this contract period.

F-8

Blackbaud, Inc.

Notes to consolidated financial statements (continued)

Maintenance

We recognize revenue from maintenance services ratably over the contract term, typically one year. Maintenance contracts are at rates that vary according to the level of the maintenance program and are generally renewable annually. Maintenance contracts also include the right to unspecified product upgrades on an if-and-when available basis. Certain support services are sold in prepaid units of time and recognized as revenue upon their usage.

Deferred revenue

To the extent that our customers are billed for the above described services in advance of delivery, we record such amounts in deferred revenue.

Fair value measurements

We measure certain financial assets and liabilities at fair value on a recurring basis, including derivative instruments. Fair value is defined as the exchange price that would be received upon purchase of an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. We use a three-tier fair value hierarchy to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows:

Level 1 - Quoted prices for identical assets or liabilities in active markets;

Level 2 - Quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and

Level 3 - Valuations derived from valuation techniques in which one or more significant inputs are unobservable.

Our financial assets and liabilities are classified in their entirety within the hierarchy based on the lowest level of input that is significant to fair value measurement. Changes to a financial assets' or liabilities' level within the fair value hierarchy are determined as of the end of a reporting period.

Derivative instruments

We use derivative instruments to manage interest rate risk. We view derivative instruments as risk management tools and do not use them for trading or speculative purposes. Our policy requires that derivatives used for hedging purposes be designated and effective as a hedge of the identified risk exposure at the inception of the contract. Accordingly, changes in fair value of the derivative contract must be highly correlated with changes in the fair value of the underlying hedged item at inception of the hedge and over the life of the hedge contract.

We record all derivative instruments on our consolidated balance sheets at fair value. If the derivative is designated as a fair value hedge, the changes in the fair value of the derivative and of the hedged item attributable to the hedged risk are recognized currently in earnings. If the derivative is designated as a cash flow hedge, the effective portions of the changes in fair value of the derivative are recorded in other comprehensive income and reclassified to earnings in a manner that matches the timing of the earnings impact of the hedged transactions. Ineffective portions of the changes in the fair value of cash flow hedges are recognized currently in earnings.

Reimbursable travel expense

We expense reimbursable travel costs as incurred and include them in cost of other revenue. The reimbursement of these costs by our customers is included in other revenue.

Sales taxes

We present sales taxes and other taxes collected from customers and remitted to governmental authorities on a net basis and, as such, exclude them from revenues.

Blackbaud, Inc.

Notes to consolidated financial statements (continued)

Shipping and handling

We expense shipping and handling costs as incurred and include them in cost of other revenue. The reimbursement of these costs by our customers is included in other revenue.

Cash and cash equivalents

We consider all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

Donor restricted cash and donations payable

Restricted cash consists of donations collected by us and payable to our customers, net of the associated transaction fees earned. Monies associated with donations payable are segregated in a separate bank account and used exclusively for the payment of donations payable. This usage restriction is either legally or internally imposed and reflects our intention with regard to such deposits.

Concentration of Credit Risk

Financial instruments that potentially subject us to concentrations of credit risk consist of cash and cash equivalents, donor restricted cash and accounts receivable. Our cash and cash equivalents and donor restricted cash are placed with high credit-quality financial institutions. Our accounts receivable are derived from sales to customers who primarily operate in the nonprofit sector. With respect to accounts receivable, we perform ongoing evaluations of our customers and maintain an allowance for doubtful accounts based on historical experience and our expectations of future losses. As of and for the years ended December 31, 2012, 2011 and 2010, there were no significant concentrations with respect to our consolidated revenues or accounts receivable.

Property and equipment

We record property and equipment at cost and depreciate them over their estimated useful lives using the straight-line method. Property and equipment subject to capital leases are depreciated over the lesser of the term of the lease or the estimated useful life of the asset. Upon retirement or sale, the cost of assets disposed of and the related accumulated depreciation are removed from the accounts and any resulting gain or loss is credited or charged to income. Repair and maintenance costs are expensed as incurred.

Construction-in-progress represents purchases of computer software and hardware associated with new internal system implementation projects which had not been placed in service at the respective balance sheet dates. We transferred these assets to the applicable property category on the date they are placed in service. There was no capitalized interest applicable to construction-in-progress for the years ended December 31, 2012 and 2011.

Goodwill

Goodwill represents the purchase price in excess of the net amount assigned to assets acquired and liabilities assumed by us in a business combination. Goodwill is allocated to reporting units and tested annually for impairment. Our reporting units are our four reportable segments and our payment processing operations. We will also test goodwill for impairment between annual impairment tests if indicators of potential impairment exist. We first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. To the extent the qualitative factors indicate that there is more than 50% likelihood that the fair value is less than the carrying amount, we compare the fair value of the reporting unit with its carrying amount. If the carrying amount exceeds its fair value, impairment is indicated. The 2012 annual impairment test indicated the estimated fair value of the reporting units significantly exceeded the carrying value. There was no impairment of goodwill during 2012, 2011 or 2010.

Blackbaud, Inc.

Notes to consolidated financial statements (continued)

Intangible assets

We amortize finite-lived intangible assets over their estimated useful lives as follows.

	Basis of amortization	Amortization period (in years)
Customer relationships	Straight-line and accelerated (1)	4-15
Marketing assets	Straight-line	1-8
Acquired software and technology	Straight-line	1-10
Non-compete agreements	Straight-line	1-5
Database	Straight-line	8

(1) Certain of the customer relationships are amortized on an accelerated basis.

Indefinite-lived intangible assets consist of tradenames. We evaluate the potential for impairment of finite and indefinite-lived intangible assets periodically and take into account events or circumstances that indicate revised estimates of useful lives or that the carrying amount may not be recoverable. If the carrying amount is no longer recoverable based upon the undiscounted cash flows of the asset, the amount of impairment is the difference between the carrying amount and the fair value of the asset. Substantially all of our intangible assets were acquired in business combinations. There was no impairment of intangible assets during 2012, 2011 or 2010.

Cost method investments

Cost method investments included in other assets consist of investments in privately held companies where we do not have the ability to exercise significant influence or have control over the investee. We record these investments at cost and periodically test them for other-than-temporary impairment. During the years ended December 31, 2012 and 2011, we determined that our cost method investment had other-than-temporary impairment based on the projected liquidity of the investment. We used the income approach to determine the fair value of the investment in determining the impairment. An impairment loss of \$0.2 million and \$1.8 million was recorded in income from operations for the years ended December 31, 2012 and 2011, respectively. The aggregate carrying amount of our cost method investment at December 31, 2011 was \$0.2 million. There were no remaining cost method investments at December 31, 2012.

Deferred financing costs

Deferred financing costs included in other assets represent the direct costs of entering into both our revolving credit facility in June 2011 and our amended and restated credit facility in February 2012. These costs are amortized as interest expense using the effective interest method. The deferred financing fees are being amortized over the term of the credit facility.

Stock-based compensation

Stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense over the requisite service period, which is generally the vesting period. Stock-based compensation cost arising from stock option grants and awards with performance or market conditions are recognized using the accelerated method. Costs arising from restricted stock and stock appreciation right grants are recognized on a straight-line basis.

Income taxes

We make estimates and judgments in accounting for income taxes. The calculation of income tax provision requires estimates due to transactions, credits and calculations where the ultimate tax determination is uncertain. Uncertainties arise as a consequence of the actual source of taxable income between domestic and foreign locations, the outcome of tax audits and the ultimate utilization of tax credits. To the extent actual results differ from estimated amounts recorded, such differences will impact the income tax provision in the period in which the determination is made.

We make estimates in determining tax assets and liabilities, which arise from differences in the timing of recognition of revenue and expense for tax and financial statement purposes. We record valuation allowances to reduce our

deferred tax assets to the amount expected to be realized. In assessing the adequacy of a recorded valuation allowance significant judgment is required. We consider all positive and negative evidence and a variety of factors including the scheduled reversal of deferred tax liabilities, historical and projected future taxable income, and prudent and feasible tax planning strategies. If we determine there

F-11

Blackbaud, Inc.

Notes to consolidated financial statements (continued)

is less than a 50% likelihood that we will be able to use a deferred tax asset in the future in excess of its net carrying value, then an adjustment to the deferred tax asset valuation allowance is made to reduce income tax expense, thereby increasing net income in the period such determination was made.

We measure and recognize uncertain tax positions. To recognize such positions we must first determine if it is more likely than not that the position will be sustained on audit. We must then measure the benefit as the largest amount that is more than 50% likely of being realized upon ultimate settlement. Significant judgment is required in the identification and measurement of uncertain tax positions.

Foreign currency

Net assets recorded in a foreign currency are translated at the exchange rate on the balance sheet date. Revenue and expense items are translated at the average exchange rate for the year. The resulting translation adjustments are recorded in accumulated other comprehensive income.

Gains and losses resulting from foreign currency transactions denominated in currency other than the functional currency are recorded at the approximate rate of exchange at the transaction date in other expense, net. For the year ended December 31, 2012, we recorded net foreign currency loss of \$0.4 million. For the years ended December 31, 2011 and 2010, we recorded net foreign currency gain of \$0.3 million and \$0.1 million, respectively.

Research and development

Research and development costs are expensed as incurred. These costs include salaries and related human resource costs, third-party contractor expenses, software development tools, an allocation of facilities and depreciation expenses and other expenses in developing new products and upgrading and enhancing existing products.

Software development costs

The costs incurred in the preliminary stages of internal use software development are expensed as incurred. Once an application has reached the development stage, internal and external costs, if direct and incremental, are capitalized until the software is substantially complete and ready for its intended use. Capitalization ceases upon completion of all substantial testing. We also capitalize costs related to specific upgrades and enhancements when it is probable the expenditures will result in additional functionality. Capitalized costs are recorded as part of computer software costs. Internal use software is amortized on a straight line basis over its estimated useful life, generally three years.

Costs for the development of software to be sold are expensed as incurred until technological feasibility has been established, at which time such costs are capitalized until the product is available for general release to customers. Capitalized software development costs include direct labor costs and fringe benefit costs attributed to programmers, software engineers and quality control teams working on products after they reach technological feasibility but before they are generally available to customers for sale. Capitalized software development costs are typically amortized over the estimated product life of generally three years, on a straight-line basis.

Management evaluates the useful lives of these assets on an annual basis and tests for impairment whenever events or changes in circumstances occur that could impact the recoverability of these assets. There were no impairments during the years ended December 31, 2012, 2011 or 2010. At December 31, 2012 and 2011, software development costs, net of accumulated amortization, were \$2.0 million and \$1.1 million, respectively, and are included in other assets on the consolidated balance sheet. Amortization expense related to software development costs was \$0.4 million, \$0.1 million, \$0.1 million for the years ended December 31, 2012, 2011 and 2010, respectively, and is included in both cost of license fees and cost of subscriptions.

Sales returns and allowance for doubtful accounts

We provide customers a 30-day right of return and under certain circumstances provide service related credits to our customers. We maintain a reserve for returns and credits which is estimated based on several factors including historical experience, known credits yet to be issued, the aging of customer accounts and the nature of service level commitments. Provisions for sales returns and credits are charged against the related revenue items.

In addition, we record an allowance for doubtful accounts that reflects estimates of probable credit losses. This assessment is based on several factors including aging of customer accounts, known customer specific risks, historical experience and

existing economic conditions. Accounts are charged against the allowance after all means of collection are exhausted and recovery is considered remote. Provisions for doubtful accounts are recorded in general and administrative expense.

Below is a summary of the changes in our allowance for doubtful accounts.

Sales commissions

We pay sales commissions at the time contracts with customers are signed or shortly thereafter, depending on the size and duration of the sales contract. To the extent that these commissions relate to revenue not yet recognized, the amounts are recorded as deferred sales commission costs. Subsequently, the commissions are recognized as expense as the revenue is recognized.

Below is a summary of the changes in our deferred sales commission costs included in prepaid expenses and other current assets.

2010	5,108	12,985	(6,545)) 11,548

Advertising costs

We expense advertising costs as incurred, which was \$1.2 million for the year ended December 31, 2012, and \$1.1 million for both the years ended December 31, 2011 and 2010.

Restructuring Costs

Restructuring costs include charges for the costs of exit or disposal activities. The liability for costs associated with exit or disposal activities is measured initially at fair value and only recognized when the liability is incurred.

Restructuring costs are not directly identified with a particular segment and as a result, management does not consider these charges in the evaluation of the operating income from segments.

Impairment of long-lived assets

We review long-lived assets for impairment when events change or circumstances indicate the carrying amount may not be recoverable. If such events or changes in circumstances are present, the undiscounted cash flow method is used to determine whether the asset is impaired. No impairment of long-lived assets resulted in 2012, 2011 or 2010.

Earnings per share

We compute basic earnings per share by dividing net income available to common stockholders by the weighted average number of common shares outstanding. Diluted earnings per share is computed by dividing net income available to common stockholders by the weighted average number of common shares and dilutive potential common shares then outstanding. Diluted earnings per share reflect the assumed conversion of all dilutive securities using the treasury stock method. Dilutive potential common shares consist of shares issuable upon the exercise of stock options, settlement of stock appreciation rights and vesting of restricted stock awards and units.

The following table sets forth the computation of basic and diluted earnings per share:

(in thousands, except share and per share amounts)	Year ended December 31,		
	2012	2011	2010
Numerator:			
Net income	\$6,583	\$33,220	\$29,187

Recently adopted accounting pronouncements

Effective January 1, 2012, we adopted ASU 2011-05, Presentation of Comprehensive Income, which (i) eliminates the option to present components of other comprehensive income, or OCI, as part of the statement of changes in stockholders' equity and (ii) requires the presentation of each component of net income and each component of OCI either in a single continuous statement or in two separate but consecutive statements. The adoption of ASU 2011-05 did not have a material impact on our consolidated financial statements. We have presented each component of net income and OCI in a single continuous statement.

Effective January 1, 2012, we adopted ASU 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards, which amends ASC 820, Fair Value Measurement. ASU 2011-04 provides common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with U.S. GAAP and International Financial Reporting Standards (IFRS) and improves the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. ASU 2011-04 is effective for entities prospectively for interim and annual periods beginning after December 15, 2011. The adoption of ASU 2011-04 did not have a material impact on our consolidated financial statements.

Recently issued accounting pronouncements

In February 2013, the FASB issued ASU 2013-02, Comprehensive Income (Topic 220) Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income, which requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about those amounts. ASU 2013-02 is effective prospectively for reporting periods beginning after December 15, 2012. We do not anticipate any material impact from the adoption of ASU 2013-02.

In July 2012, the FASB issued ASU 2012-02, Intangibles - Goodwill and Other (Topic 350) Testing Indefinite-Lived Intangible Assets for Impairment, which simplifies how entities test indefinite-lived intangible assets for impairment. ASU 2012-02 permits an entity to first assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test currently required by ASC Topic 350-30 on general intangibles other than goodwill. ASU 2012-02 is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012. Early adoption is permitted, provided that the entity has not yet issued its financial statements. We do not anticipate any material impact from the adoption of ASU 2012-02.

3. Business combinations

Convio

In May 2012, we completed our acquisition of Convio, Inc. (Convio), for approximately \$329.8 million in cash consideration and the assumption of unvested equity awards valued at approximately \$5.9 million, for a total of \$335.7 million. Convio was a leading provider of on-demand constituent engagement solutions that enabled nonprofit organizations to more effectively raise funds, advocate for change and cultivate relationships. The acquisition of Convio expands our subscription and online offerings and accelerates our evolution to a subscription-based revenue model. As a result of the acquisition, Convio has become a wholly-owned subsidiary of ours. The results of operations of Convio are included in our consolidated financial statements from the date of acquisition. Since the date of acquisition through December 31, 2012, total revenue from Convio was \$50.7 million. Because we have integrated a substantial amount of the Convio operations, it is impracticable to determine the operating costs attributable solely to the acquired business. During the year ended December 31, 2012, we incurred \$6.4 million of acquisition-related costs associated with the acquisition of Convio, which were recorded in general and administrative expense.

We financed the acquisition of Convio through cash on hand and borrowings of \$312.0 million under our amended credit facility. In connection with closing the Convio acquisition, we designated Convio as a material domestic subsidiary under our credit facility. As a material domestic subsidiary, Convio guarantees amounts outstanding under the credit facility and pledges certain stock of its subsidiaries.

Notes to consolidated financial statements (continued)

The following table summarizes the allocation of the purchase price based on the estimated fair value of the assets acquired and the liabilities assumed:

(in thousands)

Net working capital, excluding deferred revenue	\$54,912	
Property and equipment	6,591	
Other long term assets	75	
Deferred revenue	(7,917)
Deferred tax liability	(31,648)
Intangible assets and liabilities	139,650	
Goodwill	174,011	
	\$335,674	

The estimated fair value of accounts receivable acquired approximates the contractual value of \$12.8 million. The goodwill recognized is attributable primarily to the assembled workforce of Convio and the opportunities for expected synergies. None of the goodwill arising in the acquisition is deductible for income tax purposes. The estimated amount of goodwill assigned to the Enterprise Customer Business Unit, or ECBU, and the General Markets Business Unit, or GMBU, reporting segments was \$125.3 million, and \$48.7 million, respectively.

The acquisition resulted in the identification of the following identifiable intangible assets:

	Intangible assets acquired (in thousands)	Weighted average amortization period (in years)
Customer relationships	\$53,000	15
Marketing assets	7,800	7
Acquired technology	69,000	8
In-process research and development	9,100	7
Non-compete agreements	1,440	2
Unfavorable leasehold interests	(690) 7
	\$139,650	

The fair value of the intangible assets was based on the income approach, cost approach, relief of royalty rate method and excess earnings methods. Customer relationships are amortized on an accelerated basis. Marketing assets, acquired technology and non-compete agreements are amortized on a straight-line basis. In-process research and development was placed into service subsequent to the time of acquisition and is amortized on a straight-line basis since the time of being placed into service over a weighted average amortization period of seven years.

Notes to consolidated financial statements (continued)

The following unaudited pro forma condensed consolidated results of operations assume that the acquisition of Convio occurred on January 1, 2011. This unaudited pro forma financial information does not reflect any adjustments for anticipated synergies resulting from the acquisition and should not be relied upon as being indicative of the historical results that would have been attained had the transaction been consummated as of January 1, 2011, or of the results that may occur in the future.

2011 Acquisitions

During the year ended December 31, 2011, we acquired two entities for total consideration of \$24.2 million, all of which was paid in cash. The results of operations of acquired entities have been included in our consolidated financial statements from the date of acquisition. Pro forma results of operations have not been presented because the effects of these business combinations, individually and in the aggregate, were not material to our consolidated results of operations. We recorded the purchase price allocation based on the estimated fair value of the assets acquired and liabilities assumed. None of the goodwill arising from the acquisitions completed in 2011 is deductible for income tax purposes.

2010 Acquisitions

During the year ended December 31, 2010, we acquired two entities for total consideration of \$5.3 million, all of which was paid in cash. The results of operations of acquired entities have been included in our consolidated financial statements from the date of acquisition. Pro forma results of operations have not been presented because the effects of these business combinations, individually and in the aggregate, were not material to our consolidated results of operations. We recorded the purchase price allocation based on the estimated fair value of the assets acquired and liabilities assumed. None of the goodwill arising from the acquisitions completed in 2010 is deductible for income tax purposes.

4. Property and equipment

Property and equipment as of December 31, 2012 and 2011 consisted of the following:

(in thousands)	Estimated useful life (years)	December 31,	
		2012	2011
Equipment	3 - 5	\$2,430	\$2,809
Computer hardware	3 - 5	56,969	39,665

Less: accumulated depreciation		(40,320)	(29,995)
Property and equipment, net of depreciation		\$49,063	\$34,397

Depreciation expense was \$14.5 million, \$9.4 million and \$9.1 million for the years ended December 31, 2012, 2011 and 2010, respectively.

Property and equipment, net of depreciation, under capital leases at December 31, 2012 and 2011 was not material.

5. Goodwill and other intangible assets

The change in goodwill for each reportable segment during the year ended December 31, 2012, consisted of the following:

(in thousands)	ECBU	GMBU	IBU	Target Analytics	Other	Total
Balance at December 31, 2011	\$23,023	\$26,437	\$5,389	\$33,177	\$2,096	\$90,122

Balance at December 31, 2012	\$148,322	\$75,149	\$6,311	\$33,177	\$2,096	\$265,055

We have no accumulated impairment losses as of December 31, 2012 and 2011. Additions to goodwill during the year ended December 31, 2012, related primarily to the acquisitions as described in Note 3 of these consolidated financial statements. The remaining additions were the result of an adjustment to the allocation of the purchase price for one the entities we acquired during the year ended December 31, 2011.

We have recorded intangible assets acquired in various business combinations based on their fair values at the date of acquisition. The table below sets forth the balances of each class of intangible asset and related amortization, as of December 31, 2012 and 2011.

(in thousands)	December 31,

Amortization expense

Amortization expense related to finite-lived intangible assets acquired in business combinations is allocated to cost of revenue and operating expenses on the consolidated statements of comprehensive income based on the revenue stream to which the asset contributes and the nature of the intangible asset. The following table summarizes amortization expense for the years ended December 31, 2012, 2011 and 2010.

(in thousands)	Year ended December 31,		
	2012	2011	2010
Included in cost of revenue:

Less: Deferred revenue, net of current portion	(11,119)	(9,772)
Deferred revenue, current portion	\$173,899	\$153,665

9. Debt

Credit facility

In February 2012, we amended and restated our credit facility to a \$325.0 million five-year credit facility. The credit facility includes the following facilities: (i) a dollar and a designated currency revolving credit facility with sublimits for letters of credit and swingline loans, and (ii) a delayed draw term loan. The credit facility is secured by the stock and limited liability company interests of certain subsidiaries that were pledged as part of the closing. Amounts outstanding under the credit facility will be guaranteed by our material domestic subsidiaries, if any. In connection with closing the Convio acquisition, we designated Convio as a material domestic subsidiary under the credit facility. As a material domestic subsidiary, Convio guarantees amounts outstanding under the credit facility and pledges certain stock of its subsidiaries.

Amounts borrowed under the dollar tranche revolving credit loans and delayed draw term loans under the credit facility bear interest at a rate per annum equal to, at our option, (a) a base rate equal to the highest of (i) the prime rate, (ii) federal funds rate plus 0.50% and (iii) one month LIBOR plus 1% (Base Rate), in addition to a margin of 0.25% to 1.25% (Base Rate Loans), or (b) the LIBOR rate plus a margin of 1.25% to 2.25% (LIBOR Loans). Swingline loans bear interest at a rate per annum equal to the Base Rate plus a margin of 0.25% to 1.25% or such other rate agreed to between the Swingline lender and us. Designated currency tranche revolving credit loans bear interest at a rate per annum equal to the LIBOR rate plus a margin of 1.25% to 2.25%. The exact amount of any margin depends on the nature of the loan and our leverage ratio.

We also pay a quarterly commitment fee on the unused portion of the revolving credit facility from 0.20% to 0.35% per annum, depending on our leverage ratio. At December 31, 2012, the commitment fee was 0.35%.

Blackbaud, Inc.

Notes to consolidated financial statements (continued)

Under the credit facility, we have the ability to choose either Base Rate Loans or LIBOR Loans. Base Rate borrowings mature in February 2017. LIBOR Loans can be one, two, three or six month maturities (or, if agreed to by the applicable lenders, nine or twelve months), and rollover automatically, if we take no other action, into Base Rate Loans. We evaluate the classification of our debt based on the required annual maturities of our credit facility.

The credit facility includes financial covenants related to the consolidated leverage ratio and consolidated interest coverage ratio, as well as restrictions on the maximum amount of annual capital expenditures, our ability to declare and pay dividends and our ability to repurchase shares of our common stock. At December 31, 2012, we were in compliance with all debt covenants under the credit facility.

The following table summarizes our debt as of December 31, 2012. We had no borrowings outstanding as of December 31, 2011. The effective interest rate includes our interest cost incurred and the effect of interest rate swap agreements.

(in thousands, except percentages)	Debt balance at December 31, 2012	Effective interest rate at December 31, 2012	
Credit facility:			
Revolving credit loans	\$ 123,000	2.68	%
Term loans	92,500	3.14	%
Total debt	215,500	2.88	%
Less: Debt, current portion	10,000	3.14	%
Debt, net of current portion	\$ 205,500	2.86	%

We believe the carrying amount of our credit facility approximates its fair value at December 31, 2012, due to the variable rate nature of the debt. As LIBOR rates are observable at commonly quoted intervals, it is classified within Level 2 of the fair value hierarchy.

As of December 31, 2012, the required annual maturities related to our credit facility were as follows:

Year ending December 31, (in thousands)	Annual maturities
2013	\$ 10,000
2014	13,750
2015	15,000
2016	15,000
2017	161,750
Thereafter	—
Total required maturities	\$ 215,500
Deferred financing costs	

In connection with our credit facility entered into in February 2012, we paid \$2.4 million of financing costs, which is being amortized over the term of the new facility. As of December 31, 2012 and December 31, 2011, deferred financing costs totaling \$2.5 million and \$0.8 million, respectively, are included in other assets on the consolidated balance sheet.

10. Derivative instruments

We use derivative instruments to manage interest rate risk. In May 2012, we entered into two interest rate swap agreements which effectively convert portions of our variable rate debt under our credit facility to a fixed rate for the terms of the swap agreements. The aggregate notional value of the swap agreements was \$150.0 million with effective dates beginning in May 2012 through January 2017. We designated the swap agreements as cash flow hedges at the inception of the contracts.

Blackbaud, Inc.

Notes to consolidated financial statements (continued)

The fair values of our derivative instruments as of December 31, 2012, were as follows:

(in thousands)	December 31, 2012	
	Liabilities	
	Balance Sheet	Fair Value
	Location	
Derivative instruments designated as hedging instruments:		
Interest rate swaps	Other liabilities	\$1,296
Total derivative instruments designated as hedging instruments		\$1,296

We did not have derivative instruments as of December 31, 2011. The fair value of our interest rate swaps was based on model-driven valuations using LIBOR rates, which are observable at commonly quoted intervals. Accordingly, our interest rate swaps are classified within Level 2 of the fair value hierarchy.

The effects of derivative instruments in cash flow hedging relationships for the year ended December 31, 2012, were as follows:

(in thousands)	Loss recognized in accumulated other comprehensive loss	Location of loss reclassified from accumulated other comprehensive loss into income	Loss reclassified from accumulated other comprehensive loss into income
	December 31, 2012	December 31, 2012	Year ended December 31, 2012
Interest rate swaps	\$(1,296)) Interest expense	\$(466)

The tax benefit allocated to the loss recognized in accumulated other comprehensive loss was \$0.5 million for the year ended December 31, 2012. There was no ineffective portion of our interest swaps during the year ended December 31, 2012.

11. Commitments and contingencies

Leases

We lease our headquarters facility under a 15-year lease agreement which was entered into in October 2008, and has two five-year renewal options. The current annual base rent of the lease is \$3.9 million payable in equal monthly installments. The base rent escalates annually at a rate equal to the change in the consumer price index, as defined in the agreement, but not to exceed 5.5% in any year. In addition, under the terms of the lease, the lessor will reimburse us an aggregate amount of \$4.0 million for leasehold improvements, which will be recorded as a reduction to rent expense ratably over the term of the lease. During each of the years ended December 31, 2012, 2011, and 2010, rent expense was reduced by \$0.3 million related to this lease provision. The \$4.0 million leasehold improvement allowance has been included in the table of operating lease commitments below as a reduction in our lease commitments ratably over the then remaining life of the lease from October 2008. The timing of the reimbursements for the actual leasehold improvements may vary from the amount reflected in the table below.

In our acquisition of Convio, we assumed a lease for office space in Austin, Texas which terminates on September 30, 2023, and has two five-year renewal options. Under the terms of the lease, we will increase our leased space by approximately 20,000 square feet on July 31, 2016. The current annual base rent of the lease is \$2.1 million. The terms of the agreement include a rent holiday during the first year and base rent that escalates annually thereafter between 2% and 4%. The related rent expense is recorded on a straight-line basis over the length of the lease term. In addition, we are entitled to an allowance of approximately \$3.3 million from the lessor for leasehold improvements, allocated among the existing and new expansion premises. We have a standby letter of credit for a security deposit for this lease of \$2.0 million.

Additionally, we have subleased a portion of our facilities under various agreements extending through 2014. Under these agreements, rent expense was reduced by \$0.3 million in the year ended December 31, 2012 and by \$0.4 million

in each the years ended December 31, 2011 and 2010, respectively. We have also received, and expect to receive through 2023, quarterly South Carolina state incentive payments as a result of locating our headquarters facility in Berkeley County, South Carolina. These amounts are recorded as a reduction of rent expense and were \$2.2 million, \$2.3 million and \$2.0 million for the years

F-22

Blackbaud, Inc.

Notes to consolidated financial statements (continued)

ended December 31, 2012, 2011 and 2010, respectively. Total rent expense was \$7.6 million, \$4.7 million and \$5.4 million for the years ended December 31, 2012, 2011 and 2010, respectively.

Additionally, we lease various office space and equipment under operating leases. We also have various non-cancelable capital leases for computer equipment and furniture that are not significant.

As of December 31, 2012, the future minimum lease commitments related to lease agreements, net of related sublease commitments and lease incentives, were as follows:

Year ended December 31, (in thousands)	Operating leases
2013	\$10,278
2014	9,518
2015	8,339
2016	7,322
2017	7,336
Thereafter	40,925
Total minimum lease payments	\$83,718
Other commitments	

We utilize third-party relationships in conjunction with our products and services, with contractual arrangements varying in length from one to three years. In certain cases, these arrangements require a minimum annual purchase commitment. As of December 31, 2012, the remaining aggregate minimum purchase commitment under these arrangements is approximately \$4.5 million through 2015. We incurred expense under these arrangements of \$1.3 million, \$3.2 million and \$1.7 million for the years ended December 31, 2012, 2011 and 2010, respectively.

Legal contingencies

We are subject to legal proceedings and claims that arise in the ordinary course of business. We record an accrual for a contingency when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. We do not believe the amount of potential liability with respect to these actions will have a material adverse effect upon our consolidated financial position, results of operations or cash flows.

Guarantees and indemnification obligations

We enter into agreements in the ordinary course of business with, among others, customers, vendors and service providers. Pursuant to certain of these agreements we have agreed to indemnify the other party for certain matters, such as property damage, personal injury, acts or omissions of ours, or our employees, agents or representatives, or third-party claims alleging that the activities of its contractual partner pursuant to the contract infringe a patent, trademark or copyright of such third party.

We assess the fair value of our liability on the above indemnities to be immaterial based on historical experience and information known at December 31, 2012.

12. Income taxes

Prior to October 13, 1999, we were organized as an S corporation under the Internal Revenue Code and, therefore, were not subject to federal income taxes. We historically made distributions to our stockholders to cover the stockholders' anticipated tax liability. In connection with our 1999 recapitalization, we converted our U.S. taxable status from an S corporation to a C corporation and, accordingly, since October 14, 1999, have been subject to federal and state income taxes. We file income tax returns in the U.S. for federal and various state jurisdictions as well as in foreign jurisdictions including Canada, United Kingdom, Australia and the Netherlands. We are generally subject to U.S. federal income tax examination for calendar tax years 2009 through 2011 as well as state and foreign income tax examinations for various years depending on statutes of limitations of those jurisdictions.

We recorded net excess tax benefits attributable to stock option and stock appreciation right exercises and restricted stock vesting of \$0.1 million, \$0.2 million and \$2.7 million in stockholders' equity during the years ended December 31, 2012, 2011 and 2010, respectively. We were unable to recognize additional excess tax benefits of stock-based compensation deductions generated during 2012 because the deductions did not reduce income tax payable after considering our net operating loss carryforwards. Although not recognized for financial reporting purposes, this unrecognized tax benefit is available to reduce future taxable income.

The significant components of our deferred tax assets and liabilities were as follows:

(in thousands)	December 31, 2012	2011
Deferred tax assets relating to:		
Federal and state net operating loss carryforwards	\$30,839	\$16,842

As of December 31, 2012, our federal, foreign and state net operating loss carryforwards for income tax purposes were approximately \$77.3 million, \$3.6 million and \$57.1 million, respectively. The federal and state net operating loss carryforwards are subject to various Internal Revenue Code limitations and applicable state tax laws. If not utilized, the federal net operating loss carryforwards will begin to expire in 2033 and the state net operating loss carryforwards will expire over various periods beginning in 2017. A portion of the foreign and state net operating loss carryforwards have a valuation reserve due to management's uncertainty regarding the future ability to use such carryforwards. Our federal and state tax credit carryforwards for income tax purposes were approximately \$3.6 million and \$11.6 million, net of federal tax, respectively. If not utilized, the federal tax credit carryforwards will begin to expire in 2033 and the state tax credit carryforwards will begin to expire in 2013. The state tax credits had a valuation reserve of approximately \$8.5 million, net of federal tax, as of December 31, 2012.

The following table illustrates the change in our deferred tax asset valuation allowance:

(in thousands)	Balance at beginning of year	Acquisition related change	Charges to expense	Balance at end of year

The following table sets forth the change to our unrecognized tax benefit for the year ended December 31, 2012, 2011 and 2010:

(in thousands)	December 31,			
	2012	2011	2010	
Balance at beginning of year	\$1,777	\$1,414	\$1,231	
Increases from prior period positions	2,766	87	126	
Decreases in prior year position	(93) (9) —	
Increases from current period positions	—	285	297	
Lapse of statute of limitations	(604) —	(240)
Balance at end of year	\$3,846	\$1,777	\$1,414	

The total amount of unrecognized tax benefit that, if recognized, would favorably affect the effective tax rate was \$3.8 million at December 31, 2012. We recognize accrued interest and penalties, if any, related to unrecognized tax benefits as a component of income tax expense. The total amount of accrued interest and penalties included in the consolidated balance sheet as of December 31, 2012 and 2011 was \$0.7 million and \$0.2 million, respectively. The total amount of interest and penalties included in the consolidated statements of comprehensive income as a decrease in income tax expense for 2012 and 2010 was \$0.3 million and \$0.2 million, respectively. The total amount of interest and penalties included in the consolidated statements of comprehensive income as an increase in income tax expense for 2011 was \$0.1 million.

We have taken federal tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits might decrease within the next twelve months. This possible decrease could result from the expiration of statutes of limitations. The reasonably possible decrease approximates \$1.0 million at December 31, 2012.

We concluded that a portion of the undistributed earnings of our foreign subsidiaries, as related solely to Canada, are not permanently reinvested and as a result we recorded a tax liability and applicable foreign tax credits for the effect of repatriating those foreign earnings. For the remaining undistributed earnings, we concluded that these earnings would be permanently reinvested in the local jurisdictions and not repatriated to the United States. Accordingly, we have not provided for U.S. federal and foreign withholding taxes on those undistributed earnings of our foreign subsidiaries. It is not practicable to estimate the amount that might be payable if some or all of such earnings were to be remitted.

13. Stock-based compensation

Employee stock-based compensation plans

Under the Blackbaud, Inc. 2008 Equity Incentive Plan (2008 Equity Plan), we may grant incentive stock options, non-statutory stock options, restricted stock awards, restricted stock unit awards, stock appreciation rights, performance stock awards and other stock awards to eligible employees, directors and consultants. We maintain other stock based compensation plans including the 2004 Stock Plan and the 2001 Stock Option Plan, under which no additional grants may be made, and the 2009 Equity Compensation Plan for Employees from Acquired Companies, under which we may grant shares of common stock to employees pursuant to employment contracts or other arrangements entered into in connection with past and future acquisitions.

In connection with the acquisition of Kintera in July 2008, we maintain the Kintera, Inc. 2000 Stock Option Plan, as amended (Kintera 2000 Plan) and Kintera, Inc. Amended and Restated 2003 Equity Incentive Plan, as amended (Kintera 2003 Plan), which we assumed upon the acquisition of Kintera. In connection with the acquisition of Convio in May 2012, we maintain the Convio, Inc. 1999 Stock Option/Stock Issuance Plan, as amended (Convio 1999 Plan) and Convio, Inc. 2009 Stock Incentive Plan, as amended (Convio 2009 Plan), which we assumed upon the acquisition of Convio. Our Compensation Committee of the Board of Directors administers all of these plans and the stock-based awards are granted under terms determined by them.

The total number of authorized stock-based awards available under our plans was 5,993,220 as of December 31, 2012. We issue common stock from our pool of authorized stock upon exercise of stock options, settlement of stock

appreciation rights and performance-based restricted stock units or upon granting of restricted stock.

F-26

Blackbaud, Inc.

Notes to consolidated financial statements (continued)

Historically, we have issued four types of awards under these plans: stock options, restricted stock awards, performance-based restricted stock units and stock appreciation rights. The following table sets forth the number of awards outstanding for each award type as of December 31, 2012 and 2011.

Award type	Outstanding at December 31,	
	2012	2011
Stock options	60,775	216,848
Restricted stock awards	1,203,186	1,079,930
Restricted stock units	389,913	159,462
Stock appreciation rights	2,786,828	2,305,049

The majority of the stock-based awards granted under these plans have a 10-year contractual term. The option to purchase 800,000 shares of common stock granted on November 28, 2005, to the current Chief Executive Officer (CEO), has a 7-year contractual term. Additionally, stock appreciation rights (SARs) have contractual lives of 7 years. Awards granted to our executive officers and certain members of management are subject to accelerated vesting upon a change in control as defined in the employees' retention agreement.

We recognize compensation expense associated with stock options and awards with performance or market based vesting conditions on an accelerated basis over the requisite service period of the individual grantees, which generally equals the vesting period. We recognize compensation expense associated with restricted stock awards and SARs on a straight-line basis over the requisite service period of the individual grantees, which generally equals the vesting period.

Stock-based compensation expense is allocated to expense categories on the consolidated statements of comprehensive income based on where the associated employee's compensation is recorded. The following table summarizes stock-based compensation expense for the years ended December 31, 2012, 2011 and 2010.

(in thousands)	Year ended December 31,		
	2012	2011	2010
Included in cost of revenue:			
Cost of subscriptions	\$860	\$571	\$392
Cost of services	2,786	1,966	1,742
Cost of maintenance	538	741	814
Total included in cost of revenue	4,184	3,278	2,948
Included in operating expenses:			
Sales and marketing	2,527	1,325	1,366

Total included in operating expenses	15,056	11,606	10,111
Total	\$19,240	\$14,884	\$13,059

The total amount of compensation cost related to non-vested awards not recognized was \$43.0 million at December 31, 2012. This amount will be recognized over a weighted average period of 1.9 years .

Stock options

The following table summarizes the options outstanding under each of our stock-based compensation plans as of December 31, 2012.

Plan	Date of adoption	Options outstanding	Range of exercise prices
2004 Stock Plan	March 23, 2004	21,383	\$8.60-\$13.05
Kintera 2003 Plan	July 8, 2008 (1)	6,086	\$10.59-\$19.26
Convio 1999 Plan	May 5, 2012 (1)	28,977	\$9.10-\$15.54
Convio 2009 Plan	May 5, 2012 (1)	4,329	\$15.62-\$18.20
Total		60,775	

(1) In connection with the acquisitions of Kintera and Convio, we assumed certain stock options issued and outstanding at the date of acquisition.

A summary of outstanding stock options as of December 31, 2012, and changes during the year then ended, is as follows:

Options	Share options	Weighted average exercise price	Weighted average remaining contractual term (in years)	Aggregate intrinsic value (in thousands)
Outstanding at January 1, 2012	216,848	\$15.16		
Assumed ⁽¹⁾	63,439	13.24

Vested and exercisable at December 31, 2012	49,986	\$10.78	4.3	\$602

(1) Stock options assumed in connection with the acquisition of Convio.

There have been no new stock option awards granted since 2005. The total intrinsic value of options exercised during the years ended December 31, 2012, 2011 and 2010 was \$3.2 million, \$3.1 million and \$9.1 million, respectively. The total fair value of options that vested during the year ended December 31, 2012, was \$0.6 million. The total fair value of options that vested during 2011 and 2010 was not material. All outstanding options granted had a fair market value assigned at the grant date based on the use of the Black-Scholes option pricing model. Significant assumptions used in the Black-Scholes option pricing model for options assumed from Convio in May 2012 were as follows:

Volatility	May 2012 32% to 39%
Dividend yield	1.8%
Risk-free interest rate	0.0% to 0.4%
Expected option life in years	0.04 to 3.26
Restricted stock awards	

We have also granted shares of common stock subject to certain restrictions under the 2008 Equity Plan and the 2004 Stock Plan. Restricted stock awards granted to employees vest in equal annual installments over four years from the grant date. Restricted stock awards granted to non-employee directors vest after one year from the date of grant or, if

earlier, immediately prior to the next annual election of directors, provided the non-employee director is serving as a director at that time. The fair

market value of the stock at the time of the grant is amortized on a straight-line basis to expense over the period of vesting. Recipients of restricted stock awards have the right to vote such shares and receive dividends.

A summary of unvested restricted stock awards as of December 31, 2012, and changes during the year then ended, is as follows:

Unvested restricted stock awards	Restricted stock awards	Weighted average grant-date fair value
Unvested at January 1, 2012	1,079,930	\$25.22
Granted	687,652	22.77

Forfeited	(142,760)) 26.00
Unvested at December 31, 2012	1,203,186	\$24.58

As of December 31, 2012, the number and intrinsic value of restricted stock awards expected to vest was 1,144,693 and \$26.1 million, respectively. The total fair value of restricted stock awards that vested during the years ended December 31, 2012, 2011 and 2010 was \$9.6 million, \$9.9 million and \$9.0 million, respectively. The weighted average grant-date fair value of restricted stock awards granted during the years ended December 31, 2011 and 2010 was \$27.98 and \$26.61, respectively.

Restricted stock units

We have also granted restricted stock units subject to certain restrictions under the 2008 Equity Plan and assumed restricted stock units in connection with the Convio acquisition. Restricted stock units granted to employees vest in equal annual installments generally over three years from the grant date. We have also granted restricted stock units for which vesting is subject to meeting certain performance and/or market conditions. The fair market value of the stock at the time of the grant is amortized to expense on a straight-line basis over the period of vesting except for awards with market or performance conditions which are amortized on an accelerated basis over the period of vesting. Income tax benefits resulting from the vesting of restricted stock units are recognized in the period the unit is exercised to the extent expense has been recognized.

A summary of unvested restricted stock units as of December 31, 2012 is as follows:

Unvested restricted stock units	Restricted stock units	Weighted average grant-date fair value
Unvested at January 1, 2012	159,462	\$25.60
Granted	30,738	21.41
Assumed ⁽¹⁾	331,196	28.84
Forfeited	(53,976)) 27.84
Vested	(77,507)) 27.59
Unvested at December 31, 2012	389,913	\$27.55

(1) Restricted stock units assumed in connection with the acquisition of Convio.

As of December 31, 2012, the number and intrinsic value of restricted stock units expected to vest was 376,306 and \$8.6 million, respectively. The weighted average grant date fair value of restricted stock units granted for the years ended December 31, 2011 and 2010 was \$26.68 and \$22.79, respectively.

Stock appreciation rights

We have granted SARs under the 2008 Equity Plan and the 2004 Stock Plan to certain members of management. The SARs will be settled in stock at the time of exercise and vest four years from the date of grant subject to the recipient's continued employment with us. The number of shares issued upon the exercise of the SARs is calculated as the difference between the

F-29

Blackbaud, Inc.

Notes to consolidated financial statements (continued)

share price of our stock on the date of exercise and the date of grant multiplied by the number of SARs divided by the share price on the exercise date.

A summary of SARs as of December 31, 2012, and changes during the year then ended, is as follows:

Stock appreciation rights	Stock appreciation rights	Weighted average exercise price	Weighted average remaining contractual term (in years)	Aggregate intrinsic value (in thousands)
Outstanding at January 1, 2012	2,305,049	\$24.47		
Granted	990,007	22.66		
Exercised	(246,383)	21.42		
Forfeited	(213,100)	26.91		
Expired	(48,745)	\$27.00		
Outstanding at December 31, 2012	2,786,828	\$23.87	5.2	\$ 2,160
Unvested and expected to vest at December 31, 2012	1,545,181	\$24.21	6.2	\$ 565
Vested and exercisable at December 31, 2012	1,194,294	\$23.39	3.8	\$ 1,581

The total intrinsic value of SARs exercised during the year ended December 31, 2012, 2011 and 2010 was \$2.4 million, \$2.2 million and \$1.4 million, respectively. The total fair value of SARs that vested during the year ended December 31, 2012, 2011 and 2010 was \$3.9 million, \$3.6 million and \$3.6 million, respectively. The weighted average grant date fair value of SARs granted for the years ended December 31, 2012, 2011 and 2010 was \$6.36, \$8.10 and \$7.17, respectively. All outstanding SARs granted had a fair market value assigned at the grant date based on the use of the Black-Scholes option pricing model. All SARs granted with a market condition had a fair market value assigned at the grant date based on the use of a Monte Carlo simulation model. Significant assumptions used in the Black-Scholes option pricing model for SARs granted in 2012, 2011 and 2010 were as follows:

	Years ended December 31,		
	2012	2011	2010
Volatility	35% to 41%	41% to 42%	40% to 42%
Dividend yield	1.7%	1.7% to 1.8%	1.6% to 1.8%
Risk-free interest rate	0.5% to 0.6%	0.6% to 1.9%	0.9% to 1.9%
Expected SAR life in years	4	4	4

The expected volatility assumption is based on the historical volatility of our stock and the average expected volatility over the expected life of the SAR. The dividend yield is based on the adopted dividend policy in effect at the time of grant and the expectation of future dividends. The risk-free interest rate is based on United States Treasury rate for a term consistent with the expected life of the SAR at the time of grant. The expected life of the SAR represents the length of time from grant until the SAR is exercised based on experience.

14. Stockholders' equity

Preferred stock

Our Board of Directors may fix the relative rights and preferences of each series of preferred stock in a resolution of the Board of Directors.

Dividends

Our Board of Directors has adopted a dividend policy which provides for the distribution to stockholders a portion of cash generated by us that is in excess of operational needs and capital expenditures. Our credit facility limits the amount of dividends payable and certain state laws restrict the amount of dividends distributed.

August 2012	\$0.12	August 28	September 14
October 2012	\$0.12	November 28	December 14

In February 2013, our Board of Directors declared a first quarter dividend of \$0.12 per share payable on March 15, 2013 to stockholders of record on February 28, 2013.

Stock repurchase program

We have a repurchase program that authorizes us to purchase up to \$50.0 million of our outstanding shares of common stock. The program does not have an expiration date. The shares can be purchased from time to time on the open market or in privately negotiated transactions depending upon market conditions and other factors.

We account for purchases of treasury stock under the cost method. The remaining amount available to purchase stock under the stock repurchase program was \$50.0 million as of December 31, 2012.

15. Employee profit-sharing plan

We have a 401(k) profit-sharing plan (the 401K Plan) covering substantially all employees. Employees can contribute between 1% and 30% of their salaries in 2012, 2011 and 2010, and we match 50% of qualified employees' contributions up to 6% of their salary. The 401K Plan also provides for additional employer contributions to be made at our discretion. Total matching contributions to the 401K Plan for the years ended December 31, 2012, 2011 and 2010 were \$4.6 million, \$4.0 million and \$3.5 million, respectively. There was no discretionary contribution by us to the 401K Plan in 2012, 2011 and 2010.

16. Segment information

As of December 31, 2012, our reportable segments were as follows: the ECBU, the GMBU, the International Business Unit, or IBU, and Target Analytics. Following is a description of each reportable segment:

- The ECBU is focused on marketing, sales, delivery and support to large and/or strategic, specifically identified prospects and customers in North America;

- The GMBU is focused on marketing, sales, delivery and support to all emerging and mid-sized prospects and customers in North America;

- The IBU is focused on marketing, sales, delivery and support to all prospects and customers outside of North America; and

- Target Analytics is primarily focused on marketing, sales and delivery of analytics services to all prospects and customers in North America.

Our chief operating decision maker is our chief executive officer, or CEO. The CEO reviews financial information presented on an operating segment basis for the purposes of making certain operating decisions and assessing financial performance. The CEO uses internal financial reports that provide segment revenues and operating income, excluding stock-based compensation expense, amortization expense, depreciation expense, research and development expense and certain corporate sales, marketing, general and administrative expenses. Currently, the CEO believes that the exclusion of these costs allows for a better understanding of the operating performance of the operating units and management of other operating expenses and cash needs. The CEO does not review any segment balance sheet information.

(1) Other includes revenue and the related costs from the sale of products and services not directly attributable to an operating segment.

Segment operating income includes direct, controllable costs related to the sale of products and services by the reportable segment, except for IBU, which includes operating costs from our foreign locations such as sales, marketing, general, administrative, depreciation and facilities costs.

(3) Corporate unallocated costs include research and development, depreciation expense, and certain corporate sales, marketing, general and administrative expenses.

We also derive a portion of our revenue from our foreign operations. The following table presents revenue by geographic region based on country of invoice origin and identifiable, long-lived assets by geographic region based on the location of the assets.

Earnings per common share are computed independently for each of the periods presented and, therefore, may not add up to the total for the year. The results of operations of acquired companies are included in the consolidated results of operations from the date of their respective acquisition as described in Note 3.

18. Restructuring

During 2012, in an effort to consolidate our operating locations we decided not to renew our current lease for office space in San Diego, CA, which matures on June 30, 2013. As a result, we initiated a plan to transition most of our operations based in San Diego, CA to our Austin, TX location. We expect to incur a total of \$1.3 million in before-tax restructuring costs through June 2013. Restructuring costs incurred consist primarily of costs to separate and relocate employees. For the year ended December 31, 2012, we incurred restructuring costs of \$0.2 million, which were recorded in general and administrative expense.

The following table summarizes our restructuring costs as of December 31, 2012:

(in thousands)	Total amount expected to be incurred	Included in accrued expenses and other current liabilities at December 31, 2012
Employee severance costs	\$546	\$137
Employee relocation costs	589	—
Employee retention costs	152	38
	\$1,287	\$175

19. Subsequent events

In January 2013, we implemented a realignment of our workforce in response to changes in the nonprofit industry and global economy. The realignment included a reduction in workforce of approximately 130 positions. We expect to record a charge of approximately \$2.5 million in 2013 relating to this reduction in workforce, consisting primarily of one-time severance and termination benefits.
