UTB - Unrecognized tax benefits.

VIE - Variable interest entity.

Forward-Looking Statements

This Quarterly Report on Form 10-Q, other periodic reports filed by Regions Financial Corporation under the Securities Exchange Act of 1934, as amended, and any other written or oral statements made by us or on our behalf to analysts, investors, the media and others, may include forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. The terms "Regions," the "Company," "we," "us" and "our" used herein mean collectively Regions Financial Corporation, a Delaware corporation, together with its subsidiaries when or where appropriate. The words "future," "anticipates," "assumes," "intends," "plans," "seeks," "believes," "predicts," "potential," "objectives," "estima "targets," "projects," "outlook," "forecast," "would," "will," "may," "might," "could," "should," "can," and similar terms and e often signify forward-looking statements. Forward-looking statements are not based on historical information, but rather are related to future operations, strategies, financial results or other developments. Forward-looking statements are based on management's current expectations as well as certain assumptions and estimates made by, and information available to, management at the time the statements are made. Those statements are based on general assumptions and are subject to various risks, and because they also relate to the future they are likewise subject to inherent uncertainties and other factors that may cause actual results to differ materially from the views, beliefs and projections expressed in such statements. Therefore, we caution you against relying on any of these forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, those described below: Current and future economic and market conditions in the U.S. generally or in the communities we serve, including the effects of possible declines in property values, increases in unemployment rates and potential reductions of economic growth, which may adversely affect our lending and other businesses and our financial results and conditions.

Possible changes in trade, monetary and fiscal policies of, and other activities undertaken by, governments, agencies, central banks and similar organizations, which could have a material adverse effect on our earnings.

The effects of a possible downgrade in the U.S. government's sovereign credit rating or outlook, which could result in risks to us and general economic conditions that we are not able to predict.

Possible changes in market interest rates or capital markets could adversely affect our revenue and expense, the value of assets and obligations, and the availability and cost of capital and liquidity.

Any impairment of our goodwill or other intangibles, any repricing of assets, or any adjustment of valuation allowances on our deferred tax assets due to changes in law, adverse changes in the economic environment, declining operations of the reporting unit or other factors.

The effect of changes in tax laws, including the effect of Tax Reform and any future interpretations of or amendments to Tax Reform, which may impact our earnings, capital ratios and our ability to return capital to shareholders.

Possible changes in the creditworthiness of customers and the possible impairment of the collectability of loans and leases, including operating leases.

Changes in the speed of loan prepayments, loan origination and sale volumes, charge-offs, loan loss provisions or actual loan losses where our allowance for loan losses may not be adequate to cover our eventual losses. Possible acceleration of prepayments on mortgage-backed securities due to low interest rates, and the related acceleration of premium amortization on those securities.

Loss of customer checking and savings account deposits as customers pursue other, higher-yield investments, which could increase our funding costs.

Possible changes in consumer and business spending and saving habits and the related effect on our ability to increase assets and to attract deposits, which could adversely affect our net income.

Our ability to effectively compete with other traditional and non-traditional financial services companies, some of whom possess greater financial resources than we do or are subject to different regulatory standards than we are. Our inability to develop and gain acceptance from current and prospective customers for new products and services and the enhancement of existing products and services to meet customers' needs and respond to emerging technological trends in a timely manner could have a negative impact on our revenue.

Our inability to keep pace with technological changes could result in losing business to competitors.

•

Changes in laws and regulations affecting our businesses, including legislation and regulations relating to bank products and services, as well as changes in the enforcement and interpretation of such laws and regulations by applicable governmental and self-regulatory agencies, which could require us to change certain business practices, increase compliance risk, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.

Our ability to obtain a regulatory non-objection (as part of the CCAR process or otherwise) to take certain capital actions, including paying dividends and any plans to increase common stock dividends, repurchase common stock under current

Table of Contents

or future programs, or redeem preferred stock or other regulatory capital instruments, may impact our ability to return capital to stockholders and market perceptions of us.

Our ability to comply with stress testing and capital planning requirements (as part of the CCAR process or otherwise) may continue to require a significant investment of our managerial resources due to the importance and intensity of such tests and requirements.

Our ability to comply with applicable capital and liquidity requirements (including, among other things, the Basel III capital standards and the LCR rule), including our ability to generate capital internally or raise capital on favorable terms, and if we fail to meet requirements, our financial condition could be negatively impacted.

The effects of any developments, changes or actions relating to any litigation or regulatory proceedings brought against us or any of our subsidiaries.

The costs, including possibly incurring fines, penalties, or other negative effects (including reputational harm) of any adverse judicial, administrative, or arbitral rulings or proceedings, regulatory enforcement actions, or other legal actions to which we or any of our subsidiaries are a party, and which may adversely affect our results.

Our ability to manage fluctuations in the value of assets and liabilities and off-balance sheet exposure so as to maintain sufficient capital and liquidity to support our business.

Our ability to execute on our strategic and operational plans, including our ability to fully realize the financial and non-financial benefits relating to our strategic initiatives.

•The risks and uncertainties related to our acquisition or divestiture of businesses.

The success of our marketing efforts in attracting and retaining customers.

Our ability to recruit and retain talented and experienced personnel to assist in the development, management and operation of our products and services may be affected by changes in laws and regulations in effect from time to time. Fraud or misconduct by our customers, employees or business partners.

Any inaccurate or incomplete information provided to us by our customers or counterparties.

Inability of our framework to manage risks associated with our business such as credit risk and operational risk, including third-party vendors and other service providers, which could, among other things, result in a breach of operating or security systems as a result of a cyber attack or similar act or failure to deliver our services effectively. Dependence on key suppliers or vendors to obtain equipment and other supplies for our business on acceptable terms.

The inability of our internal controls and procedures to prevent, detect or mitigate any material errors or fraudulent acts.

The effects of geopolitical instability, including wars, conflicts and terrorist attacks and the potential impact, directly or indirectly, on our businesses.

The effects of man-made and natural disasters, including fires, floods, droughts, tornadoes, hurricanes, and environmental damage, which may negatively affect our operations and/or our loan portfolios and increase our cost of conducting business.

Changes in commodity market prices and conditions could adversely affect the cash flows of our borrowers operating in industries that are impacted by changes in commodity prices (including businesses indirectly impacted by commodities prices such as businesses that transport commodities or manufacture equipment used in the production of commodities), which could impair their ability to service any loans outstanding to them and/or reduce demand for loans in those industries.

Our ability to identify and address cyber-security risks such as data security breaches, malware, "denial of service" attacks, "hacking" and identity theft, a failure of which could disrupt our business and result in the disclosure of and/or misuse or misappropriation of confidential or proprietary information, disruption or damage to our systems, increased costs, losses, or adverse effects to our reputation.

Our ability to realize our adjusted efficiency ratio target as part of our expense management initiatives. Possible downgrades in our credit ratings or outlook could increase the costs of funding from capital markets. The effects of problems encountered by other financial institutions that adversely affect us or the banking industry generally could require us to change certain business practices, reduce our revenue, impose additional costs on us, or otherwise negatively affect our businesses.

The effects of the failure of any component of our business infrastructure provided by a third party could disrupt our businesses, result in the disclosure of and/or misuse of confidential information or proprietary information, increase our costs, negatively affect our reputation, and cause losses.

Our ability to receive dividends from our subsidiaries could affect our liquidity and ability to pay dividends to stockholders.

Table of Contents

Changes in accounting policies or procedures as may be required by the FASB or other regulatory agencies could materially affect how we report our financial results.

Other risks identified from time to time in reports that we file with the SEC.

Fluctuations in the price of our common stock and inability to complete stock repurchases in the time frame and/or on the terms anticipated.

The effects of any damage to our reputation resulting from developments related to any of the items identified above. You should not place undue reliance on any forward-looking statements, which speak only as of the date made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible to predict all of them. We assume no obligation and do not intend to update or revise any forward-looking statements that are made from time to time, either as a result of future developments, new information or otherwise, except as may be required by law.

See also the reports filed with the SEC, including the discussion under the "Risk Factors" section of Regions' Annual Report on Form 10-K for the year ended December 31, 2017 as filed with the SEC and available on its website at www.sec.gov.

REGIONS FINANCIAL CORPORATION AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Three and Nine Months Ended September 30, 2018 and 2017

NOTE 1. BASIS OF PRESENTATION

Regions Financial Corporation ("Regions" or the "Company") provides a full range of banking and bank-related services to individual and corporate customers through its subsidiaries and branch offices located across the South, Midwest and Texas. The Company competes with other financial institutions located in the states in which it operates, as well as other adjoining states. Regions is subject to the regulations of certain government agencies and undergoes periodic examinations by certain regulatory authorities.

The accounting and reporting policies of Regions and the methods of applying those policies that materially affect the consolidated financial statements conform with GAAP and with general financial services industry practices. The accompanying interim financial statements have been prepared in accordance with the instructions for Form 10-Q and, therefore, do not include all information and notes to the consolidated financial statements necessary for a complete presentation of financial position, results of operations, comprehensive income and cash flows in conformity with GAAP. In the opinion of management, all adjustments, consisting of normal and recurring items, necessary for the fair presentation of the consolidated financial statements have been included. These interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto in Regions' Annual Report on Form 10-K for the year ended December 31, 2017. Regions has evaluated all subsequent events for potential recognition and disclosure through the filing date of this Form 10-Q.

On April 4, 2018, Regions entered into a stock purchase agreement to sell Regions Insurance Group, Inc. and related affiliates to BB&T Holdings, Inc. The transaction closed on July 2, 2018. Regions sold Morgan Keegan and related affiliates in April 2012. See Note 2 and Note 13 for related disclosure.

Effective January 1, 2018, the Company adopted new guidance related to several accounting topics. The cumulative effect of the retrospective application was a total reduction to retained earnings of \$2 million, of which the individual components were immaterial. All prior period amounts impacted by guidance that required retrospective application have been revised. See Note 15 for related disclosure.

NOTE 2. DISCONTINUED OPERATIONS

On April 4, 2018, Regions entered into a stock purchase agreement to sell Regions Insurance Group, Inc. and related affiliates to BB&T Insurance Holdings, Inc. The transaction closed on July 2, 2018. The gain associated with the transaction amounted to \$281 million (\$196 million after-tax).

In connection with the agreement, the results of the entities sold are reported in the Company's consolidated statements of income separately as discontinued operations for all periods presented.

On January 11, 2012, Regions entered into a stock purchase agreement to sell Morgan Keegan and related affiliates to Raymond James. The transaction closed on April 2, 2012. Regions Investment Management, Inc. (formerly known as Morgan Asset Management, Inc.) and Regions Trust were not included in the sale. In connection with the closing of the sale, Regions agreed to indemnify Raymond James for all litigation matters related to pre-closing activities. See Note 13 for related disclosure.

Results of operations for the Morgan Keegan entities sold are presented separately as discontinued operations for all periods presented on the consolidated statements of income. This presentation is consistent with the consolidated financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2017.

The following table represents the condensed results of operations for the Regions Insurance Group, Inc. entities sold as discontinued operations:

⁽¹⁾ The gross unrealized losses recognized in OCI on securities held to maturity resulted from a transfer of securities available for sale to held to maturity in the second quarter of 2013.

Debt securities with carrying values of \$7.6 billion and \$8.1 billion at September 30, 2018 and December 31, 2017, respectively, were pledged to secure public funds, trust deposits and certain borrowing arrangements. Included within total pledged securities is approximately \$24 million and \$50 million of encumbered U.S. Treasury securities at September 30, 2018 and December 31, 2017, respectively.

The amortized cost and estimated fair value of debt securities held to maturity and debt securities available for sale at September 30, 2018, by contractual maturity, are shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	Amortize	E stimated
	Cost	Fair Value
	(In millio	ons)
Debt securities held to maturity:

The following tables present gross unrealized losses and the related estimated fair value of debt securities held to maturity and debt securities available for sale at September 30, 2018 and December 31, 2017. For debt securities transferred to held to maturity from available for sale, the analysis in the tables below is comparing the securities' original amortized cost to its current estimated fair value. These securities are segregated between investments that have been in a continuous unrealized loss position for less than twelve months and for twelve months or more.

	\$7,743	\$ (55)	\$9,349	\$ (229)	\$17,092	\$ (284)

The number of individual debt positions in an unrealized loss position in the tables above increased from 1,059 at December 31, 2017 to 1,459 at September 30, 2018. The increase in the number of securities and the total amount of unrealized losses from year-end 2017 was primarily due to changes in market interest rates. In instances where an unrealized loss existed, there was no indication of an adverse change in credit on the underlying positions in the tables above. As it relates to these positions, management believes no individual unrealized loss, other than those discussed below, represented an OTTI as of those dates. The Company does not intend to sell, and it is not more likely than not that the Company will be required to sell, the positions before the recovery of their amortized cost basis, which may be at maturity.

As part of the Company's normal process for evaluating OTTI, management did identify a limited number of positions where an OTTI was believed to exist as of September 30, 2018.

Gross realized gains and gross realized losses on sales of debt securities available for sale from continuing operations are shown in the table below. The cost of securities sold is based on the specific identification method.

⁽¹⁾ The securities gains (losses), net balances above exclude net trading securities gains of \$4 million recognized during the third quarter of 2017.

EQUITY INVESTMENTS

Effective January 1, 2018, Regions adopted new accounting guidance that requires equity investments to be recorded at fair value with changes in fair value reported in net income. Regions elected a measurement alternative to fair value for certain equity investments without a readily determinable fair value. See Note 15 for related disclosure. Marketable equity securities carried at fair value, which primarily consist of assets held for certain employee benefits and money market funds, are reported in other earning assets in the consolidated balance sheets. Total marketable equity securities were \$475 million and \$414 million at September 30, 2018 and December 31, 2017, respectively. Net unrealized holding gains for marketable equity securities were \$7 million at September 30, 2018.

Equity investments without a readily determinable fair value primarily consist of investments in strategic partners and certain CRA projects. The carrying amount of equity investments measured under the measurement alternative, downward and upward adjustments for impairments and price changes from observable transactions are as follows:

Three Nine Month Months EndedEnded September 30, 2018 (In millions) Carrying value, beginning of period \$39 \$ 31 Net additions 9 Downward adjustments for price changes and impairment (2) (2)) Upward adjustments for price changes 15 Carrying value, end of period \$53 \$ 53

Total cumulative downward adjustments for equity investments without a determinable fair value for impairments and observable price changes were \$6 million. Total cumulative upward adjustments for price changes from observable transactions were \$15 million as of September 30, 2018.

NOTE 4. LOANS AND THE ALLOWANCE FOR CREDIT LOSSES LOANS

The following table presents the distribution of Regions' loan portfolio by segment and class, net of unearned income:

September 30. December 31.

	September 30,	December 31,
	2018	2017
	(In millions, net of	unearned income)
Commercial and industrial	\$ 38,036	\$ 36,115
Commercial real estate mortgage—owner-occupied	5,943	6,193
Commercial real estate construction—owner-occupi	e 3 126	332
Total commercial	44,305	42,640
Commercial investor real estate mortgage	4,205	4,062
Commercial investor real estate construction	1,838	1,772
Total investor real estate	6,043	5,834
Residential first mortgage	14,220	14,061
Home equity	9,435	10,164
Indirect—vehicles	3,146	3,326
Indirect—other consumer	2,179	1,467
Consumer credit card	1,273	1,290
Other consumer	1,220	1,165
Total consumer	31,473	31,473
	\$ 81,821	\$ 79,947

During the three months ended September 30, 2018 and 2017, Regions purchased approximately \$188 million and \$6 million in indirect-other consumer loans from third parties, respectively. During the nine months ended September 30, 2018 and 2017, the comparable loan purchase amounts were approximately \$403 million and \$153 million, respectively.

At September 30, 2018, \$22.0 billion in securities and net eligible loans held by Regions were pledged to secure current and potential borrowings from the FHLB. At September 30, 2018, an additional \$24.1 billion in net eligible loans held by Regions were pledged to the FRB for potential borrowings.

ALLOWANCE FOR CREDIT LOSSES

Regions determines the appropriate level of the allowance on a quarterly basis. Refer to Note 1 "Summary of Significant Accounting Policies" to the consolidated financial statements to the Annual Report on Form 10-K for the year ended December 31, 2017, for a description of the methodology.

ROLLFORWARD OF ALLOWANCE FOR CREDIT LOSSES

The following tables present analyses of the allowance for credit losses by portfolio segment for the three and nine months ended September 30, 2018 and 2017. The total allowance for loan losses and the related loan portfolio ending balances are disaggregated to detail the amounts derived through individual evaluation and collective evaluation for impairment. The allowance for loan losses related to individually evaluated loans is attributable to reserves for non-accrual commercial and investor real estate loans and all TDRs. The allowance for loan losses and the loan portfolio ending balances related to collectively evaluated loans is attributable to the remainder of the portfolio.

PORTFOLIO SEGMENT RISK FACTORS

The following describe the risk characteristics relevant to each of the portfolio segments.

Commercial—The commercial portfolio segment includes commercial and industrial loans to commercial customers for use in normal business operations to finance working capital needs, equipment purchases or other expansion projects. Commercial also includes owner-occupied commercial real estate mortgage loans to operating businesses, which are loans for long-term financing of land and buildings, and are repaid by cash flow generated by business operations. Owner-occupied construction loans

Table of Contents

are made to commercial businesses for the development of land or construction of a building where the repayment is derived from revenues generated from the business of the borrower. Collection risk in this portfolio is driven by the creditworthiness of underlying borrowers, particularly cash flow from customers' business operations, and the sensitivity to market fluctuations in commodity prices.

Investor Real Estate—Loans for real estate development are repaid through cash flow related to the operation, sale or refinance of the property. This portfolio segment includes extensions of credit to real estate developers or investors where repayment is dependent on the sale of real estate or income generated from the real estate collateral. A portion of Regions' investor real estate portfolio segment consists of loans secured by residential product types (land, single-family and condominium loans) within Regions' markets. Additionally, these loans are made to finance income-producing properties such as apartment buildings, office and industrial buildings, and retail shopping centers. Loans in this portfolio segment are particularly sensitive to the valuation of real estate.

Consumer—The consumer portfolio segment includes residential first mortgage, home equity, indirect-vehicles, indirect-other consumer, consumer credit card, and other consumer loans. Residential first mortgage loans represent loans to consumers to finance a residence. These loans are typically financed over a 15 to 30 year term and, in most cases, are extended to borrowers to finance their primary residence. Home equity lending includes both home equity loans and lines of credit. This type of lending, which is secured by a first or second mortgage on the borrower's residence, allows customers to borrow against the equity in their home. Real estate market values as of the time the loan or line is secured directly affect the amount of credit extended and, in addition, changes in these values impact the depth of potential losses. Indirect-vehicles lending, which is lending initiated through third-party business partners, largely consists of loans made through automotive dealerships. Indirect-other consumer lending represents other point of sale lending through third parties. Consumer credit card lending includes Regions branded consumer credit card accounts. Other consumer loans include other revolving consumer accounts, direct consumer loans, and overdrafts. Loans in this portfolio segment are sensitive to unemployment and other key consumer economic measures.

CREDIT QUALITY INDICATORS

The following tables present credit quality indicators for portfolio segments and classes, excluding loans held for sale, as of September 30, 2018, and December 31, 2017. Commercial and investor real estate portfolio segments are detailed by categories related to underlying credit quality and probability of default. Regions assigns these categories at loan origination and reviews the relationship utilizing a risk-based approach on, at minimum, an annual basis or at any time management becomes aware of information affecting the borrowers' ability to fulfill their obligations. Both quantitative and qualitative factors are considered in this review process. These categories are utilized to develop the associated allowance for credit losses.

Pass—includes obligations where the probability of default is considered low;

Special Mention—includes obligations that have potential weakness that may, if not reversed or corrected, weaken the credit or inadequately protect the Company's position at some future date. Obligations in this category may also be subject to economic or market conditions that may, in the future, have an adverse effect on debt service ability; Substandard Accrual—includes obligations that exhibit a well-defined weakness that presently jeopardizes debt repayment, even though they are currently performing. These obligations are characterized by the distinct possibility that the Company may incur a loss in the future if these weaknesses are not corrected;

Non-accrual—includes obligations where management has determined that full payment of principal and interest is in doubt.

Substandard accrual and non-accrual loans are often collectively referred to as "classified." Special mention, substandard accrual, and non-accrual loans are often collectively referred to as "criticized and classified." Classes in the consumer portfolio segment are disaggregated by accrual status.
