CREDICORP LTD. ANNOUNCES FINANCIAL RESULTS FOR THE QUARTER ENDED MARCH 31, 2005

Credicorp (NYSE:BAP; LSE:BAPC1) reported a consolidated net income for the quarter ended March 31, 2005 of US\$46.5 million, 41.7% above net profit in the first quarter of 2004 of US\$32.8 million. According to IFRS requirements, starting with this report, two net income concepts have to be identified: (i) Net Income (without deducting minority interest), and (ii) Net Income due to shareholders, where minority interest is deducted as in prior reports. Net income due to shareholders in first quarter 2005 was US\$43.6 million, or US\$0.55 per share, 45.1% above net income due to shareholders of US\$30.1 million, or US\$0.44 per share, in the first quarter of 2004.

First quarter 2005 results are higher than profits in the same year-ago quarter mainly because of higher financial income and lower loan loss provision expense.

Loan loss provisions, net of recoveries, had a positive effect in net income of the current quarter. Due to improved loan portfolio quality, recoveries of previously charged-off loans exceeded provision requirements in this quarter. Loan quality improvement is noted through a lower past-due loan ratio, that decreased from 5.7% at March 2004, to 3.3% at the end of March 2005, and by the improved coverage of bad loans by provisions which increased from 117.7% to 161.6%, respectively.

Increased revenue from Premiums and health fees, were partly offset by higher Claims and health cost expenses, which are mainly due to transactions added from Novasalud EPS, which PPS acquired in March 2004, and was finally merged in August 2004.

I. CREDICORP LTD. AND SUBSIDIARIES

CREDICORP LTD. AND SUBSIDIARIES SUMMARY OF RESULTS

<i>(In U.S.\$ millions)</i>	Three months ended		
	31.03.04	31.12.04	31.03.05
Net interest income	90.0	105.8	103.8
Less: Provisions for possible loan losses, net(1)	10.1	5.3	(3.1)
Other income	99.9	127.4	115.2
Claims on insurance activities	28.7	44.0	40.6
Other expenses	108.2	137.9	113.1
Merger costs	1.8	0.0	0.0

Net Income per share (US\$) (2)	0.38	0.44	0.55

Edgar Filing: CREDICORP LTD - Form 6-K

(1) Net of income from recoveries of charged-off loans.

(2) Based on Net Income due to shareholders. Applies 79.8 million net outstanding

shares in all periods. Treasury shares amount to 14.6 million,

which are netted from 94.4 million total outstanding shares.

Operating Changes

The purchase of the loan portfolio from the Peruvian branch of Bank Boston, announced at the beginning of this year, was effected in stages during the months of January and February. Total loans bought amounted to approximately US\$360 million.

The sale of Credicorp's subsidiary, Banco Tequendama, was finalized in March 2005. Since the beginning of fourth quarter 2004 this subsidiary did not contribute to consolidated net income given that its sale price was fixed. Nevertheless, Credicorp's consolidated balance sheets as of March 2005 are affected by Tequendama's exit compared to December 2004, in which US\$306.7 million of loans and US\$290.5 million of deposits were included from this subsidiary.

In February 2005, Credicorp was authorized to set up Prima AFP, in which it is the main shareholder. It is expected that this new AFP will begin operating in the second semester of 2005.

Net Income from Subsidiaries

Credicorp's principal subsidiaries contributed to consolidated net income as follows:

(US\$Mn)	1Q04	4Q04	1Q05
Banco de Crédito BCP(1)	US\$25.9	US\$28.1	US\$43.7
Atlantic	2.9	4.0	3.4
PPS	2.8	1.9	2.2
Banco Tequendama	0.6	0.0	0.0
Credicorp and others(2)	-2.1	0.9	-5.7
Net Income due to shareholders	US\$30.1	US\$34.9	US\$43.6
Net Income	US\$32.8	US\$38.0	US\$46.5

(1) Includes Banco de Crédito de Bolivia.

(2) Includes Inversiones Crédito, Credicorp Securities and others.

In the first quarter of 2005, the **Credicorp and others** concept contributed a net loss of US\$5.7 million, mainly due to US\$2.5 million of market value provisions of certain long term investments, and to US\$4.5 million of taxes on dividends received from Peruvian subsidiaries, partly offset by US\$1.8 million non-recurrent gains on investments. The net income contribution of US\$0.9 million in the last quarter of 2004 included a gain of US\$3.0 million from the sale of long term investments on equity securities.

In the current quarter, the contributions to Credicorp's net income due to shareholders from **Banco de Crédito BCP** and from **Pacífico Peruano Suiza**, are directly the results obtained under IFRS rules in U.S. Dollars, net of minority interests. In Section II, BCP reports net income of US\$45.4 million, which net of US\$1.7 million of minority interest results in its US\$43.7 million contribution. In case of PPS (Section IV), its net income according to IFRS is US\$2.9 million, of which US\$0.7 million of minority interest is deducted. (See below: *Note on Inflation Adjusted Accounting*.)

The contribution of **Atlantic Security Holding Corporation** of US\$3.4 million in the current quarter is below US\$15.1 million net income shown in its books (see Section III) because of the elimination of US\$11.7 million of dividends received from Credicorp. Atlantic's US\$2.9 million contribution in first quarter 2004, results from the elimination of US\$4.8 million dividends from US\$7.7 million net income in its records.

Edgar Filing: CREDICORP LTD - Form 6-K

Banco Tequendama, which was finally sold last March 2005, was not contributing to Credicorp's net income since the fourth quarter of 2004 because, as was mentioned above, of its fixed sale price.

Note on Inflation Adjusted Accounting

Inflation adjustment accounting rules were required by Peruvian GAAP until December 31, 2004. Starting January 1st, 2005, Peruvian authorities decreed the suspension, with legal and tax effects, of further inflation adjustments, which is a consequence of international guidelines for low inflation countries as experienced recently in Perú.

Following the elimination of inflation adjusted accounting, starting with first quarter 2005 Credicorp and its subsidiaries report their financial statements prepared in accordance with IFRS and in U. S. Dollars.

The inflation adjustment index, based on the wholesale price inflation, and the exchange rate, are shown in the following chart:

	31.03.04	31.12.04	31.03.05
Inflation - wholesale prices (last twelve months)	3.8%	4.9%	2.3%
Inflation adjustment index (at December 31, 2004)	1.020	1.000	1.000
Exchange rate (Soles per US\$1)	S/3.460	S/3.282	S/3.261
Devaluation / (revaluation) (last twelve months)	(0.40)%	(5.23)%	(5.75)%

I.1 INTEREST INCOME AND OTHER INCOME

Note: For comparison purposes, in periods prior to 2005, income from recoveries of previously charged-off loans, which were reported in the *Other non-interest income* concept, have been reclassified into the *Provision for possible loan losses* concept, with no effect on net income.

Net interest income in the first quarter of 2005 was US\$103.8 million, increasing over US\$90.0 million earned in the first quarter of 2004, mostly due to higher interest earning assets, compounded by a slight increase in interest margins.

During first quarter 2005, the net interest margin (net interest income over average interest earning assets), on an annualized basis, was 5.45%, above 5.26% in the year-ago quarter, but was lower than 5.70% in the preceding fourth quarter of 2004. During the current quarter loan rates continued their positive trend and increased slightly, within a continuing overall excess of liquid funds.

The volume of interest earning assets, as an average of quarter-end balances, reached US\$7.6 billion at first quarter 2005, increasing 2.8% compared to US\$7.4 billion in the last quarter of 2004, mainly due to higher available for sale investments. As mentioned previously, loan volumes were affected by the sale of Banco Tequendama during first quarter 2005.

Non-interest income was US\$115.2 million in the first quarter of 2005, 15.3% higher than US\$99.9 million in the same period of 2004. This significant increase is mainly due to the merger, in third quarter 2004, of Novasalud EPS with PPS, with the effect of increasing both revenue and cost items. Due to this effect, *Premiums and health fees* reached US\$50.6 million in this quarter, 33.1% over first quarter 2004. Likewise, *Claims and health costs* grew to US\$40.6 million, 41.7% higher compared to the 2004 quarter.

Non-interest income components and Claims and health costs were as follows:

<i>(In US\$Mn)</i>	1Q04	4Q04	1Q05	1Q05 vs. 4Q04	1Q05 vs. 1Q04
Commissions for banking services	47.1	52.9	51.0	-3.7%	8.1%

Edgar Filing: CREDICORP LTD - Form 6-K

Net premiums and health fees	38.0	57.2	50.6	-11.5%	33.1%
Gains from sale of securities	4.0	5.9	0.4	-92.9%	-89.3%
Gains from foreign exchange	5.5	7.0	6.3	-10.7%	14.8%
Other non-interest income	5.3	4.3	6.9	60.5%	30.3%
Total Non-Interest Income	99.9	127.4	115.2	-9.6%	15.3%
Claims and health costs	28.7	44.0	40.6	-7.8%	41.7%

I.2 OTHER NON-INTEREST EXPENSES

Other non-interest expenses amounted to US\$113.1 million in first quarter 2005, 2.8% over expenses in the same period of the previous year, but decrease 18.0% with respect to the preceding fourth quarter 2004, where certain non-recurring provisions were registered for lower value of foreclosed assets and investments, and to reverse Banco Tequendama's results. Credicorp's other expense components had the following variations:

<i>(% change and US\$Mn)</i>	1Q04	4Q04	1Q05	1Q04 vs. 4Q04	1Q05 vs. 1Q04
Salaries and employee benefits	44.4	54.3	50.8	-6.5%	14.5%
General, administrative, and taxes	37.5	44.2	34.5	-21.9%	-7.9%
Depreciation and amortization	11.6	11.6	10.3	-11.8%	-11.7%
Other	14.7	27.8	17.5	-37.0%	18.9%
Merger costs	1.8	0.0	0.0	-100.0%	-100.0%
Total Other Expenses	110.0	137.9	113.1	-18.0%	2.8%

In the Merger costs concept, we have a US\$1.8 million expense in the year-ago first quarter, which was related with the Solución Financiera de Crédito merger.

Starting with this report, the determination of the **efficiency ratio** has been simplified by using only concepts that are shown in the income statement. The efficiency ratio will be determined based on the following concepts:

- In the numerator or operating expenses : i) salaries and personnel expenses, ii) general expenses, and iii) depreciation and amortization.
- In the denominator: i) net interest income, ii) fees and commissions on banking services, iii) gains on foreign exchange transactions, and iv) net premiums earned.

In this way, the efficiency ratio improved from 52.8% to 45.1% comparing the first quarters of 2004 and 2005, respectively.

Operating expenses as a percentage of average total assets also improved from 4.6% in first quarter 2004, to 4.1% in the current quarter.

I.3 ASSETS AND LIABILITIES

Credicorp's total assets reached US\$9.4 billion at March 31, 2005, increasing 2.6% since the end of December 2004, and are 12.6% higher than the balance at March 2004, mainly due to increased investments. Total loans decrease slightly since the beginning of the year, in spite of loans acquired from Bank Boston, mainly due to the sale of Banco Tequendama, which as of year-end 2004 had total loans amounting to US\$306.7 million.

The loan portfolio as of March 31, 2005 reached US\$4.6 billion, increasing 3.6% compared to US\$4.4 billion in March 2004, but are lower by 0.6% compared to the balance in December 2004.

Edgar Filing: CREDICORP LTD - Form 6-K

Loan quality indicators are shown in the following table:

<i>(In US\$Mn)</i>	31.03.04	31.12.04	31.03.05
Total loans	4,401.7	4,588.0	4,559.0
Past due loans	249.8	160.4	151.7
Loan loss reserves(1)	294.1	253.4	245.2
Past due / Total loans	5.7%	3.5%	3.3%
Reserves / Past due	117.7%	158.1%	161.6%

The balance of past due loans decreased from US\$160.4 million to US\$151.7 million during the current quarter partly due to charge-offs amounting to US\$11.5 million and since US\$5.9 million of past due loans of Banco Tequendama are no longer considered.

Deposits and other obligations reached US\$6.5 billion at March 31, 2005, increasing 2.1% over US\$6.4 billion of last December 2004, and are 11.0% higher than the March 2004 balance. Due to banks and correspondents grew 6.0% in this quarter, closing at US\$416.0 million, and are 63.1% higher than the balance at March 2004.

Credicorp's net equity amounted to US\$1.0 billion at March 31, 2005, decreasing 1.6% compared to equity at December 2004, due to the recently paid liquid dividend.

Third party funds under management, which amounted to US\$1.7 billion at the end of March 2005, decreased 1.3% during the current quarter, but remain 7.7% higher than funds at March 2004.

I.4 PERUVIAN ECONOMIC SITUATION

Economic Activity

During the first quarter 2005 the Peruvian GDP continued a relatively high growth rate that began in the final months of 2004. It is important to note the improved growth prospects of sectors related to domestic demand, like construction, retail and services. GDP performance was driven by higher activity in non-primary manufacturing (mainly textiles, intermediate and durable goods), oil and natural gas, and the agriculture sub-sector.

GDP grew 6.8% in February and 5.3% in January 2005, reaching in the first two months of 2005 a cumulative growth of 6.0%. GDP grew 5.0% and 6.8% in the third and fourth quarters of 2004, respectively, reaching a 5.1% growth in total 2004. Official estimates expect growth continuing above 4.5% during 2005.

Cumulative through February 2005 all GDP sectors grow except Mining. Highest performance is noted in the Oil and Gas sub-sector which grew 33.0%; non-primary manufacturing, up by 7.3%; the agriculture sub-sector, which grew 3.8% due to improved weather conditions; in fishing, which grew 3.3%, in spite of an anchovie ban in the North and Center of the coast; services, up by 6.7%; commerce with 7.2% growth, and, the construction sector, that grew 4.4%. On the other hand, metals mining production declined 2.5%, due to lower gold and iron output and a poor performance of copper.

Public Finance

In fourth quarter 2004, the Public Sector budget had a deficit of 4.0% (of GDP), following a 2.1% deficit in the third quarter, but after a 0.9% surplus in first half 2004. Given that the total 2004 target was to run a deficit of 1.5%, a substantial increase in public expenditure was expected in second half 2004. Nevertheless, total 2004 deficit was below target at only 1.1%. The 2005 fiscal year target deficit was set at 1.0%.

The deficit in fourth quarter 2004 was mainly due to increased Central Government expenditures which, after being 14.5% of GDP in first half 2004, grew to 19.3% of GDP in this period, where current expenses amounted to 14.4% of GDP, and capital expenditures to 3.0%. Central Government tax revenue reached 13.3% of GDP in fourth quarter 2004, compared with 13.5% in the same year-ago period.

Edgar Filing: CREDICORP LTD - Form 6-K

Cumulative through February 2005, Central Government tax collections increased 9.2%, in nominal terms, noting a 14% increase of Income Tax revenue from corporations and the 22% growth in case of tax on imports and the related value-added tax (IGV). Through February 2005, non-financial expenses increased 20% (nominal), while capital expenses declined 6.6% .

Prices and Devaluation

In the first quarter of 2005, the consumer price index in Peru increased 0.5%, higher than 0.3% in the preceding quarter. Inflation was 1.9% in the twelve months prior to March 2005, remaining by the bottom of the range of 1.5% to 3.5%, targeted by the Central Bank for total 2005. In the current quarter, inflation suffered seasonal increases in education costs and food prices, but benefited from the lower exchange rate.

The wholesale price index increased 0.3% in first quarter 2005, and reached 2.3% in the year ended in March 2005. In the first quarter these prices increased mostly due to the cost of imported intermediate goods, in spite of the decline in the exchange rate.

The average bank market Nuevos Soles exchange rate in Peru was S/3.261 at March 31, 2005, decreasing 0.6% from S/3.282 at the end of December 2004. To avoid the strengthening of the currency, the Central Bank increased the purchase of foreign exchange in the currency market, acquiring US\$1,150 million in the first quarter, compared to US\$2,340 million purchased during total 2004.

International Reserves

International reserves of the Central Bank continued to increase during first quarter 2005, due in part to the above mentioned foreign currency purchases. Reserves reached US\$13,555 million at March 31, 2005, up from US\$12,631 million at December 31, 2004.

The Trade Balance had a US\$634 million cumulative surplus in January and February 2005, increasing compared to a US\$389 million surplus in the same first two months of 2004. Cumulative through February 2005, exports grew 35% versus a 26% increase in imports. Exports, which reached US\$2,346 million as of February 2005, grew on increased volume and prices, especially of copper, and non-traditional textiles, agricultural and fishing exports. Imports through February 2005 amounted to US\$1,712 million, increasing mainly due to higher imports of raw materials, while durable goods and consumer goods also increased significantly.

Financial System

Commercial banks loan and deposit volumes continued their mild positive trend during first quarter 2005, based on U. S. Dollar figures translated at historical exchange rates. This avoids the negative effect of the strengthening of the Nuevo Sol on records carried in local currency. Deposits at March 31, 2005 in the thirteen operating commercial banks in the system reached US\$15.2 billion, according to the Asociación de Bancos del Peru (ASBANC), higher by 2.6% compared to deposits at December 31, 2004, in Dollar terms, and grew by 5.0% compared to the balance at March 31, 2004.

As of March 31, 2005, total loans in the banking system were US\$11.0 billion, 0.6% higher than loans at December 31, 2004, and grew 2.6% over March 31, 2004 loan balances. In the current quarter, local currency loans, that were 24.9% of total loans (23.8% at March 2004), grew 2.6% since last December to reach US\$2.7 billion, while foreign currency loans increased 0.6% to US\$8.2 billion.

As of March 31, 2005, the Peruvian bank's past due ratio was 3.6%, improving from the 3.8% rate in December 2004 and from 5.8% in March 31, 2004. Commercial banks past due loans decreased 1.9% since last December to US\$398 million, and are lower by 32.0% compared to bad loans at March 31, 2004. At March 31, 2005, loan loss provisions were US\$707 million, decreasing 1.8% during this quarter. The system-wide past due loan coverage ratio was 177.6% at March 31, 2005, remaining unchanged since December 31, 2004, but is also higher than the ratio of 143.5% at March 31, 2004.

Interest rates

During the first quarter 2005 commercial banks loans and deposits interest rates had a slight increase. Local currency average loan rates (TAMN) were 26.2% in first quarter 2005, increasing from 25.0% in the fourth quarter of 2004, while deposits rates (TIPMN) remained at 2.5% . In the first quarter of 2004, TAMN was 24.1% and TIPMN was 2.4% . During first quarter 2005 foreign currency loan rates (TAMEX) increased to 9.5%, from 9.3% in the preceding fourth quarter, while deposit rates (TIPMEX) increased to 1.3% from 1.2% .

Private Pension Funds and Mutual Funds

Managed assets in private pension funds continued increasing and grew 5.3% in the first quarter of 2005 reaching US\$8.2 billion as of March 31, 2005, after increasing 7.5% in the last quarter of 2004, and are 21.8% higher than funds at March 2004. In the twelve months prior to March 2005, the funds had a return of 8.3% in real terms.

Edgar Filing: CREDICORP LTD - Form 6-K

Mutual funds suffered declines due to volatility of prices and valuations in capital markets and to the increase in interest rates. Total mutual funds amounted to US\$1.7 billion at the end of the first quarter 2005, decreasing 1.1% in the quarter, and by 15.8% from the balance at March 2004. Total funds had a return in Dollar terms of 0.9% in the quarter, and of 3.2% during the year since March 2004.

II. BANCO DE CREDITO DEL PERU AND SUBSIDIARIES (BCP)

II.1 NET INCOME

From financial statements prepared according to IFRS rules and in U.S. Dollars, consolidated net income in the first quarter 2005 was US\$45.4 million, increasing 68.6% compared with net income of US\$26.9 million in the same quarter in 2004, and also grows 54.3% compared to US\$29.4 million in the preceding fourth quarter 2004.

First quarter 2005 net income increase compared to the same prior year period mainly due to higher net interest income, which is mostly from higher interest earning assets, and lower loan loss provisions.

In the current quarter, loan loss provision had a net positive effect on results, due to recoveries exceeding required reserve additions. Loan quality continued to improve, with the past due ratio declining to 3.4% in March 2005, and past due coverage increasing to 177%.

In the current quarter a translation gain of US\$0.3 million is reported, due to the decline of the exchange rate, which has to be distinguished from the *Result on inflation exposure* shown in prior reports based on Peruvian GAAP. See I. --*Note on Inflation Adjusted Accounting*.

BANCO DE CREDITO DEL PERU AND SUBSIDIARIES
SUMMARY OF RESULTS (1)

(In U.S.\$ millions, except net income per share)

	Three months ended		
	31.03.04	31.12.04	31.03.05
Net interest income	74.8	97.0	91.0
Less: Provisions for loan losses, net	9.9	4.0	(3.1)
Other income	55.6	55.0	59.4
Other expenses	85.5	107.1	91.4
Merger costs	1.8	0.0	0.0
Translation result	1.7	(0.6)	0.3
Income before income tax	34.8	40.3	62.5
Income Tax	7.9	10.8	17.1
Net Income	26.9	29.4	45.4
Net Income per share (US\$) (2)	0.02	0.02	0.04

(1) *Financial statements prepared according to IFRS, in U.S. Dollars.*

(2) *Based on 1,226 million outstanding shares in all periods.*

II.2 NET INTEREST INCOME

Interest income, net of interest payments, in the first quarter of 2005 reached US\$91.0 million, increasing compared to US\$74.8 million net interest income in the same period of last year, but decreased compared to net interest income of US\$97.0 million in the preceding fourth quarter of 2004.

Increased net interest income, compared to the first quarter of 2004, is mostly due higher average interest earning assets, while net interest margins also had a slight growth. Average interest earning assets reached US\$6.6 billion during first quarter 2005, a 11.1% growth comparing with the first quarter of last year, while they are 5.7% higher than average assets in fourth quarter 2004. The increase is mainly due to the inclusion of the loan portfolio acquired from Bank Boston and to higher deposits. In the current quarter BCP continued its persistent excess liquidity environment in both local and foreign currencies.

Edgar Filing: CREDICORP LTD - Form 6-K

During the first quarter of 2005, the net interest margin was 5.51%, lower than 6.21% in the preceding fourth quarter, but increases from 5.03% during the first quarter of 2004. During the current quarter the net interest margin remained at a high level mostly due to higher local and foreign currency loan rates, following international trends, while deposit rates grew at a slower pace.

II.3 NON-INTEREST INCOME

Note: For comparison purposes, in periods prior to 2005, income from recoveries of previously charged-off loans, which were reported in the *Other non-interest income* concept, have been reclassified into the *Provision for possible loan losses* concept, with no effect on net income.

Non-interest income, which include fee revenue and other non-interest items, in the first quarter of 2005 amounted to US\$59.4 million, higher than US\$55.6 million earned during the first quarter of 2004, mostly due to higher banking services fees and gains on foreign exchange transactions.

In the first quarter of 2005, fees from banking services amounted to US\$48.7 million, 7.5% higher than fees in the same period of 2004, due to increased revenue in concepts related to credit cards and loans, partly offset by declining revenue on fees related to accounts transaction volume due to the tax on financial transactions. In the quarter, fees on the most important banking services had the following growth rates:

<i>(In US\$ Mn.)</i>	1Q04	1Q05	Growth
Savings accounts	6.0	5.9	-1.7%
Demand deposits	5.7	6.3	10.5%
Credit cards	5.2	6.3	21.2%
Fund transfer services	4.3	4.6	7.0%
Collections fees	3.5	3.6	2.9%
Billings and payments	3.7	3.8	2.7%

Debit cards	2.0	2.0	0.0%
Corporate Finance	1.6	1.6	0.0%
Brokerage	2.9	2.6	-10.3%
Commercial loans	1.4	1.9	35.7%
Insurance	1.2	1.3	8.3%
Mortgage loans	0.7	0.6	-14.3%
Channels and services	0.6	0.5	-16.7%
Master account	0.5	0.4	-20.0%
Personal loans	0.9	0.3	-66.7%
Micro-business credit	0.2	0.6	200.0%
Other	0.6	1.8	200.0%
Total	45.3	48.7	7.5%

In the first quarter of 2005, securities transactions resulted in a gain of US\$1.1 million, compared to a gain in the year-ago quarter of US\$2.5 million. The general index of the Lima Stock Exchange increased 12.1% in the first quarter of 2005, and by 24.7% in the same year-ago period. Gains from foreign exchange operations, which are the result of the foreign exchange buy-sell margin, were US\$6.2 million in the first quarter of 2005, 16.2% higher than revenue in the same quarter of 2004, mainly due to increased transactions volume, which offset a slight decrease in the buy-sell margins.

The Other Income caption, that mainly registers reversals of prior year expenses and provisions and recoveries of certain operating costs, increased 33.3%, from US\$2.5 million in the first quarter of 2004 to US\$3.3 million in the current period, mainly due to lower recoveries of excess provisions.

II.4 OTHER NON-INTEREST EXPENSES

Edgar Filing: CREDICORP LTD - Form 6-K

Non-interest expenses during the first quarter of 2005 were US\$91.4 million, 4.7% above those of the same period in 2004, mainly because of increased personnel expenses.

In this quarter, approximately 46% of non-interest expenses were attributable to employee salaries and other expenses related to personnel. This concept increased 16.3% to US\$41.7 million when compared to the first quarter of 2004. At the end of March 2005 the number of employees stood at 7,632, decreasing from 7,694 employees as of December 2004, and also compared to 7,652 employees at March 2004, mainly due to lower positions at Banco de Crédito de Bolivia.

General and Administrative expenses, which represented 31% of non-interest expenses, reached US\$28.5 million in the first quarter of 2005, decreasing 0.8% compared to expenses in the year-ago period. In the current quarter, lower expenses related to systems were mostly offset by higher marketing charges. In this quarter, the most significant general and administrative expenses were:

<i>(In US\$ Mn.)</i>	1Q04	1Q05	Chnge.
Office supplies and operating costs	3.6	3.9	8.3%
Communications	2.4	2.4	0.0%
Third party fees	3.8	3.7	-2.6%
Insurance and security	2.0	2.2	10.0%
Transport of currency and securities	3.5	3.4	-2.9%
Systems and maintenance	7.5	6.4	-14.7%
Advertising and marketing	3.5	4.3	22.9%
Other G&A	2.4	2.2	-8.3%
Total G&A	28.7	28.5	-0.8%

The *Other* caption within Other Non-Interest Expenses, increased from US\$7.3 million in the first quarter of 2004 to US\$8.4 million in the current quarter, mainly due to lower revenue from the sale of foreclosed assets, which were not fully offset by decreased provisions for foreclosed assets and contingencies.

Starting with this report, the determination of the **efficiency ratio** has been simplified by using only concepts that are shown in the income statement. The efficiency ratio will be determined from the following concepts:

- In the numerator or operating expenses : i) salaries and personnel expenses, ii) general expenses, iii) depreciation and amortization, and iv) taxes other than income taxes.

- In the denominator: i) net interest income, ii) fees and commissions on banking services, and iii) gains on foreign exchange transactions.

The Efficiency ratio improved from 63.8% to 56.8% comparing the first quarters of 2004 and 2005, respectively.

The ratio of operating expenses as a percentage of average total assets, also improved from 4.8% in the first quarter of 2004 to 4.4% in the current period.

II.5 ASSETS AND LIABILITIES

Total assets of BCP reached US\$7.9 billion at the end of March 2005, growing 8.4% with respect to December 2004, and by 19.1% compared to assets at March 2004, mainly due to higher investments and increased performing loans.

Consolidated total loans were US\$4.4 billion at the end of March 2005, increasing 6.6% in the quarter, and are 9.3% above loans at March 2004. During first quarter 2005, current loans grew 6.9% to US\$4.2 billion, and are 12.4% higher than those in March 2004.

At March 31, 2005, the loan portfolio, net of provisions, represented 51.8% of total assets, lower than 52.8% at the preceding quarter. At the end of the first quarter of 2005, the Nuevos Soles portion of the loan portfolio was 16.9%, higher than 16.5% in December 2004, but is below 17.5% at March 2004.

Edgar Filing: CREDICORP LTD - Form 6-K

As of March 31, 2005 **total deposits**, which do not include bonds and subordinated debt (see Table No. 6), were US\$6.0 billion, increasing 8.6% compared to fourth quarter 2004 deposits, and are 15.5% over deposits in the year-ago quarter.

During the first quarter 2005, demand deposits grew by 20.6%, while time deposits increased by 4.0% and savings deposits increased 2.6% . Deposits denominated in Nuevos Soles were 28.4% of total deposits, increasing during the current quarter from 25.2% at December 2004, and also compared to 24.7% at the end of March 2004.

BCP's subsidiaries had the following loan, net of provisions, and deposit contributions:

<i>(In % and US\$ Mn.)</i>	Loans, net			Total Deposits		
	31.03.04	31.12.04	31.03.05	31.03.04	31.12.04	31.03.05

Contingent Credits and Managed Funds

At March 31, 2005 **contingent credits** were US\$1,893 million, 3.3% above the December 2004 figure, as shown in the next chart:

<i>(% change and US\$ Mn)</i>	31.03.04	31.12.04	31.03.05	31.03.05 vs 31.12.04	31.03.05 vs 31.03.04
- Guarantees and Stand-by LCs	637	598	659	10.3%	3.6%
- Letters of Credit	148	226	219	-3.5%	47.7%
- Acceptances	40	45	47	5.7%	17.5%
- Foreign currency forwards	342	458	466	1.7%	36.3%
- Other contingent accounts	485	506	502	-0.9%	3.5%
Total Contingent Credits	1,652	1,833	1,893	3.3%	14.6%

Third party funds managed by several subsidiaries of BCP amounted to US\$945.2 million as of March 31, 2005, decreasing 0.9% compared to funds at December 2004.

Market share

According to preliminary statistics from the Peruvian Banking Association (ASBANC) for Peruvian commercial banks as of March 31, 2005, Banco de Crédito del Perú had a total loan market share of 34.9% (33.0% at December 31, 2004 and 34.6% at March 31, 2004), and 37.6% of deposits (35.7% at December 31, 2004 and 36.6% at March 31, 2004).

BCP's market share in Peruvian mutual funds, through its subsidiary Credifondo, was 51.6% as of March 31, 2005 (51.6% at December 31, 2004 and 49.4% at March 31, 2004).

II.6 LOAN QUALITY

The ratio of past due loans as a percentage of total loans improved to 3.4% at March 31, 2005, from 3.7% at December 2004, and also compared to the ratio of 6.0% at March 2004. The ratio of past due, refinanced and restructured loans as a percentage of total loans declined to 8.5% during first quarter 2005 from 9.4% in December 2004, and also compared to 11.6% at March 2004.

Consolidated past due loans amounted to US\$148.1 million at March 31, 2005, decreasing 1.9% from the balance of US\$150.9 million at year-end 2004, and are also 38.3% below US\$240.1 million past due loans at March 2004.

At the end of March 2005, refinanced loans amounted to US\$222.2 million, lower than the balance at December 2004 that was US\$233.2 million, but are similar to the balance of US\$222.7 million in first quarter 2004.

At the end of the first quarter 2005, outstanding balances of loan loss provisions totaled US\$261.4 million, increasing 8.4% compared to the balance at the beginning of the year, but decreases 16.1% with respect to March 2004 mainly due to charge-offs.

The coverage ratio of loan provisions to past due loans increased to 176.5% at the end of first quarter 2005, from 159.8% at December 2004, and also compared to 121.6% in the year-ago period. The coverage ratio of provisions over the sum of past due loans and refinanced loans was 70.6% in March 2005, improving from 62.8% last December and from 63.1% in March 2004.

Of total provisions outstanding at the end of the current quarter, US\$59.6 million correspond to generic provisions assigned to loans in the Normal (A) risk category, increasing from the balance at March 31, 2004 of US\$49.9 million.

Loans believed to be unrecoverable, fully provisioned in prior periods, were written-off during the first quarter 2005 amounting to US\$11.5 million, of which approximately 44% were related to consumer and mortgage loans. This compares to charge-offs in the fourth quarter of 2004

Edgar Filing: CREDICORP LTD - Form 6-K

of US\$20.1 million, and US\$32.3 million in the year-ago first quarter.

Loans classified as Substandard (i.e., Deficient, Doubtful and Loss) were 9.5% of the loan portfolio in March 2005, decreasing from 11.5% in December 2004 and from 14.6% in March 2004. The loan classification is as follows:

<i>(% of Total loans and US\$Mn)</i>	31.03.04	31.12.04	31.03.05
A: Normal	76.8%	81.1%	83.0%
B: Potential Problem	8.6%	7.4%	7.5%
C: Deficient	5.4%	4.5%	3.0%
D: Doubtful	5.6%	4.3%	4.1%
E: Loss	3.6%	2.7%	2.4%
Total	100.0%	100.0%	100.0%
Total Loans	US\$3,995	US\$4,098	US\$4,367

Loan loss provisions, net of recoveries, had a positive effect on first quarter 2005 results amounting to US\$3.1 million, since recoveries of previously charged-off loans exceeded provision requirements, due to improved loan quality. Provision expense in the first quarter of 2004 was US\$9.9 million, and US\$6.0 million in fourth quarter 2004.

II.7 CAPITAL ADEQUACY

At the end of the first quarter of 2005, BCP's unconsolidated ratio of risk-weighted assets to regulatory capital was 7.9 to 1.0 (12.6%), while the corresponding consolidated ratio was 7.1 to 1.0 (14.0%). Peruvian regulations limit risk-weighted assets, including market-risk exposure, to a ratio of 11.0 to 1.0 (9.1%).

As of March 31, 2005, BCP's consolidated regulatory capital was US\$713.7 million, 2.6% over the December 2004 regulatory capital. Regulatory capital included \$41.3 million of subordinated debt in the current period, remaining almost unchanged since December 2004, but decreases from US\$54.6 million at March 2004.

At March 31, 2004, risk-weighted assets include US\$236.4 million of market-risk exposure (US\$362.4 million at March 2004) whose coverage required US\$21.5 million of regulatory capital.

<i>(In constant S/. Mn.)</i>	BCP unconsolidated		BCP consolidated	
	31.03.04	31.03.05	31.03.04	31.03.05
Regulatory capital	540.7	579.9	671.6	713.7
Risk weighted assets	4,385.0	4,606.4	4,860.7	5,086.1
Weighted assets / Capital	8.1	7.9	7.2	7.1
Capital / Weighted Assets	12.3%	12.6%	13.8%	14.0%

II.8 BANCO DE CREDITO DE BOLIVIA (BCB)

Below are brief comments on the Bolivian subsidiary, which is consolidated within BCP:

Bolivian economic activity

Edgar Filing: CREDICORP LTD - Form 6-K

Bolivian economic activity had a moderate recovery during 2004. GDP growth improved from 2.5% in 2003, to 3.6% in 2004, and should continue its recovery during 2005. GDP grew 3.6% in fourth quarter 2004, after growing 3.5% in the third quarter.

Higher growth is mainly due to increased exports of minerals, oil and gas, and of agricultural products, while domestic demand and consumption remained stagnant. In total year 2004, exports amounted to approximately US\$2.1 billion, growing 37%, after an already high growth of 20% in total 2003. The trade surplus is expected to reach US\$400 million, compared to a US\$34 million deficit in 2003.

During first quarter 2005 inflation was 1.6%, lower than 2.0% in the preceding fourth quarter, and reached 5.7% in the year ended in March 2005. Nevertheless, devaluation continued at a slower pace with a 0.5% exchange rate increase in the current quarter and 2.4% in the twelve prior months, reaching 8.09 Bolivianos per Dollar at March 31, 2005.

Bolivian banking system

Deposits in the banking system continued a slow recovery, and grew to US\$2,576 million at March 2005, from US\$2,510 million in December 2004. Deposits still remain below balances of US\$2,639 million at December 2003 mostly due to the application of the financial transactions tax since July 2004.

Loan volume in the banking system increased slightly during the current quarter to US\$2,486 million as of March 2005, and are 3.7% over loans of US\$2,398 million at December 2004. The past due loan ratio was 15.5% in March 2005, higher than 14.0% in December 2004. The coverage of past-due loans with provisions decreased to 73.6% at March 2005, from coverage of 84.3% in the preceding fourth quarter 2004.

BCB highlights

BCB's market share in deposits at March 2005 was 12.9%, increasing from 12.4% at the end of December 2004. In terms of loans, BCB had a 12.4% market share at March 2005, below 13.1% it had last December 2004. In this way, BCB remained in the fourth position in terms of deposits and loans, out of twelve banks in the system.

As of March 31, 2005, BCB had total loans of US\$319.3 million remaining almost unchanged since December 2004. Loan quality continued to improve. At the end of the first quarter 2005, BCB's past due loans reached US\$33.3 million, or 10.4% of total loans, lower than 11.0% at December 2004. Coverage of past due loans with loan loss provisions was 102.1% as of March 2005, increasing from 100.6% in December 2004. Net equity at the Bolivian subsidiary amounted to US\$60.3 million as of March 2005.

Cumulative through March 2005, net loan loss provisions resulted in a positive effect in net income of US\$0.3 million, compared to US\$0.7 million charged against results during first quarter 2004. In BCB's own records, cumulative net income in first quarter 2005 was US\$0.9 million, compared to US\$0.4 million in the year-ago quarter.

BCB's main financial figures are shown in the following chart.

Banco de Crédito de Bolivia (BCB)

Key Financial Figures

<i>(In US\$Mn)</i>	31.03.04	31.12.04	31.03.05
Total Loans	309.9	320.8	319.3
Past-due loans	64.2	35.4	33.3
Loan loss reserves	49.3	35.6	33.9
Total assets	446.2	457.4	453.9
Deposits	337.9	333.1	350.3
Net equity	56.3	59.8	60.3
Net income, cumulative	1.5	4.8	0.9
Past-due loans / Total loans	20.7%	11.0%	10.4%
Loss reserves / Past-due loans	76.7%	100.6%	102.1%

III. ATLANTIC SECURITY HOLDING CORPORATION AND SUBSIDIARIES (ASHC)

Net Income

In the quarter ended March 31, 2005, Atlantic contributed US\$3.4 million to Credicorp's consolidated net income, 17.0% above US\$2.9 million contributed in first quarter 2004. Due to the elimination of dividends received from Credicorp, ASHC's records show net income of US\$15.1 million and US\$7.7 million, respectively.

Net income contribution in the first quarter of 2005 increase compared to the same period of 2004, mainly due to higher gains on securities and other non-financial income.

Financial and non-financial income

Net interest income, before risk provisions and not including dividend income, was US\$3.2 million in the first quarter of 2005, slightly below US\$3.4 million in the same quarter of last year. Net interest margin as a percentage of interest earning assets, without considering dividends, was 1.6% during first quarter 2005, lower than the 1.9% margin in the first quarter 2004, and also decreases compared to 1.8% in the last quarter of 2004. Compared with the year-ago quarter, the margin decreased mainly because in 2004 the investment portfolio grew its lower risk and lower return segments.

In the first quarter of 2005 charges against income for market risk provisions amounted to US\$1.1 million, compared to US\$0.5 million in the year-ago period. In the current quarter no credit risk provisions were made, compared to a US\$0.5 million provision expense in first quarter of 2004.

Non-interest income, which includes fee income, realized gains on securities transactions before risk provisions and others, amounted to US\$3.3 million in the first quarter of 2005, over US\$2.4 million in the year-ago quarter. Fee income was US\$1.4 million in the current period, increasing from US\$1.1 million in the year-ago quarter.

The ratio of operating expenses over average assets was 0.9%, annualized, in the first quarter of 2005 similar to the ratio of the same period in 2004. This ratio declines to 0.6% in first quarter of 2005, when funds under management are included within total assets, remaining almost unchanged compared to the prior year quarter.

Assets and liabilities

The **loan portfolio**, net of provisions, was US\$153.4 million as of March 31, 2005, decreasing slightly compared to US\$154.2 million at the end of March 2004, but grows when compared to loan balances of US\$149.1 million at December 2004. As of March 31, 2004, the loan portfolio had no past dues, improving from a 2.4% past due ratio at March 2004.

The **securities portfolio** decrease to US\$514.4 million at March 2005, from US\$518.7 million last December 2004, but grow compared to US\$452.7 million at the end of March 2004, following the increase of available funds and the additional Credicorp shares purchased in second quarter 2004.

Deposits amounted to US\$720.4 million at March 31, 2004, increasing from the balance of US\$686.1 million at the end of the preceding fourth quarter 2004, and also compared to US\$638.1 million at the end of March 2004.

Funds under management were US\$774.3 million at March 31, 2005, 3.7% higher than US\$746.6 million at December 2004, and grow 12.0% compared to US\$691.2 million at March 2004, growth mainly due to a combination of increased managed funds and higher market prices of the securities held.

Net equity reached US\$153.9 million at the end of March 2005, increasing over US\$151.0 million at December 2004, due to current period's earnings and net of US\$10.0 million dividends paid to Credicorp. The equity account of reserves for market value of investments, decreased from a balance of unrealized gains of US\$9.9 million at the end of December 2004, to unrealized gains of US\$7.7 million at March 31, 2005.

IV. EL PACIFICO-PERUANO SUIZA AND SUBSIDIARIES (PPS)

Net income

PPS obtained in the quarter ended March 31, 2005, a net income of US\$2.9 million, compared to US\$3.6 million in the same year-ago quarter.

In the current quarter, net income decreased mainly due to higher operating expenses partly offset by higher returns in Pacífico Vida which had lower claims.

The significant increases in Premiums and health fees, as well as in Claims and health costs, compared to the year-ago quarter are mainly due to transactions added from the Novasalud EPS merger, which was acquired in March 2004, and merged with Pacífico Salud in August 2004.

Revenue and operating expense

Total premiums and Pacífico Salud health fees in the first quarter of 2005 were US\$84.0 million, 21.2% higher than premiums of US\$69.3 million in the year-ago quarter, due mainly to growth of US\$12.2 million in Pacífico Salud after the Novasalud acquisition.

Retained premiums increase 23.4% to US\$72.4 million in this quarter from US\$58.7 million in fourth quarter 2004. Net premiums earned and health fees, net of reinsured premiums and reserves, were US\$54.2 million in first quarter 2005, 32.7% above premiums in the prior year quarter. These increases are mostly due to transactions registered with the above mentioned merger.

Additions to technical reserves for premiums grew by US\$18.2 million in the first quarter of 2005, 39.4% higher than additions in the preceding fourth quarter 2004, and also are 2.1% greater than reserve additions in the first quarter of last year. Most of reserves in the first quarter of 2005 were established by Pacífico Vida, for its life annuities and life insurance lines.

Net consolidated underwriting results was US\$7.3 million in the first quarter of 2005, increasing 26.2% from US\$5.8 million in the same prior year quarter.

The ratio of net underwriting results (net premiums and health fees less reserves and claims as a percentage of total premiums) was 8.7% in the first quarter of 2005, lower than 10.6% in the preceding quarter last quarter 2004, but increases compared to the 8.3% ratio in the year-ago first quarter.

Financial results reached US\$8.7 million in first quarter 2005, slightly over US\$8.2 million in first quarter 2004.

Exchange difference resulted in a gain of US\$0.4 million in first quarter 2005, similar to a gain of US\$0.3 million in the same period of 2004.

Operating expenses over net premiums earned, decreased from 21.5% to 19.9% comparing the first quarters of 2004 and 2005, respectively. The ratio of operating expenses over average assets increased from 6.1% to 6.4%, in these same periods.

Business lines

Comparing cumulative results through March 2005 and 2004, consolidated total premiums and fees consisted of:

- i) general insurance lines, amounting to 46.3% of total premiums and grew 4.0%;
- ii) fees at Pacífico Salud, were 23.9% of total premiums and increased 170.0%; and,
- iii) Pacífico Vida, which amounted to 29.8% of the total and increased 3.5% .

Cumulative through March 31, 2005, growth of Pacífico Salud and the health and medical assistance insurance line (33.3% of total premiums) was 89.4%; fire insurance lines (12.1% of total premiums) increased 2.1%; while the automobile insurance line (6.1% of total premiums) grew 2.1% compared to the prior year period.

Through March 2005, group life insurance and individual life insurance policies (11.7% of total premiums) grew 16.0%; life annuities (10.7% of total premiums) decreased 22.2%; while pension fund benefits insurance (6.3% of total premiums) increased 54.0%, compared to the prior year.

Claims

Edgar Filing: CREDICORP LTD - Form 6-K

Net insurance claims and health services costs incurred in the first quarter of 2005 were US\$39.7 million, increasing over claims of US\$28.9 million in the same quarter of 2004, mainly due to increased operating volume at Pacifico Salud after the inclusion of Novasalud's transactions.

The **net loss ratio** (net claims to net premiums) increases to 73.3% in the current quarter from 70.8% in first quarter 2004. Increased net loss ratio is mostly explained by the higher Pacifico Salud portfolio which had a high loss ratio of 87.1%. Cumulative through March 2005, the net loss ratio continues high in engineering policies (151.9%), pension fund insurance (92.0%), dishonesty (81.6%), health (74.4%) and in Pacifico Salud (83.6%).

The **combined ratio** (the sum of net claims and health services, general expenses and commissions, as a percentage of net earned premiums and health fees, without including Pacifico Vida) increased from 92.3% in the first quarter of 2004 to 98.6% in the current quarter.

Assets and investments

Investments in real estate and financial assets were US\$507.4 million at the end of March 2005, increasing 24.3% from the year-ago balance.

As of March 31, 2005, total assets were US\$707.2 million increasing 18.6% compared to the year-ago balance. At the end of the current period net equity amounted to US\$169.8 million, 27.3% above net equity at March 2004.

Market share

The Peruvian insurance market through February 28, 2005, had total premiums of US\$169.4 million, increasing 16.3% compared to premiums in the same two month period in 2004. For the first two months of 2005, PPS's market share in total premiums was 26.3% (27.9% in the same year-ago period), with the share in general risks and health lines being 28.7% (29.6% in the same period of 2004) and in life insurance and pension fund benefits lines of 22.7% (25.0% in the same period of 2004).

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
