Form 20-F Form 40-F

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

2009 net income totals R\$ 28.98 billion

Rio de Janeiro, March 19, 2010 Petróleo Brasileiro S.A. Petrobras announces its consolidated results for the fourth quarter (4Q09) and full year of 2009, in accordance with generally accepted accounting practices in Brazil (BR GAAP).

Net income totaled R\$ 28.98 billion in 2009 (R\$ 3.30 per share), versus R\$ 32.99 billion in 2008 (R\$ 3.76 per share), while operating income climbed from R\$ 45.9 billion, in 2008, to R\$ 46.2 billion, despite the decline in oil and oil product prices and the global economic slowdown in 2009. As a result, the operating margin (operating income/net operating revenue) widened to 25%.

These healthy results were due to the fact that the reduction in costs outpaced the decline in revenue, while operating expenses remained flat. Other contributing factors included the upturn in net exports due to increased output, lower diesel imports and the narrower spread between the price of oil produced and that of Brent crude. However, net income was negatively impacted by the exchange variation. The combination of higher liability volume linked to dollar and the decline in the exchange rate throughout the year negatively affected the financial result.

By segment, the decrease in oil prices reduced Exploration and Production earnings, despite higher production, which averaged 2,525 thousand boe per day in 2009. Nevertheless, the Company benefited from its integrated operations with strong performance by Refining, Transportation and Marketing segment, despite lower prices of gasoline and diesel prices.

Net income per segment (R\$ million) ¹

Segment ⁽¹⁾	2009	2008
Exploration and Production	19,601	37,617
Refining, Transportation and Marketing	13,331	(3,611)
Other Segments⁽²⁾	1,948	(941)

(1) Includes inter-segment transactions which are excluded when calculating the Company's income

(2) Excluding the Corporate segment

The outstanding operating result was also reflected in the increase in operating cash flow, measured by EBITDA, which totaled R\$ 59.9 billion in 2009, versus R\$ 57.2 billion in the previous year. This strong cash flow, together with the new debt, financed annual investments of R\$ 70.8 billion, most of which (approximately 45%) went to the E&P segment.

The Company proposed dividends of R\$8.3 billion, equivalent to 30.5% of 2009 net income and R\$ 0.95 per share. It is worth noting that R\$ 7.2 million of this amount has already been paid to shareholders as interest on equity in 2009.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
