**Coca-Cola FEMSA presents 2011 Financial Information under
International Financial Reporting Standards (IFRS)**

Mexico City, Mexico – March 29, 2012– Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL; NYSE: KOF) (“Coca-Cola FEMSA” or the “Company”), the largest public bottler of Coca-Cola products in the world, presents its quarterly and full year 2011 results under International Financial Reporting Standards (IFRS).

Background Information

Beginning in 2012, Mexican companies with securities listed on the Mexican National Securities’ Registry (*Registro Nacional de Valores*) of the Mexican National Banking and Securities Commission (*Comisión Nacional Bancaria y de Valores*), are required to prepare their financial statements in accordance with International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”).

The information contained in this document is based on audited financial results for the year ended December 31, 2011 prepared in accordance with the Mexican Financial Reporting Standards (*Normas de Información Financiera Mexicana* or “MFRS”) that have been translated to IFRS.

For comparison purposes, the Company’s transition date is January 1, 2011, and the Company has applied the provisions of IFRS 1 for the presentation of its financial results.

For more information, please refer to the notes to Coca-Cola FEMSA’s 2011 financial statements, contained in its annual report.

Coca-Cola FEMSA, S.A.B. de C.V. produces and distributes Coca-Cola, Fanta, Sprite, Del Valle, and other trademark beverages of The Coca-Cola Company in Mexico (a substantial part of central Mexico, including Mexico City, the southeast and northeast Mexico), Guatemala (Guatemala City and surrounding areas), Nicaragua (nationwide), Costa Rica (nationwide), Panama (nationwide), Colombia (most of the country), Venezuela (nationwide), Brazil (greater São Paulo, Campiñas, Santos, the state of Mato Grosso do Sul, part of the state of Goias, and part of the state of Minas Gerais), and Argentina (Buenos Aires and surrounding areas), along with bottled water, juices, teas, isotonic, beer, and other beverages in some of these territories. The Company has 35 bottling facilities in Latin America and serves more than 1,700,000 retailers in the region.

Page 1

Significant Accounting Effects

Fixed Assets (Property, Plant and Equipment (PPE) – Valuation

The Company valued its fixed assets at their historical costs in all countries, except for Venezuela, where the historical cost was the cost as of the acquisition date, restated pursuant to the rate of inflation (because such country is considered a hyperinflationary economy).

Intangible Assets – Valuation

The Company valued its intangible assets at their historical costs.

With regards to IAS (International Accounting Standard) 38 “Intangible Assets”, the Company identified certain intangible assets that do not meet the requirements to be considered as such under IFRS, mainly launching costs for new products. As such, costs are recognized in our results at the moment they are incurred in.

Differed Income Tax – Calculation

The adjustments under IFRS recognized by the Company affected the calculation of the differed income tax, in terms of the provisions of IAS 12, “Income Tax”.

Presentation of Financial Statements – Changes in the Presentation of Financial Statements

In terms of IAS 1 “Presentation of Financial Statements”, the operating income line is not required under IFRS; nevertheless, we will continue to include this line for the benefit of the reader, as a non-GAAP item.

Other Expenses and Other Products - Recognition as Operating Expenses

Several accounting items that were not included in the results of operations will be reclassified as part of the results of operations under IFRS. These accounting items will include employee profit sharing (*participación de los trabajadores en las utilidades* or *PTU*), restructuring costs, fixed assets sales/retirement and the equity method in operative investments.

Employment Termination – Cancellation of the Liabilities for Indemnifications

Under IFRS, the costs related to employment termination will be recognized in the results as of the moment that an agreement has been reached to terminate the employment with the employee. In terms of the foregoing, as of the transition date, the Company has canceled its liabilities for indemnifications.

Inflation – Determination of Hyperinflationary Economies

In terms of NIF B-10 “Recognition of Inflation”, the inflationary effects of the financial information must be recognized when the economy is considered to be inflationary, i.e., when accumulated inflation for the three previous years is equal to or greater than 26%. Furthermore, pursuant to IAS 29, an economy is hyperinflationary when accumulated inflation for the three previous years is close to or exceeds 100% (among other economic indicators). The Company has eliminated the inflationary effects that were previously registered in Mexico for the years 1998 through 2007. For foreign subsidiaries, the accumulated inflation, as of the acquisition date was eliminated (except for Venezuela, which is considered to be a hyperinflationary economy), as of the date when the Company started consolidating them.

Presentation of information under Generally Accepted Accounting Principles in the United States of America (U.S. GAAP)

As a result of the process for adopting IFRS, annual financial information will not be presented under Generally Accepted Accounting Principles in the United States of America (U.S. GAAP).
