**Item 1.01 Entry into a Material Definitive Agreement.**

On March 25, 2009, ADVENTRX Pharmaceuticals, Inc. (the "Company"), SD Pharmaceuticals, Inc., a Delaware corporation and wholly-owned subsidiary of the Company ("SDP"), and Shin Poong Pharmaceutical Co., Ltd., a company organized under the laws of the Republic of Korea ("Shin Poong"), entered into a license agreement with respect to the Company's product candidate ANX-514 (docetaxel emulsion) (the "License Agreement"). Pursuant to the License Agreement, SDP granted to Shin Poong an exclusive license, including the right to sublicense, to research, develop, make, have made, use, offer for sale, sell and import licensed products, in each case solely for the treatment of cancer by intravenous administration of formulations of docetaxel as emulsified products and solely in South Korea, and in exchange the Company will receive (a) an upfront licensing fee of \$300,000; (b) a regulatory milestone payment of either \$200,000 or \$400,000 (depending on whether Shin Poong is required by the Korea Food and Drug Administration to conduct a bioequivalence or clinical study in human subjects prior to receipt of regulatory approval) upon receipt of regulatory approval for marketing a licensed product in South Korea; (c) one-time commercial milestone payments tied to annual net sales of licensed products in an aggregate amount of up to \$1,500,000; and (d) royalty payments on net sales of licensed products. Shin Poong is responsible for all development and commercial activities related to ANX-514 in South Korea. If Shin Poong is required by the Korea Food and Drug Administration to conduct a bioequivalence or clinical trial in human subjects prior to receipt of regulatory approval and the Company elects not to supply product to conduct such trial, which supply obligation is subject to limitations, the Company will pay Shin Poong \$100,000.

A copy of the Company's press release relating to the License Agreement is furnished as Exhibit 99.1 to this Current Report on Form 8-K.
