REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Plan Administrator  
BankFinancial and Subsidiaries  
Associate Investment Plan  
Burr Ridge, Illinois

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of BankFinancial and Subsidiaries Associate Investment Plan (the "Plan") as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on the Plan's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting in accordance with the standards of the PCAOB. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion in accordance with the standards of the PCAOB.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Information

The supplemental Schedule H, Line 4i - Schedule of Assets (Held At End of Year) as of December 31, 2017 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the information presented in the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated in all material respects in relation to the financial statements as a whole.

/s/Crowe Horwath LLP

We are uncertain as to the year we became the Plan's auditor. The earliest year of which we have knowledge serving as the Plan's auditor is 1996.

BANKFINANCIAL AND SUBSIDIARIES ASSOCIATE INVESTMENT PLAN  
 NOTES TO FINANCIAL STATEMENTS  
 December 31, 2017 and 2016

NOTE 1 - DESCRIPTION OF PLAN

The following description of the BankFinancial and Subsidiaries Associate Investment Plan (“the Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

**General:** The Plan is a defined contribution plan covering substantially all employees of BankFinancial, NA (“the Bank”) and its subsidiaries who are 21 years of age or older and have completed six months of service. This plan, as amended, was adopted by the Bank on July 1, 1993. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

**Eligibility:** Employees become eligible to participate in the Plan on the first day of any quarter of any plan year coincident with or next following the date that they have met the eligibility requirements.

**Contributions:** The Plan is a contributory 401(k) savings plan funded by employee and employer contributions. Each participant may elect to contribute up to 50% of pretax compensation, subject to the limits established by the Internal Revenue Code (“IRC”). Employer contributions consist of a matching contribution subject to limitations of the participant’s eligible compensation and a discretionary profit sharing contribution. Subject to the above-mentioned limitation for the plan year ended December 31, 2017, the Bank provided a match of \$0.50 on each \$1.00 of contribution up to 6% of eligible compensation. No additional discretionary contribution was made for the year ended December 31, 2017.

**Administrative Expenses:** Any expenses incurred for the administration and audit of the Plan not paid by the Bank may be paid out of the Plan’s assets.

**Participant Accounts:** Each participant’s account is credited with the participant’s own contribution and an allocation of (a) the Bank’s matching and profit sharing contributions, (b) the Plan’s allocated earnings, and (c) administrative expenses and charged with his or her withdrawals. Allocations are based on participant earnings, contributions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

**Retirement, Death, and Disability:** A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

**Investment Elections:** Participants direct the investment of their account balance into various investment options offered by the Plan. The Plan currently offers twenty funds, including BankFinancial Corporation common stock, as investment options for participants.

**Vesting:** Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of their account plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service as follows:

Years	Vested Percent
1	—
2	25
3	50
4	75
5 or more	100

**Forfeitures:** Forfeitures attributable to employer matching contributions are used to reduce future employer matching contributions. Forfeitures attributable to employer profit sharing contributions are added to any employer discretionary profit sharing contributions and are allocated to participants in the same manner as the employer discretionary profit sharing contribution. During the year ended December 31, 2017, \$12,960 of forfeited matching contributions were used to offset employer matching contributions. As of December 31, 2017 and 2016, there were \$17,810 and \$18,236 respectively, in forfeited nonvested accounts.

Payment of Benefits: Participants are not eligible to receive benefit payments until employment is terminated or they attain the age 59 <sup>1</sup>/<sub>2</sub>. When the participant's vested balance is \$5,000 or less, the benefit is distributed in a lump-sum payment. Participants with a balance in excess of this figure may postpone the lump-sum payment of benefits until reaching the age of 70 <sup>1</sup>/<sub>2</sub>.

Notes Receivable from Participants: The Plan provides that participants can borrow funds against their account balances limited to the lesser of \$50,000 or 50% of their vested account balance, subject to a minimum loan of \$1,000. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid through payroll deductions.

BANKFINANCIAL AND SUBSIDIARIES ASSOCIATE INVESTMENT PLAN  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017 and 2016

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Hardship Withdrawals: The Plan provides that participants can withdraw rollover contributions and earnings thereon and salary deferral contributions, but not the earnings thereon, for reasons of financial hardship, as defined. Individual salary deferral contributions are prohibited for a six-month period after such hardship withdrawal.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan provides for certain investment options including mutual funds, employer stock and a guaranteed investment contract. Investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances. As of December 31, 2017 and 2016, 32.1% and 35.4% of the Plan's net assets were invested in shares of BankFinancial Corporation Common Stock, respectively.

Investment Valuation and Income Recognition: The Plan's investments, other than fully benefit-responsive investment contracts, are reported at fair value, as more fully disclosed in Note 7. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Accounting Fees and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's record keeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other administrative expenses of the Plan are paid by the Plan or by the Bank.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

BANKFINANCIAL AND SUBSIDIARIES ASSOCIATE INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

NOTE 4 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan holds a traditional fully benefit-responsive group annuity investment contract with Principal Life Insurance Company (Issuer) through the Principal Life Insurance Company Fixed Income Option 401(a)/(k). The methodology for calculating the interest crediting rate is defined in Article I, Section II of the contract under the term "Composite Crediting Rate." Under the terms of the existing contract, the crediting rate is currently reset on a semiannual basis. The accounts are credited with earnings based upon the specified crediting rate and charged for participant withdrawals and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract values for credit risk of the contract issuer or otherwise. The Plan's investment contract does not specify certain conditions under which distributions from the contract would be payable at amounts below contract value. The terms and methods under which the contract may transact are defined in Article II (Deposits and Funds), Article III (Fees), Article IV (Benefits and Other Payments) and Article V (Termination) in the contract. The contract does not specify the circumstances under which the Issuer may terminate the contract. Under the contract terms, the contract is terminated when no deposit arrangements have been made and there are no deposits with a value greater than zero under the Contract. If the Plan gives less than a 12 month advance notice of termination, there is a 5% surrender fee. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable. The crediting interest rates of the contract are based on agreed-upon formulas with the issuer, as defined in the contract agreements, but cannot be less than zero percent. Such interest rates are reviewed on a semi-annual basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Bank. No such officer or employee receives compensation from the Plan. As of December 31, 2017 and 2016, certain plan investments are considered party-in-interest investments including the Guaranteed Investment Contract issued by Principal Life Insurance Company and mutual funds issued by Principal Global Investors, the asset management arm of the Principal Financial Group. Principal Life Insurance Company, the lead operating company of the Principal Financial Group, is the directed trustee of the Plan and therefore, these investments qualify as party-in-interest investments. Investment management fees are paid by the Plan to investment managers which are parties-in-interest and these expenses are shown as a reduction of the return on the Plan's investments. Notes Receivable from Participants also reflect party-in-interest transactions.

At December 31, 2017 and 2016, the Plan held 635,991 and 656,218 shares of BankFinancial Corporation common stock in the BankFinancial Corporation Common Stock Fund, respectively. The Plan received \$180,333 in dividends on BankFinancial Corporation common stock in 2017.

Audit services fees were paid by the Plan's participants to Crowe Horwath LLP during the year ended December 31, 2017. In addition, loan and administrative fees were paid by the Plan's participants to Principal Life Insurance Company during the year ended December 31, 2017. These fees are considered party-in-interest transactions.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Bank by letter dated October 28, 2016 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

BANKFINANCIAL AND SUBSIDIARIES ASSOCIATE INVESTMENT PLAN  
 NOTES TO FINANCIAL STATEMENTS  
 December 31, 2017 and 2016

NOTE 7 - FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. Transfers between hierarchy measurement levels are recognized by the Plan as of the beginning of the reporting period.

The fair values of mutual fund investments and publicly traded common stocks are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth financial assets that were accounted for at fair value and are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Investments are measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2017		
	using
