PROXY STATEMENT

Annual Meeting of Stockholders

To be held on May 23, 2012

INFORMATION CONCERNING SOLICITATION AND VOTING

This Proxy Statement is first being mailed on or about April 12, 2012 to stockholders of HCC Insurance Holdings, Inc. (“HCC,” “we,” “us,” “our,” or the “Company”) in connection with the solicitation by our Board of Directors (the “Board”) of proxies to be voted at the Annual Meeting of Stockholders to be held on Wednesday May 23, 2012, at 9:00 a.m., Central Daylight time, at the headquarters of HCC Insurance Holdings, Inc. at 13403 Northwest Freeway, Houston, TX 77040, and any postponement or adjournment thereof (the “2012 Annual Meeting”). The Proxy Statement contains information relating to the proposals to be voted upon at the meeting, the voting process, our Board, the compensation of our Named Executive Officers (“NEOs”), and certain other information.

The solicitation of proxies is being made by HCC, and the cost of soliciting proxies will be borne by HCC. Copies of solicitation material may be furnished to brokers, custodians, nominees and other fiduciaries for forwarding to beneficial owners of shares of our common stock, and normal handling charges may be incurred for such forwarding service. HCC will bear the expense of such charges. Solicitation of proxies may be made by mail, personal interview, telephone and facsimile by our officers and other employees, who will receive no additional compensation for their services.

Our principal executive offices are located at 13403 Northwest Freeway, Houston, Texas 77040.

Proposals to be Considered and Vote Required

The following proposals will be voted upon at the 2012 Annual Meeting:

-

The election of the 11 individuals named in this Proxy Statement to serve as members of our Board of Directors for a one-year term, each to serve until the 2013 Annual Meeting of Stockholders and until his or her successor is duly elected and qualified;

-

An advisory vote to approve the compensation of our Named Executive Officers; and

•
The ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the year ending December 31, 2012.

Only stockholders of record on April 4, 2012 (the “record date”) will be entitled to vote at the 2012 Annual Meeting, and each share will be entitled to one vote. At the close of business on the record date, there were 102,343,690 shares of our common stock outstanding and entitled to vote at the 2012 Annual Meeting.

Quorum and voting requirements are set forth in the Delaware General Corporation Law and our governing documents. A majority of the outstanding shares of our common stock, entitled to vote and represented in person or by proxy, will constitute a quorum at the 2012 Annual Meeting. Abstentions, withhold votes and broker non-votes (described below) are counted as present for purposes of determining the presence of a quorum.

The election of directors will be determined by a plurality of the votes cast, which means that the 11 nominees who receive the highest number of votes will be elected. As a result, abstentions, withhold votes and broker non-votes will not impact the outcome of the election of directors. The affirmative vote of the holders of a majority of the shares of our common stock present in person or represented by proxy at the 2012 Annual Meeting and entitled to vote on the matter is required for (i) the approval, on an advisory basis, of our executive compensation and (ii) the ratification of our independent registered public accounting firm. As a result, abstentions have the effect of an against vote, but broker non-votes do not have the effect of an against vote. With respect to the advisory vote regarding the frequency of future advisory votes on executive compensation, the frequency receiving the greatest number of votes will be considered the frequency recommended by stockholders. As a result, abstentions, withhold votes and broker non-votes will have no effect on the vote.

[Back to Contents](#)

If you hold your shares in “street name” through a broker or other nominee, your broker or nominee may not be permitted to exercise voting discretion on some of the items to be acted upon, including the election of our directors, the advisory vote on executive compensation, and the advisory vote on frequency of future advisory votes on executive compensation. Thus, if you do not give your broker or nominee specific instructions, your shares may not be voted on those items (“broker non-votes”). Our Board does not anticipate calling for a vote on any matter other than those described herein.

How to Vote

We believe that HCC and its stockholders benefit from the wide variety of industry and professional experience that characterizes the members of our Board. Although our Board does not contemplate that any of the nominees will be unable to serve, if such a situation arises prior to the 2012 Annual Meeting, the Board may reduce the size of the Board accordingly, or the persons named in the enclosed form of Proxy will vote in accordance with their best judgment for any substitute nominee.

The following table presents information concerning the individuals nominated for election as directors of HCC, including current membership on committees of our Board, principal occupation or affiliations during the last five years, and certain directorships held during the last five years. The number of shares of common stock granted was determined by dividing the \$80,000 (\$200,000 in the case of Mr. Rosholt) by \$32.54, the closing price of the Company's common stock on May 26, 2011, the date of grant. On May 2, 2011, Mr. Rosholt was elected as Chairman of the Board. In connection with his election, he was granted 512 shares of common stock, representing a pro-rata portion of the \$200,000 annual Chairman grant divided by \$32.50, the closing price of the Company's common stock on May 2, 2011, the date

of grant. All shares were fully vested as of the grant date.

(3) No stock options were granted to directors during 2011. As of December 31, 2011, the following non-employee directors owned the following number of stock options:

Meeting Fees

Our non-employee directors received meeting fees as set forth in the following table:

	In-person Meeting	Teleconference Meeting
	(\$)	(\$)
Board of Directors	5,000	1,000
Committee Meeting	2,000	1,000

Equity Compensation

Our non-employee directors, other than the Chairman of the Board, receive a block grant of common stock. The number of shares granted is determined by dividing \$80,000 by the closing price of our common stock on the date of the annual meeting of stockholders, which is generally held in May of each year. If a director is elected to our Board on a date other than the date of the annual meeting of stockholders, he or she receives shares of common stock worth a pro-rata portion of \$80,000 for the partial year remaining until the next annual meeting of stockholders.

Equity Compensation for Chairman of the Board

In recognition of the significant contributions to the Board and to our Company made by the Chairman of the Board, he receives a block grant of common stock worth \$200,000. This compensation is in the form of equity to further align his interests with those of our stockholders. If a director is elected as Chairman of the Board on a date other than the annual meeting of stockholders, he or she receives shares of common stock worth a pro-rata portion of \$200,000 for the partial year remaining until the next annual meeting of stockholders.

Deferred Compensation

Our non-employee directors are also entitled to defer all or a portion of their cash or stock compensation under the HCC Insurance Holdings, Inc. Nonqualified Deferred Compensation Plan for Non-Employee Directors (the "Director DCP"). Deferred cash compensation will be credited to a participant's account and will accrue earnings, compounded monthly, at one of the following rates elected by the participant: the prime rate (3.25% for 2011), the rate of return on HCC common stock (-2.90% for 2011), or the rate of return on the S&P 500 (0.0% for 2011). Deferred stock compensation will be deemed invested in HCC common stock, with dividends reinvested. Payment of the participant's account balance will be paid in the time period set forth in the participant's deferral election, or if no such time is elected, then in a lump sum following separation from service. The plan is administered by our Compensation Committee. No separate trust or fund has been created, and all benefits payable under the plan will be paid from HCC's general assets.

Stock Ownership Requirements

The Board has established a minimum stock ownership requirement for non-employee Directors of \$300,000 in HCC common stock. Directors are to have achieved the required ownership within three years of the later of May 10, 2007, the adoption date of the policy, or the date they join the Board. The Board may grant waivers to these ownership requirements. As of December 31, 2011, Mr. Bramanti, Mr. Duer, Dr. Flagg, Mr. Hamilton, Mr. Oesterreicher and Mr. Rosholt had met these requirements.

Corporate Governance

The business and affairs of HCC are managed under the direction of the Board. The Board believes that good corporate governance is a critical factor in achieving business success and, as a result, strong corporate governance is an integral part of our values. Our Company's corporate governance policies and procedures are available on the Company's website at <http://ir.hcc.com/phoenix.zhtml?c=90423&p=irol-govHighlights>. The corporate governance portal includes the Company's Corporate Governance Guidelines for the Board of Directors ("Corporate Governance Guidelines"), Board Committee Charters, and Code of Business Conduct and Ethics. Any future modification or amendments to our Code of Business Conduct and Ethics, or any waiver thereto, which applies to our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer, will be posted on the same website. A copy of the Code of Business Conduct and Ethics is available to any stockholder upon request. We provide below specific information regarding certain corporate governance practices.

Director Independence

Our Board of Directors has established criteria for determining director “independence” as set forth in our Corporate Governance Guidelines. These criteria incorporate all of the requirements for director independence contained in the NYSE listing standards. No director shall be deemed to be “independent” unless the Board shall have affirmatively determined that no material relationship exists between such director and HCC other than the director’s service as a member of our Board or any Board committee. In addition, the following criteria apply to determine independence:

- no director who is an employee, or whose immediate family member is an executive officer of HCC, is deemed independent until five years after the end of such employment relationship;

- no director who receives, or whose immediate family member receives, more than \$120,000 in any twelve-month period in direct compensation from HCC, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), is deemed independent until three years after he or she ceases to receive more than \$120,000 in any twelve-month period of such compensation;

- no director is independent who (i) is a current partner or employee of a firm that is HCC’s internal or external auditor; (ii) has an immediate family member who is a current partner of such firm; (iii) has an immediate family member who is a current employee of such firm and personally works on HCC’s audit; or (iv) was or had an immediate family member who was within the last three years a partner or employee of such firm and personally worked on HCC’s audit within that time;

- no director who is employed, or whose immediate family member is employed, as an executive officer of another company where any of our present executives serve on that company’s compensation committee is deemed independent until three years after the end of such service or the employment relationship;

- no director who is an executive officer or an employee, or whose immediate family member is an executive officer, of a company that makes payments to, or receives payments from, HCC for property or services in an amount that, in any single year, exceeds the greater of \$1.0 million or 2% of such other company’s consolidated gross revenues, is deemed independent until three years after falling below such threshold;

- no director who has a personal services contract with HCC, or any member of HCC’s senior management, is independent;

no director who is affiliated with a not-for-profit entity that receives significant contributions from HCC is independent;

-

no director who is employed by a public company at which an executive officer of HCC serves as a director is independent;

-

no director is independent who received, during calendar years 2004-2007, remuneration, directly or indirectly, as a result of service as, or compensation paid to an entity affiliated with the director that serves as:

—

an advisor, consultant, or legal counsel to HCC or to a member of HCC's senior management; or

—

a significant customer or supplier of HCC;

-

no director who, during calendar years 2004-2007, had any business relationship with HCC for which HCC has been required to make disclosure under Item 404(a) of Regulation S-K (Transactions with Related Persons) is independent;

-

no director who had any relationship described in the first bullet point above or in any of the sixth through the tenth bullet points above with any affiliate of HCC is independent; and

-

no director who is a member of the immediate family of any person who fails to satisfy the independence requirements described in the first bullet point above or in any of the sixth through the eleventh bullet points above is independent.

In addition, members of our Audit Committee must meet the following additional independence requirements:

-

no director who is a member of the Audit Committee shall be deemed independent if such director is affiliated with HCC or any of its subsidiaries in any capacity, other than in such director's capacity as a member of our Board of Directors, the Audit Committee or any other Board committee; and

-

no director who is a member of the Audit Committee shall be deemed independent if such director receives, directly or indirectly, any consulting, advisory or other compensatory fee from HCC or any of its subsidiaries, other than fees received in such director's capacity as a member of our Board of Directors, the Audit Committee or any other Board committee, and fixed amounts of compensation under a retirement plan (including deferred compensation) for prior

service with HCC (provided such compensation is not contingent in any way on continued service).

In addition, members of our Compensation Committee must meet the following additional independence requirements:

-

no director shall be considered independent who:

(i)

is currently an officer (as defined in Rule 16a-1(f) of the Exchange Act) of the Company or a subsidiary of the Company, or otherwise employed by the Company or subsidiary of the Company;

(ii)

receives compensation, either directly or indirectly, from the Company or a subsidiary of the Company, for services rendered as a consultant or in any capacity other than as a director, except for an amount that does not exceed the dollar amount for which disclosure would be required pursuant to Item 404(a) of Regulation S-K; or

(iii)

possesses an interest in any other transaction for which disclosure would be required pursuant to Item 404(a) of Regulation S-K.

-

no director who does not meet the requirements of an “outside director” as defined in Section 162(m) of the Internal Revenue Code of 1986, as amended, shall be considered independent

NYSE listing standards also require that we have a Compensation Committee and a Nominating and Corporate Governance Committee that are each entirely composed of independent directors with written charters addressing such committee’s purpose and responsibilities and that the performance of such committees be evaluated annually.

[Back to Contents](#)

Our Board has affirmatively determined that each of Ms. Bozeman, Mr. Duer, Dr. Flagg, Mr. Hamilton, Ms. Heisz, Ms. Midanek, Mr. Oesterreicher and Mr. Rosholt meets the criteria for independence set forth above and that all members of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee meet the further requirements for independence set forth above. In addition, our Board had determined that Mr. Ballases and Mr. Thomas, who are nominated for election as directors, also meet all of the criteria for independence set forth above.

Board Leadership Structure

Our Bylaws and Corporate Governance Guidelines require that the Chairman of the Board be an independent director. As a result, the Chairman of the Board may not also serve as the Chief Executive Officer of the Company. We believe that the separation of these offices is appropriate at the current time because it allows our CEO, Mr. Molbeck, to focus his efforts on HCC's operations and the execution of our business strategy and allows our Chairman, Mr. Rosholt, to focus his efforts on oversight and governance. In addition, this separation of responsibilities allows Mr. Rosholt to dispassionately evaluate the performance of the Company's management. This structure is further strengthened by Mr. Rosholt's and Mr. Molbeck's unique experiences, perspectives and skills, which complement one another and, in combination, are valuable to the overall management and leadership of HCC. The Board regularly assesses the Corporate Governance Guidelines, including the requirement described above, and may change the leadership structure of the Board in the future if it feels doing so would be in the best interests of the Company.

Board Meetings in 2011

During 2011, our Board met 8 times and acted by unanimous written consent on 3 other occasions. Each person currently serving and nominated to be a director attended, or participated via teleconference, in 75% or more of the meetings of the Board of Directors and the meetings of any committee on which he or she served.

In addition, our policy is to have our directors attend our annual meeting of stockholders. Last year, all of our then-serving directors attended the annual meeting of stockholders.

Executive Sessions of the Board

Independent Directors meet in executive session at each regularly scheduled meeting of our Board. Mr. Rosholt, as the independent Chairman of the Board, presides at each executive session. Our Independent Directors met in executive session 4 times in 2011.

Committees of the Board

Our Board of Directors has standing Audit, Compensation, Investment and Finance, Nominating and Corporate Governance, and Enterprise Risk Oversight Committees, each of which has a written charter. Copies of the charter of each of the Board committees, as well as our Corporate Governance Guidelines, are available on our website at <http://ir.hcc.com/phoenix.zhtml?c=90423&p=irol-govHighlights>. In addition, a printed copy of any of these documents will be provided to any stockholder who requests one. The following table sets forth the current composition of our committees.

Audit Committee

Our Audit Committee is currently comprised of James C. Flagg (Chairperson), Walter M. Duer, and Robert A. Rosholt. In addition, Patrick B. Collins currently serves as an ex-officio advisory member of the Audit Committee. Our Board has determined that Dr. Flagg, Mr. Duer and Mr. Rosholt are independent, as independence for audit

committee members is defined in the listing standards of the NYSE and in accordance with the standards outlined in our Corporate Governance Guidelines. In addition, our Board has determined that each member of the Audit Committee is an “audit committee financial expert” as described in Item 407(d)(5)(ii) of Regulation S-K. The Audit Committee met 7 times in 2011.

The Audit Committee is established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The Audit Committee’s primary purpose is to assist our Board with its oversight of (a) the integrity of our consolidated financial statements and disclosures; (b) our compliance with legal and regulatory requirements; (c) our independent registered public accounting firm’s qualifications, performance, independence and fees; and (d) our internal audit function. The Audit Committee has the sole authority to appoint and terminate our independent registered public accounting firm.

The Audit Committee regularly reports to the Board concerning its activities and also assists the Board with oversight of risk management by reviewing the Company’s consolidated financial statements and meeting with the Vice President of Internal Audit and Controls at regularly scheduled meetings of the Audit Committee. At such meetings, the Audit Committee reviews reports on the adequacy and effectiveness of our internal audit and internal control systems and discusses with management the Company’s major financial risks and exposures and the steps management has taken to monitor and control such risks and exposures.

Compensation Committee

Our Compensation Committee is currently comprised of Judy C. Bozeman (Chairperson), Thomas M. Hamilton and James E. Oesterreicher. Our Board has determined that Ms. Bozeman, Mr. Hamilton and Mr. Oesterreicher are independent, as independence for compensation committee members is defined in the listing standards of the NYSE, Rule 16b-3 under the Securities Exchange Act of 1934, and Section 162(m) of the Internal Revenue Code of 1986. The Compensation Committee met 10 times in 2011.

The Compensation Committee has the responsibility for assuring that our senior executives are compensated in a manner that is consistent with the compensation philosophy and strategy of our Board and that is in compliance with the requirements of the regulatory bodies that oversee our operations. Generally, the Compensation Committee is charged with the authority to review and approve our compensation philosophy and our executive compensation programs, levels, plans and awards. The Compensation Committee also administers our incentive plans and our stock-based compensation plans and reviews and approves general employee benefit plans on an as-needed basis. The Chief Executive Officer makes recommendations to the Compensation Committee with respect to the form and amount of executive compensation. In addition, under our Compensation Committee Charter and under our 2008 Flexible Incentive Plan, the Compensation Committee may delegate the authority to management to perform specified functions under such plan; however, under our currently existing internal controls with respect to our stock option granting practices, such authority may not be delegated with respect to the granting of options. The Compensation Committee charter allows delegation of Committee authority to subcommittees. See the “Compensation Discussion and Analysis” below for information on our process and procedures for determining executive officer compensation during 2011.

[Back to Contents](#)

The Compensation Committee may retain and engage, at its sole discretion, to the extent deemed necessary and appropriate, any compensation consultants, outside counsel or other advisors.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee is or has been employed as an officer or employee of HCC or any of our subsidiaries. No executive officer of HCC served as a member of the board of directors or compensation committee (or other board committee performing similar functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served as a member of our Board or our Compensation Committee. No executive officer or director had a relationship with us requiring disclosure under Regulation S-K Item 404(a).

Compensation Committee Risk Assessment

It is the Company's policy to regularly monitor its compensation policies and practices to determine whether its risk management objectives are being met and to adjust those policies and practices to address any incentives that are determined to encourage risks that are reasonably likely to have a material adverse effect on the Company and any changes in its risk profile. Management regularly assesses the current risk profile of our compensation programs to determine whether any such programs might incentivize excessive risk behavior and shares their findings with the Compensation Committee. The Compensation Committee reviews the results of management's assessment and determines what, if any, actions should be recommended to the Board for further consideration. The risk assessment includes a review of the primary design features of our compensation programs and the process for determining executive and employee compensation. The risk assessment identified numerous ways in which our compensation programs potentially mitigate risk, including:

- the structure of our executive compensation program, which consists of both fixed and variable compensation, with a focus on underwriting profitability, and rewards both annual and long-term performance;
- the use of multiple performance metrics under our incentive and bonus plans;
- time-based vesting for stock options and restricted stock awards;
- performance-based vesting for restricted stock awards to the CEO and President;
- a clawback feature and cap on equity awards that are based upon a formula bonus;
-

regular reviews by the CEO and the Compensation Committee of reports listing (i) all employees receiving in excess of \$250,000 in annual cash compensation and (ii) the Company's accrual for annual cash incentive compensation; and

•

effective internal controls.

The Company did not make any material adjustments to its compensation policies or practices as a result of its assessment of compensation risk during 2011.

Enterprise Risk Oversight Committee

Our Enterprise Risk Oversight Committee is currently comprised of Robert A. Rosholt (Chairperson), Frank J. Bramanti, Leslie S. Heisz, Deborah H. Midanek, John N. Molbeck, Jr. and Christopher J.B. Williams. The Enterprise Risk Oversight Committee met 4 times in 2011.

The Enterprise Risk Oversight Committee is charged with assisting the Board with oversight of risk generally, and specifically with oversight of management's responsibility to identify, assess, prioritize and manage all material risks to HCC's business objectives. In this regard, the Board has delegated to the Enterprise Risk Oversight Committee the primary responsibility of administering its enterprise risk oversight function through the Committee's review of management's assessment of risks and mitigation strategies with respect to our business. The Committee administers our annual risk assessment process and receives regular reports from our Senior Vice President of Enterprise Risk Management, including information relating to specific risks evaluated and managed by an internal risk committee that is comprised of senior operating management. Some of the specific key risks reviewed by the Committee in 2011 included the Company's reinsurance processes, information technology security, economic capital model and Solvency II. As necessary, the Enterprise Risk Oversight Committee coordinates its risk oversight function with other committees of the Board, specifically including the Audit Committee, Compensation Committee and Investment and Finance Committee. The Enterprise Risk Oversight Committee also presents a quarterly report, with recommendations as appropriate, for approval by the Board regarding risk oversight issues raised during the process. The Board discusses and acts, as necessary, on these findings pursuant to the Board's responsibility for overseeing risk management at the Company.

In addition to the review conducted by the Compensation Committee described above at "Compensation Committee — Compensation Committee Risk Assessment", the Enterprise Risk Oversight Committee conducts, as appropriate, a review and evaluation of our compensation policies and practices.

Investment and Finance Committee

Our Investment and Finance Committee is currently comprised of Frank J. Bramanti (Chairperson), Judy C. Bozeman, Walter M. Duer, Leslie S. Heisz, John N. Molbeck, Jr. and Christopher J.B. Williams. The Investment and Finance Committee met 8 times in 2011.

The Investment and Finance Committee is charged with establishing investment policies for us and our subsidiaries and directing the investment of our funds, and those of our subsidiaries, in accordance with those policies. In this regard, the Investment and Finance Committee oversees the investment management activities of our third-party investment manager and oversees our corporate financing activities.

Nominating and Corporate Governance Committee

Our Nominating and Corporate Governance Committee is currently comprised of Thomas M. Hamilton (Chairperson), James C. Flagg, Deborah H. Midanek and James E. Oesterreicher. The Nominating and Corporate Governance Committee met 6 times in 2011.

The Nominating and Corporate Governance Committee is charged with identifying and recommending to our Board individuals suitable to become members of the Board and overseeing the administration of our various policies related to corporate governance matters. Our Board has determined that each member of the Nominating and Corporate Governance Committee is independent, as independence for nominating committee members is defined in the listing standards of the NYSE.

Candidates for the Board

The Nominating and Corporate Governance Committee has established certain criteria as guidelines in considering nominations for the Board. The criteria include:

- the candidate's independence;
- the candidate's depth of business experience;
- the candidate's availability to serve;
- the candidate's integrity and personal and professional ethics;
-

the balance of the business experience on the Board as a whole; and

-

the need for specific expertise on the Board.

These criteria are not exhaustive, and the Nominating and Corporate Governance Committee and the Board may consider other qualifications and attributes that they believe are appropriate in evaluating the ability of an individual to serve as a member of the Board. The Nominating and Corporate Governance Committee's goal is to assemble a Board of Directors that brings to us a variety of perspectives and skills derived from high quality business and professional experience. In order to ensure that the Board consists of members with a variety of perspectives and skills, the Nominating and Corporate Governance Committee has not set any minimum qualifications and also considers candidates with appropriate non-business backgrounds. The Committee evaluates potential nominees based on the contribution such nominee's background, experiences, perspectives and skills could have upon the overall functioning of the Board in order to ensure that the Board as a whole reflects these diverse backgrounds, experiences, perspectives and skills. While neither the Board nor the Nominating and Corporate Governance Committee has a formal diversity policy, one of many factors that the Board and the Nominating and Governance Committee carefully considers is "diversity in personal background, race, gender, age and nationality" as described in the Corporate Governance Guidelines. In addition, the Board conducts an annual self-assessment to evaluate director performance, which also serves to gauge the Board's effectiveness in achieving diversity of backgrounds, experiences and perspectives. The Board, through the Nominating and Corporate Governance Committee, has developed and maintains a director skills matrix to assist in the skills evaluation process.

The Board of Directors believes that, based on the Nominating and Corporate Governance Committee's knowledge of our Corporate Governance Guidelines and the needs and qualifications of the Board at any given time, the Nominating and Corporate Governance Committee is best equipped to select nominees that will result in a well-qualified and well-rounded Board. In making its nominations, the Nominating and Corporate Governance Committee identifies nominees by first evaluating the current members of the Board willing to continue their service. When identifying new candidates to serve on our Board, the Nominating and Corporate Governance Committee undertakes a process that will entail the solicitation of recommendations from any of our incumbent directors, our management or our stockholders. Following a review of the qualifications, experience and backgrounds of these candidates, the Nominating and Corporate Governance Committee will make its recommendation to the Board. In addition, the Nominating and Corporate Governance Committee has the authority under its charter to retain a search firm for this purpose.

Stockholder Recommendations

The charter of the Nominating and Corporate Governance Committee provides that the committee will consider proposals for nominees for director from stockholders. Stockholder nominations for director should be made in writing to HCC Insurance Holdings, Inc., 13403 Northwest Freeway, Houston, Texas 77040-6094, ATTN: Secretary. The Nominating and Corporate Governance Committee will consider candidates recommended by stockholders based on the criteria described above. Although the Nominating and Corporate Governance Committee will consider such candidates, the Board may ultimately determine not to nominate those candidates.

In order to recommend an individual as a candidate for nomination as a director at a meeting of stockholders, we require that a stockholder follow the procedures set forth in this section. In order to recommend a nominee for a director position, a stockholder must own shares at the time such stockholder gives notice of recommendation and must be entitled to vote for the election of directors at the meeting at which such nominee will be considered.

[Back to Contents](#)

Stockholder recommendations must be made pursuant to written notice delivered to our Secretary at the address set forth above:

-

in the case of a nomination for election at an annual meeting, not less than 45 days nor more than 75 days prior to the first anniversary of the date of our notice of annual meeting for the preceding year's annual meeting; and

-

in the case of a special meeting at which directors are to be elected, no later than the close of business on the later of the 90th day prior to such special meeting or the tenth day following the day on which public announcement is first made of the date of the meeting and of the nominees proposed by our Board of Directors to be elected at the special meeting.

In the event that the date of the annual meeting is changed by more than 30 days from the anniversary date of the preceding year's annual meeting, the stockholder notice described above will be deemed timely if it is received no later than the close of business on the later of the 90th day prior to such annual meeting or the tenth day following the day on which public announcement of the date of such meeting is first made.

The stockholder's notice must set forth the following:

-

as to each person the stockholder proposes to nominate for election as a director, all information relating to such person that would be required to be disclosed in solicitations of proxies for the election of such nominees as directors pursuant to Regulation 14A under the Exchange Act, and such person's written consent to serve as a director if elected; and

-

as to the nominating stockholder and the beneficial owner, if any, on whose behalf the nomination is made, such stockholder's and beneficial owner's name and address as they appear on our books, the class and number of shares that are owned beneficially and of record by such stockholder and such beneficial owner, and an affirmative statement of whether either such stockholder or such beneficial owner intends to deliver a proxy statement and form of proxy to a sufficient number of stockholders to elect such nominee or nominees.

In addition to complying with the foregoing procedures, any stockholder recommending a director candidate must also comply with all applicable requirements of the Exchange Act, including the rules and regulations under such Act.

Communications with the Board

The Corporate Governance Guidelines provide that our stockholders and other interested parties may communicate with one or more of our directors by sending their communications to: HCC Insurance Holdings, Inc., 13403 Northwest Freeway, Houston, Texas 77040-6094, ATTN: Secretary. Such communications should specify the intended recipient or recipients. All such communications, other than unsolicited commercial solicitations, will be forwarded to the appropriate director, or directors, for review.

Certain Relationships and Related Party Transactions

We are not a party to any transaction with executive officers or directors that is required to be disclosed under Item 404(a) of Regulation S-K.

There are no family relationships among the executive officers and directors, and there are no arrangements or understandings between any Independent Director or any other person pursuant to which that Independent Director was selected as a director.

Board Ratification of Related Transactions

Not less than annually, our Board undertakes the review and approval of all related-party transactions. This policy covers any transaction valued at greater than \$120,000 between us or our subsidiaries and any of our executive officers, directors, nominees for director, holders of greater than five percent of our shares, and any of such parties' immediate family members. Under our policy, covered transactions are to be reviewed by the disinterested members of our Board, who shall satisfy themselves that (i) all material facts with respect to the transaction have been disclosed to the Board for its consideration and (ii) that the transaction is fair to HCC. As a result of this review, approval of a transaction may be denied if the transaction is not fair to HCC or is otherwise a violation of our Code of Business Conduct and Ethics.

PROPOSAL NUMBER 2 ADVISORY VOTE ON EXECUTIVE COMPENSATION

HCC's compensation program for Named Executive Officers is intended to (1) support the execution of our business strategy and long-term financial objectives, (2) attract and retain a talented team of executives who will provide leadership for the Company's success in dynamic, competitive markets and products, (3) foster performance in the creation of long-term stockholder value and (4) reward executives for contributions at a level reflecting our performance. Our Compensation Committee has designed our executive compensation program based on principles that reflect these objectives. These principles have contributed to the Company's strong performance and rewarded executives based on this performance. See "Executive Compensation — Compensation Discussion and Analysis" for additional discussion.

The Company is presenting this proposal, commonly known as a "Say-on-Pay" proposal, which gives you, as a stockholder, the opportunity to endorse or not endorse the compensation of our Named Executive Officers through an advisory vote for or against the following resolution:

"Resolved, that the stockholders approve the compensation of our Named Executive Officers, as described in the Compensation Discussion and Analysis and the related compensation tables (together with the accompanying narrative disclosure) in this Proxy Statement."

The Board of Directors recommends that stockholders endorse the compensation program for our Named Executive Officers by voting FOR the above resolution. We believe that executive compensation for 2011 is reasonable and appropriate and, as discussed in the Compensation Discussion and Analysis (the "CD&A") contained in this Proxy Statement, is justified by the performance of the Company. Our compensation programs are the result of a carefully considered approach and reflect advice received from the Compensation Committee's independent compensation consultant.

In deciding how to vote on this proposal, the Board asks you to consider the following factors, many of which are more fully discussed in the CD&A:

Performance

The Company believes the compensation programs for the Named Executive Officers were instrumental in helping the Company achieve strong financial performance in the challenging property and casualty and macroeconomic environment of 2011. The Company's book value per share increased by 10.3% to \$31.62 during 2011. Our total compounded annual return on tangible book value (including dividends) has significantly outperformed that of our peers over the prior one-, three-, five- and ten-year periods:

[Back to Contents](#)

Additionally, during 2011 our gross written premium and net written premium increased and our net earnings, GAAP combined ratio, and return on average equity were strong despite the negative effects of depressed economic conditions and significant catastrophes worldwide.

The Company was also able to return \$439.4 million to stockholders during 2011 as follows:

-

We paid quarterly dividends totaling \$65.8 million in 2011. HCC has paid cash dividends for 64 consecutive quarters and increased its quarterly dividend in each of the last 15 years.

-

We returned \$373.6 million to stockholders by repurchasing 12.6 million shares of our common stock under our previously- announced stock repurchase plan.

Compensation

The Company believes that its executive compensation programs, which include significant annual incentive awards and long-term equity awards, are designed to encourage our executive officers to achieve exemplary results and are strongly aligned with the long-term interests of our stockholders.

-

There is a positive correlation between the Company's executive compensation and performance on both a relative and an absolute basis (see "Executive Summary" below).

Our compensation programs do not create risks that are reasonably likely to have a material adverse effect on the Company.

Corporate Governance

The Company believes that its executive compensation program is aligned with good corporate governance.

-

We continue to have stock ownership guidelines with consequences if guidelines are not adhered to or are not met within the initial five-year time-frame.

-

We have adopted hold requirements on some stock-based awards that focus executives on the longer-term effect of decisions made and have a policy that prohibits the hedging of Company stock by directors and employees.

-

In order to encourage our Named Executive Officers to focus on the best interests of stockholders, we have entered into employment agreements with each of our executive officers. The amount of each Named Executive Officer's base salary is generally fixed, and does not increase, during the term of his employment agreement. These employment agreements also contain restrictive covenants relating to non-competition, non-solicitation and confidentiality, following a termination of employment.

This vote is mandated by Section 951 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Section 14A of the Exchange Act. As an advisory vote, this proposal is not binding upon the Company. However, the Compensation Committee, which is responsible for overseeing the design and administration of the Company's executive compensation program, values the feedback received from stockholders in their vote on this proposal, and will consider the outcome of the vote when making future compensation decisions for Named Executive Officers.

PROPOSAL NUMBER 3 RATIFICATION OF OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2012

Our Audit Committee has selected PricewaterhouseCoopers LLP ("PWC") to serve as our independent registered public accounting firm to examine our consolidated financial statements for the year ending December 31, 2012. While the Audit Committee is responsible for the appointment, compensation, retention, termination and oversight of the independent auditor, we are requesting, as a matter of good corporate governance, that the stockholders ratify the appointment of PWC as our principal independent registered public accounting firm. If the stockholders fail to ratify the selection, the Audit Committee will reconsider whether to retain PWC and may retain that firm or another without re-submitting the matter to our stockholders. Even if the appointment is ratified, the Audit Committee may, in its discretion, direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such change would be in our best interests and in the best interests of our stockholders.

PWC's representatives are expected to be present at the 2012 Annual Meeting and will have an opportunity to make a statement, if they so desire, as well as to respond to appropriate questions asked by our stockholders.

The Board of Directors unanimously recommends that stockholders vote “FOR” the ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for calendar year 2012

Audit Committee Pre-Approval Policies and Procedures

The Audit Committee’s policy provides that our independent registered public accounting firm may provide only those services pre-approved by the Audit Committee or its designated subcommittee. The Audit Committee is required to pre-approve all auditing services and non-audit services that are provided to us. If the Audit Committee approves an audit service within the scope of the engagement of the independent registered public accounting firm, such audit service will be deemed to have been pre-approved.

Committee pre-approval is not required under the policies of the Audit Committee for non-audit services provided by the independent registered public accounting firm if (i) the aggregate amount of all such non-audit services provided

to HCC constitutes not more than 5% of the total amount of fees paid by us to the independent registered public accounting firm during the year in which such non-audit services are provided, (ii) such non-audit services were not recognized by us at the time of the independent registered public accounting firm's engagement to be non-audit services, and (iii) such non-audit services are promptly brought to the attention of the Committee and approved by the Committee prior to the completion of the audit.

However, the decision of any member to whom such authority is delegated to pre-approve non-audit services shall be presented to the full Audit Committee for its approval at its next scheduled meeting. As of the record date, there had been no such delegation.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Summary

Our executive compensation program is intended to (1) support the execution of our business strategy and long-term financial objectives, (2) attract and retain a talented team of executives who will provide leadership for the Company's success in dynamic, competitive markets and products, (3) foster performance in the creation of long-term stockholder value and (4) reward executives for contributions at a level reflecting our performance. Our Compensation Committee has designed our executive compensation program based on principles that reflect these objectives. These principles have contributed to the Company's strong performance and rewarded executives based on this performance. See pages 14-15 for additional information on the Company's financial performance in 2011.

The Company's executive compensation programs, which include significant annual incentive awards and long-term equity awards, are designed to encourage our executive officers to achieve exemplary results and are strongly aligned with the long-term interests of our stockholders. We emphasize pay for performance and structure our compensation programs to provide appropriate incentives to executives to drive business and financial results. Our Named Executive Officers received annual incentive awards based, in part, on Company performance relative to net earnings. The amount of these awards reflected our actual performance on these metrics. In addition, there is a positive correlation between the Company's executive compensation and performance on both a relative and an absolute basis.

For purposes of the relevant degree of alignment chart, realizable CEO compensation consisted of 3 years of base salary, plus 3 years of actual bonus, plus 3 years of value realized from the exercise of options and/or the vesting of stock, plus the 3 year change in the value of unexercised options and time-vesting stock.

The Company also believes that its executive compensation program is aligned with good corporate governance:

-

We continue to have stock ownership guidelines with consequences if guidelines are not adhered to or are not met within the initial five-year time-frame.

-

We have adopted hold requirements on stock-based awards that focus executives on the longer-term effect of decisions made and have a policy that prohibits the hedging of Company stock by directors and employees.

-

In order to encourage our Named Executive Officers to focus on the best interests of stockholders, we have entered into employment agreements with each of our executive officers. The amount of each Named Executive Officer's base salary is generally fixed, and does not increase, during the term of his employment agreement. These employment agreements also contain restrictive covenants relating to non-competition, non-solicitation and confidentiality, following a termination of employment.

This Compensation Discussion and Analysis further explains the philosophy underlying our compensation strategy and the fundamental elements of compensation paid to our Chief Executive Officer, Chief Financial Officer, and other executives named in the 2011 Summary Compensation Table (the “Named Executive Officers” or “NEOs”). Specifically, this Compensation Discussion and Analysis addresses the following:

HCC INSURANCE HOLDINGS, INC. – *2012 Proxy Statement* – 18

- Objectives of our compensation programs;
- Elements of compensation provided to the Named Executive Officers;
- How we determine each element of compensation and why we pay each element;
- How we determine executive officer compensation; and
- Other important compensation policies affecting the Named Executive Officers.

In determining compensation, the Compensation Committee receives input from management and its independent compensation consultant, and considers competitive practices, our business objectives, stockholder interests, regulatory requirements and other relevant factors. The Compensation Committee then reviews, modifies and approves, as appropriate, our executive compensation program in an effort to provide compensation for our executive officers that is (i) competitive, (ii) rewards the officers for success in achieving Company goals, and (iii) aligns the interests of our officers with the long-term interests of our stockholders.

The Compensation Committee also monitors the results of the “Say-on-Pay” vote and considers those results along with the factors listed above in determining compensation policies. Because a substantial majority (over 98%) of our stockholders approved the compensation program described in our 2011 proxy statement, the Compensation Committee did not implement changes to our executive compensation program as a result of the 2011 Say-on-Pay vote.

Objectives of Our Compensation Programs

Our business plan is shaped by our underlying business philosophy, which is to maximize underwriting profit while managing risk. As a result, our primary objective is to maximize net earnings and grow book value per share, rather than to grow gross written premium or our market share.

In our ongoing operations, we will continue to:

- emphasize the underwriting of lines of business in which we anticipate we will earn underwriting profits (based on various factors, including premium rates, the availability and cost of reinsurance, policy terms and conditions, and general market conditions);
-

limit our insurance companies' aggregate net loss exposure from a catastrophic loss through prudent underwriting, the use of reinsurance for those lines of business exposed to such losses, and diversification into lines of business not exposed to such losses;

-

offer a broad range of specialty insurance products in non-correlated lines of business that provide operational flexibility; and

-

consider the potential acquisition of specialty insurance operations.

With the goal of assisting in achieving the foregoing business strategy, our Compensation Committee designs our compensation programs to:

-

recruit and retain top executive officers who are experienced, highly qualified individuals that can make significant contributions to our success;

-

motivate executive officers to ensure exceptional performance and desired financial results and reward such performance;

-

provide an opportunity for executives to develop a significant ownership stake in our Company; and

-

align the executive officers' interests with the long-term interests of our stockholders.

Our compensation programs are designed to reward executive officers for achieving our business strategy on both a short-term and long-term basis. In addition, we reward qualities that we believe help further our strategy, including:

-

individual performance in light of general economic and industry conditions;

-

individual performance that supports our core values;

-

teamwork;

-

resourcefulness;

-

the ability to manage our business;

-

level of job responsibility; and

-

tenure with our Company.

How We Determine Executive Officer Compensation

Role of the Compensation Committee

The Compensation Committee is composed of Independent Directors and is responsible for reviewing, approving, and monitoring compensation policies and programs that are consistent with the Company's business strategy and aligned with stockholders' interest. Specifically, the Compensation Committee is responsible for:

- reviewing and approving the corporate goals and objectives relevant to the compensation of the CEO and other executive officers;
- reviewing and approving the performance and compensation of the CEO;
- reviewing and approving annual incentive awards to executive officers; and
- reviewing and approving equity-based compensation plans and grants of all awards under such plans.

Under our current policy, the Compensation Committee also approves the terms of each Named Executive Officer's employment agreement and any modifications that are necessary from time to time.

Role of Management

The Compensation Committee regularly meets with the CEO to receive reports and recommendations regarding the compensation of our executive officers other than the CEO. In particular, the CEO recommends to the Compensation Committee annual pay increases, discretionary annual bonuses, cash incentive awards and long-term incentive grants for the Named Executive Officers other than himself. The Compensation Committee then evaluates each executive officer, determines whether the CEO will receive any annual pay increase, sets performance criteria for discretionary annual incentive bonuses, and makes long-term incentive grants, if any. As part of its evaluation process, the Compensation Committee considers the Company's performance (including performance relative to peers), internal equity and consistency, the executive officer's individual performance over the prior year, changes in responsibilities, and future potential as well as data available from objective, professionally-conducted market studies obtained from a range of industry and general market sources. Although the Compensation Committee considers the CEO's recommendations, the final decisions regarding base salary, annual incentive awards and equity awards are made by the Compensation Committee.

Role of the Compensation Consultant

The Compensation Committee has retained Pearl Meyer & Partners (“Pearl Meyer”) as its outside compensation consultant to advise it in connection with executive compensation matters. A consultant from Pearl Meyer regularly attends meetings of the Compensation Committee and reports directly and exclusively to the Compensation Committee on matters relating to compensation for the Company’s Named Executive Officers. During 2011, the Compensation Committee requested that Pearl Meyer:

- review and provide a competitive assessment of the Company’s compensation plan design;
- provide market data, historical compensation information, competitive practice information and recommendations regarding appropriate peer groups, compensation trends and strategy, and governance developments; and
- provide analysis of data relating to CEO pay for performance.

During 2011, Pearl Meyer provided no services to the Company other than those provided to the Compensation Committee.

Peer Groups

In determining the compensation of our Named Executive Officers, the Compensation Committee strives to provide a competitive pay opportunity. While the Compensation Committee does not set target compensation for our Named Executive Officers by formal reference to benchmarking surveys, it does regularly refer to benchmarking surveys in order to ensure that our compensation is generally competitive with that of our peers. Our peer group for 2011 consisted of the following companies:

Name	Ticker	Name	Ticker
American Financial Group	AFG	Old Republic International Corporation,	ORI
Argo Group International Holdings, Ltd.	AGII	RLI Corp.	RLI
The Chubb Corporation	CB	The Travelers Companies, Inc.	TRV
Markel Corporation	MKL	W.R. Berkley Corporation	WRB
Navigators Group, Inc.	NAVG		

These companies were selected on the basis that they have significant specialty insurance operations and compete with the Company for talent, stockholders’ investments and in the marketplace for business.

[Back to Contents](#)

During 2011, Pearl Meyer performed a comprehensive review of the compensation of our Named Executive Officers. The results of Pearl Meyer's review indicated that (i) total direct compensation for our Named Executive Officers fell just below the 50th percentile among our peers, (ii) our CEO's pay was well aligned with the Company's performance over the past 1-year and 3-year periods, and (iii) the performance measures utilized by the Company are generally consistent with those used by our peers.

Elements of Compensation Provided to the Named Executive Officers

We have determined that our Company's and our stockholders' interests are best served by entering into multi-year employment agreements with the Named Executive Officers. Such agreements are the result of arms' length negotiations between the Named Executive Officer and the Compensation Committee. We believe that such multi-year employment arrangements benefit us and our stockholders by permitting us to attract and retain executive officers with demonstrated leadership abilities and to secure the services of such executive officers over an extended period of time. In addition, multi-year employment agreements align executive interests with the long-term interests of HCC and serve our recruitment and retention goals by providing executive officers with security based on the knowledge of how they will be compensated over the term of the agreement, while at the same time providing the Company with significant protections regarding non-competition, non-solicitation of business and employees, and confidential business information. A summary of the principal terms of these employment agreements is included below under the caption "Employment Agreements and Potential Payments Upon Certain Events."

How We Determine Each Element of Compensation and Why We Pay Each Element

General

In determining the amounts of each element and the aggregate compensation for our Named Executive Officers, we do not use any specific formulae or attempt to satisfy any specific ratio for compensation among our executive officers. Likewise, we do not generally have a policy or guidelines for allocating compensation between long-term and currently paid compensation, between cash and non-cash compensation, or among different forms of non-cash compensation. The Compensation Committee views the various components of compensation as related, but distinct, and therefore regularly evaluates the appropriate mix of elements. The Compensation Committee has relied on the general knowledge, experience and good judgment of its members, both with regard to competitive compensation levels and the relative success that our Company has achieved, as well as information provided by the Compensation Committee's compensation consultant.

For 2011, the mix of compensation elements for the Chief Executive Officer and the other Named Executive Officers (excluding Mr. Whamond) was:

[Back to Contents](#)

Because of the significant incentive opportunities available to managers of our subsidiaries based on the subsidiary's performance, the Compensation Committee also evaluates total compensation to our Named Executive Officers in relation to such managers to ensure overall fairness between the compensation opportunities available at both the subsidiary and the corporate level. The differences in the aggregate compensation between our Chief Executive Officer, our Chief Financial Officer, and our other Named Executive Officers also reflect the relative responsibilities with respect to their respective positions.

Base Salary

Base salary provides a fixed base level of compensation for our executives for the services they render during the year. The purpose of base salary is to compensate our Named Executive Officers in light of their respective roles and responsibilities over time. Base salary is essential to allow us to compete in the employment marketplace for talent and is an important component of total compensation for the Named Executive Officers. It is vital to our goal of recruiting and retaining executive officers with proven abilities. The level of base salary for each Named Executive Officer was established in the executive officer's employment agreement upon the date of hire or the date of renewal of an existing employment agreement. Base salary was initially determined for each executive officer based on the abilities, qualifications, accomplishments, and prior work experience of the executive officer. Base salary in a renewal agreement was determined based on the same criteria, but also on how the executive officer performed under his previously existing agreement and on the length of the executive officer's tenure with HCC.

While base salary is generally fixed during the term of an executive officer's employment agreement, adjustments may be considered on a discretionary basis. In deciding whether to make a discretionary increase to a Named Executive Officer's compensation, we consider the consistency of the executive officer's individual performance over the prior year, changes in the executive officer's responsibilities, the executive officer's future potential and internal pay equity. We also consider data available from benchmarking studies obtained from a range of industry and general market sources, as well as information provided by the compensation consultant.

Base salaries for 2011 were set in accordance with the terms of the respective employment agreements of our Named Executive Officers. Contractual increases, if any, from the prior year are shown in the 2011 Summary Compensation Table.

Annual Incentive Awards

Annual incentive compensation is intended to motivate and reward our Named Executive Officers for performance in achieving our business objectives.

2011 Cash Performance Awards

In 2008, our Board adopted and our stockholders approved the HCC Insurance Holdings, Inc. 2008 Flexible Incentive Plan (the "2008 FIP"). Under the 2008 FIP, we grant awards of cash performance awards that may be paid to a participant upon our satisfaction of corporate performance goals. We limit cash performance awards under the 2008 FIP to our CEO, CFO and any of our other employees whose compensation is potentially subject to the deductibility limitations of Section 162(m) of the Internal Revenue Code of 1986. Participants are designated by the Compensation Committee at the beginning of each year. For 2011, Mr. Molbeck, Mr. Irick and Mr. Kelbel received cash performance awards under the 2008 FIP. Mr. Williams did not receive an award because he was not an employee on the date the 2011 targets were established. Mr. Cook did not receive an award because greater than half of his compensation costs were allocated to UK and Spain subsidiaries of the Company since he resides and works in the

UK. Our Compensation Committee established maximum bonus amounts for each of these executives, expressed as a percentage of pretax income for HCC. The maximum targets were as follows:

Named Executive Officer	% of Pretax Income
Mr. Molbeck	1.00 %
Mr. Irick	0.25 %
Mr. Kelbel	0.25 %

For 2011, our pretax income was \$355.0 million. After the conclusion of the calendar year, the Compensation Committee calculates the maximum bonus amount based on the compensation targets established for each executive officer and then determines the actual bonus amounts based on a reasoned assessment of objective and subjective factors (including actual operating results against budget, the achievement of personal objectives, individual performance and equitable considerations among similarly situated executives) to arrive at the actual bonus amount for a particular executive officer, which in each case is equal to or less than the maximum bonus amount under the plan.

Our Compensation Committee uses “negative discretion” in determining the actual annual cash incentive awards for the participants in the 2008 FIP as allowed under Section 162(m). For purposes of Section 162(m), the maximum annual incentive award is determined to the extent we achieve our performance goal of pretax income. The Compensation Committee then exercises its negative discretion to reduce, if appropriate, the actual annual incentive awards to reflect actual corporate, business unit and individual performance. By setting a high amount that can then be reduced, we believe our annual incentive payments qualify for full deductibility under Section 162(m). Any reduction is not a negative reflection on the performance of our Company or our Named Executive Officers, but rather is done to ensure maximum flexibility with respect to the payment of performance-based bonuses. For further information on Section 162(m), see “Tax Deductibility of the Named Executive Officers’ Incentive and Equity Compensation” below.

Discretionary Annual Incentive Awards

Mr. Williams and Mr. Cook, who were not participants in cash performance awards made under the 2008 FIP, were eligible for a discretionary annual incentive award. Like awards under the 2008 FIP, these discretionary annual incentive awards are designed to advance our interests and those of our stockholders. Both awards are intended to achieve the same goals of attracting, rewarding, motivating and retaining key executives and fostering accountability and teamwork.

[Back to Contents](#)

Decisions related to incentive-based compensation for our Named Executive Officers are based on a reasoned, subjective assessment of objective and subjective factors that are weighted approximately as follows:

•

Company Performance - two-thirds based on a consideration of the Company's performance during a given year against our budgeted performance as established in our annual budgeting process; and

•

Individual Performance - one-third based on an assessment of individual factors with respect to the particular Named Executive Officer.

In evaluating Company performance, the Compensation Committee considers each of the following four factors:

•

actual reported GAAP combined ratio, compared to budgeted GAAP combined ratio;

•

actual return on equity compared to budgeted return on equity;

•

actual total underwriting profit compared to budgeted total underwriting profit; and

•

actual net investment income compared to budgeted net investment income.

The Compensation Committee believes these factors are appropriate measures in determining whether the objectives of our compensation programs are being met.

In evaluating individual performance, the Compensation Committee considers an executive officer's:

•

performance against individual goals;

•

individual effort in achieving company goals;

•

future potential;

•

years of service;

•

level of experience;

•

areas of responsibility; and

•

total compensation opportunities relative to other members of management of HCC and its subsidiaries.

For 2011, the actual payouts under our 2008 FIP, as well as the actual amount of discretionary annual incentive awards for Mr. Williams and Mr. Cook, reflected the Company's performance for 2011:

In addition, the Compensation Committee considered the Company's strong financial performance during 2011 relative to peers for GAAP combined ratio, growth in book value per share and operating earnings.

The actual payout for Mr. Molbeck under the 2008 FIP also reflected his achievement of individual goals, which included the following for 2011:

Goal	Outcome
• Renew the Company's \$575 million revolving credit facility	• Executed new \$600 million revolving credit facility on terms advantageous to the Company
• Complete at least \$200 million of share repurchases	• Completed \$373.6 million of share repurchases
• Add a new line of business	• Added primary and excess liability lines of business
• Hire a potential successor	• Hired Mr. Williams as President and successor CEO
• Install a new enterprise capital model ("ECM")	• Implemented new ECM software

In determining the amount of Mr. Molbeck's award, the Compensation Committee considered Mr. Molbeck's success in achieving his personal goals and, because of Mr. Molbeck's significant influence in achieving such results, gave extra weight to the Company's success against the financial metrics discussed above. The award of \$2,600,000 represented 73% of the maximum opportunity for 2011, as compared to \$3,250,000 last year, which represented 66%

of the maximum opportunity for 2010. The Compensation Committee believes this amount accurately reflected both (i) the Company's lower net earnings and (ii) Mr. Molbeck's role in shepherding the Company through a year of record catastrophe losses in the insurance industry.

The actual payouts to other Named Executive Officers under our 2008 FIP, as well as the actual amount of discretionary annual incentive awards for Mr. Williams and Mr. Cook, also reflected the following individual performance factors:

Mr. Irick — (i) executed a new \$600 million revolving credit facility on terms advantageous to the Company, (ii) successfully implemented a new financial reporting system, (iii) improved the budgeting and forecasting processes, (iv) assumed responsibility for the Company's treasury operations and improved the investment of short-term funds, (v) restructured the Company's internal audit and internal control functions, and (vi) demonstrated leadership in all areas of responsibility.

Mr. Cook — (i) maintained profitability in the Company's International segment despite missing budget targets due to a year of record catastrophe losses, (ii) successfully reorganized the UK liability line of business, (iii) successfully placed reinsurance in line with cost, coverage and time estimates, and (iv) prepared the Company's International segment for the adoption of Solvency II.

[Back to Contents](#)

Mr. Kelbel — (i) achieved record earnings for the Company's Accident & Health segment, exceeding budget by over \$10 million, (ii) successfully combined the operations of the Company's Perico Life Insurance and HCC Life Insurance business units, (iii) completed significant systems improvements in the Company's medical stop-loss and short-term medical lines of business, (iv) developed a succession plan for the Company's Accident & Health segment, and (v) made significant contributions to the overall management of the Company.

Mr. Williams — (i) successfully transitioned from the role of Chairman of the Board to President during 2011 (including assisting Mr. Rosholt to successfully assume the role of Chairman of the Board), (ii) made significant contributions to the management of all of the Company's business segments, (iii) made significant contributions to the Company's investor relations function, and (iv) was actively engaged in the search for, and hiring of, the Company's new Chief Operating Officer.

Taking these factors into account and utilizing reasoned, subjective judgment, the Compensation Committee approved the following bonus payments for 2011:

	2011 Maximum Bonus Amount	2011 Actual Bonus Payments
Named Executive Officer	(\$)	(\$)
Mr. Molbeck	3,550,000	2,600,000
Mr. Irick	887,500	550,000
Mr. Cook	n/a	400,000
Mr. Kelbel	887,500	880,000
Mr. Williams	n/a	1,000,000

Long-Term Equity Awards

We grant stock options and restricted stock to our executive officers, since we believe this element of our compensation program allows executive officers the opportunity to develop a significant ownership stake in the Company and aligns their interests with the long-term interests of our stockholders. In addition, equity awards serve as a good retention vehicle for the Named Executive Officers because they vest based on the executive officer's continued employment.

During 2011, our Compensation Committee granted awards of restricted stock to Mr. Williams and Mr. Irick in connection with such individual's employment with the Company (in the case of Mr. Williams) or extension of employment with the Company (in the case of Mr. Irick).

Additional equity awards may be made at any of our Compensation Committee meetings during the year. The Compensation Committee's policy is to set the exercise price of stock option awards at the closing price of our stock on the date of the Compensation Committee meeting at which such options are granted. We do not coordinate the grant of awards with the release of earnings for any purpose, including the purpose of affecting the value of executive compensation.

Nonqualified Deferred Compensation

We have adopted a nonqualified deferred compensation plan for Mr. Molbeck and Mr. Williams, pursuant to which each is entitled to the payment of deferred compensation. We believe the tax benefit from our deferring payment of a portion of compensation is valuable to Mr. Molbeck and Mr. Williams and assists us in meeting our retention goals. Paying a portion of base compensation as deferred compensation also ensures Mr. Molbeck's and Mr. Williams' total compensation will be fully tax deductible. See "2011 Nonqualified Deferred Compensation Table" for detail.

Perquisites

Our current policy is that the costs of perquisites will constitute only a small percentage of each Named Executive Officer's total compensation. In general, the perquisites that an executive officer is eligible to receive are contained in such executive's employment agreement. In some instances, our Named Executive Officers were provided perquisites by their previous employers, and we offered comparable perquisites in order to attract these Named Executive Officers. Perquisites may include: extended medical benefits; payment of life and disability insurance premiums; personal travel on the corporate aircraft; payment of relocation expenses; payment of club dues; and physical exams.

Employee Benefits

Our Named Executive Officers have the opportunity to participate in a number of benefit programs that are generally available to all of our U.S. or U.K. employees, as applicable. The Named Executive Officers are eligible to participate in Company-sponsored benefit programs on the same terms and conditions as those generally provided to other salaried employees; however, in some instances described below, the executives are entitled to additional benefits. These benefits include:

Health and Insurance Plans

Basic health benefits, dental benefits, disability protection, life insurance, and similar programs are provided to make certain that access to healthcare and income protection is available to our employees and the employees' family members. The cost of Company-sponsored benefit programs is negotiated by us with the providers of such benefits. In general, the Named Executive Officers contribute to the cost of the benefits; however, medical benefits are provided to Mr. Molbeck at no cost to him consistent with the terms of his prior employment agreement with us.

[Back to Contents](#)

In addition, under the terms of their respective employment agreements, each of Mr. Molbeck, Mr. Cook and Mr. Kelbel and their respective qualified beneficiaries, where applicable, is entitled to extended medical benefits under our medical plan after termination of their respective employment. In the case of Mr. Kelbel, such benefits are at no cost and extend until he or his spouse becomes eligible for Medicare or the date his children would have ceased to be covered under our benefit plans had he remained an employee. For Mr. Molbeck, such benefits are at no cost and extend until the later to occur of his death or the death of his spouse (if he is married on the date of his death).

Retirement Benefits

The Named Executive Officers are eligible to participate in our 401(k) Plan, which is a Company-wide, tax-qualified retirement plan. The intent of this plan is to provide all employees with a tax-advantaged savings opportunity for retirement. We sponsor this plan to help employees at all levels save and accumulate assets for use during their retirement. As required, eligible pay under this plan is capped at Internal Revenue Code annual limits.

Other Important Compensation Policies Affecting the Named Executive Officers

Financial Restatement

The Compensation Committee does not have a policy in place governing retroactive modifications to any cash- or equity- based incentive compensation paid to the Named Executive Officers where the payment of such compensation was predicated upon the achievement of specified financial results that were subsequently the subject of a restatement. However, if the Compensation Committee deems it appropriate and to the extent permitted by applicable law, it will seek to recoup amounts, determined to have been inappropriately paid to an executive officer as a result of a financial restatement.

Stock Ownership Requirements

The Compensation Committee has adopted minimum ownership requirements for Company stock for its Named Executive Officers. Ownership targets have been established as a multiple of current annual base compensation for each of our Named Executive Officers based on their position with the Company as follows:

Current Level of HCC Stock Ownership						
Named Executive Officer	Position	Ownership Requirement as a % of Base Salary	Total Number of Shares⁽¹⁾	As a % of Base Salary	Deadline for Compliance	
Mr. Molbeck	Chief Executive Officer	300 %	147,191	207 %	May 2014	
Mr. Irick	Chief Financial Officer	150 %	20,090	130 %	August 2015	
Mr. Cook		100 %	26,295	86 %	February 2015	

	Executive				
	Vice				
	President				
	Executive				
Mr. Kelbel	Vice	100 %	28,319	127 %	February 2015
	President				
Mr. Williams	President	200 %	37,602	103 %	May 2016

(1) As of December 31, 2011. Includes shares held outright, share equivalents held in IRA, 401(k) or deferred compensation plan accounts, and the net after-tax value of time-vested restricted stock (using a 34% assumed tax rate).

Executives are expected to comply with the guidelines within five years of becoming subject to the ownership guidelines. As of the record date, Mr. Kelbel has complied with the ownership guidelines and Mr. Molbeck, Mr. Irick, Mr. Cook, and Mr. Williams are on track to meet the ownership guidelines within the five-year compliance period.

Trading in Stock Derivatives

Our Insider Trading Policy prohibits our employees, including Named Executive Officers, from purchasing or selling options on our common stock, engaging in short sales with respect to our common stock, or trading in puts, calls, straddles, equity swaps or other derivative securities that are directly linked to our common stock.

Tax Deductibility of the Named Executive Officers' Incentive and Equity Compensation

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation over \$1.0 million paid to a corporation's chief executive officer and the three other most highly compensated executive officers, excluding the chief financial officer.

Section 162(m) further provides that qualifying performance-based compensation will not be subject to the deduction limit if certain requirements are met. We currently structure our discretionary annual incentive compensation for executive officers to comply with Section 162(m) through the 2008 Flexible Incentive Plan. Our current annual incentives satisfy Section 162(m)'s requirement that they be "payable solely on account of the attainment of one or more performance goals." Although we intend to structure grants under future stock award plans and cash incentive plans in a manner that complies with this section, we may forego all or some portion of a deduction to conform to our compensation goals.

[Back to Contents](#)

In connection with the compensation of our executive officers, the Compensation Committee is aware of Section 162(m) as it relates to deductibility of qualifying compensation paid to executive officers. In addition, we are aware of Section 409A of the Internal Revenue Code and believe we should structure our compensation plans in ways to minimize the likelihood that our employees, including Named Executive Officers, have to pay the excise taxes set forth under Section 409A. If any provision of an employment agreement we have entered into would cause the Named Executive Officer to incur any additional tax under Section 409A or any Treasury Regulations or IRS guidance, we will attempt to reform such provision in a manner that maintains, to the extent possible, the original intent of the provision without violating Section 409A. In addition, the employment agreements of Mr. Molbeck, Mr. Kelbel and Mr. Williams require us to reimburse the executives for any Section 409A excise taxes incurred by the executives.

Accounting Considerations

The Compensation Committee also considers the accounting and cash flow implications of various forms of compensation. In its financial statements, the Company records salaries and non-equity incentive compensation as expenses in the amount paid, or to be paid, to the Named Executive Officers. Accounting rules also require the Company to record an expense in its financial statements for equity awards, even though equity awards are not paid as cash to employees. The accounting expense of equity awards to employees is calculated in accordance with FASB ASC Topic 718, *Compensation — Stock Compensation*. The Compensation Committee believes, however, that the many advantages of equity compensation, as discussed above, more than compensate for the non-cash accounting expense associated with such equity awards.

Change of Control Agreements

Our executive officers' employment agreements provide for severance in the event of a change of control. Payments will only be made under these agreements if there is both a change of control and a termination of employment. In the case of Mr. Molbeck, payment will only be made if there is both a change of control and a termination or replacement of his position as Chief Executive Officer. This is discussed in more detail under the caption "Employment Agreements and Potential Payments Upon Certain Events" below. The Compensation Committee believes this benefit is required to offer competitive benefits to attract and retain highly qualified executives.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis contained in this Proxy Statement with management. Based upon such review, the related discussions and such other matters deemed relevant and appropriate to the Compensation Committee, the Compensation Committee has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in HCC's Annual Report on Form 10-K for the year ended December 31, 2011 and in this Proxy Statement.

Committee:

2011 Nonqualified Deferred Compensation Table

The following table contains information concerning benefits received by each of the Named Executive Officers under nonqualified deferred compensation plans during the year ended December 31, 2011:

Name	Executive	Company	Aggregate	Aggregate	Aggregate
	Contributions	Contributions	Earnings	Withdrawals/	Balance

	(\$)	(\$)	(\$) ⁽¹⁾	(\$)	(\$)

Christopher J.B. Williams	233,333	—	2,227	—	235,560 ⁽³⁾

(1) None of this amount is considered above-market earnings under SEC regulations. Earnings on deferred compensation are deemed above-market only if the rate exceeds 120% of the applicable federal long-term rate, with compounding.

(2) Of this amount, \$2,340,060 was previously reported as compensation to Mr. Molbeck in prior years.

(3) Of this amount, none was previously reported as compensation to Mr. Williams in prior years.

Mr. Molbeck and Mr. Williams receive deferred compensation under their respective employment agreements. We have implemented a Nonqualified Deferred Compensation Plan for each of Mr. Molbeck and Mr. Williams under which this deferred compensation is paid. Mr. Molbeck and Mr. Williams remain eligible to participate in their respective plans for so long as each remains an employee of HCC. Under this plan, monthly contributions are credited to their respective accounts in an amount equal to one-twelfth of the annual deferred compensation under each's employment agreement. The amount credited to his account will accrue earnings, which shall compound monthly, at the executive's election, which may be changed once per quarter, at one of the following rates: the prime rate (3.25% for 2011), the rate of return on HCC common stock (-2.90% for 2011), or the rate of return on the S&P 500 (0.0% for 2011). Payment of Mr. Molbeck's or Mr. Williams' account balance will occur within 30 days of his separation from service with HCC (subject to a six-month delay if necessary in order to comply with Internal Revenue Code Section 409A) and will be payable to him (or in the event of his death, to his beneficiary) in a single lump sum. Each plan is administered by our Compensation Committee. No separate trust or fund shall be created, and all benefits payable under the plan will be paid from HCC's general assets.

Employment Agreements and Potential Payments Upon Certain Events

We have entered into employment agreements with our CEO, CFO and the other Named Executive Officers. Notwithstanding these employment agreements, each executive has the right to voluntarily terminate his employment at any time. The employment agreements set forth the general terms and conditions of each executive officer's employment and provide for certain severance benefits upon the occurrence of certain events. We do not maintain a separate severance plan for our Named Executive Officers. Severance benefits are limited to those set forth in the Named Executive Officer's employment agreement.

The following discussion (i) summarizes the material terms of each Named Executive Officer's employment agreement and (ii) sets forth in a tabular format the incremental compensation that would be payable to such Named Executive Officer in the event of his termination of employment under various scenarios, which we refer to as "termination events," including the Named Executive Officer's voluntary resignation or retirement, involuntary termination for "Cause," involuntary termination without "Cause," termination by the executive for "Good Reason," termination in connection with a "Change of Control," termination in the event of "Disability," and termination in the event of death, where each of these defined terms has the meaning ascribed to it in the respective executive's employment agreement. In accordance with applicable SEC rules, the following discussion assumes:

-

that the termination event in question occurred on December 30, 2011, the last business day of 2011; and

-

with respect to calculations based on our stock price, we used \$27.50, which was the reported closing price of our common stock on December 30, 2011.

The tables contained in this section do not include payments made to a Named Executive Officer with respect to contracts, agreements, plans or arrangements to the extent they do not discriminate in scope, terms or operation, in favor of our executive officers and that are available generally to all salaried employees, such as our 401(k) plan. The actual amounts that would be paid upon a Named Executive Officer's termination of employment can only be determined at the time of such executive officer's termination. Due to the number of factors that affect the nature and amount of any compensation or benefits provided upon the termination events, any actual amounts paid or distributed may be higher or lower than reported below. Factors that could affect these amounts include the timing during the year of any such event, our stock price at such time, the 90-day Treasury bill rate used to discount payments and the executive officer's age and service.

Each Named Executive Officer is party to equity award agreements relating to options and/or restricted stock granted under our 2004 Flexible Incentive Plan and/or our 2008 Flexible Incentive Plan. These agreements and plans may provide that a Named Executive Officer is entitled to additional consideration in the event of a termination event.

AUDIT COMMITTEE REPORT

The Audit Committee is composed of three Independent Directors and acts under a written charter adopted by the Board of Directors. The Audit Committee consists of Mr. Duer, Dr. Flagg (Chairperson) and Mr. Rosholt.

The Audit Committee is responsible for overseeing HCC's financial reporting process on behalf of the Board of Directors. The Audit Committee has the sole responsibility for the appointment and retention of HCC's independent registered public accounting firm and the approval of all audit and other engagement fees. The Audit Committee meets periodically with management, the internal auditors and the independent registered public accounting firm regarding accounting policies and procedures, audit results and internal accounting controls. The internal auditors and the independent registered public accounting firm have free access to the Audit Committee, without management's presence, to discuss the scope and results of their audit work.

HCC's management is primarily responsible for its consolidated financial statements and the quality and integrity of the reporting process, including establishing and maintaining systems of internal control over financial reporting and assessing the effectiveness of those controls. The independent registered public accounting firm PricewaterhouseCoopers LLP is responsible for auditing those financial statements and for expressing an opinion on the conformity of the consolidated financial statements with accounting principles generally accepted in the United States of America and on whether HCC maintained effective internal control over financial reporting.

In fulfilling its oversight responsibilities, the Audit Committee has reviewed and discussed the audited consolidated financial statements for the year ended December 31, 2011 and management's report of the effectiveness of HCC's system of internal control over financial reporting with HCC's management and representatives of the independent registered public accounting firm. The Audit Committee discussed with the independent registered public accounting firm the matters required to be discussed by the independent registered public accounting firm with the Audit Committee under the rules adopted by the Public Company Accounting Oversight Board. In addition, the Audit Committee discussed with the independent registered public accounting firm its independence from HCC and HCC's management, and has received the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence. The Audit Committee has also considered the compatibility of non-audit services, primarily tax activities, provided by the independent registered public accounting firm with such firm's independence.

PricewaterhouseCoopers LLP audited the financial records of HCC and its subsidiaries for the year ended December 31, 2011 and has served as HCC's independent registered public accounting firm since 1987. Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual Meeting of Stockholders and will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

In reliance on its review of the audited consolidated financial statements, the review of the report of management on the effectiveness of HCC's internal control over financial reporting, the discussions referred to above and the receipt of the written disclosures referred to above, the Audit Committee has recommended to the Board of Directors that the audited consolidated financial statements be included in HCC's Annual Report on Form 10-K for the year ended December 31, 2011, for filing with the SEC.

Submitted by the Audit Committee:
James C. Flagg, Ph.D., *Chairperson*

Walter M. Duer

Robert A. Rosholt

HOUSEHOLDING

The SEC allows us to deliver a single proxy statement and annual report to an address shared by two or more of our stockholders. This delivery method, referred to as "householding," can result in significant cost savings for us. In order to take advantage of this opportunity, we, and banks and brokerage firms that hold your shares, have delivered only one proxy statement and annual report to multiple stockholders who share an address unless one or more of the stockholders has provided contrary instructions. We will deliver promptly, upon written or oral request, a separate copy of the proxy statement and annual report to a stockholder at a shared address to which a single copy of the documents was delivered. A stockholder who wishes to receive a separate copy of the proxy statement and annual report, now or in the future, may obtain one, without charge, by addressing a request to HCC Insurance Holdings, Inc., 13403 Northwest Freeway, Houston, Texas 77040-6094, ATTN: Investor Relations. You may also obtain a copy of the proxy statement and annual report under the Financials portion of the Investor Relations section on our website at www.hcc.com. Stockholders of record sharing an address who are receiving multiple copies of proxy materials and annual reports and wish to receive a single copy of such materials in the future should submit their request by contacting us in the same manner. If you are the beneficial owner, but not the record holder, of the Company's shares and wish to receive only one copy of the proxy statement and annual report in the future, you will need to contact your broker, bank or other nominee to request that only a single copy of each document be mailed to all stockholders at the shared address in the future.

Form 10-K

We will furnish without charge to each person whose proxy is being solicited, upon request of any such person, a copy of our Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, including the consolidated financial statements and schedules thereto, but not the exhibits. Requests for copies of such report should be directed to Investor Relations, HCC Insurance Holdings, Inc., 13403 Northwest Freeway, Houston, Texas 77040-6094. Copies of any exhibit to the Form 10-K will be forwarded upon receipt of a written request so addressed.
