HERCULES OFFSHORE, INC. AND SUBSIDIARIES
(DEBTOR-IN-POSSESSION)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
UNAUDITED

1. General

Hercules Offshore, Inc., a Delaware corporation, and its majority owned subsidiaries (the “Company”) provide shallow-water drilling and marine services to the oil and natural gas exploration and production industry globally through its Domestic Offshore, International Offshore and International Liftboats segments (See Note 13). At September 30, 2015, the Company operated a fleet of 27 jackup rigs, including one rig under construction (See Note 14), and 19 liftboat vessels. The Company’s diverse fleet is capable of providing services such as oil and gas exploration and development drilling, well service, platform inspection, maintenance and decommissioning operations in several key shallow-water provinces around the world.

The consolidated financial statements of the Company are unaudited; however, they include all adjustments of a normal recurring nature which, in the opinion of management, are necessary for a fair presentation. Certain information relating to the Company’s organization and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to Securities and Exchange Commission rules and regulations. These financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2014 and the notes thereto included in the Company’s Annual Report on Form 10-K. The results of operations for the nine months ended September 30, 2015 are not necessarily indicative of the results expected for the full year.

Going Concern

The unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q have been prepared assuming that the Company will continue as a going concern and contemplate the realization of assets and the satisfaction of liabilities in the ordinary course of business. The Company’s ability to continue as a going concern, however, is contingent upon, among other factors, the Debtors’ ability to satisfy the remaining conditions to effectiveness contemplated under the Plan and to implement such plan of reorganization, including obtaining any exit financing. As a result of the Bankruptcy Case, the realization of assets and the satisfaction of liabilities are subject to uncertainty. While operating as debtors-in-possession under Chapter 11, the Debtors may sell or liquidate assets, or settle liabilities, subject to the approval of the Bankruptcy Court or as otherwise permitted in the ordinary course of business, for amounts other than those reflected in the accompanying unaudited consolidated financial statements. The reorganization could materially change the amounts and classifications of assets and liabilities reported in the unaudited consolidated financial statements. Additionally, the unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities or any other adjustments that might be necessary if we are unable to continue as a going concern or as a consequence of the Bankruptcy Case.

Current Market Environment

Demand for the Company’s oilfield services is driven by its exploration and production customers’ capital spending, which can experience significant fluctuation depending on current commodity prices and their expectations of future price levels, among other factors. The recent decline in the price of crude oil has negatively impacted dayrates and demand for the Company’s services. In addition to the oil price decline, the consolidation of the domestic customer base has negatively impacted demand for jackup rigs in the U.S. Gulf of Mexico. Internationally, the new capacity growth expected over the next three years could put further pressure on the operating environment for the existing jackup rig fleet. Although activity levels for liftboats are not as closely correlated to commodity prices as the Company’s drilling segments, commodity prices are still a key driver of liftboat demand. Demand for liftboat services in West Africa has been weak, which the Company believes has been driven by budgetary constraints with major customers primarily in Nigeria.

The Company has taken numerous actions to mitigate the effects of the decline in activity levels, including but not limited to: (i) cold stacking nine rigs and warm stacking five rigs since the fourth quarter of 2014 to significantly reduce operating expenses, (ii) significantly reducing its capital expenditures planned for 2015 and (iii) significantly

reducing its workforce, both onshore and offshore. The Company continues to monitor its operating environment and will respond to further activity level declines as appropriate.

Dayrate Reductions

On February 25, 2015, the Company received a notice from Saudi Aramco terminating for convenience its drilling contract for the Hercules 261, effective on or about March 27, 2015. The Company received subsequent notices from Saudi Aramco extending the effective date of termination to May 31, 2015. On June 1, 2015, the Company received notice from Saudi Aramco reinstating the drilling contract on the Hercules 261, in exchange for dayrate concessions on the Hercules 261, Hercules 262 and Hercules 266 from their existing contracted rates to \$67,000 per day. These reduced dayrates are effective

Table of Contents

retroactively from January 1, 2015 through December 31, 2016 for the Hercules 261 and Hercules 262, and through the remaining contract term for the Hercules 266.

Income Taxes

The Company uses the liability method for determining its income taxes. The Company's income tax provision is based upon the tax laws and rates in effect in the countries in which the Company's operations are conducted and income is earned. The income tax rates imposed and methods of computing taxable income in these jurisdictions vary substantially. The Company's effective tax rate is expected to fluctuate from year to year as operations are conducted in different taxing jurisdictions and the amount of pre-tax income fluctuates. Current income tax expense reflects an estimate of the Company's income tax liability for the current year, withholding taxes, changes in prior year tax estimates as returns are filed, or from tax audit adjustments, while the net deferred tax expense or benefit represents the changes in the balance of deferred tax assets and liabilities as reported on the balance sheet.

Valuation allowances are established to reduce deferred tax assets when it is more likely than not that some portion or all of the deferred tax assets will not be realized in the future. The Company considers estimated future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for a valuation allowance. Changes in these estimates and assumptions, as well as changes in tax laws, could require the Company to adjust the valuation allowance for deferred taxes in the future. The adjustments to the valuation allowance impact the Company's income tax provision in the period in which such adjustments are identified and recorded.

Certain of the Company's international rigs and liftboats are owned or operated, directly or indirectly, by the Company's wholly owned Cayman Islands subsidiaries. U.S. Federal deferred tax liabilities are recorded for the unremitted earnings of foreign subsidiaries that are not permanently reinvested; otherwise, no U.S. Federal deferred taxes are provided on foreign subsidiaries. In certain circumstances, management expects that, due to the changing demands of the offshore drilling and liftboat markets and the ability to redeploy the Company's offshore units, certain of such units will not reside in a location long enough to give rise to future tax consequences in that location. As a result, no deferred tax asset or liability has been recognized in these circumstances. Should management's expectations change regarding the length of time an offshore drilling unit will be used in a given location, the Company would adjust deferred taxes accordingly.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are stated at the historical carrying amount net of write-offs and the allowance for doubtful accounts. The Company monitors the accounts receivable from its customers for any collectability issues. An allowance for doubtful accounts is established based on reviews of individual customer accounts, recent loss experience, current economic conditions, and other pertinent factors. The Company establishes an allowance for doubtful accounts based on the actual amount it believes is not collectable. The Company had an allowance of \$13.2 million and \$5.7 million at September 30, 2015 and December 31, 2014, respectively. The change in the Company's allowance account related primarily to an uncollectable receivable identified in its International Liftboats segment totaling \$7.6 million during the three months ended September 30, 2015.

2. Bankruptcy and Related Events

On June 17, 2015, Hercules Offshore, Inc. and certain of its U.S. domestic direct and indirect subsidiaries (together with Hercules Offshore, Inc., the "Debtors") entered into an agreement (the "Restructuring Support Agreement" or "RSA") with certain holders (the "Steering Group Members") collectively owning or controlling in excess of 66 2/3% of the aggregate outstanding principal amount of the Company's 10.25% senior notes due 2019, 8.75% senior notes due 2021, 7.5% senior notes due 2021 and 6.75% senior notes due 2022 (the "Outstanding Senior Notes").

The RSA set forth, subject to certain conditions, the commitment to and obligations of, on the one hand, the Debtors, and on the other hand, the Steering Group Members (and any successors or permitted assigns that become party thereto) in connection with a restructuring of the Outstanding Senior Notes, the Company's 3.375% convertible senior notes due 2038 (the "Convertible Notes"), the Company's 7.375% senior notes due 2018 (the "Legacy Notes") (collectively all the "Outstanding Notes") and the Company's common stock, par value \$0.01 per share (the "Existing Common Stock") (the "Restructuring Transaction") pursuant to a pre-packaged or pre-negotiated plan of reorganization (the "Plan") filed under Chapter 11 ("Chapter 11") of the United States Bankruptcy Code.

The entry into the RSA or the matters contemplated thereby may have been deemed to have constituted an event of default with respect to the Credit Facility and the Outstanding Notes. In connection with the RSA, the Company terminated its Credit Facility effective June 22, 2015. There were no amounts outstanding and no letters of credit issued under the Credit Facility at that time. The obligations under the Credit Facility were jointly and severally guaranteed by substantially all of the

5

Table of Contents

Company's domestic subsidiaries. Liens on the Company's vessels that secured the Credit Facility have been released. The Company maintained compliance with all covenants under the Credit Facility through the termination date and has paid all fees in full (See Note 9).

On August 13, 2015, the Debtors filed voluntary petitions (the "Bankruptcy Petitions") for reorganization ("Chapter 11 Cases") under Chapter 11 of the United States Bankruptcy Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the District of Delaware (the "Court"). Through the Chapter 11 Cases, the Debtors seek to implement the Plan in accordance with the RSA that the Debtors entered into with the Steering Group Members. The Chapter 11 Cases are being jointly administered under the caption In re: Hercules Offshore, Inc., et al (Case No. 15-11685). The Company's foreign subsidiaries and one U.S. domestic subsidiary ("Non-Filing Entities") were not party to the Bankruptcy filing. Since the petition date, the Debtors have operated their business as "debtors-in-possession" under the jurisdiction of the Court and in accordance with applicable provisions of the Bankruptcy Code and orders of the Court. Under the Chapter 11 Cases, which required Court approval, the Company's trade creditors and vendors are being paid in full in the ordinary course of business, and all of the Company's contracts have remained in effect in accordance with their terms preserving the rights of all parties. The Non-Filing Entities have continued to operate in the ordinary course of business.

The filing of the Chapter 11 Cases constituted an event of default with respect to the Company's Outstanding Notes. Pursuant to the Bankruptcy Code, the filing of the Bankruptcy Petitions automatically stayed most actions against the Debtors, including most actions to collect indebtedness incurred prior to the filing of the Bankruptcy Petitions or to exercise control over the Debtors' property. Accordingly, although the Bankruptcy Petitions triggered defaults under the Outstanding Notes, creditors are generally stayed from taking action as a result of these defaults.

On September 24, 2015, the Bankruptcy Court entered an order confirming the Plan (the "Confirmation Order") and such order became final on October 8, 2015. The Debtors plan to emerge from Chapter 11 after satisfying the remaining conditions to effectiveness contemplated under the Plan.

Pursuant to the terms of the RSA, the Steering Group Members agreed, among other things, and subject to certain conditions: (a) not to support any restructuring, reorganization, plan or sale process that is inconsistent with the RSA, and (b) not to instruct an agent or indenture trustee for any of the Outstanding Notes to take any action that is inconsistent with the terms and conditions of the RSA, including, without limitation, the declaration of an event of default, or acceleration of the Outstanding Notes arising from, relating to, or in connection with the execution of the RSA; and at the request of the Company, to waive or agree to forbear from exercising any right to take action in respect of any default or acceleration that may occur automatically without action of any as a result of the operation of the indentures governing the Outstanding Notes.

The Company has agreed, among other things, and subject to certain conditions: (a) to take no action that is materially inconsistent with the RSA, the Term Sheet or the Plan; and (b) not to support any alternative plan or transaction other than the Plan.

The Plan contemplates that the Debtors will reorganize as a going concern and continue their day-to-day operations substantially as currently conducted. Specifically, the material terms of the Plan are expected to effect, among other things, subject to certain conditions and as more particularly set forth in the Plan, upon the effective date of the Plan, a substantial reduction in the Debtors' funded debt obligations (including \$1.2 billion of face amount of the Outstanding Notes). Certain principal terms of the Plan are outlined below.

- New capital raise of first lien debt with a maturity of 4.5 years and bearing interest at LIBOR plus 9.5% per annum (1.0% LIBOR Floor), payable in cash, issued at a price equal to 97% of the principal amount. The first lien debt will consist of \$450 million for general corporate use and to finance the remaining construction cost of the Company's newbuild rig, the Hercules Highlander, and will be guaranteed by substantially all of the Company's U.S. domestic and international subsidiaries and secured by liens on substantially all of the Company's domestic and foreign assets. The first lien debt will include financial covenants and other terms and conditions.

- Exchange of the Outstanding Notes for 96.9% of the Company's common stock issued in the reorganization ("New Common Stock").

If the Plan is consummated as contemplated, holders of the Company's Existing Common Stock will receive 3.1% of the New Common Stock and will also receive warrants to purchase New Common Stock on a pro rata basis (the

“Warrants”). The Warrants are exercisable at any time until their expiration date for a per share price based upon a \$1.55 billion total enterprise value. The expiration date for the Warrants will be six years from the effective date of the reorganization, subject to the earlier expiration upon the occurrence of certain extraordinary events. If the terms for exercise of the Warrants are not met before the applicable expiration date, then holders of the Company’s Existing Common Stock will receive only 3.1% of the New Common Stock and will not realize any value under the terms of the Warrants.

Table of Contents

The RSA may be terminated upon the occurrence of certain events, including the failure to meet specified milestones related to filing, confirmation and consummation of the Plan, among other requirements, and in the event of certain breaches by the parties under the RSA. The RSA timeline requires the Company to exit bankruptcy no later than November 7, 2015. There can be no assurance that a Restructuring Transaction will be consummated. The continuation of the Chapter 11 Cases, particularly if the Plan is not implemented within the time frame currently contemplated, could adversely affect operations and relationships between the Company and its customers and charterers, suppliers, vendors, service providers, and other creditors and result in increased professional fees and similar expenses. Failure to implement the Plan could further weaken the Company's liquidity position, which could jeopardize the Company's exit from Chapter 11.

Delisting from The Nasdaq Stock Market

On August 13, 2015, the Company received a letter from The Nasdaq Listing Qualifications Staff (the "Staff") stating that the Staff has determined that the Company's securities will be delisted from The Nasdaq Stock Market LLC ("Nasdaq"). The decision was reached by the Staff under Nasdaq Listing Rules 5101, 5110(b) and IM-5101-1 following the Company's announcement that it filed the Bankruptcy Petitions.

The last day that the Company's common stock traded on the Nasdaq was August 21, 2015. On August 24, 2015, the Company's common stock began trading on the OTC Market Group Inc.'s OTC Pink market.

Accounting Guidance

In connection with filing Chapter 11 on August 13, 2015, the Company was subject to the requirements of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 852, Reorganizations, ("ASC 852"). ASC 852 generally does not change the manner in which financial statements are prepared. However, it does require that the financial statements for periods subsequent to the filing of the Chapter 11 Cases distinguish transactions and events that are directly associated with the reorganization from the ongoing operations of the business. Revenues, expenses, realized gains and losses, and provisions for losses that can be directly associated with the reorganization of the business must be reported separately as reorganization items in the consolidated statements of operations beginning in the quarter ending September 30, 2015. The balance sheet shall distinguish pre-petition liabilities subject to compromise from those that are not and post-petition liabilities. Liabilities that may be affected by the plan of reorganization must be reported at the amounts expected to be allowed by the Bankruptcy Court, even if they may be settled for lesser amounts as a result of the plan of reorganization. See Note 4 for cash paid for reorganization items in the consolidated statements of cash flows.

In connection with the emergence from the Chapter 11 Cases, the Company believes it will qualify for fresh-start accounting. Upon adoption of fresh-start accounting, the Company's assets and liabilities will be recorded at their fair value as of the fresh-start reporting date or emergence date. The fair values of the Company's assets and liabilities as of that date may differ materially from the recorded values of its assets and liabilities as reflected in its historical consolidated financial statements. In addition, the Company's adoption of fresh-start accounting may materially affect its results of operations following the fresh-start reporting dates, as the Company will have a new basis in its assets and liabilities. Consequently, the Company's historical financial statements are not reliable indicators of its financial condition and results of operations for any period after it adopts fresh-start accounting. The Company is in the process of evaluating the potential impact of the fresh-start accounting on its consolidated financial statements.

3. Liabilities Subject to Compromise

As a result of the filing of the Prepackaged Case on August 13, 2015, the payment of pre-petition indebtedness is subject to compromise or other treatment under the Plan. On September 24, 2015, the Bankruptcy Court confirmed the Plan. Generally, actions to enforce or otherwise effect payment of pre-bankruptcy filing liabilities are stayed. Although payment of pre-petition claims generally is not permitted, the Court granted the Company authority to pay certain pre-petition claims in designated categories and subject to certain terms and conditions. This relief generally was designed to preserve the value of the Company's businesses and assets. Among other things, the Court authorized the Company to pay certain pre-petition claims relating to employee wages and benefits, customers, vendors, and suppliers in the ordinary course of business.

The Company has been paying and intends to continue to pay undisputed post-petition claims in the ordinary course of business. With respect to pre-petition claims, the Company has notified all known claimants of the deadline to file a

proof of claim with the Court, which deadline has passed. The Company's liabilities subject to compromise represent the Company's current estimate of claims expected to be allowed under the Plan. Pre-petition liabilities that are subject to compromise are required to be reported at the amounts expected to be allowed, even if they may be settled for lesser amounts.

7

Table of Contents

The following table reflects pre-petition liabilities that are subject to compromise:

	September 30, 2015 (in thousands)
8.75% Senior Notes, due July 2021	\$400,000
7.5% Senior Notes, due October 2021	300,000
6.75% Senior Notes, due April 2022	300,000
10.25% Senior Notes, due April 2019	200,000
3.375% Convertible Senior Notes, due June 2038	7,565
7.375% Senior Notes, due April 2018	3,508
Accrued Interest	43,772
Liabilities Subject to Compromise	\$1,254,845

4. Reorganization Items

Reorganization items represent amounts incurred subsequent to the bankruptcy filing as a direct result of the filing of the Chapter 11 Cases and are comprised of the following:

	For the Three and Nine Months Ended September 30, 2015 (in thousands)
Professional Fees Incurred	\$2,774
Non-Cash Expense for Write-off of Debt Issuance Costs Related to Senior Notes (a)	11,535
Reorganization Items	\$14,309

(a) The carrying value of debt that is subject to compromise was adjusted to include the related unamortized debt issuance costs; this adjusted debt amount was compared to the probable amount of claim allowed, which resulted in a non-cash expense of \$11.5 million.

For the nine months ended September 30, 2015, cash payments for reorganization items totaled \$0.7 million.

	September 30, 2015	December 31, 2014
	(in thousands)	
Other Current Liabilities:		
Deferred Revenue - Current Portion	\$1,532	\$9,439
Other	6,788	3,967
	\$8,320	\$13,406

7. Earnings Per Share

The Company calculates basic earnings per share by dividing net income (loss) by the weighted average number of shares outstanding. Diluted earnings per share is computed by dividing net income by the weighted average number of shares outstanding during the period as adjusted for the dilutive effect of the Company's stock options, time-based restricted stock and performance-based restricted stock awards. The effect of stock option and restricted stock awards is not included in the computation for periods in which a net loss occurs, because to do so would be anti-dilutive. The Company's diluted earnings per share calculation for the three and nine months ended September 30, 2015 excludes 5.4 million and 5.9 million stock equivalents, respectively, and for the three and nine months ended September 30, 2014 excludes 6.8 million and 6.7 million stock equivalents, respectively, that would have potentially been included if the Company had generated net income for the respective period but are excluded as the Company generated a net loss for the respective period.

Table of Contents

8. Dispositions

From time to time the Company enters into agreements to sell assets. The following table provides information related to the sale of several of the Company's assets, excluding other miscellaneous asset sales that occur in the normal course of business, during the nine months ended September 30, 2015 and 2014.

Asset	Segment	Period of Sale	Proceeds (in thousands)	Gain/(Loss)	
2015:

(c) These gains (losses) are included in Operating Expenses on the Consolidated Statements of Operations for the three and nine months ended September 30, 2014.

Table of Contents

9. Debt

Debt Subject to Compromise

In connection with the Chapter 11 filing, the Debtors opted to conserve cash and not to make certain interest payments due on July 15, 2015 on the Company's 8.75% Senior Notes. The aggregate amount of those interest payments was \$17.5 million.

The Chapter 11 filing constituted an event of default with respect to the Company's debt obligations. As a result of the filing of the Chapter 11 Cases, the Company's pre-petition unsecured long-term debt and related accrued interest are included in Liabilities Subject to Compromise in the Condensed Consolidated Balance Sheet as of September 30, 2015 (See Notes 2 and 3). Additionally, the Company incurred a non-cash charge to write off the unamortized debt issuance costs related to the Company's indebtedness (See Note 4).

Contractual interest expense represents amounts due under the contractual terms of outstanding debt, including debt subject to compromise. For the period from August 14, 2015 through September 30, 2015 contractual interest expense related to liabilities subject to compromise of \$12.9 million has not been recorded, as it is not expected to be an allowed claim under the Chapter 11 Cases.

Senior Secured Credit Agreement

On April 3, 2012, the Company entered into a credit agreement which as amended on July 8, 2013 (the "Credit Agreement") governed its senior secured revolving credit facility (the "Credit Facility"). The Credit Agreement provided for a \$150.0 million senior secured revolving credit facility.

In connection with the RSA, the Company terminated the Credit Facility effective June 22, 2015. There were no amounts outstanding and no letters of credit issued under the Credit Facility at that time. Liens on the Company's vessels that secured the Credit Facility have been released. The Company maintained compliance with all covenants under the Credit Facility through the termination date and has paid all fees in full. In connection with the termination of the Credit Facility, the Company incurred a pretax charge of \$1.9 million related to the write-off of unamortized debt issuance costs and professional fees associated with the termination.

Retirement of 7.125% Senior Secured Notes

In 2012, the Company issued \$300.0 million of senior secured notes at a coupon rate of 7.125% ("7.125% Senior Secured Notes") with maturity in April 2017. On March 12, 2014 the Company commenced a cash tender offer (the "Tender offer") for any and all of the \$300.0 million outstanding aggregate principal amount of its 7.125% Senior Secured Notes. Senior secured notes totaling approximately \$220.1 million were settled on March 26, 2014 for \$232.7 million using a portion of the proceeds from the \$300.0 million 6.75% Senior Notes due April 2022 ("6.75% Senior Notes") issued on March 26, 2014. Additionally, on April 29, 2014, the Company redeemed all \$79.9 million of the remaining outstanding 7.125% Senior Secured Notes for approximately \$84.2 million using the remaining net proceeds from the 6.75% Senior Notes offering, together with cash on hand.

Loss on Extinguishment of Debt

During the nine months ended September 30, 2014 and 2015, the Company incurred the following charges which are included in Loss on Extinguishment of Debt in the Consolidated Statement of Operations for their respective periods:

In March 2014, the Company incurred a pretax charge of \$15.2 million, consisting of a \$12.6 million call premium and \$1.4 million of unamortized debt issuance costs related to the redemption of the 7.125% Senior Secured Notes, as well as \$1.1 million of bank fees related to the issuance of the 6.75% Senior Notes;

In April 2014, the Company incurred a pretax charge of \$4.8 million consisting of a \$4.3 million call premium and \$0.5 million of unamortized debt issuance costs related to the redemption of the remaining 7.125% Senior Secured Notes; and

In June 2015, the Company incurred a pretax charge of \$1.9 million consisting of \$1.8 million of unamortized debt issuance costs and \$0.1 million of associated professional fees related to the termination of the Credit Facility.

Table of Contents

10. Fair Value Measurements

Fair value measurements are generally based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The Company uses the fair value hierarchy included in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820-10, Fair Value Measurements and Disclosure, which is intended to increase consistency and comparability in fair value measurements and related disclosures. The fair value hierarchy consists of the following three levels:

Level 1 — Inputs are quoted prices in active markets for identical assets or liabilities.

Level 2 — Inputs are quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable and market-corroborated inputs which are derived principally from or corroborated by observable market data.

Level 3 — Inputs are derived from valuation techniques in which one or more significant inputs or value drivers are unobservable.

The following table represents the Company's assets measured at fair value on a non-recurring basis for which an impairment measurement was made during the nine months ended September 30, 2014:

	Total Fair Value Measurement (in thousands)	Quoted Prices in Active Markets for Identical Asset or Liability (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Gain (Loss)
Property and Equipment, Net (a)	\$6,000	\$ —	\$ —	\$6,000	\$(82,507)

(a) This represents a non-recurring fair value measurement made at September 30, 2014 for Hercules 202, Hercules 204, Hercules 212 and Hercules 213.

The Company made the decision to remove the Hercules 202, Hercules 204, Hercules 212 and Hercules 213 from its marketable assets into its non-marketable assets as the Company does not reasonably expect to market these rigs in the foreseeable future. This decision resulted in a non-cash impairment charge of approximately \$82.5 million (\$82.5 million, net of tax), which is included in Asset Impairment on the Consolidated Statements of Operations for the three and nine months ended September 30, 2014, to write the rigs down to fair value based on a third party estimate. The financial information for these rigs has been reported as part of the Domestic Offshore segment.

Fair Value of Financial Instruments

The carrying amounts of the Company's financial instruments, which include cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities and other current liabilities, approximate fair values because of the short-term nature of the instruments. The fair value of the Company's cash equivalents are Level 1.

The fair value of the Company's 8.75% Senior Notes, 7.5% Senior Notes, 6.75% Senior Notes, 10.25% Senior Notes and 3.375% Convertible Senior Notes is estimated based on quoted prices in active markets. The fair value of the Company's 7.375% Senior Notes is estimated based on discounted cash flows using inputs from quoted prices in active markets for similar debt instruments. The inputs used to determine fair value are considered Level 2 inputs.

Table of Contents

The following table provides the carrying value and fair value of the Company's long-term debt instruments:

	Subject to Compromise September 30, 2015		Not Subject to Compromise December 31, 2014	
	Carrying Value	Fair Value	Carrying Value	Fair Value
	(in millions)			
8.75% Senior Notes, due July 2021	\$400.0	\$79.0	\$400.0	\$191.0

6.75% Senior Notes, due April 2022	300.0	61.5	300.0	132.8
10.25% Senior Notes, due April 2019	200.0	43.0	200.0	111.4
3.375% Convertible Senior Notes, due June 2038	7.6	6.6	7.4	6.5
7.375% Senior Notes, due April 2018	3.5	1.0	3.5	1.9

11. Long-Term Incentive Awards

Stock-based Compensation

The Company's 2014 Long-Term Incentive Plan (the "2014 Plan") provides for the granting of stock options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalents, performance awards and other stock-based awards to selected employees and non-employee directors of the Company. At September 30, 2015, approximately 6.8 million shares were available for grant or award under the 2014 Plan. The Company's 2004 Amended and Restated Long-Term Incentive Plan (the "2004 Plan") remains in effect only as it relates to outstanding awards previously granted under that plan.

During the nine months ended September 30, 2015, the Company granted the following equity awards:

Time-based awards — The Company granted 1.6 million time-based restricted stock awards to certain employees which vest 1/3 per year. The grant-date fair value per share for these time-based restricted stock awards is equal to the closing price of the Company's stock on the grant date, which was a weighted-average grant date fair value of \$0.55 for the awards granted in the nine months ended September 30, 2015.

Objective-based awards — The Company granted additional compensation awards to certain employees that are based on the Company's achievement of certain Company-based performance objectives as well as the Company's achievement of certain market-based objectives. These awards cliff vest three years from the date of grant and are payable in cash, subject to vesting requirements, after the completion of all performance periods with 20% of the award being achievable based on a one-year performance period, 30% being achievable based on a two-year performance period, and the remaining 50% being achievable based upon a three-year performance period. The CEO's award also contains an equity component that is earned, in addition to the cash, up to a total amount of 400,000 shares if minimum levels of performance are achieved. The fair value of all awards requiring share settlement is measured at the fair value on the grant date, while those requiring cash settlement are remeasured at the end of each reporting period.

The Company accounts for awards, or the portion of the awards, requiring cash settlement under stock-compensation principles of accounting as liability instruments. The fair value of all liability instruments are being remeasured based on the awards' estimated fair value at the end of each reporting period and are being recorded to expense over the vesting period.

The awards that are based on the Company's achievement of market-based objectives related to the Company's stock price performance as compared to certain peer groups as defined in the award agreements are valued using a Monte Carlo simulation. The Company uses various assumptions to estimate the fair value of the Company's objective-based awards. The Company uses the historical volatility of its common stock as well as that of certain peer groups as defined in the award agreements to estimate volatility while the dividend yield assumptions are based on historical and anticipated dividend payouts of the Company as well as that of certain peer groups as defined in the award agreements. The risk-free interest rate assumptions are based on observed interest rates consistent with the approximate vesting periods and the stock price used represents the closing price of the Company's common stock, as well as that of certain peer groups as defined in the award agreements, at the valuation date.

12. Income Taxes

The Company, directly or through its subsidiaries, files income tax returns in the United States, and multiple state and foreign jurisdictions. The Company's tax returns for 2008 through 2014 remain open for examination by the taxing authorities

Table of Contents

in the respective jurisdictions where those returns were filed. Although the Company believes that its estimates are reasonable, the final outcome in the event that the Company is subjected to an audit could be different from that which is reflected in its historical income tax provision and accruals. Such differences could have a material effect on the Company's income tax provision and net income in the period in which such determination is made. In addition, TODCO income tax obligations from periods prior to its initial public offering in 2004 are indemnified by Transocean, the former owner of TODCO, under the tax sharing agreement, except for the Trinidad and Tobago jurisdiction. The Company's Trinidadian and Tobago tax returns are open for examination for the years 2010 through 2014.

From time to time, the Company's tax returns are subject to review and examination by various tax authorities within the jurisdictions in which the Company operates or has operated. The Company is currently contesting tax assessments in Venezuela, and may contest future assessments where the Company believes the assessments are meritless.

In January 2014, the Federal Inland Revenue Service of Nigeria commenced an audit of calendar years 2007 through 2011, which was completed in the first quarter of 2015. In February 2015, the Company has been informed that 2012 and 2013 will be examined as well. While the Company cannot predict or provide assurance regarding the outcome of these proceedings, the Company does not expect the ultimate liability to have a material effect on its consolidated financial statements.

The Company recognized \$0.9 million of tax benefit during the nine months ended September 30, 2015 and \$0.9 million and \$5.7 million during the three and nine months ended September 30, 2014, respectively, as a result of the tolling of a statute of limitations in foreign jurisdictions.

13. Segments

The Company currently reports its business activities in three business segments: (1) Domestic Offshore, (2) International Offshore and (3) International Liftboats. The Company eliminates inter-segment revenue and expenses, if any.

The Company's jackup rigs are used primarily for exploration and development drilling in shallow waters. The Company's liftboats are self-propelled, self-elevating vessels with a large open deck space, which provides a versatile, mobile and stable platform to support a broad range of offshore maintenance and construction services throughout the life of an oil or natural gas well.

In November 2013, the Company entered into an agreement with Perisai Drilling Sdn Bhd ("Perisai") whereby the Company agreed to market, manage and operate two Pacific Class 400 design new-build jackup drilling rigs, Perisai Pacific 101 and Perisai Pacific 102 ("Perisai Agreement"). Pursuant to the terms of the agreement, the Company is reimbursed for all operating expenses and Perisai pays for all capital expenditures. The Company receives a daily management fee for the rig and a daily operational fee equal to 12% of the rig-based EBITDA, as defined in the Perisai Agreement. In August 2014, Perisai Pacific 101 commenced work on a three-year drilling contract in Malaysia. Perisai Pacific 102 was scheduled to be delivered by the shipyard by mid-2015. It is the Company's understanding that delivery has been delayed until no later than March 31, 2016.

Specific to the Perisai Agreement, the Company recognized the following results in its International Offshore segment:

	Three Months Ended September 30, 2015		Nine Months Ended September 30, 2015	
	2014	2015	2014	2015
	(in millions)

14. Commitments and Contingencies

Rig Construction Contract

In May 2014, the Company signed a rig construction contract with Jurong Shipyard Pte Ltd ("JSL") in Singapore to build a High Specification, Harsh Environment rig, Hercules Highlander, which is expected to be delivered in April 2016. The shipyard cost of the rig is estimated at approximately \$236 million. Including project management, spares, commissioning and other costs, total delivery cost is estimated at approximately \$270 million of which approximately \$215 million remains to be spent at September 30, 2015. The total delivery cost estimate excludes any customer specific outfitting that is reimbursable to the Company, costs to mobilize the rig to the first well, as well as capitalized interest. The Company paid \$23.6 million, or 10% of the shipyard cost, to JSL in May 2014 and made a second 10% payment in May 2015 with the final 80% of the shipyard payment due upon delivery of the rig.

Table of Contents

Legal Proceedings

The Company filed the Chapter 11 Cases to implement its restructuring pursuant to the Restructuring Support Agreement. While the filing of a bankruptcy petition automatically stays certain actions against the Company, including actions to collect pre-petition indebtedness or to exercise control over the property of its bankruptcy estates, the Company received an order from the Bankruptcy Court allowing it to pay all general claims in the ordinary course of business notwithstanding the commencement of the Chapter 11 Cases in a manner consistent with the Restructuring Support Agreement. The Plan confirmed in the Chapter 11 Cases provides for the treatment of claims against the Company's bankruptcy estates, including pre-petition liabilities that have not otherwise been satisfied or addressed during the Chapter 11 Cases.

The Company is involved in various claims and lawsuits in the normal course of business. As of September 30, 2015, management did not believe any accruals were necessary in accordance with FASB ASC 450-20, Contingencies — Loss Contingencies.

Say-on-Pay Litigation

In June 2011, two separate shareholder derivative actions were filed purportedly on the Company's behalf in response to its failure to receive a majority advisory "say-on-pay" vote in favor of the Company's 2010 executive compensation. On June 8, 2011, the first action was filed in the District Court of Harris County, Texas, and on June 23, 2011, the second action was filed in the United States Court for the District of Delaware. Subsequently, on July 21, 2011, the plaintiff in the Harris County action filed a concurrent action in the United States District Court for the Southern District of Texas. Each action named the Company as a nominal defendant and certain of its officers and directors, as well as the Company's Compensation Committee's consultant, as defendants. Plaintiffs allege that the Company's directors breached their fiduciary duty by approving excessive executive compensation for 2010, that the Compensation Committee consultant aided and abetted that breach of fiduciary duty, that the officer defendants were unjustly enriched by receiving the allegedly excessive compensation, and that the directors violated the federal securities laws by disseminating a materially false and misleading proxy. The plaintiffs seek damages in an unspecified amount on the Company's behalf from the officer and director defendants, certain corporate governance actions, and an award of their costs and attorney's fees. The Company and the other defendants have filed motions to dismiss these cases for failure to make demand upon the Company's board and for failing to state a claim. On June 11, 2012, the plaintiff in the Harris County action voluntarily dismissed his action. On March 14, 2013, the Company's and the other defendants' motions to dismiss the Delaware federal action were granted. The motions to dismiss the Texas federal action are pending.

The Company does not expect the ultimate outcome of the shareholder derivative lawsuit to have a material adverse effect on its consolidated results of operations, financial position or cash flows.

Hercules 265 Litigation

In January 2015, Cameron International Corporation ("Cameron"), and Axon Pressure Products, Inc. and Axon EP, Inc. (collectively "Axon") filed third-party complaints against the Company in a subrogation action that Walter Oil & Gas Corporation ("Walter") and its underwriters, together with Walter's working interest partners, Tana Exploration Company, LLC and Helis Oil & Gas Company, LLC, filed against Cameron and Axon, among others, to recover an undisclosed amount of damages relating to the well control incident at South Timbalier 220 involving the Hercules 265. In response to Cameron and Axon's third-party complaints, the Company filed counterclaims against Cameron and Axon pursuing contribution and related claims. Subsequently, Walter dismissed Cameron from the subrogation action. Separately, Cameron and Axon have filed answers and claims in a limitation of liability action that the Company filed relating to the incident. In response, the Company filed counterclaims against Axon and Cameron pursuing contribution and related claims. After Walter and the other plaintiffs in the subrogation matter recently dismissed Cameron, Hercules and Cameron mutually dismissed all claims against each other in both the limitation of liability and subrogation actions. The Company has tendered defense and indemnity to Walter for the remaining claims asserted by Axon and other costs and/or liabilities arising from the incident, pursuant to the terms of the drilling contract between the Company and Walter. Until such time as Walter accepts the tender, the Company will vigorously defend the claims.

Settlement of Contractual Dispute

In August 2015, the Company agreed to a settlement of a contractual dispute relating to the sale of certain of our assets in 2006, pursuant to which settlement the Company received \$5.2 million payment in October 2015. The Company and its subsidiaries are involved in a number of other lawsuits, all of which have arisen in the ordinary course of business. The Company does not believe that the ultimate liability, if any, resulting from any such other pending litigation will have a material adverse effect on its business or consolidated financial statements.

Table of Contents

The Company cannot predict with certainty the outcome or effect of any of the litigation matters specifically described above or of any other pending litigation. There can be no assurance that the Company's belief or expectations as to the outcome or effect of any lawsuit or other litigation matter will prove correct, and the eventual outcome of these matters could materially differ from management's current estimates.

Insurance and Indemnity

The Company maintains insurance coverage that includes coverage for physical damage, third-party liability, workers' compensation and employer's liability, general liability, vessel pollution and other coverages. Effective May 1, 2015, the Company completed the annual renewal of all of its key insurance policies. The Company's insurance policies typically consist of twelve-month policy periods, and the next renewal date for its insurance program is scheduled for May 1, 2016.

The Company's drilling contracts provide for varying levels of indemnification from its customers, including for well control and subsurface risks, and in most cases, may require the Company to indemnify its customers for certain liabilities. Under the Company's drilling contracts, liability with respect to personnel and property is customarily assigned on a "knock-for-knock" basis, which means that the Company and its customers assume liability for their respective personnel and property, regardless of how the loss or damage to the personnel and property may be caused, and even if the Company is grossly negligent. However, some of the Company's customers have been reluctant to extend their indemnity obligations in instances where the Company is grossly negligent. The Company's customers typically assume responsibility for and agree to indemnify the Company from any loss or liability resulting from pollution or contamination, including clean-up and removal and third-party damages arising from operations under the contract and originating below the surface of the water, including as a result of blowouts or cratering of the well ("Blowout Liability"). The customer's assumption for Blowout Liability may, in certain circumstances, be contractually limited or could be determined to be unenforceable in the event of the Company's gross negligence, willful misconduct or other egregious conduct. In addition, the Company may not be indemnified for statutory penalties and punitive damages relating to such pollution or contamination events. The Company generally indemnifies the customer for the consequences of spills of industrial waste or other liquids originating solely above the surface of the water and emanating from its rigs or vessels.

Control-of-well events generally include an unintended flow from the well that cannot be contained by equipment on site (e.g., a blow-out preventer), by increasing the weight of the drilling fluid, or that does not naturally close itself off through what is typically described as "bridging over". The Company carries a contractor's extra expense policy with \$50.0 million primary liability coverage for well control costs, pollution and expenses incurred to redrill wild or lost wells, with excess liability coverage up to \$200.0 million for pollution liability that is covered in the primary policy. Additionally, the Company carries a contractor's expense policy for the Hercules Triumph and Hercules Resilience with \$50.0 million primary liability coverage for well control costs, pollution and expenses incurred to redrill wild or lost wells, with excess coverage up to \$25.0 million for pollution liability that is covered in the primary policy. The policies are subject to exclusions, limitations, deductibles, self-insured retention and other conditions, including the requirement for Company gross negligence or willful misconduct.

Adequacy of Insurance Coverage

The Company is responsible for the deductible portion of its insurance coverage. Management believes adequate accruals have been made on known and estimated exposures up to the deductible portion of the Company's insurance coverage. Management believes that claims and liabilities in excess of the amounts accrued are adequately insured. However, the Company's insurance is subject to exclusions and limitations, and there is no assurance that such coverage will adequately protect the Company against liability from all potential consequences. In addition, there is no assurance of renewal or the ability to obtain coverage acceptable to the Company.

Hercules 265 Incident and Settlement of Property Damage Insurance Claim

In July 2013, the Company's jackup drilling rig Hercules 265, a 250' mat-supported cantilevered unit operating in the U.S. Gulf of Mexico Outer Continental Shelf lease block South Timbalier 220, experienced a well control incident. The rig sustained substantial damage in the incident and the Company's insurance underwriters determined that the rig was a constructive total loss. The cause of the incident is unknown but is under investigation. The Company has removal of wreck coverage for this incident up to a total amount of \$110.0 million. During the second quarter of 2014,

the Company received gross proceeds of \$9.1 million from the insurance underwriters as reimbursement for a portion of the wreck removal and related costs incurred and, used \$2.0 million to repurchase the Hercules 265 hull from the insurance underwriters. During the nine months ended September 30, 2015, the Company received an additional \$3.5 million in gross proceeds from the insurance underwriters as reimbursement for a portion of the wreck removal and related costs incurred to date. The Company and its insurance

Table of Contents

underwriters continue to negotiate the insurance recovery amounts for costs related to the salvage of the rig and certain other insured losses.

Sales and Use Tax Audits

Certain of the Company's legal entities are under audit by various taxing authorities for several prior-year periods. These audits are ongoing and the Company is working to resolve all relevant issues. The Company has an accrual of \$9.7 million and \$6.3 million related to these sales and use tax matters, which is included in Accrued Liabilities on the Consolidated Balance Sheets as of September 30, 2015 and December 31, 2014, respectively.

15. Accounting Pronouncements

In April 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-08, Presentation of Financial Statements and Property, Plant, and Equipment: Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The amendments in this ASU require that a disposal representing a strategic shift that has (or will have) a major effect on an entity's operations and financial results should be reported as discontinued operations. The amendments also expand the disclosure requirements for discontinued operations and add new disclosures for disposals of a significant part of an organization that does not qualify as discontinued operations. The amendments in this ASU are effective prospectively for annual periods beginning on or after December 15, 2014, and interim periods within those years. The Company adopted ASU 2014-08 as of January 1, 2015 with no material impact on its consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific guidance. This ASU is based on the principle that revenue is recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. Adoption is permitted under the ASU using either a full or modified retrospective application approach. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, which defers the effective date of ASU No. 2014-09 for all entities by one year and makes it effective for public entities to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Early application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is in the process of evaluating the impact on its consolidated financial statements.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements - Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. This ASU provides guidance on management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and in certain circumstances to provide related footnote disclosures. The ASU is effective for the annual period ending after December 15, 2016, and for annual and interim periods thereafter. Early adoption is permitted. The Company does not expect the adoption of this standard to have a material impact on its consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. The amendments in this ASU require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. The ASU is effective for financial statements issued for fiscal years beginning after December 15, 2015 and interim periods within those fiscal years using a retrospective approach, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. Early adoption is permitted for financial statements that have not been previously issued. The Company does not expect the adoption of this standard to have a material impact on its consolidated financial statements.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the accompanying unaudited consolidated financial statements as of September 30, 2015 and for the three and nine months ended September 30, 2015 and September 30, 2014, included elsewhere herein, and with our Annual Report on Form 10-K for the year ended December 31, 2014. The following discussion and analysis contains forward-looking statements that involve risks and uncertainties. Please read "Forward-Looking Statements" below for a discussion of certain limitations inherent in such statements. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors. Please also read "Risk Factors" in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014, Item 1A of Part II of our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2015 and June 30, 2015 and Item 1A of Part II of this quarterly report for a discussion of certain risks facing our company.

OVERVIEW

We are a leading provider of shallow-water drilling and marine services to the oil and natural gas exploration and production industry globally. We provide these services to national oil and gas companies, major integrated energy companies and independent oil and natural gas operators. As of October 27, 2015, we operated a fleet of 27 jackup rigs, including one rig under construction, and 19 liftboat vessels. Our diverse fleet is capable of providing services such as oil and gas exploration and development drilling, well service, platform inspection, maintenance and decommissioning operations in several key shallow-water provinces around the world.

Our drilling rigs are used primarily for exploration and development drilling in shallow waters. Under most of our contracts, we are paid a fixed daily rental rate called a "dayrate," and we are required to pay all costs associated with our own crews as well as the upkeep and insurance of the rig and equipment.

Our liftboats are self-propelled, self-elevating vessels with a large open deck space, which provides a versatile, mobile and stable platform to support a broad range of offshore maintenance and construction services throughout the life of an oil or natural gas well. Under most of our liftboat contracts, we are paid a fixed dayrate for the rental of the vessel, which typically includes the costs of a small crew of five to ten employees, and we also receive a variable rate for reimbursement of other operating costs such as catering, rental equipment and other items.

Going Concern

The unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q have been prepared assuming that we will continue as a going concern and contemplate the realization of assets and the satisfaction of liabilities in the ordinary course of business. Our ability to continue as a going concern, however, is contingent upon, among other factors, the Debtors' ability to satisfy the remaining conditions to effectiveness contemplated under the Plan and to implement such plan of reorganization, including obtaining any exit financing. As a result of the Bankruptcy Case, the realization of assets and the satisfaction of liabilities are subject to uncertainty. While operating as debtors-in-possession under Chapter 11, the Debtors may sell or liquidate assets, or settle liabilities, subject to the approval of the Bankruptcy Court or as otherwise permitted in the ordinary course of business, for amounts other than those reflected in the accompanying unaudited consolidated financial statements. The reorganization could materially change the amounts and classifications of assets and liabilities reported in the unaudited consolidated financial statements. Additionally, the unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities or any other adjustments that might be necessary if we are unable to continue as a going concern or as a consequence of the Bankruptcy Case.

Bankruptcy and Related Events

On June 17, 2015, Hercules Offshore, Inc. and certain of its U.S. domestic direct and indirect subsidiaries (together with Hercules Offshore, Inc., the "Debtors") entered into an agreement (the "Restructuring Support Agreement" or "RSA") with certain holders (the "Steering Group Members") collectively owning or controlling in excess of 66 2/3% of the aggregate outstanding principal amount of the Company's 10.25% senior notes due 2019, 8.75% senior notes due 2021, 7.5% senior notes due 2021 and 6.75% senior notes due 2022 (the "Outstanding Senior Notes").

The RSA set forth, subject to certain conditions, the commitment to and obligations of, on the one hand, the Debtors, and on the other hand, the Steering Group Members (and any successors or permitted assigns that become party thereto) in connection with a restructuring of the Outstanding Senior Notes, the Company's 3.375% convertible senior notes due 2038 (the "Convertible Notes"), the Company's 7.375% senior notes due 2018 (the "Legacy Notes") (collectively all the "Outstanding Notes") and the Company's common stock, par value \$0.01 per share (the "Existing Common Stock") (the "Restructuring Transaction") pursuant to a pre-packaged or pre-negotiated plan of reorganization (the "Plan") filed under Chapter 11 ("Chapter 11") of the United States Bankruptcy Code.

Table of Contents

The entry into the RSA or the matters contemplated thereby may have been deemed to have constituted an event of default with respect to the Credit Facility and the Outstanding Notes. In connection with the RSA, we terminated our Credit Facility effective June 22, 2015. There were no amounts outstanding and no letters of credit issued under the Credit Facility at that time. The obligations under the Credit Facility were jointly and severally guaranteed by substantially all of our domestic subsidiaries. Liens on our vessels that secured the Credit Facility have been released. We maintained compliance with all covenants under the Credit Facility through the termination date and have paid all fees in full.

On August 13, 2015, the Debtors filed voluntary petitions (the "Bankruptcy Petitions") for reorganization ("Chapter 11 Cases") under Chapter 11 of the United States Bankruptcy Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the District of Delaware (the "Court"). Through the Chapter 11 Cases, the Debtors seek to implement the Plan in accordance with the RSA that the Debtors entered into with the Steering Group Members. The Chapter 11 Cases are being jointly administered under the caption In re: Hercules Offshore, Inc., et al (Case No. 15-11685). Our foreign subsidiaries and one U.S. domestic subsidiary ("Non-Filing Entities") were not party to the Bankruptcy filing. Since the petition date, the Debtors have operated their business as "debtors-in-possession" under the jurisdiction of the Court and in accordance with applicable provisions of the Bankruptcy Code and orders of the Court. Under the Chapter 11 Cases, which required Court approval, our trade creditors and vendors are being paid in full in the ordinary course of business, and all of our contracts have remained in effect in accordance with their terms preserving the rights of all parties. The Non-Filing Entities have continued to operate in the ordinary course of business.

The filing of the Chapter 11 Cases constituted an event of default with respect to our Outstanding Notes. Pursuant to the Bankruptcy Code, the filing of the Bankruptcy Petitions automatically stayed most actions against the Debtors, including most actions to collect indebtedness incurred prior to the filing of the Bankruptcy Petitions or to exercise control over the Debtors' property. Accordingly, although the Bankruptcy Petitions triggered defaults under the Outstanding Notes, creditors are generally stayed from taking action as a result of these defaults.

On September 24, 2015, the Bankruptcy Court entered an order confirming the Plan (the "Confirmation Order") and such order became final on October 8, 2015. The Debtors plan to emerge from Chapter 11 after satisfying the remaining conditions to effectiveness contemplated under the Plan.

Pursuant to the terms of the RSA, the Steering Group Members agreed, among other things, and subject to certain conditions: (a) not to support any restructuring, reorganization, plan or sale process that is inconsistent with the RSA, and (b) not to instruct an agent or indenture trustee for any of the Outstanding Notes to take any action that is inconsistent with the terms and conditions of the RSA, including, without limitation, the declaration of an event of default, or acceleration of the Outstanding Notes arising from, relating to, or in connection with the execution of the RSA; and at the request of the Company, to waive or agree to forbear from exercising any right to take action in respect of any default or acceleration that may occur automatically without action of any as a result of the operation of the indentures governing the Outstanding Notes.

We have agreed, among other things, and subject to certain conditions: (a) to take no action that is materially inconsistent with the RSA, the Term Sheet or the Plan; and (b) not to support any alternative plan or transaction other than the Plan.

The Plan contemplates that the Debtors will reorganize as a going concern and continue their day-to-day operations substantially as currently conducted. Specifically, the material terms of the Plan are expected to effect, among other things, subject to certain conditions and as more particularly set forth in the Plan, upon the effective date of the Plan, a substantial reduction in the Debtors' funded debt obligations (including \$1.2 billion of face amount of the Outstanding Notes). Certain principal terms of the Plan are outlined below.

- New capital raise of first lien debt with a maturity of 4.5 years and bearing interest at LIBOR plus 9.5% per annum (1.0% LIBOR Floor), payable in cash, issued at a price equal to 97% of the principal amount. The first lien debt will consist of \$450 million for general corporate use and to finance the remaining construction cost of our newbuild rig, the Hercules Highlander, and will be guaranteed by substantially all of our U.S. domestic and international subsidiaries and secured by liens on substantially all of our domestic and foreign assets. The first lien debt will include financial covenants and other terms and conditions.

•Exchange of the Outstanding Notes for 96.9% of our common stock issued in the reorganization (“New Common Stock”).

If the Plan is consummated as contemplated, holders of our Existing Common Stock will receive 3.1% of the New Common Stock and will also receive warrants to purchase New Common Stock on a pro rata basis (the “Warrants”). The Warrants are exercisable at any time until their expiration date for a per share price based upon a \$1.55 billion total enterprise value. The expiration date for the Warrants will be six years from the effective date of the reorganization, subject to the earlier expiration upon the occurrence of certain extraordinary events. If the terms for exercise of the Warrants are not met before the applicable expiration date, then holders of our Existing Common Stock will receive only 3.1% of the New Common Stock and will not realize any value under the terms of the Warrants.

Table of Contents

The RSA may be terminated upon the occurrence of certain events, including the failure to meet specified milestones related to filing, confirmation and consummation of the Plan, among other requirements, and in the event of certain breaches by the parties under the RSA. The RSA timeline requires us to exit bankruptcy no later than November 7, 2015. There can be no assurance that a Restructuring Transaction will be consummated. The continuation of the Chapter 11 Cases, particularly if the Plan is not implemented within the time frame currently contemplated, could adversely affect operations and relationships between us and our customers and charterers, suppliers, vendors, service providers, and other creditors and result in increased professional fees and similar expenses. Failure to implement the Plan could further weaken our liquidity position, which could jeopardize our exit from Chapter 11.

Delisting from The Nasdaq Stock Market

On August 13, 2015, we received a letter from The Nasdaq Listing Qualifications Staff (the "Staff") stating that the Staff has determined that our securities will be delisted from The Nasdaq Stock Market LLC ("Nasdaq"). The decision was reached by the Staff under Nasdaq Listing Rules 5101, 5110(b) and IM-5101-1 following our announcement that we filed the Bankruptcy Petitions.

The last day that our common stock traded on the Nasdaq was August 21, 2015. On August 24, 2015, our common stock began trading on the OTC Market Group Inc.'s OTC Pink market.

Accounting Guidance

In connection with filing Chapter 11 on August 13, 2015, we were subject to the requirements of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 852, Reorganizations, ("ASC 852"). ASC 852 generally does not change the manner in which financial statements are prepared. However, it does require that the financial statements for periods subsequent to the filing of the Chapter 11 Cases distinguish transactions and events that are directly associated with the reorganization from the ongoing operations of the business. Revenues, expenses, realized gains and losses, and provisions for losses that can be directly associated with the reorganization of the business must be reported separately as reorganization items in the consolidated statements of operations beginning in the quarter ending September 30, 2015. The balance sheet shall distinguish pre-petition liabilities subject to compromise from those that are not and post-petition liabilities. Liabilities that may be affected by the plan of reorganization must be reported at the amounts expected to be allowed by the Bankruptcy Court, even if they may be settled for lesser amounts as a result of the plan of reorganization.

In connection with the emergence from the Chapter 11 Cases, we believe we will qualify for fresh-start accounting. Upon adoption of fresh-start accounting, our assets and liabilities will be recorded at their fair value as of the fresh-start reporting date or emergence date. The fair values of our assets and liabilities as of that date may differ materially from the recorded values of our assets and liabilities as reflected in our historical consolidated financial statements. In addition, our adoption of fresh-start accounting may materially affect our results of operations following the fresh-start reporting dates, as we will have a new basis in our assets and liabilities. Consequently, our historical financial statements are not reliable indicators of our financial condition and results of operations for any period after we adopt fresh-start accounting. We are in the process of evaluating the potential impact of the fresh-start accounting on our consolidated financial statements.

Dayrate Reductions

On February 25, 2015, we received a notice from Saudi Aramco terminating for convenience our drilling contract for the Hercules 261, effective on or about March 27, 2015. We received subsequent notices from Saudi Aramco extending the effective date of termination to May 31, 2015. On June 1, 2015, we received notice from Saudi Aramco reinstating the drilling contract on the Hercules 261, in exchange for dayrate concessions on the Hercules 261, Hercules 262 and Hercules 266 from their existing contracted rates to \$67,000 per day. These reduced dayrates are effective retroactively from January 1, 2015 through December 31, 2016 for the Hercules 261 and Hercules 262, and through the remaining contract term for the Hercules 266.

Table of Contents**Drilling Contract Award and Rig Construction Contract**

In May 2014, we signed a five-year drilling contract with Maersk Oil North Sea UK Limited ("Maersk") for a newbuild jackup rig, Hercules Highlander, we will own and operate. Contract commencement is expected in mid-2016. In support of the drilling contract, in May 2014, we signed a rig construction contract with Jurong Shipyard Pte Ltd ("JSL") in Singapore. This High Specification, Harsh Environment newbuild rig is based on the Friede & Goldman JU-2000E design, with a 400 foot water depth rating and enhancements that will provide for greater load-bearing capabilities and operational flexibility. The shipyard cost of the rig is estimated at approximately \$236 million. Including project management, spares, commissioning and other costs, total delivery cost is estimated at approximately \$270 million, of which approximately \$215 million remains to be spent at September 30, 2015. The total delivery cost estimate excludes any customer specific outfitting that is reimbursable to us, costs to mobilize the rig to the first well, as well as capitalized interest. We paid \$23.6 million, or 10% of the shipyard cost, to JSL in May 2014 and made a second 10% payment in May 2015 with the final 80% of the shipyard payment due upon delivery of the rig, which is expected to be in April 2016.

Perisai Management Contract

In November 2013, we entered into an agreement with Perisai Drilling Sdn Bhd ("Perisai") whereby we agreed to market, manage and operate two Pacific Class 400 design new-build jackup drilling rigs, Perisai Pacific 101 and Perisai Pacific 102 ("Perisai Agreement"). Pursuant to the terms of the agreement, Hercules is reimbursed for all operating expenses and Perisai pays for all capital expenditures. We receive a daily management fee for the rig and a daily operational fee equal to 12% of the rig-based EBITDA, as defined in the Perisai Agreement. In August 2014, Perisai Pacific 101 commenced work on a three-year drilling contract in Malaysia. Perisai Pacific 102 was scheduled to be delivered by the shipyard by mid-2015. It is our understanding that delivery has been delayed until no later than March 31, 2016.

Specific to the Perisai Agreement, we recognized the following results in our International Offshore segment:

	Three Months Ended		Nine Months Ended	
	September 30,		September	
	2015	2014	2015	2014
	(in millions)			
Revenue	\$3.1	\$3.5	\$10.2	\$7.5
Operating Expenses	1.5	2.1	5.8	5.1

Contract Backlog

Our backlog at October 27, 2015, totaled approximately \$870.5 million for our executed contracts, including the Maersk contract for the newbuild jackup rig, Hercules Highlander. Approximately \$26.8 million of this estimated backlog is expected to be realized during the remainder of 2015. We calculate our estimated contract revenue backlog, or future contracted revenue, as the contract dayrate multiplied by the number of days remaining on the contract, assuming full utilization, less any penalties or reductions in dayrate for late delivery or non-compliance with contractual obligations. Backlog excludes revenue for management agreements, mobilization, demobilization, contract preparation and customer reimbursables. The amount of actual revenue earned and the actual periods during which revenue is earned will be different than the backlog disclosed or expected due to various factors. Downtime due to various operational factors, including unscheduled repairs, maintenance, operational delays, health, safety and environmental incidents, weather events in the Gulf of Mexico and elsewhere and other factors (some of which are beyond our control), may result in lower actual revenue than the full contractual operating dayrate. In some of the contracts, our customer has the right to terminate the contract without penalty and in certain instances, with little or no notice.

Regulation

In the aftermath of the Macondo well blowout incident in April 2010, the Bureau of Safety and Environmental Enforcement and the Bureau of Ocean Energy Management have proposed and implemented regulations and requirements that add safety measures, increase permit scrutiny and add other requirements and policies such as contractor sanctions that could materially increase the cost of offshore drilling in the U.S. Gulf of Mexico.

Restrictions on oil and gas development and production activities in the U.S. Gulf of Mexico, and the promulgation of

Notices to Lessees have impacted and may continue to impact our operations. In addition, the federal government has considered legislation that could impose additional equipment and safety requirements on operators and drilling contractors in the U.S. Gulf of Mexico as well as regulations relating to the protection of the environment, all of which could materially adversely affect our financial condition and results of operations.

Table of Contents

RESULTS OF OPERATIONS

The following table sets forth financial information by operating segment and other selected information for the periods indicated:

	Three Months Ended September 30,		Change	% Change	
	2015	2014			
	(Dollars in thousands)				
Domestic Offshore:					
Number of rigs (as of end of period)	18	24			
Revenue	\$27,462	\$123,320	\$(95,858)) (77.7)%

Table of Contents

The following table sets forth selected operational data by operating segment for the periods indicated:

Three Months Ended September 30, 2015

	Operating Days	Available Days	Utilization(1)	Average Revenue per Day(2)	Average Operating Expense per Day(3)
Domestic Offshore	361	828	43.6	% \$76,072	\$33,169
International Offshore	365	736	49.6	% 87,488	43,970
International Liftboats	703	1,857	37.9	% 20,496	7,078

Three Months Ended September 30, 2014

	Operating Days	Available Days	Utilization(1)	Average Revenue per Day(2)	Average Operating Expense per Day(3)
Domestic Offshore	1,133	1,656	68.4	% \$108,844	\$39,708
International Offshore	485	736	65.9	% 153,025	83,666
International Liftboats	997	2,116	47.1	% 24,420	8,961

Utilization is defined as the total number of days our rigs or liftboats, as applicable, were under contract, known as operating days, in the period as a percentage of the total number of available days in the period. Days during which our rigs and liftboats were undergoing major refurbishments, upgrades or construction, and days during which our rigs and liftboats are cold stacked, are not counted as available days. Days during which our liftboats are in the shipyard undergoing drydocking or inspection are considered available days for the purposes of calculating utilization.

(1) Average revenue per rig or liftboat per day is defined as revenue earned by our rigs or liftboats, as applicable, in the period divided by the total number of operating days for our rigs or liftboats, as applicable, in the period.

(2) Average operating expense per rig or liftboat per day is defined as operating expenses, excluding depreciation and amortization, incurred by our rigs or liftboats, as applicable, in the period divided by the total number of available days in the period. We use available days to calculate average operating expense per rig or liftboat per day rather than operating days, which are used to calculate average revenue per rig or liftboat per day, because we incur operating expenses on our rigs and liftboats even when they are not under contract and earning a dayrate.

For the Three Months Ended September 30, 2015 and 2014

Revenue

Consolidated. The decrease in consolidated revenue is described below.

Domestic Offshore. Revenue decreased for our Domestic Offshore segment primarily as a result of a decline in operating days due to lower demand in the Current Quarter as compared to the Comparable Quarter, which contributed to a decrease of approximately \$59 million. Additionally, our Domestic Offshore segment realized lower average dayrates in the Current Quarter as compared to the Comparable Quarter, which contributed to a decrease in revenue of approximately \$37 million.

International Offshore. Revenue for our International Offshore segment decreased due to the following:

\$15.6 million decrease from Hercules Triumph primarily due to the rig being ready stacked in the Current Quarter;

\$12.8 million decrease from Hercules 208 primarily due to the rig being warm stacked in the Current Quarter;

\$15.6 million decrease from Hercules Resilience primarily due to the rig being ready stacked in the Current Quarter;

and

\$5.4 million decrease from Hercules 266 primarily due to a reduced dayrate in the Current Quarter as compared to the Comparable Quarter; partially offset by

\$8.6 million increase from Hercules 260 due to the rig working in the Current Quarter compared to being ready stacked in the Comparable Quarter.

International Liftboats. The decrease in revenue from our International Liftboats segment resulted from a decline in operating days and lower average revenue per vessel per day in the Current Quarter as compared to the Comparable Quarter, contributing a decrease in revenue of approximately \$6.0 million and \$3.9 million, respectively.

Table of Contents

Operating Expenses

Consolidated. The decrease in consolidated operating expenses is described below.

Domestic Offshore. The decrease in operating expenses for our Domestic Offshore segment is primarily due to the following:

\$24.8 million decrease in labor costs in the Current Quarter as compared to the Comparable Quarter;

\$8.9 million decrease in repairs and maintenance expense in the Current Quarter as compared to the Comparable Quarter;

\$3.5 million decrease to insurance costs;

\$2.1 million decrease to catering expenses; partially offset by

\$5.2 million gain on the sale of Hercules 2500 and Hercules 2003 in the Comparable Quarter.

International Offshore. The decrease in operating expenses for our International Offshore segment is primarily due to the following:

\$10.0 million decrease from Hercules Resilience primarily due to the rig being ready stacked during the Current Quarter;

\$5.6 million decrease from Hercules 208 due to the rig being warm stacked during the Current Quarter;

\$5.7 million decrease from Hercules 267 primarily due to the rig being warm stacked during the Current Quarter as compared to being in the shipyard for repairs and maintenance a portion of the Comparable Quarter;

\$3.8 million decrease from Hercules 261 largely due to cost reductions in the Current Quarter and amortization of deferred contract preparation costs in the Comparable Quarter;

\$2.0 million decrease from Hercules 262 primarily due to cost reductions in the Current Quarter as compared to the Comparable Quarter and amortization of deferred contract preparation costs in the Comparable Quarter;

\$3.3 million decrease from Hercules Triumph primarily due to the rig being ready stacked during the Current Quarter; partially offset by

\$3.6 million increase from Hercules 260 primarily due to the rig working in the Current Quarter compared to being ready stacked in the Comparable Quarter.

International Liftboats. The decrease in operating expenses for our International Liftboats segment is largely due to a decrease in labor costs, equipment rental expenses and contract labor costs in the Current Quarter as Compared to the Comparable Quarter of \$1.5 million, \$1.1 million and \$0.8 million, respectively.

Asset Impairment

During the Comparable Quarter, we recorded a non-cash asset impairment charge of \$82.5 million in our Domestic Drilling segment to write-down the Hercules 202, Hercules 204, Hercules 212 and Hercules 213 to fair value.

Depreciation and Amortization

The decrease in depreciation and amortization is largely due to the rigs impaired in 2014, contributing a \$7.6 million decrease in the Current Quarter as compared to the Comparable Quarter.

General and Administrative Expenses

The increase in general and administrative expenses is primarily related to a \$7.7 million increase in legal and professional fees, primarily due to certain costs in Corporate related to financing and restructuring activities, during the Current Quarter as compared to the Comparable Quarter. Additionally, bad debt expense increased \$6.9 million primarily due to a \$7.6 million provision in our International Liftboats segment in the Current Quarter. These increases are partially offset by a decrease in travel expenses of \$0.6 million in the Current Quarter as compared to the Comparable Quarter and a decrease in Corporate labor costs of \$1.6 million in the Current Quarter as compared to the Comparable Quarter.

Interest Expense

The decrease in interest expense is primarily due to the suspension of interest on our debt subsequent to the Chapter 11 filing.

Reorganization Items

After filing the Chapter 11 cases on August 13, 2015, we incurred \$2.8 million during the Current Quarter of post-petition professional fees associated with the bankruptcy cases. Additionally, we incurred a non-cash charge of \$11.5 million to write-off unamortized debt issuance costs associated with the indebtedness expected to be an allowed

claim under Chapter 11.

27

Table of Contents

Income Tax Provision

During the Current Quarter we generated an income tax provision of \$1.1 million compared to an income tax benefit of \$7.7 million in the Comparable Quarter. The change is primarily related to the tax effect of the mix of earnings (losses) from foreign jurisdictions.

The following table sets forth financial information by operating segment and other selected information for the periods indicated:

	Nine Months Ended September 30,			
	2015	2014	Change	% Change
	(Dollars in thousands)

For the Nine Months Ended September 30, 2015 and 2014

Revenue

Consolidated. The decrease in consolidated revenue is described below.

Domestic Offshore. Revenue decreased for our Domestic Offshore segment primarily as a result of a decline in operating days due to lower demand in the Current Period as compared to the Comparable Period, which contributed to a decrease of approximately \$222 million. Additionally, our Domestic Offshore segment realized lower average dayrates in the Current Period as compared to the Comparable Period, which contributed to a decrease in revenue of approximately \$65 million.

International Offshore. Revenue for our International Offshore segment decreased due to the following:

- \$55.5 million decrease from Hercules Triumph due to the rig not working in the Current Period as it was in the shipyard a portion of the Current Period preparing for North Sea operations and ready stacked the remainder of the Current Period;
- \$28.6 million decrease from Hercules Resilience due to the rig being ready stacked during the Current Period;
- \$15.9 million decrease from Hercules 266 primarily due to a reduction in dayrate during the Current Period;
- \$20.4 million decrease from Hercules 208 primarily due to lower utilization in the Current Period as compared to the Comparable Period; and
- \$7.8 million decrease from Hercules 262 primarily due to \$2.5 million of mobilization revenue in the Comparable Period as well as fewer operating days and a reduction in dayrate in the Current Period.

International Liftboats. The decrease in revenue from our International Liftboats segment resulted primarily from a decline in operating days and lower average revenue per vessel per day, contributing to a decrease in revenue of approximately \$20 million and \$14 million, respectively.

Operating Expenses

Consolidated. The decrease in consolidated operating expenses is described below.

Domestic Offshore. The decrease in operating expenses for our Domestic Offshore segment is primarily due to the following:

- \$65.0 million decrease in labor costs in the Current Period as compared to the Comparable Period;
- \$27.9 million decrease to repairs and maintenance expenses in the Current Period as compared to the Comparable Period;
- \$1.9 million decrease to state sales and use taxes in the Current Period as compared to the Comparable Period;
- \$7.2 million decrease to insurance costs in the Current Period as compared to the Comparable Period;
- \$6.1 million decrease to workers' compensation expense in the Current Period as compared to the Comparable Period;

\$6.2 million decrease to catering costs in the Current Period as compared to the Comparable Period;
\$2.9 million decrease to fuel and oil costs in the Current Period as compared to the Comparable Period;

Table of Contents

\$2.4 million decrease to contract labor costs in the Current Period as compared to the Comparable Period; partially offset by

\$2.7 million net loss on asset sales in the Current Period; and

\$12.5 million net gain on asset sales in the Comparable Period.

International Offshore. The decrease in operating expenses for our International Offshore segment is primarily due to the following:

\$15.2 million decrease from Hercules Resilience primarily due to the rig being ready stacked in the Current Period;

\$8.9 million decrease from Hercules 208 due to the rig being ready and warm stacked a portion of the Current Period, partially offset by costs incurred in the Current Period for the rig's demobilization from India;

\$10.0 million decrease from Hercules 267 primarily due to the rig being ready and warm stacked in the Current Period as compared to being in the shipyard for repairs and maintenance a portion of the Comparable Period;

\$7.1 million decrease from Hercules 261 primarily due to cost reductions in the Current Period and amortization of deferred contract preparation costs in the Comparable Period;

\$4.2 million decrease from Hercules 262 primarily due to cost reductions in the Current Period and amortization of deferred contract preparation costs in the Comparable Period;

\$6.5 million decrease from Hercules Triumph primarily due to the rig being ready stacked most of the Current Period; partially offset by

\$10.5 million gain on the sale of Hercules 258 in April 2014; and

\$9.0 million increase from Hercules 260 primarily due to the rig being in the shipyard preparing for a contract a portion of the Current Period.

International Liftboats. The decrease in operating expenses for our International Liftboats segment is largely due to a \$4.9 million reduction in labor costs in the Current Period as compared to the Comparable Period. Additionally, equipment rental expenses and contract labor costs decreased by \$3.4 million and \$2.2 million, respectively.

Asset Impairment

During the Comparable Period, we recorded a non-cash asset impairment charge of \$82.5 million in our Domestic Drilling segment to write-down the Hercules 202, Hercules 204, Hercules 212 and Hercules 213 to fair value.

Depreciation and Amortization

The decrease in depreciation and amortization is largely due to the rigs impaired in 2014, contributing a \$22.4 million decrease in the Current Period as compared to the Comparable Period. Additionally, drydock amortization decreased \$2.1 million. These decreases are partially offset by additional depreciation for capital projects, which contributed to increases of \$12.0 million.

General and Administrative

The increase in general and administrative expenses is primarily related to a \$17.7 million increase in legal and professional fees, primarily due to certain costs in Corporate related to financing and restructuring activities, during the Current Period as compared to the Comparable Period. Additionally, bad debt expense increased \$1.3 million in the Current Period as compared to the Comparable Period primarily in our International Liftboats segment. These increases are partially offset by a decrease in travel expenses of \$2.2 million in the Current Period as compared to the Comparable Period and a decrease in labor costs of \$2.5 million in the Current Period as compared to the Comparable Period, primarily on Corporate.

Interest Expense

The decrease in interest expense is primarily due to the suspension of interest on our debt subsequent to the Chapter 11 filing.

Reorganization Items

After filing the Chapter 11 Cases on August 13, 2015, we incurred \$2.8 million during the Current Period of post-petition professional fees associated with the bankruptcy cases. Additionally, we incurred a non-cash charge of \$11.5 million to write-off unamortized debt issuance costs associated with the indebtedness expected to be an allowed claim under Chapter 11.

Loss on Extinguishment of Debt

During the Current Period, we terminated our Credit Facility and wrote off \$1.8 million in associated unamortized debt issuance costs. In addition, we expensed \$0.1 million in associated professional fees.

30

Table of Contents

During the Comparable Period, we redeemed \$300.0 million aggregate principal amount of our 7.125% Senior Secured Notes and expensed \$16.9 million for the call premium and wrote off \$1.9 million in unamortized debt issuance costs associated with these notes. In addition, we expensed \$1.1 million in bank fees related to the issuance of the 6.75% Senior Notes.

Income Tax Provision

We generated an income tax provision of \$4.9 million in both the Current Period and the Comparable Period. The Comparable Period includes a \$5.7 million tax benefit related to an expiration of the statute of limitations of an unrecognized tax benefit, while the Current Period includes a \$0.9 million tax benefit related to an expiration of the statute of limitations of an unrecognized tax benefit. Additionally, foreign income tax decreased due to a reduction in operations in foreign jurisdictions in the Current Period as compared to the Comparable Period.

Non-GAAP Financial Measures

Regulation G, General Rules Regarding Disclosure of Non-GAAP Financial Measures and other Securities and Exchange Commission ("SEC") regulations define and prescribe the conditions for use of certain Non-Generally Accepted Accounting Principles ("Non-GAAP") financial measures. We use various Non-GAAP financial measures such as adjusted revenue, operating income, adjusted net income (loss), adjusted diluted net income (loss) per share, EBITDA and Adjusted EBITDA. EBITDA is defined as net income plus interest expense, income taxes, depreciation and amortization. We believe that in addition to GAAP based financial information, Non-GAAP amounts are meaningful disclosures for the following reasons: i) each are components of the measures used by our board of directors and management team to evaluate and analyze our operating performance and historical trends, ii) each are components of the measures used by our management team to make day-to-day operating decisions, iii) each are components of the measures used by our management to facilitate internal comparisons to competitors' results and the shallow-water drilling and marine services industry in general, iv) results excluding certain costs and expenses provide useful information for the understanding of the ongoing operations without the impact of significant special items, and v) the payment of certain bonuses to members of our management is contingent upon, among other things, the satisfaction by the Company of financial targets, which may contain Non-GAAP measures as components. We acknowledge that there are limitations when using Non-GAAP measures. The measures below are not recognized terms under GAAP and do not purport to be an alternative to net income as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. EBITDA and Adjusted EBITDA are not intended to be a measure of free cash flow for management's discretionary use, as it does not consider certain cash requirements such as tax payments and debt service requirements. Because all companies do not use identical calculations, the amounts below may not be comparable to other similarly titled measures of other companies.

Table of Contents

The following tables present a reconciliation of the GAAP financial measures to the corresponding adjusted financial measures (in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014

CRITICAL ACCOUNTING POLICIES

We believe that our more critical accounting policies include those related to property and equipment, revenue recognition, income taxes, stock-based compensation and accrued self-insurance reserves. Inherent in such policies are certain key assumptions and estimates. For additional information regarding our critical accounting policies, please read "Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies" in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2014 and Item 1 of Part 1 of

this Quarterly Report on Form 10-Q.

Table of Contents

OUTLOOK

Offshore

Demand for our oilfield services is driven by our exploration and production ("E&P") customers' capital spending, which can experience significant fluctuations depending on current commodity prices and their expectations of future price levels, among other factors.

Drilling activity levels in the shallow-water U.S. Gulf of Mexico are dependent on crude oil and natural gas prices, prospectivity of hydrocarbons, capital budgets of our customers as well as their ability to obtain necessary drilling permits to operate in the region.

The supply of marketed jackup rigs in the U.S. Gulf of Mexico has declined significantly since 2008, driven by events such as the financial crisis that began in late 2008, the imposition of new regulations after the Macondo incident in 2010, the consolidation of domestic customers that began in 2013 and continued in 2014, and the sharp decline in crude oil prices since mid-2014. Such events have led drilling contractors to cold stack, or no longer actively market, a number of rigs in the region. In other instances, rigs have been sold for conversion purposes, scrapped, or mobilized out of the U.S. Gulf of Mexico. As a result, the number of existing, actively marketed jackup rigs in the U.S. Gulf of Mexico, has declined from approximately 63 rigs in late 2008 to 19 rigs as of October 27, 2015. From time to time, jackup rigs have mobilized back to the U.S. Gulf of Mexico. There are several older jackup rigs that are currently working in Mexico for PEMEX that will have contract expirations in the next year. We expect certain rigs that are not re-contracted by PEMEX to migrate to the U.S. Gulf of Mexico. It is uncertain whether these rigs will be actively marketed or cold stacked.

The fall in the price of crude oil, coupled with the consolidation of the domestic customer base, have negatively impacted demand for jackup rigs in the U.S. Gulf of Mexico. Jackup rig demand in the region, as defined by rigs under contract, has fallen from 31 rigs on July 21, 2014 to 9 rigs on October 27, 2015. We expect the overall environment for rig demand to remain relatively soft into 2016, assuming commodity prices remain at or near current levels throughout the year. Given these market conditions, we have executed a number of cost saving measures, including our decision to cold stack nine domestic rigs since the fourth quarter of 2014. We currently believe that this is an appropriate step to reduce costs, better balance the market and support utilization on our marketed rigs. However, should we see indicators of stronger demand, we will have capacity ready to respond timely to these signals.

Demand for rigs in our International Offshore segment is primarily dependent on crude oil prices. Due to the sharp drop in crude oil prices, international capital spending budgets for 2015 have been lower than prior years and we expect the trend to continue into 2016. This will have negative implications for jackup demand for all classes of rigs. In addition, new capacity growth expected over the next three years could put further pressure on the operating environment for the existing jackup rig fleet. As of October 27, 2015, there are approximately 128 jackup rigs under construction, on order and planned for delivery through 2020.

Liftboats

Demand for liftboats is typically a function of our customers' demand for offshore infrastructure construction, inspection and maintenance, well maintenance, well plugging and abandonment, and other related activities. Although activity levels for liftboats are not as closely correlated to commodity prices as our drilling segments, commodity prices are still a key driver of liftboat demand. Since early 2014, demand for liftboat services in West Africa has been weak. We believe this has been driven by budgetary constraints with major customers primarily in Nigeria, which we expect will continue into 2016. Although we currently do not expect additional vessels to mobilize into the region, if such mobilization were to occur, that could potentially impact the utilization and pricing for our liftboat fleet.

Utilization can and has been negatively impacted by local labor disputes, regional conflicts and other political events, particularly in West Africa. In the Middle East, we expect demand for liftboats to be a function of construction and well servicing activity levels.

Over the long term, we believe that international liftboat demand will benefit from (i) the aging offshore infrastructure and maturing offshore basins, (ii) desire by our customers to economically produce from these mature basins and service their infrastructure and (iii) the cost advantages of liftboats to perform these services relative to alternatives. Tempering this demand outlook is (i) the risk of a prolonged period of low oil prices impacting production-related activity, (ii) our expectation of increased competition from newly constructed liftboats and mobilizations of existing

liftboats primarily from the U.S. Gulf of Mexico to international markets, (iii) the risk of recurring political, social and union unrest, principally in West Africa and (iv) increased pressure to have local ownership of assets, principally in Nigeria.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Sources and Uses of Cash

Sources and uses of cash for the nine months ended September 30, 2015 are as follows (in millions):

Net Cash Used in Operating Activities	\$(18.2)
Net Cash Provided by (Used in) Investing Activities:		
Capital Expenditures	(74.7)
Insurance Proceeds Received	3.5	
Proceeds from Sale of Assets, Net	7.6	
Other	0.2	
Total	(63.4)
Net Cash Provided by (Used in) Financing Activities:	—	
Net Decrease in Cash and Cash Equivalents	\$(81.6)

Sources of Liquidity and Financing Arrangements

Our liquidity is comprised of cash on hand and cash from operations. We expect that our primary sources of liquidity during our restructuring will be from cash on hand and cash from operations. After the effective date of the Plan, we expect that our primary sources of liquidity will be from cash on hand, cash from operations and new debt pursuant to the Plan. See "Management's Discussion and Analysis of Financial Condition and Results of Operations-Overview".

Cash Requirements and Contractual Obligations

Our current debt structure is used to fund our business operations.

In connection with the Chapter 11 filing, the Debtors opted to conserve cash and not to make certain interest payments due on July 15, 2015 on our 8.75% Senior Notes. The aggregate amount of those interest payments was \$17.5 million. The Chapter 11 filing constituted an event of default with respect to our debt obligations. As a result of the filing of the Chapter 11 Cases, our pre-petition unsecured long-term debt and related accrued interest are included in Liabilities Subject to Compromise in the Condensed Consolidated Balance Sheet as of September 30, 2015. The estimated allowed claims for our Outstanding Notes is not expected to include \$11.5 million of related unamortized debt issuance costs; therefore, we incurred a non-cash charge to write-off this amount in Reorganization Items on the Consolidated Statements of Operations for the three and nine months ended September 30, 2015.

Contractual interest expense represents amounts due under the contractual terms of outstanding debt, including debt subject to compromise. For the period from August 14, 2015 through September 30, 2015 contractual interest expense related to liabilities subject to compromise of \$12.9 million has not been recorded, as it is not expected to be an allowed claim under the Chapter 11 Cases.

Senior Secured Credit Agreement

On April 3, 2012, we entered into a credit agreement which as amended on July 8, 2013 (the "Credit Agreement") governed our senior secured revolving credit facility (the "Credit Facility"). The Credit Agreement provided for a \$150.0 million senior secured revolving credit facility.

In connection with the RSA, we terminated our Credit Facility effective June 22, 2015. There were no amounts outstanding and no letters of credit issued under the Credit Facility at that time. Liens on our vessels that secured the Credit Facility have been released. We maintained compliance with all covenants under the Credit Facility through the termination date and have paid all fees in full.

Loss on Extinguishment of Debt

During the nine months ended September 30, 2014 and 2015, we incurred the following charges which are included in Loss on Extinguishment of Debt in the Consolidated Statement of Operations for their respective periods:

In March 2014, we incurred a pretax charge of \$15.2 million, consisting of a \$12.6 million call premium and \$1.4 million of unamortized debt issuance costs related to the redemption of the 7.125% Senior Secured Notes, as well as \$1.1 million of bank fees related to the issuance of the 6.75% Senior Notes;

In April 2014, we incurred a pretax charge of \$4.8 million consisting of a \$4.3 million call premium and \$0.5 million of unamortized debt issuance costs related to the redemption of the remaining 7.125% Senior Secured Notes; and

Table of Contents

In June 2015, we incurred a pretax charge of \$1.9 million consisting of \$1.8 million of unamortized debt issuance costs and \$0.1 million of associated professional fees related to the termination of the Credit Facility.

Insurance and Indemnity

Our drilling contracts provide for varying levels of indemnification from our customers, including for well control and subsurface risks, and in most cases, may require us to indemnify our customers for certain liabilities. Under our drilling contracts, liability with respect to personnel and property is customarily assigned on a “knock-for-knock” basis, which means that we and our customers assume liability for our respective personnel and property, regardless of how the loss or damage to the personnel and property may be caused, and even if we are grossly negligent. However, some of our customers have been reluctant to extend their indemnity obligations in instances where we are grossly negligent. Our customers typically assume responsibility for and agree to indemnify us from any loss or liability resulting from pollution or contamination, including clean-up and removal and third-party damages arising from operations under the contract and originating below the surface of the water, including as a result of blowouts or cratering of the well (“Blowout Liability”). The customer’s assumption for Blowout Liability may, in certain circumstances, be contractually limited or could be determined to be unenforceable in the event of our gross negligence, willful misconduct or other egregious conduct. In addition, we may not be indemnified for statutory penalties and punitive damages relating to such pollution or contamination events. We generally indemnify the customer for the consequences of spills of industrial waste or other liquids originating solely above the surface of the water and emanating from our rigs or vessels.

We maintain insurance coverage that includes coverage for physical damage, third-party liability, workers’ compensation and employer’s liability, general liability, vessel pollution and other coverages. Effective May 1, 2015, we completed the annual renewal of all of our key insurance policies. Our insurance policies typically consist of twelve-month policy periods, and the next renewal date for our insurance program is scheduled for May 1, 2016.

Primary Marine Package Coverage

Our primary marine package provides for hull and machinery coverage for substantially all of our rigs (excluding Hercules Triumph and Hercules Resilience which are covered under separate policies, discussed below) and liftboats up to a scheduled value of each asset. The marine package includes protection and indemnity and maritime employer’s liability coverage for marine crew personal injury and death and certain operational liabilities. The major coverages of this package include the following:

Events of Coverage

- Total maximum amount of hull and machinery coverage;
- Deductible for events that are not caused by a U.S. Gulf of Mexico named windstorm;
- Deductible for events that are caused by a U.S. Gulf of Mexico named windstorm;
- Maritime employer liability (crew liability);
- Personal injury and death of third parties;
- Limitations for coverage for losses caused in U.S. Gulf of Mexico named windstorms; and
- Vessel pollution emanating from our vessels and drilling rigs.

Coverage Amounts and Deductibles

- \$753.3 million;
- \$5.0 million and \$1.0 million per occurrence for drilling rigs and liftboats, respectively;
- \$10.0 million;
- \$5.0 million self-insured retention with excess liability coverage up to \$200.0 million*;
- Primary coverage of \$5.0 million per occurrence and \$10.0 million annual aggregate with additional excess liability coverage up to \$200.0 million*, subject to a \$250,000 per occurrence deductible;
- Annual aggregate limit of liability of \$25.0 million for property damage (except \$50.0 million in respect to Hercules 300 and Hercules 350) and up to a total of \$100.0 million* of liability coverage, including removal of wreck coverage; and
- Primary limits of \$5.0 million up to \$17.1 million per occurrence and excess liability coverage up to \$200.0 million*.

*Annual aggregate limit

Control-of-well events generally include an unintended flow from the well that cannot be contained by equipment on site (e.g., a blow-out preventer), by increasing the weight of the drilling fluid, or that does not naturally close itself off through what is typically described as "bridging over". We carry a contractor's extra expense policy with \$50.0 million primary liability coverage for well control costs, pollution and expenses incurred to redrill wild or lost wells, with excess liability coverage up to \$200.0 million for pollution liability that is covered in the primary policy. Additionally, we carry a contractor's expense policy for the Hercules Triumph and Hercules Resilience with \$50.0 million primary liability coverage for well control costs, pollution

Table of Contents

and expenses incurred to redrill wild or lost wells, with excess coverage up to \$25.0 million for pollution liability that is covered in the primary policy. The policies are subject to exclusions, limitations, deductibles, self-insured retention and other conditions, including the requirement for Company gross negligence or willful misconduct.

Hercules Triumph and Hercules Resilience Marine Package Coverage

We have a separate primary marine package for Hercules Triumph and Hercules Resilience that provides the following:

Events of Coverage	Coverage Amounts and Deductibles
- Total maximum amount of hull and machinery coverage;	- \$250.0 million per rig;
- Deductible	- \$2.5 million per occurrence per rig;
- Extended contractual liability, including subsea activities, property and personnel, clean-up costs (primary coverage);	- \$25.0 million per occurrence;
- Pollution-by-blowout coverage (primary coverage); and	- \$10.0 million per occurrence; and
- Operational protection and indemnity coverage.	- \$500.0 million per rig, subject to a \$50,000 per occurrence deductible for claims originating outside the U.S. and a \$250,000 per occurrence deductible for claims originating in the U.S.

Adequacy of Insurance Coverage

We are responsible for the deductible portion of our insurance coverage. Management believes adequate accruals have been made on known and estimated exposures up to the deductible portion of our insurance coverage. Management believes that claims and liabilities in excess of the amounts accrued are adequately insured. However, our insurance is subject to exclusions and limitations, and there is no assurance that such coverage will adequately protect us against liability from all potential consequences. In addition, there is no assurance of renewal or the ability to obtain coverage acceptable to us.

Hercules 265 Incident and Settlement of Property Damage Insurance Claim

In July 2013, our jackup drilling rig Hercules 265, a 250' mat-supported cantilevered unit operating in the U.S. Gulf of Mexico Outer Continental Shelf lease block South Timbalier 220, experienced a well control incident. The rig sustained substantial damage in the incident and our insurance underwriters determined that the rig was a constructive total loss. The cause of the incident is unknown but is under investigation. We have removal of wreck coverage for this incident up to a total amount of \$110.0 million. During the second quarter of 2014, we received gross proceeds of \$9.1 million from the insurance underwriters as reimbursement for a portion of the wreck removal and related costs incurred, and used \$2.0 million to repurchase the Hercules 265 hull from the insurance underwriters. During the nine months ended September 30, 2015, we received an additional \$3.5 million in gross proceeds from the insurance underwriters as reimbursement for a portion of the wreck removal and related costs incurred to date. We and our insurance underwriters continue to negotiate the insurance recovery amounts for costs related to the salvage of the rig and certain other insured losses.

Capital Expenditures

We currently expect total capital expenditures during the remainder of 2015 to approximate between \$10 and \$15 million. Planned capital expenditures include items related to general maintenance, regulatory, refurbishment, upgrades and contract specific modifications to our rigs and liftboats. Changes in timing of certain planned capital expenditure projects may result in a shift of spending levels beyond 2015.

From time to time, we may review possible acquisitions of rigs, liftboats or businesses, joint ventures, mergers or other business combinations, and we may have outstanding from time to time bids to acquire certain assets from other companies. If we acquire additional assets, we would expect that our ongoing capital expenditures as a whole would increase in order to maintain our equipment in a competitive condition.

Our ability to fund future capital expenditures beyond the current year would be adversely affected if conditions deteriorate further in our business.

Contractual Obligations

Our contractual obligations and commitments principally include obligations associated with our outstanding indebtedness, certain income tax liabilities, bank guarantees, letters of credit, future minimum operating lease obligations, purchase commitments and management compensation obligations. Except for the following, during the first nine months of 2015, there were no material changes outside the ordinary course of business in the specified contractual obligations.

36

Table of Contents

• Paid \$23.6 million to JSL related to the rig construction contract for Hercules Highlander (See Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations-Overview").

Pursuant to the RSA, we terminated our credit facility (See Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations-Overview" and Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations-Liquidity and Capital Resources").

Pursuant to the Plan, all of our senior notes and convertible senior notes are expected to be exchanged for 96.9% of common stock to be issued in the reorganization (See Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations-Overview").

For additional information about our contractual obligations as of December 31, 2014, see "Management's Discussion and Analysis of Financial Condition and Results of Operations-Liquidity and Capital Resources-Contractual Obligations" in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2014.

Accounting Pronouncements

See Note 15 to our condensed consolidated financial statements included elsewhere in this report.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended ("the Securities Act"), and Section 21E of the Exchange Act that are applicable to us and our business. All statements, other than statements of historical fact, included in this quarterly report, including statements that address outlook, activities, events or developments that we intend, contemplate, estimate, expect, project, believe or anticipate will or may occur in the future are forward-looking statements. These include such matters as:

- our high levels of indebtedness, debt service, covenant compliance and access to capital under current market conditions;
- our ability to enter into new contracts for our rigs and liftboats, including the Hercules Triumph and Hercules Resilience, and future utilization rates and dayrates for the units;
- our ability to maintain our contracts on current terms, to renew or extend our contracts, or enter into new contracts, when such contracts expire;
- demand for our rigs and our liftboats;
- activity levels of our customers and their expectations of future energy prices and ability to obtain drilling permits in an efficient manner or at all;
- sufficiency and availability of funds for required capital expenditures, working capital and debt service;
- our ability to close the sale and purchase of assets on time;
- expected completion times for our repair, refurbishment and upgrade projects;
- our ability to complete our shipyard projects incident free;
- our ability to complete our shipyard projects on time to avoid cost overruns and contract penalties;
- our ability to effectively reactivate rigs that we have stacked;
 - the timing and cost of shipyard projects and refurbishments and the return of idle rigs to work;
- our plans to increase international operations;
- expected useful lives of our rigs and liftboats;
- future capital expenditures and refurbishment, reactivation, transportation, repair and upgrade costs;
- liabilities and restrictions under applicable laws of the jurisdictions in which we operate and regulations protecting the environment;
 - expected outcomes of litigation, investigations, claims, disputes and tax audits and their expected effects on our financial condition and results of operations;
- the existence of insurance coverage and the extent of recovery from our insurance underwriters for claims made under our insurance policies; and
- expectations regarding offshore drilling and liftboat activity and dayrates, market conditions, demand for our rigs and liftboats, operating revenue, operating and maintenance expense, insurance coverage, insurance expense and

deductibles, interest expense, debt levels and other matters with regard to outlook and future earnings.

37

Table of Contents

Forward-looking statements related to the prepackaged plan of reorganization involve known and unknown risks, uncertainties, assumptions and other factors which may cause our actual results, performance or achievements to be materially different from any results, performance or achievements expressed or implied by our forward-looking statements, including but not limited to the effects of the Court rulings in the Chapter 11 cases and the duration and outcome of the Chapter 11 cases in general; risks associated with third party motions in the Chapter 11 cases, which may interfere with our ability to consummate the plan; increased administrative and restructuring costs related to the Chapter 11 cases; the Company's ability to maintain adequate liquidity to fund operations during the Chapter 11 cases and thereafter; the terms and sufficiency of the "exit" financing contemplated by the plan and related risks and uncertainties; the occurrence of any event, change, or other circumstance that could give rise to the termination of the restructuring support agreement, including any failure to meet the milestones specified therein; requirements for adequate liquidity to fund our operations in the future, including obtaining sufficient financing on acceptable terms; and other matters related to the potential restructuring and our current and future indebtedness. We are in default under our outstanding senior indebtedness in an aggregate principal amount of \$1.2 billion, and there can be no assurance that a restructuring transaction will be consummated as planned. You should not place undue reliance on forward-looking statements. The Company does not intend to publicly update any forward-looking statements, whether as a result of new information, future events, or otherwise, except as may be required under applicable securities laws.

We have based these statements on our assumptions and analyses in light of our experience and perception of historical trends, current conditions, expected future developments and other factors we believe are appropriate in the circumstances. Forward-looking statements by their nature involve substantial risks and uncertainties that could significantly affect expected results, and actual future results could differ materially from those described in such statements. Although it is not possible to identify all factors, we continue to face many risks and uncertainties. Among the factors that could cause actual future results to differ materially are the risks and uncertainties described under "Risk Factors" in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014, Item 1A of Part II of our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2015 and June 30, 2015 and Item 1A of Part II of this quarterly report and the following:

- the potential adverse impact of the Restructuring Transaction on the Company's operations, management, and employees and the risks associated with operating the business during the Chapter 11 process;
- supplier and partner response to the Restructuring Transaction;
- oil and natural gas prices and industry expectations about future prices;
- levels of oil and gas exploration and production spending;
- demand for and supply of offshore drilling rigs and liftboats;
- our ability to enter into and the terms of future contracts;
- compliance by our customers with the terms of our contracts, including the dayrate and payment obligations;
- the adequacy and costs of sources of credit and liquidity;
- our ability to collect receivables due from our customers;
- the worldwide military and political environment, uncertainty or instability resulting from an escalation or additional outbreak of armed hostilities or other crises in the Middle East, North Africa, West Africa, Asia, Eastern Europe and other significant oil and natural gas producing regions or acts of terrorism or piracy;
- the ability of our customers in the U.S. Gulf of Mexico to obtain drilling permits in an efficient manner or at all;
- the impact of governmental laws and regulations, including laws and regulations in the U.S. Gulf of Mexico following the Macondo well incident;
- our ability to obtain in a timely manner visas and work permits for our employees working in international jurisdictions;
- the impact of local content and cabotage laws and regulations in international jurisdictions in which we operate, particularly Nigeria;
- the impact of tax laws, regulations, interpretations and audits in jurisdictions where we conduct business;
- uncertainties relating to the level of activity in offshore oil and natural gas exploration, development and production;

- competition and market conditions in the contract drilling and liftboat industries;
- the availability of skilled personnel and the rising cost of labor;
- labor relations and work stoppages, particularly in the Nigerian labor environment;
- operating hazards such as hurricanes, severe weather and seas, fires, cratering, blowouts and other well control incidents, war, terrorism and cancellation or unavailability of insurance coverage or insufficient insurance coverage;
- the impact of public health outbreaks;

Table of Contents

the enforceability and interpretations of indemnity and liability provisions contained in our drilling contracts, particularly in the U.S. Gulf of Mexico;
the effect of litigation, investigations, audits and contingencies; and
our inability to achieve our plans or carry out our strategy.

Many of these factors are beyond our ability to control or predict. Any of these factors, or a combination of these factors, could materially affect our future financial condition or results of operations and the ultimate accuracy of the forward-looking statements. These forward-looking statements are not guarantees of our future performance, and our actual results and future developments may differ materially from those projected in the forward-looking statements. Management cautions against putting undue reliance on forward-looking statements or projecting any future results based on such statements or present or prior earnings levels. In addition, each forward-looking statement speaks only as of the date of the particular statement, and we undertake no obligation to publicly update or revise any forward-looking statements except as required by applicable law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We believe our exposure to market risk has not changed materially from that disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014. For quantitative and qualitative disclosures about market risk, see Item 7A, "Quantitative and Qualitative Disclosures About Market Risk", of such report.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and our chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Our chief executive officer and chief financial officer evaluated whether our disclosure controls and procedures as of the end of the period covered by this report were designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (2) accumulated and communicated to our management, including our chief executive officer and our chief financial officer, as appropriate to allow timely decisions regarding required disclosure. Based on their evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective to achieve the foregoing objectives as of the end of the period covered by this report.

There were no changes in our internal control over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The information set forth under the caption "Legal Proceedings" in Note 14 of the Notes to the Unaudited Consolidated Financial Statements in Item 1 of Part 1 of this report is incorporated by reference in response to this item.

ITEM 1A. RISK FACTORS

Except for the additional disclosures set forth below, for additional information about our risk factors, see Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014 and Item 1A of our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2015 and June 30, 2015.

The Effective Date of the Plan of Reorganization may be delayed or may not occur.

Although the milestones in the RSA require that the effective date of the Plan (the "Effective Date") occur by November 7, 2015, there can be no assurance as to such timing or that the conditions to the Effective Date contained in the Plan will ever occur. The impact that a prolonging of the Chapter 11 Cases may have on the Company's operations cannot be accurately predicted or quantified. The continuation of the Chapter 11 Cases, particularly if the Plan is not implemented within the time frame currently contemplated, could adversely affect operations and relationships between the Company and its customers and charterers, suppliers, vendors, service providers, and other creditors and result in increased professional fees and similar expenses. Failure to implement the Plan could further weaken the Company's liquidity position, which could jeopardize the Company's exit from Chapter 11.

Table of Contents

Our publicly-filed reports are reviewed from time to time by the SEC, and the audits of our financial statements are subject to review by the Public Company Accounting Oversight Board. Any significant changes or amendments required as a result of any such review may result in material liability to us and may have a material adverse impact on the trading price of our common stock.

The reports and other securities filings of publicly-traded companies are subject to review by the SEC from time to time for the purpose of assisting companies in complying with applicable disclosure requirements. The SEC is required, pursuant to the Sarbanes-Oxley Act of 2002, to undertake a comprehensive review of a company's report at least once every three years, although an SEC review may be initiated at any time. Similarly, the Public Company Accounting Oversight Board (the "PCAOB") periodically reviews selected audits performed by independent registered accounting firms. While we believe that our previously filed SEC reports comply, and we intend that all future reports, including our audited financials, will comply, in all material respects with the published rules and regulations of the SEC and that the audits of our financial statements have been performed in accordance with generally accepted auditing standards, we could be required to modify, amend or reformulate information contained in our public filings as a result of an SEC or PCAOB review, or we may be found to have a significant deficiency or material weakness in our internal controls over financial reporting. Any modification, amendment or reformulation of information contained in our public filings could be significant and could result in material liability to us and have a material adverse impact on the trading price of our common stock.

As disclosed in more detail in our annual report on Form 10-K, we use critical accounting policies that are important to our results of operations, financial condition and cash flows and require management's most difficult, subjective or complex judgments. Different amounts would be reported under alternative assumptions. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table sets forth for the periods indicated certain information with respect to our purchases of our common stock:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of a Publicly Announced Plan (2)	Maximum Number of Shares That May Yet Be Purchased Under the Plan (2)
July 1-31, 2015	977	\$0.18	N/A	N/A
August 1-31, 2015	77	0.09	N/A	N/A
September 1-30, 2015	507	0.06	N/A	N/A
Total	1,561	0.14	N/A	N/A

Represents the surrender of shares of our common stock to satisfy tax withholding obligations in connection with (1) the vesting of restricted stock issued to employees under our stockholder-approved 2004 Amended and Restated Long-Term Incentive Plan.

(2) We did not have at any time during the quarter, and currently do not have, a share repurchase program in place.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

As previously reported, on August 13, 2015, Hercules Offshore, Inc. and substantially all of its U.S. domestic subsidiaries (collectively, the "Debtors"), filed voluntary petitions (the "Bankruptcy Petitions") for reorganization under Chapter 11 of the United States Bankruptcy Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the District of Delaware (Case No. 15-11685). The filings of these Bankruptcy Petitions constitute an event of default

with respect to the Company's 10.25% senior notes due 2019, 8.75% senior notes due 2021, 7.5% senior notes due 2021 6.75% senior notes due 2022, 7.375% Senior Notes due 2018 and 3.375% Convertible Senior Notes due 2038, in an aggregate principal amount of \$1.2 billion. In addition, the Debtors opted to conserve cash and not to make certain interest payments due on July 15, 2015 on the Company's 8.75% Senior Notes. The aggregate amount of those interest payments was \$17.5 million. Pursuant to the Bankruptcy Code, the filing of the Bankruptcy Petitions automatically stayed most actions against the Debtors, including most actions to collect indebtedness incurred prior to the filing of the Bankruptcy Petitions or to exercise control over the Debtors' property. Accordingly, although the Bankruptcy Petitions triggered defaults under the Outstanding Notes, creditors are generally stayed from taking action as a result of these defaults.
