ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934  
For the fiscal year ended December 31, 2017

OR  
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: 1-32733

RESOURCE CAPITAL CORP.

(Exact name of registrant as specified in its charter)

Maryland

(State or other jurisdiction of  
incorporation or organization)

20-2287134  
(I.R.S. Employer  
Identification No.)

717 Fifth Avenue, New York, New York 10022  
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: 212-621-3210

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common Stock, \$.001 par value	New York Stock Exchange
8.25% Series B Cumulative Redeemable Preferred Stock	New York Stock Exchange
8.625% Fixed-to-Floating Series C Cumulative Redeemable Preferred Stock	New York Stock Exchange

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.  
Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting

Edgar Filing: Resource Capital Corp. - Form 10-K

company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer  (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes  No

The aggregate market value of the voting common equity held by non-affiliates of the registrant, based on the closing price of such stock on the last business day of the registrant's most recently completed second fiscal quarter (June 30, 2017) was approximately \$296,374,661.

The number of outstanding shares of the registrant's common stock on March 9, 2018 was 31,653,426 shares.

## FORWARD-LOOKING STATEMENTS

In this annual report on Form 10-K, references to "Company," "we," "us," or "our" refer to Resource Capital Corp. and its subsidiaries; references to the Company's "Manager" refer to Resource Capital Manager, Inc., an indirect wholly-owned subsidiary of C-III Capital Partners LLC, unless specifically stated otherwise or the context otherwise indicates. This report contains certain forward-looking statements. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by terms such as "anticipate", "believe", "could", "estimate", "expects", "intend", "may", "plan", "potential", "project", "should", "will" and "would" or the negative of these terms or other comparable terminology.

Forward-looking statements contained in this report are based on our beliefs, assumptions and expectations regarding our future performance, taking into account all information currently available to us. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us or are within our control. If a change occurs, our business, financial condition, liquidity and results of operations may vary materially from those expressed in our forward-looking statements. Forward-looking statements we make in this report are subject to various risks and uncertainties that could cause actual results to vary from our forward-looking statements, including:

- the factors described in this report, including those set forth under the sections captioned "Risk Factors", "Business" and "Management's Discussion and Analysis of Financial Conditions and Results of Operations";
- changes in our industry, interest rates, the debt securities markets, real estate markets or the general economy;
- increased rates of default and/or decreased recovery rates on our investments;
- availability, terms and deployment of capital;
- availability of qualified personnel;
- changes in governmental regulations, tax rates and similar matters;
- changes in our business strategy;
- availability of investment opportunities in commercial real estate-related and commercial finance assets;
- the degree and nature of our competition;
- the adequacy of our cash reserves and working capital; and
- the timing of cash flows, if any, from our investments.

We caution you not to place undue reliance on these forward-looking statements which speak only as of the date of this report. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. Except to the extent required by applicable law or regulation, we undertake no obligation to update these forward-looking statements to reflect events or circumstances after the date of this filing or to reflect the occurrence of unanticipated events.

PART I

ITEM I. BUSINESS

General

We are a Maryland corporation and a real estate finance company that is organized and conducts our operations to qualify as a real estate investment trust, or REIT, for federal income tax purposes under Subchapter M of the Internal Revenue Code of 1986, as amended. Our investment strategy is primarily focused on originating, holding and managing commercial mortgage loans and commercial real estate-related debt investments.

Our objective is to provide our stockholders with total returns over time, including quarterly distributions and capital appreciation, while seeking to manage the risks associated with our investment strategies. We finance a substantial portion of our portfolio investments through borrowing strategies seeking to match the maturities and repricing dates of our financings with the maturities and repricing dates of those financed investments, and we seek to mitigate interest rate and foreign currency risk through derivative investments.

Our investment strategy targets the following core asset class:

CRE/Core Asset Class    Principal Investments

Commercial real estate-related assets

First mortgage loans, which we refer to as whole loans;

First priority interests in first mortgage loans, which we refer to as A notes;

Subordinated interests in first mortgage loans, which we refer to as B notes;

Mezzanine debt that is senior to the borrower's equity position but subordinated to other third-party debt; and

Commercial mortgage-backed securities, which we refer to as CMBS.

In November 2016, we received approval from our board of directors to execute a strategic plan, or the Plan, to focus our strategy on commercial real estate, or CRE, debt investments. The Plan contemplates disposing of certain Legacy CRE debt investments, exiting underperforming non-core asset classes and investments, collectively, the "Identified Assets," and establishing a dividend policy based on sustainable earnings. Legacy CRE loans are loans underwritten prior to 2010, or Legacy CRE loans. The non-core asset classes in which we have historically invested are described in the following table of non-core asset classes:

Non-Core Asset Classes    Principal Investments

Residential real estate-related assets

Residential mortgage loans; and

Residential mortgage-backed securities, which we refer to as RMBS, which comprise our available-for-sale portfolio.

Commercial finance assets

Middle market secured corporate loans and preferred equity investments;

Asset-backed securities, which we refer to as ABS, backed by senior secured corporate loans;

Debt tranches of collateralized debt obligations and collateralized loan obligations, which we refer to as CDOs and CLOs, respectively, and sometimes, collectively, as CDOs;

Structured note investments, which comprise our trading securities portfolio;

Syndicated corporate loans; and

Preferred equity investment in a commercial leasing enterprise that originates and holds small- and middle-ticket commercial direct financing leases and notes.

We are externally managed by Resource Capital Manager, Inc., or our Manager, an indirect wholly-owned subsidiary of C-III Capital Partners LLC, or C-III, a leading CRE services company engaged in a broad range of activities. Our Manager draws upon C-III and its subsidiaries and its collective investment experience to provide its services. With

respect to the strategic plan, two non-core segments: (i) residential mortgage loans and RMBS and (ii) middle market secured corporate loans and preferred equity investments, have been reclassified as held for sale and are considered discontinued operations at December 31, 2017 and 2016.

[\(Back to Index\)](#)

4

---

[\(Back to Index\)](#)

We began to implement the Plan during the fourth quarter of 2016. The following table delineates the disposable investments by business segment and details the current net book value of each included in the Plan (in millions):

	Identified Assets at Plan Inception	Impairments/Adjustments on Non-Monetized Assets <sup>(1)(2)</sup>	Impairments/Adjustments on Monetized Assets <sup>(1)</sup>	through December 31, 2017 <sup>(3)</sup>	Net Book Value at December 31, 2017 <sup>(3)</sup>
Discops and AHFS					
Legacy CRE Loans <sup>(4)</sup>	\$ 194.7	\$ (13.8 )	\$ (11.7 )	\$ (107.4 )	\$ 61.8
Middle Market Loans	73.8	(18.3 )	0.3	(26.4 )	29.4
Residential Mortgage Lending Segment <sup>(5)</sup>	56.6	(1.2 )	(9.6 )	(45.1 )	0.7
Other AHFS	5.9	2.5	1.6	(3.4 )	6.6
Subtotal - Discops and AHFS	\$ 331.0	\$ (30.8 )	\$ (19.4 )	\$ (182.3 )	\$ 98.5
Investments in Unconsolidated Entities	\$ 86.6	\$ (1.9 )	\$ 40.1	\$ (119.4 )	5.4
Commercial Finance Assets <sup>(6)</sup>	62.5	(0.3 )	0.4	(62.3 )	0.3
Total	\$ 480.1	\$ (33.0 )	\$ 21.1	\$ (364.0 )	\$ 104.2

(1) Reflects adjustments as a result of the designation as assets held for sale or discontinued operations, which occurred during the third and fourth quarters of 2016 except as noted in (2) below.

(2) The impairment adjustment to middle market loans includes \$5.4 million of fair value adjustments that occurred prior to the inception of the Plan.

(3) Investments in unconsolidated entities include a pro forma adjustment for a \$5.1 million distribution from Pelium Capital, L.P. received in January 2018.

(4) Legacy CRE Loans includes \$118.2 million par value of loans at the inception of the Plan that were not reflected on the consolidated balance sheets until our investment in Resource Real Estate Funding CDO 2007-1, Ltd. was liquidated in November 2016.

(5) Includes \$1.1 million of cash and cash equivalents not classified as assets held for sale in the Residential Mortgage Lending segment at December 31, 2017.

(6) Commercial Finance assets decreased by \$2.3 million related to the reclassification of certain assets to other assets on the consolidated balance sheets.

We have deployed the incremental capital received primarily into our CRE lending business and CMBS investments. During 2017 and 2016, we originated 40 new CRE loans totaling \$797.0 million. During the year ended December 31, 2017, we reinvested proceeds into CMBS with a face value of \$212.0 million. Certain of these investments are financed through our CRE and CMBS term facilities and, in the case of CRE loans, through securitizations. In furtherance of our Plan, coupled with available debt financing at December 31, 2017 of \$358.0 million, we intend to grow our CRE lending operation in 2018.

#### Our Business Strategy

The core components of our business strategy are:

**Investment in CRE assets.** We currently invest in CRE whole loans, CRE mezzanine loans and investment grade and non-investment grade CMBS securities. Our goal as we implement our strategy is to allocate 90% to 100% of our equity to CRE investments. At December 31, 2017, our equity was allocated as 84% in core assets and 16% in non-core assets, which we intend to substantially, if not entirely, dispose of in 2018.

**Managing our investment portfolio.** At December 31, 2017, we managed \$1.6 billion of assets, including \$603.1 million of assets that were financed and held in variable interest entities. The core of our management process is credit analysis, which our Manager, as well as C-III, use to actively monitor our existing investments and as a basis for evaluating new investments. Senior management of our Manager and C-III have extensive experience in underwriting the credit risk associated with our targeted asset classes and conduct detailed due diligence on all credit-sensitive investments. After we make investments, our Manager and C-III actively monitor them for early detection of trouble

or deterioration. If a default occurs, we will use our senior management team's asset management experience in seeking to mitigate the severity of any loss and to optimize the recovery from assets collateralizing the investment. Managing our interest rate and liquidity risk. We generally seek to manage interest rate and liquidity risk so as to reduce the effects of interest rate changes on us. In our long-term financings, we seek to match the maturity and repricing dates of our investments with the maturities and repricing dates of our financings. Historically, we have used securitization vehicles structured for us by our Manager to achieve this goal, and subject to the markets for securitization financings remaining open, we expect to continue to use those vehicles in the future to accomplish our long-term match funding financing strategy. We engage in a number of business activities that are vulnerable to interest rate and liquidity risk. Our hedging strategy is intended to take advantage of commonly available derivative investments such as interest rate swaps and caps to reduce, to the extent possible, those risks.

[\(Back to Index\)](#)

5

---

[\(Back to Index\)](#)

We manage our interest rate and liquidity risk on our short-term financings, principally repurchase agreements, by limiting our financial exposure under the facilities to either a stated investment amount or a fixed guaranty amount. At December 31, 2017, our repurchase facilities with debt outstanding were as follows (in thousands):

	Outstanding Borrowings (1)	Value of Collateral	Equity at Risk (2)
At December 31, 2017			
CRE - Term Repurchase Facilities			
Wells Fargo Bank, N. A.	\$ 179,347	\$ 268,003	\$ 89,213
Morgan Stanley Bank, N. A.	112,151	164,122	52,241
CMBS - Term Repurchase Facilities			
Wells Fargo Bank, N. A.	12,272	14,984	2,737
Deutsche Bank, AG	15,356	23,076	7,862
CMBS - Short-Term Repurchase Agreements			
RBC Capital Markets, LLC	72,131	97,745	25,813
JP Morgan Securities LLC	10,516	33,777	23,343
	401,773	601,707	

(1) Outstanding borrowings includes accrued interest payable and deferred debt issuance costs.

(2) Equity at risk includes interest receivable net of accrued interest expense.

These borrowings were made on a floating rate basis. For more information concerning our credit and repurchase facilities, see Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources," and Note 11 of the "Notes to Consolidated Financial Statements" contained in Item 8, "Financial Statements and Supplementary Data," of this report. We continuously monitor our compliance with all of the financial covenants. We are in compliance with all financial covenants, as defined in the respective agreements, at December 31, 2017.

Diversification of investments. We intend to manage our investment risk by maintaining a diversified portfolio of commercial mortgage loans and CRE-related assets. As funds become available for investment or reinvestment, we seek to maintain diversification by property type and geographic location while allocating our capital to investment opportunities that we believe are the most economically attractive. The percentage of assets that we have invested in certain non-core and real estate-related asset classes is subject to the federal income tax requirements for REIT qualification and the requirements for exclusion from regulation under the Investment Company Act of 1940, or the Investment Company Act.

#### Our Operating Policies

Investment guidelines. We have established investment policies, procedures and guidelines that are reviewed and approved by our manager's investment committee and our board of directors. The investment committee and/or board of directors, as applicable, meets regularly to consider and approve proposed specific investments. The board of directors monitors the execution of our overall investment strategies and targeted asset classes. We acquire our investments primarily for income. We do not have a policy that requires us to focus our investments in one or more particular geographic areas or industries.

Financing policies. We use leverage in order to increase potential returns to our stockholders and for financing our portfolio. We do not speculate on changes in interest rates. Although we have identified leverage targets for each of our targeted asset classes, our investment policies do not have any minimum or maximum leverage limits. Our investment committee has the discretion, without the need for further approval by our board of directors, to increase the amount of leverage we incur above our targeted range for individual asset classes subject, however, to any leverage constraints that may be imposed by existing financing arrangements.

We use borrowing and securitization strategies to accomplish our long-term match funding financing strategy. Based upon current conditions in the credit markets for CDOs and CLOs, we expect to modestly increase leverage through

new CLO securitizations and the continued use of our term repurchase and short-term repurchase facilities in 2018. We may also seek other credit arrangements to finance new investments that we believe can generate attractive risk-adjusted returns, subject to availability.

[\(Back to Index\)](#)

6

---

[\(Back to Index\)](#)

Hedging and interest rate management policies. We use derivative instruments to hedge a portion of the interest rate risk associated with our borrowings. Under the federal income tax laws applicable to REITs, we generally will be able to enter into transactions to hedge indebtedness that we may incur, or plan to incur, to acquire or carry real estate assets, provided that our total gross income from qualifying hedges does not exceed 25% of our total gross income and non-qualifying hedges do not exceed 5% of our total gross income. We generally seek to minimize interest rate risk with a strategy that is expected to result in the least amount of volatility under accounting principles generally accepted in the United States of America, or GAAP, while still meeting our strategic economic objectives and maintaining adequate liquidity and flexibility. These hedging transactions may include interest rate swaps, collars, caps or floors, puts, calls, options and foreign currency exchange protection.

Credit and risk management policies. Our Manager focuses its attention on credit and risk assessment from the earliest stage of the investment selection process. In addition, our Manager screens and monitors all potential investments to determine their impact on maintaining our REIT qualification under federal income tax laws and our exclusion from investment company status under the Investment Company Act. Portfolio risks, including risks related to credit losses, interest rate volatility, liquidity and counterparty credit, are generally managed on a portfolio-by-portfolio basis by our Manager.

#### General

The table below summarizes the amortized cost and net carrying amount of our investment portfolio at December 31, 2017, classified by asset type (in thousands, except percentages):

At December 31, 2017	Amortized Cost	Net Carrying Amount	Percent of Investment Portfolio	Weighted Average Coupon
<b>Core Assets:</b>				
CRE whole loans <sup>(1)</sup>	\$1,290,150	\$1,284,822	80.02	% 6.09%
CMBS <sup>(2)</sup>	210,806	211,579	13.18	% 4.35%
Total Core Assets	1,500,956	1,496,401	93.20	%
<b>Non-Core Assets:</b>				
ABS <sup>(2)</sup>	259	158	0.01	% N/A <sup>(10)</sup>
Structured notes <sup>(3)</sup>	2,891	178	0.01	% N/A <sup>(10)</sup>
Syndicated corporate loans held for sale <sup>(4)</sup>	13	13	—	% N/A <sup>(10)</sup>
Investment in an unconsolidated entity <sup>(5)</sup>	10,503	10,503	0.65	% N/A <sup>(10)</sup>
Direct financing leases <sup>(6)</sup>	886	151	0.01	% 5.66%
Life settlement contracts <sup>(7)</sup>	5,130	5,130	0.32	% N/A <sup>(10)</sup>
Residential mortgage loans held for sale <sup>(7)</sup>	1,913	1,913	0.12	% 3.92%
Middle market loans held for sale <sup>(7)(8)</sup>	41,199	29,308	1.83	% 5.06%
Legacy CRE loans held for sale <sup>(7)(9)</sup>	63,783	61,841	3.85	% 1.64%
Total Non-Core Assets	126,577	109,195	6.80	%
Total investment portfolio	\$1,627,533	\$1,605,596	100.00	%

(1) Net carrying amount includes an allowance for loan losses of \$5.3 million at December 31, 2017.

(2) Classified as investment securities available-for-sale on the consolidated balance sheets.

(3) Classified as investment securities, trading on the consolidated balance sheets.

(4) The fair value option was elected for syndicated corporate loans held for sale.

(5) Classified as investments in unconsolidated entities on the consolidated balance sheets.

(6) Net carrying amount includes an allowance for lease losses of \$735,000 at December 31, 2017.

(7) Classified as assets held for sale on the consolidated balance sheets.

(8) Net carrying amount includes the lower of cost or market value adjustments of \$11.9 million at December 31, 2017.

(9) Net carrying amount includes a lower of cost or market value adjustment of \$1.9 million at December 31, 2017.

(10) There are no stated rates associated with these investments.

[\(Back to Index\)](#)

## Core Asset Classes

### CRE Debt Investments

**Whole loans.** We predominantly originate first mortgage loans, or whole loans, directly to borrowers. The direct origination of whole loans enables us to better control the structure of the loans and to maintain direct lending relationships with borrowers. We may create tranches of a loan we originate, consisting of an A note (described below) and a B note (described below), as well as mezzanine loans or other participations, which we may hold or sell to third parties. We do not obtain ratings on these investments. With respect to our portfolio at December 31, 2017, our whole loan investments had loan to value, or LTV, ratios that typically do not exceed 80%. Typically, our whole loans are structured with an original term of up to three years, with one-year extensions that bring the loan to a maximum term of five years. Substantially all of our CRE loans held at December 31, 2017 were whole loans. We expect to hold our whole loans to maturity.

**Senior interests in whole loans (A notes).** We may invest in senior interests in whole mortgage loans, referred to as A notes, either directly originated or purchased from third parties. We do not intend to obtain ratings on these investments. We expect our typical A note investments to have an LTV ratio not exceeding 70%, and will generally be structured with an original term of up to three years, with one-year extensions that bring the loan to a maximum term of five years, which we intend to hold to maturity. We did not hold any A note investments at December 31, 2017.

**Subordinate interests in whole loans (B notes).** To a lesser extent, we may invest in subordinate interests in whole mortgage loans, referred to as B notes, which we will either directly originate or purchase from third parties. B notes are loans secured by a first mortgage but are subordinated to an A note. The subordination of a B note is generally evidenced by an intercreditor or participation agreement between the holders of the A note and the B note. In some instances, the B note lender may require a security interest in the stock or other equity interests of the borrower as part of the transaction. B note lenders have the same obligations, collateral and borrower as the A note lender, but typically are subordinated in recovery upon a default to the A note lender. B notes share certain credit characteristics with second mortgages in that both are subject to greater credit risk with respect to the underlying mortgage collateral than the corresponding first mortgage or A note. We do not obtain ratings on these investments. We expect our typical B note investments to have LTV ratios between 55% and 80%, and will generally be structured with an original term of up to three years, with one-year extensions that bring the loan to a maximum term of five years. We expect to hold any B note investments we make or purchase to their maturity. We did not hold any B note investments at December 31, 2017.

In addition to the interest payable on a B note, we may earn fees charged to the borrower under the note or additional income by receiving principal payments in excess of the discounted price (below par value) we paid to acquire the note. Our ownership of a B note with controlling class rights may, in the event the financing fails to perform according to its terms, cause us to pursue our remedies as owner of the B note, which may include foreclosure on, or modification of, the note. In some cases, the owner of the A note may be able to foreclose or modify the note against our wishes as owner of the B note. As a result, our economic and business interests may diverge from the interests of the owner of the A note.

**Mezzanine financing.** We may also invest in mezzanine loans that are senior to the borrower's equity in, and subordinate to the mortgage loan on, a property. A mezzanine loan is typically secured by a pledge of the ownership interests in the entity that directly owns the real property. In addition, mezzanine loans typically include credit enhancements such as letters of credit, personal guarantees of the principals of the borrower, or collateral unrelated to the property. A mezzanine loan may be structured so that we receive a stated fixed or variable interest rate on the loan as well as a percentage of gross revenues and a percentage of the increase in the fair market value of the property securing the loan, payable upon maturity, refinancing or sale of the property. Mezzanine loans may also have prepayment lockouts, penalties, minimum profit hurdles and other mechanisms to protect and enhance returns in the event of premature repayment. We expect our mezzanine investments to have LTV ratios between 65% and 90% with stated maturity from three to five years and we will typically hold them to maturity. We did not hold any mezzanine loan investments at December 31, 2017.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

The following charts describe the property type and the geographic breakdown, by National Council of Real Estate Investment Fiduciaries region, of our CRE loan portfolio at December 31, 2017 (based on carrying value), excluding our legacy CRE loans classified as assets held for sale:

The total loan portfolio, at carrying value, is \$1.3 billion at December 31, 2017. "Other" property types include industrial (1.5%), manufactured housing (1.5%) and self-storage (0.9%).

[\(Back to Index\)](#)

9

---

[\(Back to Index\)](#)

The Southwest region constitutes 28.0% of our portfolio and its collateral is comprised of 70.3% multifamily properties and 23.6% office properties. The Pacific region constitutes 24.3% of our portfolio and its collateral is comprised of 47.6% retail properties and 32.9% multifamily properties. The Mountain region constitutes 12.5% of our portfolio and its collateral is comprised of 56.6% multifamily properties and 19.1% hotel properties. We view our investment and credit strategies as being adequately diversified across property types in the Southwest, Pacific and Mountain.

The entire Southwest region is comprised of loans in Texas. In the Pacific region, Southern California constitutes 13.4% of the total loan portfolio and Northern California constitutes 8.2% of the total loan portfolio. In the Mountain region, Nevada constitutes 5.1% of the total loan portfolio. In the Southeast region, Florida constitutes 8.3% of the total loan portfolio. In the Mid Atlantic region, North Carolina constitutes 6.2% of the total loan portfolio. In the Northeast region, Pennsylvania constitutes 5.6% of the total loan portfolio.

As part of the Plan, certain underperforming Legacy CRE whole loans were classified as held for sale at December 31, 2016. At December 31, 2017, 45.8%, 36.4% and 17.8% of our Legacy CRE whole loans are collateralized by retail, hotel and office properties, respectively. Of these loans, 82.2% are within the Pacific region (entirely California) and 17.8% are in the Mountain region (entirely Arizona).

#### CMBS

We invest in CMBS, which are securities that are secured by, or evidence interests in, a pool of mortgage loans secured by commercial properties. These securities may be senior or subordinate and may be either investment grade or non-investment grade. The majority of our CMBS investments have been rated by at least one nationally recognized rating agency.

The yields on CMBS depend on the timely payment of interest and principal due on the underlying mortgage loans, and defaults by the borrowers on such loans may ultimately result in deficiencies and defaults on the CMBS. In the event of a default, the trustee for the benefit of the holders of CMBS has recourse only to the underlying pool of mortgage loans and, if a loan is in default, to the mortgaged property securing such mortgage loan. After the trustee has exercised all of the rights of a lender under a defaulted mortgage loan and the related mortgaged property has been liquidated, no further remedy is available. However, holders of relatively senior classes of a CMBS trust will be protected to a certain degree by the structural features of the securitization transaction, such as the subordination of junior classes of the CMBS trust.

#### CRE Equity Investments

We may invest directly in the ownership of CRE equity investments by restructuring CRE loans and taking control of the properties where we believe we can protect capital and ultimately generate capital appreciation. We may acquire CRE equity investments through a joint venture or wholly-owned subsidiary. We intend to primarily use a subsidiary of our Manager to manage the CRE equity investments when held. At December 31, 2017, we had no direct ownership of any CRE equity investments.

#### Other Real Estate Investments

We may invest in joint ventures that make investments in a broad range of CRE assets through a variety of debt investments, including mezzanine loans, B notes, preferred equity and whole loans including bridge financing. At December 31, 2017, we had no investments in any joint ventures.

#### Non-Core Asset Classes

##### Structured Note Investments and RMBS

We have invested in structured notes and RMBS as part of our trading portfolio. Structured note investments are investments in structured finance vehicles that are typically among the most junior debt securities, or are equity securities, issued by the vehicle. The majority of our structured notes have not been rated by any nationally recognized rating agency. These notes and equity securities typically receive quarterly interest payments or distributions only after the more senior debt securities issued by the vehicle have received all amounts contractually then owed to them. We also have invested in RMBS, which are securities that are secured or evidenced by interests in pools of residential mortgage loans. These securities may be issued by government-sponsored agencies or other entities and may or may not be rated investment grade by rating agencies.

##### Residential Mortgage Origination

Primary Capital Mortgage, LLC, or PCM, is a residential mortgage lender and servicer, moved to discontinued operations in the fourth quarter of 2016. PCM's assets and liabilities were marked to the lower of cost or fair market value, less cost to sell, and transferred to held for sale status. At December 31, 2017, PCM's portfolio of salable assets consisted of loans held for sale with a fair value of \$1.9 million. We expect to liquidate the remaining assets and loans in 2018.

[\(Back to Index\)](#)

10

---

[\(Back to Index\)](#)

#### Middle Market Loans

We have made both senior and subordinated, secured and unsecured loans to middle market companies either through directly originated transactions or purchases from third parties. However, in August 2016 we completed the sale of Northport TRS, LLC and retained substantially all of the portfolio of broadly syndicated loans purchased through third parties, and a directly originated loan classified as held for sale, with an aggregate carrying value of \$29.3 million at December 31, 2017. As part of our strategic Plan, our middle market business was moved to discontinued operations in the fourth quarter of 2016 and the remaining assets were marked to the lower of cost or fair market value, less cost to sell, and transferred to held for sale status. We expect to liquidate these loans in 2018.

#### Equipment Leases

We had a preferred equity investment in an equipment leasing company that invests in small- and middle-ticket equipment leases. We sold this investment in July 2017.

#### Competition

See Item 1A "Risk Factors - Risks Related to Our Investments - We may face competition for suitable investments."

#### Management Agreement

We have a management agreement with our Manager pursuant to which our Manager provides the day-to-day management of our operations. The agreement was amended and restated on December 14, 2017. The management agreement requires our Manager to manage our business affairs in conformity with the policies and investment guidelines established by our board of directors. Our Manager provides its services under the supervision and direction of our board of directors. Our Manager is responsible for the selection, purchase and sale of our portfolio investments, our financing activities and providing us with investment advisory services. Our Manager also provides us with a Chief Financial Officer and a sufficient number of additional accounting, finance, tax and investor relations professionals. Our Manager receives fees and is reimbursed for its expenses as follows:

A monthly base management fee equal to 1/12th of the amount of our equity multiplied by 1.50%; provided, however that the base management fee is fixed at \$937,500 per month for each of the 15 successive months beginning on October 1, 2017. Under the management agreement, "equity" is equal to the net proceeds from issuances of shares of capital stock (or the value of common shares upon the conversion of convertible securities), less offering-related costs, plus or minus our retained earnings (excluding non-cash equity compensation incurred in current or prior periods) less all amounts we have paid for common stock and preferred stock repurchases. The calculation is adjusted for one-time events due to changes in GAAP as well as other non-cash charges, upon approval of our independent directors.

Incentive compensation, calculated quarterly as follows: (A) 20% of the amount by which our Core Earnings (as defined in the management agreement) for a quarter exceeds the product of (i) the weighted average of (x) the per share book value of our common shares at September 30, 2017 (subject to adjustments for certain items of income or loss from operations or gain or loss on resolutions of the Plan assets from October 1, 2017 through December 31, 2018) and (y) the per share price (including the conversion price, if applicable) paid for our common shares in each offering (or issuance upon the conversion of convertible securities) by us subsequent to September 30, 2017, multiplied by (ii) the greater of (x) 1.75% and (y) 0.4375% plus one-fourth of the Ten Year Treasury Rate for such quarter; multiplied by (B) the weighted average number of common shares outstanding during such quarter; subject to adjustment (a) to exclude events pursuant to changes in GAAP or the application of GAAP as well as non-recurring or unusual transactions or events, after discussion between our Manager and the independent directors and approval by a majority of the independent directors in the case of non-recurring or unusual transactions or events, and (b) to deduct an amount equal to any fees paid directly by a taxable REIT subsidiary, or TRS, (or any subsidiary thereof) to employees, agents and/or affiliates of the Manager with respect to profits of such TRS (or subsidiary thereof) generated from the services of such employees, agents and/or affiliates, the fee structure of which shall have been approved by a majority of the independent directors and which fees may not exceed 20% of the net income (before such fees) of such TRS (or subsidiary thereof).

Per loan underwriting and review fees in connection with valuations of and potential investments in certain subordinate commercial mortgage pass-through certificates, in amounts approved by a majority of the independent directors.

• Reimbursement of out-of-pocket expenses and certain other costs incurred by our Manager that relate directly to us and our operations.

[\(Back to Index\)](#)

11

---

[\(Back to Index\)](#)

Reimbursement of our Manager's expenses for the wages, salaries and benefits of (A) our Chief Financial Officer and accounting, finance, tax and investor relations professionals, and (B) employees of our ancillary operating subsidiaries, in proportion to such personnel's percentage of time dedicated to our or our subsidiaries' operations. Incentive compensation is calculated and payable quarterly to our Manager to the extent it is earned. Up to 75% of the incentive compensation is payable in cash and at least 25% is payable in the form of an award of common stock. Our Manager may elect to receive more than 25% of its incentive compensation in common stock. All shares are fully vested upon issuance, if any, however, our Manager may not sell such shares for one year after the incentive compensation becomes due and payable unless the management agreement is terminated. Shares payable as incentive compensation are valued as follows:

- if such shares are traded on a securities exchange, at the average of the closing prices of the shares on such exchange over the 30-day period ending three days prior to the issuance of such shares;
- if such shares are actively traded over-the-counter, at the average of the closing bid or sales price as applicable over the 30-day period ending three days prior to the issuance of such shares; and
- if there is no active market for such shares, at the fair market value as reasonably determined in good faith by our board of directors.

The management agreement's contract term ends on March 31, 2018 and the agreement provides for automatic one year renewals on such date and on each March 31 thereafter until terminated. Our board of directors reviews our Manager's performance annually. The management agreement may be terminated annually upon the affirmative vote of at least two-thirds of our independent directors, or by the affirmative vote of the holders of at least a majority of the outstanding shares of our common stock, based upon unsatisfactory performance that is materially detrimental to us or a determination by our independent directors that the management fees payable to our Manager are not fair, subject to our Manager's right to prevent such a compensation termination by accepting a mutually acceptable reduction of management fees. Our board of directors must provide 180 days' prior notice of any such termination. If we terminate the management agreement, our Manager is entitled to a termination fee equal to four times the sum of the average annual base management fee and the average annual incentive compensation earned by our Manager during the two 12-month periods immediately preceding the date of termination, calculated as of the end of the most recently completed fiscal quarter before the date of termination.

We may also terminate the management agreement for cause with 30 days' prior written notice from our board of directors. No termination fee is payable in the event of a termination for cause. The management agreement defines cause as:

- our Manager's continued material breach of any provision of the management agreement following a period of 30 days after written notice thereof;
- our Manager's fraud, misappropriation of funds, or embezzlement against us;
- our Manager's gross negligence in the performance of its duties under the management agreement;
- the dissolution, bankruptcy or insolvency, or the filing of a voluntary bankruptcy petition by our Manager; or a change of control (as defined in the management agreement) of our Manager if a majority of our independent directors determines, at any point during the 18 months following the change of control, that the change of control was detrimental to the ability of our Manager to perform its duties in substantially the same manner conducted before the change of control.

Cause does not include unsatisfactory performance that is materially detrimental to our business.

Our Manager may terminate the management agreement at its option, (A) in the event that we default in the performance or observance of any material term, condition or covenant contained in the management agreement and such default continues for a period of 30 days after written notice thereof, or (B) without payment of a termination fee by us, if we become regulated as an investment company under the Investment Company Act, with such termination deemed to occur immediately before such event.

**Regulatory Aspects of Our Investment Strategy: Exclusion from Regulation Under the Investment Company Act**

We operate our business so as to be excluded from regulation under the Investment Company Act. Because we conduct our business through wholly-owned subsidiaries, we must ensure not only that we qualify for an exclusion from regulation under the Investment Company Act, but also that each of our subsidiaries also qualifies.

[\(Back to Index\)](#)

12

---

[\(Back to Index\)](#)

We believe that RCC Real Estate, Inc., or RCC Real Estate, the subsidiary that at December 31, 2017 held all of our CRE loan assets, is excluded from Investment Company Act regulation under Section 3(c)(5)(C), a provision designed for companies that do not issue redeemable securities and are primarily engaged in the business of purchasing or otherwise acquiring mortgages and other liens on and interests in real estate. To qualify for this exclusion, at least 55% of RCC Real Estate's assets must consist of mortgage loans and other assets that are considered the functional equivalent of mortgage loans for purposes of the Investment Company Act and interests in real properties, which we refer to as "qualifying real estate assets." Moreover, 80% of RCC Real Estate's assets must consist of qualifying real estate assets and other real estate-related assets. RCC Real Estate has not issued, and does not intend to issue, redeemable securities.

We treat our investments in CRE whole loans, A notes, specific types of B notes and specific types of mezzanine loans as qualifying real estate assets for purposes of determining our eligibility for the exclusion provided by Section 3(c)(5)(C) to the extent such treatment is consistent with guidance provided by the Securities and Exchange Commission, or SEC, or its staff. We believe that SEC staff guidance allows us to treat B notes as qualifying real estate assets where we have unilateral rights to instruct the servicer to foreclose upon a defaulted mortgage loan, replace the servicer in the event the servicer, in its discretion, elects not to foreclose on such a loan, and purchase the A note in the event of a default on the mortgage loan. We believe, based upon an analysis of existing SEC staff guidance, that we may treat mezzanine loans as qualifying real estate assets where (i) the borrower is a special purpose bankruptcy-remote entity whose sole purpose is to hold all of the ownership interests in another special purpose entity that owns commercial real property, (ii) both entities are organized as limited liability companies or limited partnerships, (iii) under their organizational documents and the loan documents, neither entity may engage in any other business, (iv) the ownership interests of either entity have no value apart from the underlying real property which is essentially the only asset held by the property-owning entity, (v) the value of the underlying property in excess of the amount of senior obligations is in excess of the amount of the mezzanine loan, (vi) the borrower pledges its entire interest in the property-owning entity to the lender which obtains a perfected security interest in the collateral and (vii) the relative rights and priorities between the mezzanine lender and the senior lenders with respect to claims on the underlying property are set forth in an intercreditor agreement between the parties which gives the mezzanine lender certain cure and purchase rights in case there is a default on the senior loan. If the SEC staff provides future guidance that these investments are not qualifying real estate assets, then we will treat them, for purposes of determining our eligibility for the exclusion provided by Section 3(c)(5)(C), as real estate-related assets or miscellaneous assets, as appropriate. Historically, we have held "whole pool certificates" in mortgage loans, although, at December 31, 2017 and 2016, we had no whole pool certificates in our portfolios. Pursuant to existing SEC staff guidance, we consider whole pool certificates to be qualifying real estate assets. A whole pool certificate is a certificate that represents the entire beneficial interest in an underlying pool of mortgage loans. By contrast, a certificate that represents less than the entire beneficial interest in the underlying mortgage loans is not considered to be a qualifying real estate asset for purposes of the 55% test, but constitutes a real estate-related asset for purposes of the 80% test. We do not expect that investments in CDOs, ABS, syndicated corporate loans, lease receivables, trust preferred securities or private equity will constitute qualifying real estate assets. Moreover, to the extent that these investments are not backed by mortgage loans or other interests in real estate, they will not constitute real estate-related assets. Instead, they will constitute miscellaneous assets, which can constitute no more than 20% of RCC Real Estate's assets.

To the extent RCC Real Estate holds its CRE loan assets through wholly or majority-owned CDO subsidiaries, RCC Real Estate also intends to conduct its operations so that it will not come within the definition of an investment company set forth in Section 3(a)(1)(C) of the Investment Company Act because less than 40% of the value of its total assets (exclusive of government securities and cash items) on an unconsolidated basis will consist of "investment securities," which we refer to as the 40% test. "Investment securities" exclude U.S. government securities and securities of majority-owned subsidiaries that are not themselves investment companies and are not relying on the exception from the definition of investment company under Section 3(c)(1) or Section 3(c)(7) of the Investment Company Act. Certain of the wholly-owned CDO subsidiaries of RCC Real Estate rely on Section 3(c)(5)(C) for their Investment Company Act exemption, with the result that RCC Real Estate's interests in the CDO subsidiaries do not

constitute "investment securities" for the purpose of the 40% test.

Our other subsidiaries, RCC Commercial, Inc. ("RCC Commercial"), RCC Commercial II, Inc. ("Commercial II"), RCC Commercial III, Inc. ("Commercial III"), Resource TRS, LLC, RSO EquityCo, LLC ("RSO Equity"), RCC Residential Portfolio, Inc. ("RCC Resi Portfolio") and RCC Residential Portfolio TRS, Inc. ("RCC Resi TRS"), do not qualify for the Section 3(c)(5)(C) exclusion. However, we believe they qualify for exclusion under either Section 3(c)(1) or 3(c)(7). As required by these exclusions, we will not allow any of these entities to make, or propose to make, a public offering of its securities. In addition, with respect to those subsidiaries for which we rely upon the Section 3(c)(1) exclusion, and as required thereby, we limit the number of holders of their securities to not more than 100 persons calculated in accordance with the attribution rules of Section 3(c)(1), and with respect to those subsidiaries for which we rely on the Section 3(c)(7) exclusion, and as required thereby, we limit ownership of their securities to "qualified purchasers." If we form other subsidiaries, we must ensure that they qualify for an exemption or exclusion from regulation under the Investment Company Act.

[\(Back to Index\)](#)

13

---

[\(Back to Index\)](#)

Moreover, we must ensure that Resource Capital Corp. itself qualifies for an exclusion from regulation under the Investment Company Act. We do so by monitoring the value of our interests in our subsidiaries so that we can ensure that Resource Capital Corp. satisfies the 40% test. Our interest in RCC Real Estate does not constitute an "investment security" for purposes of the 40% test, but our interests in RCC Commercial, Commercial II, Commercial III, Resource TRS, LLC, RSO Equity, RCC Resi Portfolio and RCC Resi TRS do. Accordingly, we must monitor the value of our interests in those subsidiaries to ensure that the value of our interests in them does not exceed 40% of the value of our total assets.

We have not received, nor have we sought, a no-action letter from the SEC regarding how our investment strategy fits within the exclusions from regulation under the Investment Company Act. To the extent that the SEC provides more specific or different guidance regarding the treatment of assets as qualifying real estate assets or real estate-related assets, we may have to adjust our investment strategy. Any additional guidance from the SEC could inhibit our ability to pursue our investment strategy.

#### Employees

We have no direct employees. Under our Management Agreement, our Manager provides us with all management and support personnel and services necessary for our day-to-day operations. To provide its services, our Manager draws upon the expertise and experience of C-III and Resource America, Inc. or Resource America. Under our management agreement, our Manager also must provide us with our Chief Financial Officer, and a sufficient number of additional accounting, finance, tax and investor relations professionals. We bear the expense of the wages, salaries and benefits of our Chief Financial Officer, and the accounting, finance, tax and investor relations professionals to the extent dedicated to us.

#### Corporate Governance and Internet Address

We emphasize the importance of professional business conduct and ethics through our corporate governance initiatives. Our board of directors consists of a majority of independent directors, as defined in the Securities Exchange Act of 1934, as amended, and relevant New York Stock Exchange, or NYSE, rules. The audit, compensation and nominating and governance committees of our board of directors are composed exclusively of independent directors. We have adopted corporate governance guidelines and a code of business conduct and ethics, which delineate our standards for our officers and directors and the employees of our Manager who provide us services.

Our internet address is [www.resourcecapitalcorp.com](http://www.resourcecapitalcorp.com). We make available, free of charge through a link on our site, all reports filed with the SEC as soon as reasonably practicable after such filing. Our site also contains our code of business conduct and ethics, corporate governance guidelines and the charters of the audit committee, nominating and governance committee and compensation committee of our board of directors. A complete list of our filings is available on the SEC's website at [www.sec.gov](http://www.sec.gov). Our SEC filings are also available at the Securities and Exchange Commission's Public Reference Room at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. The Public Reference Room may be contacted at telephone number (800) 732-0330 for further information.

#### ITEM IA. RISK FACTORS

This section describes material risks affecting our business. In connection with the forward-looking statements that appear in this annual report, you should carefully review the factors discussed below and the cautionary statements referred to in "Forward-Looking Statements."

##### Impact of Current Economic Conditions

If current economic and market conditions were to deteriorate, our ability to obtain the capital and financing necessary for growth may be limited, which could limit our profitability, ability to make distributions and the market price of our common stock.

We depend upon the availability of adequate debt and equity capital for growth in our operations. Although historically we have been able to raise both debt and equity capital, recent market and economic conditions have made obtaining additional equity capital highly dilutive to existing shareholders and may possibly affect our ability to raise debt capital. If current economic conditions were to deteriorate, our ability to access debt or equity capital on acceptable terms, could be further limited, which could limit our ability to generate growth, our profitability, our ability to make distributions and the market price of our common stock. In addition, as a REIT, we must distribute

annually at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gain, to our stockholders and are therefore not able to retain significant amounts of our earnings for new investments. While we may, through our TRSs retain earnings as new capital, we are subject to REIT qualification requirements that limit the value of TRS stock and securities relative to the other assets owned by a REIT.

[\(Back to Index\)](#)

14

---

[\(Back to Index\)](#)

We cannot predict the effects on us of actions taken by the U.S. government and governmental agencies in response to economic conditions in the United States.

In response to economic and market conditions, U.S. and foreign governments and governmental agencies have established or proposed a number of programs designed to improve the financial system and credit markets, and to stimulate economic growth. Many governments, including federal, state and local governments in the U.S., are incurring substantial budget deficits and seeking financing in international and national credit markets as well as proposing or enacting austerity programs that seek to reduce government spending, raise taxes, or both. Many credit providers, including banks, may need to obtain additional capital before they will be able to expand their lending activities. We are unable to evaluate the effects these programs and conditions will have upon our financial condition, income, or ability to make distributions to our stockholders.

Our strategic Plan involves the disposition of our investments in non-core businesses, including the middle market lending and residential real estate lending segments as well as several Legacy CRE assets and other miscellaneous non-CRE investments and economic conditions may impede our ability to dispose of these investments.

Our board of directors approved the Plan to dispose of non-core businesses in November 2016. Economic conditions may hinder our ability to complete the disposition of these assets and businesses. We have adjusted the amount of these assets to fair market value less costs to sell at December 31, 2017. However, we may not be able to dispose of the assets that remain at December 31, 2017 at prices that would allow us to recover the book value of our investments and we may incur further losses as a result of difficult economic conditions and/or lack of buying interest.

#### Risks Related to Our Financing

Our portfolio has been financed in material part through the use of leverage that may reduce the return on our investments and cash available for distribution.

Our portfolio has been financed in material part through the use of leverage and, as credit market conditions permit, we will seek such financing in the future. Using leverage subjects us to risks associated with debt financing, including the risks that:

- the cash provided by our operating activities will not be sufficient to meet required payments of principal and interest, the cost of financing may increase relative to the income from the assets financed, reducing the income we have available to pay distributions, and

- our investments may have maturities that differ from the maturities of the related financing and, consequently, the risk that the terms of any refinancing we obtain will not be as favorable as the terms of existing financing.

If we are unable to secure refinancing of our currently outstanding financing, when due, on acceptable terms, we may be forced to dispose of some of our assets at disadvantageous terms or to obtain financing at unfavorable terms, either of which may result in losses to us or reduce the cash flow available to meet our debt service obligations or to pay distributions.

Financing that we may obtain, and financing we have obtained through CDOs and CLOs, typically requires, or will require, us to maintain a specified ratio of the amount of the financing to the value of the assets financed. A decrease in the value of these assets may lead to margin calls or calls for the pledge of additional assets, which we will have to satisfy. We may not have sufficient funds or unpledged assets to satisfy any such calls, which could result in our loss of distributions from and interests in affected CDOs and CLOs, which would reduce our assets, income and ability to make distributions.

Our repurchase agreements, warehouse facilities and other short-term financings have credit risks that could result in losses.

If we accumulate assets for a CDO or CLO on a short-term credit facility and do not complete the CDO financing, or if a default occurs under the facility, the short-term lender will sell the assets and we would be responsible for the amount by which the original purchase price of the assets exceeds their sale price, up to the amount of our investment or guaranty.

We will lose money on our repurchase transactions if the counterparty to the transaction defaults on its obligation to resell the underlying security back to us at the end of the transaction term, or if the value of the underlying security has declined as of the end of the term or if we default on our obligations under the repurchase agreements.

[\(Back to Index\)](#)

15

---

[\(Back to Index\)](#)

We are exposed to loss if lenders under our repurchase agreements, warehouse facilities, or other short-term lenders liquidate the assets securing those facilities. Moreover, assets acquired by us pursuant to our repurchase agreements, warehouse facilities or other short-term debt may not be suitable for refinancing through long-term arrangements that may require us to liquidate some or all of the related assets.

We have entered into repurchase agreements and warehouse facilities and expect in the future to seek additional debt to finance our growth. Lenders typically have the right to liquidate assets securing or acquired under these facilities upon the occurrence of specified events, such as an event of default. We are exposed to loss if the proceeds received by the lender upon liquidation are insufficient to satisfy our obligation to the lender. We are also subject to the risk that the assets subject to such repurchase agreements, warehouse facilities or other debt might not be suitable for long-term refinancing or securitization transactions. If we are unable to refinance these assets on a long-term basis, or if long-term financing is more expensive than we anticipated at the time of our acquisition of the assets to be financed, we might be required to liquidate assets.

We will incur losses on our repurchase transactions if the counterparty to the transactions defaults on its obligation to resell the underlying assets back to us at the end of the transaction term, or if the value of the underlying assets has declined as of the end of the term or if we default in our obligations to purchase the assets.

When engaged in repurchase transactions, we generally sell assets to the transaction counterparty and receive cash from the counterparty. The counterparty must resell the assets back to us at the end of the term of the transaction. Because the cash we receive from the counterparty when we initially sell the assets is less than the market value of those assets, if the counterparty defaults on its obligation to resell the assets back to us we will incur a loss on the transaction. We will also incur a loss if the value of the underlying assets has declined as of the end of the transaction term, as we will have to repurchase the assets for their initial value but would receive assets worth less than that amount. If we default upon our obligation to repurchase the assets, the counterparty may liquidate them at a loss, which we are obligated to repay. Any losses we incur on our repurchase transactions would reduce our equity and our earnings, and thus our cash available for distribution to our stockholders.

Financing our REIT qualifying assets with repurchase agreements and warehouse facilities could adversely affect our ability to qualify as a REIT.

We have entered into and intend to enter into, sale and repurchase agreements under which we nominally sell certain REIT qualifying assets to a counterparty and simultaneously enter into an agreement to repurchase the sold assets. We believe that we will be treated for U.S. federal income tax purposes as the owner of the assets that are the subject of any such agreement, notwithstanding that we may transfer record ownership of the assets to the counterparty during the term of the agreement. It is possible, however, that the Internal Revenue Service, or IRS, could assert that we did not own the assets during the term of the sale and repurchase agreement, in which case our ability to qualify as a REIT would be adversely affected. If any of our REIT qualifying assets are subject to a repurchase agreement and are sold by the counterparty in connection with a margin call, the loss of those assets could impair our ability to qualify as a REIT. Accordingly, unlike other REITs, we may be subject to additional risk regarding our ability to qualify and maintain our qualification as a REIT.

Historically, we have financed most of our investments through CDOs and have retained the equity. CDO equity receives distributions from the CDO only if the CDO generates enough income to first pay the holders of its debt securities and its expenses.

Historically, we have financed most of our investments through CDOs (including CLOs) in which we retained the equity interest. Depending on market conditions and credit availability, we intend to use CDOs to finance our investments in the future. The equity interests of a CDO are subordinate in right of payment to all other securities issued by the CDO. The equity is usually entitled to all of the income generated by the CDO after the CDO pays all of the interest due on the debt securities and its other expenses. However, there will be little or no income available to the CDO equity if there are excessive defaults by the issuers of the underlying collateral, which would significantly reduce the value of that interest. Reductions in the value of the equity interests we have in a CDO, if we determine that they are other-than-temporary, will reduce our earnings. In addition, the liquidity of the equity securities of CDOs is constrained and, because they represent a leveraged investment in the CDO's assets, the value of the equity securities will generally have greater fluctuations than the value of the underlying collateral.

[\(Back to Index\)](#)

16

---

[\(Back to Index\)](#)

If our CDO financings fail to meet their performance tests, including over-collateralization requirements, our net income and cash flow from these CDOs will be eliminated.

Our CDOs generally provide that the principal amount of their assets must exceed the principal balance of the related securities issued by them by a certain amount, commonly referred to as "over-collateralization." If delinquencies and/or losses exceed specified levels, based on the analysis by the rating agencies (or any financial guaranty insurer) of the characteristics of the assets collateralizing the securities issued by the CDO issuer, the required level of over-collateralization may be increased or may be prevented from decreasing as would otherwise be permitted if losses or delinquencies did not exceed those levels. A failure by a CDO to satisfy an over-collateralization test typically results in accelerated distributions to the holders of the senior debt securities issued by the CDO entity, resulting in reduction or elimination of distributions to more junior securities until the over-collateralization requirements have been met or the senior debt securities have been paid in full.

Our equity holdings and, when we acquire debt interests in CDOs, our debt interests, if any, generally are subordinate in right of payment to the other classes of debt securities issued by the CDO entity. Accordingly, if over-collateralization tests are not met, distributions on the subordinated debt and equity we hold in these CDOs will cease, resulting in a substantial reduction in our cash flow. Other tests (based on delinquency levels, interest coverage or other criteria) may restrict our ability to receive cash distributions from assets collateralizing the securities issued by the CDO entity. Although at December 31, 2017, all of our CDOs met their performance tests, we cannot assure you that our CDOs will satisfy the performance tests in the future. For information concerning compliance by our CDOs with their over-collateralization tests, see Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operation - Liquidity and Capital Resources."

If any of our CDOs fails to meet collateralization or other tests relevant to the most senior debt issued and outstanding by the CDO issuer, an event of default may occur under that CDO. If that occurs, our Manager's ability to manage the CDO likely would be terminated and our ability to attempt to cure any defaults in the CDO would be limited, which would increase the likelihood of a reduction or elimination of cash flow and returns to us in those CDOs for an indefinite time.

If we issue debt securities, the terms may restrict our ability to make cash distributions, require us to obtain approval to sell our assets or otherwise restrict our operations in ways which could make it difficult to execute our investment strategy and achieve our investment objectives.

Any debt securities we may issue in the future will likely be governed by an indenture or other instrument containing covenants restricting our operating flexibility. Holders of senior securities may be granted the right to hold a perfected security interest in certain of our assets, to accelerate payments due under the indenture if we breach financial or other covenants, to restrict distributions, and to require us to obtain their approval to sell assets. These covenants could limit our ability to operate our business or manage our assets effectively. Additionally, any convertible or exchangeable securities that we issue may have rights, preferences and privileges more favorable than those of our common stock. We, and indirectly our stockholders, will bear the cost of issuing and servicing such securities.

Depending upon market conditions, we intend to seek financing through CDOs, which would expose us to risks relating to the accumulation of assets for use in the CDOs.

Historically, we have financed a significant portion of our assets through the use of CDOs and CLOs, and have accumulated assets for these financings through short-term credit facilities, typically repurchase agreements or warehouse facilities. Depending upon market condition, and, consequently, the extent to which such financing is available to us, we expect to seek similar financing arrangements in the future. In addition to risks discussed above, these arrangements could expose us to other credit risks, including the following:

An event of default under one short-term facility may constitute a default under other credit facilities we may have, potentially resulting in asset sales and losses to us, as well as increasing our financing costs or reducing the amount of investable funds available to us.

We may be unable to acquire a sufficient amount of eligible assets to maximize the efficiency of a CDO or CLO issuance, which would require us to seek other forms of term financing or liquidate the assets. We may not be able to obtain term financing on acceptable terms, or at all, and liquidation of the assets may be at prices less than those we paid, resulting in losses to us.

[\(Back to Index\)](#)

17

---

[\(Back to Index\)](#)

Using short-term financing to accumulate assets for a CDO or CLO issuance may require us to obtain new financing as the short-term financing matures. Residual financing may not be available on acceptable terms, or at all. Moreover, an increase in short-term interest rates at the time that we seek to enter into new borrowings would reduce the spread between the income on our assets and the cost of our borrowings. This would reduce returns on our assets, which would reduce earnings and, in turn, cash available for distribution to our stockholders.

Our hedging transactions may not completely insulate us from interest rate risk and may result in poorer overall investment performance than if we had not engaged in any hedging transactions.

Subject to maintaining our qualification as a REIT, we pursue various hedging strategies to seek to reduce our exposure to losses from adverse changes in interest rates. Our interest rate hedging activity varies in scope depending upon market conditions relating to, among other factors, the level and volatility of interest rates and the type of assets we hold. There are practical limitations on our ability to insulate our portfolio from all of the negative consequences associated with changes in short-term interest rates, including:

- Available interest rate hedges may not correspond directly with the interest rate risk against which we seek protection.

- The duration of the hedge may not match the duration of the related liability.

- Interest rate hedging can be expensive, particularly during periods of rising and volatile interest rates. Hedging costs may include structuring and legal fees and fees payable to hedge counterparties to execute the hedge transaction.

- Losses on a hedge position may reduce the cash available to make distributions to stockholders, and may exceed the amounts invested in the hedge position.

- The amount of income that a REIT may earn from hedging transactions, other than through a TRS, is limited by federal tax provisions governing REITs.

- The credit quality of the party owing money on the hedge may be downgraded to such an extent that it impairs our ability to sell or assign our side of the hedging transaction.

- The party owing money in the hedging transaction may default on its obligation to pay.

We have adopted written policies and procedures governing our hedging activities. Under these policies and procedures, our board of directors is responsible for approving the types of hedging instruments we may use, absolute limits on the notional amount and term of a hedging instrument and parameters for the credit-worthiness of hedge counterparties. The senior managers responsible for each of our targeted asset classes are responsible for executing transactions using the services of independent interest rate risk management consultants, documenting the transactions, monitoring the valuation and effectiveness of the hedges, and providing reports concerning our hedging activities and the valuation and effectiveness of our hedges to the audit committee of our board of directors no less often than quarterly. Our guidelines also require us to engage one or more experienced third-party advisors to provide us with assistance in the identification of interest rate risks, the analysis, selection and timing of risk protection strategies, the administration and negotiation of hedge documentation, settlement or disposition of hedges, compliance with hedge accounting requirements and measurement of hedge effectiveness and valuation.

Hedging against a decline in the values of our portfolio positions does not eliminate the possibility of fluctuations in the values of the positions or prevent losses if the values of the positions decline. Hedging transactions may also limit the opportunity for gain if the values of the portfolio positions should increase. Moreover, we may not be able to hedge against an interest rate fluctuation that is generally anticipated by the market.

The success of our hedging transactions will depend on our Manager's ability to correctly predict movements of interest rates. Therefore, unanticipated changes in interest rates may result in poorer overall investment performance than if we had not engaged in any such hedging transactions. In addition, the degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the portfolio positions being hedged may vary. Moreover, for a variety of reasons, we may not seek to establish a perfect correlation between such hedging instruments and the portfolio holdings being hedged. Any such imperfect correlation may prevent us from achieving the intended hedge and expose us to risk of loss.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

Hedging instruments often are not traded on regulated exchanges, guaranteed by an exchange or its clearing house, or regulated by any U.S. or foreign governmental authorities and involve risks of default by the hedging counterparty and illiquidity.

Subject to maintaining our qualification as a REIT, part of our investment strategy involves entering into puts and calls on securities or indices of securities, interest rate swaps, caps and collars, including options and forward contracts and interest rate lock agreements, principally Treasury lock agreements, to seek to hedge against mismatches between the cash flows from our assets and the interest payments on our liabilities. Currently, many hedging instruments are not traded on regulated exchanges, guaranteed by an exchange or its clearing house, or regulated by any U.S. or foreign governmental authorities. Consequently, there may be no applicable requirements with respect to record keeping, financial responsibility or segregation of customer funds and positions. Furthermore, the enforceability of agreements underlying derivative transactions may depend on compliance with applicable statutory and commodity and other regulatory requirements and, depending on the identity of the counterparty, applicable international requirements. The business failure of a counterparty with whom we enter into a hedging transaction will most likely result in a default. Default by a party with whom we entered into a hedging transaction may result in the loss of unrealized profits and force us to cover our resale commitments, if any, at the then current market price. Although generally we seek to reserve the right to terminate our hedging positions, we may not always be able to dispose of or close out a hedging position without the consent of the hedging counterparty, and we may not be able to enter into an offsetting contract in order to cover our risk. A liquid secondary market may not exist for hedging instruments purchased or sold, and we may have to maintain a position until exercise or expiration, which could result in losses.

Hedging instruments that we enter into could expose us to unexpected losses in the future.

We have entered and may in the future enter into hedging instruments that require us to fund cash payments under certain circumstances, for example, upon the early termination of the instrument caused by an event of default or other early termination event, or the decision by a counterparty to request additional collateral for margin it is contractually owed under the terms of the instrument. The amount due would be equal to the unrealized loss of the open positions with the counterparty and could also include other fees and charges. These liabilities will be reflected on our consolidated balance sheets, and our ability to fund these obligations will depend on the liquidity of our assets and access to capital at the time, and the need to fund these obligations could adversely impact our financial condition. Our interest rate hedging arrangements are cleared through a central counterparty and, as a consequence, our hedging strategy may fail if the utilized Derivatives Clearing Organization or Futures Commission Merchant defaults in its obligations.

The Commodity Futures Trading Commission has issued and continues to issue new rules regarding swaps, under the authority granted to it pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or Dodd-Frank Act. Most interest rate hedging arrangements that we enter into must be cleared by a Derivatives Clearing Organization, or DCO. We access the DCO through Futures Commission Merchants, or FCM. For any centrally cleared interest rate swap, were the DCO or FCM to default in its obligations under these hedging arrangements, we would lose the hedge protection for which we had contracted and, depending upon market conditions, could result in significant losses to us. We cannot assure you that we could replace the defaulted hedges or that the terms of any replacement hedges we could obtain would be on similar terms, or as to the cost to us of obtaining replacement hedges.

All of our foreign currency hedging arrangements are with a single counterparty and, as a consequence, our hedging strategy may fail if that counterparty defaults in its obligations.

At December 31, 2017, all of our outstanding foreign currency hedging arrangements, with a notional amount of \$3.6 million, were with Wells Fargo Bank, N.A., or Wells Fargo. Were Wells Fargo to default in its obligations under these hedging arrangements, we would lose the hedge protection for which we had contracted which, depending upon market conditions, could result in significant losses to us. We cannot assure you that we could replace the defaulted hedges or that the terms of any replacement hedges we could obtain would be on similar terms, or as to the cost to us of obtaining replacement hedges.

### Risks Related to Our Operations

We may change our investment strategy without stockholder consent, which may result in riskier investments than those currently targeted.

Subject to maintaining our qualification as a REIT and our exclusion from regulation under the Investment Company Act, we may change our investment strategy, including the percentage of assets that may be invested in each asset class, or in the case of securities, in a single issuer, at any time without the consent of our stockholders, which could result in our making investments that are different from, and possibly riskier than, the investments described in this report. A change in our investment strategy may increase our exposure to interest rate, credit market and real estate market fluctuations, all of which may reduce the market price of our common stock and reduce our ability to make distributions to stockholders. Furthermore, a change in our asset allocation could result in our making investments in asset categories different from those described in this report.

We believe core earnings is an appropriate measure of our operating performance; however, in certain instances core earnings may not be reflective of actual economic results.

We utilize core earnings as a measure of our operating performance and believe that it is useful to analysts, investors and other parties in the evaluations of REITs. We believe core earnings is a useful measure of our operating performance because it excludes the effects of certain transactions and GAAP adjustments that we believe are not necessarily indicative of our current CRE loan origination portfolio and other CRE-related investments and operations. Core Earnings excludes (i) non-cash equity compensation expense, (ii) unrealized gains or losses, (iii) non-cash provision for loan losses, (iv) non-cash impairments on securities, (v) non-cash amortization of discounts or premiums associated with borrowings, (vi) net income or loss from limited partnership interests owned at the initial measurement date, (vii) net income or loss from non-core assets, (viii) real estate depreciation and amortization, (ix) foreign currency gains or losses and (x) income or losses from discontinued operations. Core Earnings may also be adjusted periodically to exclude certain one-time events pursuant to changes in GAAP and certain non-cash items. Although pursuant to the Third Amended and Restated Management Agreement we calculate incentive compensation using Core Earnings excluding incentive fees payable to the Manager, beginning with the three months and year ended December 31, 2017, we include incentive fees payable to the Manager in Core Earnings for reporting purposes. Core Earnings does not represent net income or cash generated from operating activities and should not be considered as an alternative to GAAP net income or as a measure of liquidity under GAAP. Our methodology for calculating Core Earnings may differ from methodologies used by other companies to calculate similar supplemental performance measures, and accordingly, our reported Core Earnings may not be comparable to similar performance measures used by other companies.

If we fail to maintain an effective system of internal controls, we may not be able to accurately report our financial results or prevent fraud.

If we fail to maintain an effective system of internal control, fail to correct any flaws in the design or operating effectiveness of internal controls over financial reporting and disclosure, or fail to prevent fraud, our stockholders could lose confidence in our financial and other reporting, which could harm our business and the trading price of our common stock.

Many of our investments may be illiquid, which may result in our realizing less than their recorded value should we need to sell such investments quickly.

If we determine to sell one or more of our investments, we may encounter difficulties in finding buyers in a timely manner as real estate debt and other of our investments generally cannot be disposed of quickly, especially when market conditions are poor. Moreover, some of these assets may be subject to legal and other restrictions on resale. If we are required to liquidate all or a portion of our portfolio quickly, we may realize significantly less than the value at which we have previously recorded our investments. In addition, we may face other restrictions on our ability to liquidate an investment in a business entity to the extent that we, our Manager or C-III has or could be attributed with material non-public information regarding such business entity. These factors may limit our ability to vary our portfolio promptly in response to changes in economic or other conditions and may also limit our ability to use portfolio sales as a source of liquidity, which could limit our ability to make distributions to our stockholders or repay debt.

We may have to repurchase assets that we have sold in connection with CDOs and other securitizations. If any of the assets that we originate or acquire and sell or securitize do not comply with representations and warranties that we make about them, we may have to repurchase these assets from the CDO or securitization vehicle, or replace them. In addition, we may have to indemnify purchasers for losses or expenses incurred as a result of a breach of a representation or warranty. Any significant repurchases or indemnification payments could materially reduce our liquidity, earnings and ability to make distributions.

[\(Back to Index\)](#)

20

---

[\(Back to Index\)](#)

We may be exposed to environmental liabilities with respect to properties to which we take title.

In the course of our business, we have taken title to, and expect we will in the future take title to, real estate through foreclosure on collateral underlying real estate debt investments. When we do take title to any property, we could be subject to environmental liabilities with respect to it. In such a circumstance, we may be held liable to a governmental entity or to third parties for property damage, personal injury, investigation and clean-up costs they incur as a result of environmental contamination, or may have to investigate or clean up hazardous or toxic substances, or chemical releases at a property. The costs associated with investigation or remediation activities could be substantial and could reduce our income and ability to make distributions.

If our allowance for loan losses is not adequate to cover actual future loan and lease losses, our earnings may decline. We maintain an allowance for loan losses to provide for loan defaults and non-performance by borrowers of their obligations. Our allowance for loan losses may not be adequate to cover actual future loan losses and future provisions for loan losses could materially reduce our income. We base our allowance for loan losses on prior experience, as well as an evaluation of risks in the current portfolio. However, losses have in the past, and may in the future, exceed our current estimates, and the difference could be substantial. The amount of future losses is susceptible to changes in economic, operating and other conditions that may be beyond our control, including changes in interest rates, changes in borrowers' creditworthiness and the value of collateral securing loans. Additionally, if we seek to expand our loan portfolios, we may need to make additional provisions for loan losses to ensure that the allowance remains at levels deemed appropriate by our management for the size and quality of our portfolios. While we believe that our allowance for loan and lease losses at December 31, 2017 is adequate to cover our anticipated losses, we cannot assure you that it will not increase in the future. Any increase in our allowance for loan losses will reduce our income and, if sufficiently large, could cause us to incur loss.

Our due diligence may not reveal all of an investment's weaknesses.

Before investing in any asset, we will assess the strength and skills of the asset's management and operations, the value of the asset and, for debt investments, the value of any collateral securing the debt, the ability of the asset or underlying collateral to service the debt and other factors that we believe are material to the performance of the investment. In making the assessment and otherwise conducting customary due diligence, we will rely on the resources available to us and, in some cases, an investigation by third parties. This process is particularly important and subjective with respect to investments in newly-organized entities because there may be little or no information publicly available about the entities or, with respect to debt securities, any underlying collateral. Our due diligence processes, however, may not uncover all facts that may be relevant to an investment decision.

#### Risks Related to Our Investments

Declines in the market values of our investments may reduce periodic reported results, credit availability and our ability to make distributions.

We classify a substantial portion of our assets for accounting purposes as "available-for-sale." As a result, reductions in the market values of those assets are directly charged or credited to accumulated other comprehensive income and could reduce our stockholders' equity. A decline in these values will reduce the book value of our assets. Moreover, if the decline in value of an available-for-sale asset is other-than-temporary, we are required by GAAP to record the decline as an asset impairment which will reduce our earnings.

A decline in the market value of our assets may also adversely affect us in instances where we have borrowed money based on the market value of those assets. If the market value of those assets declines, the lender may require us to post additional collateral to support the loan. If we were unable to post the additional collateral, we would have to repay some portion or all of the loan, which may require us to sell assets, which could potentially be under adverse market conditions. As a result, our earnings would be reduced or we could sustain losses, and cash available to make distributions could be reduced or eliminated.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

Increases in interest rates and other factors could reduce the value of our investments, result in reduced earnings or losses and reduce our ability to pay distributions.

A significant risk associated with our investment in CRE-related loans, CMBS and other debt investments is the risk that either or both of long-term and short-term interest rates increase significantly. If long-term rates increase, the market value of our assets would decline. Even if assets underlying investments we may own in the future are guaranteed by one or more persons, including government or government-sponsored agencies, those guarantees do not protect against declines in market value of the related assets caused by interest rate changes. At the same time, with respect to assets that are not match-funded or that have been acquired with variable rate or short-term financing, an increase in short-term interest rates would increase our interest expense, reducing our net interest spread or possibly result in negative cash flow from those assets. This could result in reduced profitability and distributions or losses. Investing in mezzanine debt and mezzanine or other subordinated tranches of CMBS, syndicated corporate loans and other ABS involves greater risks of loss than senior secured debt investments.

Subject to maintaining our qualification as a REIT and exclusion from regulation under the Investment Company Act, we may invest in mezzanine debt or other subordinated tranches of CMBS, syndicated corporate loans and other ABS and have historically invested in mezzanine debt. These types of investments carry a higher degree of risk of loss than senior secured debt investments such as our whole loan investments because, in the event of default and foreclosure, holders of senior liens will be paid in full before mezzanine investors. Depending on the value of the underlying collateral at the time of foreclosure, there may not be sufficient assets to pay all or any part of amounts owed to mezzanine investors. Moreover, mezzanine and other subordinate debt investments may have higher LTV than conventional senior lien financing, resulting in less equity in the collateral and increasing the risk of loss of principal. If a borrower defaults or declares bankruptcy, we may be subject to agreements restricting or eliminating our rights as a creditor, including rights to call a default, foreclose on collateral, and accelerate maturity or control decisions made in bankruptcy proceedings. In addition, the prices of lower credit quality securities are generally less sensitive to interest rate changes than more highly rated investments, but more sensitive to economic downturns or individual issuer developments because the ability of obligors of investments underlying the securities to make principal and interest payments may be impaired. In such event, existing credit support relating to the securities' structure may not be sufficient to protect us against loss of our principal. For additional risks regarding real estate-related loans, see "Risks Related to Real Estate Investments."

We record some of our portfolio investments, including those classified as assets held for sale, at fair value as estimated by our management and, as a result, there will be uncertainty as to the value of these investments.

We currently hold, and expect that we will hold in the future, portfolio investments that are not publicly traded. The fair value of securities and other investments that are not publicly traded may not be readily determinable. We value these investments quarterly at fair value as determined under policies approved by our board of directors. Because such valuations are inherently uncertain, may fluctuate over short periods of time and may be based on estimates, our determinations of fair value may differ materially from the values that would have obtained if a ready market for them existed. The value of our common stock will likely decrease if our determinations regarding the fair value of these investments are materially higher than the values that we ultimately realize upon their disposal.

Our assets have historically included syndicated corporate loans, ABS and corporate bonds which will carry higher risks of loss than our real estate-related portfolio.

Historically we have invested in syndicated corporate loans, ABS and corporate bonds, subject to maintaining our qualification as a REIT and exclusion from regulation under the Investment Company Act. Syndicated corporate loan investments, ABS investments or corporate bond investments, which are principally backed by small business and syndicated corporate loans, may not be secured by mortgages or other liens on assets or may involve higher LTV than our real estate-related investments. Historically, our syndicated corporate loan investments, ABS investments and our corporate bond investments backed by loans, have included loans that have an interest-only payment schedule or a schedule that does not fully amortize principal over the term of the loan, which make repayment of loans dependent upon the borrowers' liquidity or ability to refinance the loans at maturity. Numerous factors affect a borrower's ability to repay or refinance loans at maturity, including national and local economic conditions, a downturn in a borrower's industry, loss of one or more principal customers and conditions in the credit markets. A deterioration in a company's

financial condition or prospects may be accompanied by a deterioration in the collateral for the syndicated corporate loan or any ABS or corporate bond backed by such company's loans.

[\(Back to Index\)](#)

---

[\(Back to Index\)](#)

We may face competition for suitable investments.

There are numerous REITs and other financial investors seeking to invest in the types of assets we target. This competition may cause us to forgo particular investments or to accept economic terms or structural features that we would not otherwise have accepted, and it may cause us to seek investments outside of our currently targeted areas. Competition for investment assets may slow our growth or limit our profitability and ability to make distributions to our stockholders.

We may not have control over certain of our loans and investments.

Our ability to manage our portfolio of loans and investments may be limited by the form in which they are made. In certain situations, we may:

- acquire investments subject to rights of senior classes and servicers under inter-creditor or servicing agreements;
  - acquire only a minority and/or non-controlling participation in an underlying investment;
  - co-invest with third parties through partnerships, joint ventures or other entities, thereby acquiring non-controlling interests; or
  - rely on independent third-party management or strategic partners with respect to the management of an asset.
- Therefore, we may not be able to exercise control over the loan or investment. Such financial assets may involve risks not present in investments where senior creditors, servicers or third-party controlling investors are not involved. Our rights to control the process following a borrower default may be subject to the rights of senior creditors or servicers whose interests may not be aligned with ours. A third party partner or co-venturer may have financial difficulties resulting in a negative impact on such asset, may have economic or business interest or goals which are inconsistent with ours, or may be in a position to take action contrary to our investment objectives. In addition, we may, in certain circumstances, be liable for the actions of our third-party partners or co-venturers.

#### Risks Related to Our Manager

We depend on our Manager, C-III and Resource America to develop and operate our business and may not find suitable replacements if the management agreement terminates.

We have no direct employees. Our officers, portfolio managers, administrative personnel and support personnel are employees of C-III or Resource America. We have no separate facilities and completely rely on our Manager and, because our Manager has no direct employees, Resource America and C-III, which has significant discretion as to the implementation of our operating policies and investment strategies. If our management agreement terminates, we may be unable to find a suitable replacement for our Manager. Moreover, we believe that our success depends to a significant extent upon the experience of the portfolio managers and officers of our Manager, C-III and Resource America who provide services to us, whose continued service is not guaranteed. The departure of any such persons could harm our investment performance.

Our Manager's fee structure may not create proper incentives, and the incentive fee we pay our Manager may increase the investment risk of our portfolio.

Our Manager is entitled to receive a monthly base management fee of \$937,500 per month through December 31, 2018, and thereafter a base management fee equal to 1/12 of our equity, as defined in the management agreement, multiplied by 1.5%. Since the base management fee will be based on our outstanding equity after December 31, 2018, our Manager could be incentivized to recommend strategies that increase our equity, and there may be circumstances where increasing our equity will not optimize the returns for our stockholders.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

In addition to its base management fee, our Manager is entitled to receive incentive compensation, payable quarterly, equal to 20% of the amount by which our Core Earnings, as defined in the management agreement, exceed the weighted average of our book value per share at September 30, 2017 (subject to adjustments) and the prices for our common stock in all of our offerings subsequent to September 30, 2017, multiplied by the greater of 1.75% or 0.4375% plus one-fourth of the average ten-year U.S. Treasury rate for such quarter, multiplied by the weighted average number of common shares outstanding during the quarter. In evaluating investments and other management strategies, the opportunity to earn incentive compensation based on Core Earnings may lead our Manager to place undue emphasis on the maximization of Core Earnings at the expense of other criteria, such as preservation of capital, in order to achieve higher incentive compensation. Investments with higher yields generally have higher risk of loss than investments with lower yields. If our interests and those of our Manager are not aligned, the execution of our business plan and our results of operations could be adversely affected, which could adversely affect our results of operations and financial condition.

Our Manager manages our portfolio pursuant to very broad investment guidelines and our board does not approve each investment decision, which may result in our making riskier investments.

Our Manager is authorized to follow very broad investment guidelines. While our directors periodically review our investment guidelines and our investment portfolio, they do not review all of our proposed investments. In addition, in conducting periodic reviews, the directors may rely primarily on information provided to them by our Manager. Furthermore, our Manager may use complex strategies, and transactions entered into by our Manager, which may be difficult or impossible to unwind by the time they are reviewed by the directors. Our Manager has great latitude within the broad investment guidelines in determining the types of investments it makes for us. Poor investment decisions could impair our ability to make distributions to our stockholders.

Termination of the management agreement by us without cause is difficult and could be costly.

Termination of our management agreement without cause is difficult and could be costly. We may terminate the management agreement without cause only annually upon the affirmative vote of at least two-thirds of our independent directors or by a vote of the holders of at least a majority of our outstanding common stock, based upon unsatisfactory performance by our Manager that is materially detrimental to us or a determination that the management fee payable to our Manager is not fair. Moreover, with respect to a determination that the management fee is not fair, our Manager may prevent termination by accepting a mutually acceptable reduction of management fees. We must give not less than 180 days' prior notice of any termination. Upon any termination without cause, our Manager will be paid a termination fee equal to four times the sum of the average annual base management fee and the average annual incentive compensation earned by it during the two 12-month periods immediately preceding the date of termination, calculated as of the end of the most recently completed fiscal quarter before the date of termination.

Our Manager and C-III will face conflicts of interest relating to the allocation of investment opportunities and such conflicts may not be resolved in our favor, which could limit our ability to acquire assets and, in turn, limit our ability to make distributions and reduce your overall investment return.

Our management agreement does not prohibit our Manager, or C-III or Resource America from investing in or managing entities that invest in asset classes that are the same as, or similar to, our targeted asset classes, except that they may not raise funds for, sponsor or advise any new publicly-traded REIT that invests primarily in mortgage-backed securities, or MBS, in the United States. We rely on our Manager to identify suitable investment opportunities for us. Our executive officers and several of the other key real estate professionals, acting on behalf of our Manager, are also the key real estate professionals acting on behalf of the advisors of other investment programs sponsored by, and other clients managed by, Resource America or C-III. As such, these investment programs and clients rely on many of the same real estate professionals as will future programs and vehicles sponsored by Resource America and C-III. Many investment opportunities that are suitable for us may also be suitable for one or more of these investment programs or clients. When an investment opportunity becomes available, the applicable allocation committee established by C-III, in accordance with its investment allocation policies and procedures, will offer the opportunity to the investment program or client for which the investment opportunity is most suitable based on the investment objectives, portfolio and criteria of each. Thus, the allocation committees could direct attractive investment

opportunities to an investment program or client other than us, which could result in us not investing in investment opportunities that could provide an attractive return or investing in investment opportunities that provide less attractive returns. Any of the foregoing may reduce our ability to make distributions to you.

[\(Back to Index\)](#)

24

---

[\(Back to Index\)](#)

Our officers and many of the investment professionals that provide services to us through our Manager are also officers or employees of Resource America or C-III and may face conflicts regarding the allocation of their time. Our officers, other than our Chief Financial Officer, Chief Accounting Officer and several accounting and tax professionals on their staff, as well as the officers, directors and employees of Resource America who provide services to us, are not required to work full time on our affairs, and devote significant time to the affairs of Resource America or C-III. As a result, there may be significant conflicts between us, on the one hand, and our Manager, C-III and Resource America on the other, regarding allocation of our Manager's and Resource America's or C-III's resources to the management of our investment portfolio.

We may invest in B-Pieces issued by CMBS trusts to which C-III may contribute loans, and as a result our Manager and C-III may have a conflict in determining whether any such loan should be excluded from the securitization.

We may seek opportunities to invest in the unrated or certain non-investment grade tranches of securities (collectively, a "B-Piece") issued by CMBS trusts. Because a B-Piece represents the "first loss position," or riskiest portion of the trust, the buyers of the senior CMBS tranches typically depend on the B-Piece buyer to conduct due diligence on the underlying loans expected to be contributed to the CMBS trust in the securitization. In such cases, our Manager will rely upon the personnel of C-III to analyze the loans and negotiate with the sponsor to potentially exclude certain loans determined to be too risky. If C-III Commercial Mortgage LLC ("C-III Commercial Mortgage"), a wholly-owned subsidiary of C-III, seeks to contribute one or more loans to the same CMBS trust, our Manager and C-III may have a conflict in determining whether loans to be contributed by C-III Commercial Mortgage should be excluded from the securitization transaction.

We have engaged in transactions with entities affiliated with our Manager. Our policies and procedures may be insufficient to address any conflicts of interest that may arise.

We have established policies and procedures regarding review, approval and ratification of transactions which may give rise to a conflict of interest between us and persons affiliated or associated with our Manager. In the ordinary course of our business, we have ongoing relationships and have engaged in transactions with entities affiliated or associated with our Manager. See Item 13, "Certain Relationships and Related Transactions and Director Independence - Relationships and Related Transactions" in this report. Our policies and procedures may not be sufficient to address any conflicts of interest that arise.

Our Manager's liability is limited under the management agreement, and we have agreed to indemnify our Manager against certain liabilities.

Our Manager does not assume any responsibility other than to render the services called for under the management agreement, and will not be responsible for any action of our board of directors in following or declining to follow its advice or recommendations. C-III, Resource America, our Manager, their directors, managers, officers, employees and affiliates will not be liable to us, any subsidiary of ours, our directors, our stockholders or any subsidiary's stockholders for acts performed in accordance with and pursuant to the management agreement, except for acts constituting bad faith, willful misconduct, gross negligence, or reckless disregard of their duties under the management agreement. We have agreed to indemnify the parties for all damages and claims arising from acts not constituting bad faith, willful misconduct, gross negligence, or reckless disregard of duties, performed in good faith in accordance with and pursuant to the management agreement.

Our business is highly dependent on communications and information systems, and systems failures or cybersecurity incidents could significantly disrupt our business, which may, in turn, negatively affect the market price of our common stock and our ability to operate our business.

We depend on the information systems of our Manager, C-III, Resource America and third parties. Any failure or interruption of our systems or cyber-attacks or security breaches of our networks or systems could cause delays or other problems in our securities trading activities, including mortgage-backed securities trading activities. A disruption or breach could also lead to unauthorized access to and release, misuse, loss or destruction of our confidential information or personal or confidential information of our Manager, C-III, Resource America or third parties, which could lead to regulatory fines, litigation, costs of remediating the breach and reputational harm. In addition, we also face the risk of operational failure, termination or capacity constraints of any of the third parties with which we do business or that facilitate our business activities, including clearing agents or other financial

intermediaries we use to facilitate our securities transactions, if their respective systems experience failure, interruption, cyber-attacks, or security breaches. We may face increased costs as we continue to evolve our cyber defenses in order to contend with changing risks. These costs and losses associated with these risks are difficult to predict and quantify, but could have a significant adverse effect on our operating results.

[\(Back to Index\)](#)

25

---

[\(Back to Index\)](#)

Computer malware, viruses, computer hacking and phishing attacks have become more prevalent in our industry and may occur on our systems. We rely heavily on our financial, accounting and other data processing systems. Although we have not detected a material cybersecurity breach to date, other financial services institutions have reported material breaches of their systems, some of which have been significant. Even with all reasonable security efforts, not every breach can be prevented or even detected. It is possible that we have experienced an undetected breach. There is no assurance that we, or the third parties that facilitate our business activities, have not or will not experience a breach. It is difficult to determine what, if any, negative impact may directly result from any specific interruption or cyber-attacks or security breaches of our networks or systems (or the networks or systems of third parties that facilitate our business activities) or any failure to maintain performance, reliability and security of our technical infrastructure, but such computer malware, viruses and computer hacking and phishing attacks may negatively affect our operations.

#### Risks Related to Real Estate Investments

Our investments in commercial mortgage loans and mezzanine loans will be subject to the risks inherent in the real estate securing or underlying those investments which could result in losses to us.

Commercial mortgage loans are secured by, and mezzanine loans depend on, the performance of the underlying property and are subject to risks of delinquency and foreclosure, and risks of loss, that are greater than similar risks associated with loans made on the security of single-family residential properties. The ability of a borrower to repay a loan secured by or dependent upon an income-producing property typically depends primarily upon the successful operation of the property rather than upon the existence of independent income or assets of the borrower. If the net operating income of the property is reduced, the borrower's ability to repay the loan may be impaired. Net operating income of an income producing property can be affected by, among other things:

- tenant mix, success of tenant businesses, tenant bankruptcies and property management decisions;
- property location and condition;
- competition from comparable types of properties;
- changes in laws that increase operating expenses or limit rents that may be charged;
- any need to address environmental contamination at the property;
- the occurrence of any uninsured casualty at the property;
- changes in national, regional or local economic conditions and/or the conditions of specific industry segments in which the lessees may operate;
- declines in regional or local real estate values;
- declines in regional or local rental or occupancy rates;
- increases in interest rates, real estate tax rates and other operating expenses;
- the availability of debt or equity financing;
- increases in costs of construction material;
- changes in governmental rules, regulations and fiscal policies, including environmental legislation and zoning laws; and
- acts of God, terrorism, social unrest and civil disturbances.

We risk loss of principal on defaulted mortgage loans we hold to the extent of any deficiency between the value we can realize from the sale of the collateral securing the loan upon foreclosure and the loan's principal and accrued interest. Moreover, foreclosure of a mortgage loan can be an expensive and lengthy process which could reduce the net amount we can realize on the foreclosed mortgage loan. In a bankruptcy of a mortgage loan borrower, the mortgage loan will be deemed to be secured only to the extent of the value of the underlying collateral at the time of bankruptcy as determined by the bankruptcy court, and the lien securing the mortgage loan will be subject to the avoidance powers of the bankruptcy trustee or debtor-in-possession to the extent the lien is unenforceable under state law.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

For a discussion of additional risks associated with mezzanine loans, see - "Investing in mezzanine debt and mezzanine or other subordinated tranches of CMBS, syndicated corporate loans and other ABS involves greater risks of loss than senior secured debt investments."

Our investment portfolio may have material geographic, sector, property-type and sponsor concentrations.

We may have material geographic concentrations related to our direct or indirect investments in real estate loans and properties. We also may have material concentrations in the property types and industry sectors that are in our loan portfolio. Where we have any kind of concentration risk in our investments, we may be affected by sector-specific economic or other problems that are not reflected in the national economy generally or in more diverse portfolios. An adverse development in that area of concentration could reduce the value of our investment and our return on that investment and, if the concentration affects a material amount of our investments, impair our ability to execute our investment strategies successfully, reduce our earnings and reduce our ability to make distributions.

The B notes in which we may invest may be subject to additional risks relating to the privately negotiated structure and terms of the transaction, which may result in losses to us.

We may invest in B notes. A B note is a loan typically secured by a first mortgage on a single large commercial property or group of related properties and subordinated to a senior note secured by the same first mortgage on the same collateral. As a result, if a borrower defaults, there may not be sufficient funds remaining for B note owners after payment to the senior note owners. Since each transaction is privately negotiated, B notes can vary in their structural characteristics and risks. For example, the rights of holders of B notes to control the process following a borrower default may be limited in certain investments. Depending upon market and economic conditions, we may make B note investments at any time. B notes are less liquid than other forms of CRE debt investments, such as CMBS, and, as a result, we may be able to dispose of underperforming or non-performing B note investments only at a significant discount to book value.

#### Risks Related to Our Organization and Structure

Our charter and bylaws contain provisions that may inhibit potential acquisition bids that you and other stockholders may consider favorable, and the market price of our common stock may be lower as a result.

Our charter and bylaws contain provisions that may have an anti-takeover effect and inhibit a change in our board of directors. These provisions include the following:

There are ownership limits and restrictions on transferability and ownership in our charter. For purposes of assisting us in maintaining our REIT qualification under the Internal Revenue Code, our charter generally prohibits any person from beneficially or constructively owning more than 9.8% in value or number of shares, whichever is more restrictive, of any class or series of our outstanding capital stock. This restriction may:

discourage a tender offer or other transactions or a change in the composition of our board of directors or control that might involve a premium price for our shares or otherwise be in the best interests of our stockholders; or result in shares issued or transferred in violation of such restrictions being automatically transferred to a trust for a charitable beneficiary, resulting in the forfeiture of those shares.

Our charter permits our board of directors to issue stock with terms that may discourage a third-party from acquiring us. Our board of directors may amend our charter without stockholder approval to increase the total number of authorized shares of stock or the number of shares of any class or series and issue common or preferred stock having preferences, conversion or other rights, voting powers, restrictions, limitations as to distributions, qualifications, or terms or conditions of redemption as determined by our board. Thus, our board could authorize the issuance of stock with terms and conditions that could have the effect of discouraging a takeover or other transaction in which holders of some or a majority of our shares might receive a premium for their shares over the then-prevailing market price.

Our charter and bylaws contain other possible anti-takeover provisions. Our charter and bylaws contain other provisions, including advance notice procedures for the introduction of business and the nomination of directors, that may have the effect of delaying or preventing a change in control of us or the removal of existing directors and, as a result, could prevent our stockholders from being paid a premium for their common stock over the then-prevailing market price.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

Maryland takeover statutes may prevent a change in control of us, and the market price of our common stock may be lower as a result.

Maryland Control Share Acquisition Act. Maryland law provides that "control shares" of a corporation acquired in a "control share acquisition" will have no voting rights except to the extent approved by a vote of two-thirds of the votes eligible to be cast on the matter under the Maryland Control Share Acquisition Act. The act defines "control shares" as voting shares of stock that, if aggregated with all other shares of stock owned by the acquirer or in respect of which the acquirer is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquirer to exercise voting power in electing directors within one of the following ranges of voting power: one-tenth or more but less than one-third, one-third or more but less than a majority, or a majority or more of all voting power. A "control share acquisition" means the acquisition of control shares, subject to specific exceptions. If voting rights or control shares acquired in a control share acquisition are not approved at a stockholders' meeting or if the acquiring person does not deliver an acquiring person statement as required by the Maryland Control Share Acquisition Act then, subject to specific conditions and limitations, the issuer may redeem any or all of the control shares for fair value. If voting rights of such control shares are approved at a stockholders' meeting and the acquirer becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. Our bylaws contain a provision exempting acquisitions of our shares from the Maryland Control Share Acquisition Act. However, our board of directors may amend our bylaws in the future to repeal this exemption.

Business combinations. Under Maryland law, "business combinations" between a Maryland corporation and an interested stockholder or an affiliate of an interested stockholder are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder. These business combinations include a merger, consolidation, share exchange or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities. An interested stockholder is defined as:

any person who beneficially owns ten percent or more of the voting power of the corporation's shares; or an affiliate or associate of the corporation who, at any time within the two-year period before the date in question, was the beneficial owner of ten percent or more of the voting power of the then outstanding voting stock of the corporation.

A person is not an interested stockholder under the statute if the board of directors approved in advance the transaction by which such person otherwise would have become an interested stockholder. However, in approving a transaction, the board of directors may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by the board.

After the five-year prohibition, any business combination between the Maryland Corporation and an interested stockholder generally must be recommended by the board of directors of the corporation and approved by the affirmative vote of at least:

80% of the votes entitled to be cast by holders of outstanding shares of voting stock of the corporation; and two-thirds of the votes entitled to be cast by holders of voting stock of the corporation other than shares held by the interested stockholder with whom or with whose affiliate the business combination is to be effected or held by an affiliate or associate of the interested stockholder.

These super-majority vote requirements do not apply if the corporation's common stockholders receive a minimum price, as defined under Maryland law, for their shares in the form of cash or other consideration in the same form as previously paid by the interested stockholder for its shares.

The statute permits exemptions from its provisions, including business combinations that are exempted by the board of directors before the time that the interested stockholder becomes an interested stockholder.

Our rights and the rights of our stockholders to take action against our directors and officers are limited, which could limit your recourse in the event of actions not in your best interests.

Our charter limits the liability of our directors and officers to us and our stockholders for money damages, except for liability resulting from:

actual receipt of an improper benefit or profit in money, property or services; or

[\(Back to Index\)](#)

[\(Back to Index\)](#)

- a final judgment based upon a finding of active and deliberate dishonesty by the director or officer that was material to the cause of action adjudicated.

In addition, our charter authorizes us to, and we do, indemnify our present and former directors and officers for actions taken by them in those capacities to the maximum extent permitted by Maryland law. Our bylaws require us to indemnify each present or former director or officer, to the maximum extent permitted by Maryland law, in the defense of any proceeding to which he or she is made, or threatened to be made, a party by reason of his or her service to us. In addition, we may be obligated to fund the defense costs incurred by our directors and officers.

Our right to take action against our Manager is limited.

The obligation of our Manager under the management agreement is to render its services in good faith. It will not be responsible for any action taken by our board of directors or investment committee in following or declining to follow its advice and recommendations. Furthermore, as discussed above under - "Risks Related to Our Manager," it will be difficult and costly for us to terminate the management agreement without cause. In addition, we will indemnify our Manager, C-III, Resource America and their officers and affiliates for any actions taken by them in good faith. We have not established a minimum distribution payment level and we cannot assure you of our ability to make distributions in the future. We may in the future use uninvested offering proceeds or borrowed funds to make distributions.

We expect to make quarterly distributions to our stockholders in amounts such that we distribute all or substantially all of our taxable income in each year, subject to certain adjustments. We have not established a minimum distribution payment level, and our ability to make distributions may be impaired by the risk factors described in this report. All distributions will be made at the discretion of our board of directors and will depend on our earnings, our financial condition, maintenance of our REIT qualification and other factors as our board of directors may deem relevant from time to time. We may not be able to make distributions in the future. In addition, some of our distributions may include a return of capital. To the extent that we decide to make distributions in excess of our current and accumulated taxable earnings and profits, such distributions would generally be considered a return of capital for federal income tax purposes. A return of capital is not taxable, but it has the effect of reducing the holder's tax basis in its investment. Although we currently do not expect that we will do so, we have in the past and may in the future also use proceeds from any offering of our securities that we have not invested or borrowed funds to make distributions. If we use uninvested offering proceeds to pay distributions in the future, we will have less funds available for investment and, as a result, our earnings and cash available for distribution would be less than we might otherwise have realized had such funds been invested. Similarly, if we borrow to fund distributions, our future interest costs would increase, thereby reducing our future earnings and cash available for distribution from what they otherwise would have been.

Loss of our exclusion from regulation under the Investment Company Act would require significant changes in our operations and could reduce the market price of our common stock and our ability to make distributions.

We rely on an exclusion from registration as an investment company afforded by Section 3(a)(1)(C) of the Investment Company Act. To qualify for this exclusion, we do not engage in the business of investing, reinvesting, owning, holding, or trading securities and we do not own "investment securities" with a value that exceeds 40% of the value of our total assets (exclusive of government securities and cash items) on an unconsolidated basis. We may not be able to maintain such a mix of assets in the future, and attempts to maintain such an asset mix may impair our ability to pursue otherwise attractive investments. In addition, these rules are subject to change and such changes may have an adverse impact on us. We may need to avail ourselves of alternative exclusions and exemptions which may require a change in the organizational structure of our business.

Furthermore, as it relates to our investment in our real estate subsidiary, RCC Real Estate, we rely on an exclusion from registration as an investment company afforded by Section 3(c)(5)(C) of the Investment Company Act. Given the material size of RCC Real Estate relative to our 3(a)(1)(C) exclusion, were RCC Real Estate to be deemed to be an investment company (other than by application of the Section 3(c)(1) exemption for closely held companies and the Section 3(c)(7) exemption for companies owned by "qualified purchasers"), we would not qualify for our 3(a)(1)(C) exclusion. Under the Section 3(c)(5)(C) exclusion, RCC Real Estate is required to maintain, on the basis of positions taken by the SEC staff in interpretive and no-action letters, a minimum of 55% of the value of the total assets of its portfolio in "mortgages and other liens on and interests in real estate," which we refer to as Qualifying Interests, and a

minimum of 80% in Qualifying Interests and real estate-related assets, with the remainder permitted to be miscellaneous assets. Because registration as an investment company would significantly affect RCC Real Estate's ability to engage in certain transactions or to organize itself in the manner it is currently organized, we intend to maintain its qualification for this exclusion from registration.

[\(Back to Index\)](#)

29

---

[\(Back to Index\)](#)

We treat our investments in CMBS, B Notes and mezzanine loans as Qualifying Interests for purposes of determining our eligibility for the exclusion provided by Section 3(c)(5) to the extent such treatment is consistent with guidance provided by the SEC or its staff. In the absence of specific guidance or guidance that otherwise supports the treatment of these investments as Qualifying Interests, we will treat them, for purposes of determining our eligibility for the exclusion provided by Section 3(c)(5)(C), as real estate-related assets or miscellaneous assets, as appropriate. If RCC Real Estate's portfolio does not comply with the requirements of the exclusion we rely upon, it could be forced to alter its portfolio by selling or otherwise disposing of a substantial portion of the assets that are not Qualifying Interests or by acquiring a significant position in assets that are Qualifying Interests. Altering its portfolio in this manner may have an adverse effect on its investments if it is forced to dispose of or acquire assets in an unfavorable market, and may adversely affect our stock price.

If it were established that we were an unregistered investment company, there would be a risk that we would be subject to monetary penalties and injunctive relief in an action brought by the SEC, that we would be unable to enforce contracts with third parties, that third parties could seek to obtain rescission of transactions undertaken during the period it was established that we were an unregistered investment company, and that we would be subject to limitations on corporate leverage that would have an adverse impact on our investment returns.

Rapid changes in the values of our real estate-related investments may make it more difficult for us to maintain our qualification as a REIT or exclusion from regulation under the Investment Company Act.

If the market value or income potential of our real estate-related investments declines as a result of economic conditions, increased interest rates, prepayment rates or other factors, we may need to increase our real estate-related investments and income and/or liquidate our non-qualifying assets in order to maintain our REIT qualification or exclusion from registration under the Investment Company Act. If the decline in real estate asset values and/or income occurs quickly, this may be especially difficult to accomplish. We may have to make investment decisions that we otherwise would not make absent REIT qualification and Investment Company Act considerations.

#### Tax Risks

Complying with REIT requirements may cause us to forgo otherwise attractive opportunities.

To qualify as a REIT for federal income tax purposes, we must continually satisfy various tests regarding the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders and the ownership of our common stock. In order to meet these tests, we may be required to forgo investments we might otherwise make. Thus, compliance with the REIT requirements may hinder our investment performance.

In particular, at least 75% of our assets at the end of each calendar quarter must consist of real estate assets, government securities, cash and cash items. For this purpose, "real estate assets" generally include interests in real property, such as land, buildings, leasehold interests in real property, stock of other entities that qualify as REITs, interests in mortgage loans secured by real property, investments in stock or debt investments during the one-year period following the receipt of new capital and regular or residual interests in a real estate mortgage investment conduit, or REMIC. In addition, the amount of securities of a single issuer, other than a TRS, that we hold must generally not exceed either 5% of the value of our gross assets or 10% of the vote or value of such issuer's outstanding securities.

Certain of the assets that we hold, including interests in CDOs or corporate leveraged loans, are not qualified and will not be qualified real estate assets for purposes of the REIT asset tests. ABS, RMBS and CMBS securities should generally qualify as real estate assets. However, to the extent that we own non-REMIC collateralized mortgage obligations or other debt investments secured by mortgage loans (rather than by real property) or secured by non-real estate assets, or debt securities that are not secured by mortgages on real property, those securities are likely not qualifying real estate assets for purposes of the REIT asset test, and will not produce qualifying real estate income. Further, whether securities held by warehouse lenders or financed using repurchase agreements are treated as qualifying assets or as generating qualifying real estate income for purposes of the REIT asset and income tests depends on the terms of the warehouse or repurchase financing arrangement.

We generally will be treated as the owner of any assets that collateralize CDO transactions to the extent that we retain all of the equity of the securitization vehicle and do not make an election to treat such securitization vehicle as a TRS, as described in further detail below. It may be possible to reduce the impact of the REIT asset and gross income

requirements by holding certain assets through our TRSs, subject to certain limitations as described below.

[\(Back to Index\)](#)

30

---

[\(Back to Index\)](#)

Our qualification as a REIT and exemption from U.S. federal income tax with respect to certain assets may depend on the accuracy of legal opinions or advice rendered or given or statements by the issuers of securities in which we invest, and the inaccuracy of any such opinions, advice or statements may adversely affect our REIT qualification and result in significant corporate level tax.

When purchasing securities, we have relied and may rely on opinions or advice of counsel for the issuer of such securities, or statements, made in related offering documents, for purposes of determining whether such securities represent debt or equity securities for U.S. federal income tax purposes, and also to what extent those securities constitute REIT real estate assets for purposes of the REIT asset tests and produce income which qualifies under the 75% REIT gross income test. In addition, when purchasing CDO equity, we have relied and may rely on opinions or advice of counsel regarding the qualification of interests in the debt of such CDOs for U.S. federal income tax purposes. The inaccuracy of any such opinions, advice or statements may adversely affect our REIT qualification and result in significant corporate-level tax.

We may realize excess inclusion income that would increase our tax liability and that of our stockholders.

If we realize excess inclusion income and allocate it to stockholders, this income cannot be offset by net operating losses of the stockholders. If the stockholder is a tax-exempt entity, then this income would be fully taxable as unrelated business taxable income under Section 512 of the Internal Revenue Code. If the stockholder is a foreign person, it would be subject to federal income tax withholding on this income without reduction or exemption pursuant to any otherwise applicable income tax treaty.

Excess inclusion income could result if we hold a residual interest in a REMIC. Excess inclusion income also could be generated if we issue debt obligations, such as certain CDOs, with two or more maturities and the terms of the payments on these obligations bore a relationship to the payments that we received on our mortgage related securities securing those debt obligations, i.e., if we were to own an interest in a taxable mortgage pool. While we do not expect to acquire significant amounts of residual interests in REMICs, nor do we currently own residual interests in taxable mortgage pools, it is possible that we may generate excess inclusion income in the future.

If we realize excess inclusion income, we will be taxed at the highest corporate income tax rate on a portion of such income that is allocable to the percentage of our stock held in record name by "disqualified organizations," which are generally cooperatives, governmental entities and tax-exempt organizations that are exempt from unrelated business taxable income. To the extent that our stock owned by "disqualified organizations" is held in record name by a broker-dealer or other nominee, the broker/dealer or other nominee would be liable for the corporate level tax on the portion of our excess inclusion income allocable to the stock held by the broker-dealer or other nominee on behalf of "disqualified organizations." We expect that disqualified organizations will own our stock. Because this tax would be imposed on us, all of our investors, including investors that are not disqualified organizations, would bear a portion of the tax cost associated with the classification of us or a portion of our assets as a taxable mortgage pool. A regulated investment company or other pass through entity owning stock in record name will be subject to tax at the highest corporate rate on any excess inclusion income allocated to its owners that are disqualified organizations. Finally, if we fail to qualify as a REIT, our taxable mortgage pool securitizations will be treated as separate corporations, for federal income tax purposes that cannot be included in any consolidated corporate tax return.

Failure to qualify as a REIT would subject us to federal income tax, which would reduce the cash available for distribution to our stockholders.

We believe that we have been organized and operated in a manner that has enabled us to qualify as a REIT for federal income tax purposes commencing with our taxable year ended on December 31, 2005. However, the federal income tax laws governing REITs are extremely complex, and interpretations of the federal income tax laws governing qualification as a REIT are limited. Qualifying as a REIT requires us to meet various tests regarding the nature of our assets and our income, the ownership of our outstanding stock, and the amount of our distributions on an ongoing basis.

If we fail to qualify as a REIT in any calendar year and we do not qualify for certain statutory relief provisions, we will be subject to federal income tax, including any applicable alternative minimum tax on our taxable income, at regular corporate rates. Distributions to stockholders would not be deductible in computing our taxable income. Corporate tax liability would reduce the amount of cash available for distribution to our stockholders. Under some

circumstances, we might need to borrow money or sell assets in order to pay that tax. Furthermore, if we fail to maintain our qualification as a REIT and we do not qualify for the statutory relief provisions, we no longer would be required to distribute substantially all of our REIT taxable income, determined without regard to the dividends paid deduction and not including net capital gains, to our stockholders. Unless our failure to qualify as a REIT was excused under federal tax laws, we could not re-elect to qualify as a REIT until the fifth calendar year following the year in which we failed to qualify. In addition, if we fail to qualify as a REIT, our taxable mortgage pool securitizations will be treated as separate corporations for U.S. federal income tax purposes.

[\(Back to Index\)](#)

31

---

[\(Back to Index\)](#)

A determination that we have not made required distributions would subject us to tax or require us to pay a deficiency dividend; payment of tax would reduce the cash available for distribution to our stockholders.

In order to qualify as a REIT, in each calendar year we must distribute to our stockholders at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gain. To the extent that we satisfy the 90% distribution requirement, but distribute less than 100% of our taxable income, we will be subject to federal corporate income tax on our undistributed income. In addition, we will incur a 4% nondeductible excise tax on the amount, if any, by which our distributions in any calendar year are less than the sum of:

85% of our ordinary income for that year;

95% of our capital gain net income for that year; and

100% our undistributed taxable income from prior years.

We intend to make distributions to our stockholders in a manner intended to satisfy the 90% distribution requirement and to distribute all or substantially all of our net taxable income to avoid both corporate income tax and the 4% nondeductible excise tax. There is no requirement that a domestic TRS distribute its after-tax net income to its parent REIT or their stockholders and our U.S. TRSs may determine not to make any distributions to us. However, non-U.S. TRSs will generally be deemed to distribute their earnings to us on an annual basis for federal income tax purposes, regardless of whether such TRSs actually distribute their earnings.

Our taxable income may substantially exceed our net income as determined by GAAP because, for example, realized capital losses will be deducted in determining our GAAP net income but may not be deductible in computing our taxable income. In addition, we may invest in assets that generate taxable income in excess of economic income or in advance of the corresponding cash flow from the assets, referred to as phantom income. Although some types of phantom income are excluded to the extent they exceed 5% of our REIT taxable income in determining the 90% distribution requirement, we will incur corporate income tax and the 4% nondeductible excise tax with respect to any phantom income items if we do not distribute those items on an annual basis. As a result, we may generate less cash flow than taxable income in a particular year. It is also possible that a loss that we treat as an ordinary loss would be recharacterized as a capital loss. In such event we might have to pay tax for the year in question or pay a deficiency dividend with respect to that we meet the dividends paid requirement for that year. In all such events, we may be required to use cash reserves, incur debt, or liquidate non-cash assets at rates or times that we regard as unfavorable in order to satisfy the distribution requirement and to avoid corporate income tax and the 4% nondeductible excise tax in that year.

If we make distributions in excess of our current and accumulated earnings and profits, they will be treated as a return of capital, which will reduce the adjusted basis of your stock. To the extent such distributions exceed your adjusted basis, you may recognize a capital gain.

Unless you are a tax-exempt entity, distributions that we make to you generally will be subject to tax as ordinary income to the extent of our current and accumulated earnings and profits as determined for federal income tax purposes. If the amount we distribute to you exceeds your allocable share of our current and accumulated earnings and profits, the excess will be treated as a return of capital to the extent of your adjusted basis in your stock, which will reduce your basis in your stock but will not be subject to tax. To the extent the amount we distribute to you exceeds both your allocable share of our current and accumulated earnings and profits and your adjusted basis, this excess amount will be treated as a gain from the sale or exchange of a capital asset. For risks related to the use of uninvested offering proceeds or borrowings to fund distributions to stockholders, see - "Risks Related to Our Organization and Structure." We have not established a minimum distribution payment level and we cannot assure you of our ability to make distributions in the future."

Our ownership of and relationship with our TRSs will be limited and a failure to comply with the limits would jeopardize our REIT qualification and may result in the application of a 100% excise tax.

A REIT may own up to 100% of the securities of one or more TRSs. A TRS may earn specified types of income or hold specified assets that would not be qualifying income or assets if earned or held directly by the parent REIT. Both the subsidiary and the REIT must jointly elect to treat the subsidiary as a TRS. A corporation of which a TRS directly or indirectly owns more than 35% of the voting power or value of the stock will automatically be treated as a TRS.

Overall, no more than 25% (20% for year beginning after December 31, 2017) of the value of a REIT's assets may

consist of stock or securities of one or more TRSs. A TRS will pay federal, state and local income tax at regular corporate rates on any income that it earns, whether or not it distributes that income to us. In addition, the TRS rules limit the deductibility of interest paid or accrued by a TRS to its parent REIT to assure that the TRS is subject to an appropriate level of corporate taxation. The rules also impose a 100% excise tax on certain transactions between a TRS and its parent REIT that are not conducted on an arm's-length basis.

[\(Back to Index\)](#)

32

---

[\(Back to Index\)](#)

RCC Resi TRS will pay federal, state and local income tax on its taxable income, and its after-tax net income is available for distribution to us but is not required to be distributed to us. Income that is not distributed to us by our U.S. TRS will not be subject to the REIT 90% distribution requirement and therefore will not be available for distributions to our stockholders. We anticipate that the aggregate value of the securities we hold in our TRS will be less than 25% (20% for years beginning after December 31, 2017) of the value of our total assets, including our TRS security. We will monitor the compliance of our investments in TRSs with the rules relating to value of assets and transactions not on an arm's-length basis. We cannot assure you, however, that we will be able to comply with such rules.

Complying with REIT requirements may limit our ability to hedge effectively.

The REIT provisions of the Internal Revenue Code substantially limit our ability to hedge MBS and related borrowings. Under these provisions, our annual gross income from qualifying and non-qualifying hedges of our borrowings, together with any other income not generated from qualifying real estate assets, cannot exceed 25% of our gross income. In addition, our aggregate gross income from non-qualifying hedges, fees and certain other non-qualifying sources cannot exceed 5% of our annual gross income determined without regard to income from qualifying hedges. As a result, we might have to limit our use of advantageous hedging techniques or implement those hedges through RCC Resi TRS. This could increase the cost of our hedging activities or expose us to greater risks associated with changes in interest rates than we would otherwise want to bear.

The tax on prohibited transactions will limit our ability to engage in transactions, including certain methods of securitizing mortgage loans that would be treated as sales for federal income tax purposes.

A REIT's net income from prohibited transactions is subject to a 100% tax. In general, prohibited transactions are sales or other dispositions of property, other than foreclosure property, but including mortgage loans, held primarily for sale to customers in the ordinary course of business. We might be subject to this tax if we were able to sell or securitize loans in a manner that was treated as a sale of the loans for federal income tax purposes. Therefore, in order to avoid the prohibited transactions tax, we may choose not to engage in certain sales of loans and may limit the structures we utilize for our securitization transactions even though such sales or structures might otherwise be beneficial to us.

Legislative, regulatory or administrative changes could adversely affect us or our stockholders.

Legislative, regulatory or administrative changes could be enacted or promulgated at any time, either prospectively or with retroactive effect, and may adversely affect us and/or our stockholders.

On December 22, 2017 the Tax Cuts and Jobs Act was signed into law. The Tax Cuts and Jobs Act makes significant changes to the U.S. federal income tax rules for taxation of individuals and corporations, generally effective for taxable years beginning after December 31, 2017. In addition to reducing corporate and individual tax rates, the Tax Cuts and Jobs Act eliminates or restricts various deductions. Most of the changes applicable to individuals are temporary and apply only to taxable years beginning after December 31, 2017 and before January 1, 2026. The Tax Cuts and Jobs Act makes numerous large and small changes to the tax rules that do not affect the REIT qualification rules directly but may otherwise affect us or our stockholders.

While the changes in the Tax Cuts and Jobs Act generally appear to be favorable with respect to REITs, the extensive changes to non-REIT provisions in the Code may have unanticipated effects on us or our stockholders. Moreover, Congressional leaders have recognized that the process of adopting extensive tax legislation in a short amount of time without hearings and substantial time for review is likely to have led to drafting errors, issues needing clarification and unintended consequences that will have to be revisited in subsequent tax legislation. At this point, it is not clear if or when Congress will address these issues or when the IRS will issue administrative guidance on the changes made in the Tax Cuts and Jobs Act.

We urge you to consult with your own tax advisor with respect to the status of the Tax Cuts and Jobs Act and other legislative, regulatory or administrative developments and proposals and their potential effect on an investment in shares of our common stock.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

Dividends paid by REITs do not qualify for the reduced tax rates provided for under current law.

Dividends paid by REITs are generally not eligible for the reduced 15% maximum tax rate for dividends paid to individuals (20% for those with taxable income above certain thresholds that are adjusted annually under current law). The more favorable rates applicable to regular corporate dividends could cause stockholders who are individuals to perceive investments in REITs to be relatively less attractive than investments in the stock of non-REIT corporations that pay dividends to which more favorable rates apply, which could reduce the value of the stocks of REITs.

However, under the Tax Cuts and Jobs Act, regular dividends from REITs are treated as income from a pass-through entity and are eligible for a 20% deduction. As a result, our regular dividends will be taxed at 80% of an individual's marginal tax rate. The current maximum rate is 37% resulting in a maximum tax rate of 29.6%. Dividends from REITs as well as regular corporate dividends will also be subject to a 3.8% Medicare surtax for taxpayers with modified adjusted gross income above \$200,000 (if single) or \$250,000 (if married and filing jointly).

We may lose our REIT qualification or be subject to a penalty tax if the IRS successfully challenges our characterization of income inclusions from our foreign TRSs.

We likely will be required to include in our income, even without the receipt of actual distributions, earnings from our foreign TRSs, including from our previous investments in CDOs, such as our investment in Apidos CDO I, Apidos CDO III and Apidos Cinco. We intend to treat certain of these income inclusions as qualifying income for purposes of the 95% gross income test applicable to REITs but not for purposes of the REIT 75% gross income test. The provisions that set forth what income is qualifying income for purposes of the 95% gross income test provide that gross income derived from dividends, interest and other enumerated classes of passive income qualify for purposes of the 95% gross income test. Income inclusions from equity investments in our foreign TRSs are technically neither dividends nor any of the other enumerated categories of income specified in the 95% gross income test for U.S. federal income tax purposes, and there is no clear precedent with respect to the qualification of such income for purposes of the REIT gross income tests. However, based on advice of counsel, we intend to treat such income inclusions, to the extent distributed by a foreign TRS in the year accrued, as qualifying income for purposes of the 95% gross income test. In addition, in 2011, the IRS issued a private letter ruling to a REIT reaching a result consistent with our treatment. Nevertheless, because this income does not meet the literal requirements of the REIT provisions, it is possible that the IRS could successfully take the position that it is not qualifying income. In the event that it was determined not to qualify for the 95% gross income test, we would be subject to a penalty tax with respect to the income to the extent it and other nonqualifying income exceeds 5% of our gross income and/or we could fail to qualify as a REIT. See "Federal Income Tax Consequences of Our Qualification as a REIT." In addition, if such income was determined not to qualify for the 95% gross income test, we would need to invest in sufficient qualifying assets, or sell some of our interests in our foreign TRSs to ensure that the income recognized by us from our foreign TRSs or such other corporations does not exceed 5% of our gross income, or cease to qualify as a REIT.

We may lose our REIT qualification or be subject to a penalty tax if we modify mortgage loans or acquired distressed debt in a way that causes us to fail our REIT gross income or asset tests.

Many of the terms of our mortgage loans, mezzanine loans and B notes and the loans supporting our MBS have been modified and may in the future be modified to avoid foreclosure actions and for other reasons. If the terms of the loan are modified in a manner constituting a "significant modification," such modification triggers a deemed exchange for tax purposes of the original loan for the modified loan. Under existing Treasury Regulations, if a loan is secured by real property and other property and the highest principal amount of the loan outstanding during a taxable year exceeds the fair market value of the real property securing the loan as of (1) the date we agreed to acquire or originate the loan or (2) in the event of certain significant modifications, the date we modified the loan, then a portion of the interest income from such a loan will not be qualifying income for purposes of the 75% gross income test, but will be qualifying income for purposes of the 95% gross income test. Although the law is not entirely clear, a portion of the loan may not be treated as a qualifying "real estate asset" for purposes of the 75% asset test. The non-qualifying portion of such a loan would be subject to, among other requirements, the 10% value test.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

Revenue Procedure 2011-16, as modified and superseded by Revenue Procedure 2014-51, provides a safe harbor pursuant to which we will not be required to redetermine the fair market value of the real property securing a loan for purposes of the REIT gross income and asset tests in connection with a loan modification that is: (1) occasioned by a borrower default; or (2) made at a time when we reasonably believe that the modification to the loan will substantially reduce a significant risk of default on the original loan. We cannot assure you that all of our loan modifications have qualified or will qualify for the safe harbor in Revenue Procedure 2011-16, as modified and superseded by Revenue Procedure 2014-51. To the extent we significantly modify loans in a manner that does not qualify for that safe harbor, we will be required to redetermine the value of the real property securing the loan at the time it was significantly modified. In determining the value of the real property securing such a loan, we generally will not obtain third-party appraisals, but rather will rely on internal valuations. No assurance can be provided that the IRS will not successfully challenge our internal valuations. If the terms of our mortgage loans, mezzanine loans and B notes and loans supporting our MBS are significantly modified in a manner that does not qualify for the safe harbor in Revenue Procedure 2011-16, as modified and superseded by Revenue Procedure 2014-51, and the fair market value of the real property securing such loans has decreased significantly, we could fail the 75% gross income test, the 75% asset test and/or the 10% value test. Unless we qualified for relief under certain cure provisions in the Code, such failures could cause us to fail to qualify as a REIT.

We and our subsidiaries have invested and may invest in the future in distressed debt, including distressed mortgage loans, mezzanine loans, B notes and MBS. Revenue Procedure 2011-16, as modified and superseded by Revenue Procedure 2014-51, provides that the IRS will treat a distressed mortgage loan acquired by a REIT that is secured by real property and other property as producing in part non-qualifying income for the 75% gross income test. Specifically, Revenue Procedure 2011-16, as modified and superseded by Revenue Procedure 2014-51, indicates that interest income on a loan will be treated as qualifying income based on the ratio of (1) the fair market value of the real property securing the loan determined as of the date the REIT committed to acquire the loan and (2) the face amount of the loan (and not the purchase price or current value of the loan). The face amount of a distressed mortgage loan and other distressed debt will typically exceed the fair market value of the real property securing the debt on the date the REIT commits to acquire the debt. We believe that we will continue to invest in distressed debt in a manner consistent with complying with the 75% gross income test and maintaining our qualification as a REIT.

The failure of a loan subject to a repurchase agreement or a mezzanine loan to qualify as a real estate asset would adversely affect our ability to qualify as a REIT.

We have entered into and we intend to continue to enter into sale and repurchase agreements under which we nominally sell certain of our loan assets to a counterparty and simultaneously enter into an agreement to repurchase the sold assets. We believe that we have been and will be treated for U.S. federal income tax purposes as the owner of the loan assets that are the subject of any such agreement notwithstanding that the agreement may transfer record ownership of the assets to the counterparty during the term of the agreement. It is possible, however, that the IRS could assert that we did not own the loan assets during the term of the sale and repurchase agreement, in which case we could fail to qualify as a REIT.

In addition, we have acquired in the past and may continue to acquire mezzanine loans, which are loans secured by equity interest in a partnership or limited liability company that directly or indirectly owns real property. In Revenue Procedure 2003-65, the IRS provided a safe harbor pursuant to which a mezzanine loan, if it meets each of the requirements contained in the Revenue Procedure, will be treated by the IRS as a real estate asset for purposes of the REIT asset tests, and interest derived from the mezzanine loan will be treated as qualifying mortgage interest for purposes of the REIT 75% income test. Although the Revenue Procedure provides a safe harbor on which taxpayers may rely, it does not prescribe rules of substantive tax law. We have acquired and may continue to acquire mezzanine loans that may not meet all of the requirements for reliance on this safe harbor. In the event we own a mezzanine loan that does not meet the safe harbor, the IRS could challenge the loan's treatment as a real estate asset for purposes of the REIT asset and income tests, and if the challenge were sustained, we could fail to qualify as a REIT.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

We maintain offices in New York, New York and Philadelphia, Pennsylvania. Our principal office is located in leased space at 717 Fifth Avenue, New York, New York 10022. We do not own any real property.

### ITEM 3. LEGAL PROCEEDINGS

We may become involved in litigation on various matters due to the nature of our business activities, which we consider to be routine and in the ordinary conduct of our business. The resolution of these matters may result in adverse judgments, fines, penalties, injunctions and other relief against us as well as monetary payments or other agreements and obligations. In addition, we may enter into settlements on certain matters in order to avoid the additional costs of engaging in litigation. Except as discussed below, we are unaware of any contingencies arising from such routine litigation that would require accrual or disclosure in the consolidated financial statements at December 31, 2017.

#### Open Litigation Matters

Six separate shareholder derivative suits (the "New York State Actions") purporting to assert claims on behalf of us were filed in the Supreme Court of New York on the following dates: December 2015 (the "Reaves Complaint"), February 2017 (the "Caito Complaint"), March 2017 (the "Simpson Complaint"), March 2017 (the "Heckel Complaint"), May 2017 (the "Schwartz Complaint") and August 2017 (the "Greff Complaint"). Plaintiffs in the Schwartz and Greff actions made demands on the board of directors before filing suit, but plaintiffs in the Reaves, Caito, Simpson and Heckel actions did not. All of the shareholder derivative suits are substantially similar and allege that certain of our current and former officers and directors breached their fiduciary duties, wasted corporate assets, and/or were unjustly enriched. Certain complaints assert additional claims against our Manager and Resource America for unjust enrichment based on allegations that our Manager received excessive management fees from the Company. In June 2017, the Court stayed the Reaves, Caito, Simpson and Heckel Complaints (collectively, the "New York State Demand Futile Actions") in favor of the federal shareholder derivative litigation described below. Our time to respond to the Schwartz and Greff complaints is presently stayed by stipulation of the parties. We believe that the plaintiffs in each of the New York State Actions lack standing to assert claims derivatively on our behalf and we intend to seek the dismissal of any New York State Action as to which the stay is lifted.

Four separate shareholder derivative suits purporting to assert claims on behalf of us were filed in the United States District Court for the Southern District of New York on the following dates by shareholders who declined to make a demand on the board prior to filing suit: January 2017 (the "Greenberg Complaint"), January 2017 (the "Canoles Complaint"), January 2017 (the "DeCaro Complaint") and April 2017 (the "Gehan Complaint"). In May 2017, the Court consolidated the Greenberg, Canoles, DeCaro and Gehan Complaints as the "Federal Demand Futile Actions," and in July 2017, appointed lead counsel and directed that a consolidated complaint be filed. Following consolidation, the Canoles and Gehan plaintiffs voluntarily dismissed their suits. The consolidated complaint in the Federal Demand Futile Actions, filed in August 2017, alleges claims for breach of fiduciary duty, corporate waste, unjust enrichment and violations of Section 14(a) of the Securities Exchange Act. We believe that the plaintiffs in the Federal Demand Futile Actions lack standing to assert claims derivatively on our behalf, and we have moved to dismiss the consolidated complaint on that basis.

Three additional shareholder derivative suits purporting to assert claims on behalf of us were filed in the United States District Court for the Southern District of New York on the following dates by shareholders who served demands on the board to bring litigation and allege that their demands were wrongfully refused: February 2017 (the "McKinney Complaint"), March 2017 (the "Sherek/Spiegel Complaint") and April 2017 (the "Sebenoler Complaint"). In May 2017, the Court consolidated the McKinney Complaint, Sherek/Spiegel Complaint and Sebenoler Complaint as the "Federal Demand Refused Actions." A consolidated complaint was filed on June 30, 2017, alleging claims for breach of fiduciary duty, unjust enrichment and violations of Section 14(a) of the Securities Exchange Act. The consolidated complaint was dismissed in February 2018 but is subject to appeal.

In August 2017, Robert Canoles filed a shareholder derivative suit in Maryland Circuit Court against certain of our current and former officers and directors, as well as our Manager and Resource America (the "Canoles Complaint"). Mr. Canoles had previously filed his suit in the United States District Court for the Southern District of New York, but voluntarily dismissed that action after the Court declined to appoint his counsel as lead counsel in the Federal Demand Futile Actions. The Canoles Complaint, as amended in October 2017, asserts a variety of claims, including claims for breach of fiduciary duty, unjust enrichment and corporate waste, that are based on allegations substantially similar to those at issue in the Federal Demand Futile Actions. The Canoles Complaint was stayed by the Maryland Circuit

Court in favor of the federal shareholder litigation described above. We believe that Canoles lacks standing to assert claims derivatively on our behalf and intend to seek the dismissal of the Canoles Complaint on that basis if the stay is lifted.

---

[\(Back to Index\)](#)

In September 2017, Michael Hafkey filed a shareholder derivative suit in the United States District Court for the District of Maryland against certain of our former officers and directors and our Manager. The complaint asserts a breach of fiduciary duty claim that is substantially similar to the claims at issue in the Federal Demand Refused Actions. Mr. Hafkey previously made a demand on the board of directors to investigate this claim, which was ultimately denied. We believe that Hafkey's claim that his demand to bring litigation was wrongfully refused is without merit and that Hafkey consequently lacks standing to assert claims derivatively on our behalf. We filed a motion to stay the Hafkey action in favor of the duplicative Federal Demand Futile Actions, which is pending. We have recorded a \$2.2 million litigation reserve for amounts, including estimated legal costs, in excess of our insurance coverage at December 31, 2017, which is included in accounts payable and other liabilities on the consolidated balance sheet. At December 31, 2016, there was no litigation reserve.

Primary Capital Mortgage, LLC ("PCM") is subject to litigation related to claims for repurchases or indemnifications on loans that PCM has sold to third parties. At December 31, 2017 and 2016, such litigation demands totaled approximately \$6.5 million and \$15.9 million, respectively. Such litigation demands are included in the reserve for mortgage repurchases and indemnifications that totaled \$5.7 million and \$4.8 million at December 31, 2017 and 2016, respectively. The reserve for mortgage repurchases and indemnification is included in liabilities held for sale on the consolidated balance sheets.

#### Settled Litigation Matters, Including Pending Settlements

A subsidiary of ours was the subject of a lawsuit brought in 2014 by the purchaser of a hotel from such subsidiary. The complaint asserted breach of contract claims for non-payment of certain fees and expenses. This matter was settled on December 20, 2017.

PCM was the subject of a lawsuit brought by a purchaser of residential mortgage loans alleging breaches of representations and warranties made on loans sold to the purchaser. The asserted repurchase claims related to loans sold to the purchaser that were subsequently sold by the purchaser to either the Federal National Mortgage Association or Federal Home Loan Mortgage Corporation and loans sold to the purchaser that were subsequently securitized and sold as RMBS by the purchaser to RMBS investors. This matter was settled on January 8, 2018. On November 22, 2017, the Plaintiff's motion for class certification was granted in *Levin v. Resource Capital Corp.* (the "Levin Action"), a previously disclosed securities litigation against us and certain of our current and former officers that is pending in the United States District Court for the Southern District of New York. On February 5, 2018, we entered into a stipulation and agreement of settlement (the "Settlement") that is intended to settle all claims asserted in the action on behalf of the certified class, which consists, with specified exceptions, of all persons who purchased our common stock, 8.25% Series B Cumulative Redeemable Preferred Stock, or 8.625% Fixed-to-Floating Series C Cumulative Redeemable Preferred Stock between October 31, 2012 and August 5, 2015. Under the terms of the proposed Settlement, which has been filed publicly with the Court, a payment of \$9.5 million will be made to settle the litigation. The settlement payment will be funded principally by insurance coverage, and we do not anticipate that the Settlement will have a material adverse impact on our financial condition. In exchange for the settlement consideration, we and the individual defendants in the Levin Action (and certain related parties) will be released from all claims that have been or could have been asserted in the case by class members (and certain related parties), excluding persons who opt out of the Settlement, as further described in the stipulation and agreement of settlement filed with the Court. The proposed Settlement contains no admission of misconduct by us or any of the individual defendants and expressly acknowledges that we and the individual defendants deny all allegations of wrongdoing and maintain that we and they have at all times acted in good faith and in compliance with the law. The proposed Settlement is subject to, among other conditions, preliminary and final court approval. Further, we have the right to terminate the Settlement under certain conditions, including if a specified number of class members timely and validly requesting exclusion from the class. There can be no assurance that the proposed Settlement will be finalized and approved, and the actual outcome of this matter may differ materially from the terms of the proposed Settlement described herein.

We expect the total settlement of the above matters to be \$13.6 million excluding legal fees, of which \$7.5 million is expected to be covered by insurance.

## PART II

ITEM 5 MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND  
ISSUER PURCHASES OF EQUITY SECURITIES

## Market Information

Our common stock has been listed on the New York Stock Exchange, or NYSE, under the symbol "RSO" since our initial public offering in February 2006. The following table sets forth for the indicated periods the high and low prices for our common stock, as reported on the NYSE, and the dividends declared and paid during our past two fiscal years:

	High	Low	Dividends Declared
Year Ended December 31, 2017:			
Fourth Quarter <sup>(1)</sup>	\$10.88	\$9.36	\$ 0.05
Third Quarter	\$11.13	\$9.45	\$ 0.05
Second Quarter	\$10.25	\$9.21	\$ 0.05
First Quarter	\$9.92	\$7.99	\$ 0.05
Year Ended December 31, 2016:			
Fourth Quarter	\$12.75	\$8.02	\$ 0.05
Third Quarter	\$13.64	\$12.36	\$ 0.42
Second Quarter	\$13.18	\$10.92	\$ 0.42
First Quarter	\$12.91	\$9.32	\$ 0.42

(1) We distributed a regular dividend of \$0.05 on January 26, 2018 to stockholders of record as of December 29, 2017. We are organized and conduct our operations to qualify as a real estate investment trust, or REIT, which requires that we distribute at least 90% of our REIT taxable income. Therefore, we intend to continue to declare quarterly distributions on our common stock. No assurance, however, can be given as to the amounts or timing of future distributions as such distributions are subject to our earnings, financial condition, capital requirements and such other factors as our board of directors deems relevant.

At March 9, 2018, there were 31,653,426 common shares outstanding held by 373 persons of record.

See Item 12, "Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters" for information relating to securities authorized for issuance under our equity compensation plans.

In January 2018, we redeemed all shares of 8.50% Series A Cumulative Redeemable Preferred Stock, or Series A Preferred Stock, and 930,983 shares of 8.25% Series B Cumulative Redeemable Preferred Stock, or Series B Preferred Stock, following payment of the respective dividends for the period from October 31, 2017 to January 30, 2018. In February 2018, we announced the full redemption of our remaining outstanding shares of Series B Preferred Stock to occur on March 26, 2018.

Our Series A Preferred Stock was listed on the NYSE, and traded under the symbol "RSOPrA," through January 30, 2018. The Series A Preferred Stock was first issued in the second quarter of 2012. We have declared and paid the specified quarterly dividend per share of \$0.531250. No shares of Series A Preferred Stock are currently outstanding. Our Series B Preferred Stock is listed on the NYSE and traded under the symbol "RSOPrB." The Series B Preferred Stock was first issued in the third quarter of 2012. We have declared and paid the specified quarterly dividend per share of \$0.515625. No dividends are currently in arrears on the Series B Preferred Stock.

Our 8.625% Fixed-to-Floating Series C Cumulative Redeemable Preferred Stock, or Series C Preferred Stock, is listed on the NYSE and trades under the symbol "RSOPrC." The Series C Preferred Stock was first issued in the second quarter of 2014. We have declared and paid the specified quarterly dividend per share of \$0.539063. No dividends are currently in arrears on the Series C Preferred Stock.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

#### Issuer Purchases of Equity Securities

In August 2015, our board of directors authorized a program to repurchase up to \$50.0 million of our outstanding equity and debt securities. In March 2016, the board of directors approved a new securities repurchase program for up to \$50.0 million of our outstanding securities, which replaced the August 2015 repurchase plan. During the year ended December 31, 2017, we did not repurchase any shares of our common or preferred stock through this program. At December 31, 2017, \$44.9 million remains available in this repurchase plan.

#### Performance Graph

The following line graph presentation compares cumulative total shareholder returns on our common stock with the Russell 2000 Index and the FTSE NAREIT All REIT Index for the period from December 31, 2012 to December 31, 2017. The graph and table assume that \$100 was invested in each of our common stock, the Russell 2000 Index and the FTSE NAREIT All REIT Index on December 31, 2012, and that all dividends were reinvested. This data as furnished by the Research Data Group.

\*\$100 invested on December 31, 2012 in stock or index, including reinvestment of dividends.

Fiscal year ending December 31,

[\(Back to Index\)](#)

## Overview

We are a Maryland corporation and real estate investment trust ("REIT") that is primarily focused on originating, holding and managing commercial mortgage loans and commercial real estate-related debt investments. We are externally managed by Resource Capital Manager, Inc. (our "Manager"), which is an indirect wholly-owned subsidiary of C-III Capital Partners LLC ("C-III"), a leading commercial real estate ("CRE") investment management and services company engaged in a broad range of activities. C-III is the beneficial owner of shares of our common stock (2.4% of our outstanding shares at December 31, 2017). Our Manager draws upon the management teams of C-III and its subsidiaries and its collective investment experience to provide its services. Our objective is to provide our stockholders with total returns over time, including quarterly distributions and capital appreciation, while seeking to manage the risks associated with our investment strategies. Historically, we have made other residential real estate and commercial finance investments. We have financed a substantial portion of our portfolio investments through borrowing strategies seeking to match the maturities and repricing dates of our financings with the maturities and repricing dates of our investments, and we have sought to mitigate interest rate risk through derivative instruments. We are organized and have elected to be taxed as a REIT for U.S. federal income tax purposes under Subchapter M of the Internal Revenue Code of 1986, as amended. We also intend to operate our business in a manner that will permit us to remain excluded from registration as an investment company under the Investment Company Act of 1940. In November 2016, we received approval from our board of directors to execute a strategic plan (the "Plan") to focus our strategy on CRE debt investments. The Plan contemplates disposing of certain loans underwritten prior to 2010 ("Legacy CRE loans"), exiting non-core businesses and investments, including residential real estate and commercial finance assets (collectively, the "Identified Assets"), and establishing a dividend policy based on sustainable earnings. We began the process of disposing of several ancillary businesses and investments as part of the Plan during the fourth quarter of 2016. The dispositions include our residential mortgage origination operations and our middle market lending segment, which currently holds syndicated corporate loans and an impaired middle market direct origination loan. We moved these segments to discontinued operations and also moved our life settlement contract investment as well as several Legacy CRE loans to held for sale classification in the fourth quarter of 2016 and recognized impairments to adjust the carrying value of these businesses and investments to their estimated fair market value. While we believe we have appropriately valued the assets in our investment portfolio, including those held for sale that remain at December 31, 2017, we cannot assure you that further impairments will not occur or that our assets will otherwise not be adversely affected by market conditions. In addition, we expect to incur transaction related general and administrative costs as we dispose of these non-core businesses and investments. We began to implement the Plan during the fourth quarter of 2016. The following table delineates the disposable investments by business segment and details the current net book value of each included in the Plan (in millions):

	Identified Assets at Plan Inception	Impairments/Adjustments on Non-Monetized Assets <sup>(1)(2)</sup>	Impairments/Adjustments on Monetized Assets <sup>(1)</sup>	Monetized through December 31, 2017 <sup>(3)</sup>	Net Book Value at December 31, 2017 <sup>(3)</sup>
Discops and AHFS					
Legacy CRE Loans <sup>(4)</sup>	\$ 194.7	\$ (13.8 )	\$ (11.7 )	\$ (107.4 )	\$ 61.8
Middle Market Loans	73.8	(18.3 )	0.3	(26.4 )	29.4
Residential Mortgage Lending Segment <sup>(5)</sup>	56.6	(1.2 )	(9.6 )	(45.1 )	0.7
Other AHFS	5.9	2.5	1.6	(3.4 )	6.6
Subtotal - Discops and AHFS	\$ 331.0	\$ (30.8 )	\$ (19.4 )	\$ (182.3 )	\$ 98.5
Investments in Unconsolidated Entities	\$ 86.6	\$ (1.9 )	\$ 40.1	\$ (119.4 )	5.4
Commercial Finance Assets <sup>(6)</sup>	62.5	(0.3 )	0.4	(62.3 )	0.3
Total	\$ 480.1	\$ (33.0 )	\$ 21.1	\$ (364.0 )	\$ 104.2

(1)

Reflects adjustments as a result of the designation as assets held for sale or discontinued operations, which occurred during the third and fourth quarters of 2016 except as noted in (2) below.

- (2) The impairment adjustment to middle market loans includes \$5.4 million of fair value adjustments that occurred prior to the inception of the Plan.
- (3) Investments in unconsolidated entities include a pro forma adjustment for a \$5.1 million distribution from Pelium Capital, L.P. ("Pelium Capital") received in January 2018.  
Legacy CRE Loans includes \$118.2 million par value of loans at the inception of the Plan that were not reflected
- (4) on the consolidated balance sheets until our investment in Resource Real Estate Funding CDO 2007-1, Ltd. ("RREF CDO 2007-1") was liquidated in November 2016.
- (5) Includes \$1.1 million of cash and cash equivalents not classified as assets held for sale in the Residential Mortgage Lending segment at December 31, 2017.
- (6) Commercial Finance assets decreased by \$2.3 million related to the reclassification of certain assets to other assets on the consolidated balance sheets.

[\(Back to Index\)](#)

We have deployed the incremental capital received primarily into our CRE lending business and commercial mortgage-backed security ("CMBS") investments. During 2017 and 2016, we originated 40 new CRE loans totaling \$797.0 million. During the year ended December 31, 2017, we reinvested proceeds into CMBS with a face value of \$212.0 million. These investments were initially financed in part through our CRE and CMBS term facilities and, in the case of CRE loans, through securitizations. As a result of the implementation of our Plan, coupled with available debt financing at December 31, 2017 of \$358.0 million, we intend to grow our CRE lending operation in 2018.

We also took steps to reduce our cash cost of capital in 2017 and during the first quarter of 2018. In August 2017, we issued approximately \$143.8 million of convertible notes with a 4.50% coupon and partially redeemed approximately \$123.4 million convertible notes with coupons of 6.00% and 8.00%, respectively. In December 2017, we announced plans to redeem all of our 8.50% Series A Cumulative Redeemable Preferred Stock ("Series A Preferred Stock") and a portion of our 8.25% Series B Cumulative Redeemable Preferred Stock ("Series B Preferred Stock") for a combined redemption of \$50.0 million in January 2018. After December 31, 2017, we announced plans to redeem the balance, for \$115.3 million, of the Series B Preferred Stock which we plan to redeem in March 2018. We expect to record a non-recurring charge on the balance of the Series B Preferred Stock redemption of approximately \$7.5 million in the first quarter of 2018. These steps, once completed, will have significantly reduced our cash cost of capital in future periods.

We generate our income primarily from the spread between the revenues we receive from our assets and the cost to finance our ownership of those assets, from management of assets and from hedging interest rate risks. Historically, we have generated revenues from the interest and fees earned on our CRE whole loans, CMBS, middle market loans, other asset-backed securities ("ABS") and structured note investments. We also generated revenues from fees received for the management of externally originated syndicated corporate loans, from our residential mortgage origination business and from our investment in an equipment leasing business. Because the Plan focuses our investment strategy on CRE activities, we expect to complete the shift away from these ancillary businesses, which will terminate the fee income we receive from them as we dispose of those investments.

We use leverage to enhance our returns, and we have financed each of our different asset classes with different degrees of leverage. The cost of borrowings to finance our investments is a significant part of our expenses. Our net income depends on our ability to control these expenses relative to our revenue. We historically have financed our CRE loan portfolio with repurchase agreements as a short-term financing source and securitizations and, to a lesser extent, other term financing as long-term financing sources. We expect to continue to use these financing sources into the near term future. We use derivative financial instruments to hedge a portion of the interest rate risk associated with our borrowings, and to a lesser extent, to hedge the impact of changes in foreign currency spot rates on investments we have historically made that are denominated in foreign currencies. We generally seek to minimize interest rate risk and foreign currency risk with a strategy that is expected to result in the least amount of volatility under generally accepted accounting principles while still meeting our strategic economic objectives and maintaining adequate liquidity and flexibility. These hedging transactions may include interest rate swaps, collars, caps or floors, puts, calls, options and foreign currency exchange protection.

We typically target transitional floating-rate CRE loans between \$20.0 million and \$30.0 million. During the year ended December 31, 2017, we originated 28 new CRE loans with total commitments of \$600.3 million, of which \$528.9 million were funded during the year. Certain of these loans are financed through our CRE term facilities and a CRE securitization. As a result of the dispositions contemplated by the Plan and the liquidity provided to date, coupled with available debt financing under our existing facilities of over \$358.0 million at December 31, 2017, we intend to grow our CRE lending program, which will allow us to maintain a market presence and working relationships with our CRE borrowers.

As a result of the implementation of the Plan, the allocation of our equity at December 31, 2017 was allocated as 84% in core assets and 16% in non-core assets, of which we intend to substantially, if not entirely, dispose of in 2018.

#### Results of Operations

Our net income allocable to common shares for the year ended December 31, 2017 was \$5.7 million, or \$0.18 per share-basic (\$0.18 per share-diluted), as compared to net loss allocable to common shares of \$53.0 million, or \$(1.73) per share-basic ( \$(1.73) per share-diluted), for the year ended December 31, 2016 and net loss allocable to common

shares of \$13.9 million, or \$(0.43) per share-basic (\$(0.43) per share-diluted), for the year ended December 31, 2015.

Total interest income	\$99,318	\$112,618	\$(13,300)	(12) %

Aggregate interest income decreased by \$13.3 million for the comparative years ended December 31, 2017 and 2016.

We attribute this decrease to the following:

#### Interest Income from Loans

CRE Loans and Legacy CRE loans held for sale. Interest income on CRE loans and Legacy CRE loans held for sale increased, in total, by \$3.0 million for the comparative years ended December 31, 2017 and 2016. The increase is primarily attributable to an increase in the one-month London Interbank Offered Rate ("LIBOR") for the comparative years.

CMBS. Interest income from CMBS increased by \$3.1 million for the comparative years ended December 31, 2017 and 2016. This increase is primarily due to the acquisition of CMBS with total face values of \$212.0 million during the year ended December 31, 2017.

ABS. Interest income from ABS decreased by \$17.0 million for the comparative years ended December 31, 2017 and 2016. This decrease is primarily attributable to the liquidations of Resource Real Estate Funding CDO 2006-1, Ltd. ("RREF CDO 2006-1"), RREF CDO 2007-1 and Apidos Cinco CDO ("Apidos Cinco"), recorded as ABS during the year ended December 31, 2016, following deconsolidation in January 2016.

#### Interest Income - Other

Preference payments on structured notes. Preference payments on structured notes decreased by \$2.6 million for the comparative years ended December 31, 2017 and 2016 due to the sales of our remaining investments in the Harvest CLOs, which were euro-denominated collateralized loan obligation ("CLO") investments backed by syndicated bank loans, during the year ended December 31, 2017.

Aggregate interest income decreased by \$9.3 million for the comparative years ended December 31, 2016 and 2015.

We attribute this decrease to the following:

#### Interest Income from Loans

**CRE whole loans.** Interest income on CRE loans decreased by \$5.0 million for the comparative years ended December 31, 2016 and 2015 due primarily to a decrease in the weighted average balance of loans from \$1.6 billion to \$1.4 billion. This decrease is due to the deconsolidation of RREF CDO 2006-1 and RREF CDO 2007-1 combined with net paydowns on the portfolio of \$116.3 million during the year ended December 31, 2016. The decrease in interest income was partially offset by an increase in fee income from loans.

**Syndicated corporate loans.** Interest income on syndicated corporate loans decreased by \$9.8 million for the comparative years ended December 31, 2016 and 2015. This decrease is attributable to the weighted average loan balance of our syndicated corporate loan portfolio decreasing from \$220.1 million to zero during the year ended December 31, 2016. This decrease is primarily attributable to the liquidation of Apidos CDO III, Ltd. ("Apidos CDO III") in June 2015, and the deconsolidation of Apidos Cinco in January 2016, which was recorded in interest income from ABS during the year ended December 31, 2016.

#### Interest Income from Securities

**CMBS.** Interest income from CMBS decreased by \$6.1 million for the comparative years ended December 31, 2016 and 2015. This decrease, and the decrease in the weighted average balance, are due to the deconsolidation RREF CDO 2006-1 and RREF CDO 2007-1 in January 2016 combined with paydowns of \$35.8 million on the portfolio during the year ended December 31, 2016. These collateralized debt obligations ("CDOs") held a significant portfolio of CMBS reflected during the year ended December 31, 2015.

**ABS.** Interest income from ABS increased by \$10.6 million for the comparative years ended December 31, 2016 and 2015. This increase is primarily attributable to the deconsolidation of RREF CDO 2006-1, RREF CDO 2007-1 and Apidos Cinco in January 2016 after which we retained ABS securities in each of RREF CDO 2006-1, RREF CDO 2007-1 and Apidos Cinco which contributed significantly to interest income ABS.

Hedging	130	119	11	9 %
Total interest expense	\$57,657	\$53,747	\$3,910	7 %

Aggregate interest expense increased by \$3.9 million for the comparative years ended December 31, 2017 and 2016.

We attribute the change to the following:

CRE whole loans. The increase in interest expense of \$2.4 million for the comparative years ended December 31, 2017 and 2016 was related to an increase in the cost of funds, primarily due to an increase in one-month LIBOR, despite a decline in the weighted average balance over the year ended December 31, 2017 in comparison with the year ended December 31, 2016. The balance declined in connection with the liquidations of the Resource Capital Corp. CRE Notes 2013, Ltd. ("RCC CRE Notes 2013") in December 2016 and Resource Capital Corp. 2014-CRE2, Ltd. ("RCC 2014-CRE2") in August 2017, offset by the closing of Resource Capital Corp. 2017-CRE5, Ltd. ("RCC 2017-CRE5") in July 2017.

CMBS. Interest expense on CMBS increased by \$699,000 for the comparative years ended December 31, 2017 and 2016 due to the increased borrowings on our CMBS short-term repurchase agreements, resulting from significant acquisitions in our CMBS portfolio utilizing proceeds from the monetization of Plan assets.

Trust certificates. The increase in interest expense from trust certificates of \$996,000 for the comparative years ended December 31, 2017 and 2016 was primarily related to the execution of a new trust certificate repurchase agreement with RSO Repo SPE Trust 2017 in September 2017.

Year Ended December 31, 2016 as compared to Year Ended December 31, 2015

Securitized borrowings	—	145	(145 )	(100 )%
Total interest expense	\$53,747	\$56,530	\$(2,783)	(5 )%

Aggregate interest expense decreased by \$2.8 million for the comparative years ended December 31, 2016 and 2015.

We attribute this decrease to the following:

[\(Back to Index\)](#)

[\(Back to Index\)](#)

CRE whole loans. Interest expense on CRE whole loans increased by \$3.7 million for the comparative years ended December 31, 2016 and 2015. This increase was primarily related to increased borrowings under our Wells Fargo Bank, N.A. ("Wells Fargo") repurchase facility ("2012 Facility") and Morgan Stanley Bank, N.A. ("Morgan Stanley") repurchase facility ("Morgan Stanley Facility") and a full year in 2016, in comparison with a partial year in 2015, of interest expense recorded for Resource Capital Corp. 2015-CRE3, Ltd. ("RCC 2015-CRE3"), which closed in February 2015, and Resource Capital Corp. 2015-CRE4, Ltd. ("RCC 2015-CRE4"), which closed in August 2015. Interest expense for 2016 also included an acceleration of deferred debt issuance costs related to paydowns of senior notes in RCC CRE Notes 2013, RCC 2014-CRE2, RCC 2015-CRE3 and RCC 2015-CRE4.

Trust certificates. The increase in interest expense on trust certificates of \$1.5 million for the comparative years ended December 31, 2016 and 2015 was due to a new repurchase agreement entered into with RSO Repo SPE Trust 2015 in November 2015.

Hedging. The decrease in interest expense on our interest rate swaps of \$6.0 million for the comparative years ended December 31, 2016 and 2015 was due to the deconsolidation of RREF CDO 2006-1 and RREF CDO 2007-1 and the removal and subsequent termination of interest rate swaps associated with those CDOs.

Syndicated corporate loans. The decrease in interest expense on syndicated corporate loans of \$2.5 million for the comparative years ended December 31, 2016 and 2015 was due to the deconsolidation of Apidos Cinco, our last remaining syndicated corporate loan CLO, in January 2016.

#### Other Revenue

Year Ended December 31, 2017 as compared to Year Ended December 31, 2016

Other revenue decreased by \$1.8 million for the comparative years ended December 31, 2017 and 2016 primarily due to a \$1.3 million decrease in fee income resulting from the liquidation of the remaining CLO management contracts held at Resource Capital Asset Management ("RCAM"), including one and two management contracts during the years ended December 31, 2017 and 2016, respectively. Additionally, the decrease in other revenue was driven by a \$695,000 decrease in fee income resulting from a contracted step down in our management fee rebates resulting from the sale of three of our investments in the Harvest CLOs. The decrease in other revenue was offset by a \$215,000 increase in dividend income, primarily due to the reversal of \$207,000 of accrued dividend income that was believed to be uncollectible during the year ended December 31, 2016.

Year Ended December 31, 2016 as compared to Year Ended December 31, 2015

Other revenue decreased by \$1.1 million for the comparative years ended December 31, 2016 and 2015 primarily due to a \$1.1 million decrease in fee income resulting from the liquidation of two RCAM CLO management contracts during the year ended December 31, 2016.

#### Operating Expenses

Year Ended December 31, 2017 as compared to the Year Ended December 31, 2016

The following table sets forth information relating to our operating expenses for the years presented (in thousands, except percentages):

	Years Ended		Dollar	Percent
	December 31,	December 31,	Change	Change
	2017	2016		
Operating expenses:

[\(Back to Index\)](#)

[\(Back to Index\)](#)

General and administrative. General and administrative expense increased by \$649,000 for the comparative years ended December 31, 2017 and 2016. The following table summarizes the information relating to our general and administrative expenses for the years presented (in thousands, except percentages):

	Years Ended		Dollar Change	Percent Change
	December 31, 2017	2016		
General and administrative				
Professional services <sup>(1)(2)</sup>	\$7,011	\$4,865	\$2,146	44 %
Wages and benefits	3,611	4,570	(959 )	(21 )%
Operating expenses	1,287	1,535	(248 )	(16 )%
Dues and subscriptions	954	1,211	(257 )	(21 )%
D&O insurance	1,039	848	191	23 %
Director fees	991	885	106	12 %
Rent and utilities	544	564	(20 )	(4 )%
Travel	366	456	(90 )	(20 )%
Tax penalties, interest & franchise tax	43	263	(220 )	(84 )%
Total general and administrative	\$15,846	\$15,197	\$649	4 %

(1) Professional services for the year ended December 31, 2016 include \$563,000 of expenses related to the restructuring of our taxable REIT subsidiaries ("TRS") and related tax preparation work performed.

(2) Professional services for the year ended December 31, 2016 include \$850,000 of legal expenses related to the modification of one of our Legacy CRE loans. This loan is classified as held for sale December 31, 2016 and paid off in June 2017.

The increase in general and administrative expenses for the year ended December 31, 2017 is primarily attributable to an increase in professional services due to the establishment of a general litigation reserve of \$2.2 million for the year ended December 31, 2017, offset by a decrease in wages and benefits, operating expenses and dues and subscriptions primarily attributable to the management of expenses.

Management fees - related party. Management fee - related party increased by \$126,000 for the comparative years ended December 31, 2017 and 2016. We recorded an incentive management fee to our manager of \$2.2 million, primarily attributable to the \$41.1 million gain we recognized in connection with proceeds received on the sale of LEAF Commercial Capital, Inc. ("LCC") to a third party. This increase was offset by a decrease of \$1.7 million in our base management fee as a result of a reduction in our net equity from the repurchase of 8.3% of our outstanding common stock during the year ended 2016 and net losses arising from the disposition of underperforming businesses and non-core asset classes in conjunction with the execution of the Plan. Additionally, our management fee paid in connection with the management of our life-settlement contract business decreased from \$550,000 to \$250,000 for the year ended December 31, 2017.

Provision for loan and lease losses, net. Provision for loan and lease losses, net decreased by \$16.0 million for the comparative years ended December 31, 2017 and 2016. The following table summarizes information relating to our loan and lease losses for the years presented (in thousands, except percentages):

	Years Ended		Dollar Change	Percent Change
	December 31, 2017	2016		
Provision for loan and lease losses, net				
CRE whole loans	\$1,499	\$18,167	\$(16,668)	(92 )%
Syndicated corporate loans	3	(402 )	405	101 %
Direct financing leases	270	—	270	100 %
Total provision for loan and lease losses, net	\$1,772	\$17,765	\$(15,993)	(90 )%

[\(Back to Index\)](#)

[\(Back to Index\)](#)

CRE whole loans. The CRE whole loans provision decreased by \$16.7 million for the comparative years ended December 31, 2017 and 2016. We recognized a net \$1.5 million general reserve during the year ended December 31, 2017 as a result of an increase in the value of loans assigned to risk rating category 3 (see Note 7 in Item 8, "Financial Statements and Supplementary Data" for a discussion of our credit quality indicators). The CRE whole loans provision of \$18.2 million recorded during the year ended December 31, 2016 related entirely to specific reserves taken on eight Legacy CRE loans identified and subsequently classified as held for sale as a result of the implementation of the Plan and one CRE loan held for investment deemed impaired that remained in our CRE loan portfolio at December 31, 2017.

Syndicated corporate loans. During the year ended December 31, 2017, we recorded a \$3,000 provision against our syndicated corporate loans. During the year ended December 31, 2016, we recorded a net recovery of \$402,000 resulting from the write-off of unsettled positions that remained at the time of liquidation, offset by the partial recovery of a provision previously taken on a liquidated syndicated corporate loan CLO. At December 31, 2017, syndicated corporate loans had a carrying value of \$13,000.

Direct financing leases. During the year ended December 31, 2017, we recorded a \$270,000 provision against the value of our direct financing lease portfolio due to delinquent leases. During the year ended December 31, 2016, there was no provision recorded against the value of our direct financing lease portfolio. At December 31, 2017, direct financing leases had a carrying value of \$151,000.

Impairment losses. Impairment losses decreased by \$26.3 million for the comparative years ended December 31, 2017 and 2016. The decrease primarily related to an other-than-temporary impairment of \$19.9 million on RREF CDO 2007-1 recorded during the year ended December 31, 2016. In addition, impairment losses of \$3.7 million were recognized as a result of the reduction of the actual and expected revenue-earning useful lives of two RCAM-managed CLOs: Shasta CLO and San Gabriel CLO, during the year ended December 31, 2016. The Shasta CLO was called in October 2016 and the San Gabriel CLO was called in February 2017. Additionally at December 31, 2016, we fully charged off one trading security with a cost basis of \$1.8 million. An impairment loss of \$177,000 was recorded during the year ended December 31, 2017 on our final RCAM CLO management contract intangible due to the related investment vehicle being called prior to its expected maturity.

Depreciation and amortization. Depreciation and amortization decreased by \$1.4 million for the comparative years ended December 31, 2017 and 2016. This decrease was primarily due to two RCAM-managed CLOs being called in January 2016 and October 2016, resulting in termination of amortization and accretion of the associated intangible assets.

Year Ended December 31, 2016 as compared to the Year Ended December 31, 2015

The following table sets forth information relating to our operating expenses for the years presented (in thousands, except percentages):

	Years Ended		Dollar Change	Percent Change

[\(Back to Index\)](#)

[\(Back to Index\)](#)

General and administrative. General and administrative expense decreased by \$1.1 million for the comparative years ended December 31, 2016 and 2015. Certain general and administrative expenses incurred in 2016 and 2015 relate to assets that are deemed to be non-core under the Plan. The following table summarizes the information relating to our general and administrative expenses for the years presented (in thousands, except percentages):

	Years Ended		Dollar Change	Percent Change
	December 31, 2016	2015		
General and administrative				
Professional services <sup>(1)(2)</sup>	\$4,865	\$5,017	\$(152)	(3)%
Wages and benefits	4,570	4,263	307	7%
Operating expenses	1,535	1,825	(290)	(16)%
Dues and subscriptions	1,211	1,736	(525)	(30)%
D&O insurance	848	847	1	—%
Director fees	885	811	74	9%
Rent and utilities	564	559	5	1%
Travel	456	711	(255)	(36)%
Tax penalties, interest & franchise tax	263	577	(314)	(54)%
Total general and administrative	\$15,197	\$16,346	\$(1,149)	(7)%

(1) For the year ended December 31, 2016, professional services include \$563,000 of expenses related to the restructuring of our TRSs and related tax preparation work performed.

(2) Professional services for the year ended December 31, 2016 and 2015 include \$850,000 and \$539,000, respectively, of legal expenses related to the modification of one of our Legacy CRE loans. This loan was classified as held for sale at December 31, 2016 and paid off in June 2017.

The decrease in general and administrative expenses was related to the deconsolidation of RCM Global, LLC ("RCM Global"), Pelium Capital, Apidos Cinco, RREF CDO 2006-1 and RREF CDO 2007-1 in January 2016 due to the adoption of the new consolidation guidance. Prior to deconsolidation, each of the three CDOs and Pelium Capital recorded an average of \$50,000 and \$75,000, respectively, per quarter for general and administrative expenses related to dues and subscriptions, professional services and operating expenses, which are no longer recorded in general and administrative expenses. In addition, there was a decrease of \$314,000 of tax penalties, interest and franchise tax year over year as a result of federal and state tax penalties included in 2015 due to the late payment of certain 2013 tax liabilities. There was also a decrease of \$255,000 due to a decline in travel related expenses offset by an increase of \$307,000 in wages and benefits reimbursed to our Manager.

Management fees - related party. Management fees - related party decreased by \$315,000 for the comparative years ended December 31, 2016 and 2015 due to decreased stockholders' equity, a component in the formula by which base management fees were calculated under the Second Amended and Restated Management Agreement, primarily as a result of our repurchase of 8.3% of our outstanding common shares and quarterly distributions in excess of earnings. This expense represents compensation to our Manager.

Included in management fees - related party is an oversight management fee which is a fee paid quarterly to Resource America, Inc. ("Resource America") for reimbursement of additional costs incurred related to our life care business. The oversight management fee was \$550,000 for each of the years ended December 31, 2016 and 2015.

Equity compensation - related party. Equity compensation - related party increased by \$605,000 for the comparative years ended December 31, 2016 and 2015. The increase in equity compensation expense was primarily attributable to additional amortization of \$691,000 related to the acceleration of vesting of shares held by terminated executives, as a result of C-III's acquisition of Resource America. This expense included the vesting of 549,911 shares of restricted stock and was offset by a decrease in our stock price during the period.

[\(Back to Index\)](#)

Provision for loan and lease losses, net. Our provision for loan and lease losses, net decreased by \$23.3 million for the comparative years ended December 31, 2016 and 2015. The following table summarizes information relating to our loan losses for the years presented (in thousands, except percentages):

	Years Ended		Dollar Change	Percent Change
	December 31, 2016	2015		
Provision for loan and lease losses, net				
CRE loans	\$18,167	\$37,736	\$(19,569)	(52)%
Syndicated corporate loans	(402)	2,887	(3,289)	(114)%
Direct financing leases	—	465	(465)	(100)%
Total provision for loan and lease losses, net	\$17,765	\$41,088	\$(23,323)	(57)%

CRE loans. The CRE loans provision decreased by \$19.6 million for the comparative years ended December 31, 2016 and 2015. During the three months ended September 30, 2016, we recorded specific provisions of \$6.1 million and \$2.0 million against two loans with carrying values of \$27.5 million and \$2.0 million, respectively. As part of our ongoing monitoring, we obtained appraisals on six CRE loans from third party vendors. The two loans against which we took provisions on were valued below their previously stated cost bases. One loan, a hotel located in Studio City, CA, utilized an updated appraisal as the determinant of value, after previously being under contract for sale. The loan had a maturity date of February 2017, which triggered an appraisal on an 'as-is' basis to determine its current value, resulting in a specific reserve of \$6.1 million on the mezzanine tranches of the loan. The loan paid off in July 2017. The second loan, a hotel located in Tucson, Arizona, utilized an appraisal, after previously utilizing a broker quote that supported the value at December 31, 2015, which returned an 'as-stabilized' value below our cost basis and, as a result, the mezzanine tranche of \$2.0 million was fully reserved. The senior tranche of the loan is held in RREF CDO 2007-1. The provisions recorded against the loans reflect the estimated recoverable values.

As part of the Plan, eight non-performing Legacy CRE loans were identified and transferred to loans held for sale. Two of these loans were written down to the lower of cost or market value by recording a provision for loan losses of \$7.7 million during the three months ended December 31, 2016. In addition, we recorded a specific provision of \$2.5 million on another CRE loan that is currently held for investment, which was valued based on an appraisal of the property securing the loan. Since the borrower did not qualify for an extension of its loan and its maturity was within one year, we were required to the use of the 'as-is' value of the loan in evaluating impairment.

During the second quarter of 2015, we recorded a provision for loan losses on a subordinated mezzanine loan position that was acquired in 2007. The outstanding loan balance of \$38.1 million was fully reserved and associated accrued interest of \$3.0 million was reversed against interest income, for a total charge to operations of \$41.1 million. The loan was originally supported by a portfolio of 13 hotel properties, most of which were luxury brand hotels. As of June 2015, three hotel properties remained, all of which were located in or near San Juan, Puerto Rico. As a result of economic and credit disruptions in Puerto Rico, we determined that the loan was impaired and required a full reserve as of June 2015.

Syndicated corporate loans. The syndicated corporate loan provision decreased by \$3.3 million for the comparative years ended December 31, 2016 and 2015. The decrease was the result of the liquidation of Apidos CDO III in June 2015 and the deconsolidation of Apidos Cinco on January 1, 2016. The recovery on the syndicated corporate loans recorded in 2016 was due to the receipt of a cash payment on a position that was previously written-off at the time of liquidation.

Direct financing leases. During the year ended December 31, 2016, there was no provision recorded against the value of our direct financing leases as compared to a recorded provision of \$465,000 during the year ended December 31, 2015.

Impairment losses. Impairment losses increased \$26.1 million for the comparative years ended December 31, 2016 and 2015. We obtained third-party appraisals of the underlying properties on the remaining Legacy CRE loans in RREF CDO 2007-1. As a result, two of the loans were determined to have cost basis in excess of their updated cash flows, resulting in an aggregate impairment charge of \$19.9 million during the year ended December 31, 2016. In addition, impairment losses of \$3.7 million were recognized as a result of the reduction of the actual and expected

revenue-earning useful lives of two RCAM managed CLOs: Shasta CLO and San Gabriel CLO. The Shasta CLO was called on October 20, 2016 and the San Gabriel CLO was called in early 2017.

Depreciation and amortization. Depreciation and amortization decreased by \$2.7 million for the comparative years ended December 31, 2016 and 2015. This decrease was primarily due to the termination and acceleration of amortization of the underlying intangible assets two RCAM-managed CLOs called in January 2016 and October 2016.

## Other Income (Expense)

Year Ended December 31, 2017 as compared to Year Ended December 31, 2016

The following table sets forth information relating to our other income (expense) for the years presented (in thousands, except percentages):

	Years Ended December 31,		Dollar	Percent
	2017	2016	Change	Change
Other Income (Expense):				
Equity in earnings of unconsolidated entities	\$39,545	\$5,973	\$33,572	562 %
Net realized and unrealized gain on investment securities available-for-sale and loans and derivatives	18,334	4,066	14,268	351 %
Net realized and unrealized (loss) gain on investment securities, trading	(954 )	2,398	(3,352 )	(140 )%
Fair value adjustments on financial assets held for sale	(1,831 )	—	(1,831 )	(100 )%
Loss on extinguishment/reissuance of debt	(10,365 )	—	(10,365 )	(100 )%
Other (expense) income	(579 )	1,555	(2,134 )	(137 )%
Total other income	\$44,150	\$13,992	\$30,158	216 %

Equity in earnings of unconsolidated entities. Equity in earnings of unconsolidated subsidiaries increased by \$33.6 million for the comparative years ended December 31, 2017 and 2016. This increase is primarily due to a realized gain of \$41.1 million recognized on the sale of LCC in July 2017. This increase is offset by a net loss of \$345,000 on the disposition of our investment in Pearlmark Mezzanine Reality Partners IV, L.P. ("Pearlmark Mezz"), as well as other decreases in earnings from disposals of assets and partial redemptions of our investments in unconsolidated entities.

Net realized and unrealized gain on investment securities available-for-sale and loans and derivatives. Net realized and unrealized gains on investment securities available-for-sale and loans and derivatives increased by \$14.3 million for the comparative years ended December 31, 2017 and 2016. This increase in earnings is attributable to realized gains of \$12.5 million recognized on repayments in excess of carrying values on two Legacy CRE loans and net realized gains of \$2.0 million from sales of 13 investment securities available-for-sale. These increases in earnings are offset by gains totaling \$2.9 million during the year ended December 31, 2016 related to the liquidation of RREF CDO 2006-1 and RREF CDO 2007-1.

Net realized and unrealized (loss) gain on investment securities, trading. Net realized and unrealized (loss) gain on investment securities, trading decreased by \$3.4 million for the comparative years ended December 31, 2017 and 2016. This decrease is primarily attributable to the receipt of a \$4.1 million principal payment on one trading security, previously incorporated in that security's December 31, 2016 fair value, in January 2017. Consequently, the trading security's fair value declined following the payment.

Fair value adjustments on financial assets held for sale. A charge of \$1.8 million was recorded for the year ended December 31, 2017 primarily attributable to charges of \$1.9 million, which include protective advances made of \$442,000, to write down a Legacy CRE loan held for sale to its adjusted appraised value.

Loss on extinguishment/reissuance of debt. A loss of \$10.4 million was recorded for the year ended December 31, 2017 related to the extinguishment of \$44.5 million of the 6.00% convertible senior notes due 2018 (the "6.00% Convertible Senior Notes") and \$78.8 million of the 8.00% convertible senior notes due 2020 (the "8.00% Convertible Senior Notes").

Other (expense) income. Other (expense) income decreased by \$2.1 million for the comparative years ended December 31, 2017 and 2016. This decrease in earnings is due to a reserve of \$703,000 related to the Pearlmark Mezz indemnification. During the year ended December 31, 2016, we received a consent fee of \$1.5 million from Resource America at the closing of the acquisition by C-III.

[\(Back to Index\)](#)

[\(Back to Index\)](#)

Year Ended December 31, 2016 as compared to Year Ended December 31, 2015

The following table sets forth information relating to our other income (expense) incurred for the years presented (in thousands, except percentages):

	Years Ended		Dollar Change	Percent Change
	December 31, 2016	2015		
Other Income (Expense):				
Equity in earnings of unconsolidated entities	\$5,973	\$2,388	\$3,585	150 %
Net realized and unrealized gain on investment securities available-for-sale and loans and derivatives	4,066	18,459	(14,393)	(78)%
Net realized and unrealized (loss) gain on investment securities, trading	2,398	(547)	2,945	(538)%
Unrealized gain and net interest income on linked transactions, net	—	235	(235)	(100)%
Loss on extinguishment/reissuance of debt	—	(1,403)	1,403	100 %
Other (expense) income	1,555	759	796	105 %
Total other income	\$13,992	\$19,891	\$(5,899)	(30)%

Equity in earnings of unconsolidated entities. Equity in earnings of unconsolidated subsidiaries increased by \$3.6 million for the comparative years ended December 31, 2016 and 2015. An increase in earnings of approximately \$4.0 million was primarily related to two of our previously consolidated variable interest entities ("VIEs"), RCM Global and Pelium Capital, which were accounted for as equity method investments due to the adoption in January 2016 of new consolidation guidance. We also recognized an increase in earnings from our equity investment in Pearlmark Mezz for the year ended December 31, 2016 of \$1.4 million. We did not begin recognizing income from this investment until the fourth quarter of 2015. This was offset by a decrease in income from our investment in LCC of \$2.2 million, which includes our allocable share of earnings or losses assuming a hypothetical liquidation at book value method ("HLBV") of the investment at its net book value. Under the HLBV method, the allocable share of earnings is based on how the cash would be distributed if it were to liquidate its assets and liabilities at the end of the period.

Net realized and unrealized gain on investment securities available-for-sale and loans and derivatives. Net realized and unrealized gains on investment securities available-for-sale and loans and derivatives decreased by \$14.4 million for the comparative years ended December 31, 2016 and 2015. The decrease in gains are primarily attributable to \$8.5 million of realized gains during the year ended December 31, 2015 related to sale and settlement of certain securities in the RCM Global portfolio. We had no such gains during the year ended December 31, 2016. In addition, the RCM Global portfolio was deconsolidated effective January 2016 and, as a result, it is now accounted for as an equity method investment. There was also a decrease in net realized and unrealized gains on foreign exchange transactions from the settlement of related derivative contracts.

Net realized and unrealized (loss) gain on investment securities, trading. Net realized and unrealized (loss) gain on investment securities, trading increased by \$2.9 million for the comparative years ended December 31, 2016 and 2015. The 2016 activity is primarily related to an increase in the fair market value of our trading portfolio at December 31, 2016 compared to December 31, 2015. The 2015 activity included unrealized and realized losses recognized on trading securities owned by Pelium Capital, which was deconsolidated effective January 2016 and, as a result, is accounted for as an equity method investment.

Loss on extinguishment/reissuance of debt. Loss on reissuance of debt was \$1.4 million for the year ended December 31, 2015. In 2015, we reissued previously repurchased senior and junior notes of our consolidated VIEs in the open market. These senior and junior notes were originally repurchased at discounts to par and represented an opportunity to provide us strategic financing at beneficial rates upon reissuance. At the date these notes were repurchased, a gain, representing the difference between the repurchase price and the par value of the note, was recognized. As the same notes are reissued at a price less than par, an unrealized loss equal to the difference between the reissued price and the par value of the notes is recognized during the year ended December 31, 2015.

Other income (expense). Other income increased by \$796,000 for the comparative years ended December 31, 2016 and 2015. This increase in income is attributable to a consent fee paid to us by Resource America in connection with

its acquisition by C-III in September 2016 in exchange for us waiving our right under the management agreement to terminate the agreement as a result of a change in control of our Manager.

Net Income (Loss) From Discontinued Operations, Net of Tax

In November 2016, the board of directors approved the Plan that would allow us to focus on making CRE debt investments and disposing of certain underperforming Legacy CRE loans, exiting underperforming non-core asset classes and investments and establishing a dividend policy based on sustainable earnings. We met all of the criteria to classify the operating results of the residential mortgage and middle market lending segments as discontinued operations and exclude them from continuing operations for all periods presented. In addition, we transferred the assets and liabilities of Life Care Funding, LLC and Legacy CRE loans to held for sale in the fourth quarter of 2016.

In June 2017, we sold our residential mortgage lending pipeline and certain other assets and liabilities, including trademarks, domain names, intellectual property and certain fixed assets. Additional consideration may be earned subject to a contractual earn out provision based on future loan production, which will be payable over an eighteen to twenty-two month period. The sale generated cash proceeds of \$2.6 million, which included a nonrefundable earn out advance of \$650,000. Following the sale, additional nonrefundable earn outs of \$350,000 were received as of December 31, 2017. The collective book value of the assets sold was \$1.6 million.

We sold all of the remaining mortgage servicing rights ("MSR") portfolio, generating proceeds of \$19.1 million and a realized loss of \$1.2 million. We retain residential mortgage loans held for sale, which we expect to liquidate in 2018.

**Financial Condition****Summary**

Our total assets were \$1.9 billion at December 31, 2017 as compared to \$2.1 billion at December 31, 2016. The decrease in total assets was primarily due to the the repayment of CRE loans, the proceeds of which were used to pay down borrowings. To a lesser extent, the decrease is also due to the disposition of our residential mortgage lending segment, offset by acquisitions of 16 CMBS positions and the sale of an investment in an unconsolidated entity that returned proceeds in excess of the carrying value of the investment.
