 - ☐ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
 - ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 1.01 Entry into a Material Definitive Agreement.

On September 26, 2014, the registrant ("Mymetics") entered into a Material Transfer Agreement ("MTA") with Texas Biomedical Research Institute led by Dr. Ruth Ruprecht, Scientist & Director with the Texas Biomed AIDS Research Program in San Antonio, Texas. The MTA, which addresses the vaccine product that Mymetics must transfer to the Texas Biomedical Research Institute, is required to initiate the funding by the Bill & Melinda Gates Foundation (the "Grant") of a preclinical study of Mymetics' HIV vaccine candidate. This study follows a successfully completed smaller study by Mymetics at the Institute of Laboratory Animal Science in Beijing, China in which a two-component vaccine protected all monkeys against repeated AIDS virus exposures from persistent infection, an unprecedented result. One of the vaccine components demonstrated a strong safety and tolerance profile in a subsequent Phase I clinical trial in humans conducted by Mymetics under the oversight of the Federal Agency for Medicines and Health Products (FAGG) in Belgium. The new trial will begin in October 2014 and will involve 36 rhesus monkeys and compare two antigen vaccination regimens with a placebo, followed by intra-vaginal challenges with a live virus that carries a coat that differs from the one in the vaccine preparation. Results are expected at the end of 2015.

Mymetics issued a press release announcing the Grant, a copy of which is filed as exhibit 99.1 to this Current Report on Form 8-K.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

99.1 Press Release dated September 29, 2014

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
