NOTE 1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business

Consulier Engineering, Inc. and its subsidiaries (collectively called *Consulier* or the *Company*) are engaged in three primary business lines: ownership in medical software activities, distribution of Captain Cra-Z Soap and ownership of business entities.

Consulier International, Inc. (a subsidiary) markets and distributes Captain Cra-Z Soap .

Consulier's income is also derived from ownership of limited liability companies and limited partnership interests (Note 5) in BioSafe Systems, LLC (*BioSafe*), and AVM, L.P. (*AVM*), an Illinois limited partnership. BioSafe develops and markets environmentally safe products, alternatives to traditionally toxic pesticides. AVM is a broker/dealer in government securities and other fixed income instruments. Consulier's Chairman and majority stockholder, Warren B. Mosler (Mosler), is a general partner of the general partner of AVM.

ST, LLC, a majority owned limited liability company, is a majority member (75%) of Patient Care Technology Systems, LLC (*PCTS*) which develops and licenses data based integrated emergency room information systems marketed as Amelior ED . Mosler's ownership in ST, LLC was approximately 23% as of June 30, 2006. On July 15, 2005 and November 10, 2005, PCTS acquired certain assets of nuMedica, Inc. (*nuMedica*), which designs, customizes, markets, sells and distributes paper templates used for diagnostic purposes in emergency medical departments.

Basis of Consolidation

The accompanying condensed interim consolidated financial statements include Consulier and its wholly-owned subsidiary, Consulier International, Inc., and ST, LLC, and its majority owned subsidiary, PCTS. All significant intercompany accounts and transactions have been eliminated in consolidation. The Company uses the equity method of accounting for investments where its ownership is between 20% and 50%.

FINANCIAL STATEMENTS**

**NOTE 1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Interim Financial Data

The accompanying unaudited condensed interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with instructions to Form 10-QSB and Regulation S-B. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. However, management believes the accompanying unaudited condensed interim consolidated financial statements contain all adjustments, consisting of only normal recurring adjustments, necessary to present fairly the consolidated financial position of Consulier Engineering, Inc. and subsidiaries as of June 30, 2006, and the results of their operations and cash flows for the three and six months ended June 30, 2006 and 2005. The results of operations and cash flows for the period are not necessarily indicative of the results of operations or cash flows that can be expected for the year ending December 31, 2006. For further information, refer to the consolidated financial statements and footnotes thereto included in Consulier's annual report on Form 10-KSB for the year ended December 31, 2005.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Estimates are used when accounting for allowances for doubtful accounts, software and service revenue, revenue reserves, inventory reserves, depreciation and amortization, taxes, contingencies and impairment allowances. Such estimates are reviewed on an on-going basis, actual results could differ from these estimates and those differences may be material.

Concentrations

Financial instruments, which potentially expose the Company to concentrations of credit risk, as defined by Statement of Financial Accounting Standards No. 105, Disclosure of Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk, consist primarily of accounts receivable. ST, LLC's accounts receivable are concentrated in the healthcare industry. ST, LLC's customers typically have been well-established hospitals or medical facilities. However, some hospitals and medical facilities have experienced significant operating losses as a result of limits on third-party reimbursements from insurance companies and governmental entities and extended payment of receivables from these entities is not uncommon.

Table of Contents

**CONSULIER ENGINEERING, INC. AND SUBSIDIARIES
NOTES TO THE UNAUDITED CONDENSED INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**

**NOTE 1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

To date, ST, LLC has relied on a limited number of customers for a substantial portion of its total revenues. The Company expects that a significant portion of its future revenues will continue to be generated by a limited number of customers. The failure to obtain new customers or expand sales through remarketing partners, the loss of existing customers or reduction in revenues from existing customers could materially and adversely affect the Company's operating results.

ST, LLC currently buys all of its hardware and some major software components for its emergency room information systems from third-party vendors. Although there are a limited number of vendors capable of supplying these components, management believes that other suppliers could provide similar components on comparable terms. A change in suppliers, however, could cause a delay in system implementations and a possible loss of revenues, which could adversely affect operating results.

Capitalized Software Development Costs

Software development costs are accounted for in accordance with Statement of Financial Accounting Standards (SFAS) No. 86, Accounting for the Costs of Software to be Sold, Leased or Otherwise Marketed. Costs associated with the planning and designing phase of software development, including coding and testing activities necessary to establish technological feasibility are classified as product research and development and are expensed as incurred. Once technological feasibility has been determined, a portion of the costs incurred in development, including coding, testing, and product quality assurance, are capitalized and subsequently reported at the lower of unamortized cost or net realizable value.

Amortization is provided on a product-by-product basis over the estimated economic life of the software, not to exceed three years, using the straight-line method. Amortization commences when a product is available for general release to customers. Unamortized capitalized costs determined to be in excess of the net realizable value of a product are expensed at the date of such determination. Amortization expense on capitalized software development costs totaled \$154,988 for the six months ended June 30, 2006. Accumulated amortization totaled \$774,908 at June 30, 2006.

Intangible Assets

Intangible assets consist of customer lists acquired in connection with the acquisition of certain assets from HIT in 2004 and nuMedica in 2005, which are being amortized, over three to five years, using the straight-line method, and non-compete agreements, which are being amortized over one year, using the straight-line method. The Company periodically reviews its intangible assets for impairment and assesses whether significant events or changes in business circumstances indicate that the carrying value of the assets may not be recoverable.

FINANCIAL STATEMENTS**

**NOTE 1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Partnership and Limited Liability Companies Investments

The Company's investments in AVM and Biosafe are less than 50% ownership and are accounted for using the equity method. ST, LLC was consolidated under the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 46(R) Consolidation of Variable Interest Entities (FIN 46R) from December 31, 2004 through March 31, 2005. Effective April 1, 2005, the Company owned in excess of 50% of ST, LLC (Note 2), thereby requiring consolidation. The Company owns less than 20% in AVM; however, the Company has the ability to significantly influence this investee under the terms of the partnership agreement. Income or loss is allocated to Consulier based on the partnership and LLC agreements. The Company reviews its partnership and limited liability companies investments for other than temporary declines in value on a monthly basis by analyzing the underlying investee's actual revenue, earnings capacity and estimated future undiscounted cash flows.

Due to the Company's partnership agreement with ST, LLC and ST, LLC's operating agreement with PCTS, LLC; the Company was exposed to the majority of risk related to the activities of ST, LLC and PCTS, LLC. Therefore, in accordance with FIN 46(R), the Company considered ST, LLC as a variable interest entity that required consolidation into the Company's financial statements as of December 31, 2004. However, effective April 1, 2005, the operating agreement was amended to reallocate membership interests in this partnership based upon historical contributions. The Company receives allocated losses to the extent of its contributions from inception. Consequently, the losses allocated to Consulier can be greater than or less than the Company's ownership percentage.

As a result of consolidating ST, LLC, a minority interest was created representing the other members. As of June 30, 2006, there were no amounts related to the minority interest available to offset future losses.

Effective April 1, 2006, ST, LLC's partnership operating agreement was amended to create a Class A membership interest. The Class A members are entitled to a cumulative annual prior return of 10% on their investment and cash available for distribution after payment of that return is distributable to all of the members in accordance with their percentage membership interests. In accordance with this amendment to the operating agreement, allocations of losses are based upon historical annual contributions. As of June 30, 2006, the Class A member had invested \$2,025,000 in 2006. Unpaid cumulative priority returns on the Class A membership interest totaled approximately \$50,000 at June 30, 2006.

Stock-Based Compensation

On January 1, 2006, the Company adopted the fair value recognition provisions of Financial Accounting Standards Board (FASB) Statement No. 123(R), Share-Based Payment, (SFAS 123(R)). Prior to January 1, 2006, the Company accounted for share-based payments under the recognition and measurement provisions of APB Opinion No. 25, Accounting for Stock Issued to Employees (APB25), and related Interpretations, as permitted by FASB Statement No. 123, Accounting for Stock-Based Compensation (SFAS 123). In accordance with APB 25, no compensation cost was required to be recognized for options granted that had an exercise price equal to the market value of the underlying common stock on the date of grant.

The Company adopted SFAS 123(R) using the modified-prospective-transition method. Under this method, compensation cost recognized for the six months ended June 30, 2006 includes: a) compensation cost for all share-based payments granted prior to, but not yet vested as of December 31, 2005, based on the grant-date fair value estimated in accordance with the original provisions of SFAS 123, and b) compensation cost for all share-based payments granted subsequent to December 31, 2005, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). In addition, deferred stock compensation related to non-vested options is required to be eliminated against additional paid-in capital upon adoption of SFAS 123(R). The results for the prior periods have not been restated.

All previously granted stock options had fully vested at December 31, 2005 and during the six months ended June 30, 2006, the Company did not grant any new stock options, however, the Company modified the previously existing stock options outstanding at December 31, 2005. Accordingly, the Company's results of operations for the six months ended June 30, 2006 include compensation expense related to the modification of previously existing stock options under the provisions of SFAS 123R (Note 11).

During the three and six months ended June 30, 2006 and 2005, there were no stock options granted. Accordingly, no proforma effect on net income (loss) and earning (loss) per share is necessary.

Revenue Recognition

The Company derives revenue from the following sources: (1) licensing and sale of data based integrated emergency room information systems and passive tracking technologies, which include new software licenses, software license updates and product support revenues and (2) services, which include consulting, advance product services and education revenues.

New software license revenues represent all fees earned from granting customers licenses to use the Company's database and tracking technology as well as applications software, and exclude revenue derived from software license updates, which are included in software license updates and product support. While the basis for software license revenue recognition is substantially governed by the provisions of Statement of Position (SOP) No. 97-2, Software Revenue Recognition (SOP No. 97-2), issued by the American Institute of Certified Public Accountants, the Company exercises judgment and uses estimates in connection with the determination of the amount of software and services revenues to be recognized in each accounting period.

For software license arrangements that do not require significant modification or customization of the underlying software, the Company recognizes new software license revenue when: (1) the Company enters into a legally binding arrangement with a customer for the license of software; (2) the Company delivers the products; (3) customer payment is deemed fixed or determinable and free of contingencies or significant uncertainties; and (4) collection is probable. Substantially all new software license revenue is recognized in this manner. The vast majority of software license arrangements include software license updates and product support, which are recognized ratably over the term of the arrangement, typically one year. Software license updates provide customers with rights to unspecified software product upgrades, maintenance releases and patches released during the term of the support period. Product support includes internet access to technical content, as well as internet and telephone access to technical support personnel. Software license updates and product support are generally priced as a percentage of the new software license fees. Many of the Company's software arrangements include consulting implementation services sold separately under consulting engagement contracts. Consulting revenue from these arrangements are generally accounted for separately from new software license revenue because the arrangements qualify as service transactions as defined in SOP No. 97-2. The more significant factors considered in determining whether the revenue should be accounted for separately include the nature of services (i.e. consideration of whether the services are essential to the functionality of the licensed product), degree of risk, availability of services from other vendors, timing of payments and impact of milestones or acceptance criteria on the realizability of the software license fee.

Table of Contents

**CONSULIER ENGINEERING, INC. AND SUBSIDIARIES
NOTES TO THE UNAUDITED CONDENSED INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**

**NOTE 1. DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Revenue for consulting services are generally recognizes as the services are performed. If there is a significant uncertainty about the project completion or receipt of payment for the consulting services, revenue is deferred until the uncertainty is sufficiently resolved. Contracts with fixed or not to exceed fees are recognized on a proportional performance basis.

If an arrangement does not qualify for separate accounting of the software license and consulting transactions, then new software license revenue is generally recognized together with the consulting services based on contract accounting using either the percentage-of-completion or completed-contract method. Contract accounting is applied to any arrangements: (1) that include milestones or customer specific acceptance criteria that may affect collection of the software license fees; (2) where services include significant modification or customization of the software; (3) where significant consulting services are provided for in the software license contract without additional charge or are substantially discounted; or (4) where the software license payment is tied to the performance of consulting services.

Advanced product services revenue is recognized over the term of the service contract, which is generally one year. Education revenue is recognized as the classes or other education offerings are delivered.

For arrangements with multiple elements, the Company allocates revenue to each element of a transaction based upon its fair value as determined by vendor specific objective evidence. Vendor specific objective evidence of fair value for all elements of an arrangement is based upon normal pricing and discounting practices for those products and services when sold separately and for software license updates and product support services, and is additionally measured by the renewal rate offered to the customer.

The Company defers revenue for any undelivered elements, and recognizes revenue when the product is delivered or over the period in which the service is performed, in accordance with the revenue recognition policy for such element. If the Company cannot objectively determine the fair value of any undelivered element included in bundled software and service arrangements, the Company defers revenue until all elements are delivered and services have been performed, or until fair value can objectively be determined for any remaining undelivered elements. When the fair value of a delivered element has not been established, the residual method is used to record revenue if the fair value of all undelivered elements is determinable. Under the residual method, the fair value of the undelivered elements is deferred and the remaining portion of the arrangement fee is allocated to the delivered elements and is recognized as revenue.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

Newly Issued Accounting Pronouncements

In November 2005, the FASB issued Staff Position NO. FAS 123(R)-3, Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards (FSP 123R-3). The Company has elected to adopt the alternative transition method provided in FSP 123R-3 for calculating the tax effects of stock-based compensation under SFAS 123R. The alternative transition method includes simplified methods to establish the beginning balance of the additional paid-in-capital pool (APIC pool) related to the tax effects of stock-based compensation, and for determining the impact on the APIC pool and consolidated statements of cash flows of the tax effects of stock-based compensation awards that are outstanding upon adoption of SFAS 123R.

NOTE 2. ACCOUNTING FOR VARIABLE INTEREST ENTITY (VIE)

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities (VIE), an Interpretation of Accounting Research Bulletin No. 51 (FIN 46R). In December 2003, the FASB modified FIN 46R to make certain technical corrections and address certain implementation issues that had arisen. FIN 46R provides a new framework for identifying VIEs and determining when a company should include the assets, liabilities, noncontrolling interests and results of activities of a VIE in its financial statements and deferred the effective date for us until December 31, 2004.

In general, a VIE is an entity used to conduct activities or hold assets that either (1) has an insufficient amount of equity to carry out its principal activities without additional subordinated financial support, (2) has a group of equity owners that are unable to make significant decisions about its activities, or (3) has a group of equity owners that do not have the obligation to absorb losses or the right to receive returns generated by its operations.

FIN 46R requires a VIE to be consolidated if a party with an ownership, contractual or other financial interest in the VIE is obligated to absorb a majority of the risk of loss from the VIEs activities, is entitled to receive a majority of the VIEs residual returns (if no party absorbs a majority of the VIEs losses), or both. A variable interest holder that consolidates the VIE is called the primary beneficiary. Upon consolidation, the primary beneficiary generally must initially record all of the VIEs assets, liabilities and noncontrolling interests at fair value and subsequently account for the VIE as if it were consolidated based on majority voting interest.

FINANCIAL STATEMENTS**

NOTE 2. ACCOUNTING FOR VARIABLE INTEREST ENTITY (VIE) (CONTINUED)

The Company began consolidating the balance sheet and operations of ST, LLC in accordance with FIN 46R as of December 31, 2004. This entity qualified as a VIE under FIN 46R during that period, and we were the primary beneficiary. Previously the Company carried the investment under the equity method.

On April 1, 2005 (the date of the amendment to the operating agreement), the Company's ownership in ST, LLC increased to 54%, thereby requiring consolidation.

Consulier can require Consulier's principal stockholder to purchase its interest in ST, LLC for cash equal to Consulier's capital account as of the closing date. Consulier has contributed to ST, LLC approximately \$14.5 million since inception and has no remaining net investment at June 30, 2006.

NOTE 3. DEFERRED IMPLEMENTATION COSTS

Deferred implementation costs as of June 30, 2006 totaled \$1,428,812 and represented equipment purchased for customers, payroll and payroll related expenses for customer contracts which have not met certain milestones, customer acceptance or "go-live" dates. Implementation costs are deferred and recognized ratably over the initial licensing term or upon reaching certain milestones, acceptance criteria or "go-live" dates depending on the applicable revenue stream. Deferred implementation costs are stated at the lower of cost or market.

NOTE 4. CONCENTRATION OF CREDIT RISK

The Company maintains its cash in bank deposit accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents. The company places its cash with high credit quality financial institutions. Cash held by these financial institutions did not exceed FDIC limits at June 30, 2006.

The Company grants credit to customers, substantially all of whom are businesses located in the United States and Canada. The Company typically does not require collateral from customers. The Company monitors exposure to credit losses and maintains allowances for anticipated losses considered necessary in the circumstances.

Approximately 36% of the Company's software licensing fees are derived from two customers. Customer A and B represented approximately 19% and 17%, respectively, of total software licensing fees.

NOTE 5. INVESTMENTS PARTNERSHIP AND LIMITED LIABILITY COMPANY

The Company's limited partnership and limited company interests consist of Consulier's investments in AVM, L.P. and BioSafe Systems, LLC, respectively.

AVM, L.P.

Consulier owned approximately 7.5% of AVM L.P.'s (AVM) capital as of June 30, 2006 and 2005. Based on capital and earnings distributions provided in the partnership agreement, Consulier was allocated approximately 5.4% and 5.6% of AVM's earnings during the six months ended June 30, 2006 and 2005, respectively. Under the partnership agreement, Consulier may withdraw all or any portion of its capital account upon 30 days written notice. AVM's general partner may also expel Consulier from the partnership through payment of the balance of Consulier's capital account.

The Company's income from its interest in AVM was \$538,000 in the second quarter of 2006, compared to income of approximately \$652,000 for the quarter ended June 30, 2005. This represents the Company's 5.4% interest in AVM's net income of approximately \$10,000,000 in the second quarter of 2006, compared to income of approximately \$11,500,000 in the second quarter of 2005.

The following is a summary of the results of operations (unaudited) of AVM and the income allocated to the Company:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	(In Thousands)		(In Thousands)	
	(Unaudited)		(Unaudited)	
	2006	2005	2006	2005
Revenues	\$ 19,820	\$ 18,528	\$ 36,842	\$ 39,732
Cost and Expenses	9,818	6,974	19,116	15,950
Net Income	\$ 10,002	\$ 11,554	\$ 17,726	\$ 23,782
Consulier's Share of Earnings	\$ 538	\$ 652	\$ 951	\$ 1,356

Cost of the Company's interest in AVM, L.P. at June 30, 2006 was \$1,852,133.

NOTE 7. SEGMENT INFORMATION

Operating segments are components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company has four reportable segments: distribution of household and tool products, ownership of limited liability entities, medical software activities, and corporate. The household and tool products manufacturing segment is engaged in sales of the Captain Cra-Z soap product line and tool and ladder related products. The investments segment maintains investment interest in an investment limited partnership and a limited liability company. The corporate segment is engaged in management of the business and finance activities. Segment information as of and for the six and three months ended June 30, 2006 and 2005 are as follows:

	Three Months Ended June 30, 2006				
	Income (Loss) Derived From Ownership of				
	Distribution	Limited	Corporate	Medical	
	Activities	Liability	Activities	Software	Total
		Companies		Activities	
Revenue (b)	\$ 5,937	\$	\$	\$ 391,606	\$ 397,543

NOTE 8. INCOME TAXES

Provisions (benefit) for federal and state income tax in the interim condensed consolidated statements of operations consist of the following:

	For the Three Months		For the Six Months	
	Ended June 30,		Ended June 30,	
	2006	2005	2006	2005
Current:				
Federal	\$	\$	\$	\$
State	10,844		10,844	
	10,844		10,844	
Deferred:				
Federal		(187,109)		(130,757)
State		(30,815)		(20,883)
		(217,924)		(151,640)
Total income tax (benefit) provision	\$ 10,844	\$ (217,924)	\$ 10,844	\$ (151,640)

Applicable income taxes (benefit) for financial reporting purposes differ from the amount computed by applying the statutory federal income tax rate as follows:

	For the Three Months		For the Six Months	
	Ended June 30,		Ended June 30,	
	2006	2005	2006	2005
Tax provision (benefit) at statutory rate	\$	\$ (182,905)	\$	\$ (124,957)
State income tax expense (benefit) net of federal tax effect	10,844	(19,528)	10,844	(13,341)
Other		(15,491)		(13,342)
Income tax (benefit)	\$ 10,844	\$ (217,924)	\$ 10,844	\$ (151,640)

During the quarter ended June 30, 2005, the Company generated a Federal tax net operating loss that is to be carried-back to prior year operating income, giving rise to an income tax refund. As of June 30, 2006, the Company had a Federal and state tax loss carry-forwards totaling approximately \$1,497,000 and \$4,572,000, respectively, available to reduce future years' income through 2023.

FINANCIAL STATEMENTS**

NOTE 9. COMMITMENTS AND CONTINGENCIES

As of June 30, 2006, there were no legal proceedings pending against the Company or its subsidiaries nor did the Company have any knowledge of any proceedings which were being contemplated, except a personal injury claim concerning a fall from a lifeguard stand manufactured by the Company (prior to 2000 in a previous line of business). Although the outcome of any litigation cannot be guaranteed with certainty and the Company maintains insurance coverage for this type of claim, there is a good likelihood that the Company will succeed in its defense of this claim.

On August 1, 2006, a shareholder derivative lawsuit was filed by a number of shareholders of Patient Care Technology Systems, Inc., formerly ER Quick, Inc., which owns a 25% interest in the Company's subsidiary, Patient Care Technology Systems, LLC (PCTS) in the Superior Court of the State of California, County of San Diego against PCTS and other defendants alleging that PCTS misappropriated unspecified assets from Patient Care Technology Systems, Inc.

On or about August 2, 2006 PCTS was made a defendant to a lawsuit filed Hill-Rom Services, Inc. et al in the United States District Court, Middle District of North Carolina, as a successor in interest to Healthcare Information Technology, Inc. and as a customer of a vendor concerning their vendors' disputed patent ownership and unauthorized use of such patents. Hill-Rom, et al also requested a determination that Hill-Rom, et al did not violate its license agreement with PCTS's vendor.

PCTS has advised the Company that it believes both suits are without merit and that it will defend them vigorously.

NOTE 10. RELATED PARTY TRANSACTIONS

DUE FROM RELATED PARTIES

Amounts due from related parties totaled \$226,160 and represent advances to certain members of management. These amounts are unsecured, non-interest bearing and due on demand. The Company has no intention of demanding \$200,000 due from two employees within one year from June 30, 2006. Accordingly, the Company has classified \$200,000 as a non-current asset on the condensed interim consolidated balance sheet as of June 30, 2006.

Table of Contents

**CONSULIER ENGINEERING, INC. AND SUBSIDIARIES
NOTES TO THE UNAUDITED CONDENSED INTERIM CONSOLIDATED
FINANCIAL STATEMENTS**

NOTE 10. RELATED PARTY TRANSACTIONS (CONTINUED)

NOTE PAYABLE RELATED PARTY

ST, LLC has unsecured promissory notes to the majority stockholder for a total of \$5,356,705, the proceeds of which have been used to meet operating funding requirements. These promissory notes accrue interest at 10% per annum, compounding monthly. Interest only is payable annually on the anniversary date of each of the promissory notes. The promissory notes and any accrued interest are due on demand anytime after 10 years from the applicable date of the note. The Company may not prepay the principal balance without prior consent of the majority stockholder.

On January 5, 2006, the Company issued an unsecured promissory note to Consulier's majority stockholder for \$2,001,441 to repay the line of credit. The promissory note accrues interest at 6.5% per annum and is due upon demand.

NOTE 11. STOCK-BASED EMPLOYEE COMPENSATION

SFAS No. 123(R) established standard for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addressed transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. Previously, the Company accounted for its stock-based employee compensation plan under the intrinsic value method in accordance with APB 25 and related Interpretations. The Company has adopted the provisions of SFAS No. 123(R) as amended by FASB Statement No. 148, Accounting for Stock-Based Compensation Transition and Disclosure (FAS 148). The Company calculated its SFAS 123(R) compensation expense using the Black-Scholes model with the following assumptions for the modifications of previously issued options; risk free rate of 4.77%, per share strike price of \$4.65, dividend yield of 0%, average per share values of \$3.50, historical volatility of 128%, and an expected life of one year.

Options outstanding as of December 31, 2005 were to expire on February 28, 2006; however, on February 27, 2006 the Company extended the expiration date through February 28, 2007. Accordingly, the Company recorded additional compensation of \$580,099 for the six months ended June 30, 2006. The additional compensation represented the difference between the fair value of the modified award and the fair value of the original vested share option assumed to be repurchased prior to the modification. As of June 30, 2006, the holders of these options were fully vested. Accordingly, the Company recorded the total compensation cost to payroll and related expenses in the accompanying condensed interim consolidated statement of operations.

NOTE 12. SUBSEQUENT EVENT

On July 17, 2006, the Company's majority shareholder purchased 166,204 shares of the Company's common stock held in treasury stock by exchanging \$600,000 of the Company's indebtedness to the shareholder as part of the Company's plan to comply with NASDAQ Marketplace Rule 4310(c)(z)(b)(i) by increasing the Company's shareholders' equity to more than \$2,500,000.

Table of Contents

CONSULIER ENGINEERING, INC. AND SUBSIDIARIES

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

RESULTS OF OPERATIONS

The following compares the results of operations for the three and six months ended June 30, 2006, with comparable periods in the prior year.

During the quarter ended June 30, 2006, sales increased approximately \$230,000 from sales for the quarter ended June 30, 2005, due to the successful completion of installation of Amelior ED Products by PCTS, LLC (majority owned by ST, LLC). During the six months ended June 30, 2006, sales increased approximately \$506,000 from the comparable 2006 period.

Loss from operations for the six months ended June 30, 2006 was approximately \$5,460,000, or \$1.04 per share, compared to a loss of approximately \$3,929,000, or \$.75 per share, for the six months ended June 30, 2005, primarily due to losses from PCTS, LLC (majority owned by ST, LLC).

During the quarter ended June 30, 2006, other income (loss)/(expense) decreased approximately \$268,000 from the quarter ended June 30, 2005, primarily a result of additional interest expense and reduced income from AVM, LTD.

During the six months ended June 30, 2006, other income (loss)/(expense) decreased approximately \$806,000 from the six months ended June 30, 2005, primarily a result of additional interest expense and reduced income from AVM, LTD.

The Company's income from its interest in BioSafe Systems, LLC (BioSafe) Equity in the income of BioSafe was approximately \$75,000 in the second quarter of 2006, compared to income of approximately \$71,000 for the quarter ended June 30, 2005. This represents the Company's 40% interest in BioSafe's net income of approximately \$188,000 in the second quarter of 2006, compared to income of approximately \$178,000 in the second quarter of 2005.

The Company's income from its interest in Investment in AVM was \$538,000 in the second quarter of 2006, compared to income of approximately \$652,000 for the quarter ended June 30, 2005. This represents the Company's 5.4% interest in AVM's net income of approximately \$10,000,000 in the second quarter of 2006, compared to income of approximately \$11,500,000 in the second quarter of 2005.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION (CONTINUED)

Management continues to monitor these activities as they relate to budget amounts. See Liquidity and Capital Resources and Outlook sections below. The Company maintains an open option to sell its interest in ST, LLC to the primary stockholder of the Company for its total investment as noted in the accompanying financial statements.

LIQUIDITY AND CAPITAL RESOURCES

At June 30, 2006, Consulier's cash totaled approximately \$56,000 compared to approximately \$286,000 at December 31, 2005. Net cash used in operations was approximately \$2,404,000 for the six months ended June 30, 2006, compared to approximately \$3,337,000 of net cash used in the six months ended June 30, 2005. Net cash provided by investing activities was primarily due to the distribution of approximately \$951,000 from AVM during the six months ended June 30, 2006, offset by the acquisition of property and equipment totaling approximately \$152,000.

Consulier can require Consulier's principal stockholder to purchase its interest in ST, LLC for cash equal to Consulier's capital account as of the closing date. Consulier has contributed to ST, LLC approximately \$14,500,000 since inception and has no remaining net investment at June 30, 2006.

The ability of Consulier to continue to generate cash flow in excess of its normal operating requirements depends almost entirely on the performance of its limited partnership interest in AVM as well as obtaining additional financing proceeds. Consulier cannot, with any degree of assurance, predict whether there will be a continuation of the net return experienced in the period from AVM limited partnership, nor the continued ability to obtain additional funding. However, Consulier does not expect that the rate of return will decline to the point where Consulier has negative cash flow. Furthermore, although AVM has given Consulier no indication of any intention on its part to redeem the partnership interest, there can be no assurance that AVM will not do so in the future.

The Company has a \$2,000,000 line of credit available from a bank, of which nothing has been used. It is anticipated that the cash requirements for ST, LLC will reduce in the future as ST, LLC's sales increase.

Table of Contents

OUTLOOK

Based on AVM's operations over the past five years, management expects continued annualized returns in 2006 on its interest in AVM; however, there is no guarantee that the annualized return in the second quarter of 2006 will be maintained throughout fiscal 2006.

Consulier International, Inc. has been developing new retail and distribution outlets locally, nationally and internationally. There are several trade shows scheduled for marketing the Captain Cra-Z Hand and All Purpose Cleaner throughout 2006 and the internet web site continues to be a good lead generator with applications for distribution being received through the site from countries all over the world and new marketing materials are being developed.

Strong performances in most of BioSafe's market segments combined to account for the sales growth experienced in the 2nd quarter of 2006. Agriculture segments had an increase in sales of 250% over the first half of 2006, while our achievement of the projected growth in Aquatics' product sales produced 125% sales increase. BioSafe has increased inventory levels to respond to the customer demand.

In the second quarter, PCTS successfully demonstrated the Company's automatic tracking software to an international audience at a major electronic medical records conference. PCTS

distributed locating tags to conference attendees and integrated the tags with PCTS's software to demonstrate its tracking, communication and management capabilities. PCTS received national recognition for this first-of-its kind technology demonstration which also involved lectures from key customers. PCTS successfully implemented its emergency department tracking software at a second facility of Christiana Care Health System in Delaware and signed a multi-year contract with Carondelet Health Network (Tucson, Arizona) to implement its automatic tracking software in the emergency and perioperative departments of selected facilities. In addition, the company announced co-marketing agreements with providers of complementary bed management and locating hardware systems to further broaden its market reach. The PCTS remains focused on active implementation projects across its solution portfolio through the remainder of 2006.

ITEM 3. CONTROLS AND PROCEDURES

Our management has conducted an evaluation of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) and 15d-15(e) promulgated under the Securities and Exchange Act of 1934, as amended, as of the end of the fiscal quarter covered by this report. Based upon that evaluation, our management has concluded that our disclosure controls and procedures are effective for timely gathering, analyzing and disclosing the information we are required to disclose in the reports filed in the Securities Exchange Act of 1934, as amended. There have been no significant changes made in our internal controls or in other factors that could significantly affect our internal controls during the periods covered by this Report.

PART II. OTHER INFORMATION**

ITEM 1. LEGAL PROCEEDINGS

As of June 30, 2006, there were no legal proceedings pending against the Company or its subsidiaries nor did the Company have any knowledge of any proceedings which were being contemplated, except a personal injury claim concerning a fall from a lifeguard stand manufactured by the Company (prior to 2000 in a previous line of business). Although the outcome of any litigation cannot be guaranteed with certainty and the Company maintains insurance coverage for this type of claim, there is a good likelihood that the Company will succeed in its defense of this claim.

On August 1, 2006, a shareholder derivative lawsuit was filed by a number of shareholders of Patient Care Technology Systems, Inc., formerly ER Quick, Inc., which owns a 25% interest in the Company's subsidiary, Patient Care Technology Systems, LLC (PCTS) in the Superior court of the State of California, County of San Diego against PCTS and other defendants alleging that PCTS misappropriated unspecified assets from Patient Care Technology Systems, Inc.

On or about August 2, 2006 PCTS was made a defendant to a lawsuit filed Hill-Rom Services, Inc. et al in the United States District Court, Middle District of North Carolina, as a successor in interest to Healthcare Information Technology, Inc. and as a customer of a vendor concerning their vendors' disputed patent ownership and unauthorized use of such patents. Hill-Rom, et al also requested a determination that Hill-Rom, et al did not violate its license agreement with PCTS's vendor.

PCTS has advised the Company that it believes both suits are without merit and that it will defend them vigorously.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.
