INTERACTIVE BROKERS GROUP ANNOUNCES 3Q09 RESULTS

**REPORTS INCOME BEFORE TAXES OF \$133 MILLION ON \$272 MILLION IN NET REVENUES,
EARNINGS PER SHARE OF \$0.20**

GREENWICH, CONN, October 22, 2009 — Interactive Brokers Group, Inc. (NASDAQ GS: IBKR) an automated global electronic market maker and broker, today reported diluted earnings per share of \$0.20 for the quarter ended September 30, 2009, compared to diluted earnings per share of \$0.65 for the same period in 2008.

Net revenues were \$272 million and income before income taxes was \$133 million for this quarter, compared to net revenues of \$497 million and income before income taxes of \$348 million for the same period in 2008.

Business Highlights

- 49% pre-tax profit margin for this quarter.
- \$4.8 billion in equity.
- 20% increase in customer accounts and 43% increase in customer equity from the year ago quarter.
- YTD cleared DARTs grew to 318,000.
- 51% Electronic Brokerage pre-tax margin for this quarter.
- 49% Market Making pre-tax margin for this quarter.

“Ever increasing competition in the transparent, exchange listed derivatives markets continued to pressure spreads to never before seen levels in the third quarter,” said Thomas Peterffy, our CEO.

“These ultra low transaction costs in exchange listed products will inevitably be followed by higher trading volumes and better customer performance.”

Segment Overview

Market Making

Market Making segment income before income taxes decreased 47% in the quarter ended September 30, 2009 compared to the prior quarter and decreased 74% from the same period last year. Pre-tax margin was 49% in this quarter, down from 79% in the same period last year. Compared to last year, 2009 presented a less favorable environment for market makers due to tighter bid/offer spreads on option exchanges. We managed our risk by continuing to avoid counterparty risks and balance sheet exposure from illiquid positions by making markets primarily in exchange traded products that are cleared through central clearing houses. Market Making options contract volume remained flat during this quarter compared to the same period last year.

Electronic Brokerage

Electronic Brokerage segment income before income taxes decreased 3% in the quarter ended September 30, 2009 compared to the same period in 2008 and was roughly flat to the prior quarter. This decrease is attributable to lower commissions from futures and lower net interest income which was affected by historically low Fed Funds rates. Customer accounts grew 20% to 128,000 and customer equity grew 43% to \$13.4 billion, while YTD cleared DARTs* modestly increased by 3% to 318,000 as of September 30, 2009 compared to the same period in 2008. Pre-tax margin increased from 47% to 51% for the quarter ended September 30, 2009 from the same period in 2008.

* Daily average revenue trades (DARTs) are based on executed customer orders.
