CORNERSTONE PROGRESSIVE RETURN FUND
 NOTES TO SCHEDULE OF INVESTMENTS
 MARCH 31, 2014 (UNAUDITED)

Federal Income Tax Cost: The following information is computed on a tax basis for each item as of March 31, 2014:

Cost of portfolio investments	\$ 159,590,893
Gross unrealized appreciation	\$ 10,145,032
Gross unrealized depreciation	(1,667,574)
Net unrealized appreciation	\$ 8,477,458

The difference between the federal income tax cost of portfolio investments and the Schedule of Investments cost for the Fund is due to certain timing differences in the recognition of capital gains or losses under income tax regulations and generally accepted accounting principles. These "book/tax" differences are temporary in nature and are due to the tax deferral of losses on wash sales.

As required by the Fair Value Measurement and Disclosures Topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification, the Fund has performed an analysis of all assets and liabilities measured at fair value to determine the significance and character of all inputs to their fair value determination.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into the following three broad categories.

- Level 1 - quoted unadjusted prices for identical instruments in active markets to which the Fund has access at the date of measurement.
 - Level 2 - quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers.
 - Level 3 - model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price the asset or liability based on the best available information.
-

The following is a summary of the inputs used as of March 31, 2014 in valuing the Fund's investments carried at value:

VALUATION INPUTS	INVESTMENTS IN SECURITIES	OTHER FINANCIAL INSTRUMENTS*
Level 1 – Quoted Prices		
Equity Investments	\$ 165,305,011	\$ -
Short-Term Investments	2,763,340	-
Level 2 – Other Significant Observable Inputs	-	-
Level 3 – Significant Unobservable Inputs	-	-
Total	\$ 168,068,351	\$ -

*Other financial instruments include futures, forwards and swap contracts, if any.

The breakdown of the Fund's investments into major categories is disclosed in its Schedule of Investments.

As of March 31, 2014, the Fund did not have any transfers in and out of any Level.

The Fund did not have any assets or liabilities that were measured at fair value on a recurring basis using significant unobservable inputs (Level 3) at March 31, 2014.

The disclosures for the Fund's fiscal year beginning January 1, 2014 relate to presenting separately any Level 3 purchases, sales, issuances and settlements on a gross basis instead of one net amount. Management has evaluated the impact of ASU No. 2010-6 for the required disclosures.

In June 2013, FASB issued Accounting Standards Update 2013-08 Financial Services – Investment Companies (Topic 946) – Amendments to the Scope, Measurement and Disclosure Requirements (“ASU 2013-08”) which is effective for interim and annual reporting periods in fiscal years that begin after December 15, 2013. ASU 2013-08 sets forth a methodology for determining whether an entity should be characterized as an investment company and prescribes fair value accounting for an investment company’s non-controlling ownership interest in another investment company. FASB has determined that a fund registered under the Investment Company Act of 1940 automatically meets ASU 2013-08’s criteria for an investment company. Although still evaluating the potential impacts of ASU 2013-08 to the Fund, the Investment Manager does not expect the adoption of the ASU to have an effect on the Fund.

The Fund is exposed to financial market risks, including the valuations of its investment portfolio. During the three months ended March 31, 2014, the Fund did not engage in derivative instruments and other hedging activities.

The Fund has evaluated the need for additional disclosures and/or adjustments resulting through the date its financial statements were issued. Based on this evaluation, no additional disclosures or adjustments were required to such Schedule of Investments.

Securities valuation policies and other investment related disclosures are hereby incorporated by reference to the Fund's annual report previously filed with the Securities and Exchange Commission on the Form N-CSR on March 4, 2014 with a file number 811-22066.
