PROSPECTUS SUPPLEMENT
(To the Prospectus Dated March 10, 2011)

Up to 3,000,000 Shares
Common Stock

On May 10, 2011, we entered into an At-The-Market Equity Offering Sales Agreement with Stifel, Nicolaus & Company, Incorporated, or Stifel Nicolaus Weisel, relating to the shares of our common stock, par value \$0.0001 per share, being offered by this prospectus supplement and the accompanying prospectus. In accordance with the terms of the sales agreement, we may offer and sell up to 3,000,000 shares of our common stock from time to time through Stifel Nicolaus Weisel as our sales agent.

Sales of shares of our common stock, if any, will be made at market prices prevailing at the time of sale by any method that is deemed to be an “at the market” offering as defined in Rule 415 under the Securities Act of 1933, including sales made directly on the New York Stock Exchange and any other trading market for the common stock, and sales to or through a market maker other than on an exchange. See “Plan of Distribution” in this prospectus supplement for further information.

Our common stock is listed on the New York Stock Exchange, or NYSE, under the symbol “FF”. On May 9, 2011, the last reported sale price of our common stock on the NYSE was \$12.58 per share.

We will pay Stifel Nicolaus Weisel a commission of 3% of the sales price of all shares sold through it as agent under the sales agreement. Subject to the terms and conditions of the sales agreement, Stifel Nicolaus Weisel will use its commercially reasonable efforts to sell on our behalf any shares to be offered by us under the sales agreement. The offering of our common stock pursuant to the sales agreement will terminate upon the earlier of: (i) the sale of all the shares of our common stock offered by this prospectus supplement and the accompanying prospectus; or (ii) the termination of the sales agreement by us or by Stifel Nicolaus Weisel.

Investing in our common stock involves a high degree of risk. See “Risk Factors” beginning on page S-5 of this prospectus supplement and the documents we incorporate by reference into this prospectus supplement, including our most recent Annual Report on Form 10-K and our quarterly reports on Form 10-Q.

SPECIAL NOTE REGARDING FORWARD LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus, any related free writing prospectus that we may authorize, and the documents incorporated by reference into these documents, including our Annual Report on Form 10-K for the year ended December 31, 2010 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2011, contain forward-looking statements. Forward-looking statements deal with our current plans, intentions, beliefs, and expectations, and statements of future economic performance. Statements containing such terms as “believe,” “do not believe,” “plan,” “expect,” “intend,” “estimate,” “anticipate,” and other phrases of similar meaning are considered to contain uncertainty and are forward-looking statements. In addition, from time to time we or our representatives have made or will make forward-looking statements orally or in writing. Furthermore, such forward-looking statements may be included in various filings that we make with the SEC, or in press releases, or in oral statements made by or with the approval of one of our authorized executive officers.

These forward-looking statements are subject to certain known and unknown risks and uncertainties, as well as assumptions that could cause actual results to differ materially from those reflected in these forward-looking statements. Factors that might cause actual results to differ include, but are not limited to, those set forth under the headings “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in

our most recent Annual Report on Form 10-K for the year ended December 31, 2010, in the corresponding sections in our most recent Quarterly Report on Form 10-Q, and in our future filings made with the SEC, including prospectus supplements. You should not place undue reliance on any forward-looking statements contained in this prospectus supplement, the accompanying prospectus, or any related free writing prospectus that we authorize, which reflect our management's opinions only as of their respective dates. Except as required by law, we undertake no obligation to revise or publicly release the results of any revisions to forward-looking statements. The risks and uncertainties described in this prospectus supplement, the accompanying prospectus, our annual report on Form 10-K for the year ended December 31, 2010, and in subsequent filings with the SEC are not the only ones we face. New factors emerge from time to time, and it is not possible for us to predict which will arise. There may be additional risks not presently known to us or that we currently believe are immaterial to our business. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. If any such risks occur, our business, operating results, liquidity, and financial condition could be materially affected in an adverse manner. You should consult any additional disclosures we have made or will make in our reports to the SEC on Forms 10-K, 10-Q, and 8-K, and any amendments thereto. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained in this prospectus supplement, the accompanying prospectus, or any related free writing prospectus authorized by us.

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights selected information from this prospectus supplement, the accompanying prospectus, and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus. This summary is incomplete and may not contain all of the information that is important to you. We encourage you to carefully read this entire prospectus supplement, the accompanying prospectus, and the documents that we incorporate by reference. The following summary is qualified in its entirety by reference to the detailed information appearing elsewhere in this prospectus supplement, the accompanying prospectus, and the documents that we incorporate by reference.

Our Company

We are a Delaware corporation. Our principal assets and operations in the United States and our primary business is manufacturing diversified chemical products and biobased products comprised of biofuels and biobased specialty chemical products. The mailing address and telephone number of our principal executive offices are: FutureFuel Corp., 8235 Forsyth Blvd., 4th Floor, Clayton, Missouri 63105, (805) 565-9800. Our website can be found at <http://www.futurefuelcorporation.com>. The information on our website is not part of this prospectus supplement.

We were formed to serve as a vehicle for the acquisition by way of an asset acquisition, merger, capital stock exchange, share purchase, or similar transaction of one or more operating businesses in the oil and gas industry. On July 12, 2006, we completed an offering of 22,500,000 units, each unit consisting of one share of our common stock and one warrant to acquire one share of our common stock. These units were issued at \$8.00 per unit. On July 21, 2006, we entered into an acquisition agreement with Eastman Chemical Company to acquire its wholly-owned subsidiary, Eastman SE, Inc., a chemical manufacturer which had just launched a biobased products platform. Our shareholders approved the acquisition of Eastman SE, Inc. on October 27, 2006. On October 31, 2006, the acquisition of Eastman SE, Inc. was consummated and Eastman SE, Inc. became our wholly-owned subsidiary. In connection with such closing, we changed our name to FutureFuel Corp. and Eastman SE, Inc. changed its name to FutureFuel Chemical Company.

Our Business

FutureFuel Chemical Company is a Delaware corporation incorporated on September 1, 2005 under the name Eastman SE, Inc. We are a manufacturer of diversified chemical and biobased products comprised of biofuels and biobased specialty chemical products. We own approximately 2,200 acres of land six miles southeast of Batesville in north central Arkansas fronting the White River. Approximately 500 acres of the site are occupied with batch and continuous manufacturing facilities, laboratories, and associated infrastructure, including on-site liquid waste treatment. The plant is staffed by approximately 500 non-union full-time employees. Land and support infrastructure are available to support expansion and business growth. In March 2009, we acquired a granary in Marianna, Arkansas.

For the year ended December 31, 2010, approximately 78% of site revenue was derived from manufacturing specialty chemicals for specific customers (“custom manufacturing”) with 4% of revenues being derived from multi-customer specialty chemicals (“performance chemicals”) and 18% from biofuels. Custom manufacturing involves producing unique products for individual customers, generally under long-term contracts. The plant’s custom manufacturing product portfolio includes a bleach activator for a major detergent manufacturer, a

proprietary herbicide and intermediates for a major life sciences company, and chlorinated polyolefin adhesion promoters and antioxidant precursors for a major chemical company. The performance chemicals product portfolio includes polymer (nylon) modifiers and several small-volume specialty chemicals for diverse applications.

S-2

We are committed to growing our chemical and biofuels businesses. We also intend to pursue commercialization of other products, including building block chemicals. In pursuing this strategy, we will continue to establish a name identity in the biofuels business, leverage our technical capabilities and quality certifications, secure local and regional markets, and expand marketing efforts to fleets and regional/national customers.

RISK FACTORS

An investment in our securities involves a high degree of risk and may result in the loss of all or part of your investment. Prior to making a decision about investing in our securities, you should consider carefully the specific factors discussed below and under the heading “Risk Factors” in the accompanying prospectus, together with all of the other information contained or incorporated by reference in this prospectus supplement or appearing or incorporated by reference in the accompanying prospectus. You should also consider the risks, uncertainties, and assumptions discussed under the heading “Risk Factors” in our most recent Annual Report on Form 10-K (as updated in our subsequent Quarterly Report on Form 10-Qs) which may be amended, supplemented, or superseded from time to time by other reports we file with the SEC in the future and any prospectus supplement.

The market price of our common stock is highly volatile and may increase or decrease dramatically at any time.

The market price of our common stock is highly volatile and our shares are thinly traded. Our stock price may change dramatically as the result of: (i) announcements of new products or innovations by us or our competitors; (ii) uncertainty regarding the viability of any of our product initiatives; (iii) significant customer contracts; (iv) significant litigation; or (v) other factors or events that would be expected to affect our business, financial condition, results of operations, and future prospects.

The market price for our common stock may also be affected by various factors not directly related to our business or future prospects, including the following:

- a reaction by investors to trends in our stock rather than the fundamentals of our business;
- a single acquisition or disposition, or several related acquisitions or dispositions, of a large number of our shares, including by short sellers covering their positions;
- the interest of the market in our business sector, without regard to our financial condition, results of operations, or business prospects;
 - positive or negative statements or projections about us or our industry by analysts and other persons;
 - intentional manipulation of our stock price by existing or future shareholders;
- the adoption of governmental regulations or government grant programs and similar developments in the United States or abroad that may enhance or detract from our ability to offer our products and services or affect our cost structure; and
- economic and other external market factors, such as a general decline in market price due to poor economic conditions, investor distrust, or a financial crisis.

Management will have broad discretion as to the use of the proceeds from this offering, and we may not use the proceeds effectively.

Our management will have broad discretion in the application of the net proceeds from this offering and could spend the proceeds in ways that do not improve our results of operations or enhance the value of our common stock. Our failure to apply these funds effectively could have a material adverse effect on our business and cause the price of our common stock to decline.

Future sales or the potential for future sales of our securities may cause the trading price of our common stock to decline and could impair our ability to raise capital through subsequent equity offerings.

Sales of a substantial number of shares of our common stock or other securities in the public markets, or the perception that these sales may occur, could cause the market price of our common stock or other securities to decline and could materially impair our ability to raise capital through the sale of additional securities. A large number of our outstanding shares are not registered under the Securities Act of 1933, as amended. Those of our shareholders who held shares of our common stock prior to our July 2006 offering and Mr. Paul A. Novelly, our executive chairman of the board (or his designees), are entitled to demand that we register the resale of their shares of our common stock issued prior to our July 2006 offering and their shares included in the units purchased in our July 2006 offering. If these registration rights are exercised with respect to all shares subject to those rights, there will be an additional 16,250,000 shares eligible for trading in the public markets without restriction as to volume or manner of sale. If and when these shares are registered or become eligible for sale to the public markets, the market price of our common stock could decline.

Our shareholders will experience dilution as a result of this offering and they may experience further dilution if we issue additional common stock.

The issuance of our common stock in this offering will have a dilutive effect on our earnings per share. Any additional future issuances of our common stock will reduce the percentage of our common stock owned by investors purchasing shares in this offering who do not participate in those future issuances. Shareholders generally will not be entitled to vote on whether or not we issue additional common stock. In addition, depending on the terms and pricing of an additional offering of our common stock and the value of our properties, our shareholders may experience dilution in both the book value and fair value of their shares.

USE OF PROCEEDS

We intend to use the net proceeds from the sale of our common stock covered by this prospectus supplement for general corporate purposes, which may include working capital, capital expenditures, research and development expenditures, acquisitions of new businesses, and investments. Until the net proceeds have been used, they will be invested in short-term securities in accordance with our investment policy.

PLAN OF DISTRIBUTION

We have entered into an At-The-Market Equity Offering Sales Agreement dated as of May 10, 2011, with Stifel, Nicolaus & Company, Incorporated, or Stifel Nicolaus Weisel, under which we may issue and sell up to 3,000,000 shares of our common stock from time to time through Stifel Nicolaus Weisel as our sales agent. The sales, if any, of our shares of common stock under the sales agreement will be made in “at the market” offerings as defined in Rule 415 of the Securities Act of 1933, including sales made directly on the NYSE, the principal existing trading market for our shares of common stock, to or through a market maker or any other trading market for our shares of common stock or, with our prior consent, in privately negotiated transactions at negotiated prices.

As sales agent, Stifel Nicolaus Weisel will not engage in any transactions that stabilize our common stock.

Stifel Nicolaus Weisel will offer the common stock subject to the terms and conditions of the sales agreement on a daily basis or as otherwise agreed upon by us and Stifel Nicolaus Weisel. We will designate the maximum amount of common stock to be sold through Stifel Nicolaus Weisel on a daily basis or otherwise determine such maximum amount together with Stifel Nicolaus Weisel. Subject to the terms and conditions of the sales agreement, Stifel Nicolaus Weisel will use its commercially reasonable efforts to sell on our behalf all of the shares of common stock requested to be sold by us. We may instruct Stifel Nicolaus Weisel not to sell common stock if the sales cannot be effected at or above the price designated by us in any such instruction. We or Stifel Nicolaus Weisel may suspend the offering of the common stock being made through Stifel Nicolaus Weisel under the sales agreement upon proper notice to the other party.

The aggregate compensation payable to Stifel Nicolaus Weisel as sales agent will be equal to 3% of the gross sales price of the shares sold through it pursuant to the sales agreement.

The remaining sales proceeds, after deducting any expenses payable by us and any transaction fees imposed by any governmental, regulatory, or self-regulatory organization in connection with the sales, will equal our net proceeds for the sale of such common stock. Pursuant to a requirement of the Financial Industry Regulatory Authority, or FINRA, the maximum commission or discount to be received by any FINRA member or independent broker/dealer may not be greater than 8% of the gross proceeds received by the offeror for the sale of any securities being registered pursuant to SEC Rule 415 under the Securities Act of 1933, as amended.

S-5

Stifel Nicolaus Weisel will provide written confirmation to us following the close of trading on the NYSE as applicable, each day in which common stock is sold through it as sales agent under the sales agreement. Each confirmation will include the number of shares of common stock sold through it as sales agent on that day, the gross sales price per share, the net proceeds to us, and the compensation payable by us to Stifel Nicolaus Weisel.

We will report at least quarterly the number of shares of common stock sold through Stifel Nicolaus Weisel under the sales agreement, the net proceeds to us, and the compensation paid by us to Stifel Nicolaus Weisel in connection with the sales of common stock.

Settlement for sales of common stock will occur, unless the parties agree otherwise, on the third business day that is also a trading day following the date on which any sales were made in return for payment of the net proceeds to us. There is no arrangement for funds to be received in an escrow, trust, or similar arrangement.

In connection with the sales of the common stock on our behalf, Stifel Nicolaus Weisel may be deemed to be an “underwriter” within the meaning of the Securities Act of 1933, as amended, and the compensation paid to Stifel Nicolaus Weisel may be deemed to be underwriting commissions or discounts. We have agreed in the sales agreement to provide indemnification and contribution to Stifel Nicolaus Weisel against certain liabilities, including liabilities under the Securities Act of 1933, as amended. In addition, we have agreed, under certain circumstances, to reimburse a portion of the expenses of Stifel Nicolaus Weisel in connection with this offering up to a maximum of \$100,000.

We estimate that the total expenses of the offering payable by us, excluding commissions payable to Stifel Nicolaus Weisel under the sales agreement, will be approximately \$40,000.

We and Stifel Nicolaus Weisel each have the right, by giving written notice as specified in the sales agreement, to terminate the sales agreement in each party’s sole discretion at any time.

SUMMARY

This summary highlights selected information from this prospectus. It does not contain all of the information that is important to you. We encourage you to carefully read this entire prospectus and the documents to which we refer you. The following summary is qualified in its entirety by reference to the detailed information appearing elsewhere in this prospectus.

Our Company

We are a Delaware corporation, with our principal assets and operations in the United States and whose primary business is manufacturing diversified chemical products and biobased products comprised of biofuels and biobased specialty chemical products. The mailing address and telephone number of our principal executive offices are: FutureFuel Corp., 8235 Forsyth Blvd., 4th Floor, Clayton, Missouri 63105, (805) 565-9800.

We were formed to serve as a vehicle for the acquisition by way of an asset acquisition, merger, capital stock exchange, share purchase, or similar transaction of one or more operating businesses in the oil and gas industry. On July 12, 2006, we completed an offering of 22,500,000 units, each unit consisting of one share of our common stock and one warrant to acquire one share of our common stock. These units were issued at \$8.00 per unit. On July 21, 2006, we entered into an acquisition agreement with Eastman Chemical Company to acquire its wholly-owned subsidiary, Eastman SE, Inc., a chemical manufacturer which had just launched a biobased products platform. Our shareholders approved the acquisition of Eastman SE, Inc. on October 27, 2006. On October 31, 2006, the acquisition of Eastman SE, Inc. was consummated (effective after the close of business on that day) and Eastman SE, Inc. became our wholly-owned subsidiary. In connection with such closing, we changed our name to FutureFuel Corp. and Eastman SE, Inc. changed its name to FutureFuel Chemical Company.

FutureFuel Chemical Company is a Delaware corporation incorporated on September 1, 2005 under the name Eastman SE, Inc. It owns approximately 2,200 acres of land six miles southeast of Batesville in north central Arkansas fronting the White River. Approximately 500 acres of the site are occupied with batch and continuous manufacturing facilities, laboratories, and associated infrastructure, including on-site liquid waste treatment. The plant is staffed by approximately 486 non-union full-time employees. FutureFuel Chemical Company manufactures diversified chemical products and biobased products comprised of biofuels and biobased specialty chemical products.

The Securities We May Offer

We may offer shares of our common stock, preferred stock, warrants and/or rights, either individually or in units, with a total value of up to \$50 million from time to time under this prospectus, together with any applicable prospectus supplement, at prices and on terms to be determined by market conditions at the time of offering. This prospectus provides you with a general description of the securities we may offer. Each time we offer a type or series of securities, we will provide a prospectus supplement that will describe the specific amounts, prices, and other important terms of the securities, including, to the extent applicable:

- designation or classification;
- aggregate principal amount or aggregate offering price;
- maturity, if applicable, and original issue discount, if any;
- rates and times of payment of interest, dividends, or other payments, if any;

Edgar Filing: FutureFuel Corp. - Form 424B2

- redemption, conversion, exercise, exchange, settlement, or sinking fund terms, if any;
- conversion, exchange, or settlement prices or rates, if any, and, if applicable, any provisions for changes to or adjustments in the conversion, exchange, or settlement prices or rates and in the securities or other property receivable upon conversion, exchange, or settlement;
 - ranking;
 - restrictive covenants, if any;
 - voting or other rights, if any; and
 - certain federal income tax considerations.

A prospectus supplement and any related free writing prospectus may also add, update, or change information contained in this prospectus or in documents we have incorporated by reference into this prospectus. However, no prospectus supplement or free writing prospectus will offer a security that is not registered and described in this prospectus.

This prospectus may not be used to offer or sell any securities unless accompanied by a prospectus supplement.

We may sell the securities directly or through underwriters, dealers, or agents. We and our underwriters, dealers, or agents reserve the right to accept or reject all or part of any proposed purchase of securities. If we do offer securities through underwriters or agents, we will include in the applicable prospectus supplement:

- the names of those underwriters or agents;
- applicable fees, discounts, and commissions to be paid to them;
- details regarding over-allotment options, if any; and
- the net proceeds to us.

Common Stock. We may issue shares of our common stock from time to time. We currently have authorized 75,000,000 shares of our common stock, par value \$0.0001 per share. As of March 4, 2011, there were 39,983,849 shares of our common stock issued and outstanding. Our common stock is fully voting stock entitled to one vote per share with respect to all matters to be voted on by our shareholders. The holders of common stock are entitled to receive ratably such dividends, if any, as may be declared from time to time by our board of directors out of funds legally available, subject to preferences that may be applicable to preferred stock, if any, then outstanding. A holder of shares of our common stock will share ratably with the other holders of our common stock on a share-for-share basis in all distributions of assets pursuant to any voluntary liquidation, dissolution, or winding up of us. Our shareholders have no preemptive rights to acquire our un-issued shares or securities convertible into or carrying a right to subscribe to or acquire shares of our stock. There are no redemption or sinking fund provisions applicable to our common stock.

Preferred Stock. We currently have authorized 5,000,000 shares of preferred stock, par value \$0.0001 per share. Under our certificate of incorporation, the shares of each class or series of preferred stock are to have such designations and powers, preferences, rights, qualifications, limitations, and restrictions as are stated and expressed in our certificate of incorporation and in the resolution or resolutions providing for the issuance of such class or series adopted by our board of directors. The particular terms of each class or series of preferred stock will be more fully described in the applicable prospectus supplement relating to the preferred stock offered thereby. We will incorporate by reference into the registration statement of which this prospectus is a part the form of any certificate of designation that describes the terms of the series of preferred stock we are offering before the issuance of shares of that series of preferred stock. You should read any prospectus supplement and any free writing prospectus that we may authorize to be provided to you related to the series of preferred stock being offered, as well as the complete certificate of designation that contains the terms of the applicable series of preferred stock.

Warrants and Rights. We may create and issue warrants and rights entitling the holders thereof to purchase shares of our capital stock of any class or series or other securities authorized by us, and we may issue warrants or rights for the purchase of our preferred stock or common stock, or any combination thereof. The warrants may be attached to or separate from those securities. Each series of warrants or rights will be issued under a separate agreement to be entered into between us and the holder or a bank or trust company, as agent. In the event we engage an agent, the agent will act solely as our agent in connection with the warrants or rights, as applicable. The agent will not have any

obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants or rights, as applicable. This summary of certain provisions of the warrants and rights is not complete. For the terms of a particular series of warrants or rights, you should refer to the prospectus supplement and the agreement for that particular series. The prospectus supplement relating to a particular series of warrants or rights to purchase our common stock or preferred stock will describe the terms of the warrants or rights, as applicable.

Units. We may issue units comprised of one or more of the other classes of securities described in this prospectus in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. In this prospectus, we have summarized certain general features of the units. We urge you, however, to read the prospectus supplement (and any free writing prospectus) related to the series of units being offered, as well as the complete unit agreement that contains the terms of the units. We will file as exhibits to the registration statement to which this prospectus relates, or will incorporate by reference from reports that we file with the SEC, the form of unit agreement and any supplemental agreements that describe the terms of the series of units we are offering before the issuance of the related series of units.

RISK FACTORS

An investment in our securities involves a high degree of risk and may result in the loss of all or part of your investment. The prospectus supplement applicable to each offering of our securities will contain a discussion of the risks applicable to an investment in our securities. Prior to making a decision about investing in our securities, you should consider carefully the specific factors discussed under the heading “Risk Factors” in the applicable prospectus supplement, together with all of the other information contained or incorporated by reference in the prospectus supplement or appearing or incorporated by reference in this prospectus. You should also consider the risks, uncertainties, and assumptions discussed under the heading “Risk Factors” in our most recent Annual Report on Form 10-K (as updated in our subsequent Quarterly Report on Form 10-Qs) which may be amended, supplemented, or superseded from time to time by other reports we file with the SEC in the future and any prospectus supplement.

In addition to the above, you should consider the following risks.

We may issue substantial amounts of additional shares without stockholder approval.

Our articles of incorporation authorize the issuance of 75,000,000 shares of common stock and 5,000,000 shares of preferred stock. We may issue either common stock or preferred stock, or warrants or rights, without any action or approval by our stockholders. As of the date of this prospectus, 39,983,849 shares of our common stock currently are outstanding. The issuance of any additional shares of our common stock or preferred stock would dilute the percentage ownership of our company held by existing stockholders.

The market price of our common stock is highly volatile and may increase or decrease dramatically at any time.

The market price of our common stock is highly volatile. Our stock price may change dramatically as the result of: (i) announcements of new products or innovations by us or our competitors; (ii) uncertainty regarding the viability of any of our product initiatives; (iii) significant customer contracts; (iv) significant litigation; or (v) other factors or events that would be expected to affect our business, financial condition, results of operations, and future prospects.

The market price for our common stock may also be affected by various factors not directly related to our business or future prospects, including the following:

- intentional manipulation of our stock price by existing or future shareholders;
- a reaction by investors to trends in our stock rather than the fundamentals of our business;
- a single acquisition or disposition, or several related acquisitions or dispositions, of a large number of our shares, including by short sellers covering their position;

- the interest of the market in our business sector, without regard to our financial condition, results of operations, or business prospects;
 - positive or negative statements or projections about us or our industry by analysts and other persons;
- the adoption of governmental regulations or government grant programs and similar developments in the United States or abroad that may enhance or detract from our ability to offer our products and services or affect our cost structure; and
- economic and other external market factors, such as a general decline in market price due to poor economic conditions, investor distrust, or a financial crisis.

SPECIAL NOTE REGARDING FORWARD LOOKING STATEMENTS

This prospectus and the registration statement of which it forms a part, any prospectus supplement, any related free writing prospectus that we may authorize, and the documents incorporated by reference into these documents contain forward-looking statements. Forward-looking statements deal with our current plans, intentions, beliefs, and expectations, and statements of future economic performance. Statements containing such terms as “believe,” “do not believe,” “plan,” “expect,” “intend,” “estimate,” “anticipate,” and other phrases of similar meaning are considered to contain forward-looking statements. In addition, from time to time we or our representatives have made or will make forward-looking statements orally or in writing. Furthermore, such forward-looking statements may be included in various filings that we make with the SEC, or in press releases, or in oral statements made by or with the approval of one of our authorized executive officers.

These forward-looking statements are subject to certain known and unknown risks and uncertainties, as well as assumptions that could cause actual results to differ materially from those reflected in these forward-looking statements. Factors that might cause actual results to differ include, but are not limited to, those set forth under the headings “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our most recent Annual Report on Form 10-K, in the corresponding sections in our most recent Quarterly Report on Form 10-Q, and in our future filings made with the SEC, including prospectus supplements. You should not place undue reliance on any forward-looking statements contained in this prospectus, any prospectus supplement, or any related free writing prospectus that we authorize, which reflect our management’s opinions only as of their respective dates. Except as required by law, we undertake no obligation to revise or publicly release the results of any revisions to forward-looking statements. The risks and uncertainties described in this prospectus, our annual report on Form 10-K, and in subsequent filings with the SEC are not the only ones we face. New factors emerge from time to time, and it is not possible for us to predict which will arise. There may be additional risks not presently known to us or that we currently believe are immaterial to our business. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. If any such risks occur, our business, operating results, liquidity, and financial condition could be materially affected in an adverse manner. You should consult any additional disclosures we have made or will make in our reports to the SEC on Forms 10-K, 10-Q, and 8-K, and any amendments thereto. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained in this prospectus, any prospectus supplement, or any related free writing prospectus authorized by us.

FINANCIAL RATIOS

If we offer preferred stock, we will set forth in the applicable prospectus supplement, if required, our historical consolidated ratio of our earnings to combined fixed charges and preferred stock dividends.

USE OF PROCEEDS

We will retain broad discretion over the use of the net proceeds from the sale of the securities offered hereby. Except as otherwise provided in the applicable prospectus supplement, we intend to use the net proceeds from the sale of the securities covered by this prospectus for general corporate purposes, which may include working capital, capital expenditures, research and development expenditures, acquisitions of new businesses, and investments. Until the net proceeds have been used, they will be invested in short-term marketable securities in accordance with our investment policy. If we elect at the time of the issuance of the securities to make a different or more specific use of the proceeds other than as described in this prospectus, the change in the use of proceeds will be described in the applicable prospectus supplement.

DILUTION

If you invest in an offering of common stock by us, your interest will be diluted to the extent of the difference between the public offering price per share in an offering under this prospectus and the net tangible book value per share after the offering, except to the extent proceeds are applied to the repayment of debt. We will set forth in the applicable prospectus supplement or free writing prospectus the following information regarding any material dilution of the equity interests of investors purchasing shares in an offering by us under this prospectus:

- the net tangible book value per share of our equity securities before and after the offering;
- the amount of the increase in such net tangible book value per share attributable to the cash payments made by investors purchasing shares in the offering; and
- the amount of the immediate dilution from the public offering price to such investors.

DESCRIPTION OF THE SECURITIES TO BE REGISTERED

This prospectus contains summary descriptions of our common stock, preferred stock, warrants, rights, and units that we may offer from time to time. As further described in this prospectus, these summary descriptions are not meant to be complete descriptions of each security. The particular terms of any security will be described in the accompanying prospectus supplement and other offering material. The accompanying prospectus supplement may add, update, or change the terms and conditions of the securities as described in this prospectus.

Capital Stock

The total number of shares of all classes of stock which we have the authority to issue is 80,000,000 shares consisting of: (i) 5,000,000 shares of preferred stock, par value \$0.0001 per share; and (ii) 75,000,000 shares of common stock, par value \$0.0001 per share. The only equity securities we currently have outstanding are shares of common stock; we have not authorized or issued any preferred stock. As of March 4, 2011, there were 39,983,849 shares of our common stock issued and outstanding. The following is a summary of the material provisions of our common stock and preferred stock provided for in our certificate of incorporation and bylaws. For additional details about our capital stock, please refer to our certificate of incorporation and bylaws, each as amended, which are incorporated by reference into the registration statement to which this prospectus relates.

Common Stock. All shares of our common stock have identical rights and privileges in every respect. Except as specifically provided by our board in a resolution providing for any preferred stock, or series thereof, in no event will shares of our common stock have preferences over shares of our preferred stock with respect to payments of dividends or distributions of assets upon our liquidation and dissolution.

Our common stock is fully voting stock entitled to one vote per share with respect to all matters to be voted on by our shareholders. Except as expressly required by the Delaware General Corporation Law (which we may also refer to as the “DGCL”), our common stock will vote as a single class with respect to all matters to be voted on by our shareholders. Except as otherwise required by law or as otherwise provided by our board with respect to any preferred stock, the holders of our common stock exclusively possess all voting power with respect to us.

A holder of shares of our common stock will share ratably with the other holders of our common stock on a share-for-share basis in all distributions of assets pursuant to any voluntary liquidation, dissolution, or winding up of us.

Our shareholders have no preemptive rights to acquire our un-issued shares or securities convertible into or carrying a right to subscribe to or acquire shares of our stock.

There are no redemption or sinking fund provisions applicable to our common stock. The outstanding shares of our common stock are fully paid and non-assessable, and any shares of our common stock to be issued upon an offering pursuant to this prospectus and the related prospectus supplement will be fully paid and nonassessable upon issuance.

The transfer agent for our common stock is Computershare Trust Company N.A. Our common stock is quoted on the OTC Bulletin Board under the symbol “FTFL”.

Preferred Stock. The following description of preferred stock and the description of the terms of any particular series of preferred stock that we choose to issue hereunder and that will be set forth in the related prospectus supplement are not complete. These descriptions are qualified in their entirety by reference to our certificate of incorporation and the certificate of designation relating to that series. The rights, preferences, privileges, and restrictions of the preferred stock of each series will be fixed by the certificate of designation relating to that series. The prospectus supplement also will contain a description of certain U.S. federal income tax consequences relating to the purchase and ownership of the series of preferred stock that is described in the prospectus supplement.

We currently have no shares of preferred stock outstanding. Preferred stock may be issued from time to time in one or more classes or series. The shares of each class or series are to have such designations and powers, preferences, rights, qualifications, limitations, and restrictions as are stated and expressed in our certificate of incorporation and in the resolution or resolutions providing for the issuance of such class or series adopted by our board of directors.

Authority is expressly granted to and vested in our board of directors to authorize the issuance of preferred stock from time to time in one or more classes or series, and with respect to each class or series of the preferred stock, to fix and state by the resolution or resolutions of our board from time to time adopted providing for the issuance thereof the following:

- whether the class or series is to have voting rights, full, special or limited, and whether such class or series is to be entitled to vote as a separate class either alone or together with the holders of one or more other classes or series of our stock;
 - the number of shares to constitute the class or series and the designations thereof;
- the preferences and relative, participating, optional, or other special rights, if any, and the qualifications, limitations, or restrictions thereof, if any, with respect to any class or series;
- whether the shares of any class or series are redeemable at our option or at the option of the holders thereof or upon the happening of any specified event and, if redeemable, the redemption price or prices (which may be payable in the form of cash, notes, securities, or other property), and the time or times at which, and the terms and conditions upon which, such shares are redeemable and the manner of redemption;
- whether the shares of a class or series are subject to the operation of retirement or sinking funds to be applied to the purchase or redemption of such shares for retirement and, if such retirement or sinking fund or funds are to be established, the annual amount thereof and the terms and provisions relative to the operation thereof;
- the dividend rate, whether dividends are payable in cash, our stock, or other property, the conditions upon which and the times when such dividends are payable, the preference to or the relation to the payment of dividends payable on any other class or classes or series of our stock, whether or not such dividends are cumulative or noncumulative and, if cumulative, the date or dates from which such dividends accumulate;
-

the preferences, if any, and the amounts thereof which the holders of any class or series thereof will be entitled to receive upon our voluntary or involuntary dissolution or liquidation, or upon any distribution of our assets;

- whether the shares of any class or series, at our option or the option of the holders thereof or upon the happening of any specified event, are convertible into or exchangeable for the shares of any other class or classes or of any other series of the same or any other class or classes of stock, securities or other property of us and the conversion price or prices or ratio or the rate or rates at which such exchange may be made, with such adjustments, if any, as may be stated and expressed or provided for in such resolution or resolutions; and
- such other special rights and protective provisions with respect to any class or series as may to our board seem advisable.

The shares of each class or series of the preferred stock may vary from the shares of any other class or series thereof in any or all of the foregoing respects. Our board may increase the number of shares of the preferred stock designated for any existing class or series by a resolution adding to such class or series authorized and unissued shares of the preferred stock not designated for any other class or series. Our board may decrease the number of shares of the preferred stock designated for any existing class or series (but not below the number of shares thereof then outstanding) by a resolution subtracting from such class or series, and the shares so subtracted will become authorized, unissued, and undesignated shares of the preferred stock.

Preferred stock will be fully paid and nonassessable upon issuance.

Warrants and Rights

We have the authority to create and issue warrants and rights entitling the holders thereof to purchase shares of our capital stock of any class or series or other securities authorized by us, and such warrants and rights will be evidenced by instrument(s) approved by our board. Our board is empowered to set the exercise price, duration, times for exercise, and other terms of such warrants or rights; provided, however, that the consideration to be received for any shares of capital stock subject thereto may not be less than the par value thereof.

We may issue warrants or rights for the purchase of our preferred stock or common stock, or any combination thereof. Warrants or rights may be issued independently or together with our preferred stock or common stock and may be attached to, or separate from, any offered securities. Each series of warrants or rights will be issued under a separate agreement to be entered into between us and the holder or a bank or trust company, as agent. In the event we engage an agent, the agent will act solely as our agent in connection with the warrants or rights, as applicable. The agent will not have any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants or rights, as applicable. This summary of certain provisions of the warrants and rights is not complete. For the terms of a particular series of warrants or rights, you should refer to the prospectus supplement and the agreement for that particular series.

The prospectus supplement relating to a particular series of warrants or rights to purchase our common stock or preferred stock will describe the terms of the warrants or rights, as applicable, including the following:

- the title of the warrants or rights;
- the exercise price of the warrants or rights;
- the offering price for the warrants or rights, if any;
- the aggregate number of warrants or rights;
- the designation and terms of the common stock or preferred stock that may be purchased upon the exercise of the warrants or rights;
- if applicable, the designation and terms of the securities with which the warrants or rights are issued and the number of warrants or rights issued with each security;
- if applicable, the date from and after which the warrants or rights and any securities issued therewith will be separately transferable;

- the number of shares of common stock or preferred stock that may be purchased upon exercise of a warrant or right, and the exercise price for the warrants or rights, as applicable;
 - the dates on which the right to exercise the warrants or rights commence and expire;
- if applicable, the minimum or maximum amount of the warrants or rights that may be exercised at any one time;
 - the currency or currency units in which the offering price, if any, and the exercise price are payable;
 - if applicable, a discussion of material U.S. federal income tax considerations;
 - the anti-dilution provisions, if any, of the warrants or rights;
 - the redemption or call provisions, if any, applicable to the warrants or rights;
- any provisions with respect to the holder's right to require us to repurchase the warrants or rights upon a change in control or similar event; and
- any additional terms of the warrants or rights, including procedures and limitations relating to the exchange, exercise, and settlement thereof.

Holders of equity warrants or rights will not be entitled:

- to vote, consent, or receive dividends;
- receive notice as stockholders with respect to any meeting of stockholders for the election of our directors or any other matter; or
 - exercise any rights of our stockholders.

Units

We may issue units comprised of one or more of the other classes of securities described in this prospectus in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The prospectus supplement will describe:

- the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances the securities comprising the units may be held or transferred separately;
 - a description of the terms of any agreement governing the units;
- a description of the provisions for the payment, settlement, transfer, or exchange of the units; and
 - a discussion of material federal income tax considerations, if applicable.

The descriptions of the units in this prospectus and in any prospectus supplement are summaries of the material provisions of the applicable agreements. These descriptions do not restate those agreements in their entirety and may not contain all the information that you may find useful. We urge you to read the applicable agreements because they,

and not the summaries, define your rights as holders of the units.

Anti-Takeover Effects of Some Provisions of Delaware law

Certain provisions of the DGCL could make the acquisition of us through a tender offer, a proxy contest, or other means more difficult and could make the removal of incumbent officers and directors more difficult. We expect these provisions to: (i) discourage coercive takeover practices and inadequate takeover bids; and (ii) encourage persons seeking to acquire control of us to first negotiate with our board of directors. We believe that the benefits provided by our ability to negotiate with the proponent of an unfriendly or unsolicited proposal outweigh the disadvantages of discouraging these proposals. We believe the negotiation of an unfriendly or unsolicited proposal could result in an improvement of its terms.

We are subject to DGCL §203, an anti-takeover law. In general, §203 prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years following the date the person became an interested stockholder, unless:

- prior to the date of the transaction, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;
- the stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding: (i) shares owned by persons who are directors and also officers; and (ii) shares owned by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender offer or exchange offer; or
- on or subsequent to the date of the transaction, the business combination is approved by the board and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least two-thirds of the outstanding voting stock that is not owned by the interested stockholder.

Generally, a business combination includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. An interested stockholder is a person who, together with affiliates and associates, own or, within three years prior to the determination of interested stockholder status, did own 15% or more of a corporation's outstanding voting securities. We expect the existence of this provision to have an anti-takeover effect with respect to transactions our board of directors does not approve in advance. We also anticipate that §203 may also discourage attempts that might result in a premium over the market price for the shares of our common stock held by our shareholders.

Anti-Takeover Effects of Provisions of Our Charter Documents

Our bylaws have certain provisions that may be considered to have "anti-takeover effects". Certain of those provisions are described below.

Except as required by law and subject to the rights of holders of any series of preferred stock, special meetings of our stockholders may be called at any time but only by our chief executive officer, the chairman of our board of directors, or by the board of directors pursuant to a resolution approved by a majority of the then directors. Business transacted at any special meeting of our stockholders will be limited to matters relating to the purpose or purposes stated in the notice of the meeting unless this requirement is waived in accordance with our bylaws or with applicable law. These provisions could prevent an interested acquirer from presenting a transaction at a special meeting of our stockholders and would have to wait until the next annual shareholder meeting.

At any annual meeting of our shareholders, only such business may be conducted as may be brought before the meeting: (i) by or at the direction of our board of directors; or (ii) by any stockholder who complies with the following procedures. For business properly to be brought before such meeting by a shareholder, the shareholder must give timely notice thereof in proper written form to our corporate secretary. To be timely, a shareholder's notice must be delivered to or mailed and received at our executives office not less than 30 days nor more than 60 days prior to the annual meeting; provided, however, that in the event that less than 40 days' notice or prior public disclosure of the date of the annual meeting is given or made to our shareholders, notice by the shareholder to be timely must be received not later than the close of business on the tenth day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure was made. To be in proper written form, a shareholder's notice to our corporate secretary must set forth in writing as to each matter the shareholder proposes to bring before the meeting: (i) a brief description of the business desired to be brought before the meeting and the reason for conducting such

business at the annual meeting; (ii) the name and address, as they appear on our books, of the shareholder proposing such business; (iii) the class and number of shares of our stock which are beneficially owned by the shareholder; and (iv) any material interest of the shareholder in such business. This provision has the effect of precluding the conduct of business at an annual shareholder meeting if the proper procedures are not followed. These provisions may also discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of us.

The number of directors which constitute our board of directors will be no greater than nine and not less than three. We currently have seven directors. The number of our directors may be decreased at any time and from time to time either by our shareholders or by a majority of the directors then in office, but only to eliminate vacancies existing by reason of the death, resignation, removal, or expiration of the term of one or more directors. Directors generally will be elected at the annual meeting of our shareholders by such shareholders as have the right to vote at such election. At each meeting of our shareholders for the election of directors at which a quorum is present, the persons receiving a plurality of the votes cast will be elected directors. Nominations for the election of directors may be made by the our board of directors or a committee appointed by our board of directors, or by any shareholder entitled to vote generally in the election of directors who complies with the following procedures. All nominations by our shareholders must be made pursuant to timely notice in proper written form to our corporate secretary. To be timely, a shareholder's notice must be delivered to or mailed and received at our executive offices not less than 30 days nor more than 60 days prior to the meeting; provided, however, that in the event that less than 40 days' notice or prior public disclosure of the date of the meeting is given or made to our shareholders, notice by the shareholder to be timely must be so received not later than the close of business on the tenth day following the day on which such notice of the date of the meeting was mailed or such public disclosure was made. To be in proper written form, such shareholder's notice must set forth in writing: (i) as to each person whom the shareholder proposes to nominate for election or reelection as a director, all information relating to such person that is required to be disclosed in solicitations of proxies for election of directors, or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act, including such person's written consent to being a nominee and to serving as a director if elected (irrespective of whether the Exchange Act is applicable to us); and (ii) as to the shareholder giving the notice, the (a) name and address, as they appear on our books, of such shareholder and (b) the class and number of shares of our stock which are beneficially owned by such shareholder.

Our directors are divided into three classes, with the terms of one class of directors expiring each year. . This provision for a classified board could prevent a party who acquires control of a majority of our outstanding voting stock from obtaining control of our board of directors until the second annual stockholder meeting or longer, following the date the acquirer obtains the controlling stock interest. This classified board provision could discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us and could increase the likelihood that incumbent directors will retain their positions.

Subject to the rights of holders of preferred stock to elect directors under circumstances specified in a resolution of our board of directors, a director may be removed from office, but only for cause, by the affirmative vote of the holders of more than fifty percent of the voting power of our "voting stock," voting together as a single class. "Voting stock" means our common stock and any preferred stock entitled to vote generally in the election of our directors. This may have the effect of a person obtaining control of us having to wait until a director's term is finished before he can replace him.

Our board of directors may provide for the payment to any of our directors of a specified amount for services as director or member of a committee of our board, or of a specified amount for attendance at each regular or special board meeting or committee meeting, or of both. All directors will be reimbursed for ordinary and necessary expenses of attendance at any such meeting.

The distribution of the securities may be effected from time to time in one or more transactions:

- at a fixed price or prices, which may be changed from time to time;

- at prices related to such prevailing market prices; or

Each prospectus supplement will describe the method of distribution of the securities and any applicable restrictions.

The prospectus supplement with respect to the securities of a particular series will describe the terms of the offering of the securities, including the following:

- the name or names of any underwriters, dealers, or agents and the amounts of securities underwritten or purchased by each of them;
- the public offering price of the securities and the proceeds to us and any discounts, commissions, or concessions allowed or re-allowed or paid to dealers; and
- any exchanges on which the securities may be listed.

Underwriters may offer and sell the offered securities from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the securities will be subject to the conditions set forth in an underwriting agreement between us and the underwriters. If underwriters are used in the sale of any securities, the securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions described above. The securities may be either offered to the public through underwriting syndicates represented by managing underwriters, or directly by underwriters. Generally, the underwriters' obligations to purchase the securities will be subject to certain conditions precedent. The underwriters will be obligated to purchase all of the securities if they purchase any of the securities. We may use underwriters with whom we have a material relationship. We will describe in the prospectus supplement or a free writing prospectus, naming the underwriter, the nature of any such relationship.

Any offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time.

Only the agents or underwriters named in each prospectus supplement are agents or underwriters in connection with the securities being offered thereby.

We may authorize underwriters, dealers, or other persons acting as our agents to solicit offers by certain institutions to purchase securities from us pursuant to delayed delivery contracts providing for payment and delivery on the date stated in each applicable prospectus supplement. Each contract will be for an amount not less than, and the aggregate amount of securities sold pursuant to such contracts will not be less than nor more than, the respective amounts stated

in each applicable prospectus supplement. Institutions with whom the contracts, when authorized, may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions, and other institutions, in each case subject to our approval. Delayed delivery contracts will be subject only to those conditions set forth in each applicable prospectus supplement, and each prospectus supplement will set forth any commissions we pay for solicitation of these contracts.

Agents, underwriters, and other third parties described above may be entitled to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution from us with respect to payments that the agents, underwriters, or other third parties may be required to make in respect of these civil liabilities. Agents, underwriters, and such other third parties may be customers of, engage in transactions with, or perform services for us in the ordinary course of business.

One or more firms, referred to as remarketing firms, may also offer or sell the securities, if a prospectus supplement so indicates, in connection with a remarketing arrangement upon their purchase. Remarketing firms will act as principals for their own accounts or as our agents. These remarketing firms will offer or sell the securities in accordance with the terms of the securities. Each prospectus supplement will identify and describe any remarketing firm and the terms of its agreement, if any, with us and will describe the remarketing firm's compensation. Remarketing firms may be deemed to be underwriters in connection with the securities they remarket. Remarketing firms may be entitled under agreements that may be entered into with us to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, and may be customers of, engage in transactions with, or perform services for us in the ordinary course of business.

Certain underwriters may use the prospectus and any accompanying prospectus supplement for offers and sales related to market-making transactions in the securities. These underwriters may act as principal or agent in these transactions, and the sales will be made at prices related to prevailing market prices at the time of sale.

All securities we offer, other than common stock, will be new issues of securities with no established trading market. Any underwriters may make a market in these securities, but will not be obligated to do so and may discontinue any market making at any time without notice. We cannot guarantee the liquidity of the trading markets for any securities.

Certain persons participating in an offering may engage in overallotment, stabilizing transactions, short covering transactions, and penalty bids in accordance with rules and regulations under the Exchange Act. Overallotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a short covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time.

We also may sell any of the securities through agents designated by us from time to time. We will name any agent involved in the offer or sale of these securities and will list commissions payable by us to these agents in the applicable prospectus supplement. These agents will be acting on a best efforts basis to solicit purchases for the period of their appointment, unless stated otherwise in the applicable prospectus supplements.
