#### NEW YORK MORTGAGE TRUST, INC. AND SUBSIDIARIES

#### NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS March 31, 2012

(unaudited)

#### 1. Summary of Significant Accounting Policies

Organization – New York Mortgage Trust, Inc., together with its consolidated subsidiaries ("NYMT," the "Company," "we," "our" and "us"), is a real estate investment trust, or REIT, in the business of acquiring, investing in, financing and managing primarily mortgage-related assets and, to a lesser extent, financial assets. Our objective is to manage a portfolio of investments that will deliver stable distributions to our stockholders over diverse economic conditions. We intend to achieve this objective through a combination of net interest margin and net realized capital gains from our investment portfolio. Our portfolio includes investments sourced from distressed markets in recent years that create the potential for capital gains, as well as more traditional types of mortgage-related investments, such as Agency RMBS consisting of adjustable-rate and hybrid adjustable-rate RMBS, which we sometimes refer to as Agency ARMs, and Agency RMBS comprised of IOs, which we sometimes refer to as Agency IOs, that generate interest income.

The Company conducts its business through the parent company, NYMT, and several subsidiaries, including special purpose subsidiaries established for loan securitization purposes, taxable REIT subsidiaries ("TRSs") and qualified REIT subsidiaries ("QRSs"). The Company conducts certain of its portfolio investment operations through one of its wholly-owned TRSs, Hypotheca Capital, LLC ("HC"), in order to utilize, to the extent permitted by law, a portion of a net operating loss carry-forward held in HC that resulted from the Company's exit from the mortgage lending business. Prior to March 31, 2007, the Company conducted substantially all of its mortgage lending business through HC. The Company utilizes one of its wholly-owned QRSs, RB Commercial Mortgage LLC ("RBCM"), for its investments in multi-family CMBS assets, and, to a lesser extent, other commercial real estate-related debt investments. The Company utilizes another of its wholly-owned QRSs, NYMT-Midway LLC, and one of its wholly-owned TRSs, New York Mortgage Funding, LLC ("NYMF"), for its Agency IO portfolio managed by The Midway Group, L.P. ("Midway"). The Company consolidates all of its subsidiaries under generally accepted accounting principles in the United States of America ("GAAP").

The Company is organized and conducts its operations to qualify as a REIT for federal income tax purposes. As such, the Company will generally not be subject to federal income tax on that portion of its income that is distributed to stockholders if it distributes at least 90% of its REIT taxable income to its stockholders by the due date of its federal income tax return and complies with various other requirements.

Basis of Presentation – The condensed consolidated balance sheet as of December 31, 2011 has been derived from audited financial statements. The condensed consolidated balance sheet at March 31, 2012, the condensed consolidated statements of operations for the three months ended March 31, 2012 and 2011, the condensed consolidated statements of comprehensive income for the three months ended March 31, 2012 and 2011, the condensed consolidated statement of equity for the three months ended March 31, 2012 and the condensed consolidated statements of cash flows for the three months ended March 31, 2012 and 2011 are unaudited. In our opinion, all adjustments (which include only normal recurring adjustments) necessary to present fairly the Company's financial position, results of operations and cash flows have been made. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted in accordance with Article 10 of Regulation S-X and the instructions to Form 10-Q. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the Securities and

Exchange Commission ("SEC"). The results of operations for the three months ended March 31, 2012 are not necessarily indicative of the operating results for the full year.

The accompanying condensed consolidated financial statements have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The condensed consolidated financial statements of the Company include the accounts of all subsidiaries; significant intercompany accounts and transactions have been eliminated. Certain prior period amounts have been reclassified to conform to the current period presentation.

Variable Interest Entities – An entity is referred to as a variable interest entity ("VIE") if it meets at least one of the following criteria: (1) the entity has equity that is insufficient to permit the entity to finance its activities without additional subordinated financial support of other parties; or (2) as a group, the holders of the equity investment at risk lack (a) the power to direct the activities of an entity that most significantly impact the entity's economic performance; (b) the obligation to absorb the expected losses; or (c) the right to receive the expected residual returns; or (3) have disproportional voting rights and the entity's activities are conducted on behalf of the investor that has disproportionally few voting rights.

The Company consolidates a VIE when it has both the power to direct the activities that most significantly impact the economic performance of the VIE and a right to receive benefits or absorb losses of the entity that could be potentially significant to the VIE. The Company is required to reconsider its evaluation of whether to consolidate a VIE each reporting period, based upon changes in the facts and circumstances pertaining to the VIE.

Investment Securities Available for Sale – The Company's investment securities, where the fair value option has not been elected and which are reported at fair value with unrealized gains and losses reported in other comprehensive income ("OCI"), include residential mortgage-backed securities ("RMBS") that are issued by government sponsored enterprises ("GSE"), which, together with RMBS issued or guaranteed by government agencies, is referred to as "Agency RMBS," non-Agency RMBS, collateralized loan obligations ("CLOs") and multi-family commercial mortgage-backed securities ("CMBS"). Our investment securities are classified as available for sale securities. Realized gains and losses recorded on the sale of investment securities available for sale are based on the specific identification method and included in realized gain (loss) on sale of securities and related hedges in the condensed consolidated statements of operations. Purchase premiums or discounts on investment securities are amortized or accreted to interest income over the estimated life of the investment securities using the effective yield method. Adjustments to amortization are made for actual prepayment activity.

When the fair value of an investment security is less than its amortized cost at the balance sheet date, the security is considered impaired. The Company assesses its impaired securities on at least a quarterly basis, and designates such impairments as either "temporary" or "other-than-temporary." If the Company intends to sell an impaired security, or it is more likely than not that it will be required to sell the impaired security before its anticipated recovery, then it must recognize an other-than-temporary impairment through earnings equal to the entire difference between the investment's amortized cost and its fair value at the balance sheet date. If the Company does not expect to sell an other-than-temporarily impaired security, only the portion of the other-than-temporary impairment related to credit losses is recognized through earnings with the remainder recognized as a component of other comprehensive income (loss) on the condensed consolidated balance sheet. Impairments recognized through other comprehensive income (loss) do not impact earnings. Following the recognition of an other-than-temporary impairment through earnings, a new cost basis is established for the security, which may not be adjusted for subsequent recoveries in fair value through earnings. However, other-than-temporary impairments recognized through earnings may be accreted back to the amortized cost basis of the security on a prospective basis through interest income. The determination as to whether an other-than-temporary impairment exists and, if so, the amount considered other-than-temporarily impaired is subjective, as such determinations are based on both factual and subjective information available at the time of assessment. As a result, the timing and amount of other-than-temporary impairments constitute material estimates that are susceptible to significant change.

The Company's investment securities available for sale also includes its investment in a wholly owned account referred to as our Agency IO portfolio. These investments primarily include interest only and inverse interest only securities (collectively referred to as "IOs") that represent the right to the interest component of the cash flow from a pool of mortgage loans that are guaranteed or issued by a GSE or government agency. The Agency IO portfolio investments include derivative investments not designated as hedging instruments for accounting purposes, with unrealized gains and losses recognized through earnings in the condensed consolidated statements of operations. The Company has elected the fair value option for these investment securities which also measures unrealized gains and losses through earnings in the condensed consolidated statements of operations, as the Company believes this accounting treatment more accurately and consistently reflects their results of operations.

Residential Mortgage Loans Held in Securitization Trusts – Residential mortgage loans held in securitization trusts are certain adjustable rate mortgage ("ARM") loans transferred to New York Mortgage Trust 2005-1, New York Mortgage Trust 2005-2 and New York Mortgage Trust 2005-3 that have been securitized into sequentially rated classes of beneficial interests. The Company accounted for these securitization trusts as financings which are

consolidated into the financial statements. Residential mortgage loans held in securitization trusts are carried at their unpaid principal balances, net of unamortized premium or discount, unamortized loan origination costs and allowance for loan losses.

Interest income is accrued and recognized as revenue when earned according to the terms of the mortgage loans and when, in the opinion of management, it is collectible. The accrual of interest on loans is discontinued when, in management's opinion, the interest is not collectible in the normal course of business, but in no case when payment becomes greater than 90 days delinquent. Loans return to accrual status when principal and interest become current and are anticipated to be fully collectible.

Allowance for Loan Losses on Residential Mortgage Loans Held in Securitization Trusts – We establish an allowance for loan losses based on management's judgment and estimate of credit losses inherent in our portfolio of residential mortgage loans held in securitization trusts.

Estimation involves the consideration of various credit-related factors including but not limited to, macro-economic conditions, the current housing market conditions, loan-to-value ratios, delinquency status, historical credit loss severity rates, purchased mortgage insurance, the borrower's current economic condition and other factors deemed to warrant consideration. Additionally, we look at the balance of any delinquent loan and compare that to the current value of the collateralizing property. We utilize various home valuation methodologies including appraisals, broker pricing opinions ("BPOs"), internet-based property data services to review comparable properties in the same area or consult with a realtor in the property's area.

Comparing the current loan balance to the property value determines the current loan-to-value ("LTV") ratio of the loan. Generally, we estimate that a first lien loan on a property that goes into a foreclosure process and becomes real estate owned ("REO"), results in the property being disposed of at approximately 84% of the current value. This estimate is based on management's experience as well as realized severity rates since issuance of our securitizations. This base provision for a particular loan may be adjusted if we are aware of specific circumstances that may affect the outcome of the loss mitigation process for that loan. However, we predominantly use the base reserve number for our reserve. If real estate markets continue to decline, we may adjust our anticipated realization percentage.

Multi-Family Mortgage Loans Held in Securitization Trust – Multi-family mortgage loans held in securitization trust consist of a Freddie Mac Multi-Family Loan Securitization Series 2011-K03 (the "K-03 Series") that is backed by approximately 62 multi-family properties. On December 30, 2011, the Company had acquired 100% of the privately placed first loss security of the K-03 Series in the secondary market for approximately \$21.7 million. Based on a number of factors, including our acquisition on January 4, 2012 of a 7.5% ownership interest in RiverBanc, LLC ("RiverBanc"), an external manager to the Company, and certain servicing rights for the K-03 Series, we determined that we were the primary beneficiary of the K-03 Series and have consolidated the K-03 Series and related debt, interest income and expense in our financial statements as of January 4, 2012. The Company has elected the fair value option on the assets and liabilities held within the K-03 Series, which requires that changes in valuations in the assets and liabilities of the K-03 Series will be reflected in the Company's statement of operations.

Interest income is accrued and recognized as revenue when earned according to the terms of the mortgage loans and when, in the opinion of management, it is collectible. The accrual of interest on loans is discontinued when, in management's opinion, the interest is not collectible in the normal course of business, but in no case when payment becomes greater than 90 days delinquent. Loans return to accrual status when principal and interest become current and are anticipated to be fully collectible.

Allowance for Loan Losses on Multi-Family Mortgage Loans Held in Securitization Trust – We establish an allowance for loan losses based on management's judgment and estimate of credit losses inherent in our portfolio of multi-family mortgage loans held in securitization trust.

Mortgage Loans Held for Investment – Mortgage loans held for investment are stated at unpaid principal balance, adjusted for any unamortized premium or discount, deferred fees or expenses, net of valuation allowances. Interest income is accrued on the principal amount of the loan based on the loan's contractual interest rate. Amortization of premiums and discounts is recorded using the effective yield method. Interest income, amortization of premiums and discounts and prepayment fees are reported in interest income. Loans are considered to be impaired when it is probable that based upon current information and events, the Company will be unable to collect all amounts due under the contractual terms of the loan agreement. Based on the facts and circumstances of the individual loans being impaired, loan specific valuation allowances are established for the excess carrying value of the loan over either: (i) the present value of expected future cash flows discounted at the loan's original effective interest rate, (ii) the estimated fair value of the loan's underlying collateral if the loan is in the process of foreclosure or otherwise collateral dependent, or (iii) the loan's observable market price.

Investment in Limited Partnership – The Company has an equity investment in a limited partnership and a limited liability company. In circumstances where the Company has a non-controlling interest but either owns a significant interest or is able to exert influence over the affairs of the enterprise, the Company utilizes the equity method of accounting. Under the equity method of accounting, the initial investment is increased each period for additional capital contributions and a proportionate share of the entity's earnings and decreased for cash distributions and a proportionate share of the entity's losses. Where the Company is not required to fund an investment's losses, the Company does not continue to record its proportionate share of the entity's losses such that its investment balance would go below zero.

Management periodically reviews its investments for impairment based on projected cash flows from the entity over the holding period. When any impairment is identified, the investments are written down to recoverable amounts.

Cash and Cash Equivalents – Cash and cash equivalents include cash on hand, amounts due from banks and overnight deposits. The Company maintains its cash and cash equivalents in highly rated financial institutions, and at times these balances exceed insurable amounts.

Receivables and Other Assets – Receivables and other assets include restricted cash held by third parties of \$25.2 million which includes \$11.6 million held in our Agency IO portfolio to be used for trading purposes and \$13.4 million held by counterparties as collateral for hedging instruments at March 31, 2012.

Financing Arrangements, Portfolio Investments – Investment securities available for sale are typically financed with repurchase agreements, a form of collateralized borrowing which is secured by the securities on the balance sheet. Such financings are recorded at their outstanding principal balance with any accrued interest due recorded as an accrued expense.

Residential Collateralized Debt Obligations ("Residential CDOs") – We use Residential CDOs to permanently finance our residential mortgage loans held in securitization trusts. For financial reporting purposes, the ARM loans held as collateral are recorded as assets of the Company and the Residential CDO is recorded as the Company's debt. The Company has completed four securitizations since inception, the first three were accounted for as a permanent financing and the fourth was accounted for as a sale and accordingly, not included in the Company's financial statements.

Multi-Family Collateralized Debt Obligations ("Multi-Family CDOs") – We consolidated the K-03 Series and related debt, referred to as Multi-Family CDOs, in our financial statements. The Multi-Family CDOs permanently finance our multi-family mortgage loans held in securitization trust. For financial reporting purposes, the loans held as collateral are recorded as assets of the Company and the Multi-family CDO is recorded as the Company's debt. We refer to both the Residential CDOs and Multi-Family CDOs as CDOs in this report.

Subordinated Debentures – Subordinated debentures are trust preferred securities that are fully guaranteed by the Company with respect to distributions and amounts payable upon liquidation, redemption or repayment. These securities are classified as subordinated debentures in the liability section of the Company's condensed consolidated balance sheet.

Derivative Financial Instruments – The Company has developed risk management programs and processes, which include investments in derivative financial instruments designed to manage interest rate and prepayment risk associated with its securities investment activities.

Derivative instruments contain an element of risk in the event that the counterparties may be unable to meet the terms of such agreements. The Company minimizes its risk exposure by limiting the counterparties with which it enters into contracts to banks and investment banks who meet established credit and capital guidelines.

The Company invests in To-Be-Announced securities ("TBAs") through its Agency IO portfolio. TBAs are forward-settling purchases and sales of Agency RMBS where the underlying pools of mortgage loans are "To-Be-Announced." Pursuant to these TBA transactions, we agree to purchase or sell, for future settlement, Agency RMBS with certain principal and interest terms and certain types of underlying collateral, but the particular Agency RMBS to be delivered is not identified until shortly before the TBA settlement date. For TBA contracts that we have entered into, we have not asserted that physical settlement is probable, therefore we have not designated these forward commitments as hedging instruments. Realized and unrealized gains and losses associated with these TBAs are recognized through earnings in the condensed consolidated statements of operations.

For derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative instrument is reported as a component of OCI and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. The remaining gain or loss on the derivative instruments in excess of the cumulative change in the present value of future cash flows of the hedged item, if any, is recognized in current earnings during the period of change.

For instruments that are not designated or qualify as a cash flow hedge, such as our use of U.S. Treasury securities or Eurodollar futures contracts, any realized and unrealized gains and losses associated with these instruments are recognized through earnings in the condensed consolidated statement of operations.

Termination of Hedging Relationships – The Company employs risk management monitoring procedures to ensure that the designated hedging relationships are demonstrating, and are expected to continue to demonstrate, a high level of effectiveness. Hedge accounting is discontinued on a prospective basis if it is determined that the hedging relationship is no longer highly effective or expected to be highly effective in offsetting changes in fair value of the hedged item.

Additionally, the Company may elect to un-designate a hedge relationship during an interim period and re-designate upon the rebalancing of a hedge profile and the corresponding hedge relationship. When hedge accounting is discontinued, the Company continues to carry the derivative instruments at fair value with changes recorded in current earnings.

Revenue Recognition – Interest income on our investment securities and on our mortgage loans is accrued based on the outstanding principal balance and their contractual terms. Premiums and discounts associated with investment securities and mortgage loans at the time of purchase or origination are amortized into interest income over the life of such securities using the effective yield method. Adjustments to premium amortization are made for actual prepayment activity.

Interest income on our credit sensitive securities, such as our non-Agency RMBS and certain of our CMBS that were purchased at a discount to par value, is recognized based on the security's effective interest rate. The effective interest rate on these securities is based on management's estimate from each security of the projected cash flows, which are estimated based on the Company's assumptions related to fluctuations in interest rates, prepayment speeds and the timing and amount of credit losses. On at least a quarterly basis, the Company reviews and, if appropriate, makes adjustments to its cash flow projections based on input and analysis received from external sources, internal models, and its judgment about interest rates, prepayment rates, the timing and amount of credit losses, and other factors. Changes in cash flows from those originally projected, or from those estimated at the last evaluation, may result in a prospective change in the yield/interest income recognized on these securities.

Based on the projected cash flows from the Company's first loss CMBS POs purchased at a discount to par value, a portion of the purchase discount is designated as non-accretable purchase discount or credit reserve, which effectively mitigates the Company's risk of loss on the mortgages collateralizing such CMBS and is not expected to be accreted into interest income. The amount designated as a credit reserve may be adjusted over time, based on the actual performance of the security, its underlying collateral, actual and projected cash flow from such collateral, economic conditions and other factors. If the performance of a security with a credit reserve is more favorable than forecasted, a portion of the amount designated as credit reserve may be accreted into interest income over time. Conversely, if the performance of a security with a credit reserve is less favorable than forecasted, the amount designated as credit reserve may be increased, or impairment charges and write-downs of such securities to a new cost basis could result.

With respect to interest rate swaps that have not been designated as hedges, any net payments under, or fluctuations in the fair value of, such swaps will be recognized in current earnings.

Other Comprehensive Income (Loss) – Other comprehensive income (loss) is comprised primarily of income (loss) from changes in value of the Company's available for sale securities, and the impact of deferred gains or losses on changes in the fair value of derivative contracts hedging future cash flows.

Employee Benefits Plans – The Company sponsors a defined contribution plan (the "Plan") for all eligible domestic employees. The Plan qualifies as a deferred salary arrangement under Section 401(k) of the Internal Revenue Code. The Company made no contributions to the Plan for the three months ended March 31, 2012 and 2011.

Stock Based Compensation – Compensation expense for equity based awards and stock issued for services are recognized over the vesting period of such awards and services, based upon the fair value of the stock at the grant date.

Income Taxes – The Company operates so as to qualify as a REIT under the requirements of the Internal Revenue Code. Requirements for qualification as a REIT include various restrictions on ownership of the Company's stock, requirements concerning distribution of taxable income and certain restrictions on the nature of assets and sources of income. A REIT must distribute at least 90% of its taxable income to its stockholders of which 85% plus any undistributed amounts from the prior year must be distributed within the taxable year in order to avoid the imposition of an excise tax. Distribution of the remaining balance may extend until timely filing of the Company's tax return in the subsequent taxable year. Qualifying distributions of taxable income are deductible by a REIT in computing taxable income.

HC and NYMF are TRSs and therefore subject to federal and state income taxes. Accordingly, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax base upon the change in tax status. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and

liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Accounting Standards Codification Topic 740 Accounting for Income Taxes ("ASC 740") provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the financial statements. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. In situations involving uncertain tax positions related to income tax matters, we do not recognize benefits unless it is more likely than not that they will be sustained. ASC 740 was applied to all open taxable years as of the effective date. Management's determinations regarding ASC 740 may be subject to review and adjustment at a later date based on factors including, but not limited to, an ongoing analysis of tax laws, regulations and interpretations thereof. The Company will recognize interest and penalties, if any, related to uncertain tax positions as income tax expense.

Earnings Per Share – Basic earnings per share excludes dilution and is computed by dividing net income available to common stockholders by the weighted-average number of shares of common stock outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company.

A Summary of Recent Accounting Pronouncements Follows:

Transfers and Servicing (ASC 860)

In April 2011, the FASB issued ASU No. 2011-03, Transfers and Servicing (Topic 860): Reconsideration of Effective Control for Repurchase Agreements. ASU 2011-03 is intended to improve financial reporting of repurchase agreements ("repos") and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. In a typical repo transaction, an entity transfers financial assets to a counterparty in exchange for cash with an agreement for the counterparty to return the same or equivalent financial assets for a fixed price in the future. FASB Accounting Standards Codification ("Codification") Topic 860, Transfers and Servicing, prescribes when an entity may or may not recognize a sale upon the transfer of financial assets subject to repo agreements. That determination is based, in part, on whether the entity has maintained effective control over the transferred financial assets. The amendments to the Codification in this ASU are intended to improve the accounting for these transactions by removing from the assessment of effective control the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets. The guidance in the ASU is effective for the first interim or annual period beginning on or after December 15, 2011. The guidance should be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early adoption is not permitted. The adoption of ASU 2011-03 did not have an effect on our financial condition, results of operations and disclosures.

#### Fair Value Measurements (ASC 820)

In May 2011, the FASB issued ASU No. 2011-04, Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in US GAAP and International Financial Reporting Standards ("IFRS"). ASU 2011-04 represents the converged guidance of the FASB and the IASB (the "Boards") on fair value measurements. The collective efforts of the Boards and their staffs, reflected in ASU 2011-04, have resulted in common requirements for measuring fair value and for disclosing information about fair value measurements, including a consistent meaning of the term "fair value." The Boards have concluded the common requirements will result in greater comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and IFRS. The amendments in this ASU are required to be applied prospectively, and are effective for interim and annual periods beginning after December 15, 2011. The adoption of ASU 2011-04 did not affect our financial condition or results of operations but required us to add additional disclosures.

#### Balance Sheet (ASC 210)

In December 2011, the FASB issued ASU No. 2011-11, Disclosures about Offsetting Assets and Liabilities. The update requires new disclosures about balance sheet offsetting and related arrangements. For derivatives and financial assets and liabilities, the amendments require disclosure of gross asset and liability amounts, amounts offset on the balance sheet, and amounts subject to the offsetting requirements but not offset on the balance sheet. The guidance is effective January 1, 2013 and is to be applied retrospectively. The adoption of ASU 2011-11 will have an effect on our disclosures but we do not expect the adoption to have an effect on our financial condition or results of operations.

#### 2. Investment Securities Available For Sale

Investment securities available for sale consist of the following as of March 31, 2012 (dollar amounts in thousands):

	Amortized Costs	Unrealized Gains		Unrealized Losses		Carrying Value
Agency RMBS	\$ 136,956	\$ 2,521	\$	(8,337)	\$	131,140
CMBS	21,080	493		(632)		20,941
Non-Agency RMBS	4,548	_	_	(996)		3,552
CLOs	10,942	15,447		_	_	26,389
Total	\$ 173,526	\$ 18,461	\$	(9,965)	\$	182,022

Included in investment securities available for sale are our Agency IOs. Agency IOs are measured at fair value through earnings and consist of the following as of March 31, 2012 (dollar amounts in thousands):

	Amortized Costs	Unrealized Gains	Unrealized Losses	Carrying Value
Interest only securities included in Agency	Costs	Gams	Losses	varue
RMBS: Federal National Mortgage Association				
("Fannie Mae")	\$ 30,628	\$ 416	\$ (3,980)	\$ 27,064
Federal Home Loan Mortgage Corporation				
("Freddie Mac")	19,565	116	(2,262)	17,419
Government National Mortgage Association				
("Ginnie Mae")	23,784	438	(2,040)	22,182
Total	\$ 73,977	\$ 970	\$ (8,282)	\$ 66,665

Investment securities available for sale consist of the following as of December 31, 2011 (dollar amounts in thousands):

	Amortized		Unrealized		Unrealized		Carrying
	Costs		Gains		Losses		Value
Agency RMBS	\$ 139,639	\$	2,327	\$	(9,509)	\$	132,457
CMBS	42,221		128		(1,164)		41,185
Non-Agency RMBS	5,156		_	_	(1,211)		3,945
CLOs	10,262		12,493		_	_	22,755
Total	\$ 197,278	\$	14,948	\$	(11,884)	\$	200,342

Included in investment securities available for sale are our Agency IOs. Agency IOs are measured at fair value through earnings and consist of the following as of December 31, 2011 (dollar amounts in thousands):

	A	Amortized Costs	Unrealized Gains	Unrealized Losses	Carrying Value
Interest only securities included in Agency					
RMBS:					
Fannie Mae	\$	31,079	\$ 490	\$ (3,908)	\$ 27,661
Freddie Mac		19,477	142	(2,554)	17,065
Ginnie Mae		21,656	304	(3,004)	18,956
Total	\$	72,212	\$ 936	\$ (9,466)	\$ 63,682

During the three months ended March 31, 2012, the Company received total proceeds of approximately \$1.2 million, realizing approximately \$1.1 million of loss from the sale of investment securities available for sale. During the three months ended March 31, 2011, the Company received total proceeds of approximately \$7.0 million, realizing approximately \$2.2 million of profit before incentive fee to Harvest Capital Strategies LLC ("HCS"), from the sale of investment securities available for sale.

Actual maturities of our available for sale securities are generally shorter than stated contractual maturities (which range up to 30 years), as they are affected by the contractual lives of the underlying mortgages, periodic payments and prepayments of principal. As of March 31, 2012 and December 31, 2011, the weighted average life of the Company's available for sale securities portfolio was approximately 4.42 and 5.24 years.

The following tables set forth the stated reset periods of our investment securities available for sale at March 31, 2012 (dollar amounts in thousands):

		More than		
	Less than	6 Months	More than	
March 31, 2012	6 Months	To 24 Months	24 Months	Total
	Carrying	Carrying	Carrying	Carrying
	Value	Value	Value	Value
Agency RMBS	\$67,955	\$36,900	\$26,285	\$131,140

	Carrying	Gross	Carrying	Gross	Carrying	Gross
	Value	Unrealized	Value	Unrealized	Value	Unrealized

Edgar Filing: NEW YORK MORTGAGE TRUST INC - Form 10-Q

		Losses		Losses		Losses
Agency RMBS	\$13,718	\$43	<b>\$</b> —	<b>\$</b> —	\$13,718	\$43
CMBS	13,396	1,164			13,396	1,164
Non-Agency RMBS	_	_	3,944	1,211	3,944	1,211
Total	\$27,114	\$1,207	\$3,944	\$1,211	\$31,058	\$2,418

For the three months ended March 31, 2012, the Company did not have unrealized losses in investment securities that were deemed other-than-temporary. For the year ended December 31, 2011, the Company recognized a \$0.3 million other-than-temporary impairment through earnings.

#### 3. Residential Mortgage Loans Held in Securitization Trusts and Real Estate Owned

Residential mortgage loans held in securitization trusts (net) consist of the following at March 31, 2012 and December 31, 2011, respectively (dollar amounts in thousands):

	March 31,	December 31	Ι,
	2012	2011	
Mortgage loans principal amount	\$202,503	\$208,934	
Deferred origination costs – net	1,285	1,317	
Reserve for loan losses	(2,979	) (3,331	)
Total	\$200,809	\$206,920	

Allowance for Loan losses - The following table presents the activity in the Company's allowance for loan losses on residential mortgage loans held in securitization trusts for the three months ended March 31, 2012 and 2011, respectively (dollar amounts in thousands):

	Thi	Three Months Ended March 31,		
		2012		2011
Balance at beginning of period	\$	3,331	\$	2,589
Provisions for loan losses		210		425
Transfer to real estate owned		(435)		
Charge-offs		(127)		(434)
Balance at the end of period	\$	2,979	\$	2,580

On an ongoing basis, the Company evaluates the adequacy of its allowance for loan losses. The Company's allowance for loan losses at March 31, 2012 was \$3.0 million, representing 147 basis points of the outstanding principal balance of residential loans held in securitization trusts as of March 31, 2012, as compared to 159 basis points as of December 31, 2011. As part of the Company's allowance for loan adequacy analysis, management will assess an overall level of allowances while also assessing credit losses inherent in each non-performing residential mortgage loan held in securitization trusts. These estimates involve the consideration of various credit related factors, including but not limited to, current housing market conditions, current loan to value ratios, delinquency status, borrower's current economic and credit status and other relevant factors.

Real Estate Owned – The following table presents the activity in the Company's real estate owned held in residential securitization trusts for the three months ended March 31, 2012 and the year ended December 31, 2011, respectively (dollar amounts in thousands):

	March 31, 2012	December 2011	31,
Balance at beginning of period	\$454	\$740	
Write downs	(20	) (87	)
Transfer from mortgage loans held in securitization trusts	883	698	
Disposal	_	(897	)
Balance at the end of period	\$1,317	\$454	

Real estate owned held in residential securitization trusts are included in receivables and other assets on the balance sheet and write downs are included in provision for loan losses in the statement of operations for reporting purposes.

All of the Company's mortgage loans and real estate owned held in residential securitization trusts are pledged as collateral for the Residential CDOs issued by the Company. As of March 31, 2012 and December 31, 2011, the Company's net investment in the residential securitization trusts, which is the maximum amount of the Company's investment that is at risk to loss and represents the difference between the carrying amount of the loans and real estate owned held in residential securitization trusts and the amount of Residential CDOs outstanding, was \$7.4 million and \$7.6 million, respectively.

Delinquency Status of Our Residential Mortgage Loans Held in Securitization Trusts

As of March 31, 2012, we had 37 delinquent loans with an aggregate principal amount outstanding of approximately \$20.1 million categorized as Residential Mortgage Loans Held in Securitization Trusts (net). Of the \$20.1 million in delinquent loans, \$15.8 million, or 79%, are currently under some form of modified payment plan. The table below shows delinquencies in our portfolio of residential mortgage loans held in securitization trusts, including real estate owned through foreclosure (REO), as of March 31, 2012 (dollar amounts in thousands):

As of December 31, 2011, we had 38 delinquent loans with an aggregate principal amount outstanding of approximately \$21.0 million categorized as Residential Mortgage Loans Held in Securitization Trusts (net). Of the \$21.0 million in delinquent loans, \$18.0 million, or 86%, are currently under some form of modified payment plan. The table below shows delinquencies in our portfolio of residential mortgage loans held in securitization trusts, including real estate owned through foreclosure (REO), as of December 31, 2011 (dollar amounts in thousands):

#### December 31, 2011

#### 4. Multi-Family Mortgage Loans Held in Securitization Trust

On December 30, 2011, the Company had acquired 100% of the privately placed first loss security of the K-03 Series in the secondary market for approximately \$21.7 million, which was accounted for as an available for sale investment security at December 31, 2011. Based on a number of factors, including our acquisition on January 4, 2012 of a 7.5% ownership interest in RiverBanc, an external manager to the Company, and certain servicing rights for the K-03 Series, we determined that we were the primary beneficiary of the K-03 Series and have consolidated the K-03 Series and related debt, interest income and expense in our financial statements as of January 4, 2012. The Company does not have any claims to the assets (other than the security represented by our first loss piece) or obligations for the liabilities of the K-03 Series. The Company has elected the fair value option on the assets and liabilities held within the K-03 Series, which requires that changes in valuations in the assets and liabilities of the K-03 Series will be reflected in the Company's statement of operations. The Company recorded an unrealized gain of \$2.0 million on the multi-family loans and CDO debt within the securitization trust.

Net assets and liabilities of the K-03 Series, recorded at fair value at January 4, 2012 consists of the following (dollar amounts in thousands):

5,097	
(1,117,891	)
(5,097	)
521,682	
	(1,117,891 (5,097

The condensed balance sheet of the consolidated K-03 Series at March 31, 2012 is as follows (dollar amounts in thousands):

	March 31,
Assets	2012
Multi-family mortgage loans held in securitization trust	\$1,155,183
Receivables	5,097
Total Assets	\$1,160,280
Liabilities & Equity	
Multi-family collateralized debt obligations	\$1,130,851
Accrued expenses	5,097
Equity	24,332
Total Liabilities & Equity	\$1,160,280

The condensed statement of operations of the consolidated K-03 Series for the three months ended March 31, 2012 is as follows (dollar amounts in thousands):

	Thre	ee Months Ended
Statement of Operations	$\mathbf{N}$	Iarch 31, 2012
Interest income	\$	12,200
Interest expense		11,574
Net interest income		626
Unrealized gain on multi-family loans held in securitization trust		2,023
Net Income	\$	2,649

#### 5. Variable Interest Entities

The Company has evaluated its real estate debt investments to determine whether they are a VIE. As of March 31, 2012 and December 31, 2011, the Company identified interests in four entities which were determined to be VIEs. Based on management's analysis, the Company is not the primary beneficiary of two and three of the identified VIEs, at March 31, 2012 and December 31, 2011, respectively, since it (i) does not have the power to direct the activities that most significantly impact the VIE's economic performance; and (ii) does not have the obligation to absorb the losses of the VIE or the right to receive the benefits from the VIE, which could be significant to the VIE. Accordingly, these VIEs are not consolidated into the Company's financial statements as of March 31, 2012 and December 31, 2011.

As of March 31, 2012, the Company's two identified variable interests in a VIE that are not consolidated are investment securities with a fair value of \$20.9 million, which is our maximum exposure to loss. As of December 31, 2011, the Company's three identified variable interests in a VIE that are not consolidated are investment securities with a fair value of \$41.2 million, which is our maximum exposure to loss. The Company has accounted for these investment securities as available for sale securities at fair value, with unrealized gains and losses reported in OCI. The investment securities consist primarily of first loss principal only strips from Freddie Mac Multi-Family K-Series CMBS securitizations.

The Company has identified two entities that it has determined that it has a variable interest in a VIE and for which it is the primary beneficiary and has a controlling financial interest. One entity is an investment in a limited liability company that has provided a loan to a borrower that is secured by commercial property. The loan is for \$2.5 million and the limited liability company has been consolidated into the Company's financial statements. The loan was paid off on April 5, 2012. The other entity consists of multi-family mortgage loans held in a securitization trust that the

Company consolidated during the three months ended March 31, 2012. On December 30, 2011, the Company had acquired 100% of the privately placed first loss security of the K-03 Series in the secondary market for approximately \$21.7 million. Based on a number of factors, including our acquisition on January 4, 2012 of a 7.5% ownership interest in RiverBanc, an external manager to the Company, and certain servicing rights for the K-03 Series, we determined that we were the primary beneficiary of the K-03 Series and have consolidated the K-03 Series and related debt, interest income and expense in our financial statements as of January 4, 2012. The K-03 Series consists of multi-family mortgage loans held in a securitization trust and Multi-Family CDOs in the amount of \$1.2 billion and \$1.1 billion at March 31, 2012, respectively. The Company does not have any claims to the assets (other than the security represented by our first loss piece) or obligations to the liabilities of the K-03 Series. The Company's maximum exposure to loss from the K-03 Series is its carrying value of \$24.3 million as of March 31, 2012, which represents the Company's investment in the K-03 Series.

#### 6. Investment in Limited Partnership

The Company has a non-controlling, unconsolidated limited partnership interest in an entity that is accounted for using the equity method of accounting. Capital contributions, distributions, and profits and losses of the entity are allocated in accordance with the terms of the limited partnership agreement. The Company owns 100% of the equity of the limited partnership, but has no decision-making powers, and therefore does not consolidate the limited partnership. Our maximum exposure to loss in this variable interest entity is \$5.0 million and \$8.5 million at March 31, 2012 and December 31, 2011, respectively. During the third and fourth quarters of 2010, HC invested, in exchange for limited partnership interests, \$19.4 million in this limited partnership that was formed for the purpose of acquiring, servicing, selling or otherwise disposing of first-lien residential mortgage loans. The pool of mortgage loans was acquired by the partnership at a significant discount to the loans' unpaid principal balance.

At March 31, 2012 and December 31, 2011, the Company had an investment in this limited partnership of \$5.1 million and \$8.7 million, respectively. For the three months ended March 31, 2012 and 2011, the Company recognized income from the investment in limited partnership of \$0.4 million and \$0.8 million, respectively. For the three months ended March 31, 2012 and 2011, the Company received distributions from the investment in limited partnership of \$4.0 million and \$2.8 million, respectively.

The condensed balance sheets of the investment in limited partnership at March 31, 2012 and December 31, 2011, respectively, are as follows (dollar amounts in thousands):

March 31,	December 31,
2012	2011
\$1,083	\$1,154
3,993	6,918
97	661
\$5,173	\$8,733
\$141	\$206
5,032	8,527
\$5,173	\$8,733
	2012 \$1,083 3,993 97 \$5,173 \$141 5,032

The condensed statements of operations of the investment in limited partnership for the three months ended March 31, 2012 and 2011, respectively, are as follows (dollar amounts in thousands):

	Three Mont	Three Months Ended March 31,		
Statement of Operations	2012	2011		
Interest income	\$218	\$408		
Realized gain	273	606		
Total Income	491	1,014		
Other expenses	(121	) (230 )		
Net Income	\$370	\$784		

#### 7. Derivative Instruments and Hedging Activities

The Company enters into derivative instruments to manage its interest rate risk exposure. These derivative instruments include interest rate swaps and futures. The Company may also purchase or short TBAs and U.S. Treasury securities, purchase put or call options on U.S. Treasury futures or invest in other types of mortgage derivative securities.

The following table presents the fair value of derivative instruments held in our Agency IO portfolio that were not designated as hedging instruments and their location in the Company's condensed consolidated balance sheets at March 31, 2012 and December 31, 2011, respectively (dollar amounts in thousands):

Derivatives Not Designated		March 31,	December 31,
as Hedging Instruments	<b>Balance Sheet Location</b>	2012	2011
TBA securities	Derivative assets	\$ 244,057	\$ 207,891
Options on U.S. Treasury futures	Derivative assets	141	327
U.S. Treasury futures	Derivative assets	717	_
U.S. Treasury futures	Derivative liabilities	_	566
Eurodollar futures	Derivative liabilities	2,871	1,749

The tables below summarize the activity of derivative instruments not designated as hedges for the three months ended March 31, 2012 and 2011, respectively (dollar amounts in thousands):

Notional Amount For the Three Months Ended March 31, 2012

			Settlement,	
Derivatives Not Designated	December 31,		Expiration	
as Hedging Instruments	2011	Additions	or Exercise	March 31, 2012
TBA securities	\$202,000	\$295,000	\$(260,000	) \$237,000
U.S. Treasury futures	(92,800	) 242,200	(297,500	) (148,100 )
Short sales of Eurodollar futures	(2,422,000	) 277,000	(327,000	) (2,472,000 )
Options on U.S. Treasury futures	199,500	327,000	(391,500	) 135,000

Notional Amount For the Three Months Ended March 31, 2011

Derivatives Not Designated	December 31,		Settlement, Expiration	
as Hedging Instruments	2010	Additions	or Exercise	March 31, 2011
TBA securities	\$—	\$8,000	\$(2,000	) \$6,000
U.S. Treasury futures	<u> </u>	22,000	(99,000	) (77,000)

The TBAs in our Agency IO portfolio are accounted for at fair value with both realized and unrealized gains and losses included in other income (expense) in our condensed consolidated statements of operations. The use of TBAs exposes the Company to market value risk, as the market value of the securities that the Company is required to purchase pursuant to a TBA transaction may decline below the agreed-upon purchase price. Conversely, the market value of the securities that the Company is required to sell pursuant to a TBA transaction may increase above the agreed upon sale price. For the three months ended March 31, 2012, we recorded net realized gains of \$3.3 million and unrealized losses of \$2.3 million. For the three months ended March 31, 2011, we recorded realized losses of \$938 and unrealized losses of \$66,000. At March 31, 2012 our condensed consolidated balance sheet includes TBA-related liabilities of \$245.3 million included in payable for securities purchased. Open TBA purchases and sales involving the same counterparty, same underlying deliverable and the same settlement date are reflected in our consolidated financial statements on a net basis.

The Eurodollar futures in our Agency IO portfolio are accounted for at fair value with both realized and unrealized gains and losses included in other income (expense) in our condensed consolidated statements of operations. For the three months ended March 31, 2012, we recorded net realized losses of \$41,000 and net unrealized losses of \$1.1 million in our Eurodollar futures contracts. The Eurodollar futures consist of 2,472 contracts with expiration dates ranging between June 2012 and September 2014. There were no realized or unrealized gains or losses from Eurodollars for the same period in 2011.

The U.S. Treasury futures and options in our Agency IO portfolio are accounted for at fair value with both realized and unrealized gains and losses included in other income (expense) in our condensed consolidated statements of operations. For the three months ended March 31, 2012, we recorded net realized losses of \$1.1 million and unrealized gains of \$1.3 million. There were no realized or unrealized gains or losses from U.S. Treasury futures and options for the same period in 2011.

The following table presents the fair value of derivative instruments designated as hedging instruments and their location in the Company's condensed consolidated balance sheets at March 31, 2012 and December 31, 2011, respectively (dollar amounts in thousands):

Derivatives Designated		March 31,	December 31,	
as Hedging Instruments	<b>Balance Sheet Location</b>	2012	2011	
Interest Rate Swaps	Derivative liabilities	\$ 193	\$ 304	

The following table presents the impact of the Company's derivative instruments on the Company's accumulated other comprehensive income (loss) for the three months ended March 31, 2012 and 2011, respectively (dollar amounts in thousands):

	Three Months Ended March		31,	
Derivatives Designated as Hedging Instruments	2012	2011		
Accumulated other comprehensive income (loss) for derivative instruments:				
Balance at beginning of the period	\$(304	) \$(1,087	)	
Unrealized gain on interest rate swaps	111	260		
Balance at end of the period	\$(193	) \$(827	)	

The Company estimates that over the next 12 months, approximately \$0.2 million of the net unrealized losses on the interest rate swaps will be reclassified from accumulated other comprehensive income (loss) into earnings.

The following table details the impact of the Company's interest rate swaps included in interest expense for the three months ended March 31, 2012 and 2011, respectively (dollar amounts in thousands):

	Three Months	Three Months Ended March 31,		
	2012	2011		
Interest Rate Swaps:				
Interest expense-investment securities	\$128	\$280		

The Company's interest rate swaps are designated as cash flow hedges against the benchmark interest rate risk associated with its short term repurchase agreements. There were no costs incurred at the inception of our interest rate swaps, under which the Company agrees to pay a fixed rate of interest and receive a variable interest rate based on one month LIBOR, on the notional amount of the interest rate swaps. The Company's interest rate swap notional amounts are based on an amortizing schedule fixed at the start date of the transaction.

The Company documents its risk-management policies, including objectives and strategies, as they relate to its hedging activities, and upon entering into hedging transactions, documents the relationship between the hedging instrument and the hedged liability contemporaneously. The Company assesses, both at inception of a hedge and on an on-going basis, whether or not the hedge is "highly effective" when using the matched term basis.

The Company discontinues hedge accounting on a prospective basis and recognizes changes in the fair value through earnings when: (i) it is determined that the derivative is no longer effective in offsetting cash flows of a hedged item (including forecasted transactions); (ii) it is no longer probable that the forecasted transaction will occur; or (iii) it is determined that designating the derivative as a hedge is no longer appropriate. The Company's derivative instruments are carried on the Company's balance sheet at fair value, as assets, if their fair value is positive, or as liabilities, if their fair value is negative. For the Company's derivative instruments that are designated as "cash flow hedges," changes in their fair value are recorded in accumulated other comprehensive income (loss), provided that the hedges are effective. A change in fair value for any ineffective amount of the Company's derivative instruments would be

recognized in earnings. The Company has not recognized any change in the value of its existing derivative instruments designated as cash flow hedges through earnings as a result of ineffectiveness of any of its hedges.

The following table presents information about the Company's interest rate swaps as of March 31, 2012 and December 31, 2011, respectively (dollar amounts in thousands):

	March 31, 2012		Decem	ber 31, 2011	
		Weighted		Weighted	
		Average		Average	
	Notional	Fixed Pay	Notional	Fixed Pay	
Maturity (1)	Amount	Interest Rate	Amount	Interest Rate	
Within 30 Days	\$130	2.93	% \$14,930	3.02	%
Over 30 days to 3 months	250	2.93	260	2.93	
Over 3 months to 6 months	370	2.93	380	2.93	
Over 6 months to 12 months	8,820	2.93	810	2.93	
Over 12 months to 24 months	_		8,380	2.93	
Total	\$9,570	2.93	% \$24,760	2.99	%

(1) The Company enters into scheduled amortizing interest rate swap transactions whereby the Company pays a fixed rate of interest and receives one month LIBOR.

Interest Rate Swaps, Futures Contracts and TBAs - The use of interest rate swaps ("Swaps") exposes the Company to counterparty credit risks in the event of a default by a Swap counterparty. If a counterparty defaults under the applicable Swap agreement, the Company may be unable to collect payments to which it is entitled under its Swap agreements, and may have difficulty collecting the assets it pledged as collateral against such Swaps. The Company currently has in place with all outstanding Swap counterparties bi-lateral margin agreements thereby requiring a party to post collateral to the Company for any valuation deficit. This arrangement is intended to limit the Company's exposure to losses in the event of a counterparty default.

The Company is required to pledge assets under a bi-lateral margin arrangement, including either cash or Agency RMBS, as collateral for its interest rate swaps, futures contracts and TBAs, whose collateral requirements vary by counterparty and change over time based on the market value, notional amount, and remaining term of the agreement. In the event the Company is unable to meet a margin call under one of its agreements, thereby causing an event of default or triggering an early termination event under one of its agreements, the counterparty to such agreement may have the option to terminate all of such counterparty's outstanding transactions with the Company. In addition, under this scenario, any close-out amount due to the counterparty upon termination of the counterparty's transactions would be immediately payable by the Company pursuant to the applicable agreement. The Company believes it was in compliance with all margin requirements under its agreements as of March 31, 2012 and December 31, 2011. The Company had \$13.4 million and \$9.1 million of restricted cash related to margin posted for its agreements as of March 31, 2012 and December 31, 2011, respectively. The restricted cash held by third parties is included in receivables and other assets in the accompanying condensed consolidated balance sheets.

#### 8. Financing Arrangements, Portfolio Investments

The Company has entered into repurchase agreements with third party financial institutions to finance its investment portfolio. The repurchase agreements are short-term borrowings that bear interest rates typically based on a spread to LIBOR, and are secured by the securities which they finance. At March 31, 2012, the Company had repurchase agreements with an outstanding balance of \$118.4 million and a weighted average interest rate of 1.30%. As of December 31, 2011, the Company had repurchase agreements with an outstanding balance of \$112.7 million and a weighted average interest rate of 0.71%. At March 31, 2012 and December 31, 2011, securities pledged by the Company as collateral for repurchase agreements had estimated fair values of \$145.2 million and \$129.9 million, respectively. All outstanding borrowings under our repurchase agreements mature within 30 days. As of March 31, 2012, the average days to maturity for all repurchase agreements are 18 days.

The follow table summarizes outstanding repurchase agreement borrowings secured by portfolio investments as of March 31, 2012 and December 31, 2011, respectively (dollar amounts in thousands):

#### Repurchase Agreements by Counterparty

	March 31,	December 31,
Counterparty Name	2012	2011
Cantor Fitzgerald, L.P.	\$11,460	\$9,225
Credit Suisse First Boston LLC	10,420	11,147
Jefferies & Company, Inc.	28,382	18,380
JPMorgan Chase & Co.	45,344	49,226
South Street Securities LLC	22,779	24,696
Total Financing Arrangements, Portfolio Investments	\$118,385	\$112,674

As of March 31, 2012, the outstanding balance under our repurchase agreements was funded at an advance rate of 84% that implies an average haircut of 16%. The weighted average "haircut" related to our repurchase agreement financing for our other Agency RMBS, Agency IOs, CLOs and CMBS was approximately 6%, 25%, 35% and 20%, respectively, for a total weighted average "haircut" of 16%. The amount at risk for Credit Suisse First Boston LLC, South Street Securities LLC, Jefferies & Company, Inc., Cantor Fitzgerald, L.P., and JPMorgan Chase & Co. are \$0.8 million, \$1.0 million, \$5.8 million, \$5.8 million and \$13.4 million, respectively.

In the event we are unable to obtain sufficient short-term financing through repurchase agreements or otherwise, or our lenders start to require additional collateral, we may have to liquidate our investment securities at a disadvantageous time, which could result in losses. Any losses resulting from the disposition of our investment securities in this manner could have a material adverse effect on our operating results and net profitability.

As of March 31, 2012, the Company had \$8.9 million in cash and \$36.9 million in unencumbered investment securities to meet additional haircut or market valuation requirements, including \$17.0 million of RMBS, of which \$13.4 million are Agency RMBS. The \$8.9 million of cash and the \$17.0 million in RMBS (which, collectively, represents 22% of our financing arrangements, portfolio investments) are liquid and could be monetized to pay down or collateralize the liability immediately. There is also an additional \$11.6 million held in overnight deposits in our Agency IO portfolio included in restricted cash that is available to meet margin calls as it relates to our Agency IO portfolio repurchase agreements.

#### 9. Residential Collateralized Debt Obligations

The Company's Residential CDOs, which are recorded as liabilities on the Company's balance sheet, are secured by ARM loans pledged as collateral, which are recorded as assets of the Company. As of March 31, 2012 and December 31, 2011, the Company had Residential CDOs outstanding of \$194.8 million and \$199.8 million, respectively. As of March 31, 2012 and December 31, 2011, the current weighted average interest rate on these CDOs was 0.62% and 0.68%, respectively. The Residential CDOs are collateralized by ARM loans with a principal balance of \$202.5 million and \$208.9 million at March 31, 2012 and December 31, 2011, respectively. The Company retained the owner trust certificates, or residual interest for three securitizations, and, as of March 31, 2012 and December 31, 2011, had a net investment in the residential securitizations trusts of \$7.4 million and \$7.6 million, respectively.
