ACCENTURE PLC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)

(Unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited interim Consolidated Financial Statements of Accenture plc and its controlled subsidiary companies (collectively, the “Company”) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) for quarterly reports on Form 10-Q and do not include all of the information and note disclosures required by U.S. generally accepted accounting principles (“U.S. GAAP”) for complete financial statements. These Consolidated Financial Statements should therefore be read in conjunction with the Consolidated Financial Statements and Notes thereto for the fiscal year ended August 31, 2013 included in the Company’s Annual Report on Form 10-K filed with the SEC on October 29, 2013.

The accompanying unaudited interim Consolidated Financial Statements have been prepared in accordance with U.S. GAAP, which requires management to make estimates and assumptions that affect amounts reported in the Consolidated Financial Statements and accompanying disclosures. Although these estimates are based on management’s best knowledge of current events and actions that the Company may undertake in the future, actual results may differ from those estimates. The Consolidated Financial Statements reflect all adjustments of a normal, recurring nature that are, in the opinion of management, necessary for a fair presentation of results for these interim periods. The results of operations for the three months ended November 30, 2013 are not necessarily indicative of the results that may be expected for the fiscal year ending August 31, 2014.

Certain amounts that were reported in the previous year have been reclassified to conform to the current-period presentation.

Allowances for Client Receivables and Unbilled Services

As of November 30, 2013 and August 31, 2013, total allowances recorded for client receivables and unbilled services were \$87,825 and \$91,716, respectively.

Accumulated Depreciation

As of November 30, 2013 and August 31, 2013, total accumulated depreciation was \$1,708,458 and \$1,608,211, respectively.

Recently Adopted Accounting Pronouncements

In September 2013, the Company adopted guidance issued by the Financial Accounting Standards Board (“FASB”), which requires enhanced disclosures about certain financial instruments and derivative instruments that are offset in the Consolidated Balance Sheets or that are subject to enforceable master netting arrangements. The guidance also requires the disclosure of the gross amounts subject to rights of offset, amounts of offset and the related net exposure. The adoption of this guidance did not have a material impact on the Consolidated Financial Statements. For additional information related to the right of offset, see Note 7 (Derivative Financial Instruments) to these Consolidated Financial Statements.

In August 2013, the Company adopted guidance issued by the FASB which requires enhanced disclosures in the notes to the consolidated financial statements to present separately, by item, reclassifications out of accumulated other comprehensive income (loss). The adoption of this guidance did not have a material impact on the Consolidated Financial Statements. For additional information related to the reclassifications out of accumulated other comprehensive income (loss), see Note 4 (Accumulated Other Comprehensive Loss) to these Consolidated Financial Statements.

Table of Contents

ACCENTURE PLC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)

(Unaudited)

2. EARNINGS PER SHARE

Basic and diluted earnings per share were calculated as follows:

	Three Months Ended November 30,	
	2013	2012
Basic Earnings per share		
Net income attributable to Accenture plc	\$751,846	\$698,817
Basic weighted average Class A ordinary shares	636,695,545	639,659,238
Basic earnings per share	\$1.18	\$1.09
Diluted Earnings per share		
Net income attributable to Accenture plc	\$751,846	\$698,817
Net income attributable to noncontrolling interests in Accenture SCA and Accenture Canada Holdings Inc. (1)	49,098	58,955
Net income for diluted earnings per share calculation	\$800,944	\$757,772
Basic weighted average Class A ordinary shares	636,695,545	639,659,238
Class A ordinary shares issuable upon redemption/exchange of noncontrolling interests (1)	41,591,480	53,972,850
Diluted effect of employee compensation related to Class A ordinary shares (2)	19,469,519	22,962,260
Diluted effect of share purchase plans related to Class A ordinary shares	218,306	297,699
Diluted weighted average Class A ordinary shares (2)	697,974,850	716,892,047
Diluted earnings per share (2)	\$1.15	\$1.06

Diluted earnings per share assumes the redemption of all Accenture SCA Class I common shares owned by holders of noncontrolling interests and the exchange of all Accenture Canada Holdings Inc. exchangeable shares for

(1) Accenture plc Class A ordinary shares on a one-for-one basis. The income effect does not take into account “Net income attributable to noncontrolling interests — other,” since those shares are not redeemable or exchangeable for Accenture plc Class A ordinary shares.

(2) Diluted weighted average Accenture plc Class A ordinary shares and earnings per share amounts for the three months ended November 30, 2012 have been restated to reflect the impact of the issuance of additional restricted share units to holders of restricted share units in connection with the payments of cash dividends during the first quarter of fiscal 2014. This did not result in a change to previously reported Diluted earnings per share.

3. INCOME TAXES

Effective Tax Rate

The Company’s effective tax rates for the three months ended November 30, 2013 and 2012 were 25.1% and 26.8%, respectively. The lower effective tax rate for the three months ended November 30, 2013 compared to the three months ended November 30, 2012 was due to lower additions to tax reserves and benefits related to the release of reorganization liabilities, partially offset by lower benefits related to final determinations.

(Unaudited)

5. BUSINESS COMBINATIONS AND GOODWILL

During the three months ended November 30, 2013, the Company completed several individually immaterial acquisitions for total consideration of \$137,387, net of cash acquired. These acquisitions were completed primarily to expand the Company's products and services offerings. In connection with these acquisitions, the Company recorded goodwill of \$101,296, which was allocated among the reportable operating segments, and intangible assets of \$37,700, primarily related to customer relationships, customer backlog and technology related assets. Goodwill also included immaterial adjustments related to prior period acquisitions and is primarily deductible for U.S. federal income tax purposes. The intangible assets are being amortized over one to twelve years. The pro forma effects of these acquisitions on the Company's operations were not material.

The changes in the carrying amount of goodwill by reportable operating segment were as follows:

	August 31, 2013	Additions/ Adjustments	Foreign Currency Translation	November 30, 2013
Communications, Media & Technology	\$234,444	\$(938)) \$4,159	\$237,665
Financial Services	582,649	35,189	3,613	621,451
Health & Public Service	295,044	42,091	1,133	338,268
Products	617,008	19,980	5,716	642,704
Resources	89,441	(11)) 1,602	91,032
Total	\$1,818,586	\$96,311	\$16,223	\$1,931,120

Subsequent Event

On December 5, 2013, the Company acquired Procurian Inc., a provider of procurement business process solutions, for \$375,000. This acquisition enhances Accenture's capabilities in procurement business process outsourcing across a range of industries. At the date of issuance of the financial statements, the initial business combination accounting was not complete for this acquisition.

6. MATERIAL TRANSACTIONS AFFECTING SHAREHOLDERS' EQUITY

Dividends

The Company's dividend activity during the three months ended November 30, 2013 was as follows:

Dividend Payment Date	Dividend Per Share	Accenture plc Class A Ordinary Shares		Accenture SCA Class I Common Shares and Accenture Canada Holdings Inc. Exchangeable Shares		Total Cash Outlay
		Record Date	Cash Outlay	Record Date	Cash Outlay	
November 15, 2013	\$0.93	October 11, 2013	\$591,380	October 8, 2013	\$38,854	\$630,234

The payment of the cash dividends also resulted in the issuance of additional restricted share units to holders of restricted share units. Diluted weighted average Accenture plc Class A ordinary share amounts have been restated for the three months ended November 30, 2012 to reflect this issuance. For additional information, see Note 2 (Earnings Per Share).

7. DERIVATIVE FINANCIAL INSTRUMENTS

In the normal course of business, the Company uses derivative financial instruments to manage foreign currency exchange rate risk. The Company's derivative financial instruments consist of deliverable and non-deliverable foreign currency forward contracts.

Cash Flow Hedges

For a cash flow hedge, the effective portion of the change in estimated fair value of a hedging instrument is recorded in Accumulated other comprehensive loss as a separate component of Shareholders' Equity and is reclassified into Cost of services in the Consolidated Income Statements during the period in which the hedged transaction is recognized. The amounts related to derivatives designated as cash flow hedges that were reclassified into Cost of services were a net loss of \$36,131 and \$10,501 for the three months ended November 30, 2013 and 2012, respectively. The ineffective portion of the change in fair value of a cash flow hedge is recognized immediately in Other expense, net in the Consolidated Income Statements and, for the three months ended November 30, 2013, was not material. In addition, the Company did not discontinue any cash flow hedges during the three months ended November 30, 2013. As of November 30, 2013, \$(121,295) of the amounts related to derivatives designated as cash flow hedges and recorded in Accumulated other comprehensive loss is expected to be reclassified into Cost of services in the next 12 months.

Other Derivatives

Realized gains or losses and changes in the estimated fair value of foreign currency forward contracts that have not been designated as hedges were a net gain of \$87,043 and \$36,687 for the three months ended November 30, 2013 and 2012, respectively. Gains and losses on these contracts are recorded in Other expense, net in the Consolidated Income Statements and are offset by gains and losses on the related hedged items.

Fair Value of Derivative Instruments

The notional and fair values of all derivative instruments were as follows:

	November 30, 2013	August 31, 2013
Assets		
Cash Flow Hedges		
Other current assets	\$ 159	\$—
Other non-current assets	1,156	—
Other Derivatives		
Other current assets	37,789	4,805
Total assets	\$39,104	\$4,805
Liabilities		
Cash Flow Hedges		
Other accrued liabilities	\$121,454	\$187,525
Other non-current liabilities	102,058	159,155
Other Derivatives		
Other accrued liabilities	18,155	72,017
Total liabilities	\$241,667	\$418,697
Total fair value	\$(202,563)	\$(413,892)
Total notional value	\$6,210,850	\$5,499,224

Table of Contents

ACCENTURE PLC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (continued)

(In thousands of U.S. dollars, except share and per share amounts or as otherwise disclosed)

(Unaudited)

The Company utilizes standard counterparty master agreements containing provisions for the netting of certain foreign currency transaction obligations and for set-off of certain obligations in the event of an insolvency of one of the parties to the transaction. In the Consolidated Balance Sheets, the Company records derivative assets and liabilities at gross fair value. The potential effect of netting derivative assets against liabilities under the counterparty master agreements was as follows:

	November 30, 2013	August 31, 2013
Net derivative assets	\$28,367	\$1,317
Net derivative liabilities	230,930	415,209
Total fair value	\$(202,563)	\$(413,892)

8. COMMITMENTS AND CONTINGENCIES

Commitments

The Company has the right to purchase or may also be required to purchase substantially all of the remaining outstanding shares of its Avanade Inc. subsidiary (“Avanade”) not owned by the Company at fair value if certain events occur. Certain holders of Avanade common stock and options to purchase the stock have put rights that, under certain circumstances and conditions, would require Avanade to redeem shares of its stock at fair value. As of November 30, 2013 and August 31, 2013, the Company has reflected the fair value of \$92,984 and \$94,310, respectively, related to Avanade’s redeemable common stock and the intrinsic value of the options on redeemable common stock in Other accrued liabilities in the Consolidated Balance Sheets.

Indemnifications and Guarantees

In the normal course of business and in conjunction with certain client engagements, the Company has entered into contractual arrangements through which it may be obligated to indemnify clients with respect to certain matters. These arrangements with clients can include provisions whereby the Company has joint and several liability in relation to the performance of certain contractual obligations along with third parties also providing services and products for a specific project. In addition, the Company’s consulting arrangements may include warranty provisions that the Company’s solutions will substantially operate in accordance with the applicable system requirements. Indemnification provisions are also included in arrangements under which the Company agrees to hold the indemnified party harmless with respect to third-party claims related to such matters as title to assets sold or licensed or certain intellectual property rights.

Typically, the Company has contractual recourse against third parties for certain payments made by the Company in connection with arrangements where third-party nonperformance has given rise to the client’s claim. Payments by the Company under any of the arrangements described above are generally conditioned on the client making a claim, which may be disputed by the Company typically under dispute resolution procedures specified in the particular arrangement. The limitations of liability under these arrangements may be expressly limited or may not be expressly specified in terms of time and/or amount.

As of November 30, 2013 and August 31, 2013, the Company’s aggregate potential liability to its clients for expressly limited guarantees involving the performance of third parties was approximately \$709,000 and \$748,000, respectively, of which all but approximately \$16,000 and \$15,000, respectively, may be recovered from the other third parties if the Company is obligated to make payments to the indemnified parties that are the consequence of a performance default by the other third parties. For arrangements with unspecified limitations, the Company cannot reasonably estimate the aggregate maximum potential liability, as it is inherently difficult to predict the maximum potential amount of such payments, due to the conditional nature and unique facts of each particular arrangement.

To date, the Company has not been required to make any significant payment under any of the arrangements described above. The Company has assessed the current status of performance/payment risk related to arrangements with limited guarantees, warranty obligations, unspecified limitations and/or indemnification provisions and believes that any potential payments would be immaterial to the Consolidated Financial Statements, as a whole.

Legal Contingencies

As of November 30, 2013, the Company or its present personnel had been named as a defendant in various litigation matters. The Company and/or its personnel also from time to time are involved in investigations by various regulatory or legal authorities concerning matters arising in the course of its business around the world. Based on the present status of these matters, management believes the range of reasonably possible losses in addition to amounts accrued, net of insurance recoveries, will not have a material effect on the Company's results of operations or financial condition.

9. SEGMENT REPORTING

The Company's reportable operating segments are the five operating groups, which are Communications, Media & Technology; Financial Services; Health & Public Service; Products; and Resources. Information regarding the Company's reportable operating segments is as follows:

	Three Months Ended November 30,			
	2013		2012	
	Net	Operating	Net	Operating
	Revenues	Income	Revenues	Income
Communications, Media & Technology	\$1,410,983	\$153,368	\$1,458,786	\$183,048

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our Consolidated Financial Statements and related Notes included elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended August 31, 2013, and with the information under the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended August 31, 2013.

We use the terms “Accenture,” “we,” the “Company,” “our” and “us” in this report to refer to Accenture plc and its subsidiaries. All references to years, unless otherwise noted, refer to our fiscal year, which ends on August 31. For example, a reference to “fiscal 2014” means the 12-month period that will end on August 31, 2014. All references to quarters, unless otherwise noted, refer to the quarters of our fiscal year.

We use the term “in local currency” so that certain financial results may be viewed without the impact of foreign currency exchange rate fluctuations, thereby facilitating period-to-period comparisons of business performance. Financial results “in local currency” are calculated by restating current period activity into U.S. dollars using the comparable prior year period’s foreign currency exchange rates. This approach is used for all results where the functional currency is not the U.S. dollar.

Disclosure Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 (the “Exchange Act”) relating to our operations, results of operations and other matters that are based on our current expectations, estimates, assumptions and projections. Words such as “may,” “will,” “should,” “likely,” “anticipates,” “expects,” “intends,” “plans,” “projects,” “believes,” “estimates,” “positioned,” “outlook” and similar expressions are used to identify these forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Forward-looking statements are based upon assumptions as to future events that may not prove to be accurate. Actual outcomes and results may differ materially from what is expressed or forecast in these forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include, but are not limited to:

• Our results of operations could be adversely affected by volatile, negative or uncertain economic conditions and the effects of these conditions on our clients’ businesses and levels of business activity.

• Our business depends on generating and maintaining ongoing, profitable client demand for our services and solutions, and a significant reduction in such demand could materially affect our results of operations.

If we are unable to keep our supply of skills and resources in balance with client demand around the world and attract and retain professionals with strong leadership skills, our business, the utilization rate of our professionals and our results of operations may be materially adversely affected.

• The markets in which we compete are highly competitive, and we might not be able to compete effectively.

• We could have liability or our reputation could be damaged if we fail to protect client and/or Accenture data or information systems as obligated by law or contract or if our information systems are breached.

• Our results of operations and ability to grow could be materially negatively affected if we cannot adapt and expand our services and solutions in response to ongoing changes in technology and offerings by new entrants.

• As a result of our geographically diverse operations and our growth strategy to continue geographic expansion, we are more susceptible to certain risks.

• Our Global Delivery Network is increasingly concentrated in India and the Philippines, which may expose us to operational risks.

• Our results of operations could materially suffer if we are not able to obtain sufficient pricing to enable us to meet our profitability expectations.

If our pricing estimates do not accurately anticipate the cost, risk and complexity of performing our work or third parties upon whom we rely do not meet their commitments, then our contracts could have delivery inefficiencies and be unprofitable.

Our work with government clients exposes us to additional risks inherent in the government contracting environment. Our business could be materially adversely affected if we incur legal liability.

Table of Contents

Our results of operations could be materially adversely affected by fluctuations in foreign currency exchange rates. Our alliance relationships may not be successful or may change, which could adversely affect our results of operations.

Outsourcing services and the continued expansion of our other services and solutions into new areas subject us to different operational risks than our consulting and systems integration services.

Our services or solutions could infringe upon the intellectual property rights of others or we might lose our ability to utilize the intellectual property of others.

If we are unable to protect our intellectual property rights from unauthorized use or infringement by third parties, our business could be adversely affected.

Our ability to attract and retain business and employees may depend on our reputation in the marketplace.

We might not be successful at identifying, acquiring or integrating businesses or entering into joint ventures.

Our profitability could suffer if our cost-management strategies are unsuccessful, and we may not be able to improve our profitability through improvements to cost-management to the degree we have done in the past.

Many of our contracts include payments that link some of our fees to the attainment of performance or business targets and/or require us to meet specific service levels. This could increase the variability of our revenues and impact our margins.

Changes in our level of taxes, and audits, investigations and tax proceedings, or changes in our treatment as an Irish company, could have a material adverse effect on our results of operations and financial condition.

If we are unable to manage the organizational challenges associated with our size, we might be unable to achieve our business objectives.

- If we are unable to collect our receivables or unbilled services, our results of operations, financial condition and cash flows could be adversely affected.

Our share price and results of operations could fluctuate and be difficult to predict.

Our results of operations and share price could be adversely affected if we are unable to maintain effective internal controls.

We make estimates and assumptions in connection with the preparation of our consolidated financial statements, and any changes to those estimates and assumptions could adversely affect our financial results.

We are incorporated in Ireland and a significant portion of our assets are located outside the United States. As a result, it might not be possible for shareholders to enforce civil liability provisions of the federal or state securities laws of the United States. We may also be subject to criticism and negative publicity related to our incorporation in Ireland.

Irish law differs from the laws in effect in the United States and might afford less protection to shareholders.

We might be unable to access additional capital on favorable terms or at all. If we raise equity capital, it may dilute our shareholders' ownership interest in us.

For a more detailed discussion of these factors, see the information under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended August 31, 2013. We undertake no obligation to update or revise any forward-looking statements.

Table of Contents

Overview

Revenues are driven by the ability of our executives to secure new contracts and to deliver solutions and services that add value relevant to our clients' current needs and challenges. The level of revenues we achieve is based on our ability to deliver market-leading service offerings and to deploy skilled teams of professionals quickly and on a global basis. Our results of operations are affected by economic conditions, including macroeconomic conditions, credit market conditions and levels of business confidence. There continues to be volatility and economic and geopolitical uncertainty in markets around the world, as well as lower levels of spending on some of the types of services we provide in many of the industries we serve, all of which are impacting, and we expect will continue to impact, our business. We continue to monitor the impact of this volatility and uncertainty and seek to manage our costs in order to respond to changing conditions.

Revenues before reimbursements ("net revenues") for the first quarter of fiscal 2014 were \$7.36 billion, compared with \$7.22 billion for the first quarter of fiscal 2013, an increase of 2% in U.S. dollars and 3% in local currency. During the first quarter of fiscal 2014, Products, Health & Public Service, Financial Services and Resources experienced year-over-year revenue growth in local currency, while Communications, Media & Technology experienced a slight year-over-year revenue decline in local currency. Revenue growth in local currency was solid in outsourcing, while consulting revenues were flat during the first quarter of fiscal 2014. Clients continue to request a higher volume of outsourcing services, place a greater emphasis on cost savings initiatives and manage the pace and level of spending on existing consulting and outsourcing contracts.

In our consulting business, net revenues for the first quarter of fiscal 2014 were \$3.94 billion, compared with \$3.96 billion for the first quarter of fiscal 2013, a decrease of 1% in U.S. dollars and flat in local currency. Clients continued to be focused on initiatives designed to deliver cost savings and operational efficiency, as well as projects to integrate their global operations and grow and transform their businesses. We continue to experience growing demand for our services in emerging technologies, including digital services (digital marketing, analytics and mobility) and cloud computing. Compared to fiscal 2013, we continued to provide a greater proportion of systems integration consulting through use of lower-cost resources in our Global Delivery Network, and we expect this trend to continue. The business environment continues to be competitive and, in some areas, we are experiencing pricing pressures.

In our outsourcing business, net revenues for the first quarter of fiscal 2014 were \$3.42 billion, compared with \$3.26 billion for the first quarter of fiscal 2013, an increase of 5% in U.S. dollars and 6% in local currency. Clients continue to be focused on transforming their operations to improve effectiveness and save costs. Compared to fiscal 2013, we provided a greater proportion of application outsourcing through use of lower-cost resources in our Global Delivery Network.

As we are a global company, our revenues are denominated in multiple currencies and may be significantly affected by currency exchange rate fluctuations. If the U.S. dollar weakens against other currencies, resulting in favorable currency translation, our revenues and revenue growth in U.S. dollars may be higher. If the U.S. dollar strengthens against other currencies, resulting in unfavorable currency translation, our revenues and revenue growth in U.S. dollars may be lower. When compared to the first quarter of fiscal 2013, the U.S. dollar strengthened against many currencies during the first quarter of fiscal 2014. This resulted in unfavorable currency translation and U.S. dollar revenue growth that was 1% lower than our revenue growth in local currency for the first quarter of fiscal 2014. Assuming that exchange rates stay within recent ranges for the remainder of fiscal 2014, we estimate the foreign-exchange impact to our full fiscal 2014 revenue growth will be approximately 0.5% lower growth in U.S. dollars than our growth in local currency.

The primary categories of operating expenses include cost of services, sales and marketing and general and administrative costs. Cost of services is primarily driven by the cost of client-service personnel, which consists mainly of compensation, subcontractor and other personnel costs, and non-payroll outsourcing costs. Cost of services as a percentage of revenues is driven by the prices we obtain for our solutions and services, the utilization of our client-service personnel and the level of non-payroll costs associated with outsourcing contracts. Utilization primarily represents the percentage of our consulting professionals' time spent on billable work. Utilization for the first quarter of fiscal 2014 was approximately 87%, down from 88% for the fourth quarter of fiscal 2013, and within our target

range. This level of utilization reflects continued strong demand for resources in our Global Delivery Network and in most countries. We continue to hire to meet current and projected future demand.

We proactively plan and manage the size and composition of our workforce and take actions as needed to address changes in the anticipated demand for our services, given that compensation costs are the most significant portion of our operating expenses. Based on current and projected future demand, we have increased our headcount, the majority of which serve our clients, to more than 281,000 as of November 30, 2013, compared with approximately 275,000 as of August 31, 2013 and approximately 259,000 as of November 30, 2012. The year-over-year increase in our headcount reflects an overall increase in demand for our services, including those delivered through our Global Delivery Network in lower-cost locations, as well as headcount added in connection with acquisitions. Annualized attrition, excluding involuntary terminations, for the first quarter of fiscal 2014 was 11%, down from 12% in the fourth quarter of fiscal 2013 and consistent with the first quarter of fiscal 2013. We evaluate voluntary attrition, adjust levels of new hiring and use involuntary terminations as means to keep our supply of skills and resources in balance with increases or decreases in client demand. In addition, we adjust compensation in certain skill sets and geographies in order to attract

Table of Contents

and retain appropriate numbers of qualified employees, and we may need to continue to adjust compensation in the future. For the majority of our personnel, compensation increases for fiscal 2014 became effective September 1, 2013. As in prior fiscal years, we strive to adjust pricing and/or the mix of resources to reduce the impact of compensation increases on our gross margin. Our ability to grow our revenues and increase our margins could be adversely affected if we are unable to: keep our supply of skills and resources in balance with changes in the types or amounts of services clients are demanding, such as the increase in demand for various outsourcing services; deploy our employees globally on a timely basis; manage attrition; recover increases in compensation; and/or effectively assimilate and utilize new employees.

Gross margin (Net revenues less Cost of services before reimbursable expenses as a percentage of Net revenues) for the first quarter of fiscal 2014 was 33.3%, compared with 32.8% for the first quarter of fiscal 2013. There were several factors affecting cost of services and increasing gross margin in the first quarter of fiscal 2014. We recorded lower annual bonus compensation, directed a higher proportion of resource capacity to selling and other business development activities, and experienced improved outsourcing contract profitability in the first quarter of fiscal 2014. These positive impacts were partially offset by lower consulting contract profitability, including absorption of annual compensation increases that were effective September 1, 2013, as well as increased costs associated with investments in offerings and acquisitions.

Sales and marketing and general and administrative costs as a percentage of net revenues were 18.7% for the first quarter of fiscal 2014 compared with 18.2% for the first quarter of fiscal 2013. Sales and marketing costs are driven primarily by: compensation costs for business development activities; investment in offerings; marketing- and advertising-related activities; and acquisition-related costs. General and administrative costs primarily include costs for non-client-facing personnel, information systems and office space. We continuously monitor these costs and implement cost-management actions, as appropriate. For the first quarter of fiscal 2014 compared to the first quarter of fiscal 2013, sales and marketing costs as a percentage of net revenues increased 60 basis points, as we directed a higher percentage of resource capacity to selling and other business development activities resulting in a greater amount of payroll costs for our client-services personnel being directed to sales and marketing rather than to other activities, which are typically captured in cost of services. Our margins could be adversely affected if our cost-management actions are not sufficient to maintain sales and marketing and general and administrative costs at or below current levels as a percentage of net revenues.

Operating income for the first quarter of fiscal 2014 was \$1,091 million, compared with \$1,049 million for the first quarter of fiscal 2013. Operating margin (Operating income as a percentage of Net revenues) for the first quarter of fiscal 2014 was 14.8%, compared with 14.5% for the first quarter of fiscal 2013.

Our Operating income and Earnings per share are also affected by currency exchange rate fluctuations on revenues and costs. Most of our costs are incurred in the same currency as the related net revenues. Where practical, we also seek to manage foreign currency exposure for costs not incurred in the same currency as the related net revenues, such as the cost of our Global Delivery Network, by using currency protection provisions in our customer contracts and through our hedging programs. We seek to manage our costs, taking into consideration the residual positive and negative effects of changes in foreign exchange rates on those costs.

Table of Contents

Bookings and Backlog

New contract bookings for the first quarter of fiscal 2014 were \$8.68 billion, with consulting bookings of \$4.28 billion and outsourcing bookings of \$4.40 billion.

We provide information regarding our new contract bookings because we believe doing so provides useful trend information regarding changes in the volume of our new business over time. However, new bookings can vary significantly quarter to quarter depending in part on the timing of the signing of a small number of large outsourcing contracts. Clients continue to manage the pace and level of their spending, which may impact the conversion of new contract bookings to revenues. Information regarding our new bookings is not comparable to, nor should it be substituted for, an analysis of our revenues over time. There are no third-party standards or requirements governing the calculation of bookings. New contract bookings involve estimates and judgments regarding new contracts as well as renewals, extensions and changes to existing contracts. We do not update our new bookings for material subsequent terminations or reductions related to bookings originally recorded in prior fiscal years. New contract bookings are recorded using then-existing foreign currency exchange rates and are not subsequently adjusted for foreign currency exchange rate fluctuations.

The majority of our contracts are terminable by the client on short notice, and some without notice. Accordingly, we do not believe it is appropriate to characterize bookings attributable to these contracts as backlog. Normally, if a client terminates a project, the client remains obligated to pay for commitments we have made to third parties in connection with the project, services performed and reimbursable expenses incurred by us through the date of termination.

Revenues by Segment/Operating Group

Our five reportable operating segments are our operating groups, which are Communications, Media & Technology; Financial Services; Health & Public Service; Products; and Resources. Operating groups are managed on the basis of net revenues because our management believes net revenues are a better indicator of operating group performance than revenues. In addition to reporting net revenues by operating group, we also report net revenues by two types of work: consulting and outsourcing, which represent the services sold by our operating groups. Consulting net revenues, which include management and technology consulting and systems integration, reflect a finite, distinct project or set of projects with a defined outcome and typically a defined set of specific deliverables. Outsourcing net revenues typically reflect ongoing, repeatable services or capabilities provided to transition, run and/or manage operations of client systems or business functions.

From time to time, our operating groups work together to sell and implement certain contracts. The resulting revenues and costs from these contracts may be apportioned among the participating operating groups. Generally, operating expenses for each operating group have similar characteristics and are subject to the same factors, pressures and challenges. However, the economic environment and its effects on the industries served by our operating groups affect revenues and operating expenses within our operating groups to differing degrees. The mix between consulting and outsourcing is not uniform among our operating groups. Local currency fluctuations also tend to affect our operating groups differently, depending on the geographic concentrations and locations of their businesses.

While we provide discussion about our results of operations below, we cannot measure how much of our revenue growth in a particular period is attributable to changes in price or volume. Management does not track standard measures of unit or rate volume. Instead, our measures of volume and price are extremely complex, as each of our services contracts is unique, reflecting a customized mix of specific services that does not fit into standard comparability measurements. Pricing for our services is a function of the nature of each service to be provided, the skills required and outcome sought, as well as estimated cost, risk, contract terms and other factors.

Table of Contents

Results of Operations for the Three Months Ended November 30, 2013 Compared to the Three Months Ended November 30, 2012

Net revenues (by operating group, geographic region and type of work) and reimbursements were as follows:

	Three Months Ended November 30,		Percent Increase (Decrease) U.S. Dollars	Percent Increase (Decrease) Local Currency	Percent of Total Net Revenues for the Three Months Ended November 30,

(1) EMEA includes Europe, the Middle East and Africa.

(2) Amounts in table may not total due to rounding.

Net Revenues

The following net revenues commentary discusses local currency net revenue changes for the first quarter of fiscal 2014 compared to the first quarter of fiscal 2013:

Operating Groups

Communications, Media & Technology net revenues decreased 2% in local currency. Outsourcing revenues reflected slight growth, driven by Electronics & High Tech and Media & Entertainment in Americas, partially offset by declines in Electronics & High Tech in EMEA and Communications in Americas. Consulting revenues decreased, due to declines in Communications across all geographic regions and Electronics & High Tech in Asia Pacific, partially offset by strong growth in Electronics & High Tech in Americas. Some of our clients continued to reduce and/or defer their investment in consulting, which had a negative impact on our consulting revenues during the first quarter of fiscal 2014.

- Financial Services net revenues increased 3% in local currency. Outsourcing revenues reflected strong growth, driven by all industry groups in EMEA and Asia Pacific and Capital Markets in Americas. Consulting revenues reflected a modest decline, due to declines in Insurance and Banking in Americas and EMEA, partially offset by growth in Asia Pacific, particularly in Insurance. In certain industries we continued to experience higher demand for outsourcing services, including transformational projects, and

lower demand for short-term consulting services.

Health & Public Service net revenues increased 6% in local currency. Outsourcing revenues reflected strong growth, led by Health and Public Service in Americas. Consulting revenues reflected modest growth, led by Public Service and Health in Americas, partially offset by a decline in Public Service in EMEA.

Table of Contents

Products net revenues increased 6% in local currency. Outsourcing revenues reflected strong growth, driven by all geographic regions and most industry groups, led by Life Sciences, Air Freight & Travel Services and Automotive. Consulting revenues increased, driven by growth in EMEA across most industry groups, led by Retail and Consumer Goods & Services, and in Asia Pacific in Consumer Goods & Services. This growth was partially offset by declines in Retail in Asia Pacific and Consumer Goods & Services in Americas.

Resources net revenues increased 1% in local currency. Consulting revenues reflected slight growth, driven by Energy in Asia Pacific and EMEA, Chemicals in Americas and Utilities in EMEA, partially offset by a decline in Natural Resources in EMEA. Outsourcing revenues reflected a slight decline, primarily due to a decline in Utilities and Natural Resources in Americas, partially offset by growth in Energy in Americas. Some of our clients, primarily in Natural Resources, continued to reduce their level of consulting investments. In addition, several large systems integration projects have ended or have transitioned to smaller phases and demand for our outsourcing services has moderated. We expect these trends will continue to impact Resources year-over-year net revenue growth in the near term.

Geographic Regions

Americas net revenues increased 4% in local currency, driven by the United States, partially offset by declines in Canada and Brazil.

EMEA net revenues increased 1% in local currency, driven by Switzerland, France, Netherlands, Germany and Belgium, partially offset by declines in Spain, Finland and South Africa.

Asia Pacific net revenues increased 5% in local currency, driven by Australia, Thailand, Japan and Indonesia.

Operating Expenses

Operating expenses for the first quarter of fiscal 2014 were \$6,709 million, an increase of \$89 million, or 1%, over the first quarter of fiscal 2013, and decreased as a percentage of revenues to 86.0% from 86.3% during this period.

Operating expenses before reimbursable expenses for the first quarter of fiscal 2014 were \$6,268 million, an increase of \$96 million, or 2%, over the first quarter of fiscal 2013, and decreased as a percentage of net revenues to 85.2% from 85.5% during this period.

Cost of Services

Cost of services for the first quarter of fiscal 2014 was \$5,350 million, an increase of \$49 million, or 1%, over the first quarter of fiscal 2013, and decreased as a percentage of revenues to 68.6% from 69.1% during this period. Cost of services before reimbursable expenses for the first quarter of fiscal 2014 was \$4,909 million, an increase of \$56 million, or 1%, over the first quarter of fiscal 2013, and decreased as a percentage of net revenues to 66.7% from 67.2% during this period. Gross margin for the first quarter of fiscal 2014 increased to 33.3% from 32.8% for the first quarter of fiscal 2013. There were several factors affecting cost of services and increasing gross margin in the first quarter of fiscal 2014. We recorded lower annual bonus compensation, directed a higher proportion of resource capacity to selling and other business development activities, and experienced improved outsourcing contract profitability in the first quarter of fiscal 2014. These positive impacts were partially offset by lower consulting contract profitability, including absorption of annual compensation increases that were effective September 1, 2013, as well as increased costs associated with investments in offerings and acquisitions.

Sales and Marketing

Sales and marketing expense for the first quarter of fiscal 2014 was \$928 million, an increase of \$60 million, or 7%, over the first quarter of fiscal 2013, and increased as a percentage of net revenues to 12.6% from 12.0% during this period. Sales and marketing increased as a percentage of net revenues, as we directed a higher percentage of resource capacity to selling and other business development activities resulting in a greater amount of payroll costs for our client-services personnel being directed to sales and marketing rather than to other activities, which are typically captured in cost of services.

General and Administrative Costs

General and administrative costs for the first quarter of fiscal 2014 were \$448 million, a decrease of \$1 million from the first quarter of fiscal 2013, and decreased as a percentage of net revenues to 6.1% from 6.2% during this period.

Table of Contents

Reorganization (Benefits) Costs, net

We recorded reorganization benefits of \$18 million during the first quarter of fiscal 2014. These benefits reflect the release of all remaining reorganization liabilities established in connection with our transition to a corporate structure in 2001.

Operating Income and Operating Margin

Operating income for the first quarter of fiscal 2014 was \$1,091 million, an increase of \$42 million, or 4%, over the first quarter of fiscal 2013, and increased as a percentage of net revenues to 14.8% from 14.5% during this period.

Operating income and operating margin for each of the operating groups were as follows:

	Three Months Ended November 30,				
	2013		2012		
	Operating	Operating	Operating	Operating	Increase
	Income	Margin	Income	Margin	(Decrease)
	(in millions of U.S. dollars)				
Communications, Media & Technology	\$153	11	% \$183	13	% \$(30)
Financial Services	264	16	241	15	22
Health & Public Service	179	15	143	12	36
Products	247	14	236	14	12
Resources	247	19	245	19	2
Total	\$1,091	14.8	% \$1,049	14.5	% \$42

(1) Amounts in table may not total due to rounding.

The commentary below provides additional insight into operating group performance and operating margin for the first quarter of fiscal 2014 compared with the first quarter of fiscal 2013:

Communications, Media & Technology operating income decreased, primarily due to lower contract profitability and higher sales and marketing costs as a percentage of net revenues.

Financial Services operating income increased, primarily due to outsourcing revenue growth, partially offset by higher sales and marketing costs as a percentage of net revenues.

Health & Public Service operating income increased, primarily due to revenue growth.

- Products operating income was relatively flat, as revenue growth was largely offset by higher sales and marketing costs as a percentage of net revenues.

Resources operating income was flat.

Provision for Income Taxes

The effective tax rate for the first quarter of fiscal 2014 was 25.1%, compared with 26.8% for the first quarter of fiscal 2013. The lower effective tax rate in the first quarter of fiscal 2014 was due to lower additions to tax reserves and benefits related to the release of reorganization liabilities, partially offset by lower benefits related to final determinations.

Our provision for income taxes is based on many factors and subject to volatility year to year. We expect the fiscal 2014 annual effective tax rate to be in the range of 26.5% to 27.5%. The fiscal 2013 annual effective tax rate was 18.1%. During fiscal 2013, we recorded reorganization benefits of \$274 million, which increased income before taxes without any increase in income tax expense. The fiscal 2013 effective tax rate was also impacted by a benefit of \$243 million related to settlements of U.S. federal tax audits for fiscal years 2006 through 2009 recorded during fiscal 2013. Absent these items, the effective tax rate for fiscal 2013 would have been 25.3%

Net Income Attributable to Noncontrolling Interests

Net income attributable to noncontrolling interests for the first quarter of fiscal 2014 was \$60 million, a decrease of \$7 million, or 11%, from the first quarter of fiscal 2013. The decrease was due to a reduction in the Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares average noncontrolling ownership interest to 6% for the first quarter of fiscal 2014 from 8% for the first quarter of fiscal 2013, partially offset by higher Net income of \$46 million during the first quarter of fiscal 2014.

Table of Contents**Earnings Per Share**

Diluted earnings per share were \$1.15 for the first quarter of fiscal 2014, compared with \$1.06 for the first quarter of fiscal 2013. The \$0.09 increase was due to increases of \$0.03 from lower weighted average shares outstanding, \$0.03 from reorganization benefits, \$0.02 from higher revenues and operating results and \$0.02 from a lower effective tax rate. These increases were partially offset by a decrease of \$0.01 from lower non-operating income. For information regarding our earnings per share calculations, see Note 2 (Earnings Per Share) to our Consolidated Financial Statements under Item 1, "Financial Statements."

Liquidity and Capital Resources

Our primary sources of liquidity are cash flows from operations, available cash reserves and debt capacity available under various credit facilities. In addition, we could raise additional funds through public or private debt or equity financings. We may use our available or additional funds to, among other things:

• facilitate purchases, redemptions and exchanges of shares and pay dividends;

• acquire complementary businesses or technologies;

• take advantage of opportunities, including more rapid expansion; or

• develop new services and solutions.

As of November 30, 2013, Cash and cash equivalents was \$4.5 billion, compared with \$5.6 billion as of August 31, 2013.

Cash flows from operating, investing and financing activities, as reflected in our Consolidated Cash Flows Statements, are summarized in the following table:

	Three Months Ended November 30,		
	2013	2012	Change
	(in millions of U.S. dollars)		
Net cash provided by (used in):			
Operating activities	\$ 181	\$ (109)) \$ 290
Investing activities	(196)) (296)) 100
Financing activities	(1,139)) (578)) (561)
Effect of exchange rate changes on cash and cash equivalents	48	21	27
Net decrease in cash and cash equivalents	\$(1,105)) \$(962)) \$(143)

(1) Amounts in table may not total due to rounding.

Operating activities: The year-over-year improvement in operating cash flow was primarily due to a discretionary cash contribution of \$500 million made to our U.S. defined benefit pension plan in the first quarter of fiscal 2013, which had a net impact of \$350 million, after tax.

Investing activities: The \$100 million decrease in cash used was primarily due to decreased spending on business acquisitions. For additional information, see Note 5 (Business Combinations and Goodwill) to our Consolidated Financial Statements under Item 1, "Financial Statements."

Financing activities: The \$561 million increase in cash used was primarily due to an increase in the net purchases of shares and an increase in cash dividends paid. For additional information, see Note 6 (Material Transactions Affecting Shareholders' Equity) to our Consolidated Financial Statements under Item 1, "Financial Statements."

We believe that our available cash balances and the cash flows expected to be generated from operations will be sufficient to satisfy our current and planned working capital and investment needs for the next twelve months. We also believe that our longer-term working capital and other general corporate funding requirements will be satisfied through cash flows from operations and, to the extent necessary, from our borrowing facilities and future financial market activities.

Table of Contents**Borrowing Facilities**

As of November 30, 2013, we had the following borrowing facilities, including the issuance of letters of credit, to support general working capital purposes:

	Facility Amount (in millions of U.S. dollars)	Borrowings Under Facilities
Syndicated loan facility	\$1,000	\$—
Separate, uncommitted, unsecured multicurrency revolving credit facilities	529	—
Local guaranteed and non-guaranteed lines of credit	175	—
Total	\$1,705	\$—

(1) Amounts in table may not total due to rounding.

Under the borrowing facilities described above, we had an aggregate of \$187 million of letters of credit outstanding as of November 30, 2013.

Share Purchases and Redemptions

The Board of Directors of Accenture plc has authorized funding for our publicly announced open-market share purchase program for acquiring Accenture plc Class A ordinary shares and for purchases and redemptions of Accenture plc Class A ordinary shares, Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares held by our current and former members of Accenture Leadership and their permitted transferees. As of November 30, 2013, our aggregate available authorization was \$6,332 million for our publicly announced open-market share purchase and these other share purchase programs.

Our share purchase activity during the three months ended November 30, 2013 was as follows:

	Accenture plc Class A Ordinary Shares		Accenture SCA Class I Common Shares and Accenture Canada Holdings Inc. Exchangeable Shares	
	Shares (in millions of U.S. dollars, except share amounts)	Amount (in millions of U.S. dollars, except share amounts)	Shares	Amount
Open-market share purchases (1)	8,009,209	\$596	—	\$—
Other share purchase programs	—	—	473,737	35
Other purchases (2)	1,232,257	90	—	—
Total	9,241,466	\$686	473,737	\$35

We conduct a publicly announced, open-market share purchase program for Accenture plc Class A ordinary shares.

(1) These shares are held as treasury shares by Accenture plc and may be utilized to provide for select employee benefits, such as equity awards to our employees.

(2) During the first quarter of fiscal 2014, as authorized under our various employee equity share plans, we acquired Accenture plc Class A ordinary shares primarily via share withholding for payroll tax obligations due from employees and former employees in connection with the delivery of Accenture plc Class A ordinary shares under those plans. These purchases of shares in connection with employee share plans do not affect our aggregate available authorization for our publicly announced open-market share purchase and the other share purchase programs.

We intend to continue to use a significant portion of cash generated from operations for share repurchases during the remainder of fiscal 2014. The number of shares ultimately repurchased under our open-market share purchase program may vary depending on numerous factors, including, without limitation, share price and other market conditions, our ongoing capital allocation planning, the levels of cash and debt balances, other demands for cash, such as acquisition activity, general economic and/or business conditions, and board and management discretion.

Additionally, as these factors may change over the course of the year, the amount of share repurchase activity during any particular period cannot be predicted and may fluctuate from time to time. Share repurchases may be made from time to time through open-market purchases, in respect of purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares, through the use of Rule 10b5-1 plans and/or by other means. The repurchase program may be accelerated, suspended, delayed or discontinued at any time, without notice.

Table of Contents

Other Share Redemptions

During the first quarter of fiscal 2014, we issued 263,471 Accenture plc Class A ordinary shares upon redemptions of an equivalent number of Accenture SCA Class I common shares pursuant to our registration statement on Form S-3 (the “registration statement”). The registration statement allows us, at our option, to issue freely tradable Accenture plc Class A ordinary shares in lieu of cash upon redemptions of Accenture SCA Class I common shares held by current and former members of Accenture Leadership and their permitted transferees.

For a complete description of all share purchase and redemption activity for the first quarter of fiscal 2014, see Part II, Item 2, “Unregistered Sales of Equity Securities and Use of Proceeds.”

Off-Balance Sheet Arrangements

In the normal course of business and in conjunction with some client engagements, we have entered into contractual arrangements through which we may be obligated to indemnify clients with respect to certain matters. These arrangements with clients can include provisions whereby we have joint and several liability in relation to the performance of certain contractual obligations along with third parties also providing services and products for a specific project. In addition, our consulting arrangements may include warranty provisions that our solutions will substantially operate in accordance with the applicable system requirements. Indemnification provisions are also included in arrangements under which we agree to hold the indemnified party harmless with respect to third party claims related to such matters as title to assets sold or licensed or certain intellectual property rights.

Typically, we have contractual recourse against third parties for certain payments made by us in connection with arrangements where third party nonperformance has given rise to the client’s claim. Payments by us under any of the arrangements described above are generally conditioned on the client making a claim which may be disputed by us, typically under dispute resolution procedures specified in the particular arrangement. The limitations of liability under these arrangements may be expressly limited or may not be expressly specified in terms of time and/or amount. For arrangements with unspecified limitations, we cannot reasonably estimate the aggregate maximum potential liability, as it is inherently difficult to predict the maximum potential amount of such payments, due to the conditional nature and unique facts of each particular arrangement.

To date, we have not been required to make any significant payment under any of the arrangements described above. For further discussion of these transactions, see Note 8 (Commitments and Contingencies) to our Consolidated Financial Statements under Item 1, “Financial Statements.”

Recently Adopted Accounting Pronouncements

In September 2013, we adopted guidance issued by the Financial Accounting Standards Board (“FASB”), which requires enhanced disclosures about certain financial instruments and derivative instruments that are offset in the Consolidated Balance Sheets or that are subject to enforceable master netting arrangements. The guidance also requires the disclosure of the gross amounts subject to rights of offset, amounts of offset and the related net exposure. The adoption of this guidance did not have a material impact on our Consolidated Financial Statements. For additional information related to master netting arrangements, see Note 7 (Derivative Financial Instruments) to our Consolidated Financial Statements under Item 1, “Financial Statements.”

In August 2013, we adopted guidance issued by the FASB which requires enhanced disclosures in the notes to the consolidated financial statements to present separately, by item, reclassifications out of accumulated other comprehensive income (loss). The adoption of this guidance did not have a material impact on our Consolidated Financial Statements. For additional information related to the reclassifications out of accumulated other comprehensive income (loss), see Note 4 (Accumulated Other Comprehensive Loss) to our Consolidated Financial Statements under Item 1, “Financial Statements.”

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

During the first quarter of fiscal 2014, there were no material changes to the information on market risk exposure disclosed in our Annual Report on Form 10-K for the year ended August 31, 2013. For a discussion of our market risk associated with foreign currency risk, interest rate risk and equity price risk as of August 31, 2013, see “Quantitative and Qualitative Disclosures About Market Risk” in Part II, Item 7A, of our Annual Report on Form 10-K for the year ended August 31, 2013.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our principal executive officer and our principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Based on that evaluation, the principal executive officer and the principal financial officer of Accenture plc have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting that occurred during the first quarter of fiscal 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in a number of judicial and arbitration proceedings concerning matters arising in the ordinary course of our business. We and/or our personnel also from time to time are involved in investigations by various regulatory or legal authorities concerning matters arising in the course of our business around the world. We do not expect that any of these matters, individually or in the aggregate, will have a material impact on our results of operations or financial condition.

We currently maintain the types and amounts of insurance customary in the industries and countries in which we operate, including coverage for professional liability, general liability and management liability. We consider our insurance coverage to be adequate both as to the risks and amounts for the businesses we conduct.

ITEM 1A. RISK FACTORS

For a discussion of our potential risks and uncertainties, see the information under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended August 31, 2013. There have been no material changes to the risk factors disclosed in our Annual Report on Form 10-K for the year ended August 31, 2013.

Table of Contents

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Purchases and Redemptions of Accenture plc Class A Ordinary Shares and Class X Ordinary Shares

The following table provides information relating to our purchases of Accenture plc Class A ordinary shares and redemptions of Accenture plc Class X ordinary shares during the first quarter of fiscal 2014.

Period	Total Number of Shares Purchased	Average Price Paid per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (3) (in millions of U.S. dollars)
September 1, 2013 — September 30, 2013				
Class A ordinary shares	2,362,708	\$74.42	1,729,500	\$ 6,834
Class X ordinary shares	—	\$0.0000225	—	—
October 1, 2013 — October 31, 2013				
Class A ordinary shares	4,270,168	\$73.03	3,779,012	\$ 6,545
Class X ordinary shares	220,683	\$0.0000225	—	—
November 1, 2013 — November 30, 2013				
Class A ordinary shares	2,608,590	\$76.07	2,500,697	\$ 6,332
Class X ordinary shares	311,633	\$0.0000225	—	—
Total				
Class A ordinary shares (4)	9,241,466	\$74.24	8,009,209	
Class X ordinary shares (5)	532,316	\$0.0000225	—	

(1) Average price paid per share reflects the total cash outlay for the period, divided by the number of shares acquired, including those acquired by purchase or redemption for cash and any acquired by means of employee forfeiture.

Since August 2001, the Board of Directors of Accenture plc has authorized and periodically confirmed a publicly announced open-market share purchase program for acquiring Accenture plc Class A ordinary shares. During the first quarter of fiscal 2014, we purchased 8,009,209 Accenture plc Class A ordinary shares under this program for an aggregate price of \$596 million. The open-market purchase program does not have an expiration date.

As of November 30, 2013, our aggregate available authorization for share purchases and redemptions was \$6,332 million, which management has the discretion to use for either our publicly announced open-market share purchase program or the other share purchase programs. Since August 2001 and as of November 30, 2013, the Board of Directors of Accenture plc has authorized an aggregate of \$25.1 billion for purchases and redemptions of Accenture plc Class A ordinary shares, Accenture SCA Class I common shares or Accenture Canada Holdings Inc. exchangeable shares.

During the first quarter of fiscal 2014, Accenture purchased 1,232,257 Accenture plc Class A ordinary shares in transactions unrelated to publicly announced share plans or programs. These transactions consisted of acquisitions of Accenture plc Class A ordinary shares primarily via share withholding for payroll tax obligations due from employees and former employees in connection with the delivery of Accenture plc Class A ordinary shares under our various employee equity share plans. These purchases of shares in connection with employee share plans do not affect our aggregate available authorization for our publicly announced open-market share purchase and the other share purchase programs.

During the first quarter of fiscal 2014, we redeemed 532,316 Accenture plc Class X ordinary shares pursuant to our articles of association. Accenture plc Class X ordinary shares are redeemable at their par value of \$0.0000225 per share.

Table of Contents

Purchases and Redemptions of Accenture SCA Class I Common Shares and Accenture Canada Holdings Inc. Exchangeable Shares

The following table provides additional information relating to our purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares for cash during the first quarter of fiscal 2014. We believe that the following table and footnotes provide useful information regarding the share purchase and redemption activity of Accenture. Generally, purchases and redemptions of Accenture SCA Class I common shares and Accenture Canada Holdings Inc. exchangeable shares for cash and employee forfeitures reduce shares outstanding for purposes of computing diluted earnings per share.

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (3)
Accenture SCA				
September 1, 2013 — September 30, 2013				
Class I common shares	—	—	—	—
October 1, 2013 — October 31, 2013				
Class I common shares	157,389	\$ 73.61	—	—
November 1, 2013 — November 30, 2013				
Class I common shares	289,348	\$ 75.46	—	—
Total				
Class I common shares	446,737	\$ 74.81	—	—
Accenture Canada Holdings Inc.				
September 1, 2013 — September 30, 2013				
Exchangeable shares	—	—	—	—
October 1, 2013 — October 31, 2013				
Exchangeable shares	27,000	\$ 73.68	—	—
November 1, 2013 — November 30, 2013				
Exchangeable shares	—	—	—	—
Total				
Exchangeable shares	27,000	\$ 73.68	—	—

- During the first quarter of fiscal 2014, we acquired a total of 446,737 Accenture SCA Class I common shares and 27,000 Accenture Canada Holdings Inc. exchangeable shares from current and former members of Accenture Leadership and their permitted transferees by means of purchase or redemption for cash, or employee forfeiture, as applicable. In addition, during the first quarter of fiscal 2014, we issued 263,471 Accenture plc Class A ordinary shares upon redemptions of an equivalent number of Accenture SCA Class I common shares pursuant to the registration statement.
- (1) Average price paid per share reflects the total cash outlay for the period, divided by the number of shares acquired, including those acquired by purchase or redemption for cash and any acquired by means of employee forfeiture. As of November 30, 2013, our aggregate available authorization for share purchases and redemptions was \$6,332 million, which management has the discretion to use for either our publicly announced open-market share purchase program or the other share purchase programs. Since August 2001 and as of November 30, 2013, the Board of Directors of Accenture plc has authorized an aggregate of \$25.1 billion for purchases and redemptions of Accenture plc Class A ordinary shares, Accenture SCA Class I common shares or Accenture Canada Holdings Inc. exchangeable shares.
